PROCEEDINGS AND DEBATES OF THE 110th CONGRESS, FIRST SESSION

Vol. 153

WASHINGTON, MONDAY, DECEMBER 17, 2007

No. 193—Book II

House of Representatives

EXPLANATORY STATEMENT SUBMITTED BY MR. OBEY, CHAIRMAN OF THE HOUSE COMMITTEE ON APPROPRIATIONS, REGARDING THE CONSOLIDATED APPROPRIATIONS AMENDMENT OF THE HOUSE OF REPRESENTATIVES TO THE SENATE AMENDMENT TO H.R. 2764

Following is an explanation of the amendment of the House of Representatives (relating to consolidated appropriations for fiscal year 2008) to the amendment of the Senate to H.R. 2764, the State, Foreign Operations, and Related Programs Appropriations Act, 2008, including disclosure of congressional earmarks and congressionally directed spending items as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate.

Section 4 of the House amendment specifies that this explanatory statement shall have the same effect with respect to the allocation of funds and implementation of this Consolidated Appropriations Act as if it were a joint explanatory statement of a committee of conference.

In this statement, the provisions of the House amendment to the Senate amendment are generally referred to as “the amended bill”. Where comparisons are made to House and Senate action, unless otherwise stated these comparisons are to the versions of the applicable 2008 Appropriations Act as passed by the House and as passed by the Senate (or as reported by the Senate Committee on Appropriations, in the case of bills that have not been passed by the Senate).

The House amendment strikes the text of the Senate amendment and inserts a Consoli-

dated Appropriations Act covering 11 regular appropriations bills, each in a separate division, as follows:

- Division A—Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2008;
- Division B—Commerce, Justice, Science, and Related Agencies Appropriations Act, 2008;
- Division C—Energy and Water Development and Related Agencies Appropriations Act, 2008;
- Division D—Financial Services and General Government Appropriations Act, 2008;
- Division E—Department of Homeland Security Appropriations Act, 2008;
- Division F—Department of the Interior, Environment, and Related Agencies Appropriations Act, 2008;

NOTICE

If the 110th Congress, 1st Session, adjourns sine die on or before December 21, 2007, a final issue of the *Congressional Record* for the 110th Congress, 1st Session, will be published on Friday, December 28, 2007, in order to permit Members to revise and extend their remarks.

All material for insertion must be signed by the Member and delivered to the respective offices of the Official Reporters of Debates (Room HT-60 or S-123 of the Capitol), Monday through Friday, between the hours of 10:00 a.m. and 3:00 p.m. through Thursday, December 27. The final issue will be dated Friday, December 28, 2007, and will be delivered on Wednesday, January 2, 2008.

None of the material printed in the final issue of the *Congressional Record* may contain subject matter, or relate to any event that occurred after the sine die date.

Senators' statements should also be formatted according to the instructions at http://webster/secretary/cong_record.pdf, and submitted electronically, either on a disk to accompany the signed statement, or by e-mail to the Official Reporters of Debates at “Record@Sec.Senate.gov”.

Members of the House of Representatives' statements may also be submitted electronically by e-mail, to accompany the signed statement, and formatted according to the instructions for the Extensions of Remarks template at <http://clerk.house.gov/forms>. The Official Reporters will transmit to GPO the template formatted electronic file only after receipt of, and authentication with, the hard copy, and signed manuscript. Deliver statements to the Official Reporters in Room HT-60.

Members of Congress desiring to purchase reprints of material submitted for inclusion in the *Congressional Record* may do so by contacting the Office of Congressional Publishing Services, at the Government Printing Office, on 512-0224, between the hours of 8:00 a.m. and 4:00 p.m. daily.

By order of the Joint Committee on Printing.

ROBERT A. BRADY, *Chairman.*

• Division G—Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008;

• Division H—Legislative Branch Appropriations Act, 2008;

• Division I—Military Construction and Veterans Affairs and Related Agencies Appropriations Act, 2008;

• Division J—Department of State, Foreign Operations and Related Programs Appropriations Act, 2008;

• Division K—Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2008.

Section 1 of the amended bill provides that the bill as a whole may be referred to as the Consolidated Appropriations Act, 2008. Section 3 states that, unless expressly provided otherwise, any reference to “this Act” contained in any division of the amended bill shall be treated as referring only to the provisions of that division. Section 5 contains an emergency designation (for purposes of section 204 of S. Con. Res 21, the concurrent resolution on the budget for fiscal year 2008) which applies to certain appropriations within the divisions of the Act that make reference to section 5.

DIVISION A—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. _____ (hereafter referred to as “the amended bill”) relative to the versions of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2008 (H.R. 3161) passed by the House of Representatives and S. 1859 reported by the Senate Appropriations Committee.

CONGRESSIONAL DIRECTIVES

This statement remains silent on provisions that were in both the House and Senate bills that remain unchanged by this amended bill, except as noted in this statement.

Executive branch wishes cannot substitute for Congress’ own statements as to the best evidence of congressional intentions—that is, the official reports of the Congress. Funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: “Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law.”

The House and Senate report language that is not changed by this statement is approved. This statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.

TITLE I—AGRICULTURAL PROGRAMS

PRODUCTION, PROCESSING AND MARKETING

OFFICE OF THE SECRETARY

The amended bill provides \$5,097,000 for the Office of the Secretary instead of \$5,404,900 as proposed by the House and \$5,309,000 as proposed by the Senate.

The Committees on Appropriations direct USDA to submit a plan to the Committees that fully addresses the weaknesses in the food safety system that led GAO to list food safety on its January 2007 high-risk list.

The Committees believe that agencies must make every effort to reach management decision on audit recommendations by

the Office of Inspector General within 180 days, as required under OMB Circular A-50. The Committees are aware that there are a large number of recommendations on which numerous USDA agencies have not reached management decision within the prescribed time period; some of these matters date back years. In lieu of the individual agency reports requested by the House, the Secretary is directed to submit a single report to the Committees with a plan for reaching management decision on all recommendations that have been outstanding more than 180 days as of the date of enactment of this Act.

USDA is directed, unless otherwise stated herein, to provide all reports and studies requested by the Appropriations Committees of the House and Senate, or by this explanatory statement, in an agreed upon format within 60 days after the enactment of this Act.

The Committees on Appropriations are concerned that excessive assessments of programs, projects, and activities are being used to fund individual agencies’ overhead and indirect costs. The Committees on Appropriations direct the Secretary to submit a report, concurrent with the fiscal year 2009 budget submission, that explains in detail by agency the charges agencies assess programs, projects, and/or activities and how those assessments are used.

EXECUTIVE OPERATIONS

CHIEF ECONOMIST

The amended bill provides \$10,487,000 for the Office of the Chief Economist instead of \$10,847,000 as proposed by both the House and the Senate.

NATIONAL APPEALS DIVISION

The amended bill provides \$14,466,000 for the National Appeals Division instead of \$15,056,000 as proposed by both the House and the Senate.

OFFICE OF BUDGET AND PROGRAM ANALYSIS

The amended bill provides \$8,270,000 for the Office of Budget and Program Analysis instead of \$8,622,000 as proposed by the House and \$9,035,000 as proposed by the Senate.

HOMELAND SECURITY STAFF

The amended bill provides \$931,000 for Homeland Security Staff instead of \$2,252,000 as proposed by both the House and the Senate.

OFFICE OF THE CHIEF INFORMATION OFFICER

The amended bill provides \$16,361,000 for the Office of the Chief Information Officer instead of \$16,723,000 as proposed by both the House and the Senate.

COMMON COMPUTING ENVIRONMENT

The amended bill provides funding for the common computing environment in the appropriate agency accounts as proposed by both the House and the Senate.

OFFICE OF THE CHIEF FINANCIAL OFFICER

The amended bill provides \$5,850,000 for the Office of the Chief Financial Officer instead of \$6,076,000 as proposed by both the House and the Senate.

OFFICE OF THE ASSISTANT SECRETARY FOR CIVIL RIGHTS

The amended bill provides \$854,000 for the Office of the Assistant Secretary for Civil Rights instead of \$897,000 as proposed by the House and \$861,000 as proposed by the Senate.

OFFICE OF CIVIL RIGHTS

The amended bill provides \$20,496,000 for the Office of Civil Rights instead of \$23,147,000 as proposed by the House and \$20,706,000 as proposed by the Senate.

OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION

The amended bill provides \$673,000 for the Office of the Assistant Secretary for Admin-

istration instead of \$709,000 as proposed by both the House and the Senate.

AGRICULTURE BUILDINGS AND FACILITIES AND RENTAL PAYMENTS

The amended bill provides \$196,252,000 for agriculture buildings and facilities and rental payments instead of \$196,616,000 as proposed by the House and \$199,016,000 as proposed by the Senate.

HAZARDOUS MATERIALS MANAGEMENT

The amended bill provides \$4,886,000 for Hazardous Materials Management instead of \$12,200,000 as proposed by the House and \$5,200,000 as proposed by the Senate.

DEPARTMENTAL ADMINISTRATION

The amended bill provides \$23,144,000 for Departmental Administration instead of \$23,913,000 as proposed by both the House and the Senate.

OFFICE OF THE ASSISTANT SECRETARY FOR CONGRESSIONAL RELATIONS

The amended bill provides \$3,795,000 for the Office of the Assistant Secretary for Congressional Relations instead of \$3,936,000 as proposed by both the House and the Senate.

OFFICE OF COMMUNICATIONS

The amended bill provides \$9,338,000 for the Office of Communications instead of \$9,720,000 as proposed by both the House and the Senate.

OFFICE OF INSPECTOR GENERAL

The amended bill provides \$80,052,000 for the Office of Inspector General instead of \$85,998,000 as proposed by the House and \$81,627,000 as proposed by the Senate.

OFFICE OF THE GENERAL COUNSEL

The amended bill provides \$39,227,000 for the Office of the General Counsel instead of \$40,964,000 as proposed by the House and \$40,764,000 as proposed by the Senate.

OFFICE OF THE UNDER SECRETARY FOR RESEARCH, EDUCATION AND ECONOMICS

The amended bill provides \$596,000 for the Office of the Under Secretary for Research, Education and Economics instead of \$626,000 as proposed by both the House and the Senate.

ECONOMIC RESEARCH SERVICE

The amended bill provides \$77,943,000 for the Economic Research Service (ERS) instead of \$79,282,000 as proposed by the House and \$76,532,000 as proposed by the Senate.

The following increases are provided: \$1,000,000 as requested to strengthen research and modeling capacity in bio-energy and the market impacts associated with bio-energy development; \$1,500,000 to strengthen and enhance the ERS market analysis and outlook program and analysis of global and differentiated product markets; and \$250,000 to research deployment of broadband service to households with no or limited broadband access.

NATIONAL AGRICULTURAL STATISTICS SERVICE

The amended bill provides \$163,355,000 for the National Agricultural Statistics Service instead of \$166,099,000 as proposed by the House and \$167,699,000 as proposed by the Senate.

AGRICULTURAL RESEARCH SERVICE

SALARIES AND EXPENSES

The amended bill provides \$1,128,944,000 for the Agricultural Research Service, Salaries and Expenses, instead of \$1,076,340,000 as proposed by the House and \$1,154,174,000 as proposed by the Senate.

Within available resources, the Department is encouraged to take appropriate actions, consistent with the directives in this explanatory statement, to address areas of crop and livestock protection, foods (including food allergens), nutrition, colony collapse disorder, and other areas included in

the President's budget for these research needs.

The Committees are aware of the actions taken by the Department to terminate, change, modify, and redirect congressionally-added research projects to align them with the Administration's priority research initiatives. The Committees concur with the reallocation of these projects as implemented and obligated by ARS in fiscal year 2007, with the exception of those projects that are identified in the paragraphs below. The modification to programs also applies to the specific items identified in House Report 110-258, which include: Aerial Application Research, College Station, TX, \$584,000; Animal Vaccines, Greenport, NY, \$1,628,000; Appalachian Horticulture Research (U of TN/TN State), Poplarville, MS, \$784,000; Aquaculture Research, Aberdeen, ID, \$629,000; Arbuscular Mycorrhizal Fungi (Rodale Inst.), Wyndmoor, PA, \$45,000; Arkansas Children's Nutrition Center, Little Rock, AR, \$585,000; Avian Pneumovirus/Asian Bird Influenza, Athens, GA, \$292,000; Barley Health Food Benefits, Beltsville, MD, \$477,000; Bee Research, Weslaco, TX, \$244,000; Biomass Crop Production, Brookings, SD, \$1,213,000; Biomedical Materials in Plants, Biotech Foundation, Beltsville, MD, \$1,821,000; Biomineral Soil Amendments for Control of Nematode, Beltsville, MD, \$390,000; Bioremediation Research, Beltsville, MD, \$119,000; Bovine Genetics, Beltsville, MD, \$1,914,000; Broomweed Biological Controls, Albany, CA, \$445,000; Catfish Genome, Auburn, AL, \$878,000; Central Great Plains Research Station, Akron, CO, \$534,000; Cereal Crops Research, Madison, WI, \$902,000; Cereal Disease, St. Paul, MN, \$311,000; Chronic Diseases of Children, Houston, TX, \$497,000; Citrus Waste Utilization, Winter Haven, FL, \$393,000; Coffee and Cocoa, Beltsville, MD, \$853,000; Corn Germplasm, Ames, IA, \$852,000; Corn Rootworm, Ames, IA, \$490,000; Cotton Pathology, Shafter, CA, \$362,000; Cropping Systems Research, Stoneville, MS, \$849,000; Dairy Genetics, Beltsville, MD, \$930,000; Diet and Immune Function, Little Rock, AR, \$235,000; Dryland Production, Akron, CO, \$235,000; Floriculture and Nursery Crops, Beltsville, MD, \$2,476,000; Food Fermentation Research, Raleigh, NC, \$362,000; Food Safety for Listeria and E Coli, College Station, TX, \$81,000; Food Safety for Listeria, E coli, and other Food Pathogens, Beltsville, MD, \$134,000; Foundry Sand By-Products Utilization, Beltsville, MD, \$685,000; Grand Forks Human Nutrition Research Laboratory, Grand Forks, ND, \$580,000; Grape Genetics, Geneva, NY, \$629,000; Grape Rootstock, Geneva, NY, \$574,000; Grassland Soil and Water Research, Temple, TX, \$220,000; Greenhouse and Hydroponics Research, Wooster, OH, \$1,555,000; Greenhouse Lettuce Germplasm, Salinas, CA, \$224,000; Harry K. Dupree National Aquaculture Research Center, Stuttgart, AR, \$439,000; Hops Research, Corvallis, OR, \$464,000; Human Nutrition (Equipment), Boston, MA, \$98,000; Human Nutrition (Obesity), Boston, MA, \$730,000; Improved Crop Production Practices, Auburn, AL, \$1,387,000; Invasive Aquatic Weeds, Ft. The Committees further expect the Secretary to continue all other merit-based projects in fiscal year 2008, as modified, to ensure that they continue to address the Nation's food and agriculture research priorities of food safety, human nutrition, plant and animal protection, genetics and germplasm research, natural resources conservation, and bioenergy and bioproducts research, as well as focus on the Administration's agricultural defense initiative.

The Committees do not agree with the redirection of the following research activities and recommend the continuation of funding and resources as described below: Animal Health Consortium, Peoria, IL, \$879,000; Aquaculture Fisheries Center, Pine Bluff, AR, \$557,000; Aquaculture Initiatives, Harbor Branch Oceanographic Institute, Stuttgart, AR, \$1,713,000; Biotechnology Research Development Corporation, Peoria, IL, \$2,685,000; Center for Agroforestry, Booneville, AR, \$708,000; Crop Production and Food Processing, Peoria, IL, \$843,000; Dale Bumpers Small Farms Research Center, Booneville, AR, \$1,936,000; Delta Nutrition Initiative, Little Rock, AR, \$4,223,000; Diet Nutrition and Obesity Research (Pennington), New Orleans, LA, \$669,000; Endophyte Research, Booneville, AR, \$1,066,000; Formosan Subterranean Termite, New Orleans, LA, \$3,743,000; Lyme Disease 4 Poster Project, Beltsville, MD (National Program), \$751,000; Mid-West/Mid-South Irrigation, Columbia, MO, \$692,000; Mosquito Trapping Research/West Nile Virus, Gainesville, FL, \$1,238,000; National Center for Agricultural Law, Beltsville, MD, \$701,000; National Corn to Ethanol Research Pilot Plant, HQ, \$386,000; Phytoestrogen Research, New Orleans, LA, \$1,530,000; Seismic and Acoustic Technologies in Soils Sedimentation Lab, Oxford, MS, \$356,000; Termite Species in Hawaii, Gainesville, FL, \$139,000; Tropical Aquaculture Feeds, Hilo, HI, \$1,542,000; Vector-borne Diseases, Gainesville, FL, \$220,000; Water Management Research Laboratory, Brawley, CA, \$340,000; and Water Use Reduction, Dawson, GA, \$382,000.

BUILDINGS AND FACILITIES

The amended bill provides \$47,082,000 for the Agricultural Research Service, Buildings and Facilities, instead of \$64,000,000 as proposed by the House and \$40,100,000 as proposed by the Senate.

Funding is provided for the following items: Agricultural Research Center (Logan, UT), \$5,600,000; Alcorn State University Biotechnology Laboratory (MS), \$1,400,000; Animal Bioscience Facility (Bozeman, MT), \$1,883,000; Animal Waste Management Research Laboratory (Bowling Green, KY), \$1,400,000; Appalachian Fruit Lab (WV), \$1,540,000; Center for Advanced Viticulture and Tree Crop Research (Davis, CA), \$1,883,000; Center for Grape Genetics (Geneva, NY), \$1,883,000; Center of Excellence for Vaccine Research (Storrs, CT), \$1,883,000; Dairy Forage Agricultural Research Center (Prairie du Sac, WI), \$2,520,000; Forage—Animal Production Research Facility (KY), \$2,100,000; Hagerman Fish Culture Experiment Station (ID), \$700,000; Jamie Whitten Delta States Research Center (Stoneville, MS), \$2,800,000; National Center for Agricultural Utilization Research (Peoria, IL), \$1,883,000; National Plant and Genetics Security Center (Columbia, MO), \$2,100,000; Poultry Science Research Facility (Starkville, MS), \$1,400,000; Southeastern Poultry Research Laboratory (Athens, GA), \$2,800,000; Systems Biology Research Facility (Lincoln, NE), \$1,400,000; U.S. National Arboretum (Washington, DC), \$700,000; University of Toledo Greenhouse and Hydroponic Research Complex (Toledo, OH), \$1,883,000; U.S. Agricultural Research Facility, Knippling-

Bushland Laboratory (Kerrville, TX), \$1,400,000; U.S. Agricultural Research Service Laboratory (Canal Point, FL), \$525,000; U.S. Agricultural Research Service Laboratory (Pullman, WA), \$1,883,000; U.S. Agricultural Research Service Sugarcane Research Laboratory (Houma, LA), \$1,883,000; U.S. Agricultural Research Station (Salinas, CA), \$1,883,000; and U.S. Pacific Basin Agricultural Research Center (HI), \$1,750,000.

COOPERATIVE STATE RESEARCH, EDUCATION,
AND EXTENSION SERVICE

RESEARCH AND EDUCATION ACTIVITIES

The amended bill provides \$672,997,000 for research and education activities instead of \$671,419,000 as proposed by the House and \$700,849,000 as proposed by the Senate.

In lieu of the report requested by the House, the Committees encourage CSREES to include additional information in the budget justification on the primary research objective or objectives of each program for which funds are requested.

The Committees provide \$192,229,000 for competitive research under the National Research Initiative (NRI). Of this amount, \$3,000,000 is provided for the NRI for research that will be of direct benefit to the Food and Drug Administration (FDA) in pursuit of its food safety regulatory responsibilities. The Secretary of Agriculture and the Commis-

sioner of the FDA are directed to consult on setting the priorities for this research and report to the Committees on the specific areas of research to be pursued under the agreement of USDA and FDA.

The Committees encourage the Secretary to provide the requested increase for bio-energy and biobased fuels research within the funds provided for NRI and to give greater emphasis on NRI funding for forestry and natural resources topics.

The Committees also encourage the Department to use not less than 10 percent of competitive research grant funds for USDA's agricultural research enhancement awards program (including USDA-EPSCoR), in accordance with 7 USC 450i.

As part of the special research grant total, the Committees provide \$2,095,000 for policy research under the authorities of 7 U.S.C. 3155. Of this amount, \$1,200,000 is provided for the Food and Agriculture Policy Research Institute of which \$180,000 is for a cooperative agreement with the University of Wisconsin relating to dairy policy and \$150,000 is for the University of Nevada at Reno relating to the marketing of commodities in the Western United States. In addition, \$895,000 is for the Rural Policies Institute.

The Appropriations Committees appreciate the role of stakeholders, university per-

sonnel, and others that bring to the attention of the Congress research priorities necessary for the protection and improvement of agricultural production, nutrition, conservation, economic development, and other areas of vital importance to rural America. The Committees believe that these research activities, in conjunction with those identified through the Department's own prioritization, offer a good balance of meeting the range of research needs for the nation. The Committees expect the Secretary to work with grantees under special research authorities to ensure that the objectives of the research are clearly articulated and that the research conclusions are made available to stakeholders, and the general public, in a way that will disseminate the information in a proper and useful manner.

In the distribution of funds under the Alternative Crops program, the Secretary shall ensure that regional representation is a component of any request for proposals by research institutions and universities. The Appropriations Committees strongly encourage the Secretary to engage stakeholders in the administration of program activities.

NATIVE AMERICAN INSTITUTIONS ENDOWMENT
FUND

The amended bill provides \$11,880,000 for the Native American Institutions Endowment Fund as proposed by both the House and the Senate.

EXTENSION ACTIVITIES

The amended bill provides \$456,460,000 for extension activities instead of \$463,886,000 as proposed by the House and \$458,537,000 as proposed by the Senate.

When awarding Rural Health and Safety Education Program funds, the Department

should give priority to applicants with a demonstrated history of training and educating nurses and allied health professionals committed to rural practice.

The amended bill provides \$27,063,000 for agricultural quarantine inspection. Of this amount, \$2,079,000 is for interline activities in Hawaii and \$225,000 is for the Washington Clean Plant Program.

The amended bill provides \$123,371,000 for animal health monitoring and surveillance. Within this amount, the following items are provided: Biosafety (VT), \$242,000; Conservation Science at Lincoln Park Zoo (IL), \$37,000; New Mexico Rapid Syndrome Validation Program, \$407,000; Wisconsin Livestock Identification Consortium, \$1,485,000; Database of North Carolina's Agriculture Industry, \$223,000; Remote Diagnostic and Wildlife Disease Surveillance (ND), \$1,364,000; and National Farm Animal Identification and Records, \$446,000.

The amended bill provides \$9,750,000 to continue implementation of NAIS. The Committees very much appreciate the work that has gone into the drafting of the NAIS business plan and have reviewed drafts of the document. While the document does help to define and separate out aspects of the program, it does not provide sufficient justification for the requested appropriation of \$33,171,000 for NAIS for fiscal year 2008.

The plan does not indicate how APHIS will reach its 48-hour traceback goal, a question that the Committees have been asking APHIS every year since the program started. While it sets forth key outcomes, there is no clear presentation of how APHIS will actually reach those goals, and APHIS does not provide an estimate of the full cost of implementing the plan.

The Committees' concern about how the funds for the program have been used is not new, and the plan indicates that those concerns were justified. The Committees are concerned that 51 percent of the obligations to date in NAIS have been for cooperative agreements that, until very recently, did not require that cooperators or grantees agree to specific performance goals. Another 25 percent has gone for program management.

In light of the lack of information provided on full costs and concerns about the use of funds to date, the Committees simply cannot provide the full request.

The amended bill provides an increase of \$1,750,000 over fiscal year 2007 for emergency management systems, of which \$750,000 is for the national veterinary vaccine stockpile and \$1,000,000 is for animal care in emergencies.

The amended bill provides an increase of \$4,525,000 over fiscal year 2007 for highly pathogenic avian influenza for domestic surveillance and preparedness.

The amended bill provides \$27,724,000 for pest detection. Of this amount, \$623,000 is for the California County Pest Detection Augmentation Program and \$743,000 is for import inspection in California.

The amended bill provides an increase of \$375,000 over fiscal year 2007 for select agents for work related to the Agricultural Bioterrorism Protection Act and \$375,000 to continue addressing issues raised by the Office of Inspector General.

The amended bill provides an increase of \$5,600,000 over 2007 for aquaculture for activities related to Viral Hemorrhagic Septicemia.

The amended bill provides \$9,532,000 for brucellosis. Of this amount, \$697,000 is for the Greater Yellowstone Interagency Brucellosis Committee.

The amended bill provides \$17,807,000 for chronic wasting disease. Of this amount, \$1,299,000 is for surveillance in Wisconsin; \$183,000 is for surveillance in Utah; and \$38,000 is for surveillance in Colorado.

The amended bill provides \$127,859,000 for emerging plant pests as follows: \$20,007,000 for Asian long-horned beetle, including

\$353,000 for Illinois; \$35,559,000 for citrus health; \$23,175,000 for glassy-winged sharpshooter; \$9,600,000 for potato cyst nematode; \$30,657,000 for emerald ash borer, including \$1,500,000 for Illinois; \$5,326,000 for sudden oak death; \$1,507,000 for Karnal bunt; \$371,000 for hydrilla control in Virginia; \$234,000 for olive fruit fly (CA); \$1,000,000 for light brown apple moth; and \$423,000 for miscellaneous pests.

The Committees encourage the Secretary to ensure adequate funding is made available for Asian long-horned beetle activities in New York. The Committees also encourage the Secretary to help States with new emerald ash borer outbreaks, such as Maryland, and States that are at risk, such as Wisconsin.

The Committees encourage APHIS to use the funding provided for sudden oak death (*Phytophthora ramorum*) to promote the research, development and testing of new systems of nursery pest and disease management and programs of inspection and regulation; for surveying; and for diagnostic tools. The Committees request a report, within 120 days of the enactment of this Act, that examines the effectiveness of current regulatory and inspection efforts; delivers an assessment of the potential risk from infected plant material; and the risk posed by the importation into the United States of *P. ramorum* host and associated host plants and the interstate movement of such plant material.

Of the amount provided for hydrilla control, \$333,900 is for a cooperative agreement with the Lake Gaston Weed Control Council and \$37,100 is for a cooperative agreement with the Tri-County (Smith Mountain) Lake Administrative Commission. The agency is directed to provide technical assistance to these entities in carrying out control efforts, and report back to the Committees by May 1, 2008, on the status of these projects.

The amended bill provides \$6,643,000 for the grasshopper program. Of this amount, \$1,125,000 is for grasshopper and Mormon cricket activities in Nevada and \$1,125,000 is for grasshopper and Mormon cricket activities in Utah.

The amended bill provides \$10,613,000 for John's disease. Of this amount, \$933,000 is for activities in Wisconsin.

The amended bill provides \$15,720,000 for low pathogen avian influenza. Of this amount, \$750,000 is for avian influenza preparedness activities in Connecticut.

The amended bill provides \$1,788,000 for noxious weeds. Of this amount, \$223,000 is for cogongrass control in Mississippi; \$37,000 for weed management in Nevada; \$222,000 for the National Biodiversity Conservation Strategy; and \$188,000 for the Nez Perce Bio-Control Center.

The amended bill provides \$75,447,000 for wildlife services operations. Within this amount, the following items are provided: integrated predation management activities in West Virginia, \$300,000; cormorant control, Lake Champlain, \$111,000; beaver management and control in Mississippi, \$475,000; beaver management in North Carolina, \$223,000; blackbird management in North Dakota and South Dakota, \$284,000; blackbird management in Louisiana, \$101,000; blackbird management in Kansas, \$128,000; cormorant control in Michigan, \$149,000; cormorant control, Delta States, \$239,000; Tri-State predator control, \$993,000; brown tree snake management, \$705,000; wildlife services, South Dakota, \$557,000; the Cooperative Livestock Protection Program, \$225,000; wolf predation management in Wisconsin, Minnesota, and Michigan, \$779,000; crop and aquaculture losses in Southeast Missouri, \$222,000; predation wildlife services in Virginia, \$150,000; and cormorant control in New York, \$743,000.

The Committees encourage APHIS to provide the fiscal year 2007 funding levels for wildlife services in Hawaii and Arkansas.

The Committees understand that APHIS has, and will continue to use, statutory authority to reimburse employees for the use of personally owned animals and equipment, including but not limited to horses, dogs, all terrain vehicles, snowmobiles, computer connectivity, and cellular telephones.

The amended bill provides \$11,811,000 for biotechnology regulatory services (BRS), including \$278,000 for the Biosafety Institute/National Institute for Genetically Modified Agriculture Products. An increase of \$1,000,000 is provided for increased enforcement of BRS regulations.

The amended bill includes an increase of \$1,000,000 over fiscal year 2007 for plant methods development labs to support the development of detection and control tools to contain and eradicate the emerald ash borer.

The amended bill includes an increase of \$1,000,000 over fiscal year 2007 for veterinary biologics for meeting increased demands for applications and addressing containing requirements and meeting standards related to the use of select agents and toxins.

The amended bill provides \$23,256,000 for veterinary diagnostics, including an increase of \$300,000 over 2007 for the National Veterinary Services Laboratories accreditation. Of the total provided, \$75,000 is for disease prevention, LA; \$75,000 for Agriculture Compliance Laboratory equipment, DE; \$75,000 for aquaculture monitoring technology, KY; and \$278,000 for the National Agriculture Biosecurity Center, KS.

The amended bill provides \$17,880,000 for wildlife services methods development, including an increase of \$500,000 for the avian influenza initiative to study the virus in swine. Of the total provided, the following items are provided: the National Wildlife Research Station in Kingsville, Texas, \$311,000; the Berryman Institute, UT/MS, \$1,125,000; the Predatory Research Station, UT, \$1,040,000; the National Wildlife Research Center in Mississippi, \$257,000; the National Wildlife Research Center in Hilo, Hawaii, \$173,000; and rodent control in Arkansas, \$113,000.

BUILDINGS AND FACILITIES

The amended bill provides no funding for Animal and Plant Health Inspection Service, Buildings and Facilities, instead of \$4,946,000 as proposed by both the House and the Senate.

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

The amended bill provides \$76,862,000 for the Agricultural Marketing Service instead of \$79,945,000 as proposed by the House and \$80,145,000 as proposed by the Senate.

In lieu of bill language included by the Senate, the Committees reaffirm the schedule and report requirements included in the House report related to Country of Origin Labeling.

LIMITATION ON ADMINISTRATIVE EXPENSES

The amended bill provides \$61,233,000 for Limitation on Administrative Expenses as proposed by both the House and the Senate.

FUNDS FOR STRENGTHENING MARKETS, INCOME, AND SUPPLY (SECTION 32)

The amended bill provides \$16,798,000 for Funds for Strengthening Markets, Income, and Supply as proposed by both the House and the Senate.

In addition, the Committees provide \$10,000,000 for the Web-based Supply Chain Management system as proposed by the Senate instead of \$20,000,000 as proposed by the House.

PAYMENTS TO STATES AND POSSESSIONS

The amended bill appropriates \$11,709,000 for Payments to States and Possessions instead of \$1,334,000 as proposed by the House and \$3,834,000 as proposed by the Senate.

Of the total provided, \$8,500,000 is for specialty crops block grants and \$1,875,000 is for a grant for the development of specialty markets in Wisconsin.

GRAIN INSPECTION, PACKERS AND STOCKYARDS ADMINISTRATION

SALARIES AND EXPENSES

The amended bill provides \$38,785,000 for the Grain Inspection, Packers and Stockyards Administration instead of \$41,115,000 as proposed by the House and \$39,115,000 as proposed by the Senate. The amount provided includes an increase of \$1,000,000 for increased enforcement of the Packers and Stockyards Act.

LIMITATION ON INSPECTION AND WEIGHING SERVICES EXPENSES

The amended bill provides \$42,463,000 for Limitation on Inspection and Weighing Services Expenses as proposed by both the House and the Senate.

OFFICE OF THE UNDER SECRETARY FOR FOOD SAFETY

The amended bill provides \$600,000 for the Office of the Under Secretary for Food Safety instead of \$632,000 as proposed by both the House and the Senate.

FOOD SAFETY AND INSPECTION SERVICE

The amended bill provides \$930,120,000 for the Food Safety and Inspection Service as proposed by the House instead of \$930,620,000 as proposed by the Senate.

The amended bill does not assume Food Safety Inspection user fees of \$96,000,000 as proposed in the President's budget request. Such fees are not authorized.

The amended bill includes \$63,299,000 for state meat inspection costs, which includes an increase of \$250,000 above the request for state inspection pay costs. About 2,100 meat and poultry establishments are inspected under State Meat and Poultry Programs, and many of these establishments are small or very small. FSIS reimburses states up to 50 percent of the estimated costs of administering state inspections, and has historically provided the full 50 percent of states' documented need. In fiscal year 2006, FSIS

reimbursements to the states fell below 50 percent for the first time in nearly 30 years, and it is the understanding of the Appropriations Committees that the funding level provided will allow FSIS to resume providing 50 percent of the documented need by the states.

The amended bill includes the following amounts:

FOOD SAFETY AND INSPECTION SERVICE
FUNDING BY ACTIVITY

Food Safety & Inspection:	
Federal	\$829,807,000
State	63,299,000
International	18,327,000
CODEX	3,737,000
Public Health Data Communication Infrastructure	14,950,000
Total	\$930,120,000

OFFICE OF THE UNDER SECRETARY FOR FARM AND FOREIGN AGRICULTURAL SERVICES

The amended bill provides \$632,000 for the Office of the Under Secretary for Farm and Foreign Agricultural Services instead of \$666,000 as proposed by both the House and the Senate.

FARM SERVICE AGENCY
SALARIES AND EXPENSES

The amended bill provides \$1,134,045,000 for the Farm Service Agency, Salaries and Expenses instead of \$1,127,409,000 as proposed by the House and \$1,160,662,000 as proposed by the Senate.

The Appropriations Committees continue to recognize the need for major upgrades to the Farm Service Agency's computer system used primarily for program delivery. Previous requests for a detailed spending plan for these IT upgrades from the Department have gone unanswered. The Appropriations Committees direct the Department to submit a plan detailing the issues surrounding the deteriorating IT system and the associated costs no later than 30 days after enactment of this Act to the Appropriations and Agriculture Committees. The Appropriations Committees have included IT funds adequate to meet the need described in the Department's budget request. However, since the majority of the work performed by this system is the delivery of mandatory funded farm bill programs, the Appropriations Com-

mittees strongly encourage the Department to work with the House and Senate Agriculture Committees to secure mandatory funding to work towards resolution of this looming meltdown.

STATE MEDIATION GRANTS

The amended bill provides \$4,400,000 for State Mediation Grants instead of \$4,000,000 as proposed by the House and \$4,750,000 as proposed by the Senate.

GRASSROOTS SOURCE WATER PROTECTION PROGRAM

The amended bill provides \$3,713,000 for the Grassroots Source Water Protection Program as proposed by both the House and the Senate.

DAIRY INDEMNITY PROGRAM

The amended bill provides \$100,000 for the Dairy Indemnity Program as proposed by both the House and the Senate.

AGRICULTURAL CREDIT INSURANCE FUND PROGRAM ACCOUNT

The following table reflects the amended bill:

Farm Ownership Loans:	
Direct	(\$223,857,000)
Subsidy	9,962,000
Guaranteed	(1,247,400,000)
Subsidy	4,990,000
Farm Operating Loans:	
Direct	(\$579,150,000)
Subsidy	73,494,000
Unsubsidized Guaranteed	(1,024,650,000)
Subsidy	24,797,000
Subsidized Guaranteed ...	(271,886,000)
Subsidy	36,270,000
Indian Tribe Land Acquisition	(3,960,000)
Subsidy	125,000
Boll Weevil Eradication	(100,000,000)
ACIF Expenses:	
Salaries and Expenses	\$303,309,000
Administrative Expenses	7,920,000

The amended bill provides for a transfer of \$303,309,000 to salaries and expenses instead of \$310,230,000 as proposed by both the House and the Senate.

RISK MANAGEMENT AGENCY

The amended bill provides \$76,658,000 for the Risk Management Agency instead of \$78,833,000 as proposed by both the House and the Senate.

The Pest Information Platform for Education & Extension (PIPE) is a critical pest risk management tool for Asian soybean rust and other pathogens of legumes. Congress encourages the Risk Management Agency to continue the PIPE program for FY2008.

CORPORATIONS

FEDERAL CROP INSURANCE CORPORATION FUND

The amended bill provides an appropriation of such sums as may be necessary for the Federal Crop Insurance Corporation Fund (estimated to be \$4,818,099,000 in the President's fiscal year 2008 Budget Request) as proposed by both the House and the Senate.

COMMODITY CREDIT CORPORATION FUND

REIMBURSEMENT FOR NET REALIZED LOSSES

The amended bill provides an appropriation of such sums as may be necessary for Reimbursement for Net Realized Losses of the Commodity Credit Corporation (estimated to be \$12,983,000,000) as proposed by the Senate instead of \$12,983,053,000 as proposed by the House.

The Appropriations Committees do not adopt the Senate language regarding the sale of non-fat dry milk.

HAZARDOUS WASTE MANAGEMENT

The amended bill provides a limitation of \$5,000,000 for Hazardous Waste Management as proposed by both the House and the Senate.

FARM STORAGE FACILITY LOANS PROGRAM ACCOUNT

The amended bill provides no funding for the farm storage facility loan program as proposed by the House instead of \$4,660,000 as proposed by the Senate.

TITLE II

CONSERVATION PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR NATURAL RESOURCES AND ENVIRONMENT

The amended bill provides \$742,000 for the Office of the Under Secretary for Natural Resources and Environment instead of \$781,000 as proposed by both the House and the Senate.

NRCS is encouraged to establish a competitive demonstration pilot program utilizing rapid growth reforestation technology.

NATURAL RESOURCES CONSERVATION SERVICE CONSERVATION OPERATIONS

The amended bill provides \$840,326,000 for Conservation Operations instead of \$851,910,000 as proposed by the House and \$862,996,000 as proposed by the Senate.

The amended bill requires funds appropriated for Conservation Operations be available until September 30, 2009. The Appropriations Committees direct the Secretary to report to the Committees no later than September 30, 2008, on any projects or activities for which funds have been specifically provided by this Act that have not been obligated by that date. Such a report shall include the reasons for which the obligations have not been made and a timetable indicating when those obligations shall occur.

Funding for fiscal year 2006 projects is not continued in fiscal year 2008 unless specifically mentioned in the following table. The following funds are directed to be used in cooperative agreements continued with the same cooperator entities as in the fiscal year 2006 agreements, except as noted:

WATERSHED SURVEYS AND PLANNING

The amended bill provides no funding for Watershed Surveys and Planning as proposed by the Senate instead of \$6,556,000 as proposed by the House.

WATERSHED AND FLOOD PREVENTION OPERATIONS

The amended bill provides \$30,000,000 for Watershed and Flood Prevention Operations instead of \$37,000,000 as proposed by the House and \$33,450,000 as proposed by the Senate.

The Committees are aware of and expect progress to continue and/or to provide financial/technical assistance for the next phase for the following projects:

State	Project	FY 2008 Recommendation
AR	Big Slough Watersheds	\$166,000
AR	Debatte Creek Watershed	91,000

	Total, Watershed and Flood Prevention Operations	\$28,000,000

WATERSHED REHABILITATION PROGRAM

The amended bill provides \$20,000,000 for the Watershed Rehabilitation Program as proposed by the Senate instead of \$31,586,000 as proposed by the House.

RESOURCE CONSERVATION AND DEVELOPMENT

The amended bill provides \$51,088,000 for Resource Conservation and Development instead of \$52,370,000 as proposed by the House and \$53,150,000 as proposed by the Senate.

HEALTHY FORESTS RESERVE PROGRAM

The amended bill provides \$2,000,000 for the Healthy Forests Reserve Program instead of no funding as proposed by the House and \$2,476,000 as proposed by the Senate.

TITLE III

RURAL DEVELOPMENT PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR RURAL DEVELOPMENT

The amended bill provides \$632,000 for the Office of the Under Secretary for Rural Development instead of \$666,000 as proposed by both the House and the Senate.

The Appropriations Committees are concerned about the proposal to close local Rural Development (RD) offices. Some of these offices are located in counties identified by the Economic Research Service as

persistent poverty counties. The amended bill includes a general provision that requires the Secretary of Agriculture to determine the cost effectiveness and/or enhancement of program delivery prior to closing or relocating any RD offices. The Department is directed to provide a report, not later than 60 days before the date of the proposed closure or relocation that describes the justifications for such closures and relocations.

The fiscal year 2006 Appropriations Act made permanent a general provision requiring that the Department of Agriculture consider and treat all loan levels in any appropriations act as estimates and not as loan limitations. It has come to the Committees' attention that loan levels with negative or zero subsidy rates are being treated as limitations. The Committees want to reiterate the intent of that provision and expect the Department to utilize this authority if demand or authorization changes justify such action by fully recognizing adjustments to current program levels that may occur as the result of recent legislation. The Committees expect to be notified within 30 days of any increases in these programs based on demand or authorization changes.

RURAL COMMUNITY ADVANCEMENT PROGRAM

The amended bill provides funding for the Rural Community Advancement Program (RCAP) under the associated agencies as proposed by the Senate. The House proposed \$728,807,000 under the RCAP account, and the Senate proposed a total of \$704,091,000 under the associated agencies.

RURAL DEVELOPMENT SALARIES AND EXPENSES

The amended bill provides \$169,998,000 for Rural Development Salaries and Expenses instead of \$175,382,000 as proposed by the House and \$175,302,000 as proposed by the Senate.

RURAL HOUSING SERVICE

RURAL HOUSING INSURANCE FUND PROGRAM ACCOUNT

The amended bill provides a total subsidy of \$208,761,000 for activities under the Rural Housing Insurance Fund Program Account instead of \$212,163,000 as proposed by the House and \$202,736,000 as proposed by the Senate.

The amended bill provides for an estimated loan program level of \$5,605,573,000 instead of \$5,100,000,000 as proposed by the House and \$4,966,684,000 as proposed by the Senate.

The amended bill provides for a transfer of \$452,927,000 to the Rural Development Salaries and Expenses account instead of \$462,521,000 as proposed by both the House and the Senate.

The Committees on Appropriations acknowledge that significant portions of section 515 appropriations have been used for needed portfolio repair and rehabilitation. However, these repairs can be more efficiently accomplished utilizing tools available under the Revitalization Initiative. For that reason, funding that would have been provided to the section 515 account and used for section 515 repair and rehabilitation is appropriated directly to the Multi-Family Housing Revitalization Program Account.

The amended bill provides a program level of \$4,220,000,000 for the Section 502 Guaranteed Homeownership loans. These loans offer a safe alternative to subprime mortgages for creditworthy low and moderate income rural homebuyers. Lenders and mortgage brokers are increasingly looking for traditional, standard term, mortgage loan programs to serve their clientele, particularly those in need of affordable mortgage financing options. Obligations in the Section 502 Guaranteed Homeownership program have escalated and have increased by 75 percent over last year's activity during the first two months

of the fiscal year. This demand is unprecedented and it is expected that demand will remain strong and grow throughout the rest of the fiscal year as the market continues to adjust from the diminished availability of subprime loans for home purchase.

The following table indicates loan and subsidy levels provided in the amended bill:

Rural Housing Insurance Fund Program Account:

Loan authorizations:

Single family direct (sec. 502)	(\$1,129,391,000)
Single family unsubsidized guaranteed	(4,220,000,000)
Rental housing (sec. 515)	(70,000,000)
Multi-family housing guaranteed (sec. 538)	(130,000,000)
Housing repair (sec. 504)	(34,652,000)
Credit sales of acquired property	(11,485,000)
Site loans (sec. 524)	(5,045,000)
Self-help housing land development	(5,000,000)
Total, Loan authorizations	(\$5,605,573,000)

Loan subsidies:

Single family direct (sec. 502)	\$105,824,000
Single family unsubsidized guaranteed	50,400,000
Rental housing (sec. 515)	29,827,000
Multi-family housing guaranteed (sec. 538)	12,220,000
Housing repair (sec. 504)	9,796,000
Credit sales of acquired property	552,000
Self-help housing land development	142,000
Total, Loan subsidies ..	\$208,761,000

RHIF administration

expenses (transfer to RD)	\$452,927,000
---------------------------------	---------------

RENTAL ASSISTANCE PROGRAM

The amended bill provides \$482,090,000 for the Rental Assistance Program instead of \$533,020,000 as proposed by the House and \$496,950,000 as proposed by the Senate.

These funds are provided for renewal of expiring rental assistance contracts for a one-year term and for preservation incentives and new construction contracts. In addition, this funding level provides a five percent funding reserve to cover any unforeseen disruptions for renewing contracts. It is expected that one-year contract terms will allow for more accurate cost estimation and will reduce the recent cost fluctuations in this program.

MULTI-FAMILY HOUSING REVITALIZATION PROGRAM ACCOUNT

The amended bill provides \$28,000,000 for the Multi-family Housing Revitalization Program instead of \$27,800,000 as proposed by the House and \$33,423,000 as proposed by the Senate.

The Department is directed to provide an information technology development and spending plan on an automated system to manage housing vouchers issued from the Multi-Family Housing Revitalization Program Account. No funds are to be obligated on that system until submission of the report to the Committees on Appropriations.

The Department is directed to include in the Multi-Family Housing Revitalization Initiative projects funded through the Section 514 and Section 516 Farm Labor Housing Program.

MUTUAL AND SELF-HELP HOUSING GRANTS

The amended bill provides \$39,000,000 for Mutual and Self-Help Housing Grants in-

stead of \$40,000,000 as proposed by the House and \$38,000,000 as proposed by the Senate.

RURAL HOUSING ASSISTANCE GRANTS

The amended bill provides \$39,000,000 for Rural Housing Assistance Grants as proposed by the House instead of \$40,590,000 as proposed by the Senate.

FARM LABOR PROGRAM ACCOUNT

The amended bill provides \$22,000,000 for the Farm Labor Program Account as proposed by the Senate instead of \$46,630,000 as proposed by the House.

The amended bill provides for an estimated loan program level of \$27,739,000; \$12,000,000 for loan subsidies; and \$10,000,000 for grants.

The Appropriations Committees note that the Farm Labor Housing loan and grant program has a large unobligated balance available from prior years, in addition to the appropriation provided, to meet the demand for new construction and needed repair and rehabilitation of the portfolio. However, the Appropriations Committees recognize that repairs can be more efficiently accomplished utilizing tools available under the Revitalization Initiative. For that reason, authority has been provided in the Multi-Family Housing Revitalization Program Account to allow for the Department to utilize those funds for necessary revitalization efforts for the Farm Labor portfolio.

RURAL COMMUNITY FACILITIES PROGRAM ACCOUNT

The amended bill provides \$68,952,000 for the Rural Community Facilities Program Account instead of \$55,742,000 as proposed by the House and \$67,422,000 as proposed by the Senate.

The following table reflects the agreement:

Community Facilities:	
Direct loans	(\$297,000,000)
Direct subsidy	16,484,000
Guaranteed loans	(207,900,000)
Guaranteed subsidy	7,651,000
Grants	20,517,000
Rural community development initiative	6,300,000
Economic impact initiative grants	14,000,000
Tribal college grants	4,000,000
Total, loan subsidies and grants	\$68,952,000

RURAL BUSINESS-COOPERATIVE SERVICE

RURAL BUSINESS PROGRAM ACCOUNT

The amended bill provides \$87,700,000 for the Rural Business Program Account instead of \$100,000,000 as proposed by the House and \$86,200,000 as proposed by the Senate.

The following table reflects the agreement:

Business and Industry:	
Guaranteed loans	(\$1,000,000,000)
Guaranteed subsidy	43,200,000
Rural business enterprise grants	39,000,000
Rural business opportunity grants	2,500,000
Delta regional authority ...	3,000,000
Total, loan subsidy and grants	\$87,700,000

RURAL DEVELOPMENT LOAN FUND PROGRAM ACCOUNT

The amended bill provides an estimated loan program level of \$33,772,000 with a subsidy of \$14,485,000 for the Rural Development Loan Fund as proposed by the House instead of \$14,527,000 as proposed by the Senate.

The amended bill provides for a transfer of \$4,774,000 to the Rural Development Salaries and Expenses account instead of \$4,861,000 as proposed by both the House and the Senate.

RURAL ECONOMIC DEVELOPMENT LOANS PROGRAM ACCOUNT

The amended bill provides an estimated loan program level of \$33,077,000 as proposed by the Senate.

The amended bill includes a rescission of \$34,000,000 as proposed by both the House and the Senate.

RURAL COOPERATIVE DEVELOPMENT GRANTS

The amended bill provides \$28,023,000 for Rural Cooperative Development Grants instead of \$29,193,000 as proposed by the House and \$26,403,000 as proposed by the Senate.

The amended bill provides \$19,000,000 for the value-added agricultural product market development grant program; \$2,600,000 for a cooperative agreement for the appropriate technology transfer for rural areas program; \$1,473,000 for cooperatives or associations of cooperatives whose primary focus is to provide assistance to small, minority producers; \$4,455,000 for cooperative development grants; and \$495,000 for a cooperative research agreement with a qualified academic institution.

RURAL EMPOWERMENT ZONES AND ENTERPRISE COMMUNITIES GRANTS

The amended bill provides \$8,187,000 for Rural Empowerment Zones and Enterprise Communities Grants instead of \$11,088,000 as proposed by the House and \$10,000,000 as proposed by the Senate.

RENEWABLE ENERGY PROGRAM

The amended bill provides \$36,000,000 for the Renewable Energy Program instead of \$46,000,000 as proposed by the House and \$28,489,000 as proposed by the Senate.

The amended bill provides a loan level of \$207,000,000, a subsidy level of \$20,000,000, and a grant level of \$16,000,000.

RURAL UTILITIES SERVICE

RURAL WATER AND WASTE DISPOSAL PROGRAM ACCOUNT

The amended bill provides \$562,565,000 for the Rural Water and Waste Disposal Program Account instead of \$573,065,000 as proposed by the House and \$550,469,000 as proposed by the Senate.

The amended bill includes a general provision to require the water and waste direct loan subsidy rate to be calculated using the fiscal year 2007 borrower rates and the fiscal year 2008 President's economic assumptions. The administration's proposal to rely more heavily on borrowing rather than grants is rejected.

The following table reflects the agreement:

Water and waste:	
Direct loans	(\$1,030,000,000)
Direct subsidy	70,100,000
Guaranteed loans	(75,000,000)
Grants	467,500,000
Solid waste management grants	3,465,000
Water and wastewater revolving funds	500,000
Water well system grants ..	1,000,000
High energy cost grants	20,000,000
 Total, loan subsidies and grants	 \$562,565,000

RURAL ELECTRIFICATION AND TELECOMMUNICATIONS LOANS PROGRAM ACCOUNT

The amended bill provides a total subsidy of \$3,740,000 for activities under the Rural Electrification and Telecommunications Loans Program Account as proposed by both the House and the Senate.

The amended bill provides for an estimated loan program level of \$7,790,000,000 instead of \$5,290,000,000 as proposed by the House and \$8,290,000,000 as proposed by the Senate.

The amended bill provides for a transfer of \$38,623,000 to the Rural Development salaries

and expenses account instead of \$39,405,000 as proposed by both the House and the Senate.

The following table indicates loan and subsidy levels provided in the amended bill:

Rural Electrification and Telecommunications Loans Program Account:

Loan authorizations:	
Electric:	
Direct, 5 percent	(\$100,000,000)
Direct, FFB	(6,500,000,000)

RETLP administrative expenses (transfer to RD) ... 38,623,000

DISTANCE LEARNING, TELEMEDICINE, AND BROADBAND PROGRAM

The amended bill provides for an estimated loan program level of \$300,000,000 for broadband telecommunications as proposed by the House instead of \$495,000,000 as proposed by the Senate.

The amended bill includes \$35,000,000 for distance learning and telemedicine grants as proposed by the House instead of \$34,750,000 as proposed by the Senate, of which \$5,000,000 is for public broadcasting system grants.

The amended bill includes \$6,450,000 for broadband telecommunications loan subsidy as proposed by the House instead of \$10,643,000 as proposed by the Senate.

The amended bill includes \$13,500,000 for broadband telecommunications grants instead of \$17,820,000 as proposed by the House and \$8,910,000 as proposed by the Senate.

The Appropriations Committees' recommendation includes \$5,000,000 for public broadcasting systems grants to allow non-commercial educational television broadcast stations that serve rural areas to convert from analog to digital operations.

The Department is directed to evaluate and report on the potential of a combination loan/grant broadband program, to expand the reach and more effectively utilize broadband resources.

TITLE IV

DOMESTIC FOOD PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FOOD, NUTRITION AND CONSUMER SERVICES

The amended bill provides \$597,000 for the Office of the Under Secretary for Food, Nutrition and Consumer Services instead of \$628,000 as proposed by both the House and the Senate.

FOOD AND NUTRITION SERVICE

CHILD NUTRITION PROGRAMS

The amended bill provides \$13,901,513,000 for Child Nutrition Programs instead of

\$13,903,213,000 as proposed by the House and \$13,897,272,000 as proposed by the Senate. Included in the total is an appropriated amount of \$7,647,965,000 and a transfer from section 32 of \$6,253,548,000.

The amended bill includes a general provision to expand the Fresh Fruit and Vegetable Program to all States not currently served by the authorized program and maintains the program in all currently participating States.

The amended bill provides \$13,300,000 for Team nutrition. Included in this amount is up to \$5,000,000 for food service training grants to States; \$2,500,000 for technical assistance materials; \$800,000 for National Food Service Management Institute cooperative agreements; \$800,000 for print and electronic food service resource systems; \$1,000,000 to assist USDA's Center for Nutrition Policy and Promotion in development and maintenance of MyPyramid and Dietary Guidelines materials in support of nutrition education for program participants and their families; and \$3,200,000 for other activities.

The amended bill provides \$2,000,000 for Food Safety Education as proposed by the House instead of \$1,022,000 as proposed by the Senate.

The amended bill provides the following for Child Nutrition programs:

TOTAL OBLIGATIONAL AUTHORITY

Child Nutrition Programs:	
School lunch program	\$8,180,933,000
School breakfast program	2,389,988,000
Child and adult care food program	2,288,838,000
Summer food service program	310,634,000
Special milk program	14,618,000
State administrative expenses	175,636,000
Commodity procurement and computer support	518,061,000
School meals initiative/Team nutrition	13,300,000
Coordinated review effort	5,505,000
Food safety education	2,000,000
CACFP Training and Technical Assistance ...	2,000,000
 Total	 \$13,901,513,000

SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)

The amended bill provides \$6,020,000,000 for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), instead of \$5,620,000,000 as proposed by the House and \$5,720,000,000 as proposed by the Senate. The amended bill includes \$15,000,000 for continuation of the breastfeeding peer counselor program and \$30,000,000 for investments in management information systems, if the Secretary determines that funds are available to maintain caseload without the use of the contingency fund after the date of enactment of this Act. In addition, the amended bill includes such sums as are necessary to restore the contingency reserve to \$150,000,000, instead of \$125,000,000 as proposed by the House and \$116,000,000 as proposed by the Senate.

The amended bill includes an emergency designation under the concurrent resolution on the budget for fiscal year 2008 for \$400,000,000.

The total funding level provided for WIC is adequate to meet current estimates of program needs, and is \$633,403,000 above the Administration's request. The Appropriations Committees have followed cost increases in the WIC program very closely. Since the budget was submitted in February 2007, program participation has risen, and food costs have increased sharply. Information on participation and food costs is collected regularly by the Department, and the Appropriations Committees believe it is irresponsible

for the Administration to ignore this information and not submit an official updated estimate or notification to the Congress regarding the increased funding need for WIC.

Therefore, the Department is directed, beginning on the date of enactment of this Act, and thereafter, to provide monthly reports on the program performance and estimated funding requirements to fully fund the WIC program. Timeframes addressed in these estimates should include the prior year, current year, and budget year of the President's budget submission currently under consideration by the Congress and should separately address baseline program performance from the impact of current law and legislative budget proposals. The Department shall consider, and include in these estimates, current participation trends and current Economic Research Service food cost estimates in developing updated WIC estimates.

FOOD STAMP PROGRAM

The amended bill provides \$39,782,723,000 for the food stamp program instead of \$39,816,223,000 as proposed by the House and \$39,779,223,000 as proposed by the Senate. Included in this amount is a reserve of \$3,000,000,000, to remain available until September 30, 2009.

The amended bill includes \$35,021,473,000 for program expenses, \$1,621,250,000 for grants to Puerto Rico and Samoa, and \$140,000,000 for commodity purchase for The Emergency Food Assistance Program.

Included in the recommended level for other program costs are \$2,000,000 to conduct Food Stamp Program modernization and innovation projects and \$1,000,000 to assist USDA's Center for Nutrition Policy and Promotion in the development and maintenance of MyPyramid and Dietary Guidelines materials in support of nutrition education for the food stamp eligible population.

Included in the recommended level for FDIPIR is \$34,706,000 instead of \$34,206,000 as proposed by the House and \$35,206,000 as proposed by the Senate.

COMMODITY ASSISTANCE PROGRAM

The amended bill provides \$211,770,000 for the Commodity Assistance Program instead of \$221,070,000 as proposed by the House and \$199,070,000 as proposed by the Senate.

Of that amount, the amended bill provides \$140,700,000 for the Commodity Supplemental Food Program instead of \$150,000,000 as proposed by the House and \$128,000,000 as proposed by the Senate. It is expected that with this level, 2007 participation will be maintained.

The amended bill provides \$50,000,000 for administration of The Emergency Food Assistance Program (TEFAP) as proposed by both the House and the Senate.

The amended bill provides \$20,000,000 for the Farmers' Market Nutrition Program and directs the Secretary to obligate these funds within 45 days.

NUTRITION PROGRAMS ADMINISTRATION

The amended bill provides \$142,727,000 for Nutrition Programs Administration instead of \$146,926,000 as proposed by the House and \$147,426,000 as proposed by the Senate.

The amended bill provides \$2,475,000 in this account for providing Bill Emerson and Mickey Leland Hunger Fellowships through the Congressional Hunger Center.

TITLE V

FOREIGN ASSISTANCE AND RELATED PROGRAMS

FOREIGN AGRICULTURAL SERVICE

SALARIES AND EXPENSES

The amended bill provides \$159,470,000 for the Foreign Agricultural Service, Salaries and Expenses, instead of \$159,136,000 as proposed by the House and \$167,391,000 as proposed by the Senate.

PUBLIC LAW 480 TITLE I AND TITLE II PROGRAM AND GRANT ACCOUNTS

The amended bill provides \$1,219,400,000 for Public Law 480 Title II as proposed by both the House and the Senate.

The following table reflects the amended bill for Public Law 480 program accounts:

Public Law 480

Title II—Commodities for disposition abroad:	
Program level	(\$1,219,400,000)
Appropriation	1,219,400,000
Salaries and expenses:	
Farm Service Agency (transfer to FSA)	\$2,680,000
COMMODITY CREDIT CORPORATION EXPORT LOANS PROGRAM ACCOUNT	

The amended bill provides \$5,328,000 for the Commodity Credit Corporation Export Loans Program Account instead of \$5,338,000 as proposed by the House and \$5,334,000 as proposed by the Senate.

MCGOVERN-DOLE INTERNATIONAL FOOD FOR EDUCATION AND CHILD NUTRITION PROGRAM GRANTS

The amended bill provides \$100,000,000 for the McGovern-Dole International Food for Education and Child Nutrition Program as proposed by both the House and the Senate.

TITLE VI

RELATED AGENCIES AND FOOD AND DRUG ADMINISTRATION

DEPARTMENT OF HEALTH AND HUMAN SERVICES

FOOD AND DRUG ADMINISTRATION

SALARIES AND EXPENSES

The amended bill provides total appropriations, including Prescription Drug User Fee Act, Medical Device User Fee and Modernization Act, and Animal Drug User Fee Act collections, of \$2,247,961,000 for the salaries and expenses of the Food and Drug Administration, instead of \$1,711,405,000 as proposed by the House and \$2,276,262,000 as proposed by the Senate.

Specific amounts by FDA activity are reflected in the following table.

FOOD AND DRUG ADMINISTRATION, SALARIES AND EXPENSES

(In thousands of dollars)

Program	Budget authority
Foods	\$513,461
Center for Food Safety and Applied Nutrition	186,572

White Oak Consolidation	38,808
Other Rent & Rent-Related	50,648
GSA Rent	131,533
Total Salaries & Expenses	1,726,422

Within the total amount for the Food and Drug Administration, the following increases above fiscal year 2007 are provided: \$28,718,000 for cost of living expenses; \$56,000,000 for food safety; \$7,500,000 for the critical path initiative; \$21,200,000 for drug safety; \$6,000,000 for generic drug review; \$4,000,000 for pandemic influenza preparedness; \$4,000,000 for the review of direct-to-consumer advertising; \$1,000,000 for the Office of Women's Health; \$1,000,000 for the review of cosmetics; \$13,256,000 for FDA's consolidation at the

White Oak campus; and, \$14,504,000 for GSA rent and other rent and rent related activities. The amended bill includes a proviso prohibiting the transfer of funds to the Reagan-Udall foundation under section 707(n) of the Federal Food, Drug and Cosmetic Act.

The Committees are increasingly concerned about FDA's use of a fund known as the central account to pay for various FDA activities. An appropriation specifically for the central account has never been provided. Instead, funds intended for use by FDA's centers and field operations are moved into the central account and managed by the Office of the Commissioner. The Committees recognize that the central account has been utilized by FDA for many years and that there is value in funding some activities centrally. However, funding for the central account has grown unchecked over the past 3 years, increasing by approximately 32 percent from fiscal year 2003 to 2006. In fiscal year 2006, central account charges were approximately \$125,000,000. FDA does not provide information on estimated costs and use of central account funds to the Committees on Appropriations. The Committees find this lack of accountability unacceptable and therefore direct FDA to include in its annual budget request, beginning with fiscal year 2009, previous year, estimated current year, and estimated budget year central account charges by FDA program area and center/field split for each charge applied. In addition, the budget should include a narrative summary of each central account charge including how the funding is used and how the charge is assessed to the program areas.

The amended bill includes an increase of \$21,200,000 for drug safety, of which not less than \$10,000,000 is for the Office of Surveillance and Epidemiology. The Committees expect that FDA will use this funding to enhance the agency's ability to identify safety issues with products already on the market and under review.

The amended bill includes an increase of \$7,500,000 for the critical path initiative, of which \$2,500,000 shall be available, on a competitive basis, for contracts or grants to universities and non-profit organizations to support individual critical path projects.

The amended bill includes an increase of \$56,000,000 above the fiscal year 2007 level for food safety activities of the FDA for improvements to agency procedures, to enhance inspection capabilities for the protection of consumers, and to help the agency recover from the administration's low budget estimates of recent years.

Of the increase provided for food safety, the Committees direct that no less than \$18,317,000 shall be available immediately to hire additional domestic and import food inspectors, including \$8,000,000 for the deployment of inspectors with rapid response capabilities who will be responsible for immediate attention to outbreaks of food-related disease as well as providing technical assistance to states and others, as appropriate, to support overall practices to increase the safety of food and food products.

Of the total amount provided for food safety, the Committees direct that \$1,500,000 shall be used for the creation of a Western Region FDA Center of Excellence at the University of California at Davis. The Committees do not include an additional \$4,000,000 for other food safety-related research, as proposed by the Senate, under this account. However, the Committees have provided an increase of \$3,000,000 to the National Research Initiative for this purpose and fully expect the Commissioner of the FDA and the Secretary of Agriculture to work together to identify food safety research priorities of importance to the regulatory functions of the FDA and food safety generally. The Committees expect a report on the conclusions of an

agreement between the Commissioner and the Secretary that describes the research priorities identified and the awarding of research grants to meet those needs.

In addition, the Committees expect the FDA to contract with the National Academy of Sciences for a comprehensive study of gaps in public health protection provided by the food safety system in this country. The report should address the recommendations of the FDA Food Protection Plan released in November 2007.

Of the increase provided for food safety, the amended bill includes \$28,000,000 available from July 1, 2008 to September 30, 2009. The Committees direct the agency to provide, concurrent with the fiscal year 2009 budget justification, a plan that describes a method to improve the national food safety system, including clear, measurable benchmarks for concrete improvements in the performance of its food safety mission.

As stated in the House report, "the plan must set forth clear, definitive goals over a multiyear period to comprehensively overhaul FDA's food safety operations, covering both domestic and imported foods. The plan must include a detailed description of any organizational, managerial, statutory and regulatory changes necessary to achieve them, as well as an assessment of the budgetary resources needed. If statutory changes are proposed, the plan must include the statutory language. The plan must be approved by the Office of Management and Budget." The Committees suggest that enforceable standards for food safety, HACCP-like systems, and a process for reviewing the food safety systems in countries that export food to the United States should be considered as key parts of the building blocks of such a plan.

FDA is directed to submit a plan to the Committees that fully address the weaknesses in the food safety system that led GAO to list food safety on its January 2007 high-risk list.

The Committees support FDA's review of a means by which drugs marketed outside the present approval process, which have been in clinical use for the past 25 years and are prescribed by doctors, may be more efficiently vetted by the agency. FDA is encouraged to work toward the development of a system to review this unique class of drugs.

The Committees encourage FDA to ensure that the MedGuide program is assisting patients in understanding the risks associated with certain medications to the greatest degree possible. The Committees encourage FDA to work with patient groups, manufacturers and national pharmacy groups to address improvements in the program. The Committees request a report on the progress it is making toward these improvements within one year of enactment of this Act.

The Committees were encouraged by FDA's March 2007, announcement that the agency was going to significantly limit the number of financial conflict of interest waivers granted to advisory committee members. In September 2007, the Congress passed, and the President signed, the Food and Drug Administration Amendments Act of 2007 (FDAAA). FDAAA placed a cap on the number of waivers that can be issued annually and reduced them by 25 percent over the life of the Act. The Committees note that the waiver limits passed in FDAAA were less stringent than those proposed by FDA in March 2007. The Committees remind FDA that the FDAAA limitations are a ceiling and strongly encourage FDA to continue its efforts to limit the use of financial conflicts of interest waivers to the greatest extent possible.

The Committees note that on December 28, 2006, the Center for Veterinary Medicine

issued a draft risk assessment on animal cloning which concluded that food products from cloned animals are safe to enter the food supply. During the public comment period, thousands of submissions were received by FDA. Many of these asked the FDA to obtain more information not assessed in the initial risk assessment, including further evaluation of the potential health, economic, and trade impacts, before acting further. In addition, many comments expressed concern that several of the studies on which the risk assessment was based did not undergo a scientific peer review process. The Committees strongly encourage FDA to continue the voluntary moratorium on introducing food products from cloned animals into commerce until FDA completes a review and analysis of comments and evaluates the need for additional studies recommended during the public comment period.

The Committees direct the Food and Drug Administration to enter into an agreement with the Economic Research Service at USDA to study the domestic agricultural and international trade economic implications of permitting commercialization of milk and meat from cloned animals and their progeny into the food supply.

The Committees are concerned that FDA may have exceeded its statutory authority when the agency decided to begin allowing the use of qualified health claims for conventional foods in 2003. Such claims are not based on the standard of "significant scientific agreement" set forth in the Nutrition Labeling and Education Act. The agency has devoted literally thousands of hours of staff work to this undertaking at a time when the agency's ability to carry out its public health responsibilities is severely stretched.

The Committees need a thorough, independent analysis of FDA's actions in this situation, the impact of qualified health claims on the public's perceptions of conventional foods, and the usefulness of qualified health claims. Therefore, the Committees request a report from the Government Accountability Office (GAO) on qualified health claims and ask that GAO work with the Committees on Appropriations of the House and Senate on the parameters of the report. The Committees also urge the FDA not to use funds provided in this bill to review requests for qualified health claims for conventional foods or to issue letters permitting such claims through exercises of enforcement discretion until the independent analysis is completed.

The amended bill includes \$1,725,000 for research on dietary supplements at the National Center for Natural Products Research in Oxford, Mississippi; \$149,000 for the Interstate Shellfish Sanitation Commission (ISSC) and \$186,000 for ISSC *Vibrio Vulnificus*; \$74,000 for the Warehousing Education and Research Council; \$2,228,000 for the National Center for Food Safety and Technology; \$1,769,000 for the Food Technology Evaluation Laboratory at New Mexico State University; and \$563,000 for collaborative drug safety research with the Critical Path Institute and the University of Utah.

The Committees are aware, and appreciate, that FDA is currently working to update the format of its Explanatory Notes in an attempt to streamline information provided and make it more useful to Congress. The Committees direct FDA to ensure that all changes to the Explanatory Notes reflect the comments made by the Congress.

In House Report 109-255, the conference report accompanying the fiscal year 2006 appropriations bill, Congress directed FDA "to provide the same level of budget justification for its research activities in the fiscal year 2007 budget as it does other activities, including a justification of both base spending and any proposed increases by activity

within center or office." FDA has not fully complied with this requirement to date and is directed to meet this requirement in the fiscal year 2009 budget submission.

FDA is directed that, unless otherwise stated, all reports and studies requested by the Committees in House Report 110-258 or Senate Report 110-134 or in this Explanatory Statement, shall be provided within 60 days after enactment of this Act.

BUILDINGS AND FACILITIES

The amended bill includes \$2,450,000 for buildings and facilities instead of \$4,950,000 as proposed by both the House and the Senate.

COMMODITY FUTURES TRADING COMMISSION

The amended bill provides \$112,050,000 for the Commodity Futures Trading Commission instead of \$102,550,000 as proposed by the House and \$116,000,000 as proposed by the Senate. This level provides the requested \$3,106,000 for an additional 17 FTE to allow the Commission to provide appropriate oversight of the futures markets and \$9,500,000 in increased IT costs. The Committees on Appropriations do not adopt the President's request to impose fees on futures transactions.

FARM CREDIT ADMINISTRATION

LIMITATION ON ADMINISTRATIVE EXPENSES

The amended bill includes a limitation of \$46,000,000 on administrative expenses of the Farm Credit Administration as proposed by both the House and the Senate.

TITLE VII—GENERAL PROVISIONS

(INCLUDING RESCISSIONS AND TRANSFERS OF FUNDS)

Section 701.—The amended bill includes language making funds available for the purchase, replacement, and hire of passenger motor vehicles.

Section 702.—The amended bill includes language regarding appropriation items, which shall remain available until expended.

Section 703.—The amended bill includes language allowing for unobligated balances to be transferred to the Working Capital Fund.

Section 704.—The amended bill includes language limiting the funding provided in the bill to one year, unless otherwise specified.

Section 705.—The amended bill includes language limiting indirect costs on cooperative agreements between the Department of Agriculture and nonprofit organizations to 10 percent.

Section 706.—The amended bill includes language limiting indirect costs for grants awarded by the Cooperative State Research, Education, and Extension Service to 20 percent.

Section 707.—The amended bill includes language making appropriations to the Department of Agriculture for the cost of direct guaranteed loans available until expended to disburse obligations for certain Rural Development programs.

Section 708.—The amended bill includes language for funds to cover necessary expenses related to advisory committees.

Section 709.—The amended bill includes language prohibiting the use of funds to establish an inspection panel at the Department of Agriculture.

Section 710.—The amended bill includes language regarding detailed employees.

Section 711.—The amended bill includes language regarding the appropriations hearing process.

Section 712.—The amended bill includes language regarding the transfer of funds to the Office of the Chief Information Officer and information technology funding obligations.

Section 713.—The amended bill includes language regarding the reprogramming of funds.

Section 714.—The amended bill includes language regarding user fee proposals.

Section 715.—The amended bill includes language authorizing certain watershed projects.

Section 716.—The amended bill includes language regarding the closure or relocation of Rural Development offices.

Section 717.—The amended bill includes language regarding the closure or relocation of certain Food and Drug Administration offices.

Section 718.—The amended bill includes language allowing funds to be used to carry out a competitive grants program.

Section 719.—The amended bill includes language regarding the Environmental Quality Incentives Program.

Section 720.—The amended bill includes language allowing for reimbursement of the Bill Emerson Humanitarian Trust.

Section 721.—The amended bill includes language regarding the Dam Rehabilitation Program.

Section 722.—The amended bill includes language regarding guaranteed underwriting.

Section 723.—The amended bill includes language regarding the final rulemaking on cost-sharing for animal and plant health emergency programs.

Section 724.—The amended bill provides funding for the Denali Commission.

Section 725.—The amended bill includes language regarding the availability of funds for certain conservation programs.

Section 726.—The amended bill includes language regarding the recertification of rural status.

Section 727.—The amended bill includes language regarding government-sponsored news stories.

Section 728.—The amended bill includes language regarding eligibility for certain rural development programs.

Section 729.—The amended bill includes language regarding the Emergency Watershed Protection Program.

Section 730.—The amended bill includes language regarding competitive sourcing of rural development or farm loan programs.

Section 731.—The amended bill includes a rescission of section 32 funds at a level in excess of that recommended by the President. The Committees note that the estimates for section 32 funds carrying over into fiscal year 2009 have increased significantly since the President's budget was released. The Committees also provide \$297 million for estimated future purchases, which is \$240 million above the level actually expended in fiscal year 2007 and \$140 million more than the previous five year average.

Section 732.—The amended bill includes language regarding base funding for all institutions participating in the expanded food nutrition education program.

Section 733.—The amended bill includes language limiting the implementation of a rule concerning countries eligible to export poultry products to the United States.

Section 734.—The amended bill provides funding for the National Center for Natural Products Research.

Section 735.—The amended bill provides funding for an agriculture pest facility in Hawaii.

Section 736.—The amended bill includes language regarding meat inspection.

Section 737.—The amended bill includes language regarding the water and waste direct loan program.

Section 738.—The amended bill includes language amending the Richard B. Russell National School Lunch Act.

Section 739.—The amended bill includes language providing funding for the Fruit and Vegetable Pilot Program.

Section 740.—The amended bill allows the Department to use Salaries and Expenses funds to purchase materials for program utilization.

Section 741.—The amended bill includes language regarding the Federal Meat Inspection and other acts.

Section 742.—The amended bill includes language establishing a forestry pilot program for lands affected by Hurricane Katrina.

Section 743.—The amended bill includes language regarding Agricultural Disaster Assistance.

Section 744.—The amended bill includes language amending the Richard B. Russell National School Lunch Act.

Section 745.—The amended bill includes language regarding certain unexpended funds.

Section 746.—The amended bill includes language providing that certain locations shall be considered eligible for certain rural development programs.

Section 747.—The amended bill includes language regarding the closure or consolidation of FDA field laboratories.

Section 748.—The amended bill includes language regarding the availability of Rural Development housing funding in areas damaged by hurricanes in 2005.

Section 749.—The amended bill rescinds certain funds.

Section 750.—The amended bill rescinds certain funds.

Section 751.—The amended bill extends certain Farm Bill authorities.

Section 752.—The amended bill includes a provision that reduces all discretionary accounts except for WIC and the Food Safety and Inspection Service by 0.7 percent.

DISCLOSURE OF EARMARKS AND CONGRESSIONAL DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Items which did not appear in H.R. 3161 or S. 1859 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

DIVISION B—COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES AP- PROPRIATIONS ACT, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 3093 (hereafter referred to as "the amended bill") relative to the versions of the Departments of Commerce and Justice, and Science, and Related Agencies Appropriations Act, 2008 (H.R. 3093) passed by the House of Representatives and the Senate.

The legislative intent in the House and Senate versions of H.R. 3093 is set forth in the accompanying House report (H. Rept. 110-240) and the accompanying Senate report (S. Rept. 110-124).

The Senate amended the House bill with an amendment. The Senate amendment to the text deleted the entire House bill after the enacting clause and inserted the Senate bill. Division B of the amended bill resolves the differences between the House and Senate versions of H.R. 3093.

The language and allocations set forth in the House and Senate Reports should be complied with unless specifically addressed to the contrary in division B of the amended bill and this explanatory statement. Report language included by the House which is not changed by the report of the Senate or this explanatory statement and Senate report language which is not changed by this explanatory statement is approved by the Appropriations Committees. This explanatory statement while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or Senate has directed the submission of a report, such report is to be submitted to both House and Senate Appropriations Committees.

OPERATING PLAN REPROGRAMMING PROCEDURES

The Appropriations Committees continue to have a particular interest in being informed of reprogrammings which, although they may not change either the total amount available in an account or any of the purposes for which the appropriation is legally available, represent a departure from budget plans presented to the Committees in an agency's budget justification, the basis of this appropriations Act.

Consequently, the departments, agencies, commissions, corporations and offices funded in this Act are directed to adhere to the guidelines set forth in section 505. Additionally, the Appropriations Committees are to be notified promptly of all reprogramming actions which involve less than the amounts mentioned in this section. If such actions would have the effect of significantly changing an agency's funding requirements in future years, or if programs or projects specifically cited in this explanatory statement or accompanying reports of the House and Senate are affected by the reprogramming, the reprogramming must be approved by the Appropriations Committees regardless of the amount proposed to be reprogrammed. Furthermore, the departments, agencies, commissions, corporations and offices under the jurisdiction of this subcommittee are directed to consult with the Appropriations Committees regarding reorganizations of offices, programs, and activities prior to the planned implementation of such reorganizations.

Finally, the Departments of Commerce and Justice as well the National Aeronautics and Space Administration and the National Science Foundation shall submit, within 60 days of enactment of this Act, operating plans, signed by the respective secretary, administrator, or agency head, for review by the Appropriations Committees of the House and Senate.

TITLE I

DEPARTMENT OF COMMERCE

INTERNATIONAL TRADE ADMINISTRATION OPERATIONS AND ADMINISTRATION

The amended bill includes \$413,172,000 with offsetting collection fees of \$8,000,000 for a direct appropriation of \$405,172,000 for the International Trade Administration (ITA). The amended bill includes bill language designating the amount available for decision units within ITA.

The amended bill includes bill language, and adopts by reference report language as proposed by the Senate, regarding negotiations within the World Trade Organization. The amended bill includes report language as proposed by the Senate directing the Office of Travel and Tourism to submit a report detailing how gulf coast tourism recovery in States impacted by the 2005 hurricane is progressing.

The amended bill includes report language as proposed by the House directing ITA to submit a quarterly report regarding the ITA's travel expenditures. The amended bill includes report language as proposed by the Senate directing ITA to hire one additional full-time international trade specialist to assist small and medium sized companies in Louisiana.

Within funding provided, the amended bill includes \$4,700,000 for the National Textile Centers and for the Textile/Clothing Technology Corporation, and \$1,316,000 for Auburn University for advanced research and development of novel polymetrics. The amended bill also includes \$446,500 for the Arkansas World Trade Center.

BUREAU OF INDUSTRY AND SECURITY OPERATIONS AND ADMINISTRATION

The amended bill provides a total operating level of \$72,855,000 for the Bureau of Industry and Security instead of \$78,776,000 as proposed by the House and Senate.

ECONOMIC DEVELOPMENT ADMINISTRATION ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

The amended bill provides \$249,100,000 for the Economic Development Assistance Programs (EDAP), instead of \$270,000,000 as proposed by the House and \$250,000,000 as proposed by the Senate.

The amended bill rejects the Administration's proposal to consolidate EDA's program accounts into one new regional development account. By consolidating funding into one new regional development account, the Appropriations Committees are concerned that this will leave gaps in providing much needed assistance to rural communities. Of the amounts provided, \$148,050,000 is for Public Works and Economic Development, \$42,300,000 is for Economic Adjustment Assistance, \$25,380,000 is for planning, \$9,400,000 is for technical assistance, including university centers, \$14,100,000 is for trade adjustment assistance, and \$470,000 is for research.

The explanatory statement restates the concern expressed in the House report of the effect of global climate change and supports policies and strategies which contribute to sustainable "green" construction and resources conservation. EDA is directed to give favorable consideration to proposals which incorporate such technologies and strategies which would reduce energy consumption, reduce harmful gas emissions and contribute to sustainability. The Appropriations Committees recognize that the incorporation of such capabilities in a project will result in initial increased construction costs and therefore direct EDA to establish a Global Climate Change Mitigation Incentive fund ("Fund") of \$9,400,000 to be used to accommodate project costs associated with such mitigation efforts. As directed in the House report, EDA is directed to provide a report and spend plan within 90 days of enactment of the Act.

As stated in the Senate report, the Appropriations Committees are concerned about the disbursement of funds to EDA's six regional offices. Within 30 days after enactment of the Act, EDA is directed to distribute all EDAP funds to the EDA regional offices.

Finally, the Appropriations Committees agree with language in the House report and encourage EDA to incorporate into its project evaluation and selection criteria greater consideration for projects that diversify the local regional economy, support the development of new regional economic drivers and emerging industry clusters, advance innovation, entrepreneurship and technology transfer, and encourage the commercialization of university-led research and development.

SALARIES AND EXPENSES

The amended bill provides \$30,832,000 for salaries and expenses at EDA, instead of \$32,800,000 as proposed by both the House and the Senate.

As stated in the Senate report, the Appropriations Committees are supportive of EDA's six regional offices. The funding level provided should be adequate to begin filling vacancies within the regional offices. EDA is directed to fill vacancies within the regional offices prior to any vacancies within headquarters.

MINORITY BUSINESS DEVELOPMENT AGENCY

MINORITY BUSINESS DEVELOPMENT

The amended bill provides \$28,623,000 for the Minority Business Development Agency, instead of \$31,225,000 as proposed by the House and \$30,200,000 as proposed by the Senate.

Within the amount provided, \$235,000 is for the preservation and revitalization of the Moore Street Market in Williamsburg, Brooklyn, New York.

Additionally, the Appropriations Committees reiterate the concern expressed in both the House and Senate reports about the Native American Business Enterprise Centers (NABECs). The Committees oppose any action to reduce the current number of

NABECs and it is hoped that MBDA can continue to support at least eight centers nationwide.

ECONOMIC AND STATISTICAL ANALYSIS SALARIES AND EXPENSES

The amended bill provides \$81,075,000 for this account, instead of \$86,500,000 as proposed by the House and \$85,000,000 as proposed by the Senate.

Expansion of Regional Data.—An additional \$1,175,000 is provided to the Bureau of Economic Analysis (BEA) to expand and improve timeliness of regional data to benefit state and local officials and economic development organizations. This funding will enable BEA to develop and publish gross metropolitan product data and accelerate the availability of county-level income data. BEA is directed to report on the status of this effort on a quarterly basis during fiscal year 2008.

Offshoring.—As stated in the House Report, there is concern with the lack of adequate statistics on the effects of offshoring and outsourcing on U.S. jobs. There is evidence that the phenomenon is growing, and increasingly is displacing jobs of U.S. workers. Recent reports have suggested that the volume of imports may be underestimated and that this may cause estimates of growth in U.S. manufacturing production to be overestimated by as much as 40 percent. The 20 to 1 gap between data from India showing \$8,700,000,000 in sales of business, professional and technical services to the U.S. and its companies and BEA data identifying only \$420,000,000 in imports of such services raises additional questions. Even if new BEA initiatives narrow the dollar gap in services trade somewhat, it will still leave unanswered key questions about the effects of imported goods and services on U.S. blue-collar and white-collar jobs. The BEA is directed to work with other agencies as appropriate, to submit a report not later than April 1, 2008, which examines the effect of both offshoring work abroad and outsourcing of imported labor in the future. The report should examine the following: (1) How best to estimate the effects of offshoring on U.S. production and jobs; and (2) how companies doing the most offshoring in either absolute or relative terms have changed (a) the size or occupational structure of their jobs in the U.S., (b) the companies' purchases from other U.S. suppliers, (c) growth of their R&D expenditures either domestically or abroad, (d) their rates of profitability, and (e) the trend in these companies' use of H-1B and L-1 visas. The report should consider the effects of offshoring on both blue-collar workers and white-collar workers.

Intangible Assets.—Within funds provided the Bureau of Economic Analysis is directed to enter into an agreement with the National Academy of Sciences to conduct a study relating to the investment of intangible assets. This study shall recommend steps to improve the measurement of intangible assets and their incorporation in the National Income and Product Accounts; identify and estimate the size of the Federal Government's investment in intangible assets; survey other countries' efforts to measure and promote investments in intangible assets; and recommend policies to increase investment in intangible assets.

Accurately Reflecting Economic Conditions.—Within funds provided the BEA is directed to enter into an agreement with the National Academy of Sciences to conduct a study on methods for collecting data regarding the status of the U.S. economy and determine whether the current data results in an overstatement of economic growth, domestic manufacturing output, and productivity.

BUREAU OF THE CENSUS

The amended bill includes a total operating level of \$1,230,244,000 for the Bureau of

the Census, instead of \$1,222,244,000 as proposed by the House and \$1,246,644,000 as proposed by the Senate.

SALARIES AND EXPENSES

The amended bill provides \$202,838,000 for this account instead of \$196,838,000 as proposed by the House and \$226,238,000 as proposed by the Senate.

The amended bill provides \$24,000,000 for the Survey of Income and Program Participation (SIPP). The amended bill does not include language contained in the Senate Report on improved service sector measurements and instead directs the \$8,000,000 from the service sector measurements toward revitalization of the Survey of Income and Program Participation (SIPP).

PERIODIC CENSUSES AND PROGRAMS

The amended bill provides \$1,027,406,000 for this account instead of \$1,025,406,000 as proposed by the House and \$1,020,406,000 as proposed by the Senate. The amended bill includes \$797,114,000 for expenses related to the 2010 decennial census. The amended bill does not include \$5,500,000 for the American Community Survey (ACS) Methods Panel. As in the Senate Report, this funding is directed to higher priority programs because a recent review by the Government Accountability Office revealed that Census officials were not able to provide detailed action plans or costs associated with aspects of this program. The amended bill also does not include \$3,600,000 for the Master Address File (MAF). It should be noted that this reduction will have minimal impact as the Census Bureau will conduct a 100 percent address canvas in fiscal year 2009.

Partnerships.—The amended bill includes an additional \$9,100,000 for the Bureau of the Census to support partnership and outreach efforts in preparation for the 2010 Decennial Census with specific focus being placed on hard to reach populations. These funds should be used to hire additional personnel who have expertise in developing partnerships for the 2010 census, provide other support for Regional Partnership and Data Services Programs, and not less than \$1,000,000 for a national partnership program administered from Census headquarters. The census partnership program, which was not included in the budget request, is a vital component of the effort to obtain the most accurate decennial census count possible. The funding provided for the program will help enlist community leaders to encourage their constituencies to fill out their census forms, emphasizing the importance of the census to their local community and education system. This outreach is particularly important in communities that are difficult to count.

NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes a total of \$17,466,000 for the National Telecommunications and Information Administration (NTIA), instead of \$23,581,000 as proposed by the House and \$18,581,000 as proposed by the Senate. NTIA should comply with language in the House Report on public safety communications equipment.

PUBLIC TELECOMMUNICATIONS FACILITIES, PLANNING AND CONSTRUCTION

The amended bill includes \$18,800,000 for Public Telecommunications Facilities, Planning and Construction, instead of \$21,728,000 as proposed by the House and \$20,000,000 as proposed by the Senate.

TECHNOLOGY OPPORTUNITIES PROGRAM

The amended bill does not provide funding for the Technology Opportunities Program (TOP) as proposed by the Senate.

UNITED STATES PATENT AND TRADEMARK OFFICE

SALARIES AND EXPENSES

The amended bill includes \$1,915,500,000 for the United States Patent and Trademark Office (USPTO) as proposed by the House and the Senate.

The amended bill concurs with language in the Senate Report requiring that, 60 days after the date of enactment of this Act, the USPTO shall submit to the House and Senate Appropriations Committees a spending plan for fiscal year 2008. This spending plan shall incorporate all carryover balances from previous fiscal years, and describe any changes to the patent or trademark fee structure.

The amended bill includes language that \$1,000,000 may be transferred to the National Intellectual Property Law Enforcement Coordination Council.

TECHNOLOGY ADMINISTRATION

SALARIES AND EXPENSES

The amended bill provides no funding for the Technology Administration as proposed by the Senate. The House had provided \$1,000,000 for close-out costs. It is the understanding of the Appropriations Committees that the Department has already begun the closing out of this organization.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

The amended bill includes \$440,517,000 for the Scientific and Technical Research and Services programs of the National Institute of Standards and Technology (NIST), instead of \$500,517,000 as proposed by the House and \$502,117,000 as proposed by the Senate. NIST is directed to submit a spend plan no later than 30 days after enactment of the Act for the programs funded by this appropriation. Further, NIST is directed to develop a new budget structure for the fiscal year 2009 budget which better reflects the organizational structure of the agency.

The amended bill provides \$893,000 for the New York Center for National Competitiveness in Nanoscale Characterization.

INDUSTRIAL TECHNOLOGY SERVICES

The amended bill includes \$154,840,000 for Industrial Technology Services (ITS), instead of \$201,819,000 as proposed by the House, and \$179,155,000 as proposed by the Senate.

Hollings Manufacturing Extension Partnership (MEP).—Of the amounts provided to ITS, \$89,640,000 is provided for MEP. The amended bill does not include \$4,000,000 for a pilot project under MEP, as described in the Senate report.

Technology Innovation Program (TIP).—Of the amounts provided to ITS, \$65,200,000 is for the Technology Innovation Program as authorized by Public Law 110-69. TIP is structured to fund high-risk, high reward research focused on broad national needs such as advanced automotive batteries, aquaculture, novel lightweight materials, and other emerging technologies. The funding provided for TIP will address mortgage obligations relating to projects created under the Advanced Technology Program (ATP). The amended bill also includes language to allow the TIP immediate access to an additional \$5,000,000 from deobligations and prior-year recoveries from ATP.

CONSTRUCTION OF RESEARCH FACILITIES

The amended bill provides \$160,490,000 for construction of research facilities, instead of \$128,865,000 as proposed by the House and \$150,900,000 as proposed by the Senate. NIST is directed to submit a spend plan no later than 30 days after enactment of the Act for

activities funded by this appropriation. NIST is also directed to provide quarterly reports on the status and accounting of all construction projects.

Within the amounts provided, the amended bill includes \$51,262,000 for the following construction projects:

Biotechnology Research Park, University of Mississippi, Jackson, MS	\$7,332,000
Research, Technology and Economic Development Park, Mississippi State University, Starkville, MS	7,332,000
Innovation and Commercialization Park, Infrastructure and Building Construction and Equipment, University of Southern Mississippi, Hattiesburg, MS	1,598,000
Life Sciences Building, University of Alabama, Montgomery, AL	5,000,000

Engineering and Science Center, University of South Alabama, Mobile, AL 30,000,000

Also, within the amounts provided, the amended bill includes \$30,080,000 for competitive grants for research science buildings. The research buildings should span all the applicable sciences, as they relate to the Department of Commerce. These grants shall be awarded to colleges, universities, and other non-profit science research organizations on a competitive basis. NIST is directed to report to the Appropriations Committees the criteria it will use in reviewing and ranking grant proposals.

NATIONAL OCEANIC AND ATMOSPHERIC
ADMINISTRATION
OPERATIONS, RESEARCH, AND FACILITIES
(INCLUDING TRANSFERS OF FUNDS)

The amended bill includes \$2,859,277,000 for Operations, Research, and Facilities, including \$3,000,000 from the Coastal Zone Management Fund, instead of \$2,850,556,000 as pro-

posed by the House and \$3,039,888,000 as proposed by the Senate. The amended bill includes a total direct obligation level of \$2,941,277,000.

Bill language is included providing for \$5,000,000 for direct obligations from recoveries of prior year obligations; providing \$235,000 within NMFS, in no year funding subject to section 209 of P.L. 108-447; placing a limitation on the amount available for corporate services administrative support costs to \$206,484,000; placing a limitation on amounts to be paid to the Department of Commerce working capital fund, including the General Counsel to \$34,164,000; limiting grant amounts to States and placing other restrictions on Coastal Zone Management grants; and providing \$13,395,000 for the alleviation of economic impacts associated with Framework 42 on Massachusetts groundfish fishery.

Of the amounts provided, \$467,929,910 is for the National Ocean Service. These funds are distributed as follows:

The amended bill provides an additional \$1,410,000 above the budget request to allow NOAA to begin supporting the entire maintenance and operations of the Physical Oceanographic Real-Time System (PORTS), not just the system's design and installation, as authorized by Public Law 107-372. The Appropriations Committees believe these operations, which exist as a partnership between NOAA and local port authorities, have been an extremely valuable tool for providing information for safe vessel navigation and data for weather and coastal monitoring used by other national programs. As such, NOAA is directed to include sufficient and complete operational support for all of the national PORTS sites in future budget requests.

The amended bill includes \$1,500,000 for NOAA to conduct a sampling and analysis study on Suisun Bay, CA. The Appropriations Committee are greatly concerned about the environmental impact of the feder-

ally-owned obsolete vessels in Suisun Bay, CA on the marine environment. Funding may be used for activities relating to sampling and analysis to better understand toxic contamination caused by the vessels, and developing appropriate remediation recommendations that use the best available science and environmental practices.

The Appropriations Committees recognize that NOAA, as directed, has initiated the consortium of sensor testbeds referred to as the Alliance for Coastal Technologies (ACT) and that this effort is providing vital services in the developing Integrated Ocean Observing System. NOAA, through the National Ocean Service, is directed to establish a Cooperative Institute for the purpose of advancing and sustaining this essential capability which is executed on a regional basis. NOAA is expected to identify funds for this capability in the fiscal year 2009 budget. Further, the Appropriations Committees strong-

ly recommend that NOAA work with other federal agencies to expand both the capabilities and funding of this effort.

NOAA is directed to enter into an agreement with the National Academy of Sciences to initiate a study on acidification of the oceans. This study, authorized by the Magnuson-Stevens Fishery Conservation and Management Act of 2006, shall examine the impacts of ocean acidification on the United States.

The amended bill adopts the House position of a specific amount for the administration of CZM grants instead of the Senate position which provided not less than 10 percent from the overall grant program.

Within amounts provided, the amended bill includes \$708,575,250 for the National Marine Fisheries Service.

These funds are distributed as follows:

The amended bill provides \$25,379,000 for Fisheries Habitat Restoration, which is \$5,893,000 below the President's requested level. The Appropriations Committees recognize that significant administration priorities are embedded in this account and direct NOAA to determine the level of funding necessary for each of those priorities within the funding provided, without cutting into base program funding. The Committees further understand that the Penobscot River Habitat Restoration project is a timely opportunity to leverage current regional resources to revitalize this large-scale marine and estuarine habitat. However, the Committees have strong concerns about NOAA taking the full, long-term financial lead in such a large, cross-agency project, especially since a majority of the requested funds will be spent purchasing privately-owned dams. Though the Committees recognize NOAA's expertise in smaller dam removal and fish passageway projects, this project is an order of magnitude larger than any previous project undertaken by the agency, and pushes the limits of the agency's authority to use funds from NMFS's operations account to purchase multi-million dollar facilities. The Appropriations Committees admonish the administration for carelessly exposing NMFS's base funding to future large-scale, redevelopment projects that would jeopardize the agency's financial support for standard national fisheries activities and responsibilities. Given that this is a multi-year project, NOAA is directed to coordinate with the Departments of the Interior and Energy, and the U.S. Army Corps of Engineers to determine an ap-

propriate role for the agency solely as a habitat restoration advisor to its Federal and State partners, and eliminate the agency's questionable role as a broker for future large-scale, riverine construction projects. In future years, the Appropriations Committees will support NOAA's participation in habitat restoration projects, which is an ongoing, environmental assessment process, but will no longer appropriate funds from the ORF account to purchase costly, private dams.

The amended bill includes \$6,697,500 for assistance related to the fishery impacts associated with the creation of the Papahānaumokuākea Marine National Monument in the State of Hawaii. For more than 30 years, fishing in the Monument area has been carefully managed by the Western Pacific Fishery Management Council based on the best available scientific information. During that time, limited and highly regulated sustainable fisheries have provided lobsters and bottomfish to Hawaii and U.S. consumers. Due to both mandatory and voluntary conservation measures undertaken by these fishery participants, the area is widely considered a near-pristine marine ecosystem. The Presidential proclamation will end all commercial fishing in the Monument as of June 15, 2011. The amended bill provides specific authorization to the Secretary of Commerce to provide compensation to fishery participants who will be displaced by the 2011 closure.

Additionally, the amended bill provides \$13,395,000 to the Massachusetts Division of Marine Fisheries to alleviate economic im-

pacts associated with Framework 42 regulations on the Massachusetts groundfish fishery.

The Appropriations Committees are aware that devices such as the modified Jones-Davis and extended funnel bycatch reduction devices are intended to help the fishermen comply with the requirement to use bycatch reduction devices (BRD) while retaining their shrimp catch. It is the Appropriations Committees understanding that NOAA spent approximately \$1,100,000 in fiscal year 2007 to distribute BRDs. NOAA is encouraged to increase the number of devices it plans to distribute for fiscal year 2008, especially for shrimpers impacted by Hurricanes Katrina and Rita.

The amended bill provides \$1,786,000 for oyster restoration in the Chesapeake Bay and adopts the Senate position with regard to the use of those funds. The funds provided for oyster restoration in the Maryland waters of the Chesapeake Bay shall be for on-the-ground and in-the-water restoration efforts and shall not be used for administrative costs, including banquets or salaries.

Further, the Appropriations Committees are supportive of restoration of headwater streams to improve Bay water quality.

Finally, NOAA is urged to continue to support research activities including those related to the blue fin tuna.

Within the funds provided, the amended bill includes \$387,942,300 for the Office of Oceanic and Atmospheric Research.

Although the Appropriations Committees approved the overall OAR reprogramming that permitted the merger of Ocean Exploration (OE) and the National Undersea Research Program (NURP) in 2006, the Appropriations Committees await a formalized plan detailing the breakout and vision of any new structure. Given the diverse portfolios and direction of NURP and OE, the Appropriations Committees are concerned about how financially combining these two unique programs will impact their contributions to NOAA's mission. Therefore, the amended bill provides separate funding for NURP and OE as detailed in the Oceanic and Atmospheric Research chart. If the administration continues to propose combining NURP and OE in future years, NOAA is directed to provide a strategic and financial plan for such a merger with the administration's fiscal year 2009 budget request. NOAA is directed to distribute the funds provided for NURP equally

among each of the existing six NURP centers. The Appropriations Committees recognize and support NOAA's desire to develop a comprehensive extramural and intramural program of ocean exploration, advanced technology development, strategic research and education. The Committees recognize the benefits of an east coast consortium approach and direct the east coast NURP Centers to develop a synergistic plan for undersea research, technology development and education beginning in fiscal year 2009.

The Appropriations Committees recognize the need for additional low level radar coverage in Wyoming and along the outer coast of Washington State. The amended bill provides \$94,000 for NOAA and the National Weather Service to work with the University of Massachusetts and the National Science Foundation, under the umbrella of the Collaborative Adapting Sensing of the Atmosphere (CASA) program, to conduct a study to

determine the applicability to northeastern Wyoming and other regions the feasibility of integrating a number of small-scale Doppler radar technologies into future National Weather Service observing systems.

The Appropriations Committees are encouraged by NOAA's request to increase the Nation's research knowledge within the field of aquaculture and direct NOAA to distribute the funding provided equally among three regions: Atlantic, Pacific, and Gulf of Mexico.

Finally, the Appropriations Committees support measurement and modeling of speciated mercury by the Air Resources Laboratory.

Within funds provided, the amended bill includes \$805,293,480 for the National Weather Service. These funds are distributed as follows:

The Appropriations Committees continue to remain concerned about radar coverage in the State of North Dakota and direct NOAA to maintain staffing and operations at the Williston Radar site through fiscal year 2008.

The amended bill provides \$5,358,000 within the National Weather Service for the Urbanet program's phase III. Of the additional funds provided: \$1,339,500 is for certification costs of adding new stations in 10 cities and \$4,018,500 is for ongoing operating costs. Data from Urbanet should be made available to not less than 25 National Weather Service Forecast Offices by the end of fiscal year 2008. In addition, NOAA should pro-

vide the Appropriations Committees with a report not more than 45 days after enactment which identifies additional operating costs, including maintenance on weather stations established in phases I and II of Urbanet, NOAA research costs on plume modeling, and transition costs so that National Weather Service can utilize MADIS as an operational system. Finally, NOAA should provide the Committees with a multi-year strategic plan concurrently with the 2009 budget submission for incorporating Urbanet, including migration to not less than the largest 40 metropolitan areas, and

utilization by all applicable National Weather Service forecast offices.

Within the funds provided for the Local Warnings and Forecast Base, NOAA is directed to examine ways to provide supplemental weather data to the FHWA and NOAA for enhanced planning, situational avoidance, operational support and predictive modeling to improve the safety, efficiency and reliability of our highways.

Within the funds provided, the amended bill provides \$179,153,750 for the National Environmental Satellite, Data, and Information Service.

These funds are distributed as follows:

While the Appropriations Committees remain concerned about the management issues at NOAA, they do not adopt the Senate report language regarding a study by the National Academy of Public Administration.

The amended bill provides \$9,673,562 for the B-WET programs, of which \$2,350,000 is for the California B-WET. The Appropriations Committees enthusiastically believe in the goals of this program and continue to support the existing B-WET programs in California, the Chesapeake Bay region, and in Hawaii. The amended bill provides additional resources for NOAA to expand the program into other regions, including the Northern Gulf of Mexico, the Pacific Northwest, and New England.

This account consolidates all the items within the administration's request for "Marine Operations and Maintenance", including

the administration's request of \$5,600,000 for operations and maintenance of the Okeanos research vessel. These funds are appropriated as a direct adjustment to the base of the Marine Operations account without supporting the requested \$4,600,000 transfer of funds from the Oceanic and Atmospheric Research account. Far too often NOAA's Marine and Aviation Operations rely on transfers of funds from NOAA line offices for non-science vessel operations, which distort the true costs of basic operations for these valuable, national assets. In future fiscal years, NOAA is required to provide a budget request for basic vessel operations that does not include funding transfers from other line offices for basic vessel operations.

NOAA is directed to provide to the House and Senate Appropriations Committees,

within 18 months of enactment of this Act, a study that evaluates the design and operations of future research vessels in the form of a NOAA Survey Vessel for multi-mission operations, to maximize on-site activities and modularize for versatile platform availability.

NOAA is directed to increase the number of officers authorized to serve within the ranks of the NOAA Commissioned Officer Corps from 299 to 321.

PROCUREMENT, ACQUISITION AND CONSTRUCTION

The amended bill provides \$979,207,000 for Procurement, Acquisition and Construction instead of \$1,039,098,000 as proposed by the House and \$1,059,000,000 as proposed by the Senate.

These funds are distributed as follows:

The amended bill provides \$8,000,000 for the CELCP program. The Appropriations Committees are pleased that the program has migrated towards a 100 percent competitive, merit-based selection process. The amended bill does not adopt Senate language directing NOAA to reopen the 2008 competition.

It is noted that the fiscal year 2008 budget request included funding for the Hyperspectral Environmental Suite (HES) which was cancelled from the GOES-R program in September 2006. The funding provided in the amended bill for GOES-R has been reduced accordingly.

The Appropriations Committees remain concerned and frustrated with regard to NOAA's satellite programs. The Committees firmly believe that continuous oversight by the Congress, specifically by the Appropriations Committees, is necessary given NOAA's recent history in procuring satellite systems. The Appropriations Committees are aware that a recent Government Accountability Office (GAO) report indicates that independent cost estimates for the GOES-R satellite program have increased by \$2,000,000,000. As a result, the amended bill includes a general provision to the bill that is similar to the Defense Department's Nunn-McCurdy notification procedure. In addition, NOAA is directed to provide quarterly updates to the Appropriations Committees regarding all of its satellite programs, including staffing plans, budget, and technical risks.

Fish and Wildlife Coordination Act.—The funds included in the amended bill for the Mill Creek, Wickford Cove Conservation project will be used expressly to acquire lands or interest in lands that include significant conservation, recreation, ecological, historical or aesthetic values.

PACIFIC COASTAL SALMON RECOVERY

The amended bill provides \$67,000,000 for the Pacific Coastal Salmon Recovery Fund, instead of \$64,825,000 as proposed by the House and \$90,000,000 as proposed by the Senate.

COASTAL ZONE MANAGEMENT FUND

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes language proposed by the House and Senate transferring not to exceed \$3,000,000 from the Coastal Zone Management Fund to the "Operations, Research, and Facilities" account.

FISHERIES FINANCE PROGRAM ACCOUNT

The amended bill includes language to allow for NOAA to obligate funds for Individual Fishing Quota loans and traditional direct loans.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The amended bill provides \$44,294,000 for this account, instead of \$18,693,000 as proposed by the House and \$53,193,000 as proposed by the Senate. Within the amount provided, the amended bill includes funds for the blast mitigation initiative for the Herbert C. Hoover Building (HCHB). The amended bill concurs with the Department's recommendation that the National Medal of Technology shall be managed by the National Institute of Standards and Technology (NIST).

HCHB RENOVATION AND MODERNIZATION

The amended bill includes \$3,722,000 for the HCHB Renovation, instead of \$3,364,000 as proposed by the House and \$5,100,000 as proposed by the Senate. Within the funds provided the following project is funded: \$714,400 is for the National Aquarium, Washington, DC, for HCHB rental payments and cost of planning and design of new space within HCHB.

OFFICE OF INSPECTOR GENERAL

The amended bill includes \$22,020,000, instead of \$23,426,000 as proposed by the House and Senate for the Office of Inspector General.

NATIONAL INTELLECTUAL PROPERTY LAW

ENFORCEMENT COORDINATION COUNCIL

The amended bill does not include funding under this heading for the National Intellectual Property Law Enforcement Coordination Council. Instead, the amended bill includes authority that the United States Patent and Trademark Office may transfer \$1,000,000 to the Departmental Management account for costs associated with the National Intellectual Property Law Enforcement Coordination Council.

GENERAL PROVISIONS—DEPARTMENT OF COMMERCE

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes the following General Provisions for the Department of Commerce:

Section 101.—The amended bill includes section 101 making Department of Commerce funds available for advanced payment only upon certification of officials designated by the Secretary that such payments are considered to be in the public interest.

Section 102.—The amended bill includes section 102 making appropriations for the Department for Salaries and Expenses available for hire of passenger motor vehicles, and for services, uniforms and allowances as authorized by law.

Section 103.—The amended bill includes section 103 providing authority to transfer funds between Department of Commerce appropriation accounts and requiring notification to the Committees of certain actions.

Section 104.—The amended bill includes section 104 providing that any costs incurred by the Department in response to funding reductions shall be absorbed within total budgetary resources available.

Section 105.—The amended bill includes section 105 extending guarantee authority and making appropriations for salaries and administrative expenses to administer the Emergency Steel Loan Guarantee Program available until expended.

Section 106.—The amended bill includes section 106 permanently prohibiting the use of any appropriated funds to trademark the phrase "Last Best Place."

Section 107.—The amended bill includes section 107 providing authority for ITA to use appropriated funds for sequestered North American Free Trade Act panelists.

Section 108.—The amended bill includes section 108 extending the Department of Commerce's personnel demonstration project.

Section 109.—The amended bill includes section 109 making technical corrections related to the elimination of the Technology Administration.

Section 110.—The amended bill includes section 110 authorizing the Secretary of Commerce to prescribe and enforce standards or regulations affecting safety and health in the context of scientific and occupational diving with the National Oceanic and Atmospheric Administration.

Section 111.—The amended bill includes section 111 providing authority for a voluntary fishing capacity reduction program.

Section 112.—The amended bill includes section 112 establishing reporting requirements for the National Oceanic and Atmospheric Administration with regard to its satellite acquisition programs where cost estimates exceed 20 percent above initial estimates.

Section 113.—The amended bill includes section 113 authorizing the Secretary to develop and maintain a list of vessels and owners engaged in illegal, unreported or unregulated fishing.

Section 114.—The amended bill includes section 114 providing for the establishment of the "Climate Change Study Committee" to investigate and study issues relating to global climate change and the organization by the National Academy of Sciences of a Summit on Global Climate Change.

TITLE II

DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes \$97,832,000 for General Administration, Salaries and Expenses, instead of \$54,527,000 as proposed by the House and \$74,777,000 as proposed by the Senate.

The following displays the amended bill for each office:

In thousands of dollars	
Department Leadership:	
Attorney General	\$5,260
Deputy Attorney General	4,814
Office of Privacy and Civil Liberties	380
Associate Attorney General	1,767
Subtotal	12,221
Intergov Relations/External Affairs:	
Public Affairs	2,858
Legislative Affairs	3,598
Intergovernmental and Public Liaison	927
Subtotal	7,383
Exec Support/Prof Resp:	
Legal Policy	5,601
Professional Responsibility	5,801
Subtotal	11,402
Justice Management Division	66,826
Total General Administration	97,832

Gangs.—As stated in the House Report, there is concern with the threats posed by the growth of violent street gangs. The Attorney General is directed to submit a report on the growth of violent gangs in suburban areas that may not have the resources to fight gangs that large cities do. The report should address specific gangs, drug trafficking organizations, the regions in which they operate, and the federal resources allocated to containing these gangs. The report shall be submitted no later than April 1, 2008.

The amended bill does not include language contained in the Senate Report on the National Drug Intelligence Center.

JUSTICE INFORMATION SHARING TECHNOLOGY

The amended bill provides \$85,540,000 for this account instead of \$100,500,000 as proposed by the House and \$90,795,000 as proposed by the Senate.

The amended bill includes not less than \$19,740,000 for the unified financial management system instead of \$21,000,000 as proposed by the House and Senate.

TACTICAL LAW ENFORCEMENT WIRELESS COMMUNICATIONS

The amended bill provides \$74,260,000 for this account instead of \$81,353,000 as proposed by the Senate and \$76,353,000 as proposed by the House.

ADMINISTRATIVE REVIEW AND APPEALS

The amended bill provides \$240,649,000 in direct appropriations for this account, instead of \$247,499,000 as proposed by the House and the Senate. The amended bill includes language designating \$3,760,000 for the Legal Orientation Program, instead of \$4,000,000 as proposed by the Senate.

The amended bill includes \$8,000,000 in emergency funds for the Executive Office for Immigration Review to provide additional attorneys and judges for the Board of Immigration Appeals to adjudicate cases and appeals resulting from increased immigration enforcement actions.

DETENTION TRUSTEE

The amended bill provides \$1,225,920,000 for the Detention Trustee, instead of \$1,265,872,000 as proposed by the Senate and \$1,260,872,000 as proposed by the House.

OFFICE OF INSPECTOR GENERAL

The amended bill provides \$70,603,000 for the Office of Inspector General (OIG), instead of \$74,708,000, as proposed by the House and \$73,700,000, as proposed by the Senate.

The Appropriations Committees remain deeply concerned by management and oversight problems within the Justice Department. The OIG is directed to continue to investigate and report to the Appropriations Committees on the firings of U.S. Attorneys, the FBI's use of National Security Letters and the FBI's new case management system known as Sentinel, as directed in the House report.

The amended bill also includes bill language directing the OIG to conduct an audit and report to the Appropriations Committees on all expenses of the legislative and public affairs offices of the Department of Justice, as directed by the Senate.

The OIG is directed to audit competitive National Institute of Justice programs, projects and activities, including contracts and grants, awarded in the last three fiscal years. The audit shall examine whether these grants and contracts were awarded through a fair and open competitive process. The audit shall identify costs related to any grant or contract that are administrative in nature and provide a detailed breakout of how those costs were determined.

UNITED STATES PAROLE COMMISSION

SALARIES AND EXPENSES

The amended bill provides \$11,462,000 for the United States Parole Commission, in-

stead of \$12,194,000, as proposed by both the House and the Senate.

LEGAL ACTIVITIES

SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

The amended bill provides \$745,549,000 for General Legal Activities, instead of \$750,584,000 as proposed by the House and \$753,000,000 as proposed by the Senate.

General Legal Activities

(In thousands of dollars)

Division	Amended Bill Amount
Solicitor General	\$9,883
Tax Division	92,781
Criminal Division	148,979
Civil Division	250,115
Environment and Natural Resources	99,365
Office of Legal Counsel	6,184
Civil Rights Division	114,450
INTERPOL—USNCB	23,252
Office of Dispute Resolution	541
Total	\$745,549

The amended bill includes \$10,000,000 in emergency funds for the Civil Division Office of Immigration Litigation to provide 86 additional attorneys to address appeals resulting from increased immigration enforcement actions.

THE NATIONAL CHILDHOOD VACCINE INJURY ACT

The amended bill includes a reimbursement of \$6,833,000 from the Vaccine Injury Compensation Trust Fund to the Department of Justice, as proposed by both the House and the Senate.

SALARIES AND EXPENSES, ANTITRUST DIVISION

The amended bill provides \$147,819,000 for the Antitrust Division, instead of \$155,097,000 as proposed by both the House and the Senate. This appropriation is offset by \$139,000,000 in pre-merger filing fee collections, resulting in a direct appropriation of \$8,819,000.

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

The amended bill provides \$1,754,822,000 for the United States Attorneys, instead of \$1,748,572,000 as proposed by the House, and \$1,777,822,000, as proposed by the Senate.

The amended bill includes programmatic increases to strengthen prosecutions of child exploitation, violent gangs, illegal immigration and human trafficking. Within the funds made available, \$5,000,000 is provided to support the hiring of additional assistant U.S. Attorneys to prosecute offenses related to the sexual exploitation of children, as authorized by the Adam Walsh Child Protection and Safety Act of 2006.

The amended bill includes \$7,000,000 in emergency funds for the United States Attorneys for criminal and civil litigation resulting from increased immigration enforcement actions.

The amended bill does not include a general provision in the Senate bill regarding Operation Streamline. The Appropriations Committees recognize the importance of Operation Streamline as a highly effective law enforcement operation for detaining, prosecuting, and deporting illegal aliens who cross the U.S.-Mexico border illegally. Initiated in December 2005 in Del Rio, TX, Operation Streamline is a multi-agency law enforcement initiative that involves the U.S. Attorney's Office, Customs and Border Protection, Immigration and Customs Enforcement, the U.S. Marshals Service and dedicated Federal judges and magistrates of the Western District of Texas. Operation Streamline has instituted a zero-tolerance policy for illegal entry. The Department of Justice is directed to report to Congress on

the impact of Operation Streamline and on the costs to implement law enforcement operations identical to Operation Streamline in all districts along the U.S.-Mexico border, and hire or reassign U.S. Attorneys and support staff to expand this program.

UNITED STATES TRUSTEE SYSTEM FUND

The amended bill provides \$209,763,000 for the United States Trustee System Fund, instead of \$189,000,000 as proposed by the House and \$231,899,000 as proposed by the Senate. The amended bill includes language authorizing the use of \$184,000,000 in offsetting collections and the use of \$20,000,000 in prior year unobligated balances. In addition, \$5,000,000 is derived from interest in U.S. Securities, resulting in a direct appropriation of \$763,000.

SALARIES AND EXPENSES, FOREIGN CLAIMS SETTLEMENT COMMISSION

The amended bill includes \$1,606,000, for the Foreign Claims Settlement Commission, instead of \$1,709,000 as proposed by both the House and the Senate.

UNITED STATES MARSHALS SERVICE

SALARIES AND EXPENSES

The amended bill provides \$864,219,000 for the United States Marshals Service (USMS) Salaries and Expenses account, instead of \$883,766,000 as proposed by the House, and \$904,705,000 as proposed by the Senate.

The amended bill provides \$354,297,000 for judicial and courthouse security, which includes \$11,437,000 to provide additional deputy marshals for judicial security.

The amended bill includes \$15,000,000 in emergency funds for the USMS for prisoner transportation, defendant productions and courthouse security resulting from increases in immigration-related Federal court proceedings. This funding will support the hiring of 100 additional deputy marshals.

Within funds made available, \$2,820,000 is provided to address substandard health and security conditions in the prisoner holding facilities occupied by the USMS in the Moultrie Courthouse Building of the District of Columbia. The USMS and the District of Columbia Courts are strongly urged to work together in a coordinated manner to develop a renovation and improvement plan for these facilities, as identified by the Office of Inspector General in report I-2007-008-R.

Within funds provided, \$2,820,000 is made available to establish new or expand existing regional fugitive task forces. Distribution of these resources should be based on the fugitive workload, giving emphasis to the workload created by the Adam Walsh Child Protection and Safety Act of 2006.

CONSTRUCTION

The amended bill provides \$2,304,000 for the United States Marshals Service Construction account, instead of \$2,451,000 as proposed by the House, and \$8,015,000 as proposed by the Senate.

FEES AND EXPENSES OF WITNESSES

The amended bill provides \$168,300,000 for Fees and Expenses of Witnesses, as proposed by both the House and the Senate.

SALARIES AND EXPENSES, COMMUNITY RELATIONS SERVICE

The amended bill provides \$9,794,000 for the Community Relations Service, as proposed by the House, instead of \$10,230,000 as proposed by the Senate.

Region Six, which encompasses Louisiana, Texas, Arkansas, New Mexico, and Oklahoma, recently experienced racial unrest in Jena, Louisiana and there is concern about the slow response of the Community Relations Service to this incident. For this reason, the Community Relations Service is urged to send additional conciliators for this

region to ensure that the area has sufficient staff and resources for the future.

ASSETS FORFEITURE FUND

The amended bill provides \$20,990,000 for the Assets Forfeiture Fund, as proposed by both the House and the Senate.

NATIONAL SECURITY DIVISION

SALARIES AND EXPENSES

The amended bill includes \$73,373,000, for the National Security Division, instead of \$78,056,000 as proposed by both the House and the Senate.

INTERAGENCY LAW ENFORCEMENT

INTERAGENCY CRIME AND DRUG ENFORCEMENT

The amended bill includes \$497,935,000, for Interagency Crime and Drug Enforcement, instead of \$509,154,000 as proposed by both the House and the Senate.

The amended bill includes the following amounts to reimburse agencies for their costs of participating in OCDETF task forces:

REIMBURSEMENT BY AGENCY

(In thousands of dollars)

Drug Enforcement Administration	\$193,264
Federal Bureau of Investigation ..	134,051
United States Marshals Service ..	8,272
Bureau of Alcohol, Tobacco, Firearms and Explosives	11,151
United States Attorneys	130,726
Criminal Division	2,653
Tax Division	961
Administrative Support	5,388
OCDETF Executive Office (OFC) ..	11,469
Total	\$497,935

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

The amended bill provides \$6,493,489,000 for the Federal Bureau of Investigation (FBI) Salaries and Expenses account, instead of \$6,503,611,000 as proposed by the House, and \$6,395,250,000 as proposed by the Senate.

Firing the Budget Shortfall.—The Appropriations Committees concur with language in the House Report expressing frustration with the composition of the Department of Justice budget request for the FBI that used as a base the average of the House and Senate recommendations for fiscal year 2007 less one percent. The 2007 level for the FBI provided by the 110th Congress supported the full Administration request plus additional funds for the 2007 pay raise. It was expected that the Administration would recalculate the Department of Justice's current rate budget needs for fiscal year 2008 based on the actual 2007 base. The effect of the Administration's 2008 budget gimmick is that agencies' fiscal year 2008 budget requests are not sufficient to fully fund the adjustments to base and program increases requested in fiscal year 2008. For the FBI's salaries and expenses account the result is a deficit of \$139,170,000. If funded at the President's request level, the FBI would be required to address this shortfall through imposition of a limited hiring freeze, imposition of across-the-board reductions to operational support programs, and deferment of program enhancements. The work of the FBI in counterterrorism and criminal investigations is too important to be subjected to budget gimmicks and therefore funds have been realigned to mitigate the impact of the salaries and expenses shortfall. The FBI is directed to realign \$25,009,000 within existing funds allocated to the Sentinel program to address this shortfall; to make available \$18,000,000 from remaining funds previously made available to FBI Salaries and Expenses under P.L. 109-148 to further account for the budget shortfall; and to apply redirected funds to this shortfall.

NGI-IAFIS and IDENT/IAFIS Interoperability.—The budget gimmick would also have impacted Criminal Justice Information Systems (CJIS) initiatives, therefore the FBI is also directed to use \$11,000,000 from the CJIS prior-year user fee collections to fund improvements for IDENT/IAFIS Interoperability initiatives impacted by the budget gimmick, available until expended. In addition, \$47,000,000 of enhancements requested in the President's Budget for Next Generation Identification (NGI), Regional Data Exchange (R-DEX), IDENT/IAFIS Interoperability, and Combined DNA Index System (CODIS) are funded with prior-year user fee collections. As in previous years, under no circumstances is the FBI to divert funding collected through the CJIS user fee for any purpose other than CJIS, its refreshment plan, or a subsequent modernization plan for the current facility.

Border Security and Immigration.—The amended bill provides the FBI \$23,000,000 from the CJIS prior-year user fee collections to fund improvements for the IAFIS and its interoperability initiatives, to be available until expended, to support improvements to the FBI's IAFIS fingerprint system, including its interoperability with the Department of Homeland Security's (DHS) IDENT system. The FBI's fingerprint system supports immigration enforcement efforts by providing criminal history information on individuals arrested or being investigated by DHS.

Counterterrorism and Cyber Security.—The amended bill provides the FBI \$143,539,000 in emergency funds to address emerging threats in counterterrorism and cyber security for uses described in the fiscal year 2008 budget amendment.

Hollow Work Years and Fee Adjustments.—The FBI's authorized position level does not represent a realistic workforce level, as is the case with several other Department of Justice accounts. At a time when the FBI is in dire need of both National Security and Criminal positions, the Administration is proposing to eliminate 2,700 unaffordable work years rather than identifying additional funding to address the problem. Therefore, the FBI is directed to eliminate 2,250 unaffordable work years and to devise a multi-year plan that identifies funding for the remaining 450 unaffordable work years. The FBI has reviewed all of its reimbursable agreements and updated the cost structure of its user fees. As such, the FBI's reimbursable positions should change accordingly. An additional 292 reimbursable positions are authorized.

Criminal Investigations.—The amended bill does not include funds for new agents to combat violent crime as proposed by the Senate, but the FBI is directed to make funding for new agents to combat violent crime a top priority. In recent years there has been a marked decrease in the resources devoted by the FBI to criminal investigations. Between 2001 and 2007, the FBI's traditional resources for conducting criminal investigations decreased approximately 30 percent. While most violent crime is a local crime problem, State and local authorities depend upon the FBI for investigative, forensic, and technical assistance and leadership. The FBI's task force approach to combating street crime and gang violence is one of the successful strategies that contributed to the previous decrease in violent crimes. Accordingly, the FBI is encouraged to establish additional joint task forces to target violent crimes and gang violence.

Innocent Images National Initiative.—The amended bill does not provide an increase over the budget request for the Innocent Images National Initiative as proposed by the Senate.

The FBI is urged to expand the number of agents investigating Internet-related crimes against children by increasing agents and support positions to address the critical requirements for Federal law enforcement in attacking the problem of child sexual exploitation and child victimization.

Intellectual Property Crime Enforcement.—The amended bill does not provide additional funds for the detection, investigation, and prosecution of domestic and international intellectual property crimes against the United States as proposed by the Senate. The FBI is urged to create an operational unit at FBI headquarters with agents dedicated solely to working with the Department of Justice's Computer Crime and Intellectual Property Section on complex, multi-district and international criminal intellectual property cases and to increase agents assigned to the Department of Justice's 25 Computer Hacking and Intellectual Property Units dedicated solely to criminal intellectual property cases. The additional agents for this section shall investigate and support the criminal prosecution of the Federal intellectual property laws, including title 17, United States Code, sections 506, and 1204; title 18 United States Code, sections 1831, 1832, 2318, 2319, 2319A, 2319B, and 2320. The FBI shall make similar agent increases as additional CHIP Units are created.

Annuity Protection.—The FBI is directed to identify funds to protect the pensions of FBI agents who assumed supervisory positions before the FBI began implementation of the Field Office Supervisory Term Limit Policy. The annuity protection provision should be applied retroactively, since the Term Limit Policy has already been applied to agents who would be eligible for annuity protection.

National Security Letters.—The FBI is directed to report within two months after enactment of this Act on what has been done to implement the recommendations in the March 2007 Office of Inspector General (OIG) report that identified numerous FBI abuses and misuses of National Security Letter (NSL) authority and what will be done in the future to catch mistakes and report to Congress on compliance with legal authorities.

Report on Delayed Name Checks.—Not later than 60 days after the end of each fiscal year, the Director of the FBI shall submit a report that contains, with respect to the most recently completed fiscal year—

- (1) a statistical analysis of the number of name checks processed and pending, including check requests in process at the time of the report and check requests that have been received but are not yet in process;
- (2) the average time taken to complete each type of name check;
- (3) a description of the efforts and progress made by the Director in addressing any delays in completing such name checks; and
- (4) a description of the progress that has been made in automating files used in the name check process, including investigative files of the FBI.

This report shall be submitted to the Appropriations Committees of the House and Senate, the Committee on the Judiciary of the Senate, the Committee on Homeland Security and Governmental Affairs of the Senate, the Committee on the Judiciary of the House of Representatives, and the Committee on Homeland Security of the House of Representatives.

Work Force Realignment.—Not later than 60 days after the enactment of this Act, the Director of the FBI shall submit to the Appropriations Committees of the House and Senate a report that evaluates the FBI's current work force allocation process and assesses the steps taken to right-sizing and realignment of agents, analysts and support personnel currently in field offices to better

meet the FBI's mission requirements and priorities.

Training.—As the nation's primary counterterrorism agency, the FBI must ensure that its personnel are trained to understand the nature of the terrorist threat in the United States, and how to go about defeating it. Within the amounts provided, the FBI is encouraged to expand training opportunities for Counterterrorism and Counterintelligence agents, analysts and linguists, specifically to address identifiable weaknesses in understanding radical and religion-based terrorist doctrine, ideology and objectives, and in disrupting any such movements operating domestically. The FBI is to report to the Committees by February 28, 2008 on revised plans for Counterterrorism and Counterintelligence training, to include these elements.

The amended bill does not include language on the National Motor Vehicle Title Information System as proposed by the House.

CONSTRUCTION

The amended bill provides \$164,200,000 for FBI construction, instead of \$28,191,000 as proposed by the House and \$206,400,000 as proposed by the Senate. Of this amount, \$45,000,000 shall be for the Terrorist Explosives Device Analytical Center.

DRUG ENFORCEMENT ADMINISTRATION

SALARIES AND EXPENSES

The amended bill appropriates \$2,096,818,000 for the Drug Enforcement Administration (DEA), instead of \$2,081,818,000 as proposed by the House and \$2,093,406,000 as proposed by the Senate.

The amended bill provides funding above the budget request to support current operation levels and to enable DEA to lift the hiring freeze on agent and support personnel that has been in place since August 2006. This funding will allow DEA to fill 200 special agent positions as well as related support positions that would otherwise remain vacant. With the resources provided in this amended bill and in the fiscal year 2007 supplemental, the Administration's proposed reduction for "hollow FTE" is not accepted. Some FTE and positions that had been proposed for elimination will be needed to support the restored staffing levels.

Furthermore, the Administration's proposal to eliminate the Mobile Enforcement Teams (MET) program and reduce further the number of DEA agents and support staff is believed to be ill-advised, and therefore the Administration is directed to use remaining funds above the request to continue this program. This will enable DEA to retain special agents, allowing DEA to continue assisting State and local law enforcement in their fight against methamphetamine and other dangerous drugs.

The amended bill includes \$2,000,000 in emergency funds to provide for nonpersonnel resources for a communications intercept program for Afghanistan. The initiative directly supports ongoing foreign-deployed advisory support teams (FAST) and strengthens interagency counter narcotics operations in Afghanistan.

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES

SALARIES AND EXPENSES

The amended bill provides \$984,097,000 for the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), instead of \$1,013,980,000 as proposed by the House and the Senate. The amended bill includes language as proposed by the House on the availability of gun trace data.

License Revocations.—The ATF is directed to report on license revocations against firearms dealers based on violations that consist largely of recordkeeping errors.

Open Rules.—The Appropriations Committees concur with language in the House Report regarding open rulemakings and the delay in resolving the rules due to staff shortages. The ATF to report within two months after enactment of this Act on the status of all open rules and the ATF's plans to address the backlog.

Conversion of Records.—There is a need for ATF to convert Federal firearms records at the ATF National Tracing Center (NTC) to digital images. As these records are converted, search time for these records is reduced significantly. The ATF is urged to continue the conversion and integration of these records.

CONSTRUCTION

The amended bill includes \$23,500,000 for construction of the National Center for Explosives Training and Research (NCETR), instead of no funding as proposed by the House and \$35,000,000 as proposed by the Senate.

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES

The amended bill provides \$5,050,440,000 for the salaries and expenses of the Federal Prison System (FPS), instead of \$5,171,440,000 as proposed by the House and \$5,151,440,000, as proposed by the Senate.

The funds provided for the salaries and expenses of the FPS shall be distributed as follows: \$1,788,043,000 for Inmate Care and Programs; \$2,275,246,000 for Institution Security and Administration; \$806,129,000 for Contract Confinement; and \$181,022,000 for Management and Administration.

Inmate literacy, training and substance abuse treatment programs are cost-effective tools in reducing the societal costs of criminal recidivism. The FPS is directed to examine cost-effective ways to reduce the long waiting lists of inmates in need of residential and transitional drug treatment, and to expand inmate GED/literacy and occupational skills training programs.

The FPS is expected to adhere to the prison activation schedule included in the budget submission. The FPS shall notify the Appropriations Committees of any deviations to the schedule.

The FPS is commended on its work to address and prevent sexual misconduct. With funds provided in earlier appropriations Acts, the National Institute of Corrections has made useful progress in providing training and technical support to correctional systems throughout the country to eliminate staff sexual misconduct with inmates, training in investigating cases, and training the "trainers" in order that employees at every level will be more aware of, and better prepared to deal with, these cases. The FPS is directed to continue these efforts and to report to the Appropriations Committees by March 31, 2008, on progress made in this area.

BUILDINGS AND FACILITIES

The amended bill provides \$372,720,000 for the construction, modernization, maintenance, and repair of prison and detention facilities housing Federal prisoners, instead of \$95,003,000 as proposed by the House, and \$495,000,000 as proposed by the Senate.

Within funding provided, \$278,720,000 is made available for new prison construction, and \$70,000,000 is made available for modernization, maintenance and repair of existing facilities.

LIMITATION ON ADMINISTRATIVE EXPENSES, FEDERAL PRISON INDUSTRIES, INCORPORATED

The amended bill includes language placing a limitation on administrative expenses of \$2,328,000 for Federal Prison Industries, Incorporated, instead of \$2,477,000 as proposed by both the House and the Senate.

OFFICE ON VIOLENCE AGAINST WOMEN

VIOLENCE AGAINST WOMEN PREVENTION AND PROSECUTION PROGRAMS

The amended bill provides \$400,000,000 for violence against women prevention and prosecution programs, as proposed by the Senate, instead of \$459,000,000 as proposed by the House.

In addition, the amended bill provides funding for the National Resource Center on Workplace Responses, as authorized by the Violent Crime Control and Law Enforcement Act of 1994.

Native American/Native Alaskan Liaison Office.—Native American and Native Alaskan women are faced with extraordinarily high incidences of violence. Within funds provided, the amended bill directs \$2,820,000 to the State of Alaska for the Native American/Native Alaskan Liaison Office to provide services to victims of sexual assault and domestic violence in Alaska.

OFFICE OF JUSTICE PROGRAMS

JUSTICE ASSISTANCE

The amended bill provides \$196,184,000 for Justice Assistance, instead of \$250,000,000, as proposed by the House, and \$240,000,000, as proposed by the Senate.

National Institute of Justice.—The Office of Inspector General is directed to audit competitive National Institute of Justice programs, projects and activities, including contracts and grants, awarded in the last three fiscal years. The audit shall examine whether grants and contracts were awarded through a fair and open competitive process. The audit shall identify costs related to any grant or contract that are administrative in nature and provide a detailed breakout of how those costs were determined.

National Crime Victimization Survey (NCVS).—Within funds provided, the Bureau of Justice Statistics is directed to appropriately fund the continuation of the NCVS, which is a critical source of information on crime victimization across the country.

Missing Children.—The amended bill provides \$50,000,000 for the Missing Children Program. The Appropriations Committees recognize the critical roles played by national, State and local law enforcement agencies and non-profit organizations in protecting children from predators. The Department is strongly urged to fully engage such entities in the implementation of new and enhanced child protection programs.

Regional Information Sharing System (RISS).—The amended bill provides \$40,000,000 for regional information sharing to ensure the efficient and effective automated exchange of crime and terrorism information among Federal, State and local agencies. The Department is urged to consider the data sharing needs of rural law enforcement.

Victim Notification.—The amended bill provides \$9,400,000 for the State Automated Victim Notification program. No funding may be used for this initiative from the Victims Assistance Program, and a 50 percent match is required from State, local or private sources.

Economic, High-tech and Cybercrime Prevention.—The amended bill includes \$11,280,000 to support and train State and local law enforcement agencies in the prevention, investigation, and prosecution of Internet, high-tech and economic crimes.

Management and Administration.—The amended bill includes language capping the total amount made available for Office of Justice Programs management and administration at \$127,915,000.

STATE AND LOCAL LAW ENFORCEMENT ASSISTANCE

The amended bill provides \$1,008,136,000 for the State and Local Law Enforcement Assistance account, instead of \$1,380,000,000, as proposed by the House, and \$1,430,000,000, as proposed by the Senate.

Edward Byrne Memorial Justice Assistance Grant Program (JAG).—The amended bill provides \$170,433,000 for JAG formula grants. Funding under this program is authorized for law enforcement programs; prosecution and court programs; prevention and education programs; corrections and community corrections programs; drug treatment and enforcement programs; planning, evaluation and technology improvement programs; and crime victim and witness programs other than compensation. Funding is not available for vehicles, vessels, or aircraft; luxury items; real estate; or construction projects. Within the funds provided, \$2,000,000 is made available for training to improve State and local law enforcement intelligence capabilities; and \$2,000,000 is made available for the National Institute of Justice to assist local units of government with the acquisition of new law enforcement technologies.

Byrne Discretionary Grants.—The amended bill provides \$187,513,000 for Byrne discretionary grants to help improve the functioning of the criminal justice system with an emphasis on violent crime, drugs, and serious offenders. Within the funds provided, the Office of Justice Programs is directed to review the following projects, to provide funding consistent with law and Congressional intent, and to report to the Appropriations Committees regarding the disbursement of these funds:

<i>Byrne Competitive Grants.</i> — The amended bill provides \$16,000,000 for Byrne competitive grants to programs of national significance to prevent crime, improve the administration of justice, or assist victims of crime. Within 60 days of enactment of this Act, the Office of Justice Programs is directed to provide a report and spend plan to the Appropriations Committees, which details the scope of the program and the criteria and methodology the agency will employ to award these grants. It is expected that national programs that have received funding under the Byrne discretionary program will be eligible for funding under this competitive grant program.	
<i>Tribal Law Enforcement Assistance.</i> — The amended bill provides \$22,440,000 for law enforcement assistance to Indian tribes, of which \$8,630,000 is for tribal prison construction; \$8,630,000 is for tribal courts; and \$5,180,000 is for tribal alcohol and substance abuse reduction assistance. The Appropriations Committees note with deep concern the poor condition of tribal detention facilities on Navajo Nation land and across the country. The Department of Justice is directed to review the state of existing tribal detention facilities and the need for new detention capacity, and to report to the Appropriations Committees no later than 180 days after enactment of this Act on its findings, including recommendations and actions that have or will be taken to address these needs.	
<i>State Criminal Alien Assistance Program (SCAAP).</i> — The amended bill provides \$410,000,000 for the SCAAP program for reimbursement to States and localities for costs of incarceration of criminal aliens. In light of the long delay in disbursing fiscal year 2006 SCAAP funds, the Department is directed to improve coordination with the Department of Homeland Security in the vetting, verification and reimbursement of claims.	
<i>Southwest Border Prosecutions.</i> — The amended bill includes \$30,080,000 to provide	

assistance to State and local law enforcement agencies (including prosecutors, probation officers, courts and detention facilities) along the southwest border with the handling and processing of drug and alien cases referred from Federal arrests.

Northern Border Prosecutions.— The amended bill includes \$2,820,000 to provide assistance to State and local law enforcement agencies (including prosecutors, probation officers, courts and detention facilities) along the northern border with the handling and processing of drug and alien cases referred from Federal arrests.

Drug Courts.— The amended bill provides \$15,200,000 for grants to drug courts, which are designed to adjudicate substance abusing offenders and help them to break the cycle of addiction. This funding level represents a \$5,328,000 increase over fiscal year 2007.

Hal Rogers Prescription Drug Monitoring Program.— The amended bill includes \$7,050,000 for the Prescription Drug Monitoring Program to assist States in developing prescription drug monitoring systems. The Office of Justice Programs is directed to continue to work with the Drug Enforcement Administration to implement this program.

Prison Rape Prevention and Prosecution.— The amended bill includes \$17,860,000 for prison rape prevention and prosecution programs authorized by the Prison Rape Elimination Act of 2003. Within funding provided, \$1,692,000 shall be transferred to the National Prison Rape Elimination Commission, of which \$470,000 is made available to conduct a report to the Appropriations Committees on how previously appropriated Federal funds have been spent and the impact this funding has had on reducing prison rape.

Capital Litigation.— The amended bill includes \$2,500,000 for Capital Litigation Improvement Grants, as authorized by section 426 of the Justice For All Act (Public Law 108-405).

SEARCH National Technical Assistance and Training Program.— The Appropriations Committees support efforts to assist States in the development and use of information systems to accelerate the automation of fingerprint identification processes and criminal justice data which are compatible with the FBI Integrated Automated Fingerprint Identification System.

2008 Presidential Conventions Security.— The amended bill provides \$100,000,000 in emergency funds to State and local law enforcement entities for security and related costs, including overtime, associated with the two principal 2008 Presidential Candidate Nominating Conventions, to be divided equally between the conventions.

WEED AND SEED PROGRAM FUND

The amended bill provides \$32,100,000 for the Weed and Seed Program Fund, instead of \$50,000,000, as proposed by the Senate, and \$49,692,000, as proposed by the House. The House proposed to fund this program within the Community Oriented Policing Services account.

COMMUNITY ORIENTED POLICING SERVICES

The amended bill provides \$587,233,000 for Community Oriented Policing Services (COPS) programs, instead of \$725,000,000, as proposed by the House, and \$660,000,000, as proposed by the Senate.

Youth Mentoring Grants.—National, regional and local mentoring programs play a critical role in nurturing America's children—helping them to become good citizens who strengthen our communities. To support this vital work, the amended bill provides \$70,000,000 for a competitive program of youth mentoring grants. Within 60 days of enactment of this Act, the Office of Justice Programs is directed to provide a report and spend plan to the Appropriations Committees, which details the scope of the program and the criteria and methodology the agency will employ to award these grants. It is expected that national programs that have received funding under the Byrne discretionary program or the Juvenile Justice Part E program will be eligible for funding under this competitive grant program.

Part E—Juvenile Justice Challenge Grants and Projects.—The amended bill provides \$93,835,000 for grants under the Part E programs. Within the funds provided, the Office of Justice Programs is directed to review the following projects, to provide funding consistent with law and Congressional intent, and to report to the Appropriations Committees regarding the disbursement of these funds:

Victims of Child Abuse Act.—The amended bill provides \$16,920,000 for several programs authorized under the Victims of Child Abuse Act (Public Law 101-647). Within funds provided, \$3,760,000 is made available for Regional Child Advocacy Centers Programs.

PUBLIC SAFETY OFFICERS BENEFITS

The amended bill includes \$74,834,000 for this account, including \$66,000,000 for death benefits, and \$8,834,000 for disability benefits and education benefits.

As stated in the House Report, the new Public Safety Officers Benefits (PSOB) regulations have been implemented poorly and there is concern about the slow progress in making benefit payments to the families of those who died protecting their community. The PSOB was established to give peace of mind to our men and women in uniform who put their lives in danger every day, and claims must be processed swiftly and efficiently to provide the intended security.

GENERAL PROVISIONS—DEPARTMENT OF JUSTICE

The amended bill includes the following general provisions for the Department of Justice:

Section 201 provides that up to \$50,000 of the funds appropriated to the Department of Justice shall be available to the Attorney General for reception and representation expenses.

Section 202 prohibits the use of funds to perform abortions in the Federal Prison System.

Section 203 prohibits the use of the funds to require any person to perform, or facilitate the performance of, an abortion.

Section 204 provides that nothing in the previous section removes the obligation of the Director of the Bureau of Prisons to provide escort services to female inmates who seek to obtain abortions outside a Federal facility.

Section 205 provides for the policy for transfers subject to the Committees' reprogramming procedures, that not to exceed 5 percent may be transferred between any appropriation, but limits to 10 percent the amount that can be transferred into any one appropriation and prohibits Federal Prison System, Buildings and Facilities funds to be transferred unless the President certifies.

Section 206 provides for the extension of the Personnel Management Demonstration Project for certain positions of the Bureau of Alcohol, Tobacco, Firearms and Explosives.

Section 207 provides language extending section 102(b) of Public Law 102-395 to the Bureau of Alcohol, Tobacco, Firearms and Explosives.

Section 208 provides language prohibiting funds from being used to transport prisoners classified as a maximum or high security prisoner to a facility other than a prison or other facility certified by the Federal Bureau of Prisons as appropriately secure for housing such a prisoner.

Section 209 prohibits certain prisoner amenities.

Section 210 prohibits the use of funds for Sentinel or other major new or enhanced information technology programs unless the Deputy Attorney General and the Department IT Investment Review Board certify to the Appropriations Committees that the information technology program has appropriate contractor oversight mechanisms in place, and that the program is compatible with the enterprise architecture of the Department of Justice.

Section 211 requires the availability of appropriations for obligation beyond the current fiscal year to comply with reprogramming procedures.

Section 212 authorizes changes to quarterly fees imposed in chapter 11 cases.

Section 213 provides an increase to the quarterly fee imposed in each case filed pursuant to chapter 11 of title 11, United States Code.

Section 214 prohibits the use of funds to plan for, begin, continue, finish, process, or

approve a public-private competition under OMB Circular A-76 for work performed by employees of the Bureau of Prisons or of Federal Prison Industries, Incorporated.

Section 215 prohibits U.S. attorneys from simultaneously holding multiple jobs outside of the scope of a U.S. attorney's professional duties.

Section 216 withholds from obligation \$25,000,000, until the FBI reports on the results of an integrated baseline review of the Sentinel program and requires a Government Accountability Office review of FBI's baseline.

Section 217 prohibits funds for future phases of the FBI's Sentinel program until the Attorney General certifies to the Appropriations Committees that existing phases currently under contract for development or fielding have completed a majority of the work for that phase under the performance measurement baseline validated by the integrated baseline review.

Section 218 requires that the Attorney General shall submit quarterly reports to the Inspector General of the Department of Justice regarding the costs and contracting procedures relating to each conference held by the Department of Justice during fiscal year 2008 for which the cost to the Government was more than \$20,000.

Section 219 authorizes a public or private institution of higher education to offer or provide an officer or employee of any branch of the United States Government or of the District of Columbia, financial assistance for the purpose of repaying a student loan or forbearance of student loan repayment.

Section 220 includes new Native American Methamphetamine Enforcement and Treatment Act of 2007 authorities.

TITLE III

SCIENCE

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

The conference agreement includes \$5,184,000, instead of \$5,515,000 as proposed by the House and \$5,715,000 as proposed by the Senate.

The Appropriations Committees reiterate language included in the Senate report directing OSTP to provide the Committees, 90 days after enactment of the Act, with a strategic budget plan in response to the National Research Council Earth Science Decadal Survey.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

The amended bill provides \$17,309,400,000 for the National Aeronautics and Space Administration (NASA) instead of \$17,622,500,000 as proposed by the House and \$17,459,600,000 as proposed by the Senate. The Senate bill included an additional \$1,000,000,000 designated as an emergency requirement. The amended bill does not include this emergency funding.

The Appropriations Committees continue to be concerned about the process of setting NASA priorities through significant funding shifts in revised operating plans rather than through the regular appropriations process. The guidance proposed in the amended bill and this explanatory statement provides a clear base funding level. The Committees must be notified of any deviations that meet the criteria established in section 505. Finally, language is included providing for the transfer of funds between appropriations accounts through the reprogramming process.

The House recommendation to provide funding for the agency in the new account structure is not included. Instead, a general provision is included, section 525, directing NASA to implement this new structure beginning in fiscal year 2009. This will allow the agency sufficient time to implement the

new budget structure. The Appropriations Committees are disappointed that NASA chose not to test this new account structure in a timelier manner. The new accounts are: Science, Aeronautics, Exploration, Education, Cross-Agency Support Programs, Space Operations, and Inspector General.

The Appropriations Committees reiterate concern expressed in the House report that NASA is not able to anticipate adequately technical problems and project overruns on existing programs, and are especially concerned that new programs, such as Project Constellation, will encounter similar problems.

Additionally, the Appropriations Committees are concerned about the NASA process that leads to the selection of a course of action when such problems are encountered. Consequently, NASA is directed to establish an ongoing relationship with the National Academy of Sciences for the purpose of providing an independent project review capability using ad hoc committees established under the purview of the Space Studies Board and/or the Aeronautics and Space Engineering Board. It is expected that these reviews will be arranged through NASA's Office of the Chief Engineer and that the reports prepared by the National Academies will be simultaneously submitted to NASA and the Committees. In the future, the Appropriations Committees do not intend to recommend approval of any major program changes unless an independent review by the National Academies concurs with NASA's proposed course of action. During a review period, NASA should not take any action that would prejudice the pursuit of any of the options under consideration. A total of \$1,000,000 is to be allocated from funding provided for Cross-Agency Support Programs to support creation of this review capability. The Committees expect a report on NASA's progress in implementing this directive by March 15, 2008.

The Appropriations Committees are concerned about standardizing the reporting of cost, schedule and content for NASA research and development projects including advanced technology and operational systems upgrades. As a result, the Government Accountability Office (GAO) is directed to prepare project status reports on selected large-scale NASA programs, projects or activities. In undertaking these reports, GAO should follow the guidance it recommended to the Congress in GAO report GAO/NSIAD 90-40.

The Appropriations Committees are concerned about NASA's use of term appointments for civil servant positions. The Committees believe this trend should be examined more closely and directs GAO to audit NASA's use of term positions. Finally, NASA is encouraged to engage in long-term agency-wide workforce planning.

A provision on enhanced-use leasing at NASA facilities is included in the General Provisions, Title V of this Act. The Appropriations Committees believe that this complicated issue requires further investigation by the respective House and Senate authorizing committees. Therefore, the language proposed by the Senate will not become effective until December 31, 2008. In the interim, NASA's current enhanced-use leasing authority will be in effect. A modification has been made to the Senate language, deleting the repeal of the reporting requirements to Congress.

SCIENCE, AERONAUTICS AND EXPLORATION

The amended bill provides \$10,543,100,000 for the Science, Aeronautics and Exploration account instead of \$10,896,200,000 in a different account structure as proposed by the

House and \$10,633,000,000 as proposed by the Senate. Within this total, \$5,577,310,000 is for science activities, \$625,280,000 is for aeronautics, \$3,842,010,000 is for exploration systems and \$556,400,000 is for cross-agency support programs including education.

The amended bill reduces amounts available for corporate and general administrative expenses by \$57,900,000 in this account. These amounts are to be applied proportionally to all amounts within the Science, Aeronautics, Exploration and Cross-Agency Support Programs accounts.

Science.—Within the total amount proposed for Science, Aeronautics and Exploration, the amended bill provides \$5,577,310,000 for science activities instead of \$5,696,100,000 as proposed by the House and \$5,655,200,000 as proposed by the Senate. This level includes a general reduction of \$42,090,000. The distribution of this reduction should be outlined in NASA's operating plan, and the reduction should not be applied to any programs, projects, or activities that are specified in this explanatory statement.

The Appropriations Committees are disappointed by the Administration's request of a less than one percent increase for fiscal year 2008 and projected minimal increases of approximately one percent over the next several years. The Nation's investment in research at NASA has made the U.S. the undisputed leader in the study of space and the earth's environment. NASA's programs in space science, Earth science, microgravity science, and astrobiology are the types of basic research investments advocated in the National Academies' *Rising Above the Gathering Storm* report.

The Appropriations Committees recognize the importance of NASA Earth science research missions to the Nation to advance our ability to monitor climate, weather, and hazards and therefore recommends \$40,000,000 for NASA to initiate missions identified in the National Research Council (NRC) report, *Earth Science and Applications from Space: National Imperatives for the Next Decade and Beyond*. To the extent possible, the initial seven missions should begin in fiscal year 2008. The Earth science decadal survey notes that in 2005, NASA had 18 Earth observation satellites carrying 64 research sensors. Yet in 2007, the capacity is down to 14 missions on orbit, and by 2010 only a few will still be delivering data. Between now and 2010, NASA plans to deploy only five new missions carrying 22 sensors. Currently, NASA's future plans include starting just two new missions every two years. At that rate, NASA Earth observation research missions will have decreased from 18 down to four or five in the next two decades in the 21st century. Further, the Appropriations Committees are supportive of House direction to continue the development of climate sensors. In order to better inform the Committees on its plans for missions in the 2010–2016 timeframe, NASA should include in its fiscal year 2009 budget submission its plan for meeting these unmet needs.

The amended bill includes:

- Not less than \$280,000,000 for the Hubble Space Telescope
- Not less than \$545,400,000 for the James Webb Space Telescope
- Not less than \$90,200,000 for the Global Precipitation Measurement mission
- Not less than \$626,400,000 for the Mars Exploration Program
- Not less than \$60,000,000 for the Space Interferometry Mission

The Appropriations Committees acknowledge that these sums are only floors. Should additional funding be required, the Committees will work with the agency on a reprogramming of funds.

As noted above, the Appropriations Committees support the \$90,200,000 requested for

the Global Precipitation Measurement mission. This project will improve our ability to collect important data about hurricanes. This valuable information will allow us to better prepare for powerful storms and help minimize resulting damage.

The amended bill includes an increase of \$24,000,000 above the request for the research and analysis program. The program has suffered significant cuts in recent years. This program is important to maintaining the scientific vitality of the agency and also provides opportunities for young scientists and researchers to analyze data collected from current NASA missions. The research and analysis funds should be used to support both in-house and academic research. Further, there has not been an assessment of the appropriate balance between flight missions and research and analysis activities in NASA's space and Earth science programs. Therefore, NASA is directed to enter into an agreement with the National Research Council for an assessment of NASA's research and analysis activities.

A total of \$60,000,000, an increase of \$38,400,000 above the budget request, has been provided for the Space Interferometry Mission (SIM). The Appropriations Committees disagree with the Administration's budget request of refocusing the Navigator Program to fund only core interferometry and related planet-finding science and reducing SIM to a development program. It should be noted that this mission was recommended by the National Academies Decadal Astrophysics report in 1990 and 2000 and should be considered a priority. With the funds proposed, NASA is to begin the development phase of the program in order to capitalize on more than \$300,000,000 already invested by the agency. The SIM program has successfully passed all its technological milestones and is thus ready for development.

The Appropriations Committees await the upcoming results of the NASA study to determine the next outer planet destination and look forward to working with NASA to support funding for an expedient launch of this future mission. The amended bill includes \$5,000,000 to define a mission and to assess its scope and cost.

The Appropriations Committees agree with the comments in the House report commending NASA for its robotic Mars program which is one of the agency's most successful programs that has made major scientific discoveries and engaged the public. The Appropriations Committees continue to strongly support a robust Mars Exploration Program with a rate of at least one mission at every opportunity (every 26 months), which is consistent with the Administration's fiscal year 2008 request of \$625,700,000. Full funding is provided to: continue operating all present missions (Odyssey, Mars Reconnaissance Orbiter, Spirit, and Opportunity); prepare Phoenix for launch in 2007, Mars Science Lab for a launch in 2009, and Scout in 2011; and to start the definition and development of Mars Science orbiter for launch in 2013, and the Astrobiology Field Lab or Mid size rovers for launch in 2016. NASA is expected to continue with the development and launch of the Mars Science Lab.

The recommendation includes an increase of \$15,000,000 above the budget request for the NASA Earth Science Applications Program. This funding increase shall only be used to support new competitively selected applications projects to be selected during fiscal year 2008. These projects will integrate the results of NASA's Earth observing systems and earth system models (using observations and predictions) into decision support tools to serve applications of national priority including, but not limited to: homeland security; coastal management; agriculture effi-

ciency; and water management and disaster management.

The amended bill provides \$17,000,000 for the solar probe mission for continued technical risk reduction activities and related studies. NASA is expected to request a new start for this mission in fiscal year 2009.

The amended bill provides \$93,000,000 for the magnetospheric multiscale mission, \$8,500,000 above the budget request. NASA should maintain the full complement of science instruments for this mission and work aggressively to achieve the desired launch date of 2013.

NASA is directed to provide a plan on all continuity of data for the Landsat Data Continuity Mission (LDCM) to the Appropriations Committees no later than 120 days after enactment of this Act. The amended bill provides \$1,000,000 above the budget request for this mission to ensure data continuity.

A critical factor that will affect future robotic missions is the source of power for probes that cannot rely on solar energy because they are traveling too far from the Sun (where solar energy density is inadequate), or too close to it (where solar arrays would be imperiled by the Sun's proximity). Radioisotope Power Systems (RPS) are required for these spacecraft. The Appropriations Committees are aware of concerns by NASA and the Department of Energy that a supply of fuel would not be available. However, NASA has curtailed a major part of its technology development for advanced RPS devices. In order to permit effective planning for future missions, NASA should contract with the National Research Council to prepare a report no later than December 31, 2008 on these issues.

The amended bill includes \$2,000,000 above the budget request to ensure continuity of solar flare data.

While new data systems for Earth science missions should be considered, NASA is directed to continue the EOSDIS core system as the operational foundation for Earth science missions.

The Appropriations Committees concur with language in the Senate report regarding the Joint Dark Energy Mission and have provided the budget request of \$2,300,000 for this mission. The Committees appreciate the National Research Council's *Beyond Einstein* Program architecture report and have provided an additional \$2,000,000 to begin implementing these recommendations. NASA is directed to conduct and complete an open competition to select a Joint Dark Energy Mission for a fiscal year 2009 new start.

The Appropriations Committees reject the Administration's proposal to transfer the Near Earth Objects (NEO) program from the Science Mission Directorate to the Exploration Mission Directorate.

Further, the Appropriations Committees are concerned that NASA may reduce support for the Arecibo Observatory which is used by NASA to observe and detect NEOs. The Committees believe that this observatory continues to provide important scientific findings on issues of near-space objects, space weather, and global climate change, as well as numerous other research areas. The Committees believe that these endeavors will have scientific merit far beyond the end of the decade. NASA is directed to provide additional funding for the Arecibo Observatory.

In order to assist Congress in determining the optimal approach regarding the Arecibo Observatory, NASA shall contract with the National Research Council to study the issue and make recommendations. As part of its deliberations, the NRC shall review NASA's report 2006 Near-Earth Object Survey and Deflection Study—and its associated March

2007 Near-Earth Object Survey and Deflection Study as well as any other relevant literature. An interim report, with recommendations focusing primarily on the optimal approach to the survey program, shall be submitted within 15 months of enactment of this Act. The final report, including recommendations regarding the optimal approach to developing a deflection capability, shall be submitted within 21 months of enactment of this Act. The NRC study shall include an assessment of the costs of various alternatives, including options that may blend the use of different facilities (whether ground- or space-based), or involve international cooperation. Independent cost estimating should be utilized.

Aeronautics.—Within the total amount proposed for Science, Aeronautics and Exploration, the amended bill provides \$625,280,000 for aeronautics activities instead of \$700,000,000 as proposed by the House and \$554,000,000 as proposed by the Senate. This level includes a general reduction of \$4,720,000. The distribution of this reduction should be outlined in NASA's operating plan, and the reduction should not be applied to any programs, projects, or activities that are specified in this explanatory statement.

The Administration's fiscal year 2008 request is insufficient to allow the U.S. to maintain its edge in aeronautics. These programs are critical to U.S. competitiveness, national security, quality of life, and the efficiency and safety of our future national air traffic management systems. The Appropriations Committees expect this priority to be reflected in NASA's fiscal year 2009 budget request.

The continuation of our position as a leader in aviation and aerospace is predicated on our ability to maintain international leadership and sustain growth in aeronautics. Air transportation is important throughout the world, but leadership in upgrading the air transportation system is absolutely vital to the U.S. For these reasons, the Appropriations Committees believe that a portion of the increase above the President's budget request should be applied to the research, development and technology demonstration activities of the Next Generation Air Transportation System (NextGen) to address Air Traffic Management (ATM) needs.

Additionally, the Appropriations Committees expect a portion of this increase to address the top-ranked priorities of the National Academies' Decadal Survey of Civil Aeronautics. The report presents findings and recommendations on several important technological breakthroughs that the NASA aeronautics research program should focus on during the next decade. Some of the technological challenges need to be addressed if the United States is to realize necessary increases in capacity, safety, security and environmental compatibility of its air transportation system and enable high-speed civil travel and maintain U.S. leadership.

Finally, additional funding is proposed to carry out, with the goal of demonstrating in a relevant environment, research and development on engines and airframes that will result in significantly reduced energy consumption, emissions, and noise. NASA is directed to utilize a portion of these funds for the development of a "green aircraft initiative." In addition, NASA should utilize additional intramural capacity for technology readiness level activity above the current cap for these and other aeronautics initiatives, and report back to the Appropriations Committees about its efforts to increase investment in this fashion through detailed information proposed in the operating plan.

The Appropriations Committees are concerned by NASA's handling of the National Aviation Operations Monitoring Service

(NAOMS) project and NASA's initial refusal to release the data. The Committees believe that a comprehensive, longitudinal survey tool and database to help identify accident precursors and aviation safety trends would be a useful addition to existing aviation safety databases. From within additional funds provided for aeronautics, NASA is directed to revalidate the NAOMS survey methodology and, if needed, to restart the NAOMS survey data collection activity as well as identify trends that may emerge. NASA should provide a report to the Congress within 90 days of enactment of this Act on its plans for completing the validation of the survey methodology and restarting the NAOMS survey data collection.

Exploration.—Within the total amount proposed for Science, Aeronautics and Exploration, the amended bill provides \$3,842,010,000 for exploration activities instead of \$3,923,800,000 as proposed by the House and \$3,972,490,000 as proposed by the Senate. This level includes a general reduction of \$28,990,000. The distribution of this reduction should be outlined in NASA's operating plan, and the reduction should not be applied to any programs, projects, or activities that are specified in this explanatory statement.

Within the amounts provided for exploration, \$950,800,000 is for the Crew Exploration Vehicle, \$1,224,800,000 is for the Crew Launch Vehicle, and \$271,500,000 is for the Lunar Precursor Robotic Program (LPRP), of which \$42,000,000 is for the lunar lander mission.

The Appropriations Committees believe that the program, management offices, and missions associated with LPRP are essential to the success of the anticipated manned missions to the Moon. Within funds provided for LPRP, \$209,500,000 shall be for the Lunar Reconnaissance Orbiter and \$20,000,000 shall be for the LPRP management office. The management office associated with LPRP shall also be directly involved in the planning and oversight of future lunar robotic missions, integrating lunar data from NASA and other international missions, oversee technology development, support the Lunar Architecture Team, and lead NASA's public outreach and education activities for understanding the lunar environment.

In 2005, NASA selected a team for the development of a lunar lander spacecraft consistent with the goals set forth in the Administration's Renewed Spirit of Discovery and the National Aeronautics and Space Administration Authorization Act of 2005 (Public Law 109-155) which called for a robust lunar robotic program, including robotic lunar landers. The National Research Council's report: The Scientific Context for Exploration of the Moon further supports robotic precursor missions to the Moon's surface and the valuable scientific resource such missions will provide for returning humans to the Moon. The Appropriations Committees agree that the NASA selected mission is of critical importance for the exploration vision. For this purpose, \$42,000,000 is provided for this lunar lander mission.

Although NASA has claimed that a shortfall of more than \$600,000,000 (under the new full cost system) exists as a result of the funding provided for exploration in the fiscal year 2007 joint resolution, the NASA Administrator testified at budget hearings on the Administration's budget request that no additional funds were needed in fiscal year 2008 and in fact, there would be carryover balances for the Crew Exploration Vehicle (CEV) in this account. Although NASA's plan to bankroll funds fell short in fiscal year 2008, these funds, which are not actually needed until fiscal years 2009 and 2010, can be made up in future budget requests. NASA is

pointing to this temporary reduction of funds as the reason the CEV will be delayed by approximately six months. The Appropriations Committees believe, however, that it is fully within the power of the Administration to request sufficient funds in NASA's fiscal year 2009 and fiscal year 2010 budget submissions to Congress to maintain the CEV schedule and urge NASA to do so.

The amended bill provides \$160,000,000 for the Commercial Orbital Transportation Services (COTS) program, which is intended to demonstrate private sector technologies that could potentially resupply the International Space Station in the future. However, the Appropriations Committees note that one of the two COTS contracts is currently in dispute, and are concerned by NASA's recent decision to re-compete the disputed contract before all challenges have been resolved. In doing so, NASA could potentially create a liability to fund three proposals instead of two as originally envisioned, increasing the costs of this program to the taxpayers. Therefore, NASA is directed not to select a new contractor until all challenges are decided. Further, the Government Accountability Office (GAO) is directed to perform a full review of COTS program expenditures and management.

Achieving the goals of the Exploration Initiative will require a greater understanding of life and physical sciences phenomena in microgravity as well as in the partial gravity environments of the Moon and Mars. Therefore, the Administrator is directed to enter into an arrangement with the National Research Council to conduct a "decadal survey" of life and physical sciences research in microgravity and partial gravity to establish priorities for research for the 2010-2020 decade. Further, within amounts provided, NASA is directed to increase the amount for non-exploration microgravity life and physical sciences research by \$13,500,000. These funds are for non-multi-user support and services activities.

NASA should include specific funding recommendations for the National Space Biomedical Research Institute in future budgets.

Finally, bill language is included, as proposed by the House, prohibiting funding of any research, development, or demonstration activities related exclusively to the human exploration of Mars.

Cross-Agency Support Programs.—Of the amounts provided for Science, Aeronautics and Exploration, the amended bill provides \$556,400,000 for cross-agency support programs, including education. This level includes a general reduction of \$4,200,000. The distribution of this reduction should be outlined in NASA's operating plan, and the reduction should not be applied to any programs, projects, or activities that are specified in this explanatory statement.

Within the amounts provided, \$1,000,000 is for the creation of a review capability at the National Academies and the amended bill also provides the full budget request of \$2,500,000 for the continued operations of the NASA National Technology Transfer Center. Also, within the amount provided for corporate general and administrative costs, the Appropriations Committees recommend no less than the fiscal year 2007 level for the NASA Independent Verification and Validation Program.

Of the reductions made to corporate general and administrative, \$300,000 shall be derived from equal reductions to both the Office of Legislative and Intergovernmental Affairs, and the Office of the Chief Financial Officer.

The amended bill does not provide any new funding in fiscal year 2008 for the Centennial Challenges program. The funding proposed in

previous fiscal years for this program is sufficient for NASA to run this prize-based competition. Providing additional funds to a program based on prizes only creates a sizeable amount of unused funds while other aspects of NASA's mission are being cut or delayed due to a lack of funds.

The following is a list of congressional directives. Funds for these directives shall come from Cross-Agency Support Programs, rather than from the various mission directorates.

Education.—The amended bill provides \$180,000,000 for education instead of \$220,300,000 as proposed by the House in its account structure and \$149,500,000 as proposed by the Senate.

The amended bill includes an additional \$3,243,000 for a total of \$15,500,000 for the Experimental Program to Stimulate Competitiveness in Research (EPSCoR) program. This will help the 27 EPSCoR jurisdictions contribute to innovation and competitiveness initiatives and other efforts as well as fund the administrative costs of the program.

The amended bill also includes an additional \$7,664,000 for a total of \$43,200,000 for the Space Grant College and Fellowship program and the associated administrative costs of the program. The amount proposed will fund 35 states or jurisdictions at \$750,000 each and 17 states or jurisdictions at \$550,000 each. The Space Grant program is a nationwide network of over 800 universities and colleges and affiliates including research and development centers and business partners. Space Grant helps introduce young people to the exciting world of space and engineering, thereby opening the door to future involvement in scientific or high technology jobs.

The amended bill also includes an additional \$9,400,000 for a competitive program as authorized by section 616 of P.L. 109-155 for science museums and planetariums to enhance programs related to space exploration, aeronautics, space science, earth science or microgravity.

The amended bill also includes an additional \$14,100,000 for a competitive education grant program. These grants shall be awarded to public schools and non-profit organizations on a competitive basis. NASA is directed, no later than 90 days after enactment of the Act, to report to the Committees the criteria it will use in reviewing and ranking grant proposals.

The amended bill also includes \$8,500,000 for a competitive program to educate students on global climate change as recommended in the National Academies' Earth Decadal survey.

Although no additional funds have been specifically provided for the NASA Graduate Students Research Program, or for a competitive program as authorized by section 431 of P.L. 109-155 for engineering scholarships, NASA is urged to consider providing additional funds.

To the extent possible, NASA is urged to use education funds to address the educational needs of women, minorities, and other historically underrepresented groups.

The Committees provide the full budget request for the Classroom of the Future.

The amended bill provides \$7,000,000 for the development of educational activities at NASA's field centers, as proposed by the Senate, and direct NASA to distribute this amount in equal \$700,000 increments to each center's official visitor center for the development of educational activities in science, technology, engineering, and mathematics, including exhibits.

Below is a table of funding levels provided for the various missions and themes. Some additional items have been included for emphasis.

EXPLORATION CAPABILITIES

The amended bill provides \$6,733,700,000 for the Exploration Capabilities account instead of \$6,691,700,000 as proposed by the House in a similar structure entitled "Space Operations" and \$6,792,000,000 as proposed by the Senate.

Of the amount provided, \$4,000,000,000 is for space shuttle activities and \$2,220,000,000 is for space station activities.

According to NASA's budget request, the content and estimates for the space shuttle transition and retirement will be further defined in the fiscal year 2009 budget submission to Congress. The Appropriations Committees are concerned about this immense and unprecedented undertaking of transitioning assets and facilities to another NASA program, for external use, or for disposal, as well as the transitioning of the space shuttle workforce. The Committees direct the Government Accountability Office (GAO) to begin an immediate and ongoing review of NASA's plans and progress in this area and expect to receive quarterly updates beginning 30 days after enactment of this Act.

Within the amounts provided, the amended bill provides \$2,500,000 for the Deep Space Network (DSN) for initial implementation of the Space Communication Architecture Working Group's recommendations. NASA's Apollo era infrastructure is of concern. The condition of the aging and fragile Deep Space Network (DSN) is especially disconcerting. According to GAO, this system, which has some crucial components more than 40 years old, has lost science data during routine operations and critical events. NASA began early studies of DSN upgrade options in 2000, but has yet to put forth a budget request to refurbish the existing network or provide for a new generation DSN. Although the agency states that funding will be requested as a part of the fiscal year 2009 submission to Congress, the Committees believe that it is critical to start upgrades to this system as soon as possible.

The Administrator is directed to study the possibility of delivering the Alpha Magnetic Spectrometer (AMS) to the International Space Station. Not only will this mission enable researchers to prepare NASA and our

international partners for future space exploration, it has widespread support in Congress. This study shall be submitted to the Appropriations Committees within 30 days of enactment of the Act and should include the steps necessary to prepare for such a mission.

OFFICE OF INSPECTOR GENERAL

The amended bill provides \$32,600,000 for Office of Inspector General, instead of \$34,600,000 as proposed by both the House and the Senate.

RETURN TO FLIGHT

The amended bill provides no funding for Return to Flight as an emergency designation as proposed by the Senate. The House did not propose a similar provision.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes provisions regarding construction of facilities at NASA, including the availability of funds.

The amended bill includes a provision regarding prizes.

The amended bill includes a provision on transfer of funds.

The amended bill includes a provision prohibiting funds to be used to implement any Reduction in Force or other involuntary separation prior to September 30, 2008.

The amended bill includes a provision regarding space shuttle transition.

The amended bill includes a provision regarding its budget justifications. The Appropriations Committees continue to be disappointed in the lack of detail provided in NASA's annual congressional budget justification document. Budget justifications are critical to the Committees' ability to make informed decisions concerning the administration's funding requests and must be submitted in a format with the greatest level of detail possible. Therefore, the amended bill includes language that stipulates the minimum acceptable details for each fiscal year budget submission. NASA shall submit to the House and Senate Appropriations Committees, no later than January 4, 2008, a template for its fiscal year 2009 budget justification document that complies with this direction.

In previous years, NASA has chosen to make major programmatic decisions through comprehensive operating plans. While such changes are allowed, it is the view of the Appropriations Committees that this should not be a regular occurrence. Instead, after an initial operating plan has been submitted, individual reprogramming letters should be utilized for minor adjustments in programs as they arise and only in exceptional circumstances should additional comprehensive measures be taken. Any reprogramming or operating plan request submitted shall contain a detailed explanation of where each adjustment of funds is proposed to be taken from, the exact destination of those funds, and the extenuating circumstances that have arisen to cause a need for the reprogramming of funds. Also, for fiscal year 2009 and each year thereafter, NASA is directed to include the out-year budget impacts in all reprogramming requests.

The amended bill includes a provision that requires NASA to provide the NASA Inspec-

tor General a quarterly report on conferences and meetings that exceed \$20,000 in total cost. The Inspector General shall analyze these reports, make recommendations if necessary, and provide a report citing each occurrence and recommendation to the House and Senate Appropriations Committees no later than September 30, 2008.

NATIONAL SCIENCE FOUNDATION

The amended bill provides a total of \$6,065,000,000 for the National Science Foundation instead of \$6,499,000,000 as proposed by the House and \$6,553,400,000 as proposed by the Senate.

RESEARCH AND RELATED ACTIVITIES

The amended bill provides \$4,821,474,000 for research and related activities at the National Science Foundation instead of \$5,139,690,000 as proposed by the House and \$5,156,090,000 as proposed by the Senate.

The amended bill includes language making up to \$57,000,000 available for the procurement of icebreaking services. The Coast Guard shall only be reimbursed for those sums agreed to in the existing memorandum of agreement.

The amended bill provides \$8,000,000 above the requested amount for EPSCoR from within amounts available in this account. The House had proposed this level above the request and the Senate proposed \$10,470,000 above the request for this account. Of the additional amount, at least \$4,000,000 is for Research Infrastructure Improvements and at least \$1,000,000 is for co-funding. As stated in the House report, the Committees are pleased that the Director has chosen to give higher visibility to the EPSCoR program by relocating it to the Office of Integrative Activities within the Office of the Director.

The Appropriations Committees strongly support increases for the math and physical sciences, computer sciences, and engineering directorates in fiscal year 2008 for research and related activities (R&RA). However, the Committees also believe the Foundation should maintain comparable growth in fiscal year 2008, to the extent possible, for the biological sciences and social, behavioral and economic sciences directorates. Each of the science disciplines is valuable in maintaining U.S. competitiveness. The Committees urge NSF to provide each directorate with funding levels that are consistent with the goals of the America COMPETES Act and look forward to the Foundation's operating plan in addressing these concerns.

Transformative research is considered to be both revolutionary and "cutting edge." While the Foundation currently conducts research that could be considered transformational, several reports including the National Science Board's (NSB) Enhancing Support of Transformative Research at the National Science Foundation notes that no funds are dedicated for this express purpose. The Appropriations Committees direct the Foundation to review current practices supporting the solicitation of, and the support of, transformational proposals. The Foundation shall provide a report regarding this review to the Committees on how this emerging area can be addressed, 90 days after enactment of this Act, and provide semi-annual reports with any updates thereafter. The initial report should include the Foundation's definition of transformative research.

The Appropriations Committees endorse the language in the House report expressing concern with the current status and future outlook for the academic research fleet and for other critical physical infrastructure improvements at older NSF facilities. Too often, agencies neglect routine infrastructure improvements of older facilities and programs. As described in the House language, the Foundation is directed to allocate

additional resources for physical infrastructure improvements at the facilities noted, and request additional money in fiscal year 2009 to alleviate the shortfall in academic fleet funding.

The loss of buying power resulting from the decline of the dollar and other commodity-related impacts such as the recent dramatic increase in the cost of oil and steel is of concern to the Committees. Taken together these two factors seriously affect many of the international programs operated by the NSF. These include the Arctic and Antarctic programs, earth, ocean, and atmospheric programs, and both radio and optical telescope facilities operated at various locations worldwide. The NSF should provide a report to the Committees within 90 days after the enactment of this Act on current actions and future plans, including an analysis of establishment of a currency and commodity internal reserve fund, to address this issue.

The Appropriations Committees express concern over the conclusions of the NSF's Division of Astronomical Sciences Senior Review with regard to the Arecibo Observatory. The Committees believe that this Observatory continues to provide important scientific findings on issues of near-space objects, space weather, and global climate change, as well as numerous other research areas. The Committees believe that these endeavors will have scientific merit far beyond the end of this decade. As such, the Committees hope the Division of Astronomical Sciences will reconsider its conclusions regarding future funding for the Arecibo Observatory. In addition, the Appropriations Committees direct the Foundation to provide the budget request for operations at its astronomical facilities.

The Appropriations Committees believe that while both the Science and Technology Policy Institute (STPI) and RaDiUS serve a useful purpose, the funds provided within the budget for NSF have been solely provided for use by the Office of Science and Technology Policy (OSTP). Bill language has been included that provides funds via transfer to OSTP for costs associated with the use of STPI and RaDiUS. The Committees note that because it is OSTP that primarily utilizes STPI and RaDiUS for its activities, OSTP should request funds in its own budget rather than having funds earmarked within NSF. NSF is directed to charge OSTP the same overhead rates as is done for any activities initiated by other federal agencies. NSF shall notify the House and Senate Appropriations Committees prior to initiating any activities on behalf of OSTP. Further, in future years, OSTP is expected to request funds for the use of STPI and Radius as part of its budget request.

Finally, the National Science Foundation is directed to await the report on service science and its merits by the National Academies, as required in P.L. 110-69, before it evaluates the applicability of such research to the mission of NSF.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

The amended bill provides \$220,740,000 for the Major Research Equipment and Facilities Construction account, instead of \$244,740,000 as proposed by the House and by the Senate.

EDUCATION AND HUMAN RESOURCES

The amended bill provides \$725,600,000 for the Education and Human Resources account, instead of \$822,600,000 as proposed by the House and \$850,000,000 as proposed by the Senate.

NSF not only includes research, but also shares in the responsibility for promoting quality math and science education as intertwining objectives at all levels of education

across the United States. Math and science educators play a major role in keeping the U.S. competitive in the 21st century. Increasing the number of highly qualified K-12 math and science teachers is critical to the creation of a new generation of innovators. Recommendations included in the National Academies' *Rising Above the Gathering Storm* report discussed the importance of expanding programs to enhance the undergraduate education of the future science and engineering workforce. Within the amounts provided, an additional \$5,000,000, for a total of \$15,000,000, shall be provided for the Robert Noyce Scholarship program. The House had proposed \$36,000,000 above the budget request and the Senate had proposed \$15,000,000 above the budget request for this activity. The Robert Noyce Scholarship program encourages talented Science, Technology, Engineering, and Mathematics (STEM) undergraduate students and postgraduate professionals to become K-12 mathematics and science teachers.

The Math and Science Partnership program remains a high priority of the Committees. The Math and Science Partnership program provides for the collaboration between pre-college and college to promote excellence in teaching and learning.

The Committees reiterate the direction provided in the House report that the Foundation provide the Committees with a detailed breakdown of funding disbursements for fiscal year 2006 and urge NSF to work within its peer-review process for these programs to incorporate rural communities, universities, and school districts.

The Committees are strongly supportive of the following programs and urge the Foundation to provide funding at the requested level for these programs: the Undergraduate/Graduate Student Support account and the Graduate Teaching Fellowships in K-12, the NSF Academies for Young Scientists, Historically Black Colleges and Universities (HBCUs), the HBCU Undergraduate Program, the Louis Stokes Alliance for Minority Participation (LSAMP), the Tribal Colleges and Universities Program (TCUP) and the STEM Talent Expansion program.

Further, the Committees support the Foundation's request for the Advanced Technological Education (ATE) and the Centers of Research Excellence in Science and Technology (CREST). The conferees urge the Foundation to broaden Hispanic participation and expect that NSF will begin to address this issue in its operating plan.

Finally, the amended bill does not provide funds for Earth observation education and training as proposed by the House.

AGENCY OPERATIONS AND AWARD MANAGEMENT

The amended bill provides \$281,790,000 for the Agency Operations and Award Management account, instead of \$275,590,000 as proposed by the House and \$285,590,000 as proposed by the Senate.

OFFICE OF THE NATIONAL SCIENCE BOARD

The amended bill provides \$3,969,000 for the National Science Board, instead of \$4,030,000 as proposed by both the House and the Senate.

OFFICE OF INSPECTOR GENERAL

The amended bill provides \$11,427,000 for Office of Inspector General, instead of \$12,350,000 as proposed by both the House and the Senate.

TITLE IV

RELATED AGENCIES

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

The amended bill provides \$8,460,000 for the salaries and expenses of the Commission on Civil Rights, instead of \$9,000,000 as proposed by both the House and the Senate.

The Appropriations Committees have serious reservations about the Commission's current capacity and commitment to fulfilling its civil rights mission in a fair and effective manner. The Commission continues to grapple with leadership accountability issues, including management and operational deficiencies. It is expected that the Commission will more effectively support its regional and grassroots network, including the State Advisory Committees. It is further expected that the Commission will establish fair and transparent policies and procedures to ensure the objectivity of written Commission reports.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

The amended bill includes \$329,300,000 instead of \$332,748,000 as proposed by the House and \$378,000,000 as proposed by the Senate.

The Equal Employment Opportunity Commission (EEOC) is directed to provide a spend plan within 60 days after enactment on the investments the Commission intends to make to reduce the backlog and to handle call intake during transition after the closing of the National Contact Center. Funds have been provided above the request to upgrade telephone technology in the Commission's offices and hire staff in its field offices to address calls from the public. The Commission is commended for beginning the termination of the National Contact Center and transfer of its functions back into district offices. However, this transition is taking longer than necessary. The Commission had indicated that the transition would be completed by the end of 2007. Therefore, if any funds are used for operation of the National Contact Center beyond February 1, 2008, the Appropriations Committees expect to be notified and consulted.

The Inspector General is directed to submit, within 90 days of enactment of this Act, an evaluation of the impact the EEOC's repositioning plan has had on the delivery of core services. The report should include an evaluation of cost savings attributable to the repositioning, and the impact that the repositioning has had on the EEOC's capacity to deter, detect, and litigate violations of the Nation's civil rights laws.

INTERNATIONAL TRADE COMMISSION OPERATIONS AND ADMINISTRATION

The amended bill includes \$68,400,000 as proposed by the House and Senate for the International Trade Commission (ITC).

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

The amended bill includes \$350,490,000 for payment to the Legal Services Corporation (LSC), instead of \$377,000,000 as proposed by the House, and \$390,000,000 as proposed by the Senate. Within the funds provided, \$332,390,000 is for basic field programs, to be used for competitively awarded grants and contracts; \$3,000,000 is for the Inspector General; \$12,500,000 is for management and administration; \$2,100,000 is for client self-help and information technology; and \$500,000 is for loan repayment assistance.

Current LSC locality pay represents reasonable compensation for LSC officers and employees, and language is included to authorize the continuation of locality pay.

ADMINISTRATIVE PROVISION—LEGAL SERVICES CORPORATION

The amended bill includes bill language to continue the terms and conditions included under this section in previous appropriations Acts.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

The amended bill includes \$2,820,000 for the Marine Mammal Commission instead of

\$3,000,000 as proposed by both the House and the Senate.

NATIONAL VETERANS BUSINESS DEVELOPMENT CORPORATION

SALARIES AND EXPENSES

The amended bill includes \$1,410,000 for the National Veterans Business Development Corporation (TVC) instead of \$2,500,000 as proposed by the House, and no funding as proposed by the Senate.

The amended bill includes report language directing TVC to submit a spend plan to both the House and Senate Committees on Appropriations outlining the allocation of funding provided; the plan should describe the level of funding proposed to be used for overhead costs, salary, benefits, and the distribution of funds among the Corporation's existing places of operations.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

SALARIES AND EXPENSES

The amended bill includes \$44,120,000 for the Office of the United States Trade Representative instead of \$48,407,000 as proposed by the House and \$47,800,000 as proposed by the Senate. The Committees support the USTR's pursuit of an active trade agenda and an increased focus on intellectual property protection in China, including full staffing of the new office in Beijing, and the filling of attorney vacancies.

The amended bill includes language in the House report regarding CAFTA and directs USTR to submit a report. The amended bill includes language in the Senate report regarding WTO Appellate Body ruling regarding the Continued Dumping and Subsidy Offset Act (P.L. 106-307). The amended bill includes report language as proposed by the Senate, regarding negotiations within the WTO.

The amended bill includes report language in the House report directing the USTR to provide a report to the Appropriations Committees on Russia's progress in complying with intellectual property commitments and a report on the WTO negotiations concerning textiles and apparel.

STATE JUSTICE INSTITUTE

SALARIES AND EXPENSES

The amended bill provides \$3,760,000 for the salaries and expenses of the State Justice Institute, instead of \$4,640,000 as proposed by the House, and \$3,500,000 as proposed by the Senate. Of the amount appropriated, \$470,000 may be used for strategic initiatives that will have national implications for the courts.

TITLE V

GENERAL PROVISIONS

The amended bill includes the following General Provisions:

Section 501—The amended bill includes section 501 regarding the use of appropriations for publicity and propaganda purposes.

Section 502—The amended bill includes section 502 regarding the availability of appropriations for obligation beyond the current fiscal year.

Section 503—The amended bill includes section 503 regarding the use of funds for consulting purposes.

Section 504—The amended bill includes section 504 providing that should any provision of the Act be held to be invalid, the remainder of the Act would not be affected.

Section 505—The amended bill includes section 505 regarding the policy by which funding available to the agencies funded under this Act may be reprogrammed for other purposes.

DIVISION C—ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Energy and Water Development Appropriations Act, 2008 (H.R. 2641 and S. 1751) passed by the House of Representatives and reported by the Senate Appropriations Committee.

The language and allocations set forth in House Report 110-185 and Senate Report 110-127 should be complied with unless specifically addressed to the contrary in the amended bill and explanatory statement. Report language included by the House which is not contradicted by the report of the Senate or the explanatory statement, and Senate report language which is not contradicted by the report of the House or the explanatory statement, is approved. The explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House report and Senate report address a particular issue not specifically addressed in the amended bill or explanatory statement, the House report and Senate report are not inconsistent and are to be interpreted accordingly. In cases in which the House or Senate have directed the submission of a report, such report is to be submitted to both House and Senate Committees on Appropriations.

TITLE I

CORPS OF ENGINEERS—CIVIL DEPARTMENT OF THE ARMY CORPS OF ENGINEERS—CIVIL

The summary tables included in this title set forth the dispositions with respect to the individual appropriations, projects and activities of the Corps of Engineers. Additional items of the amended bill are discussed below.

PROGRAM MANAGEMENT AND EXECUTION

The Appropriations Committees agree that continued improvements in the Corps' program management and execution are necessary and appropriate; previous direction

regarding these areas is refined. The civilian and military leadership of the Corps of Engineers should continue to manage the Corps of Engineers and the Civil Works program in a manner consistent with Congressional intent.

Fiscal year 2008 budget initiatives.—The Administration's proposals to appropriate the Operations and Maintenance account on a regional basis and to migrate four categories of projects from the Construction account to the Operations and Maintenance account are rejected. The Appropriations Committees support a systemized budget for operating projects; however, the Corps has not yet demonstrated the value of this approach. The Corps is directed to prepare four systemized, integrated budgets for four different areas of the Nation—the Ohio River, the Great Lakes, the Texas coast, and the California coast—to demonstrate the value of system or watershed planning and budgeting. Further, the Corps is directed to develop a comprehensive capital expense policy to distinguish clearly between activities that should be considered routine maintenance and those that should be considered a capital expense consistent with industry practices. Capital improvements are appropriately budgeted in the Construction account; routine activities associated with the upkeep of existing projects budgeted in the Operations and Maintenance account.

Five-year comprehensive budget planning.—The Corps is directed to submit to the House and Senate Committees on Appropriations concurrent with each annual budget hereafter an updated five-year comprehensive development plan.

Emphasis on expenditures.—Recent changes to the Corps budgeting and contracting policies have resulted in the carryover of higher levels of funding from year to year. While the Appropriations Committees agree that there are circumstances which will necessitate obligated carryover, the Corps is directed to minimize unobligated carryover to the extent practicable. This direction should not be viewed as a method or excuse to reprogram funds liberally between projects or activities, but rather an admonition to the Corps to estimate capabilities accurately and execute projects within baseline scope and schedules.

Reprogramming.—The amended bill includes new reprogramming guidance for the Corps of Engineers which provides additional flexibility to meet existing obligations and unforeseen operations and maintenance needs. This additional flexibility is given as a result of the Corps efforts to tighten fiscal management of its program and in recognition of the dynamic nature of civil works project execution. This additional flexibility will be reconsidered should the Corps return to its cavalier approach to baseline schedules and budgets and Congressional intent. The guidance contained herein supersedes all previous Congressional direction with respect to all available balances in the Corps' accounts. For the purposes of carrying out this section, a reprogramming of funds is defined as any reallocation of funds into or from a line item set forth in the tables accompanying this Act. In no case shall a reprogramming for less than \$50,000 be submitted to the Committees for approval.

Not later than 60 days following the enactment of this Act, the Corps shall submit a report to the House and Senate Committees on Appropriations to establish the baseline for application of reprogramming and transfer authorities for the current fiscal year. That report shall contain a table for each appropriation, showing among other items, each program, project and activity in each appropriation. For each day after the required date that the report has not been sub-

mitted to Congress, the amount appropriated for salaries and expenses of the Corps of Engineers shall be reduced by \$100,000 per day. In addition, the Corps is directed to provide quarterly reports to the House and Senate Committees on Appropriations detailing all projects from which and to which funds were reprogrammed pursuant to the authorities provided in this Act. The report shall also include reasons for the transfers of funds. The thresholds contained in section 101 shall apply to cumulative totals on a project-by-project basis.

Continuing contracts.—The amended bill includes the same legislative provision carried in fiscal year 2006 making continuing contracts optional rather than mandatory. The Appropriations Committees continue to believe that the continuing contract has a role; however, Congress should not mandate the use of any specific contracting mechanism given the vastly varied scope of projects executed by the Corps of Engineers.

The amended bill also includes a provision that prohibits the use of funds to execute any new continuing contract, or modifications to an existing contract, that commits an amount for a project in excess of the amounts appropriated for such project or otherwise available through legitimate reprogramming or carryover.

The Appropriations Committees are aware of eight instances where this limitation resulted in contract bid protests during fiscal year 2007. While this number of protests is not significant in the context of the thousands of contracts the Corps issues every year, the issues surrounding continuing contracts remain of concern. Consequently, the GAO is directed to study continuing contracts issued with the new clause to determine whether its use has resulted in a quantifiable adverse impact to the Corps program, either in terms of price, competition or execution. Should the study, or other relevant information, show an adverse impact, this policy will be reconsidered in future years.

Further, the Corps is directed to provide a report, no later than May 1, 2008, to the House and Senate Committees on Appropriations describing the overall effects, both positive and negative, of this new policy in relation to the Corps' ability to execute the Civil Works mission. Additionally, the report should include any recommendations for changes or improvements to this policy if necessary and appropriate.

The commitment to reevaluate this policy in the future does not in any way change the existing direction that the Corps use continuing contracts only where they are justified. Once issued, these contracts should be managed to existing and realistically expected future year appropriations. Under no circumstance should the contractor be allowed to dictate the pace of expenditures; the Corps as the contracting agent holds this responsibility.

The Appropriations Committees restate the House direction that the Corps develop criteria and standards for the use of continuing contracts as well as examine alternatives to this contracting mechanism.

Study and project policy reviews.—The Chief of Engineers is directed to work with the ASA(CW) and OMB to develop a plan to complete study and project policy compliance reviews as expeditiously as possible and forward the recommendations of these reports to Congress. This plan should be presented to the appropriate House and Senate Appropriations and authorizing Committees no later than March 31, 2008. The Corps shall complete reviews of all documents no later than December 31, 2008.

Louisiana Coastal Area Ecosystem Restoration, Louisiana.—The Appropriations Committees remain supportive of this effort; however, due to large unobligated balances, \$2,952,000 is provided, rather than the budget request of \$13,000,000. The Science and Technology line item under this study is not funded and the Corps is directed not to include this line item in the fiscal year 2009 budget. This line item appears to be an attempt to fund other Federal agencies to undertake science activities that are not being funded within those agencies. If the Administration believes this is worthwhile science, then they should budget for this work under the appropriate agency. Any funds from the fiscal year 2007 allocation that remain unexpended in the Science and Technology line should be utilized on advancing the study, not on science activities.

Blackstone River Watershed Restoration, Massachusetts and Rhode Island.—Funding in the amount of \$98,000 is included for the ongoing feasibility study and \$99,000 is included to study recent flooding in Rhode Island.

Great Lakes Navigational System, Michigan, Illinois, Indiana, Minnesota, New York, Ohio,

Pennsylvania, and Wisconsin.—The funds provided are to be used to complete the supplement to the reconnaissance report of the Great Lakes St. Lawrence Seaway Navigation Study, which, based on a previous agreement between the Secretary, the Ministry of Transportation Canada, and the Secretary of the U.S. Department of Transportation, is to be limited in scope to evaluating the economic, engineering and environmental impacts of maintaining the Great Lakes St. Lawrence Seaway at current size, draft and length of locks. The Secretary is directed to complete the supplemental report by September 2008, after which Congress, interested State and Federal agencies, and the public shall review the report for one year to determine whether additional study is warranted.

Chief's Twelve Actions.—Funding is not included for this item. The Appropriations Committees believe that the activities proposed in the budget request for this line item should be incorporated into the various funded planning activities that the Corps has underway.

National Shoreline Study.—Additional funds have been provided above the budget request

for the National Planning Center of Expertise for Coastal Storm Damage Reduction to develop a process for managing shore protection projects as part of a systems approach to coastal protection for the purpose of achieving improved project performance, increased cost effectiveness, and enhanced benefits.

Reprogramming Payback.—Funding under this heading includes \$4,526,000 to meet prior reprogramming obligations identified by the Corps of Engineers. This funding provides the full amount for all paybacks in this account; any additional requirements are the sole responsibility of the Corps.

CONSTRUCTION

(INCLUDING RESCISSIONS OF FUNDS)

The amended bill provides \$2,294,029,000 for Construction, instead of \$2,004,186,000 as proposed by the House and \$2,059,474,000 as proposed by the Senate and includes the \$4,688,000 of rescissions as proposed by the House.

The allocation for the projects and activities within the Construction account is shown in the following table:

Santa Ana River mainstem, California.—Funding in addition to the budget request for this project is included to continue studies to ascertain the nature and extent of water quality degradation in the Santa Ana River resulting from the construction and operation of Seven Oaks Dam and to amend the Seven Oaks Dam water control plan in light of current conditions and requirements.

American River Watershed (Folsom Dam Miniraise), California.—Within the funds provided for this project, \$14,000,000 is for completion of the bridge.

Dade County (Miami-Dade), Florida.—The Appropriations Committees are aware of the ongoing study by the Corps to determine the availability of a domestic source of sand for the Miami-Dade Project, which was directed and funded by the Appropriations Committees in fiscal year 1999. The Committees continue to have concerns over the lack of finalization of this study and thereby direct the Corps to identify a compatible sand source for the project using previously appropriated funds no later than March 1, 2008.

Modified Waters Delivery Plan, Florida.—The Appropriations Committees recognize the national importance of this project, but are concerned about the open-ended scope and the increasing costs for the Corps participation in this project.

When the project was authorized in 1989, the plan was to utilize the culverts under the Tamiami Trail to provide the needed flows to Everglades National Park. The next plan was a 3,000 foot opening in the Tamiami Trail. Now various bridge options are being considered.

Another option under consideration is raising the water level in the L-29 canal, utilizing the culverts to provide the flows and raising the low spots on the Tamiami Trail. The Appropriations Committees are concerned that this constantly changing end-point for completion of Mod Waters is delaying the Corps from undertaking critical Everglades restoration projects authorized under the Comprehensive Everglades Restoration Plan.

Funds provided for Everglades restoration include \$9,840,000 for this project in fiscal year 2008. This is the Corps' full stated capability and is based on the apparent disarray in determining exactly what will be accomplished in fiscal year 2008. The Corps is directed to use this funding to improve flows through the culverts under the Tamiami Trail. Any use of these funds for other activities requires a reprogramming request and House and Senate Appropriations Committee approval. Within 90 days of enactment, the Corps is directed to submit to the House and Senate Committees on Appropriations its plan for completion of its role in the Modified Waters Delivery Plan, providing a final project scope and identifying, not only Corps funding requirements, but also corresponding contributions from the Department of Interior and State of Florida.

To most effectively utilize the funding provided to the Corps of Engineers for the Modified Waters Delivery project in fiscal year 2008, the Committees on Appropriations expect that the Department of Interior will provide funding to match or exceed that provided to the Corps this fiscal year. The Committees further expect that the Department of Interior share of the project costs will not be provided in the form of in-kind services or credit for work previously performed.

Olmsted Locks and Dam, Ohio River, Illinois and Kentucky.—Neither funds provided for the Olmsted Locks and Dam Project nor funds available within this account are available to reimburse the Claims and Judgment Fund.

Muddy River, Boston, and Brookline, Massachusetts.—Funding is included to continue

project design and construction, including ecosystem restoration features, of the Muddy River Project in Brookline and Boston, Massachusetts.

Upper Mississippi Restoration, Illinois, Iowa, Minnesota, Missouri and Wisconsin.—Funding included for this activity shall be available only to continue ongoing design and construction projects and shall not be available to initiate new construction projects.

Missouri Fish and Wildlife Recovery, Iowa, Kansas, Missouri, Montana, Nebraska, North Dakota and South Dakota.—Within the funds provided, the Corps is directed to make modifications to the Intake Dam to provide additional habitat for the pallid sturgeon.

Southeast Louisiana project, Louisiana.—No funding is provided for this project. It is the understanding of the Appropriations Committees that legislation and funding will be proposed in the forthcoming Administration supplemental request.

Bois Brule drainage and levee district, Missouri.—Funding is provided for continuing work related to this project. Legislative text is included in the bill that reallocates the unexpended balance of \$597,000 from the terminated continuing authorities project at Bois Brule, Missouri.

Townsend Inlet to Cape May Inlet Hurricane and Storm Protection Project, New Jersey.—Within the funds provided, \$65,000 is available to evaluate the use of periodic backpassing of sand as part of the Townsend Inlet to Cape May Inlet shore protection project.

Atlantic Coast of NYC, Rockaway Inlet to Norton Point, New York.—Funding is provided for continuing work related to this project. Further, legislative text is included in the bill that reallocates the unexpended balance of \$881,000 from engineering and design activities that are complete.

Lake Sakakawea, North Dakota.—The original health care facility for the Three Affiliated Tribes was permanently inundated due to the impoundment of Lake Sakakawea. A replacement health care facility was promised but never constructed. Legislative text has been included in the bill that directs the Corps to construct this replacement facility. Funding is provided in the amount of \$2,952,000 for design of the replacement health care facility. The Corps should work closely with the Indian Health Service and the Three Affiliated Tribes on the design and construction of this facility. The Corps is directed to utilize the expertise in their military programs office for this project.

North Dakota (Environmental Infrastructure), North Dakota.—Funding provided under this heading includes \$5,904,000 for work related to the replacement of the Devils Lake Water supply pipeline. Legislative text is included in the bill that reallocates the unexpended balance of \$4,972,000 from the Devils Lake outlet to this project.

Cheyenne River Sioux Tribe, Lower Brule Sioux, South Dakota.—The Appropriations Committees note that title IV of the Water Resources Development Act of 1999, Public Law 106-53 as amended, authorizes funding to pay administrative expenses, implementation of terrestrial wildlife plans, activities associated with land transferred or to be transferred, and annual expenses for operating recreational areas. Funding under this heading includes \$3,936,000 for this effort. Within the funds provided, not more than \$1,000,000 shall be provided for administrative expenses. The Corps is directed to distribute the remaining funds as directed by title IV to the State of South Dakota, the Cheyenne River Sioux Tribe and the Lower Brule Sioux Tribe.

Central City, Fort Worth, Texas.—The Appropriations Committees continue to be interested in the efficiencies and additional

benefits potentially available from reformulation of the project now underway by the Corps of Engineers. The funds provided for this project are to be used to pursue design and construction of the authorized project, maintaining schedule commitments, while capturing the efficiencies and benefits from the reformulation effort. Further, the Corps is expected to incorporate all changes resulting from the reformulation as soon as they are identified. Additionally, the Corps is directed to consider the planned, complementary efforts of other Federal agencies, state and local governments in the project area that are, or will be, in place as it defines the reformulated Central City project.

Lake Champlain Watershed Initiative.—Funding in the amount of \$2,460,000 is provided for the continuation of this project. Legislative text is included in the bill that reallocates the unexpended balance of \$1,500,000 from the completed Waterbury Dam Seepage Correction repairs to this project.

Levisa and Tug Forks & Upper Cumberland River, West Virginia, Virginia, and Kentucky.—Funding under this heading includes \$28,290,000 for this project. Within the amounts provided, \$4,920,000 shall be for elements of the project in the Commonwealth of Kentucky; \$5,166,000 shall be available for the Commonwealth of Virginia elements of the project; and \$18,204,000 shall be for Kermit, Lower Mingo County, McDowell County, Upper Mingo and Wayne County, West Virginia.

Shoreline Erosion Control Development and Demonstration Program.—The Appropriations Committees understand that this program was considerably expanded and modified in the recent Water Resources Development Act. Therefore, the amended bill includes legislative text to extend the duration of this program so that the Corps can continue monitoring of completed projects and finish work on projects, where possible with previously appropriated funds. No new funds are provided.

Reprogramming Payback.—Funds are provided to meet reprogramming obligations identified by the Corps of Engineers under this account. The Corps shall analyze existing obligations giving priority to project completion and useful increments of work. The Corps shall coordinate the allocation of these funds with the House and Senate Committees on Appropriations. Provision of this funding is intended to assist the Corps in meeting obligations made to Members of Congress and local sponsors. It does not in any way lessen the Corps' responsibility of meeting commitments made to repay "borrowed" funds.

CONTINUING AUTHORITIES PROGRAM

The Appropriations Committees remain concerned with the management of the Continuing Authorities Program. While progress has been made in gaining an understanding of existing obligations and the inventory of unfinished projects, the Corps must continue to refine its policies and approach to this program. The Appropriations Committees are frustrated by the level of Congressional oversight required of a program that remains a small part of the Corps' Civil Works Program. The Appropriations Committees are particularly disturbed that, despite clear guidance restricting the Corps from initiating new projects without the consent or direction of Congress, more than 40 projects were initiated during the Fiscal Year 2007 Continuing Resolution. Until such time as the Corps can demonstrate that the inventory of unfinished projects associated with this program has been sufficiently reduced to allow new investment decisions, the Appropriations Committees fail to see the wisdom

in making further commitments to non-federal sponsors which cannot be met. Consequently, the Corps is directed not to initiate or restart any Section 205, 206 or 1135 project which has not been named in a conference report from fiscal year 2002–2008. The term “restart” shall mean funding any project that had received funding before fiscal year 2002 but not since. The Corps may only initiate new projects in the remaining authorities subject to meeting existing project requirements and determining that that program appropriation levels can support additional investment.

The prohibition on executing new cost sharing agreements is not extended to fiscal year 2008; however, approval authority for all cost share agreements shall be maintained by the Chief of Engineers. This authority cannot be delegated.

The Corps is directed to terminate all continuing authorities projects that have not received funding or have not been named specifically in a conference report during the period of fiscal year 2002–2008. Not later than 30 days after enactment, the Corps shall forward a report summarizing the inventory of active but unfinished projects, by authority, to the House and Senate Committees on Appropriations.

The report also shall summarize the review process that the Corps intends to follow to reclassify unfinished projects to better control and manage the inventory of unfinished projects over time. The position of the non-federal sponsor shall be considered in this process. Should the sponsor remain interested in pursuing a project that has been terminated or proposed for termination, the sponsor should officially re-affirm its support for the project and establish that it is a willing and capable sponsor with the financial capability to execute the project, including the ability to obtain required real estate necessary for the implementation of the project. Lacking such re-affirmation by the non-federal sponsor, the project should be or remain terminated. This action should be taken only as a method to assess accurately

the inventory of unfinished projects in the program. Any projects in Sections 205, 206, or 1135 that had been terminated but that are re-affirmed by the non-federal sponsor may not be initiated or restarted without the explicit consent of the House and Senate Committees on Appropriations. Not later than 180 days after enactment, the Corps shall forward a report to the House and Senate Committees on Appropriations summarizing the results of the first iteration of the reclassification review.

The Corps is directed to maintain an approximately 80–20 percent split between the Design and Implementation (D&I) phase and the Feasibility phase within each authority. This split should be considered a guideline only, as there may be specific circumstances that require a slightly different weighting.

In the following tables, two categories of projects are included: projects with a specific funding amount designated by Congress for fiscal year 2008; and projects the Corps may consider for funding after the first category of projects is addressed. The Corps shall prioritize the second category of projects (i.e., those listed without dollar amounts) based on the following criteria:

Priorities for Design and Implementation (D&I) Phase:

1. D&I work for continuing projects that have executed PCAs.
2. D&I funding for projects approved by Corps Headquarters to execute a PCA.
3. D&I work which does not require executed agreements (e.g. continuing or pre-PCA design) for ongoing projects.
4. D&I funding for projects with approved Feasibility Reports moving into D&I.

Priorities for Feasibility Phase:

1. Feasibility phase funding for projects with executed FCSAs.
2. Feasibility phase funding for projects approved by Corps Headquarters to execute a FCSA.
3. Feasibility phase work which does not require a FCSA for ongoing projects.
4. Feasibility phase funding for initiations or restarts.

Within the last-funded priority level within the D&I and Feasibility phases, if the projects qualifying for funding exceed the available funding, funds shall be allocated based on project outputs and the non-federal sponsor's ability to meet local obligations.

Remaining funds, if any, may be allocated to additional projects in accordance with the aforementioned priorities, except that remaining funds for Section 14 projects shall be allocated to the most urgently needed projects.

For all projects that receive a specific dollar amount, the Corps shall make this funding available for a period of two years, after which time the funding may be used to meet other project requirements. The funds may also be used to meet other requirements upon termination of these projects. The Corps shall also make available for two years from enactment of this Act any project funds remaining from Congressional direction in fiscal year 2006.

The Chief of Engineers should provide a report to the House and Senate Committees on Appropriations within 30 days of enactment of this Act detailing how funds will be distributed to the individual items in the various CAP sections for the fiscal year. The Chief should also provide an annual report at the end of each fiscal year detailing the progress made on the backlog of projects. The report should include the completions and terminations as well as progress of ongoing work. The Appropriations Committees are willing to work with the Corps on any reforms that they might suggest to improve this program.

MISSISSIPPI RIVER AND TRIBUTARIES

The amended bill provides \$387,402,000 for Mississippi River and Tributaries (MR&T), instead of \$278,000,000 as proposed by the House and \$375,000,000 as proposed by the Senate.

The allocation for projects and activities within the Mississippi River and Tributaries account is shown in the following table:

MR&T CONSTRUCTION

Mississippi River Levees, Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri and Tennessee.—Additional funds above the budget request shall be used for the following activities: \$6,691,000 for the New Madrid levee closure and box culvert and mitigation land acquisition; continue Item 2, award contracts for Reid-Bedford-King, Item 424-L; Magna Vista-Brunswick, Item 468-L; Bayou Vidal-Elkridge, Item 421-R; Carrollton Levee Enlargement; continue Floodway assessments; Trotters, Mississippi, relief wells; Wilson, Arkansas, relief wells; Cairo, Illinois, Grade Raise and complete LMRMRIS.

Yazoo Basin, Yazoo Backwater, Mississippi.—Funding under this heading includes \$246,000 for the Corps of Engineers to design and construct a multi-agency wildlife and environmental interpretative and education center in the South Delta area of the State of Mississippi.

It is the intent of Congress that the conservation easement as stated in the Real Estate Plan section of the draft 2000 Yazoo

Backwater reformulation report be acquired for the non-structural flood damage reduction component of the project. The conservation easement is to be used as a flood damage reduction measure and is adequate for the Yazoo Backwater Project. The Chief of Engineers, acting by and through the Vicksburg District, is directed to proceed with real estate activities as may be accomplished in advance of final project approval.

MR&T OPERATION AND MAINTENANCE

Wappapello Lake, Missouri.—Funding under this heading includes \$6,396,000, in addition to the budget request, to address actions related to the relocation of U.S. Highway 67 necessary as a result of changes to the operation of the project. The Appropriations Committees direct the Corps to budget fully for the remaining cost of relocations that have resulted from changes to the operation of the project.

Mississippi River Levees, Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri and Tennessee.—Funds provided above the budget

request are for gravel surfacing of selected locations along roads on top of levees in Arkansas, Mississippi, and Louisiana to ensure all-weather access for flood response and backlog maintenance.

Additional funding is also included to address the maintenance backlog at Arkabutla, Sardis, Enid and Grenada Lakes in Mississippi.

Collection and Study of Basic Data.—Funds provided under this heading include \$1,378,000 for these efforts. Funds provided above the budget request are for LIDAR mapping to be undertaken in the Delta portion of Mississippi.

OPERATION AND MAINTENANCE

The amended bill provides \$2,243,637,000 for Operation and Maintenance, instead of \$2,655,241,000 as proposed by the House and \$2,291,971,000 as proposed by the Senate.

The allocation for projects and activities within the Operation and Maintenance account is shown in the following table:

Tennessee-Tombigbee Waterway, Alabama and Mississippi.—Funding under this heading includes \$27,599,000 for this project. Funds above the budget request are provided for the construction of mooring cells near Columbus, Mississippi, for safety of tows tying up during high water levels and lock closure at Whitten and Stennis Locks due to dam safety issues.

McClellan-Kerr, Arkansas River Navigation System, Arkansas and Oklahoma.—An additional \$2,534,000 is provided, above the budget request, to begin Planning, Engineering and Design (PED) for the Arkansas/White Cutoff project and to complete repairs on the south end of the Jim Smith Lake Structure.

Dry Creek (Warm Springs) lake and channel, California.—Within the funds provided for this project, \$102,000 shall be available to update the inundation maps for the project and \$544,000 for hatchery requirements.

San Francisco Bay Harbor, California.—Within the funds provided, \$394,000 is to advance the Ocean Beach Nourishment project.

Cherry Creek, Chatfield, and Trinidad Lakes, Colorado.—In addition to the budget request, funds are included for continued repairs at these three lakes. This action in no way is intended to alter the Corps of Engineers' lease and property accountability policies. The Appropriations Committees understand that the State of Colorado has agreed to cost share this project on a 50-50 basis and that the Secretary is not to assume any share in the future of the operation and maintenance of these recreation facilities.

Intracoastal Waterway, Delaware River to Chesapeake Bay, Delaware and Maryland.—In addition to the budget request, funds are included for repairs to the Summit Bridge.

Mississippi River Project (MVR), Illinois.—Within the funds provided, \$148,000 is provided for Mill Creek South Slough, Illinois.

Burns Waterway Harbor, Indiana.—Dredging activities for this project should place priority on the Bailly intake pipe area.

Great Lakes Navigation, Indiana, Illinois, Michigan, Minnesota, New York, Ohio, Pennsylvania and Wisconsin.—Within the funds provided under this heading, \$6,544,000 is included to execute backlog dredging at commercial navigation projects within the Great Lakes. This funding shall be allocated based on maximizing transportation cost savings, taking into account relationships among harbors. The Corps shall coordinate with the House and Senate Committees on Appropriations as well as other interested parties in allocating this funding.

Clinton Lake, Kansas.—Funding provided under this heading includes \$692,000, in addition to the budget request, for the dam toe road access and dam road repairs.

Wolf Creek Dam, Lake Cumberland, Kentucky.—The Appropriations Committees note that Lake Cumberland has been drastically lowered for on-going seepage/stability correction repairs to Wolf Creek Dam. Additional funds provided above the budget request are for pool-lowering mitigation features.

Gulf Intracoastal Waterway, Louisiana.—Funds above the budget request are provided for additional maintenance activities associated with the Inner Harbor Navigation Canal Lock.

J. Bennett Johnston Waterway, Louisiana.—Funding provided under this heading includes additional funds for bank stabilization repairs, dredging entrances to oxbow lakes, routine operation and maintenance activities, annual dredging requirements, and backlog maintenance.

Michigan Harbors, Michigan.—The Appropriations Committees note that there are some 30 federally maintained harbors in Michigan; however, fewer than 10 are budgeted. The Appropriations Committees have

attempted to provide for some of the dredging needs of the State. However, recognizing that conditions at these harbors are constantly changing and that the Great Lakes are continuing to suffer from historic low water levels, the Corps is directed to propose a dredging program for fiscal year 2008 that would most effectively utilize the scarce funds available for these harbor projects. This plan should be presented within 30 days of enactment of this Act as a reprogramming action for approval by the House and Senate Appropriations Committees.

Upper Rio Grande Water Operations Model, New Mexico.—Funding provided under this heading includes \$492,000 to develop an outline for an integrated management plan of the Rio Grande in New Mexico in cooperation with the Bureau of Reclamation.

Garrison Dam and Lake Sakakawea, North Dakota.—Funding provided under this heading includes \$197,000 for mosquito control and \$935,000 for the Corps to work in cooperation with the Friends of Lake Sakakawea to ensure the recreation sites around the lake can be utilized.

Ohio River Navigation, Ohio, Indiana, Illinois, Kentucky, Pennsylvania, Tennessee, West Virginia.—Funding provided under this heading includes \$2,804,000 to meet the needs identified in the Ohio River and Tributaries Navigation System Five-Year Development Perspective. The Corps shall allocate this funding on a systems basis taking into account the level of funding and urgent requirements of the navigation system. The Corps shall report to the House and Senate Committees on Appropriations on the allocation of the funds.

Willamette Falls Lock, Oregon.—Additional funding is provided above the budget request for continued operations of the lock.

However, the Appropriations Committees have recently become aware of safety and stability concerns with this more than 100 year old multi-chambered lock that primarily serves recreational interests. However, these concerns, and their concomitant funding requirements were raised with the Appropriations Committees after a final agreement had been reached on the Corps of Engineers funding. Further, the information provided by the Corps was grossly inadequate for the Appropriations Committees to make informed decisions which balance competing needs across the Nation. The Corps is therefore directed to initiate the Hydraulic Steel Structure Investigation (HSSI) utilizing the funds provided herein for this project. The Corps should also evaluate the Operation and Maintenance account and determine what non-essential activities may be deferred in the Corps' Northwestern Division to fund completion of this study in fiscal year 2008. The Corps is also instructed to work with local interests to determine what additional funding may be available from state and local sources. The Corps will report to the House and Senate Committees on Appropriations once it has identified additional funding sources, but not later than 45 days after enactment of this Act. Upon completion of the HSSI, the Corps shall report to the House and Senate Committees on Appropriations on measures to be taken to address any safety and stability issues to maintain the operation and the associated costs of these measures. The Appropriations Committees are aware that the safety and stability issues for the lock may prohibit operation of the lock during calendar year 2008.

Schuylkill River, Pennsylvania.—Within the funds provided, \$98,000 is to complete necessary document preparation to allow clearance to the authorized 40-foot depth.

Cheyenne River Sioux Tribe, Lower Brule Sioux, South Dakota.—The Appropriations Committees note that title VI of the Water

Resources Development Act of 1999 requires that funding to inventory and stabilize cultural and historic sites along the Missouri River in South Dakota, and to carry out the terrestrial wildlife habitat programs, shall be provided from the Operation and Maintenance account. Funding under this heading includes \$2,804,000 to protect cultural resource sites and provide funding to the State and tribes for approved restoration and stewardship plans and, in compliance with the requirements of title VI, The Corps is directed to contract with or reimburse the State of South Dakota and affected tribes to carry out these duties.

Waco Lake, Texas.—The funding under this heading includes \$1,433,000 for this project, in addition to the budget request, for the replacement of failing water delivery systems and for necessary repairs resulting from recent flooding.

Whitney Lake, Texas.—In addition to the budget request, \$1,908,000 is provided for Ham Creek and \$940,000 is provided for necessary repairs resulting from recent flooding.

Town Bluff Dam, Texas.—Additional funding is provided for improvements at Campers Cove, Sandy Creek, and East End.

Chinook, Head of Sand Island and Baker Bay, Washington.—The Appropriations Committees note the proximity of Corps navigation facilities on the Columbia River between Chinook and the Head of Sand Island, Washington, and at Baker Bay, Washington, and encourage the Corps of Engineers to seek ways to achieve cost savings and efficiency, such as by utilizing appropriate contracting methods while having these two projects be considered together when seeking bids and awarding contracts.

Mud Mountain Dam, Washington.—Within the funds provided, the Corps is directed to use up to \$903,000 to satisfy Federal fish passage obligations for the term of the cooperative agreement with Puget Sound Energy.

Ohio River Locks & Dams, West Virginia, Kentucky & Ohio.—Additional funding is provided for recreation improvements at Parkersburg.

Fox River, Wisconsin.—Additional funds above the budget request are to reimburse the State of Wisconsin, in accordance with the agreement, for the costs of repairs and rehabilitation of the transferred locks and for the Corps of Engineers to undertake major repairs for the dams and associated infrastructure.

Lake Superior Small Harbor Dredging, Wisconsin.—Additional funding is included to respond to maintenance needs of small harbors on Lake Superior.

Chief's Twelve Actions.—Funding under this heading includes \$2,481,000 for this item. The Appropriations Committees believe that these funds can serve to make significant improvements to the way the Corps administers completed projects to account for changed conditions since construction.

National Coastal Mapping.—Additional funds provided above the budget request are for LIDAR bathymetry for use in regional sediment management and for Coastal Zone Mapping and Imaging LIDAR/LASER to be conducted in cooperation with the University of Southern Mississippi.

FLOOD CONTROL AND COASTAL EMERGENCIES

The amended bill provides no funding for Flood Control and Coastal Emergencies, instead of \$40,000,000 as proposed by the House and \$50,000,000 as proposed by the Senate.

REGULATORY PROGRAM

The amended bill provides \$180,000,000 for Regulatory programs and activities as proposed by both the House and Senate.

The Appropriations Committees are concerned that the Corps is not completing regulatory approvals and Environmental Impact

Reports (EIR) and Environmental Impact Statements (EIS) in an expeditious manner. The Appropriations Committees urge the Corps of Engineers to ensure a 12-month time frame for completion of all EIR/EIS and to undertake other improvements that would expedite regulatory processes, such as requiring an EIR/EIS on major dredge and fill projects only, and expediting or waiving superfluous review at the division level.

The Corps is directed to work with the Office of Surface Mining (OSM) to develop a more efficient process for expediting permit decisions associated with surface coal mining operations. To avoid unnecessary time delays and duplication of agency resources, the Corps shall maintain the availability of a meaningful general permit for surface coal mining that may be issued in coordination with and for the term of the permit already required pursuant to the Surface Mining Control and Reclamation Act (SMCRA). The Corps should also dedicate sufficient personnel and financial resources to support a consistent program for permit review and issuance.

FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

The amended bill provides \$140,000,000 for Formerly Utilized Sites Remedial Action Program as proposed by the Senate, instead of \$130,000,000 as proposed by the House. The Corps is directed to prioritize sites that are nearing completion and initiate cleanup expeditiously for the former Sylvania nuclear fuel site in Hicksville, New York. Legislative language is included in the bill providing an additional disposal option for FUSRAP waste.

EXPENSES

The amended bill provides \$175,046,000 for Expenses as proposed by the Senate, instead of \$171,000,000 as proposed by the House.

The Appropriations Committees are concerned that oversight of the Corps of Engineers Civil Works Program is being negatively impacted by tight personnel funding in this account. Accordingly, additional funds have been provided in this account to allow the Corps' Headquarters Office to hire additional personnel to help perform oversight functions.

OFFICE OF ASSISTANT SECRETARY OF THE ARMY (CIVIL WORKS)

The amended bill provides \$4,500,000 for the Office of the Assistant Secretary of the Army (Civil Works) as proposed by the Senate, instead of \$6,000,000 as proposed by the House. The amended bill provides only salaries and expenses as in previous years.

ADMINISTRATIVE PROVISION

The amended bill includes a provision proposed by both the House and Senate relating to reception and representation expenses and the replacement and hire of passenger motor vehicles.

TITLE I—GENERAL PROVISIONS

The amended bill modifies a provision contained in both the House and Senate bills relating to reprogramming.

The amended bill includes a provision proposed by the House that limits the availability of funds for certain continuing contracts.

The amended bill includes a provision prohibiting implementation of competitive sourcing or High Performing Organization, as proposed by the Senate. The House bill contained a similar provision.

The amended bill includes a provision prohibiting the Corps from divesting or transferring Civil Works functions as proposed by the Senate.

The amended bill modifies a provision concerning report notifications as proposed by

the Senate. The House bill contained no similar provision.

The amended bill includes a provision concerning reallocations of Lake Cumberland, Kentucky, as proposed by the Senate.

The amended bill includes a provision allowing the use of the revolving fund for construction of two buildings at the U.S. Army Engineer Research and Design Center as proposed by the Senate.

The amended bill includes a provision concerning in-kind services for the Rio Grande Basin Watershed study as proposed by the Senate. The provision allows for local sponsors of this project to be reimbursed for overpayment of the non-Federal share of the costs of the study.

The amended bill includes a provision regarding the Middle Rio Grande Collaborative Program, New Mexico, as proposed by the Senate.

The amended bill includes a provision concerning the conveyance of surplus property in Tate County, Mississippi, as proposed by the Senate.

The amended bill modifies a provision relating to section 594 of the Water Resources Development Act of 1999 as proposed by the Senate. The provision provides authority for North Dakota to be eligible for environmental infrastructure assistance.

The amended bill includes a provision regarding the Kahuku Storm Damage Reduction Project, Hawaii, as proposed by the Senate.

The amended bill includes a provision related to the Shoreline Erosion Control Development and Demonstration Program as proposed by the Senate.

The amended bill includes a provision related to congressional budget justifications as proposed by the Senate.

The amended bill includes a provision regarding a replacement health care facility at Lake Sakakawea, North Dakota.

The amended bill includes a provision concerning reimbursement for expenses incurred by locals carrying out portions of authorized Federal flood and storm damage reduction projects as proposed by the Senate.

The amended bill includes a provision regarding Johnson Creek, Texas, as proposed by the Senate.

The amended bill includes a provision regarding reimbursements as proposed by the Senate. This provision increases the limits allowed on certain reimbursements for work undertaken by local interests.

The amended bill includes a provision on the Coronado, California, project as proposed by the Senate.

The amended bill includes a provision for the Navajo Reservation, Arizona, Utah and New Mexico, project as proposed by the Senate.

The amended bill includes a provision concerning the visitor reservation services for Corps of Engineers recreation sites as proposed by the Senate.

The amended bill includes a provision concerning the Marshall, Minnesota, project as proposed by the Senate.

The amended bill includes a modified provision concerning the St. John's Bayou-New Madrid Floodway, Missouri, Project. The provision reaffirms the recent District Court decision concerning the economic feasibility and non-separability of the project as currently described in the June 2002 Revised Supplemental Environmental Impact Statement and further supplemented by the March 2006 Revised Supplemental Environmental Impact Statement 2.

The amended bill includes a provision allowing funds provided in Public Law 110-28 to be utilized for the purposes for which they were appropriated as proposed by the Senate.

The amended bill includes a provision relating to the Cedar Hammock (Wares Creek), Florida, project.

The amended bill includes a provision relating to the Manatee Harbor, Florida, project.

The amended bill includes a provision relating to continuing contracts. This provision was carried in the fiscal year 2006 Energy and Water appropriations conference report.

The amended bill includes a provision relating to the Terminus Dam, California, project.

The amended bill includes a provision providing an additional disposal option for FUSRAP waste.

The amended bill includes a provision relating to the cost share of the American and Sacramento Rivers, California, project.

The amended bill includes a provision relating to the White River Navigation project.

The amended bill includes a provision modifying Section 103 under title I of Public Law 109-103 regarding certain landfills in the Muskingum River watershed.

The amended bill includes a provision that transfers approximately 197 acres of surplus Corps of Engineers land to Story County, Iowa. The land is a former site for a Corps of Engineers flood control reservoir initiative, the Skunk River Reservoir Project. The project was abandoned and deauthorized by Congress.

The amended bill modifies a provision regarding Apalachicola, Chattahoochee and Flint Rivers and Alabama, Coosa and Tallapoosa Rivers, Georgia, Alabama, and Florida, as proposed by the Senate. The House bill included no similar provision. The Appropriations Committees are supportive of finding mutually agreeable solutions to water allocation of the Apalachicola-Chattahoochee-Flint and Alabama-Coosa-Tallapoosa river systems between the states of Alabama, Florida and Georgia. The Corps is directed to continue to support the interstate discussions and to take no actions that adversely impact the outcome.

The amended bill includes a provision concerning the Southeast Louisiana project as proposed by the Senate.

The amended bill includes a provision regarding a reporting requirement for Alaska Coastal Erosion.

The amended bill does not include a provision proposed by the Senate repealing Section 108 under title I of Public Law 109-103 concerning continuing contracts.

The amended bill does not include a provision proposed by the House relating to the dredge McFarland.

The amended bill does not include three provisions proposed by the Senate relating to the Federal dredge fleet.

The amended bill does not include a provision proposed by the House relating to the Sacramento District Office of the Corps of Engineers.

The amended bill does not include a provision proposed by the Senate relating to the St. Georges Bridge in Delaware.

The amended bill does not include a provision proposed by the Senate relating to the Lower Mud River, Milton, West Virginia, project.

The amended bill does not include a provision proposed by the Senate concerning cooperative agreements.

The amended bill does not include a provision proposed by the Senate relating to the Rio De Flag, Arizona, project.

The amended bill does not include a provision proposed by the Senate relating to Avian Predation in the Columbia River Fish Mitigation project.

The amended bill does not include a provision proposed by the Senate relating to the Santa Ana, California, project.

The amended bill does not include a provision proposed by the Senate relating to the Upper Guadalupe, California, project.

The amended bill does not include a provision proposed by the Senate relating to the Missouri River mitigation project.

The amended bill does not include a provision limiting Corps of Engineers expenditure on a project as proposed by the Senate.

The amended bill does not include a provision proposed by the Senate relating to the McAlpine Lock and Dam project.

The amended bill does not include a provision regarding crediting of non-Federal expenditures on the San Lorenzo River, California, project as proposed by the Senate.

The amended bill does not include a provision proposed by the Senate relating to the Missouri and Middle Mississippi Rivers Enhancement project.

The amended bill does not include a provision proposed by the Senate relating to the Nogales Wash, Arizona, project.

The amended bill does not include a provision proposed by the Senate relating to the Tucson Drainage Area, Arizona, project.

The amended bill does not include a provision proposed by the Senate relating to the Rural Utah (Environmental Infrastructure) project.

The amended bill does not include a provision proposed by the Senate relating to the Connecticut River Watershed Study, New Hampshire, Connecticut, Massachusetts and Vermont, project.

The amended bill does not include a provision proposed by the Senate relating to the Asian carp barriers on the Chicago Sanitary and Ship Canal, Illinois, project.

The amended bill does not include a provision proposed by the Senate relating to a funding limitation on the Modified Waters Deliveries, Florida, project.

TITLE II
DEPARTMENT OF THE INTERIOR
CENTRAL UTAH PROJECT
CENTRAL UTAH PROJECT COMPLETION
ACCOUNT

The amended bill includes a total of \$43,000,000 as proposed by both the House and Senate. Within the funds provided, \$40,404,000 is included for Central Utah project construction; \$976,000 for fish, wildlife, and recreation mitigation and conservation; and \$1,620,000 for program oversight and administration.

The amended bill also includes legislative language which allows up to \$1,500,000 to be used for administrative costs, as proposed by the Senate. This one-time increase in administrative expenses provides funding for costs associated with securing new office space and relocating the Commission's office in fiscal year 2008.

BUREAU OF RECLAMATION
WATER AND RELATED RESOURCES
(INCLUDING TRANSFERS OF FUNDS)

The amended bill includes a total of \$949,882,000 for Water and Related Resources, instead of \$871,197,000 as proposed by the House and \$950,106,000 as proposed by the Senate.

Reclamation is directed to conform to the following reprogramming guidelines:

The Bureau is permitted to transfer, without prior Congressional approval and without regard to percentage limitation, not more than \$5,000,000 per project to provide adequate funds for settled contractor claims, increased contractor earnings due to accelerated rates of operations, and real estate deficiency judgments, provided that such reprogramming is necessary to discharge legal obligations of the Bureau of Reclamation.

For each project within the Resources Management and Development category for

which \$2,000,000 or more is available at the beginning of the fiscal year, the Bureau is permitted to transfer to such project in that fiscal year no more than fifteen percent of the amount available at the beginning of the fiscal year for such project, without prior approval from the House and Senate Committees on Appropriations.

For each project within the Resources Management and Development category for which less than \$2,000,000 is available at the beginning of the fiscal year, the Bureau is permitted to transfer to such project no more than \$300,000 in that fiscal year without prior approval from the House and Senate Committees on Appropriations. A transfer is defined as any movement of funds into or out of a program, project or activity.

The Bureau is further permitted to transfer funds within the Facility Operation, Maintenance and Rehabilitation category without prior Congressional approval and without regard to percentage or dollar limitation.

The Bureau may not transfer, without prior Congressional approval, more than \$500,000 from either the Facilities Operation, Maintenance and Rehabilitation category or the Resources Management and Development category to any project in the other category. The Bureau is prohibited from using an internal reprogramming action to initiate, restart, or resume any program, project, or activity that does not receive a Congressional appropriation in fiscal year 2008.

Reclamation is directed to provide quarterly reports to the House and Senate Committees on Appropriation detailing all reprogrammings between projects, activities, or categories of funding.

Funding under this heading is intended to be used as outlined in the following table:

San Carlos Irrigation Project, Arizona.—Funds have been provided to initiate advance planning and environmental compliance for the San Carlos Irrigation Project.

Central Valley Project, American River Division, California.—Within funds provided, \$640,000 shall be available for the El Dorado temperature control device.

Central Valley Project, Friant Division, California.—The recommendation includes an additional \$984,000 for the Friant-Kern and Madera canals capacity improvements and an additional \$984,000 for the Semitropic Phase II groundwater banking.

Salton Sea Research Project, California.—The recommendation provides \$1,132,000 for the Salton Sea research project, including \$492,000 to continue environmental restoration efforts for the Alamo and New Rivers, and for other authorized pilot projects.

Southern California investigations program.—The recommendation provides \$1,073,000 for the Southern California investigations program, including \$394,000 for the Water Replenishment District regional groundwater monitoring program and \$492,000 to assist the Lake Arrowhead Community Services District to develop an integrated water resource plan.

Carlsbad Project, New Mexico.—Funding in addition to the budget request is included as follows: \$197,000 to assess the rehabilitation of radial gates at Sumner Dam, New Mexico, and \$738,000 for implementation of water salvage in partnership with the New Mexico Interstate Stream Commission under the Pecos River Settlement.

Middle Rio Grande Project, New Mexico.—Funding under this heading includes \$38,918,000 for the Middle Rio Grande project, \$20,325,000 for Resources Management and \$18,593,000 for Operations, Maintenance and Replacements. Within the \$20,325,000 for Resources Management, \$16,010,000 is included for the Collaborative Program and \$984,000 for the Silvery Minnow Sanctuary operations. Within the \$18,593,000 for Operations, Maintenance and Replacements, \$2,165,000 is included for further development of the Upper Rio Grande Water Operations Model and ESA Water conservation planning; \$492,000 for initial development of an integrated management plan in partnership with the U.S. Army Corps of Engineers; and \$1,968,000 to be transferred to the U.S. Geological Survey for stream gauge repair and development in New Mexico. The Bureau of Reclamation is encouraged to be transparent in its communication of the cost of administration of the Middle Rio Grande Endangered Species Collaborative Program and to implement project management improvements promptly to address the issues and recommendations of the non-Federal partners to the Collaborative Program. Further, the Bureau of Reclamation is also encouraged to work closely with the Middle Rio Grande Conservancy District and the U.S. Army Corps of Engineers to develop a rehabilitation plan for the levee system in the Middle Rio Grande.

Pick-Sloan Missouri Basin, Garrison Division Unit, North Dakota.—An additional \$48,000,000 has been provided for rural water projects. Of this amount, \$24,000,000 shall be expended for the following projects: \$9,840,000 for the Northwest Area Water Supply; \$492,000 for the Lakota Water Supply; \$2,952,000 for the South Central Regional Water District; \$984,000 for the Walsh Rural Water District; \$984,000 for the South Benson County/North Central Rural Water System; \$984,000 for the Traill Rural Water District; \$492,000 for the Upham/All Seasons Rural

Water System; \$1,968,000 for the Williston Water Treatment Plant; \$3,936,000 for the Southwest Pipeline; and \$1,368,000 for Garrison Water Treatment.

Northern Utah Investigations Program, Utah.—An additional \$491,000 is included for the Rural Water Technology Alliance.

Southern Utah Investigations Program, Utah.—The recommendation provides \$407,000 for the Southern Utah investigations program, including \$295,000 for the San Juan River water pipeline study.

Brackish groundwater national desalination research facility.—Of the \$5,805,000 provided under this heading, \$2,066,000 is provided to undertake operations and maintenance of the newly constructed Brackish Groundwater National Desalination Research Facility in Alamogordo, New Mexico; \$1,181,000 is provided to New Mexico State University for research activities undertaken at or associated with the Facility; and \$2,558,000 is provided to New Mexico State University to undertake a research program for development and commercialization of water treatment technology in collaboration with Federal agencies, national laboratories, State agencies, local agencies, industry, educational institutions or other water research entities.

Colorado River Basin Salinity Control Project, Title I.—In the fiscal year 2006 conference report (House Report 109-275), the Appropriations Committees expressed their concern that the Bureau of Reclamation was making excess releases of approximately 100,000 acre-feet of water per year from storage in Colorado River reservoirs to help meet the United States' Colorado River water quality obligations to Mexico. The excess releases are being made because Wellton-Mohawk Irrigation and Drainage District's agricultural return flows—that bypass the Colorado River and are discharged to the Cienega de Santa Clara in Mexico (bypass flows)—are not counted as part of the 1.5 million acre-feet of water that the United States is required to deliver annually to Mexico. Because the bypass flows are not counted, system storage from the Colorado River has been used to make up for the bypass flows. The Yuma Desalting Plant was originally constructed to treat the flows and return a portion of them to the river, thus reducing excess releases from Colorado River reservoirs.

The current drought and projected long-term water demands have heightened concern about this demand on the river system. Consequently, in fiscal year 2006, the Appropriations Committees indicated their support for Reclamation's ongoing public process to address this complex hydrologic problem, considering various methods of recovering or replacing the flows, including options that address potential impacts to wetlands in the Cienega de Santa Clara. Reclamation is encouraged to continue this stakeholder process. In fiscal year 2006, the Bureau of Reclamation was also directed to dedicate sufficient resources to the Yuma Desalting Plant so that one-third operational capacity may be achieved by the end of calendar year 2006. To date, the plant is not one-third operational, although Reclamation did conduct a demonstration run at one-tenth capacity for 90 days in 2007. The Appropriations Committees, once again, direct the Bureau of Reclamation, within the funds provided for the Colorado River Basin Salinity Control Project, title I, to dedicate sufficient funds to the Yuma Desalting Plant so that one-third operational capacity may be achieved by the end of calendar year 2007. The Bureau of Reclamation is also directed to provide the House and Senate Committees on Appropriations with a status report of the plant's operational status by no later than March 1, 2008. If the plant is not one-third operational by the end of calendar year 2007,

the report shall include an explanation as to why the Bureau of Reclamation has failed to comply with the Appropriations Committees' directive.

Drought Emergency Assistance.—The budget request is provided for this program. Within the funds provided, the Bureau of Reclamation is urged to provide full and fair consideration for drought assistance requests for the State of Hawaii.

Native American Affairs Program.—The Appropriations Committees are aware of the successful Sid Yates Scholarship Program, particularly at Arizona State University, which focuses on American Indian law students. Tribes, State and Federal agencies have all benefited from this highly leveraged program. The Bureau is encouraged to continue this program beyond the current student enrollment and look for innovative ways to enhance the program for future years.

Title XVI, Water Reclamation and Reuse.—Funding under this heading includes \$3,444,000 for this program. Within the funds provided, \$2,657,000 is included for the WaterReuse Foundation. These are available to support the Foundation's research priorities.

Water Conservation Field Services Program.—Funding under this heading provides \$6,510,000 for the Water Conservation Field Services Program. Within the amounts provided, Reclamation is urged to continue urban water conservation projects identified through the Metropolitan Water District of Southern California Innovative Conservation Program; industrial water efficiency surveys to assess opportunities to conserve water in industrial water use; and weather-based irrigation controller activities to speed distribution and acceptance of these landscape water efficiency devices.

Water 2025.—The dire drought the West is currently experiencing combined with an unprecedented number of water users and endangered species requirements and related needs, make water use efficiencies more critical than ever. Funding under this heading provides \$5,929,000 for this initiative as proposed by the administration. Funding is included to provide for continued efficiency and water improvements related to the Middle Rio Grande Conservancy District. A critical component of reducing tension among multiple water users is collaborative planning and joint operations. Within the funds provided, funds are provided for the Desert Research Institute to address water quality and environmental issues in ways that will bring industry and regulators to mutually acceptable answers.

CENTRAL VALLEY PROJECT RESTORATION FUND

The amended bill provides \$59,122,000 for the Central Valley Project Restoration Fund as proposed by the House instead of \$51,622,000 as proposed by the Senate. Legislation for the San Joaquin River Restoration fund was not enacted by Congress; therefore, the Appropriations Committees direct the \$7,500,000 in assumed transferred receipts to be expended as follows: Sacramento River Fish Screens, \$2,952,000; Trinity River Restoration, \$3,000,000; Anadromous Fish Screen Program, \$1,548,000.

The funds provided are intended to support the following activities, as delineated below:

Anadromous fish restoration program	\$4,500,000
Other Central Valley project impacts	1,500,000
Dedicated project yield	800,000
Flow fluctuation study	50,000
Restoration of riparian habitat and spawning gravel	1,000,000
Central Valley comprehensive assessment/monitoring program	300,000

Anadromous fish screen program	8,932,000
Sacramento fish screens	(2,952,000)
Refuge wheeling conveyance	8,800,000
Refuge water supply, facility construction	5,000,000
Ecosystem/water systems operations model	7,650,000
Water acquisition program	9,990,000
San Joaquin Basin action plan	2,800,000
Land retirement program ..	1,000,000
Clear Creek restoration	800,000
Trinity River restoration program	4,000,000
San Joaquin River Basin resource management initiative	2,000,000

Total, Central Valley project restoration fund 59,122,000

CALIFORNIA BAY—DELTA RESTORATION

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$40,098,000 for the California Bay-Delta Restoration program, as proposed by both the House and Senate. The funds provided are intended to support the following activities, as delineated below:

Science	\$3,000,000
Environmental water account	7,000,000
Storage program	11,770,000
Los Vaqueros	(3,270,000)
San Joaquin river basin study	(2,500,000)
Sites Reservoir	(3,000,000)
Shasta enlargement	(3,000,000)
Conveyance	7,000,000
Enlarged DMC Intertie w/ Cal Aqueduct Feasibility study	(1,400,000)
San Luis lowpoint feasibility study	(1,400,000)
Delta studies: through delta evaluation	(1,000,000)
Recirculation feasibility study	(1,000,000)
South Delta temporary barriers	(200,000)
Delta vision	(1,348,000)
Ecosystem restoration	3,000,000
Ecosystem restoration projects to be identified	(1,000,000)
Lower San Joaquin fish screens	(1,500,000)
Refuge water supply diversification	(500,000)
Water Use Efficiency	1,500,000
Water Quality	6,250,000
San Joaquin River salinity management	(4,250,000)
Contra Costa Water District alternative intake	(1,000,000)
Interagency ecological program	(1,000,000)
Planning and management activities	1,230,000
CALFED program management	(230,000)
Performance measures and program tracking	(1,000,000)

Total, California Bay-Delta Restoration 40,098,000

POLICY AND ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$58,811,000 for Policy and Administration as proposed by both the House and Senate.

ADMINISTRATIVE PROVISION

The amended bill includes a provision limiting the purchase of not to exceed 14 pas-

senger vehicles, as proposed by both the House and Senate.

TITLE II—GENERAL PROVISIONS

The amended bill includes a provision regarding the San Luis Unit and Kesterson Reservoir in California, as proposed by both the House and Senate.

The amended bill includes a provision prohibiting the use of funds for any water acquisition or lease in the Middle Rio Grande or Carlsbad Projects in New Mexico unless the acquisition is in compliance with existing state law and administered under state priority allocation as proposed by the Senate.

The amended bill modifies a provision proposed by the Senate regarding Drought Emergency Assistance.

The amended bill includes a provision concerning Water 2025 as proposed by the Senate.

The amended bill includes a provision regarding the Rio Grande Collaborative water operations team as proposed by the Senate.

The amended bill includes a provision concerning the project at Las Vegas Wash and Lake Mead, Nevada, as proposed by the Senate.

The amended bill modifies a provision concerning expended funds from the Desert Terminus Lakes program for the Truckee River Settlement Act as proposed by the Senate.

The amended bill modifies a provision concerning expended funds from the Desert Terminus Lakes program for a number of purposes within Nevada as proposed by the Senate.

The amended bill includes a provision extending the authorization of the Mni Wiconi project from 2008 to 2013 as proposed by the Senate.

The amended bill includes a provision regarding the Inland Empire regional recycling project in California.

The amended bill modifies a provision proposed by the Senate for a reporting requirement to the appropriate House and Senate Appropriations and authorizing Committees concerning changed land use determinations.

The amended bill includes a provision increasing the appropriations ceiling for the Indian Irrigation projects in the Pick-Sloan—Garrison Diversion Unit, North Dakota and South Dakota, as proposed by the Senate.

The amended bill includes a provision extending the authorization for water service contracts in Montana.

The amended bill includes a provision regarding the Southern California Desert Region Integrated Water and Economic Sustainability Plan.

The amended bill does not include a provision proposed by the Senate concerning operations of the Tularosa Basin National Desalination Research Facility.

TITLE III

DEPARTMENT OF ENERGY

The summary tables at the end of this title set forth the amended bill with respect to the individual appropriations, programs, and activities of the Department of Energy. Additional items in the amended bill are discussed below.

The allocations for specific projects and earmarks that were proposed in the separate House and Senate reports are superseded by the detailed allocations contained herein. Other programmatic guidance and reporting requirements identified in the separate House and Senate reports remain effective unless modified by this explanatory statement.

The amended bill provides \$24,675,025,000 for the Department of Energy in fiscal year 2008 to fund programs in its five primary mission areas: science, energy, environment,

nuclear non-proliferation and national security, instead of \$25,243,119,000 as proposed by the House and \$25,897,985,000 as proposed by the Senate.

PROJECT MANAGEMENT

The Department of Energy is directed to manage all projects in excess of \$100,000,000 total cost in full compliance with DOE Management Order 413.3A.

REPROGRAMMING REQUIREMENTS

The Department of Energy is directed to operate in a manner fully consistent with the following reprogramming guidelines. A reprogramming request must be submitted to the Committees on Appropriations for consideration before any implementation of a reorganization proposal which includes moving previous appropriations between appropriation accounts. The Department is directed to inform the Committees promptly and fully when a change in program execution and funding is required during the fiscal year. To assist the Department in this effort, the following guidance is provided for programs and activities funded in the Energy and Water Development and Related Agencies Appropriations Act. The Department is directed to follow this guidance for all programs and activities unless specific reprogramming guidance is provided for a program or activity.

Definition.—A reprogramming includes the reallocation of funds from one activity to another within an appropriation, or any significant departure from a program, project, activity, or organization described in the agency's budget justification as presented to and approved by Congress. For construction projects, a reprogramming constitutes the reallocation of funds from one construction project identified in the justifications to another project or a significant change in the scope of an approved project.

Any reallocation of new or prior year budget authority or prior year deobligations must be submitted to the Committees in writing and may not be implemented prior to approval by the Committees on Appropriations.

ENERGY EFFICIENCY AND RENEWABLE ENERGY

The amended bill provides \$1,739,541,000 for Energy Efficiency and Renewable Energy (EERE) programs, instead of \$1,873,844,000 as proposed by the House, and \$1,715,551,000 as proposed by the Senate.

Hydrogen Technology.—Funding under this heading in the amended bill includes \$213,000,000 for hydrogen technology, the same as the budget request. Within available funds, the Department is directed to fund research on solid oxide fuel cells for small-to-medium scale applications.

Biomass and Biorefinery Systems R&D.—Funding under this heading in the amended bill includes \$200,000,000 for integrated research and development on biomass and biorefinery systems, an increase of \$20,737,000 over the budget request for additional biomass research solicitations. The Department is directed to include algae as a potential feedstock in its biomass research and development.

Solar Energy.—Funding under this heading in the amended bill provides \$170,000,000 for solar energy systems, an increase of \$21,696,000 over the budget request, to include \$138,000,000 for photovoltaic (PV) energy systems, \$30,000,000 for concentrating solar power, and \$2,000,000 for solar heating and lighting. The agency should, within available funds, accelerate the development and adoption of a solar PV rating system, and the demonstration of thermo-chemical processes in conjunction with high-temperature solar facilities for hydrogen production.

Wind Energy.—Funding under this heading in the amended bill includes \$50,000,000 for

wind energy systems, an increase of \$9,931,000 over the budget request. The increase is to support integration of wind power and other renewable sources into the electricity grid.

Geothermal Technology.—Funding under this heading in the amended bill includes \$20,000,000, an increase of \$20,000,000 over the budget request, for deployment of large-scale enhanced geothermal systems, to include accelerating the development of subsurface technologies, including geological and geophysical data collection and synthesis.

Water Power Energy R&D.—Funding under this heading in the amended bill provides \$10,000,000, an increase of \$10,000,000 over the budget request, for research on conventional hydropower technologies and innovative waterpower technologies, such as thermal and wave technologies, for ocean, tidal and instream-based generation.

Vehicle Technologies.—Funding under this heading in the amended bill provides \$215,000,000 for vehicle technologies, an increase of \$38,862,000 over the budget request, to include \$95,000,000 for hybrid electric systems, an increase of \$14,336,000 over the request for advanced battery storage technology research, development and demonstration for electric, hybrid-electric and plug-in hybrid vehicles. The Department is directed to fund \$45,000,000 for advanced combustion engine research and development, \$40,000,000 for materials technology, \$18,000,000 for fuels technology, and \$17,000,000 for technology integration. The agency should within available funds competitively bid an award for the Advanced Vehicle Testing Activity within the FreedomCAR and Vehicle Technologies Program to independently test and evaluate all vehicles developed in the upcoming plug-in hybrid electric vehicle demonstration. The Appropriations Committees support the lightweight materials technology research and development on advanced high-strength steels to reduce the weight of commercial and passenger vehicles.

Building Technologies.—Funding under this heading in the amended bill provides \$110,000,000 for building technologies, an increase of \$23,544,000 over the budget request. The Department is directed to fund \$10,000,000 of this increase for the residential and commercial building technologies program, \$5,000,000 for solid state lighting, and \$8,544,000 for equipment standards and analysis.

Industrial Technologies.—Funding under this heading in the amended bill includes \$65,000,000 for industrial technologies, an increase of \$19,002,000 over the budget request. The Office of EERE should reconstitute a distributed energy research and development program, and direct \$10,000,000 of the increase for the advanced reciprocating engines system program and \$5,000,000 for the combined heat and power program. The agency should, within available funds, provide no less than \$3,700,000 for steel in the industries (specific) program, and \$3,000,000 for the information technology industry, from chip scale to data centers.

Federal Energy Management Programs.—Funding under this heading in the amended bill provides \$20,000,000 for the Federal Energy Management Programs, an increase of \$3,209,000 over the budget request.

Facilities and Infrastructure.—Funding under this heading in the amended bill provides \$76,876,000 for the renewable energy Facilities and Infrastructure account, an increase of \$69,144,000 over the budget request. This amount includes \$6,982,000 for operations and maintenance of the National Renewable Energy Laboratory (NREL) in Golden, Colorado, the same as the budget request, an increase of \$6,894,000 for South Table Mountain infrastructure, an increase of \$8,000,000 for NREL solar equipment recapitalization, and an increase of \$55,000,000 to begin the NREL Energy Systems Integration Facility.

Program Support.—Funding under this heading in the amended bill provides \$10,900,000 for Program Support, a decrease of \$2,381,000 below the budget request, but the same as fiscal year 2007 levels. Within available funds, the Office of EERE should establish a FACA-chartered Federal Advisory Council to advise the Office of EERE for Finance, Investment and Technology Deployment.

Program Direction.—Funding under this heading in the amended bill provides \$105,013,000 for Program Direction, the same as the budget request.

Federal Energy Assistance Programs.—Funding under this heading in the amended bill provides a total of \$473,752,000 for federal energy assistance programs, instead of \$314,947,000 as proposed by the House and \$398,575,000 as proposed by the Senate. The details of these accounts are as follows:

Weatherization Assistance.—Funding under this heading in the amended bill provides

\$224,758,000 for weatherization assistance program grants, an increase of \$85,308,000 over the budget request, and \$4,550,000 for training and technical assistance, the same as the budget request. The funds provided for federal technical assistance and training are intended to be used exclusively to support the effective delivery of weatherization services as set forth in statute and applicable regulations. Any change in program implementation should be proposed to Congress in the Department's budget submission and not implemented before congressional approval is obtained.

International Renewable Energy Program.—No funds are provided for the International Renewable Energy Program, the same as the budget request.

Asia Pacific Initiative.—No funds are provided for the Asia Pacific Initiative, a decrease of \$7,500,000 below the budget request.

Tribal Energy Activities.—Funding under this heading in the amended bill provides \$6,000,000 for tribal energy activities, an increase of \$3,043,000 over the budget request for additional tribal energy projects.

Renewable Energy Production Incentive.—Funding under this heading in the amended bill provides \$5,000,000 for the Renewable Energy Production Incentive, an increase of \$54,000 over the budget request.

State Energy Program.—Funding under this heading in the amended bill provides \$44,500,000 for the State Energy Program, a decrease of \$1,001,000 below the budget request, to include \$10,000,000 for competitive energy projects.

Congressionally Directed Projects.—Funding under this heading in the amended bill provides \$188,944,000 for Congressionally directed projects, for the purposes of research, development, and demonstration of energy efficiency or renewable energy technologies or programs. The agency should remind recipients that statutory cost sharing requirements may apply to these projects. The fiscal year 2006 Energy and Water Development Conference Report (P.L. 109-103), included language within the Wind Energy program of Energy Efficiency and Renewable Energy account directing \$750,000 for the Tower Power Project. Because the project did not come to fruition, the agency should redirect the remaining \$742,500 of prior funds from the Tower Power Project to fund the University of Maryland Energy Research Center.

¹ REDIRECTION OF PREVIOUSLY APPROPRIATED FUNDS

ELECTRICITY DELIVERY AND ENERGY
RELIABILITY

The amended bill provides \$140,000,000 for the Office of Electricity Delivery and Energy Reliability, instead of \$134,161,000 as proposed by the House, and \$168,437,000 as proposed by the Senate.

Program Direction.—Funding under this heading in the amended bill provides \$17,765,000 for electricity delivery and energy reliability program direction, an increase of \$378,000 over the budget request.

Congressionally Directed Projects.—Funding under this heading in the amended bill pro-

vides \$24,685,500 for Congressionally directed projects, for the purposes of research, development, and demonstration of energy technologies or programs. The agency should remind recipients that statutory cost sharing requirements may apply to these projects.

NUCLEAR ENERGY (INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$970,525,000 for nuclear energy programs, instead of \$759,227,000 as proposed by the House, and \$720,558,000 as proposed by the Senate. The total amount available for Nuclear Energy programs and facilities is \$1,046,474,000, including \$75,949,000 of costs allocated to the 050 budget function (i.e. defense activities) for Idaho Site-wide and Security activities. The amended bill includes a provision that authorizes and funds the Mixed Oxide Fuel Fabrication facility in the Nuclear Energy appropriation, as proposed by the House. The amended bill includes a provision that codifies the application of DOE Order 413.3A to MOX construction management.

University Reactor Fuel Assistance and Support.—Funding under this heading in the amended bill provides no direct funds for grants and fellowships that support nuclear science and engineering education at the Department of Energy. DOE annually requests no funding for education assistance, and the Congress sees fit every year to restore it. For fiscal year 2008, the funding for the university nuclear education assistance program is provided in the Nuclear Regulatory Commission appropriation account to provide a sustainable education assistance program.

Nuclear Power 2010.—Funding under this heading in the amended bill provides \$135,000,000 for Nuclear Power 2010, an increase of \$21,000,000 over the budget request to accelerate the preparation and approval of combined operating licenses.

Generation IV Nuclear Energy Systems Initiative.—Funding under this heading in the amended bill provides \$116,000,000 for Generation IV nuclear energy systems. The Department is directed to accelerate work on the Next Generation Nuclear Plant (NGNP). Of this amount \$74,000,000 is for the NGNP project, of which no less than \$38,000,000 is for establishing a reference conceptual design and baseline cost. Funding under this heading in the amended bill provides \$36,000,000 for establishing a licensing strategy and an aggressive pre-application program with the Nuclear Regulatory Commission that includes: developing substantial industry involvement; advancing and testing key enabling technologies; developing a cost-and-risk sharing concept for the NGNP; and establishing a project plan, vendor team and international cooperation framework. The Appropriations Committees emphasize the importance of developing a strong private sector-based partner for the NGNP, and provide \$26,000,000 for advancing critical-path enabling gas reactor technology including materials testing and qualification and fuel development, testing and qualification, \$9,000,000 to continue work with Russia on gas reactors, and \$7,000,000 for deep burn (actinide management) characteristics of gas-cooled reactors.

Nuclear Hydrogen Initiative.—Funding under this heading in the amended bill provides \$10,000,000 for the nuclear hydrogen initiative.

Fuel Cycle Research and Facilities.—Funding under this heading in the amended bill provides \$462,349,000 for fuel cycle research and facilities, and is intended to be used as follows: \$233,849,000 for the construction of the Mixed-Oxide Fuel Fabrication (MOX) facility, and \$47,500,000 for MOX facility other project costs, for a total of \$281,349,000 of new budget authority for the MOX project at the Savannah River Site. The Appropriations Committees are concerned about the management of the MOX fuel fabrication facility, and the amended bill includes a provision that codifies the application of DOE Order 413.3A to MOX construction manage-

ment. The Appropriations Committees direct the Government Accountability Office to monitor the construction and management of the MOX facility, and report to the Committees on a quarterly basis on the progress of the fuel fabrication facility, regarding scope, cost and schedule changes and performance. The Appropriations Committees direct the Department to provide the Committees a revised cost baseline and schedule for the MOX facility based on the level of funding provided by the Committees. The Department is directed to utilize \$115,000,000 of prior-year unobligated balances for MOX in the nuclear energy research and development program, available for transfer from the Defense Nuclear Nonproliferation account.

Funding under this heading in the amended bill provides \$181,000,000 for the Advanced Fuel Cycle Initiative (AFCI). Of this amount, \$151,000,000 is for continued research and development on spent fuel recycling and advanced reactor design, and no funds are provided for facility construction for technology demonstration or commercialization. The Department is directed to make available 50 percent of the AFCI funds for research and development in an agency-wide solicitation for universities, national laboratories, and commercial entities. Funding under this heading in the amended bill provides \$15,000,000 for hot-cell upgrades at Los Alamos National Laboratory, and \$15,000,000 at Oak Ridge National Laboratory.

Space and defense infrastructure.—Funding under this heading in the amended bill provides \$30,650,000 for space and defense infrastructure.

Medical isotopes infrastructure.—Funding under this heading in the amended bill provides \$14,964,000 for medical isotopes infrastructure.

Research reactor infrastructure.—Funding under this heading in the amended bill provides \$2,947,000 for fresh reactor fuel and disposal of spent fuel for university reactors.

Oak Ridge nuclear infrastructure.—No funds are provided in the nuclear infrastructure account for Oak Ridge National Laboratory (ORNL). Instead, funding is provided within the Advanced Fuel Cycle Initiative.

Idaho National Laboratory (INL) operations and infrastructure.—Funding under this heading in the amended bill provides \$117,000,000 for INL operations and infrastructure, an increase of \$9,837,000 over the budget request for the Advanced Test Reactor national scientific user facility infrastructure transition activities and experiments.

Idaho site-wide safeguards and security.—Funding under this heading in the amended bill is provided as a transfer of \$75,949,000 from the Other Defense Activities account to the Nuclear Energy program.

Program Direction.—Funding under this heading in the amended bill provides a total funding level for program direction of \$81,615,000, to accommodate federal personnel associated with the increased activities in the Nuclear Energy program.

Congressionally Directed Projects.—The agency should, within available funds, provide \$4,000,000 for Congressionally directed projects, for the purposes of research, development, and demonstration of nuclear energy technologies or programs: CVD single-crystal diamond optical switch (MD) \$1,000,000 and Technologies Ventures Corporation for technology transfer activities (NM) \$3,000,000. The agency should remind recipients that statutory cost-sharing requirements may apply to these projects.

LEGACY MANAGEMENT

The amended bill provides \$34,183,000 for the activities of the Office of Legacy Management. The Appropriations Committees do

not support the consolidation of Legacy Management activities within the Non-Defense Environmental Management account, and continue the Office of Legacy Management as a stand-alone appropriation.

CLEAN COAL TECHNOLOGY

(INCLUDING DEFERRAL AND TRANSFER OF FUNDS)

The Revised Continuing Appropriations Resolution for Fiscal Year 2007 (Public Law 110-5) deferred \$257,000,000 in unobligated Clean Coal Technology balances to fiscal year 2008. The amended bill transfers \$166,000,000 to the Fossil Energy Research and Development account in fiscal year 2008, and recommends the deferral of \$149,000,000 in Clean Coal Technology balances until fiscal year 2009, as proposed by the Senate, and not the rescission of the balances in fiscal year 2008 as proposed by the House.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT (INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$750,000,000 for Fossil Energy Research and Development programs, instead of \$708,801,000 proposed by the House and \$808,113,000 as proposed by the Senate. The amended bill includes a provision that permits the hire of passenger vehicles and other items as proposed by the House. The amended bill includes provisions proposed by the Senate that would encourage participation in the Clean Coal Power Initiative Round III, addressing cost increases, cost sharing, and repayment. The amended bill includes a provision that affirms Round III of the Clean Coal Power Initiative must focus on demonstrating advanced coal-based technologies that capture and sequester carbon, or put carbon dioxide emissions to beneficial reuse. The House bill contained no similar provisions. The amended bill includes provisions as proposed by the Senate that permit up to 4 percent of National Energy Technology Laboratory (NETL) program direction funds to be used for DOE activities not in the Fossil Energy account, and allow Federal employees performing research and development at NETL to be funded from any appropriate program account. The amended bill does not include a provision proposed by the Senate that reduces overall cost-sharing requirements for the Clean Coal Power Initiative as this is redundant with the Energy Policy Act of 2005 (EPA).

Report requirement.—The Department is directed to submit to the House and Senate Committees on Appropriations a report on liquefied natural gas (LNG), as outlined in the House report, by December 1, 2008, which is to be funded in Advanced Research within Fuels and Power Systems.

Clean Coal Power Initiative.—Funding under this heading in the amended bill includes \$70,000,000 for the Clean Coal Power Initiative (CCPI), a decrease of \$3,000,000 below the budget request.

FutureGen.—Funding under this heading in the amended bill includes \$75,000,000 for FutureGen, \$33,000,000 below the budget request due to unused prior year funds. The Appropriations Committees are concerned about maintaining adequate funding for the core fossil energy research, development, and demonstration programs. Should the FutureGen program continue to maintain significant balances of unused funds or the project not continue, the Department is directed to submit a request to the Appropriations Committees for approval to reprogram the balances for other coal research and development activities.

Fuels and Power Systems.—Funding under this heading in the amended bill includes \$352,912,000 for Fuels and Power Systems, an increase of \$107,310,000 over the budget request. Within the funds provided, \$36,412,000

is for Innovations of Existing Plants, an increase of \$36,412,000 over the budget request to include carbon capture, innovative CO₂ compression, energy/water technologies or beneficial uses of CO₂; \$54,000,000 for Advanced Integrated Gasification Combined Cycle, an increase of \$4,000,000 over the budget request; and \$24,000,000 for Advanced Turbines, an increase of \$2,000,000 over the budget request. Funding under this heading provides \$120,000,000 for Carbon Sequestration, an increase of \$40,923,000 over the budget request. The Department is encouraged to study the CO₂ accelerated growth algae technology to recycle carbon and produce fuels. Funding under this heading includes \$25,000,000 for Fuels, an increase of \$15,000,000 over the budget request for coal-biomass and hydrogen fuels research; \$56,000,000 for Fuel Cells, a decrease of \$6,025,000 below the budget request; and \$37,500,000 for Advanced Research, an increase of \$15,000,000 above the

budget request, of which \$8,000,000 is to support the liquefied natural gas report.

Natural gas technologies.—Funding under this heading in the amended bill provides \$20,000,000 for natural gas technologies, an increase of \$20,000,000 over the budget request, to include \$15,000,000 for methane gas hydrates research and development, and \$5,000,000 for effective environmental production programs.

Petroleum-oil technologies.—Funding under this heading in the amended bill provides \$5,000,000 for petroleum-oil technologies, an increase of \$5,000,000 over the budget request to include \$1,500,000 for the Stripper Well Consortium, \$1,200,000 for the Risk Based Data Management System, and \$2,300,000 for the unconventional and enhanced oil recovery programs.

Program direction.—Funding under this heading in the amended bill provides \$149,962,000 for program direction, an in-

crease of \$19,989,000 over the budget request for shortfalls in the budget request to cover cost escalations and other needs at various NETL sites.

Other.—Funding is provided in the amended bill for the following activities: \$13,000,000 for Plant and Capital Equipment; \$9,570,000 for Fossil Energy Environmental Restoration; \$656,000 for Special Recruitment Programs; and \$5,000,000 for Cooperative Research and Development. No funds have been provided for Section 964 of EPA Act as proposed by the Senate.

Congressionally Directed Projects.—Funding under this heading in the amended bill provides \$48,900,000 for Congressionally directed projects, for the purposes of research, development, and demonstration of coal and other fossil energy related technologies or programs. The Department should remind recipients that statutory cost-sharing requirements may apply to these projects.

NAVAL PETROLEUM AND OIL SHALE RESERVES

The amended bill provides \$20,472,000 for the operation of the Naval Petroleum and Oil Shale Reserves, instead of \$17,301,000 as proposed by the House and \$21,301,000 as proposed by the Senate. Within available funds, \$1,441,000 is directed for the Naval Petroleum Reserve #3 and \$2,000,000 for Los Alamos National Laboratory to support in basin scale environmental impacts for oil shale production.

STRATEGIC PETROLEUM RESERVE

The amended bill provides \$188,472,000 for the Strategic Petroleum Reserve, a decrease of \$143,137,000 below the budget request, instead of \$163,472,000 as proposed by the House and the Senate. The Department is directed to use \$25,000,000 to acquire land at a new site consistent with the budget request. The Appropriations Committees provide for the operation of the Strategic Petroleum Reserve, but do not support the expansion of the reserve to 1.5 billion barrels.

NORTHEAST HOME HEATING OIL RESERVE

The amended bill provides \$12,448,000 for the Northeast Home Heating Oil Reserve, instead of \$5,325,000 as proposed by the House and \$12,825,000 as proposed by the Senate. The increase of \$7,123,000 over the budget request is to accommodate increased costs for storage leases.

ENERGY INFORMATION ADMINISTRATION

The amended bill provides \$96,337,000 for the Energy Information Administration instead of \$105,095,000 as proposed by the House and the Senate. Within available funds, \$1,000,000 is provided for the National Academy of Sciences to support the International Institute for Advanced Systems Analysis's Global Energy Assessment.

NON-DEFENSE ENVIRONMENTAL CLEANUP

The amended bill provides \$183,937,000 for Non-Defense Environmental Cleanup instead of \$286,041,000 as proposed by the House or \$195,437,000 as proposed by the Senate. Funding under this heading in the amended bill includes an increase of \$5,000,000 for the acceleration of the decontamination and decommissioning of the graphite reactor at Brookhaven National Laboratory.

The amended bill does not support the consolidation of Legacy Management activities within the Non-Defense Environmental Management account. The amended bill includes a provision regarding the cleanup requirements at the Energy Technology and Engineering Center at the Santa Susana Field Laboratory, as proposed by the Senate.

Energy Technology and Engineering Center.—The Appropriations Committees are aware of the suspension of the Department's deactivation and decommissioning activities at the Energy Technology and Engineering Site, Santa Susana Field Laboratory, in Simi Valley, California. The Appropriations Committees are very concerned with the need to assure thorough site characterization and cleanup and will be monitoring the Department's actions closely.

Internal reprogramming authority.—The agency should follow the internal reprogramming authority as directed in the House report, omitting Legacy Management as a control point.

Economic development.—None of the Non-Defense Environmental Management funds, including those provided in the Non-Defense Environmental Cleanup and Uranium Enrichment Decontamination and Decommissioning Fund, are available for economic development activities.

Report requirement.—The Appropriations Committees direct the Department to provide a report within 180 days of enactment of this Act on the annual funding requirements

needed to complete remediation of the Moab uranium mill tailings site and removal of the tailings to the Crescent Junction site in Utah no later than the year 2019.

URANIUM ENRICHMENT DECONTAMINATION AND DECOMMISSIONING FUND

The amended bill provides \$627,876,000 for activities funded from the Uranium Enrichment Decontamination and Decommissioning Fund, instead of \$618,759,000 proposed by the House and \$573,509,000 proposed by the Senate. Funding under this heading includes an increase of \$54,367,000 over the budget request for decontamination and decommissioning activities at the Oak Ridge East Tennessee Technology Park K-25 process building. Funding under this heading provides the budget request for cleanup at Paducah and Portsmouth facilities. The amended bill also provides \$20,000,000 for the Title X uranium and thorium reimbursements program, the same as the budget request and the House, and instead of no funds as proposed by the Senate.

SCIENCE

The amended bill provides \$4,055,483,000 for Science instead of \$4,514,082,000 as proposed by the House and \$4,496,759,000 as proposed by the Senate. Funds previously provided for the Coralville, Iowa, project in the Consolidated Appropriations Act, 2004, are rescinded.

High Energy Physics.—Funding under this heading in the amended bill includes \$694,638,000 for High Energy Physics. Within funding for Proton Accelerator-Based Physics, no funds are provided for the NoVA activity in Tevatron Complex Improvements. Within Advanced Technology R&D, in the current constrained environment and without a Critical Decision 0 by the Department, only \$15,000,000 is provided for International Linear Collider R&D and \$5,455,000 for Superconducting RF R&D.

The Committees on Appropriations appreciate the Beyond Einstein Program architecture report by the National Research Council and support its recommendations. Accordingly, the Department of Energy is directed to proceed jointly with NASA to conduct and complete an open, competitive selection of the science investigation and payload for the Joint Dark Energy Mission (JDEM) during 2008. This selection should use the NASA Announcement of Opportunity process and have as its primary science selection criterion the achievement of improved understanding of dark energy and include improved understanding in astrophysics generally as a secondary criterion. The selection should be made jointly by one official each from NASA and DOE. If DOE and NASA cannot agree on a joint approach for mission implementation, DOE should provide no future year support for this activity or for other space science satellite missions. The Department is directed to continue support for the Super Nova Acceleration Probe during fiscal year 2008.

The control level is at the High Energy Physics level.

Nuclear Physics.—Funding under this heading in the amended bill includes \$436,700,000 for Nuclear Physics. Within Nuclear Physics, construction is funded at \$17,700,000, the same as the request.

Biological and Environmental Research.—Funding under this heading in the amended bill includes \$549,397,000 for Biological and Environmental Research. This area of the Office of Science encompasses two distinct research efforts: Biological Research, using biology to address energy production and environmental remediation, and Climate Change Research. The Department is directed to request funds for Biological Research and Climate Change Research as sepa-

rate subaccounts in fiscal year 2009 and future fiscal years.

Biological Research.—Funding under this heading in the amended bill includes \$411,273,000 for Biological Research, including \$31,500,000 for Medical Applications and Measurement Science. The increase of \$17,500,000 is for nuclear medicine research. All of the added funds must be awarded competitively in one or more solicitations that include all sources—universities, the private sector, and government laboratories—on an equal basis. The Committees on Appropriations support the language contained in the Senate report on Advanced Materials Testing and Low Dose Research. The Committees on Appropriations also note that diagnostics are currently in development between the University of New Mexico (UNM) and Los Alamos National Laboratory utilizing the unique capabilities of Los Alamos National Laboratory at the IPF at LANSCE and the radiopharmaceutical expertise of UNM at the Center for Isotopes in Medicine.

Climate Change Research.—Funding under this heading in the amended bill includes \$138,124,000 for Climate Change Research, the same as the request.

Basic Energy Sciences.—Funding under this heading in the amended bill includes \$1,281,564,000 for Basic Energy Sciences. Within Basic Energy Sciences, \$15,000,000 is provided for the Experimental Program to Stimulate Competitive Research (EPSCoR).

Reprogramming.—For purposes of reprogramming during fiscal year 2008, the Department may allocate funding among all operating accounts within Basic Energy Sciences, consistent with the reprogramming guidelines outlined in House Report 110-185.

Nanoscale Science Research Centers.—The Committees on Appropriations support ongoing research at the Nanoscale Science Research Centers and Manuel Lujan Jr. Neutron Scattering Center.

Construction.—Given current budget constraints, funding under this heading in the amended bill includes less funding than requested for two projects where the start of major construction activity can be delayed.

Advanced Scientific Computing Research.—Funding under this heading in the amended bill includes \$354,398,000 for Advanced Scientific Computing Research. Within Advanced Scientific Computing Research, \$19,500,000 is included for the Office of Science to continue the Department's participation in the Defense Advanced Research Projects Agency High Productivity Computing Systems partnership and an increase of \$7,700,000 is included for the Oak Ridge Leadership Computing Facility to maintain the planned budget and cost schedule.

The Office of Science and the National Nuclear Security Administration (NNSA) are directed to establish the Institute for Advanced Architectures and Algorithms with Centers of Excellence at Sandia National Laboratories and Oak Ridge National Laboratory. These Centers will execute a national program involving industry, universities and national laboratories that is focused on technologies to sustain the U.S. leadership in high performance computing. The NNSA ASC and Office of Science ASCR programs will jointly fund the program and provide direction needed to support the goal of developing exascale computing for the Nation.

Fusion Energy Sciences.—Funding under this heading in the amended bill includes \$289,180,000 for Fusion Energy Sciences. Within Fusion Energy Sciences, \$162,910,000 is provided for Science, \$93,504,000 for U.S. Facility Operations, an increase of \$6,000,000 to be used to increase facility operations at the three U.S. user facilities (i.e., the DIII-D, Alcator C-Mod, and National Spherical

Torus Experiment) \$22,042,000 for Enabling R&D, an increase of \$1,225,000 for materials research, \$0 for the U.S. contribution to ITER, and \$10,724,000 for Enabling R&D for ITER. Funding under this heading in the amended bill includes \$12,281,000 for High Energy Density Physics. Funding may not be reprogrammed from other activities within Fusion Energy Sciences to restore the U.S. contribution to ITER.

Science Laboratories Infrastructure.—Funding under this heading in the amended bill includes \$65,456,000 for infrastructure activities. Within Science Laboratories Infrastructure, \$1,520,000 is provided to continue payments in lieu of taxes for Argonne and Brookhaven National Laboratories, \$5,079,000 for Oak Ridge Laboratory landlord expenses, and \$8,828,000 for excess facilities disposition, as requested. Also included is \$50,029,000 for MEL-001 Multiprogram energy laboratory infrastructure projects at various locations.

The Committees on Appropriations continue to be supportive of the Physical

Sciences Facility at the Pacific Northwest National Laboratory, and \$25,000,000 for this facility is included in funding provided for MEL-001. This amount is \$10,000,000 below the request for this facility in the Office of Science. The Department is directed to increase the future year funding contribution of the Office of Science for this facility by \$10,000,000 to restore the baseline funding contribution from the Office of Science. To keep this project on schedule, \$25,000,000 is included in Defense Nuclear Nonproliferation.

The Committees on Appropriations understand that the modernization of Laboratory 4500 at Oak Ridge National Laboratory can be accomplished more efficiently than originally proposed in the fiscal year 2007 budget request. The Department is directed to use the existing \$2,000,000 of PED funding, plus the requested construction funding under the MEL-001 infrastructure project, for the de-

sign and construction of a new multi-purpose laboratory to replace 4500N.

Safeguards and Security.—Funding under this heading in the amended bill includes \$76,592,000 for Safeguards and Security, the same as the request.

Science Workforce Development.—Funding under this heading in the amended bill includes \$8,118,000 for Science Workforce Development.

Science Program Direction.—Funding under this heading in the amended bill includes \$179,412,000 for Science Program Direction including \$6,644,000 to support the New Brunswick Laboratory.

Funding Adjustments.—Funding under this heading in the amended bill includes an offset of \$5,605,000 for the safeguards and security charge for reimbursable work.

Congressionally Directed Projects.—Funding under this heading in the amended bill includes \$125,633,000 for Congressionally Directed Projects.

NUCLEAR WASTE DISPOSAL

The amended bill provides \$189,000,000 for Nuclear Waste Disposal instead of \$202,454,000 as proposed by the House and \$204,054,000 as proposed by the Senate. The amended bill also provides \$201,000,000 for Defense Nuclear Waste Disposal, \$91,046,000 less than the request. This provides a total of \$390,000,000 for the repository program in fiscal year 2008.

Funding under this heading in the amended bill provides funds for affected elements of state and local government including \$1,600,000 for the cooperative agreement between the Department of Energy and Inyo County, California.

The Department is directed to develop a plan to take custody of spent fuel currently stored at decommissioned reactor sites to both reduce costs that are ultimately borne by the taxpayer and demonstrate that DOE can move forward in the near-term with at least some element of nuclear waste policy. The Department should consider consolidation of the spent fuel from decommissioned reactors either at an existing federal site, at one or more existing operating reactor sites, or at a competitively-selected interim storage site. The Department should engage the sites that volunteered to host Global Nuclear Energy Partnership facilities as part of this competitive process.

The control level is at the Nuclear Waste Disposal account level, so the Department may move funding between the repository program and program direction subaccounts.

ENVIRONMENT, SAFETY AND HEALTH

Following the specific request from the Department of Energy for congressional approval to transfer appropriations among accounts as part of the implementation of the Department's reorganization associated with the formation of the Office of Health, Safety and Security, the Committees on Appropriations have approved the request and provided funds formerly included in Environment, Safety and Health in the accounts for which they were requested. Consequently, the amended bill provides no funds for Environment, Safety and Health instead of \$31,625,000 as proposed by the House.

INNOVATIVE TECHNOLOGY LOAN GUARANTEE PROGRAM

The amended bill restates loan guarantee authority as provided in the Energy Policy Act of 2005, and makes this authority available until September 30, 2009. The Department is directed to make no authority available in excess of \$38,500,000,000, to be allocated as follows: \$18,500,000,000 of loan guarantees are for nuclear power facilities; \$6,000,000,000 of loan guarantees are for coal-based power generation and industrial gasification activities at retrofitted and new facilities that incorporate carbon capture and sequestration or other beneficial uses of carbon; \$2,000,000,000 of loan guarantees are for advanced coal gasification; \$10,000,000,000 of loan guarantees are for renewable and/or energy efficient systems and manufacturing, and distributed energy generation, transmission and distribution; and \$2,000,000,000 of loan guarantees are for advanced nuclear facilities for the "front-end" of the nuclear fuel cycle.

Prior to the issuance of a loan guarantee solicitation, the Department of Energy is directed to submit a loan guarantee implementation plan within 45 days of a solicitation, defining the award levels and eligible technologies, to the Committees on Appropriations for approval. No funds can be made available for the execution of a loan guarantee solicitation until a plan is submitted and approved. Should the plan change after approval by the Committees, it must be submitted again for approval by the Commit-

tees. Funding under this heading in the amended bill includes \$5,500,000 for administrative expenses for the loan guarantee office, instead of \$2,390,000 as proposed by the House, and \$8,390,000 as proposed by the Senate. The amended bill includes a provision that enables the Department to credit loan guarantee fees as offsetting collections.

DEPARTMENTAL ADMINISTRATION
(INCLUDING TRANSFER OF FUNDS)

The amended bill provides a net appropriation of \$149,778,000 for Departmental Administration expenses. This amount includes a transfer of \$99,000,000 from Other Defense Activities for defense-related Departmental Administration activities and the Congressional Budget Office estimate of \$161,818,000 for revenues. Specific funding levels for each organization funded under the Departmental Administration account are detailed in the accompanying table. The amended bill provides representation expenses not to exceed \$30,000 instead of \$5,000 as proposed by the House, and \$35,000 as proposed by the Senate.

DOE pension and medical benefits.—The Appropriations Committees reaffirm the House report language regarding the revised contract reimbursement policy concerning pension and medical benefits. A final report by the Government Accountability Office (GAO) assessing the adequacy of the Department's analysis of pension and medical liabilities is due to the Appropriations Committee by April 1, 2008.

Management.—Funding under this heading in the amended bill provides \$65,439,000 for the Management account, an increase of \$1,500,000 above the budget request for the Office of Management to contract with the National Academy of Public Administration (NAPA), as specified in the House report, for a review of procurement and contracting practices.

Chief Financial Officer.—Funding under this heading in the amended bill provides \$42,260,000 for the Office of the Chief Financial Officer, an increase of \$2,000,000 over the budget request to complete financial systems upgrades and training.

Loan Guarantee Office.—No funds are provided for the loan guarantee office within the Departmental Administration account. Funding in the amount of \$5,500,000 is provided for the loan guarantee office as a separate appropriation.

General Counsel.—Funding under this heading in the amended bill provides \$30,076,000 for the General Counsel, the same as the budget request. The agency should direct \$500,000 within this account for new hires to support additional attorney assistance for energy efficiency-related matters.

No funds are provided for the Competitive Sourcing Initiative (A-76), a reduction of \$1,770,000 below the request. Funding under this heading in the amended bill provides \$3,360,000 for the Public Affairs office, a reduction of \$500,000 below the budget request, as adequate prior year balances are available for this account.

OFFICE OF THE INSPECTOR GENERAL

The amended bill provides \$46,480,000 for the Office of the Inspector General, instead of \$47,732,000 as proposed by the House and the Senate.

ATOMIC ENERGY DEFENSE ACTIVITIES

NATIONAL NUCLEAR SECURITY ADMINISTRATION

The National Nuclear Security Administration (NNSA), a semi-autonomous agency within the Department of Energy, manages the Nation's nuclear weapons programs, nuclear nonproliferation programs, and naval reactors activities.

The amended bill provides \$8,894,695,000 for National Nuclear Security Administration activities instead of \$8,786,881,000 as proposed

by the House and \$9,564,545,000 as proposed by the Senate. The amended bill makes funds available until expended.

NUCLEAR WEAPONS ACTIVITIES

U.S. Nuclear Weapons Strategy for the 21st Century.—The Congress agrees to the direction contained in the House and Senate reports requiring the Administration, in consultation with the Secretary of Energy, the Administrator of the NNSA, the Department of Defense, including the Joint Chiefs of Staff and Strategic Command, and the Intelligence Community, and other appropriate independent, non-government science and security advisory organizations, to develop and submit to the Congress a comprehensive nuclear weapons strategy for the 21st century.

Reliable Replacement Warhead.—The amended bill provides no funds for the Reliable Replacement Warhead (RRW), as proposed by the House. As stated in both the House and Senate reports, Congress believes a new strategic nuclear deterrent mission assessment for the 21st century is required to define the associated stockpile requirements and determine the scope of the weapons complex modernization plans. The NNSA is directed to develop a long-term scientific capability roadmap for the national laboratories to be submitted to the Committees on Appropriations.

Advanced Certification.—The Department is directed to implement a new Science Campaign called Advanced Certification. Congress believes the recent findings of the JASON Defense Advisory Group revealed significant systemic gaps in NNSA's stockpile certification process and weapons campaign work products. Therefore, the NNSA is directed to develop a work scope to address: improvement of the weapons certification process through expanded, independent peer review mechanisms and refinement of computational tools and methods; advancement of the physical understanding of surety mechanisms; further exploration of failure modes; manufacturing process assessments; and the study of strategic system-level requirements. Funding under this heading in the amended bill provides \$15,000,000 in fiscal year 2008 for Advanced Certification activities. The Administrator of the NNSA is directed to submit an expenditure plan for these funds no later than 60 days after enactment of this Act and to submit a report to the Committees on Appropriations no later than six months after enactment of this Act on the progress made in implementing the JASON's recommendations and improving the stockpile certification process.

REPROGRAMMING GUIDELINES

Reprogramming authority.—The Department is provided limited reprogramming authority within the Weapons Activities account without submission of a reprogramming to be approved in advance by the House and Senate Committees on Appropriations. The reprogramming control levels are as follows: subprograms within Directed Stockpile Work; Life Extension Programs, Stockpile Systems, Warhead Dismantlement, and Stockpile Services. Additional reprogramming control levels are as follows: Science Campaigns, Engineering Campaigns, Inertial Confinement Fusion Ignition and High Yield, Advanced Simulation and Computing, Pit Manufacturing and Certification, Readiness Campaigns, and Readiness in Technical Base and Facilities (RTBF). The Department is not provided reprogramming authority between site allocations for Readiness in Technical Base and Facilities Operations of Facilities. In addition, funding of not more than \$5,000,000 may be transferred between each of these categories and each construction project, with the exception of the RTBF site allocations, subject to the following limitations: only one transfer may be made to

or from any program or project; the transfer must be necessary to address a risk to health, safety or the environment; and funds may not be used for an item for which Congress has specifically denied funds or for a new program or project that has not been authorized by Congress.

The Department must notify Congress within 15 days of the use of this reprogramming authority. Transfers during the fiscal year which would result in increases or decreases in excess of \$5,000,000 or which would exceed the limitations outlined in the previous paragraph require prior notification of and approval by the House and Senate Committees on Appropriations.

WEAPONS ACTIVITIES

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$6,355,633,000 for Weapons Activities instead of \$5,879,137,000 as proposed by the House and \$6,489,024,000 as proposed by the Senate.

DIRECTED STOCKPILE WORK

Funding under this heading in the amended bill includes \$1,413,879,000 for Directed Stockpile Work instead of \$1,336,594,000 as proposed by the House and \$1,409,521,000 as proposed by the Senate.

Life Extension Program—Funding under this heading in the amended bill includes \$236,231,000 for Life Extension Program activities.

Stockpile Systems—Funding under this heading in the amended bill includes \$343,152,000 for Stockpile Systems activities.

Reliable Replacement Warhead (RRW)—No funding is provided for the Reliable Replacement Warhead as proposed by the House.

Warhead Dismantlement—Funding under this heading in the amended bill includes \$135,888,000 for Warhead Dismantlement. Within the funding provided, \$14,846,000 is included for upgrading the Device Assembly Facility (DAF) at the Nevada Test Site for additional missions. The amended bill transfers the Pit Disassembly and Conversion Facility (PDCF) construction project from the Office of Defense Nuclear Nonproliferation to the NNSA Office of Defense Programs. Funding under this heading in the amended bill includes \$69,330,000 for the PDCF project.

Stockpile Services—Funding under this heading in the amended bill includes \$698,608,000 for Stockpile Services.

CAMPAIGNS

Funding under this heading in the amended bill includes \$1,890,717,000 for Campaigns. Within the funds provided, the budget request level of funding is available for the university research program in robotics (URPR).

Science Campaigns—Funding under this heading in the amended bill includes \$290,216,000 for Science Campaigns. The Committees on Appropriations include an additional \$4,949,000 for Test Readiness activities at the Nevada Test Site to maintain the capabilities restored under the enhanced test readiness program.

Advanced Certification—Funding under this heading in the amended bill includes \$15,000,000 for a new campaign focused very narrowly on addressing the long-term scientific issues related to continued certification of the nuclear stockpile without underground nuclear testing and the scientific uncertainties identified by the JASON review of the RRW feasibility study activities. Within the funding provided for Advanced Certification, \$5,000,000 is derived from the remaining uncosted balances from the Microsystems and Engineering Science Applications project and the Exterior Communication Infrastructure Modernization contingency funds. The NNSA Administrator must submit a written report to the defense

committees by May 1, 2008, outlining a program plan that addresses the specific certification issues, including the issues identified in the JASON RRW review, which will be addressed in the Advanced Certification campaign.

Engineering Campaigns—Funding under this heading in the amended bill includes \$171,075,000 for Engineering Campaigns. Within the funds provided, \$10,000,000 is available for enhanced surety work to increase the safety and security of nuclear weapons in the existing stockpile and develop new technologies for incorporation into potential future systems. The amended bill authorizes the use of \$10,000,000 in remaining uncosted balances from the Microsystems and Engineering Science Applications project and the Exterior Communication Infrastructure Modernization contingency funds to initiate a construction start for the Ion Beam Laboratory Project.

Inertial Confinement Fusion Ignition and High Yield—Funding under this heading in the amended bill includes \$474,442,000 for Inertial Confinement Fusion Ignition and High Yield. This funding includes an additional \$15,113,000 to accelerate target development and fabrication, and restores \$29,691,000 of funding for the Inertial Fusion Technology program. Within the funds provided for Inertial Fusion Technology, \$14,691,000 is for continuing development of high average power lasers and \$15,000,000 is for the Naval Research Laboratory. A total of \$62,044,000 is provided for the Laboratory for Laser Energetics (LLE) operations, an increase of \$9,000,000 over the budget request, to provide additional shots to support the goal of an ignition demonstration at the National Ignition Facility (NIF) in 2010. An additional \$13,000,000 is provided to fully fund single shift operations of the Z machine at Sandia National Laboratory. Z machine operations funding includes \$28,887,000 provided within the Readiness and Technical Base and Facilities (RTBF) subheading account in Weapons Activities.

Advanced Simulation and Computing—Funding under this heading in the amended bill includes \$579,714,000 for Advanced Simulation and Computing. The Department of Energy is directed to establish the Institute for Advanced Architectures and Algorithms between the NNSA and the Department of Energy Office of Science with Centers of Excellence at Sandia National Laboratories and Oak Ridge National Laboratory. These Centers will execute a national program involving industry, universities and national laboratories that is focused on technologies to sustain the U.S. leadership in high performance computing. The NNSA ASC and Office of Science ASCR programs will jointly fund the program and provide direction needed to support the goal of developing exascale computing for the Nation.

Pit Manufacturing and Certification—Funding under this heading in the amended bill includes \$215,758,000 for Pit Manufacturing and Certification. The Administrator is directed to manage the pit activities as a single, coherent project and adopt strict adherence to DOE Order 413.3A. No funds are provided for the consolidated plutonium center.

Until a modern nuclear weapons strategy, including required pit production capacity defined by nuclear stockpile requirements, is developed, the NNSA is directed to constrain the out-year planning for plutonium operations to a pit production capacity no greater than 80 pits per year. The NNSA Administrator is directed to provide quarterly reports to the Committees on Appropriations on pit production, with the first report due on April 1, 2008.

Readiness Campaigns—Funding under this heading in the amended bill includes \$159,512,000 for Readiness Campaigns.

READINESS IN TECHNICAL BASE AND FACILITIES

Funding under this heading in the amended bill provides \$1,652,132,000 for Readiness in Technical Base and Facilities instead of \$1,479,632,000 as proposed by the House and \$1,659,248,000 as proposed by the Senate.

Operations of Facilities—Funding under this heading in the amended bill includes \$1,164,856,000 for RTBF Operations of Facilities. Within the funds provided, an additional \$37,649,000 is for the Y-12 Plant in Tennessee and \$18,817,000 for the Pantex Plant in Texas and \$9,064,000 for the Lawrence Livermore National Laboratory in California and \$17,011,000 for implementation of a Classified Vaults project at Los Alamos National Laboratory in New Mexico. The House direction is adopted providing the RTBF Operations and Facilities site funding in site-specific allocations in the detail table at the end of title III. All proposed shifts in funding between site-specific allocations require the submittal of a reprogramming request to the House and Senate Committees on Appropriations.

Program Readiness—Funding under this heading in the amended bill includes \$70,731,000 for Program Readiness.

Material Recycling and Recovery—Funding under this heading in the amended bill includes \$72,212,000 for Material Recycling and Recovery, an increase of \$2,250,000 over the budget request.

Containers—Funding under this heading in the amended bill includes \$21,956,000 for Containers, an increase of \$2,772,000 over the budget request.

Storage—Funding under this heading in the amended bill includes \$34,772,000 for Storage.

Construction—Funding under this heading in the amended bill includes \$287,605,000 for RTBF Construction. This funding includes \$15,143,000 for Project 08-D-802, High Explosive Pressing Facility, Pantex, Texas; \$41,926,000 for Project 06-D-140, Project Engineering and Design (PED), various locations, including \$38,957,000 for Project 06-D-140-05 Uranium Processing Facility (UPF), Y-12 Plant, Oak Ridge, Tennessee. Within the funds provided for Project 06-D-140, \$990,000 is provided for Project 06-D-140-01, TA-55 Radiography Facility, Los Alamos National Laboratory, New Mexico. Funding under this heading also includes \$1,979,000 for Project 05-D-140, Project Engineering and Design, various locations; \$74,809,000 for Project 04-D-125, Chemistry and Metallurgy Facility Replacement Project, Los Alamos National Laboratory, New Mexico; \$29,152,000 for Project 04-D-128, TA-18 Mission Relocation Project, Los Alamos National Laboratory, New Mexico; and \$76,208,000 for Project 01-D-124, HEU Materials Facility, Y-12 Plant, Oak Ridge, Tennessee.

FACILITIES AND INFRASTRUCTURE RECAPITALIZATION

Funding under this heading in the amended bill includes \$181,613,000 for Facilities and Infrastructure Recapitalization.

SECURE TRANSPORTATION ASSET

Funding under this heading in the amended bill includes \$213,428,000 for Secure Transportation Asset.

NUCLEAR WEAPONS INCIDENT RESPONSE

Funding under this heading in the amended bill includes \$160,084,000 for Nuclear Weapons Incident Response.

ENVIRONMENTAL PROJECTS AND OPERATIONS

Funding under this heading in the amended bill includes \$8,669,000 for Environmental Projects and Operations.

SAFEGUARDS AND SECURITY

Safeguards and Security—Funding under this heading in the amended bill includes

\$907,625,000 for Safeguards and Security. Within these funds are provided \$7,000,000 to each of the following facilities: the Los Alamos National Laboratory in New Mexico, the Y-12 Plant in Tennessee, and the Lawrence Livermore National Laboratory in California, for additional physical and cyber security upgrades to meet Design Basis Threat requirements and address cyber security vulnerabilities.

Construction.—Funding for safeguards and Security includes \$71,751,000 for construction

activities. An additional \$14,846,000 is provided for the refurbishment of Building 651 and completion of Building 691 at the Idaho National Laboratory to handle special nuclear material consolidation, storage and other missions. The amended bill transfers \$4,900,000 provided in fiscal year 2006 in the Other Defense Activities account to begin planning activities for the Idaho project.

FUNDING ADJUSTMENTS

Funding Adjustments.—Funding under this heading in the amended bill includes the use

of \$86,514,000 of prior year balances made available from completed or cancelled construction projects. The recommendation includes an adjustment of \$34,000,000 for the safeguards and security charge for reimbursable work.

Congressionally Directed Projects.—Funding under this heading in the amended bill includes \$48,000,000 in congressionally directed projects.

DEFENSE NUCLEAR NONPROLIFERATION
(INCLUDING RESCISSIONS OF FUNDS)

The amended bill provides a total program level of \$1,673,275,000 for Defense Nuclear Nonproliferation instead of \$2,070,646,000 as proposed by the House and \$1,929,646,000 as proposed by the Senate. The amended bill includes \$1,351,275,000 of new budget authority and the use of \$322,000,000 of prior year balances in fiscal year 2008.

NONPROLIFERATION AND VERIFICATION
RESEARCH AND DEVELOPMENT

Funding under this heading in the amended bill includes \$390,752,000 for Nonproliferation and Verification Research and Development, an increase of \$125,500,000 over the budget request. The amended bill provides an additional \$60,000,000 in proliferation detection to expand research in critical research and development for high-risk, high return nuclear detection capabilities and an additional \$20,000,000 for the implementation of a sustained research and development capacity in nuclear detection and nuclear materials security. The NNSA has the lead responsibility for the federal government in nuclear detection, counter-proliferation and counter-terrorism, and this capability must be sustained to meet the evolving threats. An additional \$20,500,000 is provided for nuclear explosion monitoring.

This account includes \$25,000,000 for Project 06-D-180, National Security Laboratory at the Pacific Northwest National Laboratory, an increase of \$25,000,000 over the request. Funds not needed for project engineering and design (PED) on Project 06-D-180 may be used without prior committee approval for Project 06-D-180 construction activities.

The Department is directed to conduct a competitive solicitation open to all federal and non-federal entities toward an integrated suite of research, technology development and demonstration areas including infrasound, hydroacoustic for ground-based systems treaty monitoring activities. The competitive process should award not less than \$5,000,000 of the additional funding for nuclear explosion monitoring for research and development activities for ground-based treaty monitoring.

NONPROLIFERATION AND INTERNATIONAL
SECURITY

Funding under this heading in the amended bill includes \$151,370,000 for Nonproliferation and International Security, an increase of \$26,500,000 over the budget request. An additional \$8,000,000 is provided for Dismantlement and Transparency; an additional \$10,000,000 for Global Security Engagement and Cooperation for Global Initiatives for Proliferation and Prevention; and an additional \$8,500,000 for International Regimes and Agreements to expand international co-

operation on multilateral nuclear non-proliferation goals and objectives.

Nuclear Disablement Activities in North Korea.—The Committees on Appropriations are concerned about the NNSA resources required to support disablement of North Korea's nuclear weapons arsenal and production capability. The Committees on Appropriations strongly support NNSA's contributions to this diplomatic mission, but remain concerned about relying upon a mid-year re-programming of resources from other critical nonproliferation programs to support what is currently a fluid and uncertain effort. From within the funds provided for Nonproliferation and International Security, the NNSA has funding discretion to provide up to \$10,000,000 toward NNSA activities to continue disablement activities to shut down nuclear weapons activities in North Korea. The Department is directed to submit a supplemental budget request if additional resources are required to continue activities during fiscal year 2008.

INTERNATIONAL NUCLEAR MATERIALS
PROTECTION AND COOPERATION

Funding under this heading in the amended bill includes \$630,217,000 for International Nuclear Materials Protection and Cooperation. Within the funds provided, \$269,331,000 is available for Second Line of Defense activities, including an additional \$50,000,000 for the Megaports initiative to accelerate deployment of radiation detection equipment at international seaports.

ELIMINATION OF WEAPONS-GRADE PLUTONIUM
PRODUCTION

Funding under this heading in the amended bill includes \$181,593,000 for the Elimination of Weapons-Grade Plutonium Production program, the same as the budget request.

FISSILE MATERIALS DISPOSITION

Funding under this heading in the amended bill includes \$66,843,000 for Fissile Materials Disposition, as proposed by the House. Program activities and functions for the Mixed Oxide (MOX) Fuel Fabrication Facility construction project are transferred to the Office of Nuclear Energy and the program activities and functions for the Pit Disassembly and Conversion Facility (PDCF) activity are transferred to the NNSA Office of Defense Programs. The use of \$322,000,000 in prior year balances is specified under Funding Transfers from the Russian Plutonium Disposition activities and the Mixed Oxide Fuel Fabrication project for other purposes within Defense Nuclear Nonproliferation. A total of \$115,000,000 of unobligated, uncosted prior year balances are transferred to the Nuclear Energy account.

GLOBAL THREAT REDUCTION INITIATIVE

Funding under this heading in the amended bill includes \$195,000,000 for Global Threat

Reduction Initiative, an increase of \$75,374,000 over the budget request.

INTERNATIONAL NUCLEAR FUEL BANK

The amended bill provides \$50,000,000 for an International Nuclear Fuel Bank initiative. The \$50,000,000 for the International Nuclear Fuel Bank is the United States Government's contribution to an international effort to establish a nuclear fuel supply for peaceful means under the auspices of the International Atomic Energy Agency (IAEA). The International Nuclear Fuel Bank will provide a nuclear fuel stockpile to be available as a fuel supply reserve for nations that have made the sovereign choice to develop their civilian nuclear energy industry based on foreign sources of nuclear fuel and therefore have no requirement to develop an indigenous nuclear fuel enrichment capability. Not later than 120 days after the date of enactment of this Act, the Secretary of Energy shall transmit to the House and Senate Committees on Appropriations and the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate a report on the progress of the United States to support the establishment of a nuclear fuel supply for peaceful means under the auspices of the IAEA.

RELIABLE FUEL SUPPLY

The Secretary of Energy established a stockpile of low enriched nuclear fuel from the down blend of 17.4 metric tons of Highly Enriched Uranium, excess to U.S. needs. This stockpile was to be designated for the sale to foreign countries that support U.S. non-proliferation goals in the event of an unforeseen supply disruption in the global nuclear fuel market. In light of the establishment of the International Nuclear Fuel Bank, the Secretary is directed to allow U.S. interests to purchase uranium fuel from the Reliable Fuel Supply in the event of a supply disruption.

FUNDING ADJUSTMENTS

The funding adjustments in Defense Nuclear Nonproliferation include the use of \$322,000,000 of prior year balances. The sources of the prior year balances are \$57,000,000 from the Russian Surplus Materials Disposition program, \$115,000,000 from unobligated, uncosted balances within the Mixed Oxide fuel fabrication facility construction activities, and the remaining \$151,000,000 of unexpended balances from the Russian material disposition funding provided in the fiscal year 1999 emergency supplemental (P.L. 105-277).

Congressionally Directed Projects.—Funding provided in the amended bill under this heading includes \$7,500,000 in congressionally directed projects within the Defense Nuclear Nonproliferation account.

NAVAL REACTORS

The amended bill provides \$781,800,000 for Naval Reactors, the same funding level as fiscal year 2007.

OFFICE OF THE ADMINISTRATOR

The amended bill provides \$405,987,000 for the Office of the Administrator. The Admin-

istrator is directed to support the increase in Defense Nuclear Nonproliferation activities with sufficient resources to support federal travel requirements to support the expanded nuclear nonproliferation activities.

Congressionally Directed Projects.—Funding under this heading in the amended bill in-

cludes \$22,500,000 in congressionally directed projects in support of the Historically Black Colleges and Universities (HBCU) programs within the Office of the Administrator account.

ENVIRONMENTAL AND OTHER DEFENSE
ACTIVITIES
DEFENSE ENVIRONMENTAL CLEANUP
(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$5,398,573,000 for the Defense Environmental Cleanup program, instead of \$5,766,561,000 as proposed by the House, and \$5,690,380,000 as proposed by the Senate. The agency should direct the Department to fund hazardous waste worker training at \$10,000,000 within available funds.

Economic development.—The Appropriations Committees direct that none of the Defense Environmental Cleanup funds are available for economic development activities unless specifically authorized by law.

Internal Reprogramming authority.—In fiscal year 2008, the Department may transfer up to \$5,000,000 within accounts and between accounts, as noted in the table below, to reduce health or safety risks or to gain cost savings as long as no program or project is increased or decreased by more than \$5,000,000 in total during the fiscal year. This reprogramming authority may not be used to initiate new programs or to change funding for programs specifically denied, limited, or increased by Congress in the Act or explanatory statement. The Committees on Appropriations in the House and Senate must be notified within thirty days of the use of this reprogramming authority.

Closure Sites.—Funding under this heading in the amended bill includes \$42,437,000, the same as the budget request.

Savannah River Site.—Funding under this heading provides \$1,141,590,000 for cleanup at

the Savannah River Site, a decrease of \$64,500,000 below the budget request. The Department accommodated funding shortfalls at the Savannah River Site during fiscal year 2007, therefore the Appropriations Committees adjust the fiscal year 2008 funding to reflect the additional funds provided in fiscal year 2007. Funding under this heading provides \$1,000,000 for the plutonium vitrification facility, a reduction of \$14,000,000 below the budget request. The Appropriations Committees will reconsider funding this project again when plutonium vitrification has been confirmed by the Department as a plausible disposition pathway for the small amount of plutonium not appropriate for MOX fuel.

Waste Isolation Pilot Plant (WIPP).—Funding under this heading in the amended bill provides \$236,739,000 for the WIPP, an increase of \$17,000,000 over the budget request for the activities listed in the Senate report, including the Center of Excellence for Hazardous Materials.

Idaho National Laboratory.—Funding under this heading in the amended bill provides \$513,026,000 for the Idaho National Laboratory (INL), an increase of \$9,000,000 for cleanup activities. The funding levels provided under this heading for INL reflect a redistribution of the budget request to better reflect the current needs at the INL.

Oak Ridge Reservation.—Funding under this heading in the amended bill provides \$192,284,000 for the Oak Ridge Reservation, an increase of \$13,000,000 over the budget request, to include \$30,000,000 for the disposition of material in building 3019, an increase of \$10,000,000 over the budget request. Funding under this heading provides \$9,379,000 for soil and water remediation at offsite locations, an increase of \$3,000,000 to accelerate the completion of the David Witherspoon sites.

Hanford Site.—Funding under this heading in the amended bill provides \$894,640,000 for the Hanford Site, an increase of \$17,560,000 over the budget request. Of this increase, the \$10,000,000 is for increased groundwater remediation, and \$7,560,000 is for additional transuranic waste retrieval and characterization, and mixed low-level and low-level waste disposal to meet Tri-Party Agreement milestones. Within available funds, the agency is directed to fund the Volpentest Hazardous Materials Management and Emergency Response (HAMMER) training and education center, and B-Plant preservation at no less than fiscal year 2006 levels.

Office of River Protection.—Funding under this heading in the amended bill provides \$978,443,000 for the Office of River Protection, an increase of \$15,000,000 over the budget re-

quest. The increase is to support the demonstration of the bulk vitrification system, and to support tank farm retrievals. Funding under this heading provides \$690,000,000 for the Waste Treatment Plant.

Program direction.—Funding under this heading in the amended bill provides \$309,760,000 for program direction.

Program support.—Funding under this heading in the amended bill provides \$33,146,000 for program support.

Federal Contribution to Uranium Enrichment Decontamination and Decommissioning Fund.—Funding under this heading in the amended bill includes the budget request of \$463,000,000 for the Federal contribution to the Uranium Enrichment Decontamination and Decommissioning Fund as authorized in Public Law 102-486.

Technology development and deployment.—Funding under this heading in the amended bill provides \$21,389,000 for the technology development and deployment program.

NNSA Sites.—Funding under this heading in the amended bill provides \$292,930,000 for NNSA sites, an increase of \$21,800,000 over the budget request. Of the increase, \$7,800,000 is provided for Pantex for required groundwater remediation and monitoring wells, and \$14,000,000 supports additional cleanup at Los Alamos National Laboratory.

Safeguards and security.—Funding under this heading in the amended bill provides \$261,714,000 for safeguards and security, a reduction of \$11,667,000 due to sufficient uncosted carryover balances in fiscal year 2007.

Legacy Management.—The Appropriations Committees do not support the consolidation of Legacy Management activities within the Defense Environmental Management account as proposed by the House.

Material Consolidation Office.—The Appropriations Committees remain skeptical regarding the quality of the analytical underpinnings of the Department's decision to utilize H-canyon as the primary disposition pathway for material consolidation efforts. The Appropriations Committees await the findings of the GAO review in early 2008, and will make future recommendations accordingly. The Appropriations Committees provide funding for H-canyon operations and plutonium vitrification at the Savannah River Site, and do not support the House proposal to restrict the funds to the Headquarters office at this time.

Congressional Directed Projects.—Funding under this heading in the amended bill provides \$17,475,000 for congressionally directed projects.

OTHER DEFENSE ACTIVITIES
(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$761,290,000 for Other Defense Activities instead of \$604,313,000 as proposed by the House and \$765,464,000 as proposed by the Senate.

OFFICE OF HEALTH, SAFETY, AND SECURITY

Funding under this heading in the amended bill includes \$429,348,000 for the Office of Health, Safety, and Security as proposed by the Senate. The reorganization requested by the Department—combining the Office of Environment, Safety, and Health and the Office of Security and Performance Assurance—is adopted. Within the funds provided, \$16,500,000 is available for the Worker Health Screening program, an increase of \$4,000,000 over the budget request. The Office of Health, Safety, and Security is directed to initiate an early lung cancer screening program as proposed by the Senate.

LEGACY MANAGEMENT

Funding under this heading in the amended bill includes \$156,379,000 for the Office of Legacy Management, a reduction of \$2,684,000 from the budget request. From within available funds, \$500,000 is provided for the Rocky Flats Cold War Museum in Colorado.

FUNDING FOR DEFENSE ACTIVITIES IN IDAHO

Funding under this heading in the amended bill includes \$75,949,000 to fund defense-related activities at the Idaho National Laboratory.

DEFENSE-RELATED ADMINISTRATIVE SUPPORT

Funding under this heading in the amended bill includes \$99,000,000 to provide administrative support for programs funded in the atomic energy defense activities account.

OFFICE OF HEARINGS AND APPEALS

Funding under this heading in the amended bill includes \$4,607,000 for the Office of Hearings and Appeals.

FUNDING ADJUSTMENTS

Funding adjustments include an offset of \$3,003,000 for the safeguards and security charge for reimbursable work and the use of \$990,000 of prior year balances.

DEFENSE NUCLEAR WASTE DISPOSAL

The amended bill provides \$201,000,000 for Defense Nuclear Waste Disposal instead of \$292,046,000 as proposed by the House and \$242,046,000 as proposed by the Senate.

POWER MARKETING ADMINISTRATIONS

BONNEVILLE POWER ADMINISTRATION FUND

The amended bill provides no new borrowing authority for the Bonneville Power Administration (BPA) during fiscal year 2008.

The Appropriations Committees have opposed the Administration's past proposal re-

garding BPA net secondary revenues and hope the Administration will not pursue the proposal in fiscal year 2008 or 2009.

OPERATION AND MAINTENANCE, SOUTHEASTERN POWER ADMINISTRATION

The amended bill provides \$6,463,000 for the Southeastern Power Administration as proposed by both the House and Senate, including \$62,215,000 for purchase power and wheeling and includes \$48,413,000 of offsetting collections.

OPERATION AND MAINTENANCE, SOUTHWESTERN POWER ADMINISTRATION

The amended bill provides \$30,442,000 for the Southwestern Power Administration as proposed by both the House and Senate, including \$45,000,000 for purchase power and wheeling and includes \$35,000,000 of offsetting collections.

CONSTRUCTION, REHABILITATION, OPERATION AND MAINTENANCE, WESTERN AREA POWER ADMINISTRATION

The amended bill includes \$231,030,000 as proposed by the Senate instead of \$201,030,000 as proposed by the House. The amended bill provides for a total program level of \$755,911,000 for Western, which includes \$62,915,000 for construction and rehabilitation, \$53,271,000 for system power operation and maintenance, \$475,254,000 for purchase power and wheeling, \$157,304,000 for program direction and \$7,167,000 for the Utah Mitigation and Conservation Fund.

Offsetting collections total \$312,639,000, including the of \$3,937,000 of offsetting collections from the Colorado River Dam Fund (as authorized in Public Law 98-381).

The Appropriations Committees reject the budget's proposed funding reduction for Construction, Rehabilitation, Operations, and Maintenance. The budget's proposal to rely more heavily on alternative financing for these activities is unrealistic.

Congressional Directed Projects.—The agency should, within available funds, provide \$3,000,000 for the Colorado River Transmission Line.

FALCON AND AMISTAD OPERATING AND MAINTENANCE FUND

The amended bill includes \$2,500,000 for the Falcon and Amistad Operating and Maintenance Fund as proposed by both the House and Senate.

FEDERAL ENERGY REGULATORY COMMISSION SALARIES AND EXPENSES

The amended bill includes \$260,425,000 for the Federal Energy Regulatory Commission (FERC) instead of \$255,425,000 as proposed by both the House and Senate. Revenues for FERC are set at an amount equal to the budget authority, resulting in a net appropriation of \$0.

TITLE III—GENERAL PROVISIONS

Language is included under section 301 regarding competition of major Department of Energy contracts.

Language is included under section 302 which prohibits the use of funds in this Act to initiate a request for proposal of expression of interest for new programs which have not yet been presented to Congress in the annual budget submission and which have not yet been approved and funded by Congress.

Language is included under section 303 which prohibits the use of funds for workforce restructuring or enhanced severance payments under the worker and community transition program under section 3161 of Public Law 102-484.

Language is included under section 304 to prohibit the augmentation of severance payments under section 3161 of Public Law 102-484 unless a reprogramming request is submitted to Congress.

Language is included in section 305 which permits the transfer and merger of unexpended balances of prior appropriations with appropriation accounts established in this bill.

Language is included in Section 306 that prohibits the use of funds by the Bonneville Power Administration to enter into energy efficiency contracts outside its service area.

Language is included in Section 307 that establishes certain notice and competition requirements for Department of Energy user facilities.

Language is included in Section 308 specifically authorizing intelligence activities pending enactment of the fiscal year 2008 Intelligence Authorization Act.

Language is included in section 309 regarding laboratory directed research and development activities.

Language is included in section 310 prohibiting the Department of Energy from modifying a ratemaking policy by changing the interest rate on future obligations for the Southeastern, Southwestern, and Western Area Power Administrations.

Language is included in section 311 relating to the Use Permit at Pacific Northwest National Laboratory (PNNL). The Government Accountability Office is directed to conduct an evaluation of the effectiveness of technology transfer across all DOE laboratories and to report to the Committees on Appropriations on the effectiveness of technology transfer and the role the Use Permit at PNNL plays in this issue.

Language is included in section 312 reducing the congressionally directed projects in title III by 1.6 percent and all other discretionary accounts in this title by 0.91 percent.

TITLE IV

Independent Agencies

APPALACHIAN REGIONAL COMMISSION

The amended bill provides \$73,032,000 for the Appalachian Regional Commission, instead of \$35,000,000 as proposed by the House and \$75,000,000 as proposed by the Senate. Within the funds provided, \$984,000 is for Bluegrass Pride WATER Projects, Kentucky.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD
SALARIES AND EXPENSES

The amended bill provides \$21,909,000 instead of \$22,499,000 as proposed by the House and the Senate.

DELTA REGIONAL AUTHORITY

SALARIES AND EXPENSES

The amended bill provides \$11,685,000 for the Delta Regional Authority (DRA), instead of \$6,000,000 as proposed by the House and \$12,000,000 as proposed by the Senate. The Appropriations Committees are aware that DRA is unable to comply with section 382M(b) at the current time, but direct DRA to submit a report to the House and Senate Committees on Appropriations and the appropriate authorizing committees outlining how DRA could be in compliance in the future and the impacts compliance would have on managing the program. The amended bill includes legislative language extending the authorization of the Delta Regional Authority.

DENALI COMMISSION

The amended bill provides \$21,800,000, instead of \$0 as proposed by the House and \$31,800,000 as proposed by the Senate.

NUCLEAR REGULATORY COMMISSION

SALARIES AND EXPENSES

The amended bill provides \$917,334,000 for the Nuclear Regulatory Commission (NRC) instead of \$925,559,000 as proposed by the House and \$910,559,000 as proposed by the Senate. The total amount of budget authority is offset by estimated revenues of \$771,220,000, resulting in a net appropriation of \$146,114,000. Given the almost certain delay in the Department of Energy filing a license application for the Yucca Mountain Repository, the amended bill includes \$29,025,000 to be derived from the Nuclear Waste Fund instead of \$37,250,000 as requested.

Of the \$917,334,000 gross appropriation for fiscal year 2008, \$29,025,000 is drawn from the Nuclear Waste Fund, \$2,000,000 is drawn from the General Fund of the Treasury to execute NRC's responsibilities to provide oversight of certain Department of Energy activities under Section 3116 of Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (P.L. 108-375), and \$29,398,000 is drawn from the General Fund of the Treasury to execute NRC's homeland security responsibilities. Ninety percent of the balance of \$856,911,000 (i.e., \$771,220,000) is funded by fees collected from NRC licensees, and the

remaining 10 percent (i.e., \$85,691,000) is funded from the General Fund of the Treasury.

Nuclear Education.—Funding under this heading in the amended bill includes an additional \$15,000,000 to support education in nuclear science, engineering, and related trades to develop a workforce capable of the design, construction, operation, and regulation of nuclear facilities and the safe handling of nuclear materials. These funds are to be used for college scholarships and graduate fellowships in nuclear science, engineering, and health physics, and for faculty development grants supporting faculty in these academic areas for the first six years of their careers. Some of these funds are also to be used for scholarships for trade schools in the nuclear-related trades. Notwithstanding the requirements of Section 243 of the Energy Policy Act of 2005, which makes employment at the Commission a condition of receiving educational assistance, the Commission is directed to make generous use of the waiver or suspension provisions available in Section 243(c)(2). The nuclear education supported by this funding is intended to benefit the nuclear sector broadly (i.e., federal agencies, industry, and academia) rather than solely to benefit the Nuclear Regulatory Commission.

Review of the Hanford Waste Treatment Plant.—In cooperation with the Department of Energy, the Nuclear Regulatory Commission is directed to review the regulatory processes of the Department for the Hanford Waste Treatment Plant and report its assessment and recommendations to the Secretary of Energy and the House and Senate Committees on Appropriations within 180 days of enactment.

International Program Activities.—Funding under this heading in the amended bill includes an additional \$2,150,000 to support enhancing foreign regulators' programs to increase security over radioactive sources.

Reports.—The Commission is directed to provide biannual reports on the status of its licensing and other regulatory activities electronically.

Office Space.—The amended bill includes provisions to assure the efficient and effective operation of the expanded staff of the Nuclear Regulatory Commission by allowing additional office space to be provided by the General Services Administration as close as reasonably possible to the Commission's headquarters location in Rockville, Maryland.

OFFICE OF INSPECTOR GENERAL

The amended bill provides \$8,744,000 for the NRC Office of Inspector General instead of \$8,144,000 as proposed by the House, an increase of \$600,000 over the budget request. The additional funds will provide the Office of Inspector General with the necessary resources to provide effective oversight of the agency's new licensing activities while fulfilling its statutory responsibilities under the Chief Financial Officers Act of 1990 and

the Federal Information Security Management Act of 1992. Revenues received in fiscal year 2008 will offset ninety percent of the sum appropriated resulting in net appropriations for the fiscal year of \$874,000.

NUCLEAR WASTE TECHNICAL REVIEW BOARD

SALARIES AND EXPENSES

The amended bill provides \$3,621,000 for Nuclear Waste Technical Review Board the same as requested and as proposed by the House and the Senate.

TENNESSEE VALLEY AUTHORITY

OFFICE OF INSPECTOR GENERAL

The amended bill does not include the requested \$15,000,000 to establish a congressionally-funded Office of the Inspector General for the Tennessee Valley Authority. The Appropriations Committees support the continuation of the existing arrangement for funding this office.

OFFICE OF THE FEDERAL COORDINATOR FOR
ALASKA NATURAL GAS TRANSPORTATION
PROJECTS

The amended bill provides \$2,261,000 for the Office of the Federal Coordinator for Alaska Natural Gas Transportation Projects instead of \$2,322,000 as proposed by both the House and the Senate.

TITLE IV—GENERAL PROVISIONS

The amended bill includes a provision related to the Tennessee Valley Authority.

TITLE V

GENERAL PROVISIONS

Section 501. The amended bill includes a provision that prohibits the use of any funds provided in this bill from being used to influence congressional action.

Section 502. The amended bill includes a provision that addresses transfer authority under this Act.

DISCLOSURE OF EARMARKS AND
CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of Jurisdiction for each item so identified. Items that did not appear in the House or Senate versions of H.R. 2641 and S. 1751 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules. The amounts in this table do not include the 1.6 percent reduction applied to earmarks and congressionally directed spending.

DIVISION D—FINANCIAL SERVICES AND GENERAL GOVERNMENT APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Financial Services and General Government Appropriations Act, 2008 (H.R. 2829) passed by the House of Representatives and reported by the Senate Appropriations Committee.

REPORT LANGUAGE

Report language included by the House (House Report 110-207) or the Senate (Senate Report 110-129) that is not changed herein is approved. This explanatory statement, while repeating some report language for emphasis, is not intended to negate the language referred to above unless expressly provided herein.

TITLE I

DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$248,360,000 for departmental offices salaries and expenses, instead of \$250,591,000 as proposed by the House and \$251,641,000 as proposed by the Senate. Of the funds provided, not more than \$3,000,000 is available until September 30, 2009 for information technology modernization, \$258,000 is for emergencies or activities of a confidential nature, \$5,114,000 is available until September 30, 2009 for Treasury-wide financial audits, \$3,000,000 is available until September 30, 2009 for secure space requirements, \$2,300,000 is available until September 30, 2009 for the hiring of personnel whose work will require a security clearance investigation, \$2,100,000 is available until September 30, 2009 for critical infrastructure protection activities, and not more than \$150,000 is allowed for reception and representation expenses.

For the activities under this heading, the amended bill provides the following funding levels:

Executive Direction	\$10,840,000
General Counsel	9,909,000
Economic Policies and Programs	44,242,000
Financial Policies and Programs	29,464,000

Terrorism and Financial

Intelligence	56,775,000
Treasury-wide Management	18,505,000
Administration	78,625,000

The amended bill provides an increase of \$618,000, as requested and provided in the House and Senate bills, for enhanced international economic policy coordination. The Appropriations Committees expect the Department to increase its efforts to implement currency reforms in China.

Of the funds provided for the Executive Direction budget activity, the Department is directed to provide \$1,500,000 for a study on energy externalities directed by section 1352 of Public Law 109-58. The Senate version of the bill included these funds.

Within the funds provided for the Financial Policies and Programs budget activity, the Department is directed to provide \$1,000,000 to the Center for Resilient Financial Services e-Cavern Partnership. These funds are intended to be the final Federal payment for this project.

The Department is directed to fund Treasury's Office of Financial Education at a level not less than \$1,100,000, an increase of approximately \$400,000 above the amount requested. Within this amount, (1) not less than \$200,000 is directed to be used to further the office's outreach and education activities focused on elementary schools and high schools, and (2) not less than \$200,000 is directed to be used for the development of tailored, targeted materials and dissemination strategies to protect consumers against predatory lending and encourage the use of mainstream financial services. Additionally, the Department is directed to report to the Committees on Appropriations, within 60 days of enactment of this Act, on progress made in implementing the recommendations of the Government Accountability Office regarding the National Strategy for Financial Literacy.

Within the funds provided for the Terrorism and Financial Intelligence budget activity, the Department is directed to provide \$300,000 to Treasury's Office of Terrorism and Financial Intelligence (TFI) to create a permanent position which will be responsible for managing and overseeing all TFI information technology operations, activities, and needs, as proposed by the Senate. In addition, within the funds provided, the Department is directed to provide \$250,000 to the Office of Foreign Assets Control (OFAC) for efforts to reduce OFAC's backlog of Freedom of Information Act requests, as proposed by the House.

The amended bill includes a provision allowing the Department to transfer up to 2 percent of funds available between budget activities upon notification to the Committees on Appropriations. Transfers in excess of 2 percent may be made upon approval of the Committees on Appropriations.

DEPARTMENT-WIDE SYSTEMS AND CAPITAL INVESTMENTS PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$18,710,000 for systems and capital investments as proposed by both the House and the Senate.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

The amended bill provides \$18,450,000 for salaries and expenses of the Office of Inspector General as proposed by both the House and the Senate. Of the funds provided, up to \$2,000,000 may be used for travel, \$100,000 may be used for emergencies or activities of a confidential nature, and up to \$2,500 may be used for reception and representation expenses.

TREASURY INSPECTOR GENERAL FOR TAX ADMINISTRATION

SALARIES AND EXPENSES

The amended bill provides \$140,533,000 for salaries and expenses as proposed by both the House and the Senate. Of the funds provided, up to \$6,000,000 is for travel expenses, \$500,000 may be used for emergencies or activities of a confidential nature, and up to \$1,500 may be used for reception and representation expenses.

AIR TRANSPORTATION STABILIZATION PROGRAM ACCOUNT

(INCLUDING RESCISSION)

The amended bill includes language terminating the program and rescinding \$3,600,000 in remaining unobligated balances, as proposed by both the House and the Senate.

FINANCIAL CRIMES ENFORCEMENT NETWORK

SALARIES AND EXPENSES

The amended bill provides \$85,844,000 for salaries and expenses as proposed by the Senate, instead of \$83,344,000 as proposed by the House. Of the funds provided, not more than \$14,000 is for reception and representation expenses, \$16,340,000 is available until September 30, 2010, and \$8,955,000 is available until September 30, 2009.

The Department is directed to report to the Committees on Appropriations on the Department's analysis of developing a cross-border electronic funds transfer reporting system. If the Department supports proceeding with this project, the report shall identify the revised estimated future year costs by fiscal year of developing a cross-border system.

FINANCIAL MANAGEMENT SERVICE

SALARIES AND EXPENSES

The amended bill provides \$234,423,000 for salaries and expenses as proposed by the House, instead of \$235,191,000 as proposed by the Senate. Of the funds provided, \$9,220,000 is available until September 30, 2010 for information technology modernization initiatives and up to \$2,500 is for reception and representation expenses.

ALCOHOL AND TOBACCO TAX AND TRADE BUREAU

SALARIES AND EXPENSES

The amended bill provides \$93,515,000 for salaries and expenses as proposed by the House, instead of \$97,015,000 as proposed by the Senate. Of the funds provided, not more than \$6,000 is for reception and representation expenses and \$50,000 is for cooperative research. The Department is encouraged to utilize funds from the Treasury Forfeiture Fund to address the replacement of obsolete information technology equipment in the Alcohol and Tobacco Tax and Trade Bureau.

UNITED STATES MINT

UNITED STATES MINT PUBLIC ENTERPRISE FUND

The amended bill provides that not more than \$33,200,000 in new liabilities and obligations may be incurred during fiscal year 2008 for circulating coinage and protective service capital investments of the U.S. Mint, as proposed by both the House and the Senate.

BUREAU OF THE PUBLIC DEBT

ADMINISTERING THE PUBLIC DEBT

The amended bill provides \$182,871,000 for costs associated with administering the public debt, as proposed by both the House and the Senate. Of the funds provided, not more than \$2,500 is allowed for reception and representation expenses and \$2,000,000 is available until September 30, 2010 for systems modernization. The amended bill includes \$10,000,000 in user fees to offset the appropriated amounts and \$70,000 from the Oil Spill Liability Trust Fund to reimburse the Bureau for various administrative expenses.

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS FUND PROGRAM ACCOUNT

The amended bill provides \$94,000,000 for the Community Development Financial Institutions (CDFI) Fund program, instead of \$100,000,000 as proposed by the House and \$90,000,000 as proposed by the Senate. Of the funds provided, up to \$13,500,000 is for administrative costs, up to \$7,500,000 is for the cost of direct loans, up to \$250,000 is for administrative expenses of the direct loan program, and \$8,000,000 is for technical assistance and other purposes for Native American, Native Hawaiian, and Alaskan Native communities. The amended bill includes language that limits loan obligations to \$16,000,000, as proposed by the Senate, instead of \$15,000,000 as proposed by the House.

The Department is directed to fund the Bank Enterprise Award program at a level not less than \$20,000,000.

The Appropriations Committees note that poverty, lack of economic opportunity, and lack of low-cost financial services continue to be problems across much of the Nation, particularly in many Hispanic-American, African-American, and Native American communities. The Committees appreciate the ongoing efforts of the CDFI Fund to work to remedy the particular problems in these communities and strongly encourage the CDFI Fund to continue to place a heavy emphasis on these efforts.

INTERNAL REVENUE SERVICE TAXPAYER SERVICES

The amended bill includes \$2,150,000,000 for Taxpayer Services, instead of \$2,155,000,000 as proposed by the House and \$2,149,200,000 as proposed by the Senate. The amended bill provides an overall increase of \$46,911,000 above the budget request. It is the intent of the Appropriations Committees that the increase above the request is in addition to, and not a substitute for, the \$94,500,000 in user fee collections that the Internal Revenue Service (IRS) estimated in its fiscal year 2008 budget request would be available to supplement the Taxpayer Services account.

Of the increase above the budget request, \$31,200,000 is directed to be targeted toward the following activities: (1) increasing IRS outreach and education activities, for individuals, businesses, and tax-exempt entities, above the levels assumed in the fiscal year 2008 budget request, and (2) increasing the number of tax returns prepared at IRS Taxpayer Assistance Centers. The Department is directed to include, in its fiscal year 2008 operating plan, a specific plan for increasing these activities above the levels assumed in the budget request. For purposes of comparison, the plan should include: (1) details on the funding levels and full-time equivalents (FTEs) assumed in the fiscal year 2008 budget request for these activities, and (2) funding levels and FTEs for these activities as funded by this Act.

Within the overall funds provided, the amended bill provides not less than \$3,000,000 for Tax Counseling for the Elderly and not less than \$9,000,000 for low-income taxpayer clinic grants. In addition, not less than \$177,000,000 is provided for operating expenses of the IRS Taxpayer Advocate Service (TAS). The Appropriations Committees note that previous IRS budget requests have recognized that a portion of the TAS budget is enforcement-related, due to the increases in TAS caseload resulting from stepped-up IRS enforcement activity. The Committees urge the Department, in future year budget requests, to include a portion of the TAS operating expenses budget in the IRS Enforcement account.

The amended bill also provides \$8,000,000, to be available until September 30, 2009, to

establish a matching grant demonstration program for Community Volunteer Income Tax Assistance (VITA) programs, instead of \$10,000,000 as proposed by the Senate and no funding as proposed by the House. The Appropriations Committees direct that the matching grant program be administered by the IRS in consultation with the Taxpayer Advocate Service. The program shall provide direct funds to enable VITA programs to extend services to underserved populations and hardest-to-reach areas, both urban and non-urban, as well as to increase the capacity to file returns electronically, heighten quality control, enhance training of volunteers, and significantly improve the accuracy rate of returns prepared by VITA sites. The Appropriations Committees direct the IRS, in consultation with the National Taxpayer Advocate, to submit to the Committees, within 90 days of enactment, a proposed design plan for the matching grant program, including the scope of eligibility, an equitable selection methodology which takes into account geographic diversity, and an evaluation component to measure the overall effectiveness of the program and the results achieved.

The IRS is directed to strengthen, improve, and expand taxpayer service overall. If the IRS proposes further reductions in specific taxpayer services, such reductions must be consistent with the budget justification, operating plan, and Taxpayer Assistance Blueprint, and the IRS must demonstrate that such reductions will not result in a decline in voluntary compliance. Where such reductions involve a reduction in face-to-face service, the IRS must demonstrate that the proposed reductions do not adversely impact compliance by taxpayers who are dependent on such services, by showing, through such means as a successful pilot program, survey, or other empirical means, that there is an effective and viable service alternative available.

The Appropriations Committees reiterate and modify House and Senate report language directing the IRS, together with the IRS Oversight Board and the National Taxpayer Advocate, to submit annually to the Committees an update to the Taxpayer Assistance Blueprint, detailing its implementation status and identifying any changes to the strategic plan for taxpayer service, including any research and relevant findings completed to date, and any open issues requiring additional research. The first update shall be submitted 90 days after enactment of this Act.

ENFORCEMENT (INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$4,780,000,000 for Enforcement, instead of \$4,925,498,000 as proposed by the House and the Senate. Of the funds provided, \$57,252,000 is for the Inter-agency Crime and Drug Enforcement (ICDE) program. The amended bill also permits the transfer of up to \$10,000,000 to the Operations Support account for administrative costs of the ICDE program.

The Appropriations Committees reiterate and modify the House report language requiring the IRS to work with the National Taxpayer Advocate and IRS Oversight Board to develop a 5-year strategic plan for research to be submitted to the Committees no later than September 30, 2008. In addition, the Appropriations Committees reiterate the Senate report language: (1) directing the National Taxpayer Advocate and the IRS Office of Research to report to the Committees, by September 30, 2008, on factors that influence taxpayer compliance behavior; (2) directing the IRS to submit to the Committees, no later than March 1, 2008, a detailed research plan to address the shortfalls in the National Research Program (NRP); and (3) directing

IRS, in administering its NRP for fiscal year 2008, to work with the National Taxpayer Advocate to collect information on the causes of noncompliance.

OPERATIONS SUPPORT

The amended bill provides \$3,680,059,000 for Operations Support, instead of \$3,769,587,000 as proposed by the House and the Senate. Of the funds provided, \$75,000,000 is available until September 30, 2009 for information technology support and \$1,000,000 is available until September 30, 2010 for research. In addition, not less than \$2,000,000 is provided for the IRS Oversight Board and not more than \$25,000 is for reception and representation expenses.

The Appropriations Committees modify the Senate directive that the IRS include in its operating plan details on any planned reorganization, job reductions, or increases to offices or activities within the agency, or modifications to any service or enforcement activity. The Committees direct the IRS to obtain comments on the operating plan from the IRS Oversight Board and to provide a summary of the comments as part of the operating plan submission.

The Appropriations Committees reiterate and modify the Senate directive that the IRS review its entire non-Business Systems Modernization information technology portfolio to ensure performance efficiencies that support tax administration activities. The Committees expect the IRS to make any changes necessary to ensure that each project has: (1) been properly classified for investment decision and management purposes, (2) the appropriate governance structure in place, (3) a risk management plan, (4) a contingency plan, (5) adequate provisions in the contracts to ensure penalties and repayment to the agency if performance is not met, (6) adequate contractor staffing and management in place to fulfill the contract terms and deliverables, and (7) been certified by the head of the relevant IRS business unit that the project is deemed necessary for its operations and meets its requirements. The Committees direct the IRS Chief Information Officer to submit a report within 120 days of enactment to the IRS Oversight Board, the Treasury Department, the Office of Management and Budget, the House and Senate Appropriations Committees, the House Ways and Means Committee, and the Senate Finance Committee that certifies that the review has been completed, summarizes the findings, and describes actions being taken to address any problems identified. The Appropriations Committees further direct the IRS to provide quarterly briefings to the IRS Oversight Board and the Treasury Inspector General for Tax Administration on the status of its information technology portfolio and to report immediately if any project experiences significant cost variances or milestone delivery date slippages. In addition, the Committees direct the IRS to review all critical systems and report to the Committees no later than 45 days after enactment of this Act on any actual or potential systems problems or risks impacting the 2008 filing season.

BUSINESS SYSTEMS MODERNIZATION

The amended bill provides \$267,090,000 for Business Systems Modernization (BSM), instead of \$282,090,000 as proposed by the House and the Senate. Language is included requiring approval by the Appropriations Committees of a GAO-reviewed spending plan for BSM prior to the obligation of the funds, except in the case of funds for IRS labor costs.

HEALTH INSURANCE TAX CREDIT ADMINISTRATION

The amended bill provides \$15,235,000 for administration of the Health Insurance Tax

Credit program as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS—INTERNAL
REVENUE SERVICE

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes the following administrative provisions that were proposed by both the House and the Senate:

Section 101 providing transfer authority;

Section 102 requiring IRS to maintain training in taxpayer rights;

Section 103 requiring IRS to safeguard taxpayer information;

Section 104 permitting funding for 1-800 help line services and directing the Commissioner to make improving phone service a priority;

Section 105 extending the authority of the Secretary of the Treasury to exercise streamlined critical pay authority with respect to certain IRS professional positions;

Section 106 extending the authority of the Secretary of the Treasury with respect to certain IRS personnel flexibilities relating to recruitment, retention, relocation incentives, and performance awards; and

Section 107 transferring from the Office of Management and Budget to the Office of Personnel Management the authority to fix the rate of basic pay for IRS positions that have been designated by the Secretary of the Treasury under streamlined critical pay authority.

In addition, the amended bill includes the following administrative provision:

Section 108 provides that not less than \$7,350,000 shall be available for increasing, above fiscal year 2007 levels, the number of IRS personnel and related support activities performing IRS Automated Collection System functions. The Appropriations Committees are concerned that the IRS is not adequately utilizing the Automated Collection System (ACS) to maximize its in-house capacity to collect outstanding tax debt despite the \$13 to \$1 return on investment these positions deliver. The Appropriations Committees modify the House report language regarding retraining of employees and direct the IRS, as it increases ACS FTEs, to give preference and provide any necessary training to submission processing employees who have been subject to a reduction in force within the last two years or who will face the loss of their current position within the next two years. The Committees believe that this increase in ACS collection capacity will help to close the tax gap by bringing in more revenue at less cost than using private collection agencies and strongly urge the IRS to look to funding made available for administration of the private collection program to fund this increase in ACS positions.

The amended bill does not include the following administrative provisions:

Section 105 of the Senate bill regarding the Taxpayer Advocate Service;

Section 105 of the House bill and Section 106 of the Senate bill, relating to funding for enforcement;

Section 107 of the Senate bill relating to additional transfer authority to implement the restructuring of the IRS accounts;

Section 108 of the Senate bill directing IRS to develop a strategic plan to increase the voluntary tax compliance rate to 85 percent in fiscal year 2009; however, the Appropriations Committees note that on August 2, 2007, the IRS issued a report on improving voluntary compliance, and the Committees direct the IRS to consult with the Taxpayer Advocate and the IRS Oversight Board to develop proposals for continued growth in the voluntary compliance rate;

Section 112 of the Senate bill limiting funding in support of tax collection contracts;

Section 113 of the Senate bill precluding the use of funds to expand the number of qualified tax collection contracts while the IRS is eliminating processing center employees, mandating a cost comparison study and report, and requiring a disability preference program for any additional qualified tax collection contracts; and

Section 114 of the Senate bill restricting the use of funds to ramp down or eliminate submission processing activities until the IRS issues a report on the potential for employee reassignments.

ADMINISTRATIVE PROVISIONS—
DEPARTMENT OF THE TREASURY
(INCLUDING TRANSFERS OF FUNDS)

The amended bill includes the following administrative provisions that were proposed by both the House and the Senate:

Section 109 allowing Treasury to purchase uniforms, lease vehicles, and engage in other activities pursuant to title 5 U.S.C. 5901;

Section 110 allowing for the transfer of up to 2 percent of funds between Departmental Offices and the various Treasury bureaus, except the IRS;

Section 111 allowing for the transfer of up to 2 percent from the IRS accounts to TIGTA;

Section 112 directing that the purchase of vehicles be consistent with vehicle management principles;

Section 113 prohibiting funding to redesign the \$1 note;

Section 114 allowing for the transfer of funds from Financial Management Service, Salaries and Expenses' to the Debt Collection Fund conditional on future reimbursement;

Section 115 extending the pay demonstration program for one year;

Section 116 prohibiting funds to build a United States Mint museum without the approval of the authorizing committees of jurisdiction; and

Section 117 prohibiting funding for consolidating functions of the United States Mint and the Bureau of Engraving and Printing without the approval of the House and Senate Appropriations Committees and the authorizing committees of jurisdiction.

The amended bill includes the following administrative provisions that were proposed by the Senate:

Section 118 specifying that funds for Treasury intelligence activities are deemed to be specifically authorized until enactment of the fiscal year 2008 intelligence authorization act; and

Section 119 clarifying that the Check Forgery Insurance Fund is the appropriate funding source for disbursing errors for which relief has been granted under 31 U.S.C. 3527.

TITLE II

EXECUTIVE OFFICE OF THE PRESIDENT
AND FUNDS APPROPRIATED TO THE
PRESIDENT

COMPENSATION OF THE PRESIDENT

The amended bill provides \$450,000 for compensation of the President as proposed by both the House and Senate.

WHITE HOUSE OFFICE
SALARIES AND EXPENSES

The amended bill provides \$51,656,000 as proposed by the Senate, instead of \$53,156,000 as proposed by the House. The amended bill provides funding for the Privacy and Civil Liberties Oversight Board under a separate heading.

EXECUTIVE RESIDENCE AT THE WHITE HOUSE
OPERATING EXPENSES

The amended bill provides \$12,814,000 as proposed by both the House and the Senate.

WHITE HOUSE REPAIR AND RESTORATION

The amended bill provides \$1,600,000 as proposed by both the House and the Senate.

COUNCIL OF ECONOMIC ADVISERS

SALARIES AND EXPENSES

The amended bill provides \$4,118,000 as proposed by both the House and the Senate.

OFFICE OF POLICY DEVELOPMENT

SALARIES AND EXPENSES

The amended bill provides \$3,482,000 as proposed by both the House and the Senate.

NATIONAL SECURITY COUNCIL

SALARIES AND EXPENSES

The amended bill provides \$8,640,000 as proposed by both the House and the Senate.

PRIVACY AND CIVIL LIBERTIES OVERSIGHT
BOARD

SALARIES AND EXPENSES

The amended bill provides \$2,000,000 for the Privacy and Civil Liberties Oversight Board (PCLOB) as proposed by the Senate. The House provided \$1,500,000 for the PCLOB under the "White House Office, Salaries and Expenses" account. The amended bill modifies language proposed by the Senate regarding the citation of authorities.

OFFICE OF ADMINISTRATION

SALARIES AND EXPENSES

The amended bill provides \$91,745,000, instead of \$92,829,000 as proposed by both the House and the Senate.

OFFICE OF MANAGEMENT AND BUDGET

SALARIES AND EXPENSES

The amended bill provides \$78,000,000 for the Office of Management and Budget (OMB) instead of \$78,394,000 as proposed by both the House and the Senate.

The amended bill includes a provision, as proposed by the House, requiring that appropriations be applied only to the objects for which appropriations were made and shall be allocated in accordance with the terms and conditions set forth in the relevant explanatory statement, except as otherwise provided by law. The Senate did not propose similar language.

The amended bill continues prior-year restrictions on the review of agricultural marketing orders, as well as restrictions and congressional notification requirements for the review of water resource matters, as proposed by both the House and the Senate. The amended bill also continues language that restricts OMB from evaluating or determining if Water Resources Project reviews are in compliance with laws, regulations, and requirements relevant to the Civil Works water resource planning process, as proposed by the Senate. The House did not propose similar language.

The Federal Government has had a history of poorly managed and failed information technology projects, unfortunately resulting in expensive burdens to taxpayers. OMB can do more to better identify and track the causes for performance failure. OMB shall publish in the annual budget submission the specific reasons why a project is on OMB's High Risk List or OMB's Management Watch List. This information will allow GAO and Congress to spot trends, track progress and recommend corrective action.

OFFICE OF NATIONAL DRUG CONTROL POLICY

SALARIES AND EXPENSES

The amended bill provides \$26,402,000 for Office of National Drug Control Policy (ONDCP) salaries and expenses, instead of \$26,636,000 as proposed by the House and \$25,152,000 as proposed by the Senate. Of this amount, \$250,000 is for policy research and evaluation as proposed by the Senate, instead of \$1,316,000 as proposed by the House. Also provided within the overall amount is \$1,250,000 for an independent study and analysis of ONDCP's organization and management, instead of \$1,500,000 as proposed by the Senate.

Within the total amount provided, the amended bill provides the following funding levels:

	Amount	FTE
Office of the Director	\$4,150,000	18
Office of the Deputy Director		(vacant)
Office of Management and Administration	3,072,000	15
Office of Legal Counsel	1,100,000	6
Office of Public Affairs	1,950,000	7
Office of Legislative Affairs	1,015,000	7
Major Cities		
CTAC ¹		
Office of Planning and Budget	3,272,000	17
Office of Demand Reduction	1,780,000	11
Office of National Youth Anti-Drug Media Campaign	825,000	6
Office of State, Local, & Tribal Affairs	2,125,000	14
Office of Supply Reduction	2,860,000	17
Policy Research	250,000	
Rental payments to GSA	2,753,000	
Organization and management study	1,250,000	

¹The amended bill includes \$1,000,000 for counter-narcotics research and development projects under the "Counterdrug Technology Assessment Center" heading. ONDCP is expected to administer this program using resources and FTE available in other ONDCP offices.

Senate report language regarding policy research and evaluation is adopted, and the Appropriations Committees reiterate that the use of policy research funds was never intended to be used for primary data collection. Funding for policy research shall be used as it was originally intended, and ONDCP shall report to the Committees on Appropriations on its policy research plans for using these funds within 30 days after the enactment of this Act.

The amended bill assumes that not more than \$600,000 shall be provided for travel by ONDCP officials, and although travel amounts are not allocated by office as proposed in the Senate report, the Appropriations Committees note the extensive travel conducted by ONDCP officials at taxpayer expense. The Committees are aware of investigations of travel by ONDCP that may have occurred for political purposes and caution the Director and other high-ranking officials that travel should occur for official business reasons only, not for political gain, and that travel should occur only when absolutely necessary in order to fulfill the ONDCP mission.

Senate report language that requires the Director of ONDCP to provide to the Committees on Appropriations quarterly reports on travel expenditures, summarized by office, program, and individual, including dates and purpose of travel is adopted. The Director shall provide to the Committees on Appropriations quarterly reports on staffing levels and plans for future hirings. The staffing report shall include office, position title,

salary, and job classifications of all persons employed by ONDCP, including contractors.

The Appropriations Committees remain concerned about methamphetamine production, trafficking, and abuse. ONDCP should continue and strengthen its efforts to combat this problem. Such efforts should include working with other Federal agencies, as well as with state and local governments, to develop and implement strategies to reduce the demand for and supply of methamphetamine. The Appropriations Committees concur with Senate report language requiring the Director to report to the Committees on Appropriations within 30 days after enactment of this Act on its efforts to meet the requirements of House Report 109-307, the conference report to accompany H.R. 3058 (109th Congress). As part of that report, the Director shall also report on additional options for how ONDCP, in conjunction with other Federal agencies if appropriate, can reduce methamphetamine use, particularly in rural communities. The consideration of options that result in the expansion of methamphetamine treatment for pregnant and parenting women offenders is encouraged.

COUNTERDRUG TECHNOLOGY ASSESSMENT CENTER

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$1,000,000 for the Counterdrug Technology Assessment Center, instead of \$10,000,000 as proposed by the House. The Senate did not include funding. The amended bill provides this funding for counter-narcotics research and development and requires that a spending plan for the use of these funds be submitted no later than 90 days after enactment of this Act.

FEDERAL DRUG CONTROL PROGRAMS HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides \$230,000,000 for the High Intensity Drug Trafficking Areas (HIDTA) Program, instead of \$226,000,000 as proposed by the House and \$235,000,000 as proposed by the Senate. Funds shall be available until September 30, 2009, as proposed by the Senate. Of the funds provided, no less than \$2,000,000 shall be for new counties; \$2,100,000 is provided for audit activities; and up to \$400,000 shall be for the final year of development and implementation of a data collection system to measure performance.

The amended bill requires ONDCP to submit recommendations for approval to the Committees on Appropriations for both the initial HIDTA allocation funding within 90 days after the enactment of this Act and the discretionary HIDTA funding, according to the framework proposed jointly by the HIDTA Directors and ONDCP, within 120 days after the enactment of this Act.

While many positive steps have been made by the Lake County HIDTA, continued Federal management is needed to ensure the HIDTA's ability to meet its program goals. The Lake County HIDTA board is encouraged to select a highly-qualified Federal official to chair the Executive Board of the Lake County HIDTA for fiscal years 2008 through 2011.

OTHER FEDERAL DRUG CONTROL PROGRAMS (INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$164,300,000 for Other Federal Drug Control Programs, instead of \$197,800,000 as proposed by the House and \$204,735,000 as proposed by the Senate. Within the amount provided, the bill provides the following allocations:

(In thousands of dollars)	
National Youth Anti-Drug Media Campaign	\$60,000

(In thousands of dollars)—Continued

Drug Free Communities Support Program	90,000
National Drug Court Institute	1,000
National Alliance for Model State Drug Laws ..	1,250
Demonstration programs for chronic hard drug users under community supervision	500
U.S. Anti-Doping Agency ..	9,600
World Anti-Doping Agency Membership Dues	1,700
Performance Measures Development	250

UNANTICIPATED NEEDS

The amended bill provides \$1,000,000 as proposed by both the House and the Senate.

SPECIAL ASSISTANCE TO THE PRESIDENT

SALARIES AND EXPENSES

The amended bill provides \$4,432,000 as proposed by both the House and the Senate, and adopts the account header as proposed by the Senate.

OFFICIAL RESIDENCE OF THE VICE PRESIDENT

OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$320,000 as proposed by both the House and the Senate, and adopts the account header as proposed by the Senate.

ADMINISTRATIVE PROVISIONS—EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

(INCLUDING TRANSFER OF FUNDS)

Section 201 provides transfer authority between "White House Office", "Executive Residence at the White House", "White House Repair and Restoration", "Council of Economic Advisers", "National Security Council", "Office of Administration", "Office of Policy Development", "Special Assistance to the President", and "Official Residence of the Vice President" as proposed by the House. The Senate proposed transfer authority between "White House Office", "Executive Residence at the White House", "White House Repair and Restoration", "Office of Management and Budget", "Special Assistance to the President", and "Official Residence of the Vice President".

Section 202 requires a financial plan by ONDCP by program, project, and activity as proposed by the Senate. The House bill required a similar plan on a project-by-project basis.

Section 203 specifies that not to exceed 2 percent of ONDCP appropriations may be transferred between appropriated programs upon advance approval of the Committees. The Senate bill proposed 3 percent. The House bill did not include a similar provision.

Section 204 specifies that not to exceed \$1,000,000 of ONDCP appropriations may be reprogrammed upon advance approval of the Committees as proposed by the Senate. The House bill did not include a similar provision.

The amended bill does not include section 205 of the Senate bill concerning the availability of funds for any program, project, or activity in excess of the budget estimates.

The Appropriations Committees emphasize the importance of ONDCP adhering to the requirements of this Act with regard to transfers and reprogrammings. Timely notification of proposed transfers and reprogrammings to the Committees on Appropriations must be made, and such transfers and reprogrammings may not be implemented without the advance approval of the Committees. Sections 203 and 204 establish

benchmarks for ONDCP transfers and reprogrammings, and section 610 contains approval requirements for the creation or elimination of programs or activities, including the reorganization of offices.

TITLE III

COURTS OF APPEALS, DISTRICT COURTS, AND
OTHER JUDICIAL SERVICES

SALARIES AND EXPENSES

The amended bill provides \$4,604,762,000 for the salaries and expenses of the Courts of Appeals, District Courts, and Other Judicial Services, instead of \$4,660,590,000 as proposed by the House and \$4,709,991,000 as proposed by the Senate. The amended bill provides an additional \$14,500,000 in emergency funding for a homeland security border initiative to address the critically understaffed workload associated with increased immigration enforcement along the Southwest border. In addition, the amended bill includes \$4,099,000 for the Vaccine Injury Compensation Trust Fund as proposed by both the House and the Senate.

DEFENDER SERVICES

The amended bill provides \$835,601,000 for Defender Services, instead of \$830,499,000 as proposed by the House and \$840,601,000 as proposed by the Senate. The amended bill provides a cost of living adjustment from \$94 to \$96 an hour for non-capital panel attorneys and an adjustment from \$166 to \$170 an hour for attorneys associated with capital cases. The bill further provides a pay raise from \$96 to \$100 an hour for non-capital panel attorneys. In addition, the amended bill provides \$10,500,000 in emergency funding to address the expected increased workload of attorneys appointed to represent persons under the Criminal Justice Act of 1964 as a result of increased immigration enforcement along the Southwest border.

FEES OF JURORS AND COMMISSIONERS

The amended bill provides \$63,081,000 for fees of jurors and commissioners as proposed by the Senate, instead of \$62,350,000 as proposed by the House.

COURT SECURITY

(INCLUDING TRANSFERS OF FUNDS)

The amended bill includes \$410,000,000 for court security, instead of \$396,476,000 as proposed by the House and \$412,720,000 as proposed by the Senate.

ADMINISTRATIVE OFFICE OF THE UNITED
STATES COURTS

SALARIES AND EXPENSES

The amended bill provides \$76,036,000 for the salaries and expenses of the Administrative Office of the United States Courts, instead of \$75,667,000 as proposed by the House and \$78,536,000 as proposed by the Senate. The amended bill includes \$8,500 for official reception and representation purposes. The Administrative Office of the U.S. Courts is directed to include, as an addendum to the annual budget submission, a detailed five-year plan for courthouse construction projects with a yearly update of total projected future funding needs for associated rent payments and construction costs.

FEDERAL JUDICIAL CENTER

SALARIES AND EXPENSES

The amended bill provides \$24,187,000 for salaries and expenses of the Federal Judicial Center, instead of \$23,994,000 as proposed by the House and \$24,475,000 as proposed by the Senate. The amended bill includes \$1,800,000 to be available until September 30, 2009. The Federal Judicial Center is directed to keep the House and Senate Committees on Appropriations informed of new staff hires throughout fiscal year 2008.

JUDICIAL RETIREMENT FUNDS

PAYMENT TO JUDICIARY TRUST FUNDS

The amended bill provides \$65,400,000 for payments for various judicial retirement funds as proposed by both the House and the Senate.

UNITED STATES SENTENCING COMMISSION

SALARIES AND EXPENSES

The amended bill provides \$15,477,000 for the salaries and expenses of the United States Sentencing Commission, as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS—THE JUDICIARY
(INCLUDING TRANSFER OF FUNDS)

The amended bill includes the following administrative provisions for this Act that were proposed by both the House and the Senate:

Section 301 allowing the Judiciary to expend funds for the employment of expert and consultative services;

Section 302 providing transfer authority in compliance with reprogramming guidelines set forth in sections 605 and 610 of this Act;

Section 303 authorizing not to exceed \$11,000 to be available for official reception and representation; and

Section 304 requiring a financial plan from the Judiciary allocating the sources and uses of all funds within 90 days of enactment of this Act.

In addition, the amended bill includes the following general provisions:

Section 305 authorizes a cost of living adjustment for fiscal year 2008 for Federal judges, similar to language proposed by the Senate.

Section 306 extends the authority to contract for repairs of less than \$100,000 to the Judiciary for fiscal year 2008, similar to language proposed by the Senate.

Section 307 authorizes a pilot program to allow the Administrative Office of the United States Courts to reimburse the United States Marshals Service for some services currently being performed by the Federal Protective Service as proposed by the Senate.

Section 308 adds Vancouver as an eligible place of holding court for the Western District of Washington, as proposed by the Senate.

Section 309 extends the term of temporary judgeships in Kansas and Northern Ohio for one year.

TITLE IV

DISTRICT OF COLUMBIA

FEDERAL FUNDS

FEDERAL PAYMENT FOR RESIDENT TUITION
SUPPORT

The amended bill includes \$33,000,000 for a Federal payment for tuition support as proposed by the Senate instead of \$35,100,000 as proposed by the House. The District of Columbia is expected to adhere to the authorizing statute with regard to the administrative expenses associated with operation of this program.

FEDERAL PAYMENT FOR EMERGENCY PLANNING
AND SECURITY COSTS IN THE DISTRICT OF CO-
LUMBIA

The amended bill provides \$3,352,000 as proposed by both the House and the Senate for a Federal payment to the District of Columbia for the costs associated with emergency planning and security. Within the amount provided, \$352,000 is for the District of Columbia National Guard for a tuition assistance program.

DISTRICT OF COLUMBIA COURTS

FEDERAL PAYMENT FOR THE DISTRICT OF
COLUMBIA COURTS

The amended bill provides \$223,920,000 as a Federal payment to the District of Columbia Courts, instead of \$256,395,000 as proposed by the House and \$217,318,000 as proposed by the Senate. Within this amount, \$10,800,000 is for the District of Columbia Court of Appeals, \$98,359,000 is for the District of Columbia Superior Court, \$52,170,000 is for the District of Columbia Court System and \$62,591,000 is for capital improvements to Court facilities. The Committees on Appropriations continue to be concerned with substandard working conditions at the Moultrie Courthouse cellblock. The District of Columbia Courts are directed to incorporate upgrades to the cellblock as a priority among the other capital improvements and to submit a plan to upgrade the cellblock conditions to the Committees on Appropriations within 60 days of enactment of this Act.

DEFENDER SERVICES IN DISTRICT OF COLUMBIA
COURTS

The amended bill includes \$47,975,000 for Defender Services in the District of Columbia, instead of \$52,475,000 as proposed by the House, and \$43,475,000 as proposed by the Senate. This amount is intended to provide an increase in the hourly rate for attorneys at half of the requested amount.

FEDERAL PAYMENT TO THE COURT SERVICES
AND OFFENDER SUPERVISION AGENCY FOR THE
DISTRICT OF COLUMBIA

The amended bill provides \$190,343,000 for the Court Services and Offender Supervision Agency for the District of Columbia as proposed by the House, instead of \$190,791,000 as proposed by the Senate.

FEDERAL PAYMENT TO THE DISTRICT OF
COLUMBIA PUBLIC DEFENDER SERVICE

The amended bill includes \$32,710,000 for a Federal payment to the District of Columbia Public Defender Service as proposed by both the House and the Senate.

FEDERAL PAYMENT TO THE DISTRICT OF
COLUMBIA WATER AND SEWER AUTHORITY

The amended bill provides \$8,000,000 for a Federal payment for the District of Columbia Water and Sewer Authority (WASA), instead of \$12,000,000 as proposed by both the House and the Senate. WASA is directed to provide matching funds in the amount of \$6,000,000 and the District of Columbia is directed to provide \$2,000,000 in matching funds.

FEDERAL PAYMENT TO THE CRIMINAL JUSTICE
COORDINATING COUNCIL

The amended bill provides \$1,300,000 to the Criminal Justice Coordinating Council

(CJCC), as proposed by both the House and the Senate. The CJCC is directed to report annually on performance measures and individual initiatives to the Committees on Appropriations.

FEDERAL PAYMENT TO THE OFFICE OF THE CHIEF FINANCIAL OFFICER OF THE DISTRICT OF COLUMBIA

The amended bill provides \$5,453,000 instead of \$6,148,000 as proposed by the House for a Federal payment to the Office of the Chief Financial Officer of the District of Columbia. The Senate did not include funding for this account. The funding is for grants to the following organizations with the requirement that the funds be spent primarily in the District of Columbia to benefit District residents:

Project name	Amount
ARISE Foundation, Life-Management Skills Intervention/Re-entry Program for High Risk Youth	\$282,000
Barracks Row	500,000
Bright Beginnings, Inc.	100,000
Catalyst, Eastgate HOPE VI project	132,000
Center for Inspired Teaching	52,500
Earth Conservation Corps	282,000
East Capitol Center for Change, the Capital Area Asset Building Corporation, and the National Center for Fatherhood to administer Marriage Development Accounts in the District of Columbia	1,800,000
Eastern Market	131,000
Everybody Wins!	100,000
Excel Institute, Automotive Workforce Development Training Program	300,000
Historic Congressional Cemetery	625,000
Howard University College of Dentistry, Community Based Dental Education	52,500
International Youth Service and Development Corps	600,000
MenzFit, Career Development and Interview Preparation Program	23,500
Sitar Arts Center, Arts for Teens Initiative	22,500
Southeastern University	300,000
STEEED Youth Program	150,000

FEDERAL PAYMENT FOR SCHOOL IMPROVEMENT

The amended bill includes \$40,800,000 for a Federal payment for school improvement, as proposed by both the House and the Senate. Within this amount, \$13,000,000 is for public schools, \$13,000,000 is for public charter schools, and \$14,800,000 is to provide opportunity scholarships.

FEDERAL PAYMENT FOR CONSOLIDATED LABORATORY FACILITY

The amended bill provides \$5,000,000 for a Federal payment for a consolidated laboratory facility in the District of Columbia, instead of \$10,000,000 as proposed by both the House and the Senate. The District of Columbia is directed to submit a spending plan describing the capital needs of this project.

FEDERAL PAYMENT FOR CENTRAL LIBRARY AND BRANCH LOCATIONS

The amended bill provides \$9,000,000 for a Federal payment to the District of Columbia for a central library and branch locations, instead of \$10,000,000 as proposed by both the House and the Senate.

FEDERAL PAYMENT TO REIMBURSE THE FEDERAL BUREAU OF INVESTIGATION

The amended bill provides a Federal payment of \$4,000,000 as proposed by the House, instead of \$5,000,000 as proposed by the Senate, to:

Reimburse the Federal Bureau of Investigation for laboratory services for District of Columbia cases for the sole purpose of:

Evidence examination and subsequent DNA analysis for the District of Columbia cold case DNA backlog; and

Expansion of resources dedicated to the processing of District of Columbia cases, including personnel, after October 1, 2007; and

Data entry and analysis for District of Columbia cold cases.

FEDERAL PAYMENT TO THE EXECUTIVE OFFICE OF THE MAYOR OF THE DISTRICT OF COLUMBIA

The amended bill provides \$5,000,000 for a Federal payment to the Executive Office of

the Mayor of the District of Columbia instead of \$14,000,000 as proposed by the Senate, to enhance the quality of life for District residents. Of this amount \$1,000,000 is to enhance local efforts for improving water quality of the Anacostia River, \$1,000,000 is for historic preservation, \$2,000,000 is for support of the Mayor's new public education initiative, and \$1,000,000 is to expand pediatric health care. The Mayor of the District of Columbia is directed to submit a detailed spending plan to the Committees on Appropriations, including performance measures, before these funds may be expended within 30 days of enactment of this Act. The Mayor is further directed to submit a progress report on these activities no later than June 1, 2008 and a final report describing outcomes achieved no later than November 1, 2009.

HIV/AIDS IN THE DISTRICT OF COLUMBIA

It is noted that the President requested over \$5,000,000,000 for prevention, care and treatment of HIV/AIDS overseas. Yet an epidemic has developed in Washington, DC, our Nation's capital. While on average the United States has 14 cases of HIV per 100,000 people, there are 128 cases per 100,000 in Washington, DC. The Committees on Appropriations expect that given the billions of dollars that is appropriated each year for HIV/AIDS programs overseas, the President in his fiscal year 2009 budget submission will request specific Federal funds for the District of Columbia to combat the City's health crisis.

DISTRICT OF COLUMBIA FUNDS

The amended bill provides authority for the District of Columbia to spend \$9,773,775,000 from the General Fund of the District of Columbia. Of the funds provided, \$6,111,623,000 is from local funds, of which \$339,989,000 is from the general fund balance; \$2,015,854,000 is from the Federal grant funds; \$1,637,736,000 is from other funds; and \$8,562,000 is from private funds. In addition, the District may use \$114,905,000 from funds previously appropriated in this Act.

For capital construction, the amended bill provides an additional \$1,607,703,000. Of the funds provided, \$1,042,712,000 is from local funds, \$38,523,000 is from the Highway Trust Fund, \$73,260,000 is from the Local Street Maintenance Fund, \$75,000,000 is from revenue bonds, \$150,000,000 is from financing for the consolidated laboratory facility, \$42,200,000 is for stadium construction, and \$186,008,000 is from Federal grant funds. In addition, \$212,696,000 of prior year local funds are rescinded. In total, \$1,395,007,000 is provided.

TITLE V INDEPENDENT AGENCIES

COMMODITY FUTURES TRADING COMMISSION

The amended bill includes no funding for the Commodity Futures Trading Commission (CFTC), instead of \$116,000,000 as proposed by the Senate. Funding for the CFTC will be addressed in the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2008.

CONSUMER PRODUCT SAFETY COMMISSION SALARIES AND EXPENSES

The amended bill includes \$80,000,000 for the Consumer Product Safety Commission (CPSC), instead of \$70,000,000 as proposed by the Senate or \$66,838,000 as proposed by the House. The amended bill also allows \$1,000 for official reception and representation expenses as proposed by the Senate, instead of \$500 as proposed by the House.

Increases in the CPSC's budget are to be directed toward increased staff, workspace, and information technology resources, with the objective of considerably improving the CPSC's ability to safeguard consumers

against dangerous products. In particular, the CPSC shall hire in the areas of hazard identification and reduction, as well as compliance and field operations. With these additional resources, the CPSC shall intensify monitoring of children's products and redouble its efforts to keep dangerous toys and other products out of children's hands.

The Appropriations Committees emphasize the importance of replacing and upgrading the CPSC's testing laboratory and expect the fiscal year 2009 budget request to include sufficient funding to provide for a new facility.

House report language directing CPSC to include a full report on its information technology modernization requirements in its fiscal year 2009 budget request is reiterated.

ELECTION ASSISTANCE COMMISSION SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$16,530,000 for salaries and expenses of the Election Assistance Commission (EAC), instead of \$15,467,000 as proposed by the House and \$16,517,000 as proposed by the Senate. Senate report language directing that \$750,000 be provided for the Help America Vote Act College Program, a competitive grant program administered by the EAC, is adopted. The House included \$750,000 for this program under the heading "Election Reform Programs".

The amended bill also includes \$200,000 for a competitive award program for mock elections for students in secondary education programs. The Senate bill included \$300,000 for this purpose, and the House bill included (under "Election Reform Programs") \$200,000 for a mock election program authorized under the Help America Vote Act. Funds may be used for eligible grantees for operating a nationwide program of simulated elections, and may support other activities including, but not limited to, forums, speeches, debates, student competitions, mock press conferences, and efforts to increase voter turnout. Senate report language is adopted directing that before funding is awarded, any grantee shall explain in detail how the mock elections are to be conducted, the number of students participating, guidelines that the program employs, internal fiscal controls used, and a statement attesting to the non-partisanship of the program.

In addition, the overall amount provided to this account includes \$112,500 for administrative costs related to the mock election competitive award program and the election data collection grants program.

The Appropriations Committees concur with House and Senate report language regarding the public release of research reports funded through the EAC. While the EAC may issue its own final reports and present its own conclusions on commissioned research, Federally-funded draft research reports presented to the EAC shall be available to the public without substantial edits. Researchers contracted to prepare those reports shall also be free to discuss their research following conclusion of the contract.

ELECTION REFORM PROGRAMS

The amended bill provides \$115,000,000 for election reform programs, instead of \$300,950,000 as proposed by the House. The Senate did not propose funding this account. This funding will be available to states for assistance in meeting the requirements of the Help America Vote Act of 2002.

The amended bill does not include language proposed by the House regarding the Help America Vote College Program or the mock election program, which are addressed instead under "Salaries and Expenses". The amended bill also does not include language proposed by the House requiring states to file new state plans.

Election Data Collection Grants

The amended bill includes \$10,000,000 to carry out a pilot program, as specified in section 501 of this Act, relating to the collection of Federal election data at the state and precinct levels. To improve the administration of future elections, policy makers need accurate information on voter registration, ballots and ballot requests, election returns, voting error rates, election infrastructure and election policies and practices. However, the record has been poor with respect to state and local jurisdictions participating in, and providing meaningful data in response to, the EAC's voluntary Election Day Survey. This pilot program would enable five states to expand and improve the collection of election data to be provided to the EAC. The EAC shall report to Congress no later than June 30, 2009 on the impact of the pilot program.

FEDERAL COMMUNICATIONS COMMISSION
SALARIES AND EXPENSES
(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$313,000,000 for the salaries and expenses of the Federal Communications Commission as proposed by the House and the Senate. Of the amounts provided, \$312,000,000 is to be derived from offsetting fee collections, resulting in a net direct appropriation of \$1,000,000. The amended bill transfers \$21,480,000 from the Universal Service Fund to the Office of Inspector General, instead of \$20,980,000 as proposed by the House and \$20,480,000 as proposed by the Senate.

The amended bill provides for \$2,500,000 for the digital television consumer education and outreach initiative, an increase of \$1,000,000 above the budget request. The Appropriations Committees encourage the maximum possible effort in preparing consumers for the digital television transition scheduled for February 2009.

ADMINISTRATIVE PROVISIONS—FEDERAL
COMMUNICATIONS COMMISSION

Section 510 extends an exemption for the Universal Service Fund as proposed by the Senate. The House did not include a similar provision.

Section 511 prohibits the Federal Communications Commission from changing rules governing the Universal Service Fund regarding single connection or primary line restrictions as proposed by the Senate. The House did not include a similar provision.

FEDERAL DEPOSIT INSURANCE CORPORATION
OFFICE OF INSPECTOR GENERAL

The amended bill includes a transfer of \$26,848,000 to fund the Office of Inspector General as proposed by both the House and the Senate.

FEDERAL ELECTION COMMISSION
SALARIES AND EXPENSES

The amended bill includes \$59,224,000 for salaries and expenses of the Commission as proposed by the House and the Senate.

FEDERAL LABOR RELATIONS AUTHORITY
SALARIES AND EXPENSES

The amended bill includes \$23,641,000 for the Federal Labor Relations Authority as proposed by the House, instead of \$23,718,000 as proposed by the Senate.

FEDERAL TRADE COMMISSION
SALARIES AND EXPENSES

The amended bill includes \$243,864,000 for the Federal Trade Commission (FTC), instead of \$247,489,000 as proposed by the House and \$240,239,000 as proposed by the Senate. Of the amounts provided, \$139,000,000 is derived from Hart-Scott-Rodino premerger filing fees as proposed by the House, instead of \$144,600,000 as proposed by the Senate. Fur-

ther, not to exceed \$23,000,000 is derived from Do-Not-Call fees, instead of \$20,000,000 as proposed by the House or \$19,000,000 as proposed by the Senate. This results in a net discretionary appropriation of \$81,864,000.

The FTC shall allocate the increase above the President's request to high-priority activities, including subprime lending investigations, the implementation of the US SAFE WEB Act, actions to fight identity theft, activities relating to maintaining competition, and training and technical assistance to developing nations.

The Appropriations Committees recognize and support the FTC's international programs. The FTC should continue competition policy and consumer protection efforts, including training and technical assistance, in developing countries.

The amended bill does not include language, proposed by the Senate, to prohibit funds for removing the FTC from its headquarters building. The Appropriations Committees are not aware of any current, formal plan to relocate the FTC. However, the Committees would oppose such a plan and would support efforts to prevent any future proposal to relocate the FTC from moving forward. Moving the Commission out of its current location could raise rent costs and therefore unnecessarily increase must-pay bills. In addition, the FTC building, which was originally designed and built for the agency in 1938, is well-suited for the Commission's essential functions. In particular, the three large ceremonial courtrooms continue to serve the needs of the Commission to meet and adjudicate competition and consumer protection cases.

Senate report language requiring the FTC to submit a report on childhood obesity and food marketing is adopted. This report shall be submitted to the Committees on Appropriations no later than 60 days after enactment of this Act.

The FTC shall submit a report to the Committees on Appropriations every six months summarizing its activities relating to ongoing reviews of mergers, acquisitions and other transactions in the oil and natural gas industries, the investigation of pricing behavior or any potential anticompetitive actions in those industries, and the resources that the Commission has devoted to such reviews and investigations during that period.

The FTC is encouraged to continue and strengthen activities in the area of consumer privacy protection, particularly with regard to Internet commerce. The Appropriations Committees are aware that this issue has been raised in the context of a recent FTC review of a proposed merger of Internet companies. The FTC should promote and, whenever possible, require adequate privacy safeguards for Internet users. This includes giving consumers knowledge and control over whether data may be collected from them by third parties as a result of their Internet activities. The FTC should also aggressively promote improved consumer awareness and education on Internet privacy matters, including requirements that Internet companies disclose on websites, in an obvious and consistent manner, what information they collect and how that information could be used.

Senate report language directing the FTC to submit reports relating to the antitrust implications of collective setting of debit and credit card interchange rates is not adopted. This issue is under the purview of the Department of Justice.

GENERAL SERVICES ADMINISTRATION

REAL PROPERTY ACTIVITIES

FEDERAL BUILDINGS FUND

LIMITATIONS ON THE AVAILABILITY OF REVENUE

The amended bill provides resources from the Federal Buildings Fund in the aggregate

of \$7,830,414,000 instead of \$7,834,612,000 as proposed by the House and \$8,370,706,000 as proposed by the Senate.

CONSTRUCTION AND ACQUISITION

The amended bill limits funds for construction to \$531,448,000 instead of \$524,540,000 as proposed by the House and \$894,992,000 as proposed by the Senate. Within this total, the amended bill includes \$225,000,000 in emergency funding as part of a homeland security border initiative. These funds will expedite construction at select land ports of entry, including one of the nation's most congested sites. The amended bill modifies the projects proposed by the House and Senate bills and provides funds for the following projects:

Project name	Amount
Arizona: San Luis, Land Port of Entry I	\$7,053,000
California: San Ysidro, Land Port of Entry	199,179,000
Illinois: Rockford, United States Courthouse	58,792,000
Maine: Madawaska, Land Port of Entry	17,160,000
Maryland: Montgomery County, Food and Drug Administration Consolidation	57,749,000
Minnesota: Warroad, Land Port of Entry	43,628,000
Missouri: Jefferson City, United States Courthouse	66,000,000
New York: Alexandria Bay, Land Port of Entry	11,676,000
Texas: El Paso, Tornillo-Guadalupe Land Port of Entry	4,290,000
Texas: Donna/Rio Bravo International Bridge, Land Port of Entry	23,384,000
Vermont: Derby Line, Land Port of Entry	33,139,000

The Committees on Appropriations reiterate the concern of the Committees regarding the progress of the courthouse project in Los Angeles and direct the General Services Administration (GSA) to work collaboratively with the Administrative Office of the United States Courts and report to the Committees on Appropriations on the status of the project within 90 days of enactment of this Act.

The Appropriations Committees are supportive of the construction of the Tuscaloosa Federal Building and urge GSA to request funding for this important project.

GSA is directed to perform a cost benefit analysis of building a Federal courthouse in Harrisburg, Pennsylvania at both the current courthouse site, as well as the site at 6th and Reilly Streets. The GSA is directed to report its finding to the Committees on Appropriations, the House Transportation and Infrastructure and the Senate Environment and Public Works Committees within 60 days of enactment of this Act. GSA is further directed that no funding, in excess of what is necessary to support this analysis, may be spent to design or begin construction of a courthouse at either site until after the findings are reported to the Committees.

REPAIRS AND ALTERATIONS

The amended bill limits resources for repairs and alterations to \$722,161,000 instead of \$733,267,000 as proposed by the House and \$804,483,000 as proposed by the Senate. The amended bill provides funding for repairs and alterations of the following projects:

Project name	Amount
District of Columbia: Eisenhower Executive Office Building, Phase III	\$121,204,000
District of Columbia: Joint Operations Center	12,800,000
District of Columbia: Nebraska Avenue Complex	27,673,000
Nevada: Reno, C. Clifton Young Federal Building and Courthouse	12,793,000
New York: New York, Thurgood Marshall United States Courthouse	170,544,000
West Virginia: Martinsburg, Internal Revenue Service Enterprise Computing Center	35,822,000

INSTALLMENT ACQUISITION PAYMENTS

The amended bill includes a limitation of \$155,781,000 as proposed by both the House and the Senate for installment acquisition payments.

RENTAL OF SPACE

The amended bill provides a limitation of \$4,315,534,000 for payments of rental of space as proposed by the House, instead of \$4,383,000,000 as proposed by the Senate.

The Committees on Appropriations have become aware that GSA's National Capital Region has decided to reverse a long-standing policy and begin to charge rent to the National Aquarium—DC, which is located in the Herbert C. Hoover Building (HCHB). The Aquarium, built in 1931, has inspired visitors and contributed to their understanding of the importance of aquatic ecosystems. The Committees are concerned that the "market rate" used by the GSA to determine the rental rate does not equitably reflect the unique history and mission of the Aquarium, nor does it adequately reflect the current state of conditions in the basement of the HCHB. Given these factors, GSA is directed to work with the National Aquarium—DC to reach an equitable agreement regarding rent either through waiver, deferral, or reduction. The GSA is directed to report back to the Committees on Appropriations no later than 90 days after the enactment of this Act on the progress of this agreement.

BUILDING OPERATIONS

The amended bill includes a limitation of \$2,105,490,000 for building operations as proposed by the House instead of \$2,132,450,000 as proposed by the Senate. Language is included, requested in the President's budget, which designates \$500,000 to be used for a competitive contribution to entities which coordinate long term siting of Federal buildings and employment in the National Capital Region.

The Committees on Appropriations are concerned about recent increases in charges from other agencies for security, especially for vacant space. The agencies are encouraged to develop an equitable agreement regarding such charges.

GENERAL ACTIVITIES

GOVERNMENT-WIDE POLICY

The amended bill provides \$52,891,000, instead of \$64,791,000 as proposed by the Senate and follows the account structure of the Senate bill. The House bill did not reflect this account structure. The Committees on Appropriations understand GSA has achieved savings in this account of \$1,900,000 and have therefore reduced the funding in this account accordingly.

The Committees on Appropriations are supportive of the Senate language regarding environmental and energy efficiency, but due to funding constraints, did not provide \$10,000,000 for the use of photovoltaic energy in public buildings as authorized by the Energy Policy Act of 2005. However, GSA is encouraged to continue such efforts and is directed to report to the Committees on Appropriations as stipulated in the Senate report.

The Administrator of the GSA is directed to report back to the Committees on Appropriations no later than 120 days after enactment of this Act on proposed and ongoing measures taken by the GSA to reduce Federal consumption of conventional diesel fuel through the use of blended renewable fuels and biofuels, in compliance with Executive Order 13423.

GSA should encourage Federal agencies to consider procurement of products, which when compared to similar products possess a technological improvement or other added value at the same or lower cost. Added value includes, but is not limited to, the protection of public health, the environment, or public safety, for example, rodent control.

OPERATING EXPENSES

The amended bill provides \$85,870,000 for Operating Expenses, instead of \$89,547,000 as proposed by the Senate. The House did not propose funding for this account. The amended bill does not include the Policy and Operations account as proposed by the House,

which had consolidated the funding and activities of the Operating Expenses and Government-wide Policy accounts, as proposed by the President.

OFFICE OF INSPECTOR GENERAL

The amended bill includes \$48,382,000 for the Office of Inspector General (OIG), instead of \$53,382,000 as proposed by the House and \$52,682,000 as proposed by the Senate. The amended bill provides \$15,000 for payment of information and detection of fraud.

The following language from the Senate report with modifications, is included:

Neither GSA personnel nor associated contractors, subcontractors, or private attorneys will attempt to impede through intimidation or obfuscation, or in any other way, thwart an audit or investigation undertaken by the OIG under the Inspector General (IG) Act and may not access emails from or to the OIG for such purposes without permission;

GSA will not automatically obligate and disburse the funds appropriated for the OIG without prior OIG consent;

GSA will not attempt to impose any unwarranted or unexplained charges from OIG's appropriated funds. The OIG will, however, continue to be responsible for contributing to agencywide support functions;

All budget submissions from OIG will be transmitted by GSA without any alteration to OMB, and all comments and passbacks from OMB on such submissions will be conveyed accurately to OIG;

GSA will not impose any freeze on hiring in OIG at any level, including the Senior Executive Service (SES), in order to facilitate the OIG's ability to implement the IG Act;

OIG shall exercise authority independent of GSA for processing the announcement and filling of all SES vacancies, including the processing of all personnel functions associated with those positions, allocated by GSA to OIG personnel functions within the OIG; OIG shall retain its authorization to perform all personnel functions for non-SES positions; and

The Administrator shall consider lapsed balance requests from the OIG in a timely manner before termination of the lapsed balance period. The OIG is directed to include lapsed balances in the annual budget submission.

ELECTRONIC GOVERNMENT FUND

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$3,000,000 for the electronic government fund, instead of \$2,970,000 as proposed by the House and \$5,000,000 as proposed by the Senate. GSA is directed to evaluate the pricing structure of its services to Federal agencies to determine if GSA is overcharging its Federal clients and report back to the Committees on Appropriations its findings no later than 120 days after enactment of this Act.

ALLOWANCES AND OFFICE STAFF FOR FORMER PRESIDENTS

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$2,478,000 for allowances and office staff for former presidents, instead of \$2,500,000 as proposed by both the House and the Senate. This reflects the decreased requirement for funding due to the passing of President Johnson's widow, "Lady Bird" Johnson.

FEDERAL CITIZEN INFORMATION CENTER FUND

The amended bill provides \$17,328,000 for the Federal Citizen Information Center, instead of \$15,798,000 as proposed by the House and \$17,790,000 as proposed by the Senate. The amended bill further provides reimbursable authority of up to \$42,000,000 to be deposited into the account for fiscal year 2008.

ADMINISTRATIVE PROVISIONS—GENERAL SERVICES ADMINISTRATION (INCLUDING TRANSFERS OF FUNDS)

The amended bill includes the following administrative provisions for the General Services Administration that were proposed by both the House and the Senate:

Section 520 authorizing GSA to credit certain accounts with funds received from government corporations;

Section 521 authorizing the use of funds for the hire of motor vehicles;

Section 522 authorizing the transfer of funds from Federal Buildings Fund to other appropriations with the advance approval of Congress;

Section 523 limiting funds for courthouse construction to certain capital improvement plan standards;

Section 524 limiting funds to increase occupiable square feet, cleaning services, security enhancements or other services to agencies which do not pay the requested rent; and

Section 525 permitting GSA to pay small claims against the Government.

In addition, the amended bill includes the following administrative provisions:

Section 526 prohibits the use of funds for GSA to reorganize its organizational structure except through an operating plan change as proposed by the Senate.

Section 527 requires that the Administrator shall ensure that the delineated area of procurement for all lease agreements is identical to the delineated area included in the prospectus unless prior notice is given to the Committees in the form of an explanatory statement.

The Committees on Appropriations are concerned about the allocation of leased GSA office space in the Greater Washington, D.C. Metropolitan area. Evidence indicates that there is a disparity between the leased space awarded in Prince George's County and that of nearby jurisdictions in the Greater Washington, D.C. Metropolitan area. Specifically, the concern is regarding the lack of space awarded around Washington Metropolitan Area Transit Authority stations in Prince George's County, Maryland.

Furthermore, it is noted that lease prospectuses #PM01-WA07 and #PDC-05-WA07 have been awaiting procurement and the Committees expect compliance with the provisions authorized in the House Transportation & Infrastructure Committee's fiscal year 2008 lease resolutions.

MERIT SYSTEMS PROTECTION BOARD

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$37,507,000 in direct appropriations and \$2,579,000 from appropriate trust funds, for salaries and expenses of the Board as proposed by the House and the Senate.

MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY FOUNDATION

MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY TRUST FUND

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$3,750,000 for the Morris K. Udall Scholarship and Excellence in National Environmental Policy Trust Fund as proposed by the Senate, instead of \$2,000,000 as proposed by the House.

ENVIRONMENTAL DISPUTE RESOLUTION FUND

The amended bill includes \$2,000,000 for the Environmental Dispute Resolution Fund as proposed by both the House and the Senate.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

OPERATING EXPENSES

The amended bill includes \$315,000,000 for operating expenses of the National Archives

and Records Administration (NARA) as proposed by the House, instead of \$313,911,000 as proposed by the Senate. The amount represents an increase of \$2,126,000 above the Administration's request. The amount above the request is directed to be targeted first to restore the public research hours that were in place prior to October 2006, and then to provide for increases in NARA's archivist staff, to help reverse staffing reductions that have been made in recent years. NARA is directed to report to the Committees on Appropriations, within 30 days of enactment, on specific steps NARA is taking to restore the research hours and to bolster NARA's archivist workforce.

ELECTRONIC RECORDS ARCHIVES

The amended bill includes \$58,028,000 for the Electronic Records Archives (ERA) project, as proposed by both the House and the Senate. The amended bill also retains the directive requiring NARA to submit, and for the Committees on Appropriations to approve, a GAO-reviewed spending plan for ERA prior to the obligation of funds.

The Appropriations Committees are increasingly concerned about the ERA program, NARA's oversight of the program, and the reliability of the work of the ERA contractor. The program has already experienced significant delays, as well as a cost overrun of approximately \$15,000,000. Further, there has been no progress toward a cost-sharing agreement whereby NARA would share with the contractor the cost of the overrun. Failure to reach agreement on a cost share will mean that taxpayers will inevitably be left to pay the full amount of the cost overrun, even for delays and failures caused by the contractor.

In addition, the ERA program continues to face significant risks that could jeopardize the ability of NARA to receive the electronic records of the current Administration in time for the January 2009 change in Administrations. Such a delay would be particularly harmful, for example, in the case of electronic national security records that are classified. These records will be needed in an accessible format to facilitate the national security work of the next Administration. While the Appropriations Committees recognize that NARA is now planning to use a separate off-the-shelf system to receive the current Administration's records, this effort is in the early planning stages and its cost and schedule have yet to be fully established.

Further ERA project delays, especially at this important juncture, are unacceptable. NARA is directed to keep the Committees on Appropriations fully informed of the progress on the ERA effort and of efforts to reach a cost share agreement with the contractor on the cost overrun. NARA should also inform the Committees specifically of how the reallocation of funds from the ERA project to acquire a new system for Presidential records will affect the ERA project. In addition, NARA is directed to provide monthly ERA progress reports, beginning no later than 30 days after enactment, to both GAO and to the Committees on Appropriations.

REPAIRS AND RESTORATION

The amended bill includes \$28,605,000 for repairs and restoration instead of \$16,095,000 as proposed by the House and \$25,173,000 as proposed by the Senate. The amended bill provides: (1) \$8,663,000 for ongoing repairs and restoration at NARA facilities; (2) \$8,000,000 for property acquisition, site preparation, construction, expansion, and renovation work for the John F. Kennedy Presidential Library; (3) \$750,000 for design work on renovations to the Franklin D. Roosevelt Presidential Library; (4) \$7,432,000 for construction of an archival addition to the Richard

M. Nixon Presidential Library; and (5) \$3,760,000 to complete the repair and restoration of the plaza that surrounds the Lyndon Baines Johnson Presidential Library.

NARA is directed to update its comprehensive capital needs assessment for its entire infrastructure of presidential libraries and records facilities. The fiscal year 2008 President's Budget provided funding for ongoing repairs only to records facilities, leaving presidential libraries—some of which are in major disrepair—solely in need of support and at risk for flooding and other potential dangers. The Appropriations Committees urge that the fiscal year 2009 President's Budget include funding for both records facilities and presidential libraries.

NATIONAL HISTORICAL PUBLICATIONS AND RECORDS COMMISSION GRANTS PROGRAM

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$9,500,000 for NARA's grant program, instead of \$10,000,000 as proposed by the House and the Senate. Of the amount provided, \$2,000,000 is to be transferred to the operating expenses account.

The Appropriations Committees are concerned about the lengthy amount of time currently required to complete the publication of the Founding Fathers historical papers projects. These projects began in the 1960s and are expected to continue two or more decades until completion. Mindful of the technologies and tools currently available, the Committees believe the Archivist should accelerate the process for delivering the papers of the Founding Fathers to the American people. Therefore, the Archivist is directed, as Chairman of the NHPRC, to develop a comprehensive plan for the online electronic publication, within a reasonable timeframe, of the papers of the Founding Fathers and to submit this plan to the Committees on Appropriations no later than 90 days after the enactment of this Act.

ADMINISTRATIVE PROVISION—NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

The amended bill modifies language proposed by the Senate requiring NARA to include, as part of its fiscal year 2009 budget justifications, a prioritized capital needs assessment for NARA facilities.

NATIONAL CREDIT UNION ADMINISTRATION CENTRAL LIQUIDITY FACILITY

The amended bill provides a limitation of \$1,500,000,000 on direct loans as proposed by both the House and the Senate.

COMMUNITY DEVELOPMENT REVOLVING LOAN FUND

The amended bill includes \$975,000 for the Community Development Revolving Loan Fund, instead of \$1,000,000 as proposed by the House and \$950,000 as proposed by the Senate.

OFFICE OF GOVERNMENT ETHICS SALARIES AND EXPENSES

The amended bill provides \$11,750,000 for salaries and expenses of the Office of Government Ethics as proposed by both the House and the Senate.

OFFICE OF PERSONNEL MANAGEMENT SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

The amended bill includes \$101,765,000 for salaries and expenses as proposed by the House and the Senate. In addition, the amended bill transfers \$123,901,000 from the Office of Personnel Management (OPM) trust funds for salaries and expenses, instead of \$123,401,000 as proposed by the House and \$124,401,000 as proposed by the Senate. Of this amount, \$26,965,000 shall be for the cost of automating the retirement recordkeeping systems, instead of \$26,465,000 as proposed by

the House and \$27,465,000 as proposed by the Senate.

As proposed by both the House and the Senate, the Appropriations Committees agree to provide up to \$2,500 for reception and representation costs, \$5,991,000 to remain available until expended for the enterprise human resources integration project, \$1,351,000 to remain available until expended for the human resources line of business project, \$340,000 to remain available until expended for the e-payroll project, and \$170,000 to remain available until expended for the e-training project.

The Federal Prevailing Rate Advisory Committee (FPRAC) has created a working group to consider new regulatory criteria for defining wage areas and to make recommendations to OPM. These criteria and recommendations will affect certain wage areas of interest to the Committees on Appropriations, including the Boston, Massachusetts, and the Narragansett Bay, Rhode Island, wage areas. The FPRAC shall report to the Committees on Appropriations on the working group's wage area criteria recommendations no later than April 30, 2008.

The Appropriations Committees understand that the Government Accountability Office (GAO) has concerns about whether OPM is effectively managing the Retirement Systems Modernization (RSM) program, particularly regarding whether OPM is taking necessary actions to ensure that system tests are successfully executed and that all critical system defects are addressed prior to system deployment. Accordingly, not later than February 20, 2008, OPM shall submit a report to the Committees on Appropriations and GAO that includes RSM system test results and describes the status of system defect resolution. The report should also describe OPM's progress toward developing a reliable program cost estimate and instituting reliable earned value management for the RSM program. GAO shall provide the Committees on Appropriations and OPM with comments on the report.

OFFICE OF INSPECTOR GENERAL SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

The amended bill provides \$1,519,000 for salaries and expenses as proposed by the House and the Senate. In addition, \$17,081,000 is provided from the OPM trust funds as proposed by the Senate, instead of \$16,981,000 as proposed by the House. Funding above the budget request is provided to support audits and investigations.

GOVERNMENT PAYMENT FOR ANNUITANTS, EMPLOYEES HEALTH BENEFITS

The amended bill provides such sums as necessary for health benefits payments as proposed by both the House and the Senate.

GOVERNMENT PAYMENT FOR ANNUITANTS, EMPLOYEES LIFE INSURANCE

The amended bill provides such sums as necessary for life insurance payments as proposed by both the House and the Senate.

PAYMENT TO THE CIVIL SERVICE RETIREMENT AND DISABILITY FUND

The amended bill provides such sums as necessary for retirement and disability payments as proposed by both the House and the Senate.

OFFICE OF SPECIAL COUNSEL SALARIES AND EXPENSES

The amended bill includes \$17,468,000 for salaries and expenses for the Office of Special Counsel (OSC), instead of \$16,368,000 as proposed by both the House and the Senate. Additional funding of \$1,100,000 is included to assist OSC with computer forensics in connection with its Special Task Force investigations.

SECURITIES AND EXCHANGE COMMISSION
SALARIES AND EXPENSES

The amended bill includes \$906,000,000 for the Securities and Exchange Commission (SEC), instead of \$908,442,000 as proposed by the House and \$905,330,000 as proposed by the Senate.

The amended bill includes \$20,000 to fund a permanent secretariat for the International Organization of Securities Commissions as proposed by the House, instead of \$13,000 as proposed by the Senate.

The amended bill permits not to exceed \$3,500 for official reception and representation expenses as proposed by the House, instead of \$3,000 as proposed by the Senate.

The amended bill provides that \$63,262,000 shall be derived from prior year unobligated balances, instead of \$41,397,000 as proposed by both the House and the Senate.

Smaller public companies deserve their own advocate within the SEC to help them face the joint challenge of meeting section 404 compliance deadlines with untested risk-based regulation. The Appropriations Committees recognize the important role of the Commission's Office of Small Business Policy and direct it to act as the Commission's Small Business Ombudsman. The Office is encouraged to maintain an 'open door' policy, regularly soliciting comments from small businesses and publishing their concerns within the Commission, to assure that the needs of small business are reflected in the Commission's rules, and in the interpretations and guidance the SEC provides to the public.

The Appropriations Committees are concerned about costs that may confront small businesses complying with section 404 of the Sarbanes-Oxley Act and related SEC guidance and Public Company Accounting Oversight Board auditing standards. Therefore, the Committees are supportive of the recent decision by the SEC to delay for an additional year the requirement for an auditor's attestation of management's assessment of internal controls. The Committees understand that the SEC is collecting cost data and will assess that data to determine whether the current guidance and standards, approved in May 2007, pose an unreasonable financial burden on small businesses. The SEC is directed to solicit the views of affected small businesses during this process.

SELECTIVE SERVICE SYSTEM
SALARIES AND EXPENSES

The amended bill includes \$22,000,000 as proposed by both the House and the Senate. The amended bill also includes language to allow the President to waive provisions of 31 U.S.C. 1341 when it is necessary for the interest of national defense.

SMALL BUSINESS ADMINISTRATION
SALARIES AND EXPENSES

The amended bill provides \$344,123,000 for the salaries and expenses account of the Small Business Administration (SBA), instead of \$346,553,000 as proposed by the House and \$412,103,000 as proposed by the Senate. An additional amount for initiatives related to small business development and entrepreneurship is provided under SBA administrative provisions.

Of the amounts provided under this heading, \$203,177,000 is for operating expenses of the SBA. In addition, a total of \$144,414,000 from other SBA accounts may be transferred to and merged with the salaries and expenses account, resulting in a total availability for salaries and expenses of \$347,591,000. The additional amount consists of \$135,414,000 from the Business Loans Program account and \$9,000,000 (provided as part of Public Law 110-28) from the Disaster Loans Program account for the administrative expenses related to those accounts.

Non-Credit Programs.—No less than the following amounts shall be dedicated to these non-credit programs of the SBA:

(In thousands of dollars)

Veterans Programs	\$743
7(j) Technical Assistance Programs	2,300
Small Business Development Centers	97,120
SCORE	4,950
Women's Business Centers	13,000
Women's Business Council	743
Native American Outreach	1,000
Drug-free Workplace Program	990
Microloan Technical Assistance	15,000
PRIME	3,000
HUBZone	2,100
 Total, non-credit programs	 140,946

In addition, the Appropriations Committees expect that the National Ombudsman; the Office of Advocacy, including support for the Advocacy Database; international trade programs; and the defense transition program receive no less than the fiscal year 2007 level of funding.

The amended bill does not include language proposed by the Senate to designate 41 percent of the total Women's Business Centers funding for centers in sustainability status.

The Appropriations Committees are aware that there are certain rural areas that are underutilized business areas but are excluded from HUBZone designation based on the current program authorization. SBA is encouraged to continue to examine ways to incor-

porate these areas into any future revisions of the Small Business Act.

OFFICE OF INSPECTOR GENERAL

The amended bill provides \$15,000,000 for the Office of Inspector General of the Small Business Administration as proposed by both the House and the Senate.

SURETY BOND GUARANTEES REVOLVING FUND

The amended bill provides \$3,000,000 for this account as proposed by both the House and the Senate.

BUSINESS LOANS PROGRAM ACCOUNT
(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides \$137,414,000 as proposed by the Senate, instead of \$217,944,000 as proposed by the House. The amount includes \$2,000,000 for subsidies for direct business loans as proposed by the Senate, instead of \$2,530,000 as proposed by the House. The Appropriations Committees note that entrepreneurs who have served on active duty in the military or are currently in the National Guard and Reserve have particular challenges in maintaining the viability of their businesses. The SBA shall give veterans and service members as much support as possible in securing capital through the 7(a) loan guarantee program, including through the Patriot Express Loan Initiative and other SBA programs targeted at veterans.

The amended bill also includes \$135,414,000, within the total amount appropriated, for administrative expenses related to business loan programs as proposed by both the House and the Senate. The amount provided for administrative expenses may be transferred to and merged with the appropriation for SBA salaries and expenses to cover the common overhead expenses associated with business loans.

ADMINISTRATIVE PROVISIONS—SMALL BUSINESS ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

Section 530 of the amended bill allows transfers between accounts as proposed by both the House and the Senate.

Section 531 requires that all loans issued in Alaska or North Dakota be administered by the Small Business Administration and not be sold during fiscal year 2008 as proposed by the Senate.

Section 532 modifies language proposed by the Senate to provide for technical corrections to Public Law 109-108.

Section 533 amends Public Law 110-28 by placing "up to" before \$25,000,000 provided for the disaster loan program.

Section 534 provides additional amounts for small business development and entrepreneurship initiatives, including programmatic and construction activities, to be awarded as follows:

Project Name	Amount
Abraham Lincoln National Airport Commission, Minority and Small Business Development and Procurement Opportunities	282,000
Adelante Development Center, Albuquerque, NM	500,000
Advantage West Economic Development Group, Certified Entrepreneurial Community Program	282,000
Alabama A&M Research Institute for Small Business Training and Development	200,000
Alabama Entrepreneurial Research Network, Small Business Incubator, Tuscaloosa, AL	250,000

UNITED STATES POSTAL SERVICE

PAYMENT TO THE POSTAL SERVICE FUND

The amended bill provides \$117,864,000 for payment to the Postal Service Fund as proposed by the Senate, instead of \$88,864,000 as proposed by the House. Of the total amount provided, \$88,864,000 is provided as an advance appropriation for free mail for the blind and overseas voters to be available on October 1, 2008. The agreement also includes \$29,000,000 for repayment for revenue forgone.

The Appropriations Committees are concerned about the findings of a Government Accountability Office (GAO) report released in June 2007, as well as GAO testimony before Congress in July 2007, that raise serious questions about the United States Postal Service's mail realignment efforts. The GAO noted its concerns relating to several issues, including "USPS's unclear criteria for selecting facilities and deciding on [area mail processing (AMP)] consolidations, the use of inconsistent data calculations, limited measures of the effect of changes on delivery performance, and a lack of appropriate stakeholder and public input when considering potential AMP consolidations." The Committees question the efficacy of proceeding with AMP consolidations if decisions are being made with inadequate data analysis and stakeholder input, and also if it is unclear whether such consolidations will adversely affect timely mail delivery. The Committees are particularly concerned about AMP consolidations in Sioux City, Iowa; Aberdeen, South Dakota; Bronx, New York; Pasadena, California; Canton, Ohio; and Detroit/Flint, Michigan. The Committees understand that the Postal Service will be providing updated AMP guidance on communications with the public in March 2008, as well as a Facilities Plan (as required by the Postal Accountability and Enhancement Act) in June 2008. GAO is directed to evaluate these reports to determine whether the Postal Service has implemented GAO's recommendations to strengthen planning and accountability in realignment efforts. GAO is further directed to report its findings to the Committees on Appropriations. The Postal Service is directed not to implement the above-referenced AMP consolidations until after the GAO has reported to the Committees and the Committees have had an opportunity to review the GAO findings.

The Appropriations Committees are also aware of concerns regarding a possible AMP consolidation relating to Alexandria, Louisiana. The Committees understand that there is currently no consolidation planned for Alexandria, and the Committees would oppose any effort to initiate a consolidation.

The Appropriations Committees are concerned about the condition of postal facilities in a number of municipalities in Puerto Rico, including Dorado, Guaynabo, Rincon, San German, Villalba, Yabucoa, and Yauco. The Postal Service, working with local officials and community leaders, should evaluate the needs of these communities and include these facilities in its nationwide priority list to ensure that capital resources are focused on the maintenance and enhancement of existing infrastructure at these facilities. The Postal Service is directed to report on these efforts to the Committees on Appropriations.

The Appropriations Committees are also concerned about the postal facility needs of the City of Indio, California. The current facility is inadequate to meet the City's needs given its rapid population growth. The Postal Service should work with City officials to evaluate the need for a new facility and report its findings to the Committees on Appropriations.

The Appropriations Committees are concerned about mail service delays in Chicago,

Illinois. The Postal Service is directed to continue working with city officials and implement management reforms that will secure and maintain a high level of mail delivery service for postal consumers in Chicago. The Postal Service is also directed to regularly update the Committees on Appropriations on these efforts.

UNITED STATES TAX COURT

SALARIES AND EXPENSES

The amended bill includes \$45,326,000 for the United States Tax Court as proposed by the Senate, instead of \$45,069,000 as proposed by the House.

TITLE VI

GENERAL PROVISIONS—THIS ACT

The amended bill includes the following general provisions for this Act that were proposed by both the House and the Senate:

Section 601 regarding absorption of pay raises within levels provided in this or previous appropriations acts;

Section 602 prohibiting pay and other expenses for non-Federal parties in regulatory or adjudicatory proceedings funded in this Act;

Section 603 prohibiting obligations beyond the current fiscal year and prohibiting transfers of funds unless expressly so provided herein;

Section 604 limiting consulting service expenditures to contracts where such expenditures are a matter of public record, with exceptions;

Section 605 prohibiting funds from being transferred to any department, agency, or instrumentality of the United States without expressed authority;

Section 606 prohibiting the use of funds to engage in activities that would prohibit the enforcement of section 307 of the 1930 Tariff Act;

Section 607 concerning employment rights of Federal employees who return to their civilian jobs after assignment with the Armed Forces by prohibiting payment under certain circumstances to any employee who fills this position;

Section 608 prohibiting funds from being expended unless the recipient agrees to comply with the Buy American Act;

Section 609 prohibiting funding to a person or entity convicted of violating the Buy American Act;

Section 611 providing that not to exceed 50 percent of unobligated balances from salaries and expenses may remain available for certain purposes;

Section 612 providing that no funds may be used by the Executive Office of the President to request any official background investigation from the Federal Bureau of Investigation unless the person has given consent or there are national security circumstances;

Section 613 requiring that cost accounting standards not apply to a contract under the Federal Employees Health Benefits Program;

Section 614 permitting the Office of Personnel Management to accept funds regarding the nonforeign area cost of living allowances; and

Section 618 waiving restrictions on the purchase of non-domestic articles, materials, and supplies in the case of acquisition by the Federal Government of information technology.

In addition, the amended bill includes the following general provisions:

Section 610 specifies reprogramming procedures for all departments, agencies, and offices funded under this Act unless otherwise specified elsewhere in this Act. Reprogramming requirements apply to transfers in excess of \$5,000,000 or 10 percent, whichever is less, as proposed by the Senate, instead of \$1,000,000 or 10 percent, whichever is less, as

proposed by the House. The amended bill also includes modified language that applies the requirements to a reprogramming of funds that creates or reorganizes offices, programs, or activities. Language is also included requiring that agencies consult with the Committees on Appropriations prior to any significant reorganization or restructuring. Agencies are expected to follow the reprogramming procedures even if a reprogramming falls below the \$5,000,000 or 10 percent threshold if such reprogramming would significantly change an agency's funding requirements in future years, or if programs or projects specifically cited in the reports of the House or Senate Committees on Appropriations or in this explanatory statement are affected.

Section 615 prohibits the expenditure of funds for abortions under the Federal Employees Health Benefits Program as proposed by the House.

Section 616 provides an exemption from section 615 if the life of the mother is in danger or if the pregnancy is a result of an act of rape or incest as proposed by the House.

Section 617 prohibits the use of funds for a proposed rule relating to the determination that real estate brokerage is a financial activity. This prohibition applies to fiscal years 2008 and 2009, instead of to only fiscal year 2008 as proposed by the House or to fiscal year 2008 and thereafter as proposed by the Senate.

Section 619 requires the Secretary of the Treasury to invest in full the amounts appropriated and contributed to the Harry S Truman Memorial Scholarship Trust Fund, as proposed by the House.

Section 620 establishes a prohibition on the acceptance by agencies or commissions funded by this Act, or by their officers or employees, of payment or reimbursement for travel, subsistence, or related expenses from any person or entity (or their representative) that engages in activities regulated by such agencies or commissions. The Appropriations Committees are troubled by recent reports of senior officers and staff of a regulatory agency accepting gift travel. Accepting such payment or reimbursement from regulated entities raises serious questions about the ability of a regulatory agency to carry out its mission in a fair and unbiased manner.

Section 621 prohibits funds from being used by the Federal Communications Commission to implement the Fairness Doctrine, as proposed by the House.

Section 622 requires quarter dollars issued during 2009 to have designs on the reverse side commemorating the District of Columbia and each of the U.S. territories.

Section 623 directs the Treasury Department, as soon as is practicable, to move the inscription "In God We Trust" on the \$1 coin from the edge to the face of the coin.

Section 624 appropriates \$600,000 for the Christopher Columbus Fellowship Foundation.

The amended bill does not include section 617 of the Senate bill relating to increased penalties under section 206 of the International Emergency Economic Powers Act.

The amended bill does not include section 618 of the Senate bill relating to reporting on activities of the petroleum industry in Sudan.

The amended bill does not include section 619 of the Senate bill relating to a prohibition on funds to enforce a provision of the Cuban Assets Control Regulations regarding agricultural and medical sales to Cuba.

The amended bill does not include section 620 of the Senate bill concerning agricultural and medical-related sales to Cuba.

The amended bill does not include section 621 of the House bill relating to additional amounts for small business development and

entrepreneurship initiatives. This provision is now under the heading "Administrative Provisions—Small Business Administration".

TITLE VII

GENERAL PROVISIONS—GOVERNMENT-WIDE

DEPARTMENTS, AGENCIES, AND CORPORATIONS

The amended bill includes the following government-wide general provisions that were proposed by both the House and the Senate:

Section 701 allowing, hereafter, payment for travel of families serving overseas to the United States in case of death or life threatening illness;

Section 702 requiring all agencies have a written policy for ensuring a drug free workplace;

Section 703 setting specific limits on the cost of passenger vehicles with exceptions for police, heavy duty, electric hybrid and clean fuels vehicles;

Section 704 making appropriations available for quarters/cost of living allowances;

Section 705 prohibiting the government from employing non-US citizens (with exceptions) whose posts are in the continental United States;

Section 706 ensuring that appropriations made available to any department or agency for space, services and rental charges shall also be available for payment to the GSA;

Section 707 allowing the use of receipts from the sale of materials for acquisition, waste reduction and prevention, environmental management programs and other Federal employee programs as appropriate;

Section 708 permitting that funds for administrative expenses shall also be available for rent in the District of Columbia, services under 5 U.S.C. 3109, and other objects specified in this head;

Section 709 prohibiting, hereafter, funds to pay to hire someone for a position for which they have been rejected by the Senate;

Section 710 prohibiting funds for inter-agency financing boards (with exception), commissions, councils, committees or similar groups without prior approval to receive multi-agency funding;

Section 711 precluding funds for regulations which have been disapproved by joint resolution;

Section 712 setting ceilings on pay rates for certain Federal employees for fiscal year 2008;

Section 713 limiting the amount of funds that can be used for redecoration of offices under certain circumstances to \$5,000, unless approved by the Committees on Appropriations;

Section 714 allowing for interagency funding of national security and emergency preparedness telecommunications initiatives;

Section 715 requiring agencies to certify that a Schedule C appointment was not created solely or primarily to detail the employee to the White House;

Section 716 requiring, hereafter, agencies to administer a policy designed to ensure that all workplaces are free from discrimination and sexual harassment;

Section 717 prohibiting the payment of any employee who prohibits, threatens, prevents or otherwise penalizes another employee from communicating with Congress;

Section 718 prohibiting Federal training not directly related to the performance of official duties;

Section 719 preventing funds from being used to implement or enforce non-disclosure agreement policies unless certain provisions are included;

Section 720 prohibiting propaganda, publicity and lobbying by executive agency personnel in support or defeat of legislative initiatives;

sonnel in support or defeat of legislative initiatives;

Section 721 prohibiting any Federal agency from disclosing an employee's home address to any labor organization, absent employee authorization or court order;

Section 722 prohibiting funds to be used to provide non-public information such as mailing or telephone lists to any person or organization outside the government without the approval of the Committees on Appropriations;

Section 723 prohibiting the use of funds for propaganda and publicity purposes not authorized by Congress;

Section 724 directing agency employees to use official time in an honest effort to perform official duties;

Section 725 authorizing the use of funds to finance an appropriate share of the Federal Accounting Standards Advisory Board administrative costs;

Section 726 authorizing the transfer of funds to GSA to finance various government-wide boards and commissions;

Section 727 permitting breastfeeding in a Federal building or on Federal property if the woman and child are authorized to be there;

Section 728 permitting interagency funding of the National Science and Technology Council and requiring OMB to provide a report on the budget and resources of the National Science and Technology Council;

Section 729 requiring that the Federal forms that are used in distributing Federal funds must indicate the agency providing the funds, the domestic catalogue information, and the amount provided;

Section 731 prohibiting the use of funds to monitor personal information relating to the use of Federal Internet sites to collect, review, or create any aggregate list that includes personally identifiable information relating to access to or use of any Federal Internet site of such agency;

Section 732 requiring health plans participating in the Federal Employees Health Benefits Program to provide contraceptive coverage and providing exemptions to certain religious plans;

Section 733 providing recognition of the U.S. Anti-Doping Agency as the official antidoping agency for Olympic, Pan American and Paralympic sport in the United States;

Section 734 allowing funds for official travel to be used by departments and agencies, if consistent with OMB and Budget Circular A-126, to participate in the fractional aircraft ownership pilot program;

Section 735 prohibiting funds for implementation of OPM regulations limiting detailees to the Legislative Branch, and implementing limitations on the Coast Guard Congressional Fellowship Program;

Section 736 restricting the use of funds for Federal law enforcement training facilities with an exception for the Federal Law Enforcement Training Center;

Section 739 precluding the use of funds to convert to contractors, if more than 10 federal employees perform the activity, unless the analysis reveals that savings would exceed 10 percent of the most efficient organization personnel cost or \$10,000,000, whichever is less;

Section 740 providing that the adjustment in rates of basic pay for employees under statutory pay systems taking effect in fiscal year 2008 shall be an increase of 3.5 percent;

Section 741 prohibiting executive branch agencies from creating prepackaged news stories that are broadcast or distributed in the United States unless the story includes a clear notification within the text or audio of that news story that the prepackaged news story was prepared or funded by that executive branch agency;

Section 743 requiring agencies to evaluate the creditworthiness of an individual before issuing a government travel charge card and prohibiting agencies from issuing a government travel charge card to individuals who have an unsatisfactory credit history; and

Section 749 concerning references to "this Act".

In addition, the amended bill includes the following general provisions:

Section 730 modifies language proposed by the House and the Senate concerning agency franchise funds. The authorization for franchise funds is extended by modifying subsection (f) of section 403 of Public Law 103-356. The modified subsection would terminate franchise fund authority for only the Department of Homeland Security on October 1, 2008.

Section 737 modifies a provision proposed by the House and the Senate regarding budget information required for E-Government initiatives. The amended bill requires agencies to provide information on E-Government initiatives, including Lines of Business, in their fiscal year 2009 budget justifications so that the Committees on Appropriations can either approve or disapprove funding for those initiatives at the time appropriations bills are being prepared. The Appropriations Committees are concerned over the use of the "pass the hat" method of financing E-Government initiatives and how such financing may divert scarce resources from agencies' primary missions. Approval of the Committees on Appropriations for transfers relating to E-Government initiatives is essential.

Section 738 provides authority to transfer funds between agencies to ensure the uninterrupted, continuous operation of the Midway Atoll Airfield, as proposed by the Senate.

Section 742 prohibits funds in this Act from being used in contravention of the Privacy Act as proposed by the House and the Senate. In addition, this section amends division H of the Consolidated Appropriations Act, 2005 with respect to agency Inspector General reviews of privacy and data protection policies and procedures.

Section 744 requires the Office of Management and Budget to submit a crosscut budget report on Great Lakes restoration activities not later than 30 days after the submission of the budget of the President to Congress, as proposed by the House.

Section 745 prohibits funds in this or any Act to be used for Federal contracts with expatriated entities, as proposed by the Senate. The House included similar language as section 620.

Section 746 requires each agency to establish, on the homepage of its website, a link to the website of its Inspector General, and requires each Office of Inspector General to post public reports and audits within one day of release, allows an individual to request automatic receipt of information relating to any public report or audit, and establishes and maintains a link for individuals to anonymously report waste, fraud and abuse, as proposed by the Senate.

Section 747 prohibits the expenditure of funds on public-private competitions under Office of Management and Budget (OMB) Circular A-76, or direct conversions, related to the Human Resources Lines of Business initiative until 60 days after OMB submits a report to the Committees on Appropriations addressing several specified issues of concern. The section also would require that OMB submit a copy of its report to the Government Accountability Office (GAO) when it is submitted to the Committees. GAO is required to brief the Committees on its views of the OMB report within 45 days of receiving it. OMB shall provide GAO with full and

timely access to the documents, analyses, and personnel the GAO determines it needs to conduct a thorough review of the OMB report and provide the Committees with its views.

Section 748 requires the Office of Management and Budget to establish a pilot program to develop and implement an inventory to track the cost and size of service contracts in at least three cabinet-level departments. The program will give particular attention to contracts that have been performed poorly by a contractor because of excessive costs or inferior quality. In conducting the pilot program, the Office of Management and Budget is expected to use the methodology developed by the Department of the Army, pursuant to the Secretary of the Army's January 7, 2005 Memorandum on Accounting for Contract Services. Within 60 days of enactment, the Office of Management and Budget shall provide the Committees on Appropriations with a cost estimate for developing and implementing the pilot program.

TITLE VIII

GENERAL PROVISIONS—DISTRICT OF COLUMBIA

The amended bill includes the following general provisions for the District of Columbia that were proposed by both the House and the Senate:

Section 801 specifying that appropriations are made for particular purposes and shall be considered the maximum for those purposes;

Section 802 authorizing that appropriations are available for travel and dues of organizations;

Section 803 allowing for the use of local funds for making refunds or paying judgments against the District of Columbia government;

Section 805 establishing reprogramming and transfer requirements;

Section 806 providing that appropriations under this Act shall be applied to objects for which the appropriation was made;

Section 808 requiring reporting on the District of Columbia's fiscal year 2008 revenue estimates by the end of the first quarter of fiscal year 2008 for use in the fiscal year 2009 request;

Section 810 prohibiting the use of Federal funds to implement the District of Columbia's Health Care Benefits Act of 1992;

Section 811 allowing the Mayor to accept, obligate and expend Federal, private and other grants received by the District of Columbia not reflected in the amounts appropriated in this Act;

Section 813 prohibiting the use of Federal funds for a petition or civil action which seeks to require voting rights for the District of Columbia in Congress;

Section 814 prohibiting Federal funds to be used for needle distribution, allowing the District of Columbia to utilize local funds for this purpose;

Section 815 requiring the chief financial officers of the District of Columbia agencies to certify that they understand the duties and restrictions applicable as a result of this Act;

Section 816 concerning a "conscience clause" on legislation that pertains to contraceptive coverage by health insurance plans;

Section 818 requiring the District of Columbia to submit an updated budget no later than 30 days after enactment of this Act;

Section 819 prohibiting funds in this Act to be used to pay the fees in excess of \$4,000 of an attorney in a suit brought against the District of Columbia under the Individuals with Disabilities Act;

Section 821 allowing for the increase in spending of "Other-Type Funds" under certain conditions;

Section 822 allowing the Chief Financial Officer to conduct short term borrowing;

Section 823 prohibiting the use of funds in this Act to enact or carry out any law that legalizes or reduces the penalty for the use of controlled substances;

Section 824 prohibiting the use of funds in this Act for abortion services;

Section 825 allowing for a separate appropriation for the Public Defenders Service in the District of Columbia; and

Section 828 specifying that references to this Act in this title and title IV are treated as referring only to the provisions of this title and title IV.

In addition, the amended bill includes the following general provisions:

Section 804 prohibits Federal funds from being used for propaganda designed to support or defeat legislation before the Congress as proposed by the Senate, but allows the District of Columbia to use local funds to lobby on any matter.

Section 807 clarifies the application of the District Government Reemployment Annuitant Offset Elimination Act of 2004 to certain employees.

Section 809 prohibits use of Federal funds for the salaries and expenses of a Shadow Senator or U.S. Representative as proposed by the Senate.

Section 812 establishes the parameters for which certain District of Columbia employees may use a vehicle meant for official duties to travel to and from work, and adds the Department of Corrections as proposed by the Senate.

Section 817 requires an annual report on crime, access to substance abuse treatment, management of parolees, education, rat abatement and indicators of child well-being as proposed by the Senate.

Section 820 allows the appropriation to be increased by no more than \$100,000,000 from unexpended general funds for certain purposes, instead of \$42,000,000 as proposed by the House and \$50,000,000 as proposed by the Senate.

Section 826 authorizes the transfer of local operating funds to capital and enterprise funds as proposed by the Senate.

Section 827 modified from the Senate bill, provides for the collection and use of funds under the Student Funding Formula Assessment, Educational Data Warehouse, and Enrollment Fund Establishment Amendment Act of 2007.

The amended bill does not include section 828 of the Senate bill which would authorize the District of Columbia to provide a pay increase for the position of the chief financial officer.

The amended bill does not include section 829 of the Senate bill which would have changed the current law on the transfer of unobligated balances in the Crime Victims Compensation Fund from the District of Columbia Courts to the District's Office of Victim Services. However, the District of Columbia Courts are urged to collaborate with the Office of Victim Services to develop guidelines for consistent and reasonable hourly rates for counselors and other service

providers and to address cost-effective and appropriate ways to meet the shelter and transitional housing needs of persons served. The District of Columbia Courts and the Office of Victim Services are directed to inform the Committees on Appropriations on the status of the collaborative efforts within 120 days of enactment.

The amended bill does not include House section 901 prohibiting funds from being used to implement Executive Order No. 13422.

The amended bill does not include House section 902 prohibiting funds for the purchase of light bulbs unless the light bulbs have the "ENERGY STAR" or "Federal Energy Management Program" designation.

The amended bill does not include section 903 of the House bill concerning agricultural and medical-related sales to Cuba.

The amended bill does not include House section 904 prohibiting funds in this Act from being used by the Selective Service System to prepare for, plan, or execute the Area Office Mobilization Prototype Exercise. The amended bill does not provide funding for this exercise.

The amended bill does not include House section 905 prohibiting funds for the Securities and Exchange Commission to be used to enforce the requirements of section 404 of the Sarbanes-Oxley Act with respect to non-accelerated filers under section 210.2-02T of title 17, Code of Federal Regulations. This matter is further addressed in this explanatory statement under the Securities and Exchange Commission heading.

The amended bill does not include House section 906 prohibiting funds for the Small Business Administration to be used for the Mitchell County Development Foundation, Inc. This project has been removed from the list of small business development and entrepreneurship initiatives receiving funding, so the provision is not necessary.

Section 907 of the House bill, prohibiting funds to implement section 5112(n)(2)(C) of title 31, United States Code, is addressed with modified language in title VI of this Act.

Section 908 of the House bill, concerning the Fairness Doctrine, is addressed in title VI of this Act.

Section 909 of the House bill, prohibiting Federal funds from being used to implement or enforce the District of Columbia's Health Care Benefits Expansion Act of 1992, is addressed in title VIII of this Act.

Disclosure of Earmarks and Congressionally Directed Spending Items

Following is a list of earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the committee of jurisdiction for each item so identified. Items which did not appear in the House or Senate versions of H.R. 2829 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

DIVISION E—DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2008

The following is an explanation of the effects of this division on the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Department of Homeland Security Appropriations Act, 2008 (H.R. 2638 and S. 1644) passed by the House of Representatives and the Senate. The language and allocations contained in House Report 110-181 and Senate Report 110-84 should be complied with unless specifically addressed to the contrary in the amended bill or this explanatory statement. When this explanatory statement refers to the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Homeland Security and the Senate Subcommittee on Homeland Security.

While repeating some report language for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House and Senate reports address a particular issue not specifically addressed in the amended bill or explanatory statement, the Committees on Appropriations have determined the House report and the Senate report are not inconsistent and are to be interpreted accordingly.

In cases where the House or Senate report directs the submission of a report, such report is to be submitted to both Committees on Appropriations. In a number of instances, House Report 110-181 and Senate Report 110-84 direct agencies to report to the Committees by specific dates. In those instances, and unless alternative dates are provided in the explanatory statement, agencies are directed to provide these reports to the Committees on Appropriations no later than five months after the date of enactment of this Act. Further, the Committees on Appropriations have attempted to reduce the number of reports required of the Department and in certain instances in lieu of reports have requested briefings. Unless alternative dates are provided in the explanatory statement, agencies are directed to provide these briefings within four months after the date of enactment of this Act.

Last, this explanatory statement refers to the following laws as follows: Implementing

Recommendations of the 9/11 Commission Act of 2007, Public Law 110-53, is referenced as the 9/11 Act; Security and Accountability for Every Port Act of 2006, Public Law 109-347, is referenced as the SAFE Port Act; and the Intelligence Reform and Terrorism Prevention Act of 2004, Public Law 108-458, is referenced as the Intelligence Reform Act.

CLASSIFIED PROGRAMS

Recommended adjustments to classified programs are addressed in a classified annex accompanying this explanatory statement.

TITLE I—DEPARTMENTAL MANAGEMENT AND OPERATIONS

OFFICE OF THE SECRETARY AND EXECUTIVE MANAGEMENT

The amended bill provides \$97,353,000 for the Office of the Secretary and Executive Management instead of \$85,172,000 as proposed by the House and \$100,000,000 as proposed by the Senate. A total of \$15,000,000 of this amount is unavailable for obligation until the Secretary certifies that DHS has revised Departmental guidance with respect to relations with the Government Accountability Office (GAO) and the Inspector General (IG), similar to bill language proposed by the Senate. The amended bill also limits obligations to seventy-five percent of the amount appropriated until receipt of the first report on progress to improve and modernize efforts to remove criminal aliens judged deportable from the United States.

Reductions are made to the budget request due to a large number of vacancies and unobligated balances within certain offices. Funding shall be allocated as follows:

Immediate Office of the Secretary	\$2,540,000
Immediate Office of the Deputy Secretary	1,122,000
Chief of Staff	2,639,000
Office of Counternarcotics Enforcement	2,680,000
Executive Secretary	4,722,000
Office of Policy	33,000,000
Office of Public Affairs	6,650,000
Office of Legislative and Intergovernmental Affairs	4,900,000
Office of General Counsel ..	13,500,000
Office of Civil Rights and Liberties	14,200,000
Citizenship and Immigration Services Ombudsman	5,900,000
Privacy Officer	5,500,000
Total	\$97,353,000

Office of Counternarcotics Enforcement

The Committees on Appropriations provide \$2,680,000 for the Office of Counternarcotics Enforcement, instead of \$3,000,000 as proposed by the House and \$2,360,000 as proposed by the Senate. The Office of Counternarcotics Enforcement is directed to provide a briefing to the Committees on Appropriations on: (1) fiscal year 2007 achievements, including tracking and severing connections between illegal drug trafficking and terrorism; (2) the DHS counternarcotics strategy for the Southwest, Northern, and maritime borders of the United States and for the drug transit zone, to include objectives, coordination, outreach, and resources necessary for each DHS component to implement the strategy; and (3) Office performance goals for fiscal year 2008.

Office of Policy

The Committees on Appropriations provide \$33,000,000 for the Office of Policy instead of \$32,500,000 as proposed by the House and \$31,310,000 as proposed by the Senate. Within this amount, funding is provided for the Committee on Foreign Investments in the

United States and REAL ID enhancements, and for the quadrennial homeland security review. No funding is provided for REAL ID "card stock" or common procurement items. The Office of Policy is directed to submit an expenditure plan to the Committees on Appropriations within 45 days from the date of enactment of this Act as detailed in the Senate report. The Office of Policy is also directed to provide a briefing to the Committees on Appropriations no later than 45 days after the date of enactment of this Act on plans to comply with Section 2401 of the 9/11 Act, including staffing and budget requirements.

Secure Border Coordination Office

No funding is provided for the Secure Border Coordination Office, consistent with the budget amendment submitted on November 6, 2007. Oversight of this office is funded within U.S. Customs and Border Protection (CBP). Both the House and Senate funded this office at \$4,500,000. The Committees on Appropriations are concerned with the Department's decision to manage the Secure Border Initiative (SBI) within CBP rather than establish a Departmental level coordinating office, as proposed by DHS in fiscal year 2007. A cross-cutting effort such as the SBI, which spans not only multiple agencies within DHS, but other cabinet-level Departments and the Judicial Branch, cannot be effectively coordinated within an operational agency. These concerns are amplified by the fact that CBP's SBI program office is also charged with managing the multi-billion dollar border security fencing, infrastructure, and technology (BSFIT) program, which demands significant and focused managerial attention that should not be dually charged with external coordination of all SBI efforts. DHS is directed to brief the Committees on Appropriations no later than 120 days after the date of enactment of this Act on how the SBI effort is being effectively coordinated across the federal government, including specific details on how funds appropriated to the Secure Border Coordination Office in fiscal year 2007 were obligated and the Department's plans to establish and staff the Department level Secure Border Coordination Council. It is essential the Secure Border Coordination Council receive strong, consistent leadership from the Office of the Secretary.

Office of Public Affairs

The Committees on Appropriations provide \$6,650,000 for the Office of Public Affairs, instead of \$6,300,000 as proposed by the House and \$7,400,000 as proposed by the Senate. Within this amount, \$1,500,000 is provided for the "Ready.gov" program. The office is directed to provide a briefing within 60 days after the date of enactment of this Act on its plans for expending these funds.

Office of General Counsel

The Committees on Appropriations provide \$13,500,000 for the Office of General Counsel, instead of \$14,000,000 as proposed by the House and \$12,759,000 as proposed by the Senate. This office has a number of critical requirements that must be fulfilled during the coming year, including those established in the 9/11 Act and SAFE Port Act. The Committees on Appropriations understand that the General Counsel is working on a reorganization whereby the legal staff responsible for the ongoing work of specific DHS entities will be transferred to those entities. The Department is directed to submit a reprogramming to detail fully this proposal. It is essential that this office improve its performance in providing accurate and timely guidance on the execution of appropriations law.

Privacy Officer

The Committees on Appropriations provide \$5,500,000 for the Privacy Office instead of

\$6,000,000 as proposed by the House and \$5,111,000 as proposed by the Senate. Funding is provided for additional staffing of this office, given that this office has wide-ranging critical responsibilities that are currently understaffed. GAO is directed to evaluate the operation of DHS' Freedom of Information Act (FOIA) program, its staffing levels, and the adequacy of its resources to determine if the program can be operated in a more efficient and cost-effective manner at the Department. The Senate report requested that the IG conduct this evaluation, but the Committees on Appropriations believe a GAO evaluation is more appropriate to allow DHS' FOIA program to be compared with other executive branch agency FOIA programs.

Comparative Border Control Resources

The Committees on Appropriations agree with the House report directing a report on the number, type and location of DHS facilities, personnel, major assets and technology based or deployed within 100 miles of the United States border with Mexico and Canada. This report is to be provided to the Committees on Appropriations by January 31, 2008. In addition, the Secretary is directed to conduct a study of law enforcement radio communications along the international borders of the United States consistent with the terms and conditions listed in section 569 of the Senate bill.

2010 Vancouver Games Security

The Committees on Appropriations expect the Department to effectively manage security risks associated with the 2010 Vancouver Olympic and Paralympic Games, and direct the Secretary to submit a report as described in section 552 of the Senate bill to the House and Senate Committees listed in that section.

Citizenship and Immigration Services Ombudsman

The Committees on Appropriations provide \$5,900,000 for the Citizenship and Immigration Services Ombudsman instead of \$6,060,000 as proposed by the House and \$6,054,000 as proposed by the Senate. This office lapsed over \$1,800,000 in fiscal year 2007, almost one-third of its budget. The Secretary is directed to ensure that this critical office is given the priority it deserves so that all appropriated funding can be effectively obligated in the coming fiscal year.

OFFICE OF THE UNDER SECRETARY FOR MANAGEMENT

The amended bill provides \$150,238,000 instead of \$237,765,000 as proposed by the House and \$234,883,000 as proposed by the Senate. The amended bill does not include the \$245,525,000 in unspecified reductions contained in the House bill. The amended bill also does not include House bill language withholding funding for the Departmental headquarters project on the Saint Elizabeth's campus until the Department submits certain reports, including detailed expenditure plans for checkpoint and explosives detection technologies. Instead, funding is withheld within the Transportation Security Administration (TSA) until checkpoint support and explosives detection system expenditure plans, as well as the final strategic plan for checkpoint technologies, are delivered to the Committees on Appropriations. Reductions are made to the budget request due to a large number of vacancies and unobligated balances within certain offices. Funding shall be allocated as follows:

Under Secretary for Management	\$2,012,000
Office of Security	53,490,000
Office of the Chief Procurement Officer	28,495,000

Office of the Chief Human Capital Officer	8,811,000
Human Resources	10,000,000
MAX-HR	0
Office of the Chief Administrative Officer	41,430,000
Nebraska Avenue Complex Facilities	6,000,000
Total	\$150,238,000

Under Secretary for Management

No funding is included in the Under Secretary appropriation for the Federal Law Enforcement Training Accreditation Board, as requested in the budget. This activity is funded within the Federal Law Enforcement Training Center (FLETC) salaries and expenses account. The Under Secretary is directed to provide an expenditure plan briefing to the Committees on Appropriations regarding the Under Secretary for Management's appropriation.

Office of Security

The Committees on Appropriations provide \$53,490,000 for the Office of Security instead of \$52,990,000 as proposed by the House and \$53,990,000 as proposed by the Senate. Funding is provided for fusion center activities as proposed by the Senate.

Office of the Chief Procurement Officer

The Committees on Appropriations provide \$28,495,000 for the Office of the Chief Procurement Officer (OCPO) as proposed by the Senate instead of \$27,055,000 as proposed by the House. The Under Secretary is directed to provide a briefing to the Committees on Appropriations on its use of the hiring authority provided in PL 109-313 as detailed in the Senate report.

The investment review function, totaling \$700,000 and four full-time equivalents (FTEs), is transferred from the Office of the Chief Financial Officer (OCFO) to the OCPO as requested recently by the Department. The OCFO will continue to provide fiscal analysis to the OCPO regarding budget formulation and execution for major investments. Given the size, cost, and complexity of the major procurements across the Department and the often overlapping and integrated needs of Departmental agencies, the Investment Review Board (IRB) must exercise strong leadership in the Department's acquisition process. To date the effectiveness of the IRB has not been readily apparent and it is unclear how DHS effectively formulates and executes acquisition strategies to meet joint mission requirements. The Chief Procurement Officer is directed to brief the Committees on Appropriations on how these concerns are being addressed. In addition the Secretary is directed to report on the authority of the OCPO and adequacy of staffing as detailed in the Senate report. No later than 90 days after the Secretary submits the report to the Committees on Appropriations, GAO shall provide an assessment of the report.

Office of the Chief Human Capital Officer

The Committees on Appropriations provide \$18,811,000 for the Office of the Chief Human Capital Officer instead of \$13,278,000 as proposed by the House and \$13,811,000 as proposed by the Senate. No funding is provided for MAX-HR or any follow-on personnel system. Instead, \$10,000,000 is provided to address the Department's dismal results in the 2006 Federal Human Capital Survey. The Department is directed to ensure that these funds are spent on programs that directly address the shortcomings identified in this survey or in a subsequent DHS survey that the Department plans to conduct. Such programs may include the planned DHS survey, gap analysis of mission critical occupations, hiring and retention strategies, robust diver-

sity programs, and Department-wide education and training initiatives. The Secretary is required to submit an expenditure plan for these funds prior to obligation.

Nebraska Avenue Complex Facilities

The Committees on Appropriations provide \$6,000,000 for facilities costs at the Nebraska Avenue Complex (NAC), instead of \$101,000,000 proposed by the House and \$94,000,000 as proposed by the Senate for both the Nebraska Avenue Complex and the consolidated headquarters project. The Under Secretary is directed to submit an expenditure plan on the expected uses of these funds within 30 days after the date of enactment of this Act. The Committees on Appropriations agree with the House report directing the Chief Administrative Officer to minimize investment in the NAC since it will be replaced with a new headquarters campus. The Department is directed to make only those investments absolutely necessary to address pressing operational problems at the NAC. The Department is also directed to submit NAC reports semiannually, as detailed in the Senate report, and further directed that these reports reflect both changes to scheduled projects and activities accomplished. DHS and the Coast Guard are directed to plan a headquarters facility that balances growth and cost as detailed in the House report. DHS is also directed to provide quarterly briefings to the Committees on Appropriations on the headquarters project as detailed in the Senate report.

OFFICE OF THE CHIEF FINANCIAL OFFICER

The amended bill provides \$31,300,000 instead of \$30,500,000 as proposed by the House and \$30,076,000 as proposed by the Senate. The Committees on Appropriations expect the Secretary and Under Secretary for Management to correct problems related to the lack of timely information from the Department as directed in the House report. The Committees on Appropriations agree with the House report regarding the small benefit that has been derived from the appropriations liaison function. The Committees on Appropriations direct the Chief Financial Officer to ensure that communications from CFO employees to the Committees are timely, accurate and thorough. Funding for the Resource Management Transformation Office is provided as proposed by the House instead of through unobligated e-Merge 2 balances as proposed by the Senate. The CFO is directed to provide the Committees on Appropriations a briefing on the detail of past representation fund expenditures throughout the Department.

Annual Appropriations Justifications

The CFO is directed to submit all of its fiscal year 2009 budget justifications (classified and unclassified) concurrent with the submission of the President's budget request and at the level of detail specified in the House and Senate reports. In addition, the annual appropriations justifications should include explicit information by appropriations account, program, project, and activity on all reimbursable agreements and uses of the Economy Act exceeding \$50,000; a listing of overdue Committee reports; and a detailed table identifying the last year authorizing legislation was provided by Congress for each appropriation account, the amount of the authorization, and the appropriation in the last year of the authorization.

Reprogramming Requirements

The amended bill continues and modifies a provision regarding reprogramming of funds. The following have been added to the Department's reprogramming requirements: creation of a new program, project or activity; elimination of an office; and, contracting out any function or activity for which funds were requested for Federal employees.

Contract and Grant Notification Requirements

The amended bill continues and modifies a provision regarding contract and grant notification requirements. Information within the notification shall include amount of the award, fiscal year in which the funds were appropriated, and account from which the funds were drawn.

OFFICE OF THE CHIEF INFORMATION OFFICER

The amended bill provides \$295,200,000 for the Office of the Chief Information Officer (CIO) instead of \$258,621,000 as proposed by the House and \$321,100,000 as proposed by the Senate. Funding shall be allocated as follows:

Salaries and Expenses	\$81,000,000
Information Technology (IT) Activities	56,200,000
Security Activities	124,900,000
Homeland Secure Data Network	33,100,000
Total	295,200,000
CIO-Led Information Technology Acquisitions	

The amended bill continues an existing requirement that the CIO report on all IT acquisitions financed directly or managed by the CIO.

Information Technology Security

The CIO is directed to brief the Committees on Appropriations on plans for improving IT security, and plans to improve compliance with the Federal Information Security Management Act scorecard, as proposed by the Senate.

Coordination of Information Technology Investments

The Committees on Appropriations note that the CIO now exercises significant authority to review and oversee the Department's major IT investments, and direct the CIO to provide a briefing on the process in place to review these procurements, including a listing of all IT investments it plans to review in fiscal year 2008. For each procurement to be reviewed, the briefing should include associated project information such as: the complete budget (including all funding sources), the timelines for development and implementation, and annual and lifecycle costs. Within this briefing, the CIO is also directed to discuss the steps taken to implement the key practices recommended in the Government Accountability Office IT Investment Management Framework.

Integrated Wireless Network

The Committees on Appropriations direct the CIO to limit involvement with the Integrated Wireless Program to only those activities it carries out with other similar agency-managed acquisition projects.

Data Centers

The Committees on Appropriations provide \$72,300,000 within security activities for data center development, an increase of \$35,500,000 from the budget request level. The additional funds are to be used for construction at the National Center for Critical Information Processing and Storage (NCCIPS) for build out costs to expand data storage capabilities, in accordance with the existing agreement to provide 100,000 square feet of data center space.

The Congress has provided significant resources in this and previous appropriations bills for the consolidation of DHS data centers, both to improve operational efficiency and promote a standardized IT architecture at DHS. It is therefore disappointing to discover that the U.S. Secret Service data center will not be consolidated with other DHS operations, even though other Secret Service

projects require the agency to relocate its IT equipment and staff. The Committees on Appropriations direct the CIO to review the location and future plans for every data center operated and managed by DHS agencies and components, and ensure that all future data center relocation projects are first considered for consolidation. The Department is directed to implement its data center consolidation plan in a manner consistent with section 888 of Public Law 107-296, as proposed by the Senate.

Enterprise Architecture

The CIO is directed to provide the Committees on Appropriations with a briefing on efforts planned and underway to make the Department's enterprise architecture comport with GAO-recommended reforms.

ANALYSIS AND OPERATIONS

(INCLUDING RESCISSION OF FUNDS)

The amended bill provides \$306,000,000 for Analysis and Operations as proposed by the Senate and instead of \$301,619,000 as proposed by the House. Funding shall be allocated as discussed in the classified annex to this explanatory statement.

National Immigration Information Sharing Operation and National Applications Office

The amended bill includes a statutory restriction on the obligation of funds for operation of either the National Immigration Information Sharing Operation or the National Applications Office until the Secretary certifies these programs comply with all existing laws, including all applicable privacy and civil liberties standards, with the certification reviewed by the Government Accountability Office. Further, the Under Secretary for Intelligence and Analysis is required to submit the Standard Operating Procedure documents for these programs to the Committees on Appropriations no later than 60 days after the enactment of this Act.

Intelligence and Analysis Expenditure Plan

The Under Secretary for Intelligence and Analysis is directed to provide the Committees on Appropriations an expenditure plan for the Office of Intelligence and Analysis, as proposed by the Senate. That report is to include an analysis of all new requirements enacted in the 9/11 Act, as well as the estimated costs and available resources to implement those requirements in fiscal year 2008 and subsequent fiscal years.

State and Local Fusion Centers

The Committees on Appropriations provide the Senate level of funding for State and local fusion centers, instead of doubling the requested amount as proposed by the House.

National Operations Center

The Committees on Appropriations do not require information about the relocation of the National Operations Center (NOC), since the reprogramming proposal to affect such a move was denied by the House. The amended bill rescinds \$8,700,000 in unobligated balances from prior-year appropriations made for Analysis and Operations, which is an amount equal to the levels that had been proposed for reallocation to fund the NOC move. The Committees on Appropriations encourage rotation of State and local fire service representation at the National Operations Center, as proposed by the Senate.

OFFICE OF THE FEDERAL COORDINATOR FOR GULF COAST REBUILDING

The amended bill provides \$2,700,000 for the Office of the Federal Coordinator for Gulf Coast Rebuilding (OFCGC) instead of \$3,000,000 as proposed by both the House and Senate. Funding is reduced because the OFCGC lapsed \$683,079 at the end of fiscal year 2007. Within the funding provided, \$1,000,000 is unavailable for obligation until

the Committees on Appropriations receive an expenditure plan for fiscal year 2008 as detailed in the Senate report. The Department is directed to use the reprogramming authority contained in this Act if the office needs additional funding.

OFCGC is directed to provide quarterly briefings outlining progress, factors delaying progress, and goals for rebuilding in the Gulf Coast. The Committees on Appropriations are aware that the OFCGC is working with the Department of Housing and Urban Development (HUD) and the Federal Emergency Management Agency (FEMA) on the Disaster Housing Assistance Program. The Committees on Appropriations expect the program will lead to permanent housing solutions for those remaining in trailers and hotels, and receiving rental assistance. OFCGC is expected to continue to work with HUD and FEMA and focus on all HUD programs including Section 202, Section 811, and rental assistance.

OFFICE OF INSPECTOR GENERAL

The amended bill provides \$92,711,000 for the Office of Inspector General (IG) instead of \$99,611,000 as proposed by the House and \$95,211,000 as proposed by the Senate. Included in this funding is \$1,200,000 to conduct U.S. Customs and Border Protection revenue oversight.

Disaster Relief Funding

In addition to the funding provided above, \$16,000,000 is available for transfer from the Disaster Relief Fund instead of \$13,500,000 as proposed by the Senate. The House proposed no such transfer. These funds are for audits and investigations related to disasters, including uses of the Disaster Relief Fund. The IG is required to notify the Committees on Appropriations no less than 15 days prior to any transfer from the Disaster Relief Fund.

Formaldehyde

The IG is directed to investigate the Federal Emergency Management Agency's (FEMA) policies and processes regarding formaldehyde in trailers purchased by the agency to house disaster victims. The IG shall investigate the process used by FEMA to collect and respond to health and safety concerns of trailer occupants; whether FEMA adequately notified occupants of potential health and safety concerns; and whether FEMA has proper controls and processes in place to deal with health and safety concerns of those living in trailers following disasters. The IG is to report its findings to the Committees on Appropriations, including any recommendations.

Cosco Busan Oil Spill

The IG is directed to investigate Coast Guard's role in the M/V Cosco Busan oil spill in San Francisco Bay on November 7, 2007, including the difficulties faced when ships transit ports in heavy fog; proper standard operating procedures watchstanders at the vessel traffic services San Francisco control center should follow when observing a ship to be on a course that may lead to a collision or allision; whether the Unified Command effectively managed the resources available to Coast Guard related to containment and remediation of the spill; whether the rapid response plan for the treatment of marine resources, wildlife and fisheries required by the Oil Pollution Act of 1990 was followed and was adequate to guide this aspect of the response; and whether the Area Response Plan contains provisions adequate to guide the response to a spill of the type encountered in this allision, and whether these provisions were followed during the response to this incident. The investigation should specifically address unacceptable delays in the reporting of information to local authorities the day of the incident, the impact of those delays on

the response and the adequacy of Coast Guard's initial investigation of the allision. In addition, the investigation should review Coast Guard's existing emergency response capabilities in San Francisco Bay and make recommendations regarding needed improvements and should include whether recent reorganizations at Coast Guard contributed to any response delays. The conferees direct the IG to submit a report no later than April 1, 2008, setting forth the conclusions of this investigation.

Pre-Packaged News

The 2007 Continuing Resolution continued the government-wide provision prohibiting an executive branch agency from producing any prepackaged news story intended for broadcast or distribution in the United States, unless the prepackaged news story contains clear notification that the story was produced and funded by the Federal government. Given the recent revelation of a staged press conference in FEMA, the Inspector General is directed to audit DHS' compliance with this provision.

Secure Flight

The Committees on Appropriations are concerned that, even with the Secure Flight program, the Transportation Security Administration plans to continue to screen passenger names against only a subset of the full terrorist watch list. Therefore, the IG is directed to report on the vulnerabilities that exist to our aviation system if the Secure Flight program does not screen against the full terrorism watch list.

Audit Reports

The amended bill requires the IG to withhold from public release for seven days any reports requested by the House and Senate Committees on Appropriations. This is a reduction from the previous years' requirement of 15 days.

TITLE II—SECURITY, ENFORCEMENT, AND INVESTIGATIONS

U.S. CUSTOMS AND BORDER PROTECTION SALARIES AND EXPENSES

The amended bill provides \$6,802,560,000 for Salaries and Expenses, instead of \$6,629,733,000 as proposed by the House and \$6,601,058,000 as proposed by the Senate. Of this amount, \$323,000,000 is designated as emergency.

The Committees on Appropriations provide \$3,075,232,000 for border security between ports of entry, including funds to support an additional 3,000 Border Patrol Agents, \$13,000,000 for additional Border Patrol vehicles, and \$75,000,000, 50 percent above the request, to expand the detention transportation contract. The Committees on Appropriations agree U.S. Customs and Border Protection (CBP) should support efforts to eliminate smuggler lookout posts along the Southwest Border, but they do not designate specific resources for this purpose, as proposed by the House.

The Committees on Appropriations provide \$1,221,341,000 for Management and Administration, reflecting a realignment of \$10,048,000 in information technology costs to the Salaries and Expenses appropriation for U.S. Immigration and Customs Enforcement, a reduction of \$10,000,000 for management efficiency, and the impact of fiscal year 2007 reprogramming actions.

The Committees on Appropriations provide \$2,279,247,000 for border security inspections and trade facilitation, including \$1,854,235,000 for Inspections, Border Security Inspections, and Travel Facilitation at Ports of Entry. Within the latter category is also included an additional \$13,000,000 for the competitive procurement of commercially available technology to support the Secure Freight Initia-

tive and the proposed Global Trade Exchange, authorized by the 9/11 Act; \$22,000,000 for an additional 200 CBP Officers to comply with Section 403 of the SAFE Port Act and \$575,000 for eight additional positions for enhanced duty collection; \$6,750,000 for 50 additional supply chain specialists for the Customs-Trade Partnership Against Terrorism (C-TPAT) program, as authorized by section 222 of the SAFE Port Act; \$225,000,000 for the Western Hemisphere Travel Initiative (WHTI), of which \$100,000 is to promote information and exchange on use of best practices and technology with friendly nations as authorized by section 879 of Public Law 107-296; and \$50,000,000 to enable CBP to implement section 535 of this Division establishing Law Enforcement Officer status for new and currently serving CBP Officers beginning July 1, 2008.

Within Border Security Inspections and Trade Facilitation is included \$40,000,000 for Model Ports of Entry and 200 additional CBP Officers at the top 20 U.S. international airports pursuant to the 9/11 Act; \$45,000,000 for a terrorism prevention system enhancement for passenger screening; and \$36,000,000 for electronic travel authorization for the visa waiver program, including 24 additional program management positions.

The Committees on Appropriations provide \$226,740,000 for personnel compensation and benefits for the CBP Air and Marine programs, including \$14,000,000 for 82 positions to support establishment of 11 new marine enforcement units.

The following table specifies funding by budget program, project, and activity:

Headquarters, Management, and Administration:	
Management and Administration, Border Security Inspections and Trade Facilitation	\$619,325,000
Management and Administration, Border Security and Control between Ports of Entry	602,016,000
Subtotal, Headquarters Management and Administration	1,221,341,000
Border Security Inspections and Trade Facilitation: Inspections, Trade, and Travel Facilitation at Ports of Entry	1,854,235,000
Container Security Initiative	156,130,000
Harbor Maintenance Fee Collection (Trust Fund) ..	3,093,000
Other international programs	10,866,000
Customs Trade Partnership Against Terrorism (C-TPAT)	62,310,000
Free and Secure Trade (FAST)/NEXUS/SENTRI Inspection and Detection Technology Investments	105,027,000
Automated Targeting Systems	27,580,000
National Targeting Center	23,950,000
Training	24,813,000
Subtotal, Border Security Inspections and Trade Facilitation	2,279,247,000
Border Security and Control between Ports of Entry: Border Security and Control	3,022,443,000
Training	52,789,000
Subtotal, Border Security and Control between POEs	3,075,232,000

Air and Marine Personnel Compensation and Benefits	226,740,000
Total, Salaries and Expenses	6,802,560,000

Workload and Staffing

CBP has developed a Workload Staffing Model (WSM) to generate estimates of staffing needed to meet workload and mission requirements, under unconstrained or constrained budget assumptions. In its letters and briefings to the Committees on Appropriations, CBP has satisfied the requirements to submit a Resource Allocation Model, as directed in House Report 110-181.

Initial WSM applications include assessing staffing needs at airports and seaports based on passenger and cruise ship volumes, as well as assisting in allocation of newly funded CBP positions. The Committees on Appropriations expect the WSM to improve allocation of staffing resources to reduce airport and land port wait times, and to enhance performance in meeting customs revenue collection responsibilities as recommended by the Government Accountability Office (GAO-07-529). CBP is directed to brief the Committees on Appropriations not later than January 31, 2008, on how it is using WSM to achieve these goals.

Western Hemisphere Travel Initiative

The bill amends section 7209(b)(1) of the Intelligence Reform Act, setting a date for WHTI implementation at all ports of entry of either June 1, 2009, or when the Secretary and Secretary of State have certified compliance with Section B of that Act, whichever is later.

The Committees on Appropriations provide \$225,000,000 for WHTI; of which \$202,816,000 is available for two years for software development, equipment, contract services, and implementation of inbound lanes and modification to vehicle primary lanes. Of these funds, \$75,000,000 will be unavailable for obligation until the Committees on Appropriations receive a report, not less than 120 days after enactment of this Act, on preliminary results of federal and State pilot programs to implement WHTI procedures at ports of entry. The report should include: (1) infrastructure and staffing required, with associated costs, by port of entry; (2) updated timetable milestones; (3) information on how requirements of Section 7209(b)(1)(B) of the Intelligence Reform Act, as amended, have been satisfied; (4) confirmation that a vicinity-read radio frequency identification card has been adequately tested to ensure operational success; and (5) a description of steps taken to ensure the integrity of privacy safeguards.

Model Ports of Entry

The Committees on Appropriations have provided \$40,000,000 for the Model Ports of Entry program authorized in Section 725 of the 9/11 Act, as proposed by the Senate. This includes the resources necessary to hire at least 200 additional CBP officers at the 20 U.S. international airports with the highest number of foreign visitors arriving annually as determined by the most recent CBP data. The purpose of this program is to provide an international arrival process that better facilitates and promotes business and leisure travel to the U.S., while also improving security.

Commercial Operations and Revenue Collection Positions

The Committees on Appropriations have included \$22,575,000 as proposed by the House and Senate for enhanced commercial inspection and duty collection, and direct CBP to brief the Committees on Appropriations semi-annually beginning 30 days after enactment of this Act on progress in hiring for

Customs revenue positions. Such briefings may be combined with other briefings to the Committees on CBP hiring progress.

In-bond Cargo and Container Security

CBP is directed to provide the information on its in-bond cargo and container security programs, as directed by the House, in the form of a briefing to the Committees on Appropriations.

The Committees on Appropriations direct CBP to submit the report on southern border supply chain security required by Title VII of the Senate bill.

Automated Targeting System—Passengers

The Committees on Appropriations are aware CBP has agreed to take actions to address gaps or management weaknesses associated with its administration of the Automated Targeting System—Passengers, as recommended by the DHS Inspector General (OIG-08-06), and direct CBP to brief the Committees on Appropriations on progress in implementing those corrective actions.

Northern Border Staffing

The Committees on Appropriations strongly support the legislative requirements contained in the USA PATRIOT Act (Public Law 107-56), section 402 of the Trade Act of 2002 (Public Law 107-210), and the Intelligence Reform Act regarding increasing the number of Border Patrol agents and CBP Officers on the Northern Border. The Committees on Appropriations note threat information continues to point to Northern Border vulnerabilities. As highlighted in House and Senate reports accompanying this bill, the Committees on Appropriations expect CBP to make every effort to achieve these targets and direct that CBP quarterly hiring briefings continue to include data on progress being made in this regard.

Fleet Vehicle Management

The Committees on Appropriations note the receipt of the updated, five-year Vehicle Fleet Management Plan. The Committees on Appropriations expect future budget requests will reflect the needs identified in this plan, and direct CBP to inform the Committees on Appropriations of any deviations from the plan.

Immigration Advisory Program

The Committees on Appropriations direct CBP to include a report on the operations and performance of its Immigration Advisory Program in its fiscal year 2009 budget submission, and to notify the Committees on Appropriations whenever it expands the program to a new international location.

INTERPOL Lost and Stolen Travel Document Database

The Committees on Appropriations support the decision by the Department to use the International Criminal Police Organization (INTERPOL) database as it screens foreign travelers to the United States and request a briefing on the status of this activity.

Law Enforcement Officer Status for CBP Officers

The Committees on Appropriations include \$50,000,000, as proposed by the House, to fund the implementation of new section 535, which will convert CBP Officers to Law Enforcement Officer status, and fund the fiscal year 2008 costs of retirement and compensation adjustments required of CBP beginning July 1, 2008.

This change in status will aid in retention of experienced CBP Officers and recruitment of new Officers needed to help CBP meet its expanding inspection, enforcement, and regulatory workload. It will also align compensation and benefits of these Officers with the law enforcement character of their work. The Committees on Appropriations recognize

such conversion will require additional agency funding in fiscal year 2009, and request the Department and OMB to include adequate resources for this purpose in the fiscal year 2009 budget submission.

International Registered Traveler and Related Screening Programs

The Committees on Appropriations include a new general provision authorizing the International Registered Traveler (IRT) Program. The IRT program, funded by fees, will incorporate available technologies in coordination with US-VISIT and other pre-screening initiatives of the Department.

The Committees on Appropriations also provide \$45,000,000 to develop system infrastructure needed to support a real-time capability to process advanced passenger information for air travelers intending to fly to the United States, as well as \$36,000,000 to implement the electronic travel authorization program for visa waiver countries. The Secretary and CBP are directed to report on the DHS plans, staffing, and funding needed to realize these programs, including establishing the IRT program at U.S. airports with the highest volume of international passenger traffic.

National Guard and Border Security

The Committees on Appropriations recognize Public Law 110-116 funds Operation Jump Start through June, 2008, thus obviating the requirement for a briefing as proposed by the Senate on National Guard reductions in force.

Border Tunnel Remediation

The Committees on Appropriations direct the Department to: comply with language contained in Senate Report 110-84 requiring the Department to brief Congress semiannually on border tunnel remediation; include the House Committees on Appropriations, the Judiciary, and Homeland Security among those to be briefed; and provide the first briefing within four months of enactment of this Act.

Trafficking of Illicit Goods from Mexico

The Committees on Appropriations acknowledge the serious law enforcement challenges posed by the manufacture and distribution of methamphetamine, the trafficking of unauthorized assault weapons, and the increased violence of drug gangs as noted in Senate Report 110-84. With the recent announcement of the "Merida Initiative" between the United States and Mexico, the Committees on Appropriations request a briefing on the issues raised in the Senate report.

Anti-Dumping Enforcement

The Committees on Appropriations have ensured that, within the amounts provided for in this account, there will be sufficient funds to administer the ongoing requirements of section 754 of the Tariff Act of 1930, also known as the Continued Dumping and Subsidy Offset Act (CDSOA) (19 U.S.C. 1675c), referenced in subtitle F of title VII of the Deficit Reduction Act of 2005 (Public Law 109-171; 120 Stat. 154).

The Committees on Appropriations direct CBP to continue to work with all relevant U.S. departments and agencies to increase duty collections, and to provide an annual report, within 30 days of each year's distributions under CDSOA, which summarizes CBP's efforts to collect past due amounts and increase current and future collections.

The Committees on Appropriations direct CBP in these annual reports to break out the non-collected amounts for each of the fiscal years 2004, 2005, 2006, and 2007, by order, country, and claimant, along with a description of each of the specific reasons for the non-collection with respect to each order.

Further, CBP is once again directed to provide the amounts of antidumping (AD) and countervailing duties (CVD) held by CBP in its Clearing Account for unliquidated entries as of October 1, 2006 (and, now, as of October 1, 2007), segregated by case number and Department of Commerce period of review. In that same report, CBP should explain, with particularity, what other enforcement actions it is taking to collect unpaid duties owed the U.S. Government. CBP is also directed in these annual reports, beginning in 2008 and thereafter, to indicate which liquidated entries resulted in CDSOA vs. non-CDSOA distributions.

The Committees on Appropriations also direct GAO to undertake a thorough investigation of the problem of non-collection of AD/CVD by the U.S. Government. As described in Senate Report 110-84, GAO must report when the problem was first detected; determine the extent of non-collection of AD/CVD duties, by year, since discovery of the problem (or at least the year 2001), and examine how recommendations advanced by either GAO or the U.S. Government would address the problem. The report should be submitted to the Committees on Appropriations by June 30, 2008.

Part-Time and Temporary Positions

The Committees on Appropriations are aware CBP has ended the practice of funding part-time and temporary positions at international air and seaports, such as at Honolulu, Hawaii. Therefore the Committees on Appropriations negate the language on this issue contained in Senate Report 110-84.

CBP Industry Training Programs

The Committees on Appropriations expect CBP Officers, Import Commodity Specialists and other professional staff to have the appropriate training, to include continuing active participation in cooperative efforts such as the joint Steel Industry Training Program, to administer U.S. customs laws. The Committees on Appropriations believe CBP personnel require a detailed knowledge of industry and technology to ensure that commodities cleared to enter U.S. commerce comply with U.S. law and adhere to import safety requirements with regard to manufactured products, including steel.

INVASIVE SPECIES

The Committees on Appropriations understand there are several invasive plant species that negatively affect the operations of the Border Patrol and support efforts of the Department to provide better tools to control these species. The Committees on Appropriations direct the Secretary to develop and submit a plan, consistent with the terms and conditions listed in section 538 of the Senate bill, which shall specifically address the following species: *Arundo donax* (Carrizo cane); *Tamarix ramosissima* (salt cedar); and *Elaeagnus angustifolia* (Russian olive). Funding to implement this plan should come from within this account, rather than the Border Security, Fencing, Infrastructure, and Technology (BSFIT) account, as proposed by the House.

FOOD AND AGRICULTURAL IMPORT TRAINING AND INSPECTIONS

The Committees on Appropriations are concerned CBP officers require the highest level of training to ensure the safety of the Nation's food supply, and direct the Commissioner to report to the Committees on Appropriations on the training CBP officers receive to effectively assist the Food and Drug Administration in monitoring our Nation's food supply.

The Committees on Appropriations also note that not all ports of entry have equipment necessary for agriculture inspections, and direct CBP to brief the Committees on

Appropriations on what equipment, such as microscopes, is available at each port; the age of existing equipment; and the timeline for procuring and deploying replacement or new equipment.

CRANE-MOUNTED DETECTION TECHNOLOGY

The Committees on Appropriations are aware of technology being developed for the detection of nuclear or radiological materials that can be attached to or integrated onto crane spreaders used to lift and move containerized cargo at sea ports. To explore the potential of this technology to be implemented rapidly, and assess its value as an efficient and real-time complement to radiation portal monitors, the Committees on Appropriations include \$2,000,000 to permit CBP, in cooperation with relevant port authorities, to test competitively this technology in an operational seaport environment.

AUTOMATION MODERNIZATION

The Committees on Appropriations agree to provide \$476,609,000 as proposed by both the House and the Senate. This amount includes \$316,969,000 for the Automated Commercial Environment (ACE), of which \$16,000,000 is for the International Trade Data System (ITDS); and \$159,640,000 for Current Operations Protection and Processing Support.

ACE PROGRAM OVERSIGHT

The Committees on Appropriations are aware of CBP progress in managing the complex acquisition and integration efforts needed to implement ACE, and have determined a formal Government Accountability Office review of ACE expenditure plans is no longer necessary. However, the Committees on Appropriations retain the language requiring submission of an expenditure plan, and have made \$216,969,000 unavailable for obligation until 30 days after such plan has been submitted to the Committees on Appropriations. In addition, the Committees on Appropriations direct CBP to continue to submit quarterly reports on ACE implementation progress, and to improve the timeliness of such submissions.

TREASURY ENFORCEMENT COMMUNICATIONS SYSTEM (TECS) MODERNIZATION PROGRAM

The Committees on Appropriations are aware of the importance of the TECS Modernization Program. TECS is a key border enforcement system for DHS and plays an essential role in the screening of travelers entering the U.S. Therefore, CBP is directed to submit the report on the TECS Modernization Program as requested in Senate Report 110-84 in lieu of the request for notification in House Report 110-181.

ACE QUARTERLY REPORTS

The Committees on Appropriations concur with language in Senate Report 110-84 regarding late delivery of these reports, which contain factual, aggregate data on the progress being made with ACE, and direct the Department to deliver them to the Committees on Appropriations as expeditiously as possible.

BORDER SECURITY FENCING, INFRASTRUCTURE, AND TECHNOLOGY

The amended bill provides \$1,225,000,000 for the Border Security Fencing, Infrastructure, and Technology (BSFIT) account, instead of \$1,089,125,000 as proposed by the House and \$1,000,000,000 as proposed by the Senate, of which \$1,053,000,000 is designated as emergency funding. Funds are available until expended. Within the total provided, \$64,000,000 is for program management, \$73,000,000 is for operations and maintenance, and \$1,088,000,000 is for development and deployment of systems and technology. The Committees on Appropriations do not provide

\$5,000,000 within this account to remove invasive cover vegetation as proposed by the House, but expect such efforts will be conducted with funding in the Salaries and Expenses account.

The Secretary is directed to submit, within 90 days after enactment of this Act, an expenditure plan for continued implementation of a security barrier along the land borders of the United States to the Committees on Appropriations, as specified in bill language. The Committees on Appropriations withhold \$650,000,000 until the expenditure plan is received and approved. The Committees on Appropriations direct the Department to include a description of the methodology used to develop all program and lifecycle costs included in the plan.

Under the Office of the Secretary and Executive Management heading, the Committees on Appropriations note the change in direction proposed by the Department to delay establishment of the Secure Border Coordination Council and to fund coordination of Secure Border Initiative (SBI) efforts from within BSFIT using funds provided to CBP's SBI Program Office. The Committees on Appropriations understand these funds will be used in fiscal year 2008 to coordinate SBI efforts across DHS as well as the U.S. Government.

BORDER SECURITY REQUIREMENTS

As evidenced by the significant increases in border security funding in this bill, the Committees on Appropriations support the goal of obtaining operational control of the nation's borders and coastlines. Specifically, the Committees on Appropriations have included funding to hire additional Border Patrol agents; install vehicle barriers, ground-based radar and cameras; and procure unmanned aerial systems. CBP is directed to include in the quarterly SBI reports the information required in Section 546 of the Senate-passed bill.

REPORTING ON MAJOR TASK ORDER AWARDS

Bill language is included, as proposed by the House, requiring a report to the Committees on Appropriations for any task order in excess of \$100,000,000, or task orders that would cause the cumulative level of task orders awarded to exceed \$650,000,000 (fifty percent of the annual appropriation).

ENCOURAGEMENT OF BEST PROCUREMENT PRACTICES

Within the total appropriated in the BSFIT account, up to \$2,000,000 shall be used to reimburse the Defense Acquisition University for reviewing whether DHS is employing best procurement practices in implementing its Secure Border Initiative network (SBI) and other contracts under BSFIT.

NORTHERN BORDER SECURITY

The Committees on Appropriations direct the CBP SBI Program Office to brief the Committees on how the Department will use fiscal year 2008 and prior year funding for Northern Border security investments, and to provide a revised SBI investment strategy that addresses the Northern Border. In addition, the Committees on Appropriations are aware of the climatic and topographical challenges associated with securing the Northern Border and encourage CBP to examine the testing and demonstration of advanced intrusion detection sensor networks conducted by the Department of Defense for use in such environments.

PROJECT 28

The Committees on Appropriations note CBP's conditional acceptance of the Project 28 prototype. However, the Committees remain concerned about the impact of a five month delay of this acceptance on the larger SBI system and CBP's plan to secure the

Southwest Border by 2011. The Committees recognize the strict oversight of the Project 28 contract by the CBP SBI Program Office, expect such accountability to be sustained, and thus direct CBP to continue to keep the Committees on Appropriations informed on the resolution of conditional items and how the findings from Project 28 will be applied towards the establishment of the SBI baseline and the first iteration of a common operating picture for the Border Patrol.

FENCING COST STUDY

The Committees on Appropriations direct the Government Accountability Office to conduct a study examining the costs of constructing fencing along the southern border of the United States in accordance with section 560 of the Senate bill.

AIR AND MARINE INTERDICTION, OPERATIONS, MAINTENANCE, AND PROCUREMENT

The amended bill provides \$570,047,000 for Air and Marine Interdiction, Operations, Maintenance, and Procurement, instead of \$477,287,000 as proposed by the House and \$488,947,000 as proposed by the Senate, of which \$94,000,000 is designated as emergency funding. This includes \$353,614,000 for operations and maintenance, instead of \$353,954,000 as proposed by the House and \$365,614,000 as proposed by the Senate, to reflect a downward adjustment of \$5,000,000 due to a fiscal year 2007 reprogramming of the Salaries and Expenses account, and inclusion of \$4,120,000 for enhanced operations and support for existing unmanned aerial systems (UAS) and \$540,000 for 11 additional marine enforcement units. Within the total funding is \$216,433,000 for procurement, including: \$52,400,000 for planned helicopter procurement or upgrades; \$10,600,000 for recurring costs for existing unmanned aerial systems; \$6,700,000 for recurring sensor system costs; \$4,600,000 to upgrade radars and sensors; \$12,000,000 for equipment and facilities for 11 new marine enforcement units; and \$82,000,000 for new and replacement aircraft for CBP Air and Marine border security missions. Given the enhanced funding for this account above the House and Senate levels, the Committees on Appropriations direct CBP to submit a revised air and marine expenditure plan, with reference to the strategic recapitalization plan, not later than 90 days after enactment of this Act. The Committees on Appropriations also direct the Commissioner to certify any proposed use of these funds for new UAS procurement as reflecting the priorities of the CBP Air and Marine Recapitalization and Modernization Plan and the most cost effective use of such funding. account instead of the Salaries and Expenses account, as proposed by the House, and reallocate \$10,048,000 of IT support costs from U.S. Customs and Border Protection to the ICE headquarters-managed IT investments program. As requested by the President, \$305,000 is provided for programs to protect children from exploitation and kidnapping, including \$102,000 for public awareness of the child pornography tip line and \$203,000 for Project ALERT. The following table specifies funding levels by budget activity:

Headquarters Management and Administration:	
Personnel Compensation and Benefits, Services, and Other Costs	\$168,887,000
Headquarters-Managed IT Investments	146,654,000
Subtotal, Headquarters Management and Administration	315,541,000
Legal Proceedings	208,350,000
Investigations:	
Domestic	1,422,528,000

International	107,551,000
Subtotal, Investigations	1,530,079,000
Intelligence	52,146,000
Detention and Removal Operations:	
Custody Operations	1,647,212,000
Fugitive Operations	218,945,000
Criminal Alien Program	178,829,000
Alternatives to Detention	53,889,000
Transportation and Removal	282,526,000
Subtotal, Detention and Removal Operations	2,381,401,000
Comprehensive Identification and Removal of Criminal Aliens	200,000,000
Total, Salaries and Expenses	4,687,517,000

IDENTIFYING AND REMOVING CRIMINAL ALIENS

The Committees on Appropriations are concerned about ICE's ability to identify, track, and remove criminal aliens from the United States, and provide an additional \$200,000,000 and a statutory requirement for ICE to develop a strategic plan to address the issue comprehensively. Once ICE has developed this plan, the Committees on Appropriations expect DHS to pursue aggressive efforts and make measurable progress expanding its identification of incarcerated aliens, whether by direct contact with correctional facilities, through technological innovation, or by active survey and interview of prisoners. The Committees on Appropriations expect DHS to initiate efforts to remove all incarcerated aliens identified as deportable once their criminal sentences are complete. As part of the Fugitive Operations Program, the Committees on Appropriations also expect ICE to expand its efforts to apprehend and remove at-large criminal aliens.

The amended bill requires ICE to identify how the agency will manage its identification of the criminal alien population, including an explanation of the staffing and technology solutions it will apply. This plan shall be submitted within three months of enactment of this Act.

From fiscal year 2002 to fiscal year 2006, ICE increased its deportation of non-criminal aliens by 118 percent (48,937 to 107,107). By contrast, criminal alien deportations increased by only 26 percent over the same five years (70,530 to 88,830). The DHS Inspector General reported that more than 300,000 illegal aliens will be admitted to prison in the coming year, many for serious crimes such as murder, rape, armed robbery, drug trafficking, assault, and vehicular manslaughter.

The ICE Office of Detention and Removal estimates that of the total prison population in the United States, 605,000 are foreign-born, and that at least half of those individuals may be eligible for deportation. Yet even though these convicted criminals are held in Federal, State and local custody, ICE has not yet developed a comprehensive approach to identify incarcerated aliens, review the crimes of which they have been convicted, track the location of their incarceration, or monitor the time remaining prior to their release. Although ICE removed over 88,000 criminal aliens in 2006, the last full year for which statistics are available, it has no records to show how many more criminal aliens were paroled or discharged from prison without removal orders. ICE also does not know if the aliens it did remove were taken

directly from penal custody or apprehended for some other reason after having disappeared into the general population. ICE must prioritize the removal of those who have demonstrated the willingness and ability to commit violent and harmful crimes. The Committees on Appropriations direct ICE to pursue a more comprehensive approach to identifying incarcerated aliens, processing them for removal if they are judged deportable, and ensuring they are not released back to society upon completion of their sentences.

CUSTODY OPERATIONS

The Committees on Appropriations provide \$1,647,212,000 for Custody Operations instead of \$1,450,977,000 as proposed by the House and \$1,606,163,000 as proposed by the Senate. Additional funds are provided to increase detention capacity at ICE to a level sufficient to meet DHS mission needs. In addition, a related increase of \$33,400,000 is provided for the Transportation and Removal program, to support the increased level of deportations associated with a higher detained population. When combined, this funding will support an annualized detained population of approximately 32,000.

At the end of fiscal year 2007, ICE detained nearly 30,500 undocumented aliens on a daily basis, pending return to their home countries. However, the President's budget proposed only enough funding to detain 28,450 such individuals in 2008. If the Committees on Appropriations were merely to fund the President's request for detention capacity, DHS would be at risk of ending the successful "catch and return" program, which the Administration frequently cites as a major reason for decreased illegal crossings along the Southwest border. The Committees on Appropriations direct the Department to ensure future ICE budget requests support the operationally-appropriate level for detention capacity, and require ICE to provide weekly updates on the detained population throughout fiscal year 2008. To improve future management of the detained population, \$1,500,000 is provided to establish a Detention and Removal Operations Office of Policy and Planning, as proposed by the Senate.

GANG ENFORCEMENT

The Committees on Appropriations provide \$20,400,000 for gang enforcement instead of \$7,000,000 as proposed by the House and \$15,200,000 as proposed by the Senate. Additional funding is provided to enhance the unique Federal role ICE plays in investigating and disrupting organized transnational criminal gangs.

WORKSITE ENFORCEMENT

The Committees on Appropriations provide a \$15,000,000 increase for worksite enforcement activities at ICE, as proposed by the Senate and instead of no increase as proposed by the House.

FUGITIVE OPERATIONS TEAMS

The Committees on Appropriations provide \$218,945,000 for Fugitive Operations Teams, instead of \$183,200,000 as proposed by the House and \$194,645,000 as proposed by the Senate. This additional funding will expand this program to a total of 104 teams.

ALTERNATIVES TO DETENTION

The Committees on Appropriations provide \$53,889,000 for the Alternatives to Detention Program instead of \$54,889,000 as proposed by the House and \$43,889,000 as proposed by the Senate. Additional funds will support deployment of this program to 12 cities.

CHILD AND FAMILY DETENTION

The Committees on Appropriations remain concerned about ICE detention standards for families with children. Families with children should be housed together in appro-

priate environments that take into account these detainees' special needs. The Committees on Appropriations are aware ICE has created a Juvenile and Family Residential Management Unit to manage the population of detained families with children and to address issues related to family detention. While this is a positive development, an objective set of standards for the detention of families with children must be published so that ICE can ensure the detention environment for these potentially vulnerable individuals is appropriate. The Committees on Appropriations note that this Act funds an Office of Policy within the Detention and Removal program and fully expect that this office will help ensure all national detention standards will be adhered to. Pursuant to the recent legal settlement negotiated between ICE and families detained by the agency, ICE is directed to publish standards governing the care of families with children in detention facilities, and to maintain those standards as published.

CARE AND CUSTODY OF UNACCOMPANIED MINORS

The Committees on Appropriations direct ICE to develop and publish standards for the temporary care of children and ensure ICE transfers custody of unaccompanied alien minors to the Office of Refugee Resettlement (ORR) within 72 hours. The Committees on Appropriations do not agree that ICE should reimburse ORR for the cost of transportation of unaccompanied alien children since funds for this activity are included in the ORR budget.

The Committees on Appropriations note that ICE has ignored the direction contained in P.L. 109-295 to work in close consultation with the Department of State and ORR to develop and implement procedures to ensure the safe and secure repatriation of unaccompanied alien children to their home countries, including through the arrangement of family reunification services and placement with non-profit organizations that provide for orphan services. ICE is directed to brief the Committees on Appropriations within 90 days of the date of enactment of this Act on actions it has taken to implement the changes to the repatriation process for unaccompanied minors.

OFFICE OF PROFESSIONAL RESPONSIBILITY

The Committees on Appropriations provide \$48,778,000 for the Office of Professional Responsibility (OPR), instead of \$50,778,000 as proposed by the House and \$47,778,000 as proposed by the Senate. OPR is directed to use up to \$1,000,000 to carry out third-party detention standard compliance audits for contracted detention facilities, as proposed by the House.

LEGAL PROCEEDINGS

The Committees on Appropriations provide \$208,350,000 for Legal Proceedings, as proposed by the House and instead of \$207,850,000 as proposed by the Senate. Additional funding is provided for the Human Rights Law Division, as detailed in the House report.

STATE AND LOCAL ASSISTANCE

The Committees on Appropriations provide \$78,474,000 for State and Local Assistance, as proposed by the Senate instead of \$73,574,000 as proposed by the House. Of the total provided, \$27,037,000 is for the Law Enforcement Support Center, \$11,286,000 is for the Forensic Document Laboratory, and \$39,684,000 is for the 287(g) program. Combined, these programs make up the recently established ICE Agreements of Cooperation in Communities to Enhance Safety and Security (ICE ACCESS) initiative, which is intended to improve and enhance ICE's interaction with State and local law enforcement agencies. Given recent growth in the 287(g) program,

the Committees on Appropriations encourage ICE to closely monitor compliance with the agreements under which immigration authorities are delegated to 287(g) participants.

ICE MANAGEMENT

The Committees on Appropriations recognize that ICE managers have worked diligently to improve the financial and operational health of the agency. However, additional training and support may be required to increase financial management skills and abilities. Therefore, the Committees on Appropriations include an additional \$1,750,000 for implementation of a training program for new and mid-career finance, procurement, labor-relations and civil rights managers, as discussed in the Senate report.

ICE MUTUAL AGREEMENT BETWEEN GOVERNMENT & EMPLOYERS (IMAGE)

The Committees on Appropriations provide \$5,000,000 for the IMAGE program as proposed by both the House and the Senate. These funds will support 10 special agents, 10 forensic auditors, and nine investigative assistants. The IMAGE program is an ICE outreach and enforcement effort designed to minimize the likelihood of private sector employers hiring unauthorized workers, and should complement the E-Verify program administered by United States Citizenship and Immigration Services (USCIS). ICE and USCIS are directed to brief the Committees on Appropriations on the progress made implementing the IMAGE program, including how IMAGE program managers are avoiding duplication of the E-Verify system, the program's hiring strategy, and its performance milestones and achievements.

BORDER ENFORCEMENT SECURITY TASK FORCES (BEST)

The Committees on Appropriations provide \$10,700,000 for the BEST program, as proposed by the House, instead of \$13,473,000 as proposed by the Senate. The Committees on Appropriations support direction contained in the House report regarding how the BEST program is coordinated with other border-related initiatives. ICE is directed to brief the Committees on Appropriations on how the BEST program is supporting an integrated border security operation at DHS as well as the new locations of proposed BEST operations.

TRADE TRANSPARENCY UNIT

The Committees on Appropriations provide \$11,202,000 for the Trade Transparency Unit, as proposed by the Senate, instead of \$13,202,000 as proposed by the House.

FEDERAL PROTECTIVE SERVICE

The amended bill includes a statutory requirement for the Federal Protective Service (FPS) to maintain an in-service field staff of at least 900 full-time equivalent Police Officers, Inspectors, Area Commanders, and Special Agents who are assigned to active protective duties in field locations, and a total FPS staff of at least 1,200 full-time equivalent positions by July 31, 2008. The amended bill also requires the Secretary and the Director of the Office of Management and Budget (OMB) to certify that this staffing level will be fully supported, through fees or other revenue, in fiscal year 2008. The Committees on Appropriations understand the requested revenue projection for fiscal year 2008 may be insufficient to support the staffing levels required by law, and further require the Secretary and the Director to adjust security fees charged to agencies in fiscal year 2008, if necessary. If revenue projections fall short of supporting the required staffing levels, and the Director will not adjust security fees, the Committees on Appropriations direct the Secretary to meet any shortfall from funds provided in Title I of

this Act. The Committees on Appropriations further direct the Director of OMB to ensure the level of fees in fiscal year 2009 will maintain the FY 2008 staffing levels.

FPS FINANCIAL MANAGEMENT

Since the creation of DHS, the Secretary of Homeland Security and the Director of the Office of Management and Budget have denied FPS sufficient staff and resources to carry out its critical facilities protection and law enforcement missions. The transfer of FPS from the General Services Administration (GSA) to DHS was marked by financial uncertainty and instability, and \$139,000,000 in annual subsidy payments made by GSA to fund FPS operations were never appropriately accounted for under the new DHS structure. Rather than adjust the fee structure to account for this loss of subsidy payments, the budget proposes to reduce the size of the FPS police force without regard to the mission. DHS has further eroded the FPS operating budget by failing to adjust FPS fees to account for shared services, rent, and other costs that were never charged or budgeted for at GSA. In the 2008 budget, the Administration proposed transferring FPS Federal facility protection responsibilities to State and local police departments by abolishing the FPS police force, even though these local agencies do not have the resources to protect Federal buildings.

ICE, the Department, and OMB have not appropriately planned for the protection of Federal facilities and workers, since none of these agencies has worked to develop a strategic plan that clearly defines the FPS role and aligns FPS mission requirements with adequate resources. Absent a rigorous review of FPS responsibilities, which should be based on the responsibilities assigned to FPS in law, Federal facilities and employees will continue to remain vulnerable to crime and other more severe threats. Since the creation of DHS, FPS has essentially been ignored, denied sufficient staff, and short-changed the funding necessary to meet its critical facilities protection and law enforcement response missions. The Committees on Appropriations encourage the Administration to analyze the mission requirements of FPS in terms of the responsibilities assigned to FPS in law, as well as necessary levels of staffing and resources, so that the Congress is not required to dictate funding and staffing levels in annual appropriations bills. DHS and ICE are therefore directed to brief the Committees on Appropriations on the alignment of FPS mission requirements with the staffing and resources necessary to carry out FPS responsibilities.

AUTOMATION MODERNIZATION

The Committees on Appropriations provide \$30,700,000 for ICE Automation Modernization, as proposed by the House, instead of \$15,000,000 as proposed by the Senate. Of this amount, \$5,000,000 is withheld from obligation until the Committees on Appropriations receive and approve an expenditure plan.

CONSTRUCTION

The Committees on Appropriations provide \$16,500,000 for Construction, instead of \$6,000,000 as proposed by the House and \$16,250,000 as proposed by the Senate. Of the amounts provided, \$10,500,000 is designated as emergency. The amended bill includes a modified version of a provision proposed by the House that limits the obligation of funds for the solicitation of proposals to privatize ICE-owned detention facilities until a privatization plan is submitted to the Committees on Appropriations.

TRANSPORTATION SECURITY ADMINISTRATION AVIATION SECURITY

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$4,808,691,000 for Aviation Security instead of \$5,198,535,000 as

proposed by the House and \$5,042,559,000 as proposed by the Senate. In addition to the amounts appropriated, two mandatory appropriations totaling \$500,000,000 are available through the Aviation Security Capital Fund and the Checkpoint Screening Security Fund. These mandatory appropriations were included as part of the 9/11 Act, which was enacted after the House and Senate passed their recommended levels for aviation security. The total funding provided reflects the budget amendment submitted on November 6, 2007. Bill language is also included to reflect the collection of \$2,210,000,000 from aviation user fees, as authorized. The following table specifies funding by budget activity:

Screener Workforce:	
Privatized screening	\$143,385,000
Passenger and baggage screeners, personnel, compensation and benefits	2,636,104,000
Subtotal, screener workforce	2,779,489,000
Screening training and other	223,766,000
Human resource services	182,234,000
EDS/ETD Systems:	
EDS procurement and installation	294,000,000
Screening technology maintenance and utilities	264,000,000
Operation integration	25,000,000
Subtotal, EDS/ETD systems	583,000,000
Total, screening operations	3,768,489,000

Aviation Security Direction and Enforcement ..	
Aviation, regulation and other enforcement	255,953,000
Airport management, information technology and support	651,933,000
Federal flight deck officer and flight crew training	25,091,000
Air cargo	73,000,000
Perimeter security	4,000,000
Subtotal, aviation security direction and enforcement	1,009,977,000

Implementing Requirements of the 9/11 Act ...	30,000,000
Discretionary Fees:	
General aviation at DCA	25,000
Indirect air cargo	200,000
Subtotal, discretionary fees	225,000
Total, Aviation Security	\$4,808,691,000

IMPLEMENTING REQUIREMENTS OF THE 9/11 ACT

The Committees on Appropriations include \$694,500,000 within the total appropriation provided to TSA for activities and requirements authorized in the 9/11 Act, including: \$544,000,000 for the procurement and installation of explosives detection systems at airports; \$73,000,000 for air cargo security; \$20,000,000 to expand Visible Intermodal Protection and Response Teams; \$10,000,000 to increase the number of explosives detection canine teams; \$14,000,000 for general aviation vulnerability assessments and other activities; \$3,500,000 to test technologies to expedite the recovery, development, and analysis of information from aircraft accidents; and

\$30,000,000 to implement regulations and other new activities authorized by the 9/11 Act. TSA shall use the \$30,000,000 to: conduct vulnerability assessments of high risk public transportation agencies, railroads, and over-the-road bus operators; security training programs for public transportation, over-the-road bus operators, and railroad employees; develop a railroad transportation security risk assessment and national strategy; develop regulations for name-based immigration status checks on public transportation and railroad employees; conduct security reviews of foreign repair stations within six months of the issuance of final regulations; pilot different technologies at airport exit lanes; develop procedures and initial implementation of a law enforcement officer biometric credential; improve security at general aviation airports; and procure blast resistant containers. TSA is directed to report to the Committees on Appropriations 90 days after the date of enactment of this Act on the proposed allocation of these funds at the account and PPA level.

PRIVATIZED SCREENING AIRPORTS

The Committees on Appropriations provide \$143,385,000 for privatized screening airports as proposed by the Senate instead of \$147,190,000 as proposed by the House. TSA is directed to notify the Committees on Appropriations if TSA expects to spend less than the appropriated amount due to situations where no additional airports express interest in converting, either fully or partially, to privatized screening, or where airports currently using privatized screening convert to using federal screeners. TSA shall adjust its program, project, and activity (PPA) line items, and notify the Committees on Appropriations within ten days, to account for any changes in private screening contracts and screener personnel, compensation and benefits to reflect the award of contracts under the screening partnership program, or the movement from privatized screening into federal screening.

PASSENGER AND BAGGAGE SCREENER

PERSONNEL, COMPENSATION, AND BENEFITS

The Committees on Appropriations provide \$2,636,104,000 for passenger and baggage screener personnel, compensation, and benefits instead of \$2,589,304,000 as proposed by the House and \$2,601,404,000 as proposed by the Senate. This funding level includes \$36,700,000 requested in the budget amendment for additional behavior detection officers and back-of-the-airport screening activities. Funding for behavior detection officers has not been reduced, as proposed by the House, because TSA no longer is behind in hiring these positions. Also included is \$45,000,000 for the new travel document checker program as proposed by both the House and the Senate.

TSA shall brief the Committees on Appropriations on the detailed function of each of the three new transportation screening officers' specialized employee categories (travel document checkers, behavior detection officers, and bomb appraisal officers). This briefing shall include the on-board full-time equivalent (FTEs) for each category in fiscal year 2008; the hiring plan to fill the new positions provided in fiscal year 2008 and planned for fiscal year 2009; the associated personnel, compensation, and benefits; equipment costs; other indirect costs; key milestones; expected benefits; a deployment schedule; training requirements, to include Federal, privacy, and civil rights and liberties standards; and measures that will be used to evaluate the success of these three specialized personnel categories. TSA shall also brief the Committees on Appropriations on the integration of the travel document checker program with the US-VISIT air exit solution.

AIRPORT EMPLOYEE SCREENING

Within the total funding for passenger and baggage screener personnel, compensation, and benefits, the Committees on Appropriations provide \$15,000,000 as proposed by the Senate instead of \$5,000,000 as proposed by the House to pilot various methods to screen airport employees at a total of seven airports. Specifically, TSA shall screen all airport employees at three airports for no less than 90 days. Screening shall be done at either the airport perimeter or the passenger checkpoints. In addition, TSA shall undertake other screening methods to enhance airport employee screening at up to four additional airports. These methods could include physical inspections, behavioral recognition, biometric access controls, and cameras and body imaging. TSA shall consult with the airports before identifying which airports will participate in the pilots. As part of this effort, TSA shall collect data on the benefits, costs, and impacts of 100-percent airport employee screening as well as on the other methods utilized.

TSA shall report to the Committees on Appropriations on: (1) the results of these pilots, including the average wait times at screening checkpoints for passengers and employees; (2) the estimated cost of the infrastructure and personnel necessary to implement a screening program for airport workers at all U.S. commercial service airports in order to meet a 10-minute standard for processing passengers and workers through screening checkpoints; (3) the ways in which the current methods for screening airport employees could be strengthened; and (4) the impact of screening airport workers on other security-related duties at airports. TSA shall notify the Committees on Appropriations within 120 days after the date of enactment of this Act on how it will utilize this funding and identify the airports that shall be participating in the pilots. TSA shall provide an interim briefing to the Committees on Appropriations on progress and results of these pilots not later than September 1, 2008. If a legislative proposal to screen 100-percent of airport employees is enacted, TSA may use these funds to comply with those requirements.

Wait Times

TSA shall submit airport wait time data on a quarterly basis for domestic airports with above average wait times and for the top 40 busiest airports. As part of these quarterly reports, TSA shall explain any dramatic shift in wait times.

SCREENING TRAINING AND OTHER

The Committees on Appropriations provide \$223,766,000 for screening training and other instead of \$200,466,000 as proposed by the House and the Senate. This funding level includes \$23,400,000 requested in the budget amendment submitted on November 6, 2007, for the associated recruiting, hiring, training and outfitting costs related to additional screeners to address increased threats.

CHECKPOINT SUPPORT

Mandatory funding of \$250,000,000 has been provided for checkpoint support as required by the 9/11 Act. Both the House and Senate proposed discretionary funding for these activities in their versions of the bill. The Committees on Appropriations expect funding to be used to support a number of emerging technologies to screen airline passengers and carry-on baggage for explosives, weapons, and other threat objects by the most advanced equipment currently under development. Bill language is included clarifying that activities funded last year continue to be funded in fiscal year 2008.

EXPLOSIVE DETECTION SYSTEMS

The Committees on Appropriations provide a total of \$544,000,000 for explosive detection

systems (EDS) procurement and installation instead of \$560,000,000 as proposed by the House and \$529,400,000 as proposed by the Senate. Within the total funding for EDS procurement and installation, \$294,000,000 is appropriated in this Act and \$250,000,000 is derived from mandatory funding from the Aviation Security Capital Fund. This funding is sufficient to fulfill the requirements in the 9/11 Act to enter into Letters of Intent (LOIs) and to complete other pending airport modifications. TSA is encouraged to use its existing authority to amend any LOI where the final project costs exceed original estimates, if they were subsequently validated as reimbursable prior to the date of enactment of this Act. Within the funds provided, not less than \$89,000,000 shall be available to procure and deploy next generation explosive detection systems. TSA shall explore multiple technologies in this area and give thorough consideration to the needs of medium and small airports that do not have certified EDS equipment.

No EDS funding shall be used to procure explosive trace detection machines (ETDs) unless they are necessary for secondary screening of checked baggage, to replace an aging ETD system in those airports that are primarily dependent on ETD technologies, or to procure new ETD systems for new, small airports or heliports that are federalized.

TSA is encouraged to explore consolidating checkpoint and checked baggage screening at smaller airports and shall brief the Committees on Appropriations on how this consolidation may work.

SCREENING TECHNOLOGY MAINTENANCE AND UTILITIES

The Committees on Appropriations provide \$264,000,000 for screening technology maintenance and utilities as proposed by the House instead of \$257,000,000 as proposed by the Senate. This funding supports the maintenance and associated utilities of EDSs, ETDs, checkpoint equipment and other screening technologies installed at our nation's airports.

AVIATION REGULATION AND OTHER ENFORCEMENT

The Committees on Appropriations provide \$255,953,000 for aviation regulation and other enforcement instead of \$223,653,000 as proposed by the House and \$226,653,000 as proposed by the Senate. This amount includes \$29,300,000 requested in the budget amendment submitted on November 6, 2007, to increase the number of canine teams, to establish vetting capabilities for general aviation passengers and crews, and to conduct general aviation threat assessments. In addition, \$3,000,000 has been provided above the budget request to support local law enforcement officer cooperative agreements, as proposed by the Senate.

AIR CARGO

The Committees on Appropriations provide \$73,000,000 for air cargo as proposed by the House instead of \$65,768,000 as proposed by the Senate. This funding level is \$17,232,000 above the budget request and shall be used for the following: (1) to continue training and deployment of additional canine teams at high volume air cargo airports to increase inspections; (2) for additional air cargo inspectors to monitor compliance of air carriers and freight forwarders with security directives; (3) to continue development of a certified shipper program to determine if this method can contribute to the 100-percent screening requirement in the 9/11 Act; (4) for equipment, technology and other methods to screen air cargo; and (5) to transfer techniques from the three air cargo pilot programs to additional airports that may express an interest in using them, if results appear promising.

Within the fiscal year 2007 supplemental appropriation (Public Law 110-28), funding was provided for TSA to assess air cargo vulnerabilities at the largest airports (Category Xs). TSA is directed to brief the Committees on Appropriations no later than March 1, 2008, on the results of the vulnerability assessments at all airports completed, as detailed in the Senate report. If vulnerability assessments have not been completed at all of the largest airports, TSA shall brief the Committees on Appropriations again once all work has been concluded.

The Committees on Appropriations are encouraged at the progress TSA has made to limit its use of contractors for air cargo regulatory activities and to hire dedicated federal employees. Therefore, quarterly reports on this topic are not required unless TSA significantly increases its use of contractors for air cargo regulatory activities in this program.

PERIMETER SECURITY

The Committees on Appropriations provide \$4,000,000 for airport perimeter security projects as proposed by the House and the Senate. In the past, TSA has been slow to obligate perimeter security funding and just recently awarded funds appropriated in fiscal year 2006. TSA is expected to competitively award these funds in 2008. In addition, TSA shall brief the Committees on Appropriations on actions taken to implement recommendations made by GAO on airport perimeter security weaknesses, as discussed in the Senate report.

FLIGHT DECK RECORDERS AND REMOTE SENSING DEVICES

Within the \$651,933,000 provided for airport management, information technology, and support, the Committees on Appropriations provide \$3,500,000 to implement section 1610(2)(b) of the 9/11 Act. This funding shall be used to test technologies to expedite the recovery, development, and analysis of information from aircraft accidents to determine the cause of the accident, including deployable flight deck and voice recorders, and remote location recording devices. TSA shall work with the Federal Aviation Administration on these efforts.

FOREIGN REPAIR STATIONS

TSA shall work aggressively with the Federal Aviation Administration to complete final regulations to audit certified repair stations in foreign countries as required by the 9/11 Act and brief the Committees on Appropriations periodically on its efforts to do so.

BUTANE LIGHTERS

In accordance with authority provided in section 530 of P.L. 109-295, TSA suspended enforcement of the prohibition on butane and other types of lighters onboard aircraft. Pursuant to that authority, the Assistant Secretary certified that butane and other types of lighters pose a significantly lower security threat based on intelligence driven threat assessments. Not later than five months after enactment of this Act, TSA is directed to report on anticipated security benefits and vulnerabilities associated with the decision to suspend enforcement of the prohibition on butane lighters onboard aircraft, including supporting analysis justifying the conclusions reached. The Comptroller General is directed to report on its assessment of TSA's report not later than 180 days after the report is submitted.

VOLUNTARY PROVISION OF EMERGENCY SERVICES PROGRAM

The Committees on Appropriations are concerned with TSA's implementation of the Voluntary Provision of Emergency Services

Program and direct TSA to comply with the terms and conditions listed in section 563 of the Senate bill.

SURFACE TRANSPORTATION SECURITY

The amended bill provides \$46,613,000 for Surface Transportation Security instead of \$41,413,000 as proposed by the House and the Senate. Within this total, \$24,485,000 is for surface transportation staffing and operations and \$22,128,000 is for rail security inspectors and canines. This funding level reflects the budget amendment submitted on November 6, 2007, of \$5,200,000 to hire new surface transportation inspectors for use in the Visible Intermodal Protection and Response teams.

TRANSPORTATION THREAT ASSESSMENT AND CREDENTIALING

The amended bill provides a direct appropriation of \$82,590,000 for Transportation Threat Assessment and Credentialing instead of \$64,490,000 as proposed by the House and \$67,490,000 as proposed by the Senate. In addition, the Committees on Appropriations anticipate TSA will collect \$82,601,000 in fees. Funding is provided as follows:

Direct Appropriation:	
Secure flight	\$50,000,000
Crew vetting	14,990,000
Screening administration and operations	9,500,000
Transportation worker identification credential	8,100,000
Subtotal, direct appropriations	82,590,000
Fee Collections: Registered traveler	
Transportation worker identification credential	26,500,000
Hazardous materials	19,000,000
Alien flight school (transfer from DOJ)	2,000,000
Subtotal, fee collections	\$82,601,000

SECURE FLIGHT

The Committees on Appropriations provide \$50,000,000 for Secure Flight instead of \$40,000,000 as proposed by the House and \$28,000,000 as proposed by the Senate. In addition, the amended bill contains a general provision, similar to that proposed by the Senate, which permits TSA to transfer up to an additional \$24,000,000 to the Secure Flight program if necessary. This level fully funds the budget request and reflects progress TSA has made in this program.

The Committees on Appropriations are concerned that, even with the Secure Flight program, TSA plans to continue to screen passenger names against only a subset of the full terrorist watch list. Therefore, the amended bill includes language as proposed by the House that requires the Assistant Secretary to certify to the Committees on Appropriations that no significant security risks are raised by screening airline passenger names only against a subset of the full terrorist watch list instead of the full watch list. In addition, the Inspector General is directed to report on the vulnerabilities that exist to our aviation system if the Secure Flight program does not screen against the full terrorism watch list.

SCREENING ADMINISTRATION AND OPERATIONS

The Committees on Appropriations provide \$9,500,000 for screening administration and operations as proposed by both the House and the Senate. No funds appropriated for screening administration and operations may be used for the Secure Flight program

or for the Transportation Worker Identification Credential (TWIC) program beyond the amounts specifically appropriated for these programs unless TSA submits a reprogramming or transfer request. In the past, TSA has used the screening administration and operations account to supplement these programs' direct appropriations.

TRANSPORTATION WORKER IDENTIFICATION CREDENTIAL

The Committees on Appropriations provide a direct appropriation of \$8,100,000 for the transportation worker identification credential instead of \$15,000,000 as proposed by the Senate. No funding was proposed by the House. This funding shall be allocated as follows: \$6,100,000 to fund the local cost share of the five card reader pilots and \$2,000,000 for program evaluation of these pilots. While the Committees on Appropriations are pleased that the five pilots are proceeding, they disagree that the ports must contribute a 25-percent local match. Since this is a pilot program, which may not have direct benefit to the ports, funding has been included to pay the local cost share of this program.

TSA is urged to ensure that the Coast Guard and terminal operators work closely with local port police and other law enforcement agencies to develop the operational procedures that will ensure effective implementation of the TWIC program. Also, TSA is directed to work with the appropriate officials of Florida and other port authorities to resolve differences between TWIC and existing State transportation facility access control programs.

REGISTERED TRAVELER

In lieu of report language proposed by the House, the Committees on Appropriations include new bill language permitting approved members of Registered Traveler (RT) programs to satisfy the required identity verification procedures at security screening checkpoints by presenting a biometrically-secure RT card in lieu of the government-issued photo identification document required of non-RT participants. The Committees on Appropriations are aware that the industry consortium representing registered traveler providers has submitted a proposal to TSA that would update the common RT standard, which may address this issue. However, because TSA has not determined whether or not to adopt this updated standard, this language is necessary.

TRANSPORTATION SECURITY SUPPORT

The amended bill provides \$523,515,000 for Transportation Security Support instead of \$526,615,000 as proposed by the House and \$521,515,000 as proposed by the Senate. Funding is provided as follows:

Headquarters administration	\$293,191,000
Information technology	209,324,000
Intelligence	21,000,000
Subtotal, transportation security support	\$523,515,000

EXPENDITURE PLAN

The amended bill includes language requiring TSA to submit a detailed expenditure plan to the Committees on Appropriations for checkpoint support and explosive detection systems procurement, refurbishment, and installation on an airport-by-airport basis for fiscal year 2008. This report is due no later than 60 days after enactment of this Act. In addition, the Secretary is directed to submit a final strategic plan for checkpoint technologies as described in the joint explanatory statement of managers accompanying Public Law 109-295. To date, the Committees on Appropriations have only received an interim plan. The amended bill withholds

\$10,000,000 from obligation until the detailed expenditure plans, described above, and the final strategic plan for checkpoint technologies are received.

RED TEAMING

Red teaming exercises help identify vulnerabilities to our critical transportation systems. TSA is directed to be more proactive in this area in fiscal year 2008, but also to ensure that those facilities being visited are not aware of the red teaming exercises beforehand. Recent testimonies and emails have made it clear that on occasion, certain facilities were notified of upcoming red teaming activities and what to look for before the teams arrived, resulting in inaccurate results. This advance notification cannot occur in the future. For a red team to operate successfully, its members must not be recognized.

The Committees on Appropriations provide a total of \$6,260,000 for red teaming exercises within the appropriation for Headquarters Administration, which is nearly a 50-percent increase to this program. This funding level will enable red teaming activities to identify potential vulnerabilities and weaknesses in airports and air cargo facilities, as well as in transit, rail, and ferry systems. TSA shall brief the Committees on Appropriations bi-annually on these activities, as discussed in the House report.

SENIOR CAREER EMPLOYEES

TSA has had frequent and sustained turnover within its senior employees. TSA is encouraged to build a stable, senior career workforce so that when a change in administration occurs, the agency can continue operating without a diminution in transportation security oversight. As such, TSA shall brief the Committees on Appropriations on its plans and efforts to retain senior career employees. In addition, GAO is directed to report on the history of senior executive service-level career turnover since the formation of TSA.

PERFORMANCE ACCOUNTABILITY AND STANDARDS SYSTEM

TSA is directed to submit a report to the Committees on Appropriations; the Senate Committee on Homeland Security and Governmental Affairs; the House Committee on Homeland Security; the Senate Committee on Commerce, Science, and Transportation; and the House Committee on Transportation and Infrastructure on the implementation of the Performance Accountability and Standards System. The report shall include (1) the number of employees who achieved each level of performance; (2) a comparison between managers and non-managers relating to performance and pay increases; (3) the type and amount of all pay increases that have taken effect for each level of performance; and (4) the attrition of employees covered by the Performance Accountability and Standards System.

FEDERAL AIR MARSHALS

The amended bill provides \$769,500,000 for the Federal Air Marshals (FAMs) instead of \$722,000,000 as proposed by the House and the Senate. This recommendation includes \$47,500,000 requested in the budget amendment submitted on November 6, 2007, to increase staffing, to sustain current international flight coverage, and to restore coverage on targeted critical domestic flights. Within the total appropriation provided, \$674,173,000 is for management and administration and \$95,327,000 is for travel and training. TSA shall continue to provide quarterly reports on the mission coverage, staffing levels, and hiring rates as directed in previous appropriations Acts.

FORCE MULTIPLIER

The Committees on Appropriations remain supportive of the FAMs force multiplier ef-

forts. TSA should brief the Committees on the status of this program, its estimated costs and benefits, the logistical and operational aspects of using this system, and a timeline to implement it, if the system proves to be cost effective.

COAST GUARD OPERATING EXPENSES

The amended bill provides \$5,891,347,000 for Operating Expenses (OE) instead of \$5,930,545,000 as proposed by the Senate and \$5,885,242,000 as proposed by the House. Of this amount, \$70,300,000 is designated as an emergency and \$340,000,000 is available for defense-related activities as proposed by both the House and the Senate. Not to exceed \$20,000 is provided for reception and representation, as proposed by the House instead of not to exceed \$10,000 as proposed by the Senate. The amended bill allows OE funds to be used for minor construction projects not exceeding \$1,000,000 in total costs at any location. The Committees on Appropriations deny the request to transfer a portion of the Bridge Administration program from Coast Guard to the Department of Transportation as proposed by the House and Senate and include \$2,650,000 to maintain this function; and deny \$2,000,000 in proposed management efficiency savings due to lack of detail justifying the decrease. The Committees on Appropriations also deny the proposed reduction of \$267,000 and 29 FTE for the Civil Engineering High Performance Organization Initiative and include a general provision denying alteration of the Civil Engineering Unit as proposed by the House and Senate. Funding for operating expenses shall be allocated as follows:

Military pay and allowance:	
Military pay and allowance	\$2,463,934,000
Military health care	346,765,000
Permanent change of station	110,974,000
Subtotal, military pay and allowance	2,921,673,000
Civilian pay and benefits	594,803,000
Training and recruiting:	
Training and education	84,622,000
Recruitment	100,982,000
Subtotal, training and recruiting	185,604,000
Operating funds and unit level maintenance:	
Atlantic Command	176,923,000
Pacific Command	198,580,000
1st District	58,573,000
5th District	22,222,000
7th District	77,138,000
8th District	46,126,000
9th District	32,084,000
11th District	17,437,000
13th District	23,230,000
14th District	19,401,000
17th District	31,734,000
Headquarters direct-	
torates	269,303,000

units	130,450,000
Other activities	31,680,000
Subtotal, operating funds and unit level maintenance	1,134,881,000
Centrally managed accounts	229,896,000
Intermediate and depot level maintenance:	
Aeronautical maintenance	295,950,000

Electronic maintenance	118,983,000
Civil/ocean engineering and shore facilities maintenance	171,317,000
Vessel maintenance	167,940,000
Subtotal, intermediate and depot level maintenance	754,190,000

Port and maritime security enhancements	70,300,000
---	------------

Total, operating expenses	\$5,891,347,000
PORT AND CARGO SECURITY	

The Committees on Appropriations provide \$58,800,000 for port and cargo security, instead of \$45,000,000 as proposed by the House and \$30,000,000 as proposed by the Senate. Increasing port presence and security operations in critical ports is a vital component of DHS's overall maritime border security strategy and additional resources are provided for this purpose. Within the total provided: \$2,000,000 is for Liquefied Natural Gas and dangerous cargo suitability assessments to ensure that such assessments pass peer-reviewed, scientific scrutiny; \$2,000,000 is for spot check of Maritime Transportation Security Act (MTSA) regulated facilities; \$29,400,000 is for an additional 238 boat crew members, boarding team members, and marine inspectors and 26 Defender Class small boats to enhance Coast Guard's ability to enforce security zones, protect critical infrastructure, and provide escorts and boarding of high interest vessels; \$4,800,000 is for long range identification and tracking in order to provide additional information to validate a vessel's position and movement; \$2,000,000 is for port security vulnerability assessments; \$2,000,000 is for port security exercise and training programs, as required by Sections 113 and 114 of the SAFE Port Act; \$1,900,000 is for the inclusion of salvage response plans in Area Maritime Transportation Security Plans, as required by Section 101 of the SAFE Port Act; \$11,600,000 is to implement Section 108 of the SAFE Port Act including additional watch standers and intelligence officers; and \$3,100,000 is to develop rulemakings and finalize regulations contained in the SAFE Port Act.

INTENSIVE MAINTENANCE FOR PATROL BOATS

The Committees on Appropriations provide \$11,500,000 for Coast Guard to pilot an intensive maintenance regime for 110-foot Island Class patrol boats in District Seven. The House provided an additional \$20,500,000 within the Acquisition, Construction, and Improvements appropriation for an intensive maintenance and sustainment regime for the 110-foot patrol boats. The Senate provided funding at the request level. Such a regime is operational with the six patrol boats assigned to Operation Iraqi Freedom, which has enabled Coast Guard to substantially increase the operational hours of these boats. The additional funding provided will allow eight 110-foot patrol boats home-ported in Miami, Key West and St. Petersburg, Florida to operate an additional 3,200 hours per year. Coast Guard is directed to brief the Committees on Appropriations on the results of this pilot six months after it is put into operation.

TRAINING AND RECRUITING

The Coast Guard is directed to increase recruitment ceilings in those recruiting offices with strong minority enlistments as discussed in the House report. The Committees on Appropriations recognize the important role that research and education programs play in adapting and adopting logistical and business systems. The Center of Excellence

in Logistics and Technology (LOGTECH) was created to facilitate the advancement of logistics in the military, yet the Coast Guard is currently the only military service not participating in LOGTECH educational programs. Within total OE funding, \$450,000 is included to fund Coast Guard participation in LOGTECH.

PERSONNEL

No funding is included for acquisition personnel within the OE appropriation as proposed by the House. The Senate bill proposed the transfer of \$82,215,000 to this appropriation from the Acquisition, Construction, and Improvements (AC&I) appropriation. Bill language is included to allow Coast Guard to transfer up to five percent of the OE appropriation to the AC&I appropriation for personnel, compensation and benefits with notice to the Committees on Appropriations within 30 days of the transfer.

OPERATIONS SYSTEM CENTER

The amended bill provides \$3,600,000 for planning and design of an expansion to the Coast Guard Operations System Center, subject to the approval of a prospectus, as detailed in the Senate report.

LONG RANGE AIDS TO NAVIGATION (LORAN)-C

The budget request proposed terminating the LORAN-C program. This decision was made before the National Space Based Position Navigation and Timing Executive Committee recommended the administration pursue ELORAN as a national positioning, navigation and timing backup. Furthermore, a coordinated Executive Branch policy on the future of the LORAN-C system is still being considered. In recent correspondence to the Committees on Appropriations, the Coast Guard indicated that a full analysis of the LORAN-C system will not be completed until March 1, 2008. Therefore, the Committees on Appropriations deny the request to terminate the LORAN-C program and assume its continuation in fiscal year 2008.

RESPONSIVENESS

The Coast Guard Chief of Staff is directed to brief the Committees on Appropriations within one month from the date of enactment of this Act detailing measures that will be implemented to correct Coast Guard delays in responding to Committee questions as discussed in the House report.

MULTI-CREWING PERFORMANCE METRICS

The Coast Guard is directed to provide quarterly briefings to the Committees on Appropriations on the performance of its assets that are multi-crewed as detailed in the House report.

A-76

The Committees on Appropriations are concerned that Coast Guard has decided to contract out the administration of its "competitive sourcing" program and OMB Circular A-76 program to a private sector firm. Coast Guard is directed to brief the Committees on Appropriations on how many federal employees are dedicated to these programs, the responsibilities of the private sector firm, and the reason for the increase in A-76 activity at Coast Guard.

AIRBORNE USE OF FORCE

The Committees on Appropriations agree to the \$21,500,000 reduction requested by the President to eliminate funding for leased armed helicopters and as proposed by the Senate. Coast Guard plans to replace eight leased helicopters with ten Coast Guard Airborne-Use-of-Force equipped, re-engined HH-65C helicopters.

REALIGNMENT AND TRANSFORMATION ORDERS

The Coast Guard is directed to submit a report describing and assessing each of the 10 realignment and transformation orders as

detailed in the Senate report. GAO is directed to review the Coast Guard report no later than 120 days after its submittal to the Committees on Appropriations. As part of its review, GAO is directed to assess the benefits and drawbacks of including all funding for Coast Guard personnel within the OE appropriation.

BASE REALIGNMENT AND CLOSURE IMPACT

Coast Guard is directed to brief the Committees on Appropriations on the impact of base closures and realignments on Coast Guard facilities, as detailed in the Senate report.

MISSION HOUR EMPHASIS AND ACQUISITION REPORTS

Coast Guard is directed to continue submitting quarterly mission hour emphasis and acquisition reports to the Committees on Appropriations consistent with the deadlines articulated under section 360 of Division I of Public Law 108-7 as detailed in the Senate report.

COAST GUARD ACADEMY PIER FOR EAGLE

Coast Guard is directed to report no later than February 5, 2008, to the Committees on Appropriations on the current condition and future intentions with respect to repair/replacement of the pier used to winter-berth the CGC Eagle at the Coast Guard Academy as detailed in the Senate report.

NATIONAL INTERESTS IN THE POLAR REGIONS

The Committees on Appropriations are concerned about Coast Guard's ability to meet its polar operations mission requirements and provide the United States with the capability to support national interests in the polar regions. These mission requirements include, but are not limited to: global reach to the North and South poles; monitoring of U.S.-bound vessel traffic transiting international waterways in the far north; support of the International Ice Patrol; and support of other governmental and scientific organizations in pursuit of marine and atmospheric science activities in the polar regions. The Committees on Appropriations are specifically concerned whether Coast Guard's aging polar icebreaking fleet can meet current mission performance goals and whether this fleet and the service's small cadre of specialized polar operations personnel are capable of meeting projected mission performance goals in light of changing environmental conditions and increased activity in the polar regions. The National Academy of Sciences made several recommendations in this regard in September 2006, but the Administration has taken no action to implement those recommendations.

Therefore, the Commandant is directed to submit a comprehensive polar operations report that fully assesses the Coast Guard's ability to meet current and projected polar mission requirements and includes an evaluation of how Coast Guard's current capabilities and resources must be adapted or enhanced to account for changing environmental conditions and increased activity in the polar regions. This report is to include an analysis of the need for any permanent, forward operating presence in the polar regions in order to meet mission requirements and an assessment of the Coast Guard's ability to meet the requirements of partner agencies operating in the polar regions, such as the National Science Foundation (NSF) and the Departments of Commerce and Defense, under current and projected environmental conditions. Finally, this report should include an appraisal of the sustainability of the current operations and maintenance cost sharing arrangement between the Coast Guard and NSF to support both current and projected polar icebreaker operations.

MARITIME DOMAIN AWARENESS CAPACITY FOR PACIFIC OCEAN

Coast Guard is directed to report by February 5, 2008, on the current maritime domain awareness capacity for the remote and western Pacific Ocean, and include an assessment of remote sensing technology necessary to enhance this capacity, as detailed in the Senate report.

ENVIRONMENTAL COMPLIANCE AND RESTORATION

The amended bill provides \$13,000,000, instead of \$12,079,000 as proposed by the Senate and \$15,000,000 as proposed by the House. Additional funding is provided to begin to reduce the current backlog totaling \$109,663,299.

RESERVE TRAINING

The amended bill provides \$126,883,000 as proposed by the Senate and House.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

(INCLUDING RESCISSIONS OF FUNDS)

The amended bill provides \$1,125,083,000 for Acquisition, Construction and Improvements instead of \$1,048,068,000 as proposed by the Senate and \$941,767,000 as proposed by the House. Of this amount, \$95,800,000 is designated as emergency. Funding is provided as follows:

Vessels:	
Response boat medium ...	\$45,000,000
Subtotal, vessels	45,000,000
Other Equipment:	
Nationwide Automatic Identification System	12,000,000

ACQUISITION PROJECT INFORMATION

As detailed in the House report, Coast Guard is directed to relay acquisition project metrics to the Committees on Appropriations and to include outyear funding estimates by asset in the quarterly acquisition report.

RESPONSE BOAT-MEDIUM

The Committees on Appropriations provide \$45,000,000 for the response boat-medium (RB-M) instead of \$9,200,000 as proposed by the House and the Senate. Additional funding is provided to support the acquisition of fourteen additional RB-Ms. Recent studies have identified the lack of response boats as an impediment to fully implementing Coast Guard's mission requirements.

INTERAGENCY PORT SECURITY OPERATIONAL CENTERS

The Committees on Appropriations provide \$60,000,000 for interagency port security operational centers as proposed by the Senate instead of no funding proposed by the House. This funding is provided to implement section 108 of the SAFE Port Act. Within the total, up to \$9,100,000 may be obligated for Command 21. Coast Guard is directed to submit an expenditure plan for interagency operational centers as detailed by the Sen-

ate. Further, the Commandant of the Coast Guard is directed to submit to the Committees on Appropriations a report on the implementation and use of interagency operational centers for port security under section 70107A of title 6, United States Code. The report should include: (1) a detailed description of the progress made in transitioning Project Seahawk in Charleston, South Carolina, from the Department of Justice to Coast Guard, including all projects and equipment associated with that project; (2) a detailed description of the actions being taken to assure the integrity of Project Seahawk and ensure there is no loss in cooperation between the agencies specified in section 70107A(b)(3) of title 46, United States Code; and (3) a detailed description and explanation of any changes in Project Seahawk as of the date of the report, including any changes in Federal, State, or local staffing of that project. This direction is in lieu of the Senate proposed general provision.

RESCUE 21

The Committees on Appropriations provide \$80,300,000 for Rescue 21, instead of \$80,800,000 as proposed by the House and the Senate. The Committees on Appropriations are concerned with recent information concerning outages experienced by the Rescue 21 system, essentially rendering the system useless during those instances. Within the last year over 394 outages have been recorded by Coast Guard in seven locations. Included within this: Atlantic City reported three outages lasting more than 11 hours each; the Eastern Shore reported one outage lasting more than 12 hours and seven outages lasting more than two hours each; Mobile reported 12 outages ranging from 4.3 to 14.9 hours; and St. Petersburg reported ten outages ranging from 4.1 to 14.8 hours. While outages undoubtedly occurred with the legacy rescue system, outages with this new system should be minimized and controlled as increased availability and reliability are the cornerstones of the Rescue 21 system. It is unclear if this outage problem has been addressed. Coast Guard must address this problem before new locations are added to the system. Coast Guard is directed to provide quarterly briefings on the status of this program, including plans to address outages.

DEEPWATER EXPENDITURE PLAN

The amended bill requires Coast Guard to submit an expenditure plan for Deepwater that contains the following: lifecycle staffing and training needs; identification of procurement competition and procurement plans that do not rely on a single entity or contract and contain only limited indefinite delivery, indefinite quantity contracts; activities, milestones, yearly costs, and lifecycle costs of each major asset, including independent cost estimates; DHS Chief Human Capital Officer certification of sufficient human capital capabilities; identification of project balances by fiscal year and operational gaps for each asset; DHS Chief Procurement Officer (CPO) certification of investment management process compliance; DHS CPO certification of compliance with Federal acquisition rules and action taken to address areas of noncompliance; status of open IG and GAO recommendations; and identification of the use of the Defense Contract Auditing Agency. GAO is directed to continue oversight of the Deepwater program, with focus on review of the expenditure plan and assessment of the operational gaps identified by the Coast Guard and Coast Guard's plans to address these gaps. Coast Guard is directed to brief the Committees on Appropriations on the process it will use to resolve deviations from specified contract requirements and to promptly notify the Com-

mittees on Appropriations of specific procurement contract deviations.

MARITIME PATROL AIRCRAFT

The Committees on Appropriations provide \$170,016,000 for the maritime patrol aircraft as proposed by the Senate instead of the \$100,000,000 as proposed by the House. Bill language is included providing that \$70,000,000 of this amount may not be obligated until Coast Guard certifies that this aircraft has completed developmental testing and evaluation (DT&E). The Committees on Appropriations are concerned about the significant shortfall of maritime patrol aircraft (MPA) resource hours currently confronting Coast Guard. Coast Guard currently estimates that it will be nearly 50 percent below its MPA resource hour needs in 2008. This shortfall is the result of multiple factors, including the significant loss of legacy aircraft over the last 16 years, and is exacerbated by delays in DT&E and formal acceptance of the replacement MPA as integration problems with the mission pallet are solved. The failure to develop a cogent Unmanned Aerial Surveillance program is also threatening the long-term plan to mitigate this significant gap. Similar to the patrol boat mission hour shortfall, Coast Guard let this gap languish for several years before recognizing it as a substantial problem. Maritime intelligence and surveillance capabilities are critical for Coast Guard's effective execution of its maritime safety and security mission. Therefore, Coast Guard is directed to analyze short term stop-gap measures to address its MPA capability needs until its large-scale acquisitions are in full operation. Coast Guard should utilize outside experts to assist with this analysis and brief the Committees on Appropriations on the results of this analysis within six months from the date of enactment of this Act. Coast Guard is directed to continue to keep the Committees on Appropriations informed of the progress of the DT&E of the MPA and to provide updated details on cost and schedule resulting from the delayed acceptance of the MPA mission pallet.

C-130J MISSIONIZATION AND FLEET INTRODUCTION

The Committees on Appropriations provide \$5,800,000 for fleet introduction of the C-130Js, as proposed by the House and the Senate. The requested funds were to continue missionization of six C-130J aircraft to include radars, sensors, identification systems, displays, antennas, and a mission operator's station. The Committees on Appropriations understand that the missionization project has experienced an increase in estimated cost that exceeds eight percent of the total contracted cost and Coast Guard has directed an independent audit of the project. Pending approval of a remediation plan to address the cost overrun, Coast Guard does not intend to expend funds missionizing C-130J four through six. Coast Guard is directed to brief the Committees on Appropriations no later than 45 days after enactment of this Act on the impact of missionization delays on full fleet introduction; remediation plans to address the cost overrun; and plans to address the gap in flight hours lost due to project delays.

NATIONAL SECURITY CUTTER

The Committees on Appropriations provide \$165,700,000 for the National Security Cutter (NSC) as proposed by the Senate instead of \$105,800,000 as proposed by the House. Since the House and Senate bills passed, Coast Guard revised its budget request to reflect changes in projected spending and need for additional funds for the first three NSCs. In August 2007, Coast Guard entered into a Consolidated Contract Action to resolve all outstanding cost overruns incurred by the contractor due to economic and customer

changes that have occurred over the past four years. As a result, the Committees on Appropriations provide funding consistent with the revised request for Government Furnished Equipment, certifications and logistics for NSC #3 and #4, as well as long lead material for the fourth NSC.

REPLACEMENT PATROL BOAT

The replacement patrol boat procurement is critically needed given the significant gap in patrol boat hours and the delays of the Fast Response Cutter (FRC) program. Coast Guard is directed to provide bimonthly briefings to the Committees on Appropriations on the status of this procurement, including critical decision points and dates, planned service life extensions of existing 110-foot patrol boats, and patrol boat operational metrics.

RESCISSIONS

The amended bill rescinds \$132,449,000 in unobligated balances for the Offshore Patrol Cutter and the Unmanned Aerial Vehicle. Both of these programs are in a state of pre-acquisition and development. Funding has been provided in the Research, Development, Test, and Evaluation appropriation for Coast Guard to study the application of unmanned aerial systems.

SECTOR NEW ORLEANS

Public Law 109-148 provided funding for Coast Guard to repair the Sector New Orleans facility damaged as a consequence of Hurricane Katrina. The Committees on Appropriations clarify that this funding should be used for repair, construction, or reconstruction.

ALTERATION OF BRIDGES

The amended bill provides \$16,000,000 for Alteration of Bridges as proposed by the House and Senate. Within this total, funds shall be allocated as follows:

Burlington Northern Railroad Bridge in Burlington, Iowa	\$1,000,000
Canadian Pacific Railway Bridge in LaCrosse, Wisconsin	3,500,000
Chelsea Street Bridge in Chelsea, Massachusetts ..	2,000,000
Elgin, Joliet, and Eastern Railway Company Bridge in Morris, Illinois	2,000,000
Fourteen Mile Bridge in Mobile, Alabama	3,750,000
Galveston Causeway Bridge in Galveston, Texas	3,750,000
Total	\$16,000,000

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

The amended bill provides \$25,000,000 for Research, Development, Test, and Evaluation instead of \$17,583,000 as proposed by the House and \$25,583,000 as proposed by the Senate. Additional funding above the request is for priority research to determine the most effective unmanned aerial system to operate off the NSC and for increased research on ways to best manage ballast water to prevent the introduction and spread of aquatic invasive species. Coast Guard is directed to brief the Committees on Appropriations on the preliminary results of the unmanned aerial system research.

RETIRED PAY

The amended bill provides \$1,184,720,000 as proposed by both the House and the Senate.

UNITED STATES SECRET SERVICE SALARIES AND EXPENSES

The amended bill provides \$1,381,771,000 for U.S. Secret Service Salaries and Expenses instead of \$1,392,171,000 as proposed by both

the House and the Senate. This includes: \$853,690,000 for protective functions, including \$85,250,000, as requested, for Presidential candidate nominee protection, \$1,000,000 for National Special Security Events, \$32,796,000 for relocation of the Joint Operations Center, and \$16,201,000 for White House mail screening; and \$300,193,000 for investigations and field operations.

The following table specifies funding by budget program, project, and activity:

Headquarters Management and Administration	175,934,000
Protection:	
Protection of Persons and Facilities	693,535,000
Protective Intelligence Activities	57,704,000
National Special Security Event Fund	1,000,000
White House mail screening	16,201,000
Presidential candidate nominee protection	85,250,000
Subtotal, Protection	853,690,000
Investigations:	
Domestic field operations	219,742,000
International field office administration operations	27,520,000
Electronic Crimes Special Agent Program and Electronic Crimes Task Forces	44,565,000
Support for missing and exploited children	8,366,000
Subtotal, Investigations	300,193,000
Training:	
Rowley Training Center	51,954,000
Total, Salaries and Expenses	1,381,771,000

FINANCIAL MANAGEMENT

The Committees on Appropriations note the Secret Service has had difficulty managing its program budgets within appropriated program, project, and activity levels. The Congress appropriated independent protection and investigations budgets for the Secret Service in fiscal year 2007 to reinforce the importance of adequate financial controls. The Committees on Appropriations agree to return the Secret Service budget structure to a single "Salaries and Expenses" account as proposed by both the House and Senate, and do not include a more restrictive reprogramming threshold for the Secret Service, as proposed by the House. The Secret Service is directed to brief the Committees on Appropriations at least quarterly on its budget execution, specifically detailing any modifications to appropriated program, project and activity levels. Since fiscal year 2008 includes a significant portion of the workload associated with the Presidential campaign, it will be critical for the Secret Service to pay close attention to any variance in costs associated with candidate protection. The Secret Service is further directed to ensure the necessary financial controls are in place to comply with section 503 of this Act.

SECRET SERVICE OVERTIME WORKLOAD

The Committees on Appropriations do not include a statutory provision proposed by the House limiting annual Secret Service overtime payments to no more than \$35,000 for any individual employee, unless waived by the Secretary of Homeland Security. While other DHS law enforcement agencies

are able to manage their overtime budgets within this threshold, the Secret Service contends that the specific demands of its missions, combined with antiquated personnel and payroll systems, preclude the agency from compliance with this requirement. The Secret Service is directed to brief the Committees on Appropriations before January 1, 2009 on the number of agency employees who exceed \$35,000 in annual overtime payments during fiscal year 2008.

NON-STATUTORY PROTECTIVE DETAILS

The Secret Service, as directed by the Executive Office of the President's Office of Administration, has disregarded a law signed by the President on October 4, 2006. That statute mandated that starting in fiscal year 2008, the Secret Service spend its budget to protect only the President, Vice President, Secretary of Homeland Security, and those authorized in 8 U.S.C. 3056(a), and that the cost of protecting any other individuals be borne by the agency employing the protected individual. Nevertheless, the fiscal year 2008 budget request for the Secret Service included \$3,100,000 to pay for the protection of those not authorized in 8 U.S.C. 3056(a). This disregard of the law is unacceptable.

Subsequent to submission of the fiscal year 2008 budget, the Director of the Secret Service informed the Committees that this cost could be absorbed within the agency's base budget. As a result, the Committees on Appropriations deny the request for an additional \$3,100,000 and direct the Secret Service either to recoup these costs through reimbursable agreements, or reduce budgets for other activities to offset the cost of protecting these individuals. The Secret Service is directed to provide the Committees on Appropriations a quarterly briefing at the appropriate level of classification about who it protects, at what cost, and why.

WHITE HOUSE MAIL PROCESSING

The Committees on Appropriations provide \$16,201,000 for the cost of screening mail sent to the White House complex as proposed by the House and instead of \$26,601,000 as proposed by the Senate. While additional funds had been requested for the purchase of new equipment for the White House mail screening facility currently under construction, that building project has been delayed and the Secret Service expressed doubt that these funds can be obligated during the coming fiscal year.

The Secret Service is directed to explain to the Committees on Appropriations as part of its fiscal year 2009 budget justification the allocation of mail screening responsibilities and budgetary resources between the Secret Service and the Executive Office of the President, as detailed in the House report. The Committees on Appropriations are unsure why on-going operating costs for White House mail screening should be borne by the Secret Service, since mail screening is a routine administrative cost associated with White House operations.

E STREET CLOSURE

The Committees on Appropriations direct the Secret Service to submit a report, developed jointly with the relevant agencies and delivered concurrently with the fiscal year 2009 budget, on the agency's plan for improving the security and aesthetic conditions of E Street, as detailed in the House report.

HELICOPTER DEPLOYMENTS

The Secret Service is directed to provide a briefing to the Committees on Appropriations on Federal costs incurred by fiscal year since 1997 for all Secret Service-requested helicopter deployments, as detailed in the House report.

ACQUISITION, CONSTRUCTION, IMPROVEMENTS,
AND RELATED EXPENSES

The conferees provide \$3,725,000 for United States Secret Service Acquisition, Construction, Improvements, and Related Expenses as proposed by the House and Senate.

TITLE III—PROTECTION, PREPARED-
NESS, RESPONSE, AND RECOVERYNATIONAL PROTECTION AND PROGRAMS
DIRECTORATE

MANAGEMENT AND ADMINISTRATION

The amended bill provides \$47,346,000 for Management and Administration instead of \$40,346,000 as proposed by the House and \$30,000,000 as proposed by the Senate. The Committees on Appropriations consolidate and provide \$9,412,000 for Departmental risk management and analysis, as proposed by the House. This amount includes up to \$1,000,000 for the National Academy of Sciences to review the Department's approach to measuring risk, as discussed in the House report. Of the total provided for Management and Administration, \$5,000,000 of the appropriation is withheld from obligation until the Department provides an expenditure plan to the Committees on Appropriations.

SHARED SERVICES

In the Statement of Managers accompanying the Department of Homeland Security Appropriations Act of 2007 (Public Law 109-295), the conferees directed the Government Accountability Office (GAO) to review the use of "shared services" at the Preparedness Directorate, which was the bureaucratic precursor to the National Protection and Programs Directorate. GAO found that the Preparedness Directorate used none of the legal authorities available to it to move resources between appropriations to fund its "shared services" initiatives. GAO concluded that the Directorate's actions were not adequate to establish the valid intra-agency agreements necessary to fulfill Economy Act requirements for funds transfers, and that the Directorate did not execute any of the official documents required by law. The GAO report points out the Department may be able to use the account adjustment statute to "adjust expired fiscal year 2006 Directorate appropriations to correct these errors. If any of the appropriations that funded the Directorate do not have available unobligated balances to cover the adjustments, the Directorate should report an Antideficiency Act violation."

The Committees on Appropriations direct the Department to respond to GAO's legal opinion, to balance the former Preparedness Directorate's books, and, if it cannot do so using the account adjustment statute, report an Antideficiency Act violation.

INFRASTRUCTURE PROTECTION AND
INFORMATION SECURITY

The amended bill provides \$654,730,000 for Infrastructure Protection and Information Security (IPIS) instead of \$532,881,000 proposed by the House and \$522,099,000 proposed by the Senate. This amount includes an additional \$115,000,000 for Cyber Security requested in the President's budget amendment submitted on November 6, 2007. Funding is allocated as follows:

Infrastructure Protection:	
Identification and Analysis	\$69,522,000
Coordination and Information Sharing	68,821,000
Mitigation Programs	134,253,000
Cyber Security	210,413,000
National Security/Emergency Preparedness Telecommunications:	
Priority Telecommunications	82,821,000

Next Generation Networks	21,100,000
Programs to Study and Enhance Telecommunications	16,000,000
Critical Infrastructure Protection	16,100,000
Office of Emergency Communications	35,700,000

Total, Infrastructure Protection and Information Security	654,730,000
NATIONAL INFRASTRUCTURE PROTECTION PLAN (NIPP)	

The Committees on Appropriations provide \$31,702,000 for NIPP implementation, instead of \$40,702,000 proposed by the House. The Committees on Appropriations provide \$19,519,000 for related sector-specific agency management, instead of \$21,519,000 proposed by the House. The Assistant Secretary for Infrastructure Protection is directed to provide the Committees on Appropriations with semi-annual briefings on progress implementing the NIPP, instead of quarterly briefings as directed in the House report.

CRITICAL INFRASTRUCTURE WARNING NETWORK
(CWIN)

The Committees on Appropriations provide \$8,896,000 for CWIN, instead of \$12,896,000 proposed by the House.

CHEMICAL FACILITY SECURITY REGULATIONS

The Committees on Appropriations provide \$50,000,000 for implementation of chemical facility security regulations by the Assistant Secretary of Infrastructure Protection, instead of \$40,000,000 proposed by the Senate.

SECURE HANDLING OF AMMONIUM NITRATE

At the request of the authorizing committees of jurisdiction, the Committees on Appropriations have included a statutory provision establishing a registration system for producers, sellers, and purchasers of ammonium nitrate, as proposed by the Senate. Within 60 days of enactment of this Act, the Deputy Under Secretary for Protection and Programs is directed to provide the Committees on Appropriations a plan to implement this new provision, including an analysis of the resources required to do so, and a proposal for reallocating funding within the National Protection and Programs Directorate budget to fund this initiative.

NATIONAL INFRASTRUCTURE SIMULATION AND
ANALYSIS CENTER (NISAC)

The Committees on Appropriations provide \$20,000,000 for NISAC instead of \$24,348,000 proposed by the House and \$25,000,000 as proposed by the Senate.

BOMBING PREVENTION

The Committees on Appropriations provide \$10,043,000 for the Office for Bombing Prevention (OBP) as proposed by the Senate. These funds will allow the OBP to continue its critical work building awareness of the threat of improvised explosive devices.

The Department has not provided the Committees on Appropriations the National Strategy for Bombing Prevention, as required by the Statement of Managers accompanying the Department of Homeland Security Appropriations Act of 2007 (Public Law 109-295). The White House has subsequently released Homeland Security Presidential Directive 19 instructing the Departments of Homeland Security and Justice, along with other agencies, to develop the same. The Secretary of Homeland Security is directed to submit this strategy to the Committees on Appropriations as soon as possible, and if unable to do so by the deadline noted in this statement, to explain in writing the cause of the delay.

INFRASTRUCTURE MONITORING

The National Infrastructure Protection Plan identifies national monuments and

icons as a vulnerable sector of the nation's infrastructure, since attacks against these treasures offer high symbolic value to those who would do our country harm. Unlike privately owned infrastructure, however, national monuments and icons belong to the entire citizenry, and therefore require Federal resources to ensure their protection. The Committees on Appropriations provide \$2,000,000 for the City of Philadelphia's infrastructure monitoring program, which will help safeguard that community's historic sites.

NATIONAL COMPUTER FORENSICS TRAINING
INSTITUTE

The information requirement about establishment of the National Computer Forensics Training Institute, as directed by the House report, has been fulfilled.

CYBER SECURITY TRAINING

The Committees on Appropriations are concerned State and local officials are not prepared to respond to attacks on cyber infrastructure. The National Cyber Security Division's (NCSD) "CyberStorm" exercises highlight the modes and methods of cyber attacks, but there remains a need for more routine and practical cyber security training at the State and local level. The Center for Infrastructure Assurance and Security at the University of Texas at San Antonio has developed a structured approach to preparing State and local officials for possible cyber attacks. The "Community Cyber Security Maturity Model" (CCSMM) and training programs help increase the readiness of those who are likely to receive early notification of attacks on computer networks, control systems, or other cyber infrastructure. The Committees on Appropriations direct \$4,000,000 for the further development, evaluation, and implementation of the CCSMM training curriculum and to deliver training to at least three States, selected on a competitive basis, to improve their cyber security response capabilities.

NEXT GENERATION NETWORKS

The Committees on Appropriations provide \$21,100,000 for Next Generation Networks as proposed by the Senate instead of \$18,065,000 as proposed by the House.

INTEROPERABLE COMMUNICATIONS IN THE
NATIONAL CAPITAL REGION

The presence of the Federal government in the National Capital Region, along with the multiple jurisdictions that surround the District of Columbia, create unique communications challenges for Federal, State, and local officials. Several capital-area jurisdictions, along with select Federal agencies, have addressed many of these challenges by implementing the Capital Wireless Information Network (CapWIN) system. The Committees on Appropriations provide \$6,100,000 for full deployment of CapWIN across the National Capital Region.

OFFICE OF EMERGENCY COMMUNICATIONS

The Committees on Appropriations provide \$35,700,000 for the Office of Emergency Communications (OEC) instead of \$45,700,000 as proposed by the House and \$45,915,000 as proposed by the Senate. The Committees on Appropriations note that OEC has not obligated \$12,000,000 in interoperability resources made available in the fiscal year 2007 emergency supplemental. The Committees on Appropriations recognize that one of the most important roles OEC may play is to provide technical assistance to State and local entities working toward emergency communications interoperability, and urge OEC to accelerate its efforts to help these entities achieve interoperability.

INTEGRATED WIRELESS NETWORK

The Department is directed to report to the Committees on Appropriations on efforts

at the Office of Emergency Communications to address shortcomings identified by the Department of Justice Office of Inspector General on the Integrated Wireless Network (IWN) project, as directed in the House report.

NATIONAL STRATEGY ON CLOSED CIRCUIT TELEVISION

The Department is directed to provide the Committees on Appropriations a national strategy on closed circuit television, as proposed in the Senate bill.

CRITICAL INFRASTRUCTURE VULNERABILITY

The Committees on Appropriations direct the Department to use no funds to limit implementation of Homeland Security Presidential Directive 7, as proposed by the House.

UNITED STATES VISITOR AND IMMIGRANT STATUS INDICATOR TECHNOLOGY

The amended bill provides \$475,000,000 for United States Visitor and Immigrant Status Indicator Technology (US-VISIT), instead of \$462,000,000 as proposed by the House and \$362,000,000 as proposed by the Senate, and of which \$275,000,000 is designated emergency funding. \$13,000,000 above the request is included to expedite implementation of an air and sea exit solution. As in recent years, the Committees on Appropriations retain a requirement for an expenditure plan and provide that \$125,000,000 shall not be available for obligation until the plan has been reviewed by the Government Accountability Office and approved by the Committees on Appropriations. The plan need not include submission of a new strategic plan, as proposed by the House; however, it shall include detailed information on implementation of biometric exit solutions and the management of identity services. The Department is also directed to continue to provide quarterly reports on US-VISIT implementation, to include coordination with the Western Hemisphere Travel Initiative, the Secure Border Initiative, and other DHS efforts related to border security and interdiction of terrorist travel.

UNIQUE IDENTITY

The Committees on Appropriations strongly support efforts aimed at achieving real-time interoperability between the DHS Automated Biometric Identification System (IDENT) and the FBI's Integrated Automated Fingerprint Identification System (IAFIS), and completing the transition to a standard of capturing all 10 fingerprints of visitors to the United States. This collective effort has been combined with the assignment to US-VISIT of the mission to manage an interagency database of biometric data from multiple sources now referred to as "Unique Identity". The Committees on Appropriations are concerned with the organizational alignment of US-VISIT to all DHS and other participating agencies, and especially US-VISIT's capacity to fulfill the mission requirements of the Unique Identity initiative. The program office is directed to continue providing joint quarterly briefings on all aspects of implementing Unique Identity.

EXIT

The Committees on Appropriations are frustrated that, after years of pilot testing, no viable air, sea, or land exit capability has been integrated within the US-VISIT system. While the Committees on Appropriations are concerned about the prospects of the Department's implementation of a proposed air exit solution in coordination with the airlines by the end of 2008, they are encouraged that the program appears to finally be getting much needed attention from senior Departmental management. Therefore,

the Committees on Appropriations include \$13,000,000 in additional funding to facilitate implementation of exit solutions for air and sea ports of entry by the end of 2008. The Committees on Appropriations expect DHS to assess whether an exit solution for the land borders is feasible and, if so, detail the specific steps, funding, and schedule required to achieve one. If it is not achievable at this time, the Department is directed to explain its rationale and describe the value of a US-VISIT program that lacks such a solution.

OFFICE OF HEALTH AFFAIRS

The amended bill provides \$116,500,000 for Office of Health Affairs (OHA) instead of \$117,933,000 as proposed by the House and \$115,000,000 as proposed by the Senate. Of this amount, \$24,317,000 is for salaries and expenses.

The Committees on Appropriations provide up to \$2,000,000 for OHA to enter into a grant or contract with the National Academy of Sciences (NAS) to evaluate the effectiveness of BioWatch, including the reliability of monitoring data and the ability of hospitals and public health officials to respond based on information received from those systems. As part of the analysis, NAS should compare the benefits and costs of generation 2 BioWatch technology with generation 3 technology. NAS should also assess the cost and benefits of an enhanced national surveillance system that relies on U.S. hospitals and the U.S. public health system and compare the effectiveness of such a system with the current BioWatch approach. A final report should be completed before the end of fiscal year 2008 and provided to the Committees on Appropriations.

OHA is currently piloting the Automated Pathogen Detection System (APDS), a technology similar to other potential generation BioWatch systems. The Committees on Appropriations are concerned that OHA is not field testing and piloting similar technologies together and urge OHA to incorporate APDS into its Band system generation field testing and pilot program.

OHA is not directed to evaluate possible health effects associated with the presence of formaldehyde gas in FEMA trailers and instead FEMA is directed to work with OHA on testing trailer air quality and developing policies for those people remaining in FEMA issued trailers.

FEDERAL EMERGENCY MANAGEMENT AGENCY MANAGEMENT AND ADMINISTRATION

The amended bill provides \$664,000,000 for Federal Emergency Management Agency (FEMA) Management and Administration instead of \$685,000,000 as proposed by the House and \$678,600,000 as proposed by the Senate. In addition, up to \$60,000,000 is available for transfer from the Disaster Relief Fund, of which \$48,000,000 is to support the continuing effort to professionalize FEMA's emergency workforce, as proposed by the Senate and \$12,000,000 is for activities related to the Robert T. Stafford Disaster Relief and Emergency Assistance Act. The Committees on Appropriations note FEMA's delay in converting disaster Cadre of On-call Response Employees (CORE) to full-time status. Therefore, prior to the obligation of \$30,000,000 of the \$48,000,000 for the conversion of positions, FEMA shall submit an implementation plan to the Committees on Appropriations. The plan shall include an expenditure plan, a hiring schedule, and a list of positions to be filled by CORE employees, including where they will be located. The amended bill contains a provision allowing the transfer of up to three percent of State and Local programs administrative costs to Management and Administration.

BUDGET SUBMISSION

The Committees on Appropriations created one Management and Administration ac-

count for FEMA in the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007, Public Law 110-28, in May 2007. The amended bill contains a new provision directing FEMA to submit its fiscal year 2009 budget request, including justification materials, by office. Each office and FEMA region shall provide (1) budget detail by object classification; (2) the number of full-time equivalents on board; (3) the number of full-time equivalent vacancies; and (4) the appropriation account(s) used to support the office and the programs managed by the office.

STRENGTHENING CORE COMPETENCIES

The Committees on Appropriations provide \$100,000,000 for FEMA to strengthen its core competencies as proposed by the House and Senate. FEMA is directed to brief the Committees on Appropriations no later than March 15, 2008 on progress in strengthening these core competencies. The briefing should include details on how this funding has and will be used to improve the agency's ability to prevent, prepare for, respond to, and mitigate disasters.

URBAN SEARCH AND RESCUE RESPONSE SYSTEM

The amended bill provides \$32,500,000 for the Urban Search and Rescue Response System instead of \$35,000,000 as proposed by the House and \$30,000,000 as proposed by Senate.

OFFICE OF NATIONAL CAPITAL REGION COORDINATION

The amended bill provides \$6,000,000 for the Office of National Capital Region Coordination as proposed by the Senate instead of up to \$6,000,000 as proposed by the House. The amended bill contains a provision requiring the inclusion of the Governors of the State of West Virginia and the Commonwealth of Pennsylvania in the National Capital Region decision-making and planning process for mass evacuation.

OFFICE OF CHIEF COUNSEL

The Committees on Appropriations are aware stumbling blocks remain within FEMA, preventing it from transforming into a first-class proactive emergency management agency. One concern is the Office of Chief Counsel (OCC), whose role should be to advise FEMA within the bounds of the law, to best protect and serve American citizens during emergencies. FEMA is directed to brief the Committees on Appropriations on plans to revamp OCC to allow it to better support FEMA's mission and leadership. The plan should include office structure, staffing levels, and training.

REGIONAL OFFICES

FEMA is directed to fulfill the requirements of section 507 of the Homeland Security Act of 2002, which requires robust FEMA regional offices. Additionally, the Committees on Appropriations recognize the importance of promoting interoperability and strong regional collaboration and direct FEMA to ensure personnel who understand the technical and administrative issues surrounding interoperability are located in each regional office.

DISABILITY COORDINATOR

The Committees on Appropriations expect the Department to fully support the Office of the Disability Coordinator (ODC) as discussed in the Senate report. ODC is directed to work with disability organizations in emergency preparedness and response efforts to ensure the needs of the more than 54 million Americans with a physical, sensory, or cognitive disability are incorporated into disaster plans. ODC is further directed to build on longstanding programs, such as the Emergency Preparedness Initiative program, in order to serve as a resource for the nation on special needs.

FEDERAL ON-SCENE COORDINATOR

The Committees on Appropriations direct FEMA to provide a briefing on the toxic pollutant work of the Federal On-Scene Coordinator following Hurricane Katrina.

FEDERAL PREPAREDNESS COORDINATORS

The Committees on Appropriations do not prevent the hiring of Federal Preparedness Coordinators (FPCs) as proposed by the Senate. The role of FPCs has been clarified by FEMA, alleviating original concerns that the position was duplicative.

EMERGENCY ALERT SYSTEM

The Committees on Appropriations direct FEMA to provide a briefing on its plans to address GAO's recommendation on the shortcomings of the Emergency Alert System. The Committees on Appropriations are concerned adequate systems are not in place nationwide to provide information to the public prior to, during, and after disasters. In particular, a gap remains in the use of an integrated system combining the use of desktop applications, mobile devices, and the web to educate the public. Therefore, the Committees on Appropriations provide \$1,000,000 to pilot technology that would facilitate the use of direct messaging to the public. FEMA should share lessons learned with other State and local governments.

DISASTER LOGISTICS

The Committees on Appropriations provide \$61,553,000 for disaster logistics as proposed by both the House and Senate. FEMA is directed to provide quarterly briefings on its progress to improve its logistics program. FEMA is encouraged to continue to preposition critical supplies needed during disaster response, including generators, blankets, water, and portable water purification systems near potential disaster areas.

INFORMATION TECHNOLOGY

The Committees on Appropriations direct FEMA to provide a five-year plan for its information technology systems ten months after the date of enactment of this Act as discussed in the Senate report.

DOCUMENT MANAGEMENT AND RECORDS TRACKING SYSTEM

The Committees on Appropriations direct FEMA to fully fund, at no less than \$6,000,000, based on competitive award, the completion of the Document Management and Records Tracking System.

NATIONAL FIRE INCIDENT REPORTING SYSTEM

The Committees on Appropriations provide \$1,000,000 for development of a web-based version of the National Fire Incident Reporting System. The Committees on Appropriations expect this investment to improve the timeliness and accuracy of data, and help Federal, State, and local governments identify nationwide trends in fire and emergency-related deaths and property loss. The United States Fire Administration should lead this initiative.

INTEGRATING PREPAREDNESS AND RESPONSE

The Committees on Appropriations provide up to \$1,000,000 for FEMA to enter into a grant or contract with the National Academy of Public Administration to review the integration of preparedness and response programs, as proposed in the House report. This review should focus on organizational structure, hiring plans and goals, coordination and integration mechanisms, and other areas FEMA may identify. This study shall be completed by the end of fiscal year 2008 and provided to the Committees on Appropriations.

NATIONAL RESPONSE FRAMEWORK

The Committees on Appropriations note the National Response Plan is now called the

National Response Framework and the National Preparedness Goal is now called National Preparedness Guidelines. Neither document is complete, even though these are critical national documents relied on by State and local governments. The Department is directed to incorporate public comment and finalize these important documents as soon as possible. The Committees on Appropriations direct the GAO to evaluate the process used to update the National Response Framework as discussed in the House report. This review should help the Department make improvements to the process so that future updates will be more inclusive of State and local governments.

FEDERAL AGENCY EMERGENCY PREPAREDNESS

The Committees on Appropriations direct FEMA to provide a report regarding the preparedness level of federal agencies designated to lead Emergency Support Functions as discussed in the Senate report. This report shall be provided to the Committees on Appropriations 10 months after the date of enactment of this Act.

CHILDREN AND DISASTER PREPAREDNESS

The Committees on Appropriations direct FEMA to assist communities by ensuring disaster preparedness and response education materials are developed and distributed to children. The needs of children, who are among the most vulnerable members of the population, are often overlooked when it comes to preparedness and response. Their needs during and following a disaster are vastly different than those of adults.

DISASTER PLANNING GUIDANCE

The Committees on Appropriations recognize guidelines for State and local communities regarding the needs of individuals with pets and service animals before, during, and after a disaster have been issued through the draft National Response Framework, and other recent documents. FEMA is encouraged to assist communities in implementing the guidelines as soon as possible.

U.S. FLAG TERRITORIES

The Committees on Appropriations are concerned about the nation's capacity to respond to disaster victims in the remote areas of the U.S. Flag Territories in the Pacific Ocean. FEMA is directed to analyze the regional all-hazard response capacity for this region and make recommendations as to how it might be improved.

2004 HURRICANES

FEMA is directed to maintain the Florida long-term recovery office as long as there is sufficient work left to be done following the four 2004 hurricanes that struck the State. FEMA is further directed to notify the Committees on Appropriations prior to closing the office.

FORMALDEHYDE

The Committees on Appropriations encourage FEMA to continue the practice of making available alternate housing for disaster victims who request a move due to concerns regarding formaldehyde exposure in manufactured housing. FEMA is directed to complete initial testing of formaldehyde levels in manufactured housing, which began in March 2006, and analyze those results. FEMA shall continue working with the DHS Office of Health Affairs and the Centers for Disease Control on testing trailer air quality and developing policies for those remaining in FEMA issued trailers.

The Committees on Appropriations are concerned FEMA does not have proper controls and processes in place to address emerging issues, especially health concerns, during disaster recovery. FEMA is directed to ensure proper training for employees who work directly with disaster victims has been

provided so emerging issues are quickly identified by FEMA and consistent and correct information is distributed to the public in a timely manner. Additionally, the Committees on Appropriations direct the Inspector General to report to the Committees on Appropriations, the Senate Committee on Homeland Security and Government Affairs, and the House Transportation and Infrastructure Committee regarding FEMA's decision-making regarding formaldehyde in trailers.

STATE AND LOCAL PROGRAMS
(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$3,177,800,000, of which \$110,000,000 is designated as emergency, instead of \$3,202,000,000 as proposed by the House and \$3,130,500,000 as proposed by the Senate. State and Local Programs funding is allocated as follows:

State Homeland Security Grant Program (SHSGP)	\$950,000,000
Urban Area Security Initiative (UASI)	820,000,000
Regional Catastrophic Preparedness Grants	35,000,000
Metropolitan Medical Response System	41,000,000
Citizen Corps Program	15,000,000
Public Transportation Security Assistance and Railroad Security Assistance	400,000,000
Port Security Grants	400,000,000
Over-the-Road Bus Security Assistance	11,500,000
Trucking Industry Security Grants	16,000,000
Buffer Zone Protection Program Grants	50,000,000
Real ID grants	50,000,000
Commercial Equipment Direct Assistance Program	25,000,000
Interoperable Emergency Communications Grant Program	50,000,000
Emergency Operations Centers	15,000,000
National Programs:	
National Domestic Preparedness Consortium	88,000,000
Center for Domestic Preparedness	62,500,000
National Exercise Program	50,000,000
Technical Assistance	12,000,000
Demonstration Training Grants	28,000,000
Continuing Training Grants	31,000,000
Evaluations and Assessments	19,000,000
Rural Domestic Preparedness Consortium	8,800,000
Total State and Local Programs	\$3,177,800,000

The amended bill contains provisions: (1) allowing the transfer of up to three percent of State and Local programs dollars to Federal Emergency Management Agency's (FEMA) Management and Administration account in order to simplify accounting practices within the agency for administrative costs; (2) designating certain timeframes for grant processing; (3) requiring grantees provide additional reports as determined necessary by the Secretary; and (4) requiring GAO to report on the data, assumptions, and methodology that DHS uses to assess risk and allocate UASI and SHSGP funds, including the reliability and validity of the data used, the basis for the assumptions used, and how the methodology is applied to determine the risk scores for individual locations and the allocation of grant

funds. GAO is to report to the Committees on Appropriations on its findings not later than 45 days after the date of enactment of this Act.

For the purposes of eligibility for funds any county, city, village, town, district, borough, parish, port authority, transit authority, intercity rail provider, commuter rail system, freight rail provider, water district, regional planning commission, council of government, Indian tribe with jurisdiction over Indian country, authorized tribal organization, Alaska Native village, independent authority, special district, or other political subdivision of any State shall constitute a "local unit of government." The recent enactment of the 9/11 Act codified many of the issues previously addressed by the Committees on Appropriations including: the formula for the distribution of SHSGP; purposes of SHSGP, UASI, and the Law Enforcement Terrorism Prevention Program; circumstances under which overtime or construction are allowable; State passthrough requirements for SHSGP, UASI, and Interoperability grants; purposes of transit and railroad security grants; purposes of Over-the-Road bus security grants; and allowable uses of the Public Safety Interoperable Communications grant program. Accordingly, language contained in the House and Senate versions of the bill and report has been substantially modified in the amended bill.

The Committees on Appropriations direct FEMA to work with the National Protection and Programs Directorate to utilize the results from the National Academy of Sciences study regarding incorporating natural disasters into the risk formula, once it is completed, as detailed in the House report.

The Committees on Appropriations urge the Department to work with State and local governments to ensure regional authorities, such as port, transit, or tribal authorities, are given due consideration in the distribution of state formula grants. The Department is encouraged to consider the need for mass evacuation planning and pre-positioning of equipment for mass evacuations in allocating first responder funds.

FEMA is directed, in conjunction with the Office of Health Affairs, to report to the Committee regarding the current state of disaster preparedness capabilities of emergency medical services and the capabilities required to meet future preparedness goals. This report is due no later than five months after the enactment of this Act and shall include an analysis of the gap between current and target capabilities. FEMA is directed to include in its grants guidance, language requiring State and local governments to include EMS providers in their Statewide Homeland Security Plans as well as their UASI plans. If no State or local funding is provided to EMS, the State should justify lack of funding through demonstrating related targeted capabilities have been met or identify other pressing priorities.

STATE HOMELAND SECURITY GRANT PROGRAM

The amended bill provides \$950,000,000 for the State Homeland Security Grant Program (SHSGP). There is no separate line item for the Law Enforcement Terrorism Prevention Program (LETPP), in accordance with the 9/11 Act, which mandates that at least 25 percent of SHSGP and Urban Area Security Initiative funds be used for LETPP activities. The amended bill contains a provision directing that the Commonwealth of Puerto Rico shall be considered a State in the allocation of grant funds to local and tribal governments.

Included within the amount provided is \$60,000,000 for Operation Stonegarden, designated as an emergency. All awards under Operation Stonegarden shall be made on a

competitive basis to units of local government in counties along land borders of the United States, including towns, cities, and counties, to enhance the coordination between local and federal law enforcement agencies. Eligible costs include, but shall not necessarily be limited to: overtime; vehicle maintenance; vehicle and equipment rental costs; reimbursement for mileage; fuel costs; equipment replacement costs; and travel costs for law enforcement entities assisting other local jurisdictions in law enforcement activities.

URBAN AREA SECURITY INITIATIVE

The amended bill provides \$820,000,000 for Urban Area Security Initiative (UASI) as proposed by the Senate and instead of \$850,000,000 as proposed by the House. Within this funding, the Committees on Appropriations provide \$15,000,000 for grants to non-profit organizations determined by the Secretary to be at high risk of terrorist attack. The Secretary shall consider prior threats or attacks against similar organizations when determining risk, and shall notify the Committees on Appropriations of the high risk or potential high risk to each designated tax exempt grantee at least five full business days in advance of the announcement of any grant award.

GAO is directed to provide a report to the Committees on Appropriations, which describes the criteria and factors used to determine the regional boundaries for UASI regions, including changes as a result of the enactment of the 9/11 Act. The report shall also provide an analysis of how such boundaries impact regional cooperation.

The Committees on Appropriations include language in NPPD related to the Capital Wireless Integrated Network.

REGIONAL CATASTROPHIC PREPAREDNESS GRANTS

The amended bill provides \$35,000,000 for Regional Catastrophic Preparedness grants instead of \$50,000,000 as proposed by the Senate. The House did not include funding. Of this amount \$18,000,000 shall be for tier one UASI regions, no more than \$3,000,000 shall be for technical assistance, and the remaining funds shall be allocated based on all-hazards. These grants should fund multi-jurisdictional efforts to promote regional approaches to catastrophic events, including mass evacuation. The Committees on Appropriations direct the Department to expeditiously award the funds provided under this heading and the \$35,000,000 provided in the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007, Public Law 110-28. FEMA shall brief the Committees on Appropriations by September 15, 2008, on the preparedness assets (fuel, water, communications) that have been staged and/or deployed pursuant to this program in this and previous years.

METROPOLITAN MEDICAL RESPONSE SYSTEM

The amended bill provides \$41,000,000 for the Metropolitan Medical Response System instead of \$50,000,000 as proposed by the House and \$33,000,000 as proposed by the Senate. The Committees on Appropriations do not include language directing that the grants be competitively awarded as proposed by the House.

CITIZEN CORPS

The amended bill provides \$15,000,000 for the Citizen Corps program as proposed by the Senate instead of \$17,000,000 as proposed by the House.

PUBLIC TRANSPORTATION SECURITY ASSISTANCE AND RAILROAD SECURITY ASSISTANCE

The amended bill provides \$400,000,000 for Public Transportation Assistance and Rail-

road Security Assistance. Within the funding provided, no less than \$25,000,000 is for Amtrak.

PORT SECURITY GRANTS

The amended bill provides \$400,000,000 for port security grants as proposed by both the House and the Senate.

OVER-THE-ROAD BUS SECURITY ASSISTANCE

The amended bill provides \$11,500,000 for Over-the-Road bus security grants instead of \$11,000,000 as proposed by the House and \$12,000,000 as proposed by the Senate.

TRUCKING INDUSTRY SECURITY GRANTS

The amended bill provides \$16,000,000 for trucking industry security grants as proposed by the Senate instead of \$10,000,000 as proposed by the House. The funding is to be competitively awarded. FEMA is directed to submit an expenditure plan as detailed in the House report.

BUFFER ZONE PROTECTION PROGRAM

The amended bill provides \$50,000,000 for the Buffer Zone Protection Program as proposed by the Senate instead of \$100,000,000 as proposed by the House.

REAL ID GRANTS

The amended bill provides \$50,000,000 for REAL ID grants as proposed by the House. The total is designated as an emergency. In addition, States may opt to enhance REAL ID capabilities by using State homeland security grants for this purpose. The Committees on Appropriations note that no funds were requested for REAL ID in the President's budget and provide this funding to assist States in complying with this Federal mandate. Funds are available until September 30, 2008.

COMMERCIAL EQUIPMENT DIRECT ASSISTANCE PROGRAM

The amended bill provides \$25,000,000 for the Commercial Equipment Direct Assistance Program instead of \$20,000,000 as proposed by the House and \$40,000,000 as proposed by the Senate. The Committees on Appropriations do not direct the program be changed to a grant program as proposed by the House.

INTEROPERABLE EMERGENCY COMMUNICATIONS GRANTS

The amended bill provides \$50,000,000 for Interoperable Emergency Communication Grants as proposed by the House instead of \$100,000,000 as proposed by the Senate. This program shall be implemented in accordance with the 9/11 Act. The Committees on Appropriations direct a briefing on the implementation of GAO recommendations contained in GAO-07-031.

EMERGENCY OPERATIONS CENTERS

The amended bill provides \$15,000,000 for Emergency Operations Centers (EOC). The Committees on Appropriations are aware of the needs of State and local governments for adequate emergency operations centers to improve unified command capabilities. Therefore funding is included for the equipping, upgrading, and constructing of EOCs pursuant to section 614 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended by the 9/11 Act.

GRANT MANAGEMENT SYSTEM

The Committees on Appropriations urge FEMA to consider the use of tracking and accountability systems to assist in managing grant allocations, distribution, expenditures, and asset tracking, and encourage usage of multi-state cooperative purchasing agreements.

SLOWNESS IN AWARDED GRANTS

The Committees on Appropriations direct FEMA to implement the law, including the timeframes for issuing State and local grant

funds. It is imperative the agency and the Department take State and local partners in homeland security seriously by ensuring needed resources are expeditiously provided for known risks.

NATIONAL PROGRAMS

The amended bill provides \$299,300,000 for training, exercises, technical assistance, and other programs instead of \$293,000,000 as proposed by the House and \$294,500,000 as proposed by the Senate.

NATIONAL DOMESTIC PREPAREDNESS CONSORTIUM

Included within the amount provided for National Programs, \$88,000,000 is for the National Domestic Preparedness Consortium as proposed by both the House and Senate. Consortium members funded in fiscal year 2007 shall receive \$22,000,000 pursuant to the 9/11 Act.

CENTER FOR DOMESTIC PREPAREDNESS

Included within the amount provided for National Programs, \$62,500,000 is for the Center for Domestic Preparedness as proposed by the Senate instead of \$57,000,000 as proposed by the House. Within the funding provided, \$5,500,000 is for the Noble Training Center. The amended bill contains language providing the Center authority to accept reimbursements from others receiving training.

RURAL DOMESTIC PREPAREDNESS CONSORTIUM

Included within the amount provided for National Programs, \$8,800,000 is for the Rural Domestic Preparedness Consortium (RDPC). The RDPC provides technical assistance and training for terrorism prevention, preparedness, response, and recovery in support of rural homeland security requirements. FEMA is directed to continue the development of specialized and innovative training curricula for rural first responders and ensure the coordination of such efforts with existing grants and training partners.

TECHNICAL ASSISTANCE

Included within the amount provided for National Programs, \$12,000,000 is for technical assistance instead of \$18,000,000 as proposed by the House and \$14,000,000 as proposed by the Senate.

DEMONSTRATION TRAINING GRANTS

Included within the amount provided for National Programs, \$28,000,000 is for demonstration training grants as proposed by the Senate. The House included funding for a program which combined the demonstration and continuing training grants. FEMA shall give priority to training that benefits nation-wide initiatives including those that identify and disseminate preparedness and response best practices to States and locals and are conducted at or in cooperation with universities, colleges, and community colleges.

CONTINUING TRAINING GRANTS

Included within the amount provided for National Programs, \$31,000,000 is for continuing training grants as proposed by the Senate. The House included funding for a program which combined the demonstration and continuing training grants. The Committees on Appropriations support programs which consistently deliver homeland security curricula in the form of executive education programs and accredited Masters Degree education. The Committees on Appropriations recommend full funding for the graduate-level homeland security education programs currently supported by the Department and encourage the Department to leverage these existing programs to meet the growing need for graduate-level education.

EVALUATIONS AND ASSESSMENTS

Included within the amount provided for National Programs, \$19,000,000 is for evalua-

tions and assessments as proposed by the House and the Senate. FEMA shall brief the Committees on Appropriations every six months on results from completed evaluations instead of the requirement for FEMA to provide the results of all evaluations within 30 days of completion as proposed by the House.

FIREFIGHTER ASSISTANCE GRANTS

The amended bill provides \$750,000,000 instead of \$805,058,000 as proposed by the House and \$705,000,000 as proposed by the Senate. Of this amount, \$190,000,000 shall be for firefighter staffing, as authorized by section 34 of the Federal Fire Prevention and Control Act of 1974, instead of \$235,058,000 as proposed by the House and \$145,000,000 as proposed by the Senate. The Committees on Appropriations agree to make \$3,000,000 available for implementation of section 205(c) of Public Law 108-169, the United States Fire Administration Reauthorization Act of 2003 to be competitively awarded. Grants under sections 33 and 34 of the Federal Fire Prevention and Control Act of 1974 are available until September 30, 2009, as proposed by the House. FEMA is encouraged to consider planning and preparation for wildfires in the allocation of fire prevention programs.

The Committees on Appropriations direct GAO to review the application and award process for the Assistance to Firefighters (FIRE) grants and Staffing for Adequate Fire and Emergency Response (SAFER) grants as detailed in the House report. FEMA shall peer-review FIRE and SAFER grant applications which meet criteria established by FEMA and the Fire Service. Those criteria necessary for peer-review must be included in the grant application package. Applicants whose grant applications are not reviewed must receive an official notification detailing why the application did not meet the criteria for review. Applications must be rank-ordered, and funded following the rank order.

EMERGENCY MANAGEMENT PERFORMANCE GRANTS

The amended bill provides \$300,000,000 as proposed by both the House and the Senate. The Committees on Appropriations direct FEMA to retain the Emergency Management Performance Grants as a separate grant program, and to continue funding personnel expenses. Funds shall be used for all-hazards activities.

RADIOLOGICAL EMERGENCY PREPAREDNESS PROGRAM

The amended bill provides for the receipt and expenditure of fees collected, as authorized by Public Law 105-276, as proposed by both the House and the Senate. The Committees on Appropriations are concerned experiences and lessons learned through the Radiological Emergency Preparedness Program (REPP) are not being shared with other Department components, and urge greater coordination with the REPP to share lessons learned.

UNITED STATES FIRE ADMINISTRATION

The amended bill provides \$43,300,000 as proposed by both the House and the Senate.

DISASTER RELIEF

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$1,400,000,000 for Disaster Relief instead of \$1,700,000,000 as proposed by both the House and the Senate. The amended bill contains a provision to allow the transfer of up to \$60,000,000 to FEMA Management and Administration of which \$48,000,000 is for the conversion of 250 temporary disaster positions into permanent positions and \$12,000,000 is for activities related to the Robert T. Stafford Disaster Relief and Emergency Assistance Act. In addition, the amended bill contains a provision

to allow the transfer of \$16,000,000 to Office of Inspector General for audits and investigations of disasters. The Committees on Appropriations direct that funds appropriated for Disaster Relief cannot be used to supplement the resources of other DHS offices that receive a separate appropriation absent explicit authority to do so in law.

The amended bill contains a provision requiring the Disaster Relief Fund report be submitted hereafter on a monthly basis. The report is a continuation of the DRF report required in Public Law 109-62, Public Law 109-90, and Public Law 109-295. The requirement to report manufactured housing and hotel and motel data is deleted. The report must now include allocations, obligations, and expenditures for Hurricanes Katrina, Rita, Wilma, and all other open disasters.

The Post-Hazard Mitigation Grant Program is a key component of mitigation and disaster recovery. Federal investments in post disaster mitigation activities are leveraged by a unique 'window of opportunity' that exists following a disaster, when perceptions of risk become clearer and prompt individuals and communities to undertake risk reduction activities they may not have considered in a pre-disaster context. FEMA is directed to report within 30 days of the enactment of this Act on the use of post-disaster mitigation funds, including funds made available after the 2005 hurricanes; any legislative or administrative obstacles preventing more expedient use of funds; and recommendations for more effective implementation of this program.

DISASTER ASSISTANCE DIRECT LOAN PROGRAM ACCOUNT

The amended bill provides \$580,000 for administrative expenses and \$295,000 for the cost of loans as proposed by both the House and the Senate. Gross obligations for the principal amount of direct loans shall not exceed \$25,000,000 as proposed by both the House and the Senate.

FLOOD MAP MODERNIZATION FUND

The amended bill provides \$220,000,000 for flood map modernization instead of \$230,000,000 as proposed by the House and \$200,000,000 as proposed by the Senate. FEMA is encouraged to prioritize as criteria the number of stream and coastal miles within the State, the Mississippi River Delta region, and the participation of the state in leveraging non-federal contributions. FEMA is directed to dedicate at least 10 percent of funds provided under this heading to activities associated with maintaining flood maps that are at least three years beyond their effective date. The goal should be to complete maintenance of maps before they are more than five years beyond their effective date. Map maintenance includes: studying previously unstudied or under-studied areas; re-studying areas where watershed and/or floodplain conditions have altered flood hazards; and re-evaluating flood hazards to take into account new data or methodologies. Cooperating technical partners that offer significant funding matches should be given priority in allocating map maintenance funding. Up to three percent of awarded funds may be used by recipients for administrative expenses.

FEMA is directed to brief the Committees on Appropriations regarding the additional needs for a continued Flood Map Modernization program as included in the Senate report. FEMA is encouraged to work with the Army Corps of Engineers to develop accurate maps reflecting the damage done by Hurricanes Katrina and Rita. FEMA is further directed to brief the Committees on Appropriations within 60 days of enactment of this Act on the progress of flood plain mapping in the Gulf Coast.

NATIONAL FLOOD INSURANCE FUND
(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$45,642,000 for salaries and expenses as proposed by both the House and Senate. The amended bill provides \$90,000,000 for severe repetitive loss property mitigation expenses under section 1361A of the National Flood Insurance Act of 1968 and a repetitive loss property mitigation pilot program under section 1323 of the National Flood Insurance Act; and no less than \$99,358,000 for other flood mitigation activities, of which up to \$34,000,000 is available for transfer to the National Flood Mitigation Fund. Total funding of \$145,000,000 is offset by premium collections. The amended bill sets limitations of \$70,000,000 for operating expenses, \$773,772,000 for agents' commissions and taxes, and "such sums" for interest on Treasury borrowings.

NATIONAL FLOOD MITIGATION FUND
(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$34,000,000 by transfer from the National Flood Insurance Fund as proposed by both the House and Senate.

NATIONAL PREDISASTER MITIGATION FUND

The amended bill provides \$114,000,000 for the Predisaster Mitigation Fund as proposed by both the House and Senate.

The amended bill contains a provision requiring all projects funded with the Predisaster Mitigation Fund comply with the criteria in section 203(g) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act.

The Committees on Appropriations include the following projects in the following amounts:

EMERGENCY FOOD AND SHELTER

The amended bill provides \$153,000,000 for Emergency Food and Shelter as proposed by both the House and Senate.

TITLE IV—RESEARCH AND DEVELOPMENT, TRAINING, AND SERVICES

UNITED STATES CITIZENSHIP AND IMMIGRATION SERVICES

The amended bill provides \$80,973,000 for United States Citizenship and Immigration Services (USCIS) instead of \$30,000,000 as proposed by the House and \$50,523,000 as proposed by the Senate. Of this amount, \$80,000,000 is designated as emergency.

EMPLOYMENT ELIGIBILITY VERIFICATION/E-VERIFY

The Committees on Appropriations provide \$60,000,000 for the Employment Eligibility Verification program, which USCIS has renamed E-Verify, instead of \$30,000,000 provided by both the House and the Senate. This system allows employers to check government databases and verify the employment status of job applicants.

FBI BACKGROUND CHECK BACKLOG

The Committees on Appropriations provide \$20,000,000 for reduction of the FBI name check backlog as proposed by the Senate and instead of no funding proposed by the House. The Director of USCIS is directed to report to the Committees on Appropriations on plans to eliminate the backlog of FBI name checks, as discussed in the Senate report.

BENEFIT PAROLE PROGRAMS TRANSFER

The Committees on Appropriations provide \$523,000 for USCIS to transfer the Cuban-Haitian Entrant Program, the Moscow Refugee

Program, and the Humanitarian Parole Program from U.S. Immigration and Customs Enforcement to USCIS, as proposed by the Senate and requested by the Department. The House did not transfer these programs. The Director of USCIS is directed to brief the Committees on Appropriations on the number of individuals serviced by these programs and the long-term outlook for these programs.

IMMIGRATION SERVICES

The Committees on Appropriations direct USCIS to expand its immigration services programs, prioritizing areas that have large populations of underserved immigrant populations, as discussed in the House report. The Committees on Appropriations provide \$450,000 for this purpose, of which \$150,000 shall be allocated to the Citizens Advice Bureau Immigrant Assistance Project and \$300,000 shall be allocated to the Bronx Project, Northern Manhattan Coalition for Immigrant Rights.

FEE-FUNDED PROGRAMS

Current estimates of fee collections, which constitute the majority of USCIS resources, are \$2,538,872,000. These revenues will support adjudication of applications for immigration benefits and fraud prevention activities, and are derived from fees collected from persons applying for immigration benefits. The Committees on Appropriations direct USCIS to allocate these fees as shown in the table presented in the Senate report and direct that no more than \$10,000 shall be for official reception and representation expenses.

Within the total fees collected, the Committees on Appropriations direct USCIS to provide no less than \$49,357,000 to support Customer Service Center operations, and to dedicate the entirety of premium processing revenue to business system and information technology transformation, including converting immigration records to digital format. The Committees on Appropriations require the Director of USCIS to submit an expenditure plan for the Business Transformation Project. USCIS should include materials in the plan that address the alignment of the transformation process with the Departmental enterprise architecture, as well as details on expected project performance and deliverables.

IMMIGRATION REFORM

USCIS is not required to report on the anticipated process for administering a temporary worker program.

H-1B BENEFITS FRAUD ASSESSMENT

USCIS is directed to conduct a benefits fraud assessment of the H-1B Visa Program, and to report to the Committees on Appropriations on the results of the assessment and any recommendations to strengthen the program.

USCIS VEHICLES

The amended bill provides authority for USCIS to acquire up to five vehicles in locations where the General Services Administration does not provide vehicles for lease. The Director of USCIS is directed to notify the Committees on Appropriations on each occasion this authority is used, including details on the cost of each vehicle, the rationale for its purchase or lease, and the location where the vehicle is used.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

SALARIES AND EXPENSES

The amended bill provides \$238,076,000 for Salaries and Expenses instead of \$219,786,000 as proposed by the House and \$221,076,000 as proposed by the Senate. Of this amount, \$17,000,000 is designated as emergency. The amended bill allows the Federal Law En-

forcement Training Center (FLETC) to obligate funds in anticipation of reimbursements from agencies, as proposed by the Senate. The Committees on Appropriations adopt the Senate position of not transferring the Federal Law Enforcement Training Accreditation Board (FLETA) from FLETC and include \$1,290,000 for FLETA within this appropriation. The amended bill also extends the rehired annuitant authority through December 31, 2010. The Committees on Appropriations do not adopt the revolving fund language proposed by the Administration.

ACQUISITIONS, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

The amended bill provides \$50,590,000 for Acquisitions, Construction, Improvements, and Related Expenses instead of \$43,270,000 as proposed by the House and \$44,470,000 as proposed by the Senate. Of this amount, \$4,000,000 is designated as emergency. Within the total, \$3,320,000 is for construction of new training and related facilities at Artesia, New Mexico.

SCIENCE AND TECHNOLOGY

MANAGEMENT AND ADMINISTRATION

The amended bill provides \$138,600,000 for Management and Administration of Science and Technology (S&T) instead of \$130,787,000 as proposed by the House and \$140,632,000 as proposed by the Senate. This amount includes \$10,000 for official reception and representation as proposed by the House instead of \$3,000 as proposed by the Senate. S&T shall move expeditiously to address critical issues of staff vacancies and internal controls. Sufficient resources have been included within this account for the establishment of the Homeland Security International Cooperative Programs Office pursuant to section 1901 of the 9/11 Act.

RESEARCH, DEVELOPMENT, ACQUISITION, AND OPERATIONS

The amended bill provides \$691,735,000 for Research, Development, Acquisition, and Operations instead of \$646,325,000 as proposed by the House and \$697,364,000 as proposed by the Senate. The following table specifies funding by budget activity:

Border and Maritime Security	\$25,479,000
Chemical and Biological	208,020,000
Command, Control, and Interoperability	56,980,000
Explosives	77,654,000
Human Factors	14,206,000
Infrastructure and Geophysical	64,500,000
Innovation	33,000,000
Laboratory Facilities	103,814,000
Test and Evaluations/Standards	28,520,000
Transition	25,265,000
University Programs	49,297,000
Homeland Security Institute	5,000,000
Total	\$691,735,000

HOMELAND SECURITY INSTITUTE

The Committees on Appropriations provide \$5,000,000 for the Homeland Security Institute (HSI), as proposed by the Senate. Funding reductions have been made to each program, project, and activity (PPA) within S&T to reflect this appropriation for HSI. The Committees on Appropriations recognize that in addition to this appropriation, HSI has many ongoing projects with other DHS agencies that supplement these funds. S&T shall ensure that the fiscal year 2009 Congressional justification clearly delineates funding for the Homeland Security Institute and does not obscure it within S&T's other PPAs.

CHEMICAL AND BIOLOGICAL

The Committees on Appropriations provide \$208,020,000 for the chemical and biological

program instead of \$215,131,000 as proposed by the House and \$216,038,000 as proposed by the Senate. Within this total, \$5,800,000 has been appropriated to procure 26 Generation 3 BioWatch detection units to support a six month pilot of these systems in two BioWatch cities. No funding has been provided for the low rate initial production procurement because the Department's decision on which system to procure will not be made until after the pilot is concluded. Currently, the Department does not anticipate this until late 2008 or early 2009.

COMMAND, CONTROL, AND INTEROPERABILITY

The Committees on Appropriations provide \$56,980,000 for command, control, and interoperability instead of \$61,100,000 as proposed by the House and \$61,763,000 as proposed by the Senate. Within this total, not less than \$19,881,000 is for cyber security activities including efforts to address flaws in the computerized systems that control generators, switching stations, and electrical substations as well as other emerging threats to infrastructure critical to the U.S. economy. Analysis, Dissemination, Visualization, Insight, and Semantic Enhancement (ADVISE) program

No funding has been provided for the ADVISE program as proposed by both the House and the Senate. Bill language clarifies that obligations may not be made to follow-on or successor programs to ADVISE. The Committees on Appropriations remind the Department that any tools designed to manipulate data bases must have proper Privacy Impact Assessments in place before use.

FIRST RESPONDER COMMUNICATIONS

EQUIPMENT STANDARDS

Federal funding for first responder communications equipment should be compliant with common system standards for digital public safety radio communications (Project 25 standards), as appropriate, to ensure interoperability. S&T, in conjunction with the Director of the National Institute of Standards and Technology, shall continue assessing the compliance of first responder communications equipment with Project 25 standards.

EXPLOSIVES

The Committees on Appropriations provide \$77,654,000 for explosives instead of \$63,749,000 as proposed by the House and \$81,726,000 as proposed by the Senate. Within this total, not less than \$15,000,000 shall be used to support S&T's work under HSPD-19 as discussed in the Senate report. Specifically, S&T shall work toward producing detection technologies that deter, reduce, or eliminate explosive attacks and their consequences including car bombs. S&T should coordinate this work with other Federal agencies to eliminate any duplication of efforts.

S&T has been conducting three air cargo pilots since 2006. While two of the pilots are completed, the remaining pilot at San Francisco airport has been repeatedly delayed. As a result, S&T does not anticipate collecting six months of data on the use of explosive detection systems (EDS) to screen air cargo at a dedicated facility as required in the statement of managers accompanying House Report 109-241. The Committees on Appropriations urge S&T to continue the air cargo pilot at San Francisco airport to obtain a full six months of EDS data and encourage the use of unobligated balances from the air cargo research and development program for this effort. As the most recent monthly obligation report shows, \$4,755,680 is currently unobligated. S&T is encouraged to share any promising results of the air cargo pilots with other airports.

HUMAN FACTORS

The Committees on Appropriations provide \$14,206,000 for human factors instead of

\$12,600,000 as proposed by the House and \$6,706,000 as proposed by the Senate. Within this funding, \$7,500,000 is for the Institute for Homeland Security Solutions, which will be funded through the Research Triangle Institute. The Institute for Homeland Security Solutions (IHSS) will conduct applied technological and social science research with universities, other federal agencies, state and local security agencies and the private sector. This Institute will focus on developing near-term technological solutions to practical, real world problems that have broad applications. IHSS' work for DHS will cover critical policy and operational implications of new technologies and will be narrowly focused on information analysis tools and policies. One example of the work the Institute will focus on is anomaly detection. The paradigm for security in many operations centers is a person, or group of people, staring at a dozen or more video screens and perhaps receiving data from a variety of other sources simultaneously. In these settings, the human brain is quickly overwhelmed with more images and data than it can effectively process—too much data is almost as bad as no data at all. The Institute will focus on whether these centers can be more effective through development of technology capable of learning and remembering what the normal traffic pattern of people is and detecting automatically when there is an anomaly that might raise a security concern.

INFRASTRUCTURE AND GEOPHYSICAL

The Committees on Appropriations provide \$64,500,000 for infrastructure and geophysical, instead of \$24,000,000 as proposed by the House and \$64,000,000 as proposed by the Senate. Within the funding provided, \$27,000,000 is to continue the Southeast Regional Research Initiative, \$9,500,000 is for Regional Technology Integration, and \$11,000,000 is for the Community-Based Critical Infrastructure Protection Institute to support existing work in research and development and application of technology for community based critical infrastructure protection efforts.

INNOVATION

The Committees on Appropriations provide \$33,000,000 for innovation instead of \$51,900,000 as proposed by the House and \$46,000,000 as proposed by the Senate. Funding is not specified among the Innovation programs; S&T is directed to submit to the Committees on Appropriations an allocation plan for Innovations within 30 days after enactment of this Act.

NEW TECHNOLOGIES

The Committees on Appropriations believe new technologies may significantly help the Department as it seeks to secure our homeland. The Department is encouraged to develop such technologies as carbon nanotube coatings; dual use mobile sensor technology that provides automatic intelligence collection; sensor drive analytics; regional disease surveillance; explosive detection using computer tomography/neutron technologies; microsystems technologies for high threat problem solving; small, rugged mass spectrometers; gallium nitride based multi-mission phase array radar; high throughput backscatter personal screeners; data systems that are scaleable, easily deployable and do not require significant power or cooling infrastructure; mono-energetic gamma resonant imaging and detection systems; respirators using antimicrobial iodinated technology; and supercomputing centers that utilize smart sensor algorithms on low cost processors.

MULTI-FUNCTION PHASED ARRAY RADARS

During the next decade, many of the surveillance radars used by a number of Federal

agencies around the country will near the end of their design life. The Department is encouraged to continue its involvement in the Office of Federal Coordinator for Meteorology (OFCM) Working Group for Multifunctional Phased Array Radar (MPAR), which is focused on developing multi-function phased array radars to replace the current generation of surveillance radar. The Department should evaluate the mission requirements where MPAR has potential departmental applications such as providing information on severe weather, non-cooperative aircraft, and potential terrorist incidents involving chemical, biological, radiological, or nuclear materials. The Department's continued participation in the OFCM effort should attempt to ensure that the appropriate applications are incorporated into the MPAR design.

LABORATORY FACILITIES

The Committees on Appropriations provide \$103,814,000 for laboratory facilities as proposed by the Senate instead of \$88,814,000 as proposed by the House. Within the total provided is \$15,000,000 for Area 300 (Pacific Northwest National Laboratory) for ongoing construction in support of the memorandum of understanding between DHS, the Department of Energy and the National Nuclear Security Administration.

S&T is directed to report on the costs and benefits of the Transportation Safety Laboratory charging companies for evaluation of their products. S&T should account for potential enhanced services and capitol improvements that such fees might allow, as well as any negative effects such as potential barriers to entry for small companies that such fees may cause.

TEST AND EVALUATIONS/STANDARDS

The Committees on Appropriations provide \$28,520,000 for test and evaluations/standards as proposed by the House instead of \$24,219,000 as proposed by the Senate. Within the funds provided, \$3,000,000 shall be for independent peer reviewed program evaluations throughout DHS conducted by outside entities. The Committees on Appropriations expect that only one or two smaller scale programs will be able to be evaluated with this funding and direct S&T to begin with an evaluation of TSA's air cargo certified shipper pilot program. This evaluation should focus on the soundness of the measurements TSA will use to evaluate the integrity of a certified shippers air cargo security program and whether the certified shipper program will help TSA meet the 100-percent screening requirements contained in the 9/11 Act. S&T shall consult with the Committees on Appropriations on other programs to be evaluated and the scope of the evaluation before funding is obligated.

TRANSITION

The Committees on Appropriations provide \$25,265,000 for transition instead of \$26,000,000 as proposed by the House and \$23,901,000 as proposed by the Senate. Within the funds provided, up to \$1,000,000 is for an independent review to determine whether Federal resources are being adequately and efficiently used in DHS and other Federal agencies to address homeland security needs, including the opportunity costs that may result from the increased prominence of homeland security as detailed in the House report. This review should be conducted by the National Academy of Public Administration.

UNIVERSITY PROGRAMS

The Committees on Appropriations provide \$49,297,000 for university programs instead of \$48,575,000 as proposed by the House and \$38,718,000 as proposed by the Senate. Within this funding, \$4,000,000 is to support the new National Transportation Security Center of

Excellence authorized in the 9/11 Act and \$2,000,000 is to support the ongoing Memorandum of Agreement with the Naval Postgraduate School. Because the funding level is \$10,579,000 above the budget request, S&T shall brief the Committees on Appropriations on how these additional funds will be allocated 60 days after enactment of this Act. As part of this briefing, S&T shall also discuss how universities are selected to participate in this program, how S&T determines the type of research each Center of Excellence will specialize in, how the Directorate evaluates the quality of work from the Centers, and assess the impact a time limit may have on the quality and breadth of research conducted.

DOMESTIC NUCLEAR DETECTION OFFICE MANAGEMENT AND ADMINISTRATION

The amended bill provides \$31,500,000 for Management and Administration instead of \$31,176,000 as proposed by the House and \$32,000,000 as proposed by the Senate. The increase of \$1,032,000 above the current services level is intended to partially address critical staff vacancies. The Committees on Appropriation are concerned with the Domestic Nuclear Detection Office's (DNDO) shortfall in critical staffing positions and the impact of this shortfall upon the agency's administrative functions. As a result, there have been significant delays in obtaining quality budgetary information on major acquisitions and research projects from the agency. As of the end of September 2007, DNDO was only supporting 91 positions, or 21 below the fiscal year 2007 enacted level. Furthermore, the fiscal year 2008 budget justification fails to provide detailed data and explanatory statements for the additional 18 program management staff requested. Without an effective staffing plan and the appropriate complement of budgetary and support personnel, DNDO will be unable to manage its projected acquisition, fielding and integration of next generation devices. Therefore, DNDO is directed to prioritize its program management support needs and make every effort to fill associated positions as soon as possible. DNDO shall brief the Committees on Appropriations by February 1, 2008 on its hiring plan.

RESEARCH, DEVELOPMENT, AND OPERATIONS

The amended bill provides \$323,500,000 for Research, Development, and Operations instead of \$316,900,000 as proposed by the House and \$336,000,000 as proposed by the Senate. The following table specifies funding by budget activity:

Systems Engineering and Architecture	\$22,400,000
Systems Development	118,100,000
Transformational Research and Development	96,000,000
Assessments	37,500,000
Operations Support	34,500,000
National Technical Nuclear Forensics Center	15,000,000
Total	\$323,500,000

SYSTEMS DEVELOPMENT

The Committees on Appropriations provide \$118,100,000 for systems development instead of \$108,100,000 as proposed by the House and \$132,100,000 as proposed by the Senate. Within the amount appropriated: \$10,000,000 shall be available to support the implementation of the Securing the Cities Initiative; \$10,000,000 is to deploy up to ten teams to screen general aviation aircraft for illicit material, other aviation programs or non-ports of entry land border efforts; and \$3,000,000 is for the development of detection systems to scan general aviation aircraft for illicit radiological and nuclear materials. DNDO is urged to place a priority within development

and deployment of detection systems on the highest risk pathways entering the country.

The Committees on Appropriations concur with direction in the Senate report requiring DNDO to submit a strategic plan for its phased deployment of the Securing the Cities initiative. This plan shall: (1) prioritize the cities that will be covered by the program; (2) lay out decisions on which routes will be covered; (3) address whether decoy detection systems would benefit the public good; (4) indicate what level of detection infrastructure is planned in each city; (5) address whether any given deployment has a reasonable chance of success; and (6) establish a five year projected cost estimate for this initiative. In addition, DNDO shall enter into a memorandum of understanding with any city receiving resources from the Securing the Cities initiative. This memorandum shall outline the duties expected of DNDO and the city over the foreseeable future as well as the annual resources requirements each must meet to fully implement this initiative.

The Committees on Appropriations concur with the House report directing DNDO to report on its assessment of radiation detection technologies that could be used in rail yards, at non-ports of entry land border crossings, at general aviation airports, and with small maritime craft. DNDO shall brief the Committees on Appropriations quarterly on the progress it has made in identifying the necessary architecture, the strengths and weakness of these technologies, and a timetable to develop and deploy these technologies.

The Committees on Appropriations agree with the Senate report encouraging DNDO to place its screening equipment according to threat and risk rather than ease of screening and measurement. Further, DNDO is directed to continue to keep the Committees on Appropriations informed of its efforts to fully cover all high risk pathways into the United States and how it is using intelligence to drive investments in its global nuclear detection architecture.

DNDO shall work with U.S. Customs and Border Protection (CBP) to initiate two pilots of radiation portal monitors within the air port of entry environment for screening individuals and their baggage for radioactive materials. The pilots should include a detailed concept of operations. DNDO and CBP are directed to brief the Committees on Appropriations on the status of the development efforts.

ASSESSMENTS

The Committees on Appropriations provide \$37,500,000 for assessments instead of \$32,000,000 as proposed by the House and the Senate. Within the funding provided, \$5,500,000 is to enhance detection links between seaports and railroads at a test center in Tacoma, Washington as authorized by the SAFE Port Act, as proposed by the Senate.

RED TEAMING

DNDO is directed to brief the Committees on Appropriations on red team exercises it has conducted, any vulnerabilities identified, and any changes that are being made to the system to address these vulnerabilities. The first briefing shall be within 120 days after enactment of this Act.

SYSTEMS ACQUISITION

The amended bill provides \$129,750,000 for Systems Acquisition instead of \$171,500,000 as proposed by the House and \$139,000,000 as proposed by the Senate. The following table specifies funding by budget activity:

Radiation Portal Monitor	
Program	\$90,000,000
Securing the Cities	30,000,000

Human Portal Radiation	
Detection Systems Program	9,750,000
Total	\$129,750,000

RADIATION PORTAL MONITOR PROGRAM

The Committees on Appropriations provide \$90,000,000 for the radiation portal monitor program instead of \$171,500,000 as proposed by the House and \$139,000,000 as proposed by the Senate. Within this appropriation, full funding has been provided for DNDO's effort to: procure and deploy additional polyvinyl toluene (PVT) based fixed radiation portal monitors (RPMs) to all remaining northern border sites by calendar year 2009, deploy PVT units in the air cargo environment, upgrade and deploy the 45 low rate initial production Advanced Spectroscopic Portal (ASPs) units, and support field validation for ASPs to determine that these systems meet CBP's functionality requirements.

As of November 15, 2007, 100-percent of all containerized cargo is being screened by RPMs at the southern border. However, the Committees on Appropriations remain deeply concerned about the Department's ability to detect non-containerized illicit radioactive materials entering the nation. Since the President's budget submission in February 2007, Congress has appropriated \$100,000,000 in unrequested emergency resources to speed placement of fixed radiation detectors at ports of entry (POE). Unfortunately, these resources, as well as prior year appropriations of \$64,330,000, remain largely unspent due to additional development required of the ASP monitors and additional evaluation to determine if ASP monitors are significantly more effective than currently deployed technologies. To date, the Committees on Appropriations have not received a certification from the Secretary that the ASP monitors perform more effectively in an operational environment compared to current generation portal monitors. Therefore, limited funding is provided for ASP in fiscal year 2008. The Committees on Appropriations direct \$147,000,000, from supplemental funds provided in fiscal year 2007 and annual appropriations provided in fiscal year 2008, be utilized to accelerate the procurement and deployment of PVTs to complete deployment of these systems at all remaining northern border sites. While the current generation technologies may not have the expected capabilities of ASP systems, they are substantially less expensive, proven to work within known limits, and can be quickly deployed to POEs.

The Committees on Appropriations appreciate the difficulties the Secretary faces in certifying the ASP systems and provide sufficient resources to allow DNDO to enter into an agreement with the National Academy of Sciences (NAS) to assist the Secretary in his certification decisions. NAS will help validate testing completed to date, provide support for future testing, assess the costs and benefits of this technology, and bring robustness and scientific rigor to the procurement process. As in prior fiscal years, the Committees on Appropriations include a prohibition of full scale procurement of ASP systems until the Secretary has certified and reported to the Committees that a significant increase in operational effectiveness merits such a decision. However, the amended bill also requires separate and distinct certifications for primary and secondary deployments in recognition of the inherently unique operational requirements each presents. The amended bill also prohibits high-risk concurrent development and production of mutually dependent software and hardware components of detection systems. This restriction is included to address the acquisition

and fiscal risks associated with such concurrency and in response to the testing difficulties DNDO has encountered over the last fiscal year.

TITLE V—GENERAL PROVISIONS

Section 501. The amended bill continues a provision proposed by the House and Senate that no part of any appropriation shall remain available for obligation beyond the current year unless expressly provided.

Section 502. The amended bill continues a provision proposed by the House that unexpended balances of prior appropriations may be merged with new appropriations accounts and used for the same purpose, subject to reprogramming guidelines.

Section 503. The amended bill continues and modifies a provision proposed by the House and Senate that provides authority to reprogram appropriations within an account and to transfer up to 5 percent between appropriations accounts with 15-day advance notification of the Committees on Appropriations. Modifications adopted include in (1) adding "project" or "activity"; and in (2) adding "office". A detailed funding table identifying each congressional control level for reprogramming purposes is included at the end of this statement. These reprogramming guidelines shall be complied with by all agencies funded by the Department of Homeland Security Appropriations Act, 2008.

The Committees on Appropriations expect the Department to submit reprogramming requests on a timely basis, and to provide complete explanations of the reallocations proposed, including detailed justifications of the increases and offsets, and any specific impact the proposed changes will have on the budget request for the following fiscal year and future-year appropriations requirements. Each request submitted to the Committees should include a detailed table showing the proposed revisions at the account, program, project, and activity level to the funding and staffing (full-time equivalent position) levels for the current fiscal year and to the levels requested in the President's budget for the following fiscal year.

The Committees on Appropriations expect the Department to manage its programs and activities within the levels appropriated. The Committees on Appropriations are concerned with the number of reprogramming proposals submitted for consideration by the Department and remind the Department that reprogramming or transfer requests should be submitted only in the case of an unforeseeable emergency or situation that could not have been predicted when formulating the budget request for the current fiscal year. When the Department submits a reprogramming or transfer request to the Committees on Appropriations and does not receive identical responses from the House and Senate, it is the responsibility of the Department to reconcile the House and Senate differences before proceeding, and if reconciliation is not possible, to consider the reprogramming or transfer request unapproved.

The Department is not to propose a reprogramming or transfer of funds after June 30 unless there are exceptional or extraordinary circumstances, such that lives or property are placed in imminent danger.

Section 504. The amended bill continues a provision proposed by the House and the Senate that none of the funds appropriated or otherwise available to the Department may be used to make payment to the Department's Working Capital Fund, except for activities and amounts allowed in the President's fiscal year 2008 budget, excluding sedan service, shuttle service, transit subsidy, mail operations, parking, and competitive sourcing. Any additional activities and

amounts must be approved by the Committees on Appropriations 30 days in advance of obligation.

Section 505. The amended bill continues a provision proposed by the House and Senate that not to exceed 50 percent of unobligated balances remaining at the end of fiscal year 2008 from appropriations made for salaries and expenses shall remain available through fiscal year 2009 subject to reprogramming guidelines.

Section 506. The amended bill continues a provision proposed by the House and Senate deeming that funds for intelligence activities are specifically authorized during fiscal year 2008 until the enactment of an Act authorizing intelligence activities for fiscal year 2008.

Section 507. The amended bill continues a provision proposed by the House and Senate directing the Federal Law Enforcement Training Accreditation Board to lead the Federal law enforcement training accreditation process.

Section 508. The amended bill continues and modifies a provision proposed by the House and Senate requiring notification of the Committees on Appropriations three business days before any grant allocation, discretionary grant award, discretionary contract award, including Federal Acquisition Regulation-covered contracts, letter of intent, or public announcement of the intention to make such an award totaling in excess of \$1,000,000. Additionally, the Federal Emergency Management Agency (FEMA) is required to brief the Committees on Appropriations five full business days prior to announcing publicly the intention to make an award of State Homeland Security grants, Urban Area Security Initiative grants, or Regional Catastrophic Preparedness Grants.

Section 509. The amended bill continues a provision proposed by the House and Senate that no agency shall purchase, construct, or lease additional facilities for Federal law enforcement training without advance approval of the Committees on Appropriations.

Section 510. The amended bill continues a provision proposed by the House and Senate that FLETC shall schedule basic and/or advanced law enforcement training at all four training facilities under its control to ensure that these training centers are operated at the highest capacity.

Section 511. The amended bill continues a provision proposed by the House that none of the funds may be used for any construction, repair, alteration, or acquisition project for which a prospectus, if required under chapter 33 of Title 40, United States Code, has not been approved. The amended bill excludes funds that may be required for development of a proposed prospectus. The Senate proposed similar language with a reference to the Public Buildings Act of 1959.

Section 512. The amended bill continues a provision proposed by the House and Senate that none of the funds may be used in contravention of the Buy American Act.

Section 513. The amended bill continues and modifies a provision proposed by the House and Senate to prohibit the obligation of funds for the Secure Flight program, except on a test basis, until the requirements of section 522 of Public Law 108-334 have been met and certified by the Secretary of DHS and reviewed by the Government Accountability Office (GAO). The Committees on Appropriations direct GAO to continue to evaluate DHS and Transportation Security Administration (TSA) actions to meet the ten conditions listed in section 522(a) of Public Law 108-334 and to report to the Committees on Appropriations, either incrementally as the Department meets additional conditions, or when all conditions have been met by the Department. The amended bill also

prohibits the obligation of funds to develop or test algorithms assigning risk to passengers not on government watch lists and for a commercial database that is obtained from or remains under the control of a non-federal entity, excluding Passenger Name Record data obtained from air carriers. Within 90 days after enactment of this Act, TSA shall submit a detailed plan on achieving key milestones, as well as certification of this program.

Section 514. The amended bill continues a provision proposed by the Senate prohibiting funds to be used to amend the oath of allegiance required by section 337 of the Immigration and Nationality Act (8 U.S.C. 1448). The House bill contained no similar provision.

Section 515. The amended bill continues a provision proposed by the House and Senate regarding competitive sourcing.

Section 516. The amended bill continues and modifies a provision proposed by the House and Senate regarding the reimbursement to the Secret Service for the cost of protective services for the head of a Federal agency other than the Secretary of Homeland Security. The provision allows the Secret Service to seek reimbursement for the cost of such protective services.

Section 517. The amended bill continues and modifies a provision proposed by the Senate that allows the Director of the Secret Service to enter into an agreement to perform protection of a Federal officer, other than a person granted such protection by law, on a fully reimbursable basis. The House bill contained no similar provision.

Section 518. The amended bill continues and modifies a provision proposed by the House and the Senate directing TSA to research, develop, and procure new technologies to inspect and screen air cargo. In the interim, TSA shall utilize existing checked baggage explosive detection equipment and screeners to screen cargo on passenger aircraft when practicable. New language is included that requires TSA to work with air carriers and airports to ensure the screening of cargo carried on passenger aircraft, as required by the 9/11 Act, increases incrementally each quarter. TSA is required to report air cargo inspection statistics detailing how incremental progress is being made to the Committees on Appropriations within 45 days of the end of each quarter of the fiscal year.

Section 519. The amended bill continues a provision proposed by the House and Senate directing that only the Privacy Officer, appointed pursuant to section 222 of the Homeland Security Act of 2002, may alter, direct that changes be made to, delay or prohibit the transmission of a Privacy Officer report to Congress.

Section 520. The amended bill continues a provision proposed by the House and Senate prohibiting the use of funds made available in this Act to pay the salary of any employee serving as a contracting officer's technical representative (COTR), or acting in a similar capacity, who has not received COTR training.

Section 521. The amended bill continues a provision proposed by the House directing that any funds appropriated or transferred to TSA "Aviation Security", "Administration" and "Transportation Security Support" in fiscal years 2004, 2005, 2006, and 2007 that are recovered or deobligated shall be available only for procurement and installation of explosives detection systems, for air cargo, baggage, and checkpoint screening systems, subject to notification. Quarterly reports must be submitted identifying any funds that are recovered or deobligated. The Senate bill contained similar language without a reporting requirement.

Section 522. The amended bill continues a provision proposed by the Senate continuing Section 525(d) of Public Law 109-295 pertaining to Sensitive Security Information (SSI) through fiscal year 2008. The House bill modified the SSI provision contained in Section 525 of Public Law 109-295.

Section 523. The amended bill includes a provision proposed by the Senate requiring any funds appropriated to Coast Guard for 110-123 foot patrol boat conversions that are recovered, collected, or otherwise received as a result of negotiation, mediation, or litigation, shall be available until expended for the replacement patrol boat program. The House bill contained no similar provision.

Section 524. The amended bill continues a provision proposed by the House and Senate extending the authorization of the Department's Working Capital Fund in fiscal year 2008.

Section 525. The amended bill includes a new provision that prohibits obligation of funds provided in this Act to commence operations of the National Applications Office or the National Immigration Information Sharing Operation until the Secretary certifies that these programs comply with all existing laws and that certification is reviewed by GAO.

Section 526. The amended bill continues and modifies a provision proposed by the House and Senate requiring the Chief Financial Officer to submit monthly budget execution and staffing reports within 45 days after the close of each month. These reports are to include the number of contract employees by office as proposed by the Senate.

Section 527. The amended bill continues a provision as proposed by the House and the Senate relating to undercover investigative operations authority of the Secret Service.

Section 528. The amended bill continues a provision proposed by the House prohibiting the use of funds to contravene the Federal buildings performance and reporting requirements of Executive Order 13123, part 3 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 et seq.), or subtitle A of title I of the Energy Policy Act of 2005. The Senate bill contained no similar provision.

Section 529. The amended bill continues a provision proposed by the House classifying the functions of instructor staff at FLETC as inherently governmental for purposes of the Federal Activities Inventory Reform Act of 1998. The Senate bill contained a similar provision.

Section 530. The amended bill includes a provision proposed by the House prohibiting the use of funds to contravene section 303 of the Energy Policy Act of 1992. The Senate bill contained no similar provision.

Section 531. The amended bill includes a provision proposed by the House prohibiting the use of funds in contravention of Executive Order 13149 relating to fleet and transportation efficiency. The Senate bill contained no similar provision.

Section 532. The amended bill continues and modifies a provision on Coast Guard contracting and the Integrated Deepwater Systems program as proposed by the House. The Senate bill contained no similar provision.

Section 533. The amended bill includes a new provision proposed by the House that prohibits the obligation of funds for the development, testing, deployment, or operation of any system related to MAX-HR or any subsequent, but related human resources management project, until pending litigation, legal claims or appeals have been fully resolved. The Senate bill contained no similar provision.

Section 534. The amended bill includes a new provision proposed by the Senate on preemption of state or local chemical facility

security standards. The House bill contained a similar provision but also included information classification requirements.

Section 535. The amended bill includes and modifies a new provision proposed by the House that requires U.S. Customs and Border Protection (CBP) Officers to offer the ability to be classified as law enforcement officers. The Senate bill contained no similar provision.

Section 536. The amended bill continues and modifies a provision proposed by the House regarding the enforcement of section 4025(1) of Public Law 108-458 regarding butane lighters. The Senate bill contained no similar provision.

Section 537. The amended bill includes a provision proposed by the House and Senate prohibiting the Secretary of Homeland Security from altering or reducing Coast Guard's civil engineering program except as specifically authorized in statute after enactment of this Act.

Section 538. The amended bill includes a new provision reducing the cumulative amount provided to the Office of the Secretary and Executive Management and the Office of the Under Secretary for Management by \$5,000,000 to reflect management efficiencies. The Secretary shall notify the Committees on Appropriations within 30 days of the date of enactment of this Act regarding the spread of these efficiency savings by account and within the account, by program, project and activity detailed in the table located in the back of the explanatory statement.

Section 539. The amended bill includes a new provision proposed by the House prohibiting the obligation of funds to the Office of the Secretary and Executive Management, the Office of the Under Secretary for Management, and the Office of the Chief Financial Officer for grants or contracts awarded by any means other than full and open competition. Certain exceptions apply. The amended bill also requires the Inspector General to review Departmental contracts awarded noncompetitively and report on the results to the Committees on Appropriations. The Senate bill contained a similar provision.

Section 540. The amended bill includes a new provision proposed by the House that permits one time judicial review of the aviation security and infrastructure fee and limits those amounts made available by the authority in the Department of Homeland Security Appropriations Act for Fiscal Year 2005 (Public Law 108-334). The Senate bill contained no similar provision.

Section 541. The amended bill includes and modifies a new provision proposed by the House that prohibits funding for any position designated as a Principal Federal Official (PFO) during a Stafford Act declared disaster or emergency. This prohibition shall apply to PFOs, successors to that position, and any similar position created by the Department. The Committees on Appropriations are concerned that the Department has not defined a clear role for the PFO and that the position conflicts with the Federal Coordinating Official's (FCO) role during Presidentially-declared disasters and emergencies. States and emergency management organizations have also expressed concern that use of both an FCO and PFO lead to confusion in the field following disasters and undermines FEMA's emergency management role. The Committees on Appropriations understand from the Department that there may be instances in which FEMA should not be the lead agency in charge of response, such as a pandemic outbreak or an Olympic event, and therefore limit the prohibition to Presidentially-declared disasters or emergencies that require Stafford Act assistance.

The prohibition also does not apply to major non-Stafford Act responses that may include a Stafford Act component. In instances when a PFO is designated, the Department is expected to work with State and local governments and other Federal partners to clearly define the role of the PFO and ensure there is no conflict with the well-tested role of the FCO. The Department must work with all homeland security partners to achieve common understanding regarding incident management. The Senate bill contained no similar provision.

Section 542. The amended bill includes a new provision proposed by the House regarding the collection of airport security badges. The Senate bill contained no similar provision.

Section 543. The amended bill includes and modifies a new provision proposed by the House prohibiting funding to grant an immigration benefit to any individual unless the results of background checks required in statute to be completed prior to the grant of the benefit have been received by DHS. The Senate bill contained no similar provision.

Section 544. The amended bill includes a new provision proposed by the Senate prohibiting use of funds to destroy or put out to pasture any horse or other equine belonging to the Federal government unless adoption has been offered first. The House bill contained a similar provision.

Section 545. The amended bill includes a new provision proposed by the Senate that extends the implementation deadline for the Western Hemisphere Travel Initiative (WHTI) to June 1, 2009, or three months after the Department of State and DHS certification occurs, whichever is later. The House bill contained a provision that prohibited funds to be used to implement any plan for WHTI before June 1, 2009.

Section 546. The amended bill includes a provision proposed by the House and Senate that precludes DHS from using funds in this Act to carry out reorganization authority.

Section 547. The amended bill includes and modifies a new provision proposed by the Senate regarding the use of the National Center for Critical Information Processing and Storage data center. The House bill contained no similar provision.

Section 548. The amended bill includes a new provision as proposed by the Senate that prohibits funds from being used to reduce the Coast Guard's Operations Systems Center mission or its government-employed or contract staff. The House bill contained no similar provision.

Section 549. The amended bill includes a new provision prohibiting funds to be used to conduct or implement the results of a competition under Office of Management and Budget Circular A-76 with respect to the Coast Guard National Vessel Documentation Center.

Section 550. The amended bill includes a new provision as proposed by the Senate that permits TSA to transfer up to \$24,000,000 from prior year balances to the Secure Flight program after the Committees on Appropriations receive and approve an expenditure plan for such funds. Bill language specifies programs that may not be utilized. The House bill contained no similar provision.

Section 551. The amended bill includes and modifies a provision that rescinds \$59,286,537 from unobligated balances of funds transferred to DHS when it was created in 2003 instead of \$55,273,000 as rescinded in the House bill and \$45,000,000 as rescinded in the Senate bill. Language is included that specifies which accounts cannot be rescinded. In addition, new language is included that rescinds a total of \$28,833,463 in unobligated balances made available pursuant to Section 505 of Public Law 109-295, rescinds \$8,480,000 from

the Counterterrorism Fund, and \$4,500,000 from TSA's expenses account. The majority of these rescissions were included as part of the budget amendment submitted by the President on November 6, 2007.

Section 552. The amended bill includes and modifies a provision proposed by the Senate related to disaster assistance for educational agencies. Educational agencies include only those that provide for kindergarten through 12th grade. The Committees on Appropriations require FEMA to provide this assistance within 30 days of a request. The House bill contained no similar provision.

Section 553. The amended bill includes a new provision proposed by the Senate making technical corrections to existing law to make border passages or tunnels a criminal offense. The House bill contained no similar provision.

Section 554. The amended bill includes a new provision proposed by the Senate pertaining to sexual abuse of individuals held in custody at the direction of the Federal government. The House bill contained no similar provision.

Section 555. The amended bill includes a new provision proposed by the Senate requiring the Secretary to establish and maintain a direct link to the DHS Office of Inspector General on the DHS website. The House bill contained no similar provision.

Section 556. The amended bill includes a new provision proposed by the Senate that requires the Secretary to link all contracts that provide award fees to successful acquisition outcomes. The House bill contained no similar provision.

Section 557. The amended bill includes a new provision proposed by the Senate prohibiting the obligation of funds for the Office of Secretary and Executive Management for any new hires at DHS if they are not verified through the basic pilot program of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996.

Section 558. The amended bill continues language contained in Public Law 109-295 related to prescription drugs. The Senate bill modified this language. The House bill contained no similar provision.

Section 559. The amended bill includes a new provision proposed by the Senate prohibiting funds available in this Act from being used to implement a rule or regulation which implements the notice of proposed rulemaking related to Petitions for Aliens to Perform Temporary Nonagricultural Services or Labor (H-2B) set out beginning on 70 Federal Register 3984 (January 27, 2005). The House bill contained no similar provision.

Section 560. The amended bill includes a new provision regarding FEMA assistance provided for DR-845.

Section 561. The amended bill includes a modified provision proposed by the Senate regarding FEMA assistance for Hurricane Rita. The House bill contained no similar provision.

Section 562. The amended bill includes a new provision regarding FEMA assistance for Super Typhoon Paka and the Malojloj hardfill fire.

Section 563. The amended bill includes and modifies a new provision proposed by the Senate regarding the secure handling of ammonium nitrate. The Senate bill language has been modified at the request of the authorizing committees. The House bill contained no similar provision.

Section 564. The amended bill includes and modifies a new provision proposed by the Senate to amend the Secure Fence Act of 2006, requiring the Secretary to complete construction of 370 miles of fencing, or other mileage as determined by the Secretary, on the Southwest border by December 31, 2008, and requiring the Secretary to consult with

Federal agencies, State and local governments, and property owners on such construction to minimize adverse impacts on the environment and local communities. No funds provided in this Act for Border Security Fencing, Infrastructure, and Technology may be obligated unless the Secretary complies with the consultation requirement.

Section 565. The amended bill includes a new provision proposed by the Senate that establishes an international registered traveler program, sets dates for rulemaking and implementation activities, and authorizes the collection of fees to support this program. The House bill contained no similar provision.

Section 566. The amended bill includes a new provision proposed by the Senate requiring GAO to study DHS's use of shared border management.

Section 567. The amended bill includes a new provision proposed by the Senate prohibiting funds for planning, testing, piloting or developing a national identification card. The House bill contained no similar provision.

Section 568. The amended bill includes a new provision proposed by the Senate repealing TSA's acquisition management system within 180 days after enactment, thereby making TSA subject to the Federal Acquisition Regulation. The House bill contained no similar provision.

Section 569. The amended bill includes a new provision proposed by the Senate requiring FEMA to report on damage assessment information used to determine if a disaster should be declared and requiring this report to be placed on FEMA's website unless it compromises national security. The House bill contained no similar provision.

Section 570. The amended bill includes a new provision proposed by the Senate that allows the Mineta Transportation Institute to be included as a member of the National Transportation Security Center of Excellence. The House bill contained no similar provision.

Section 571. The amended bill includes a new provision on the TSA's registered traveler program.

Section 572. The amended bill includes a new provision extending other transactional authority of DHS through fiscal year 2008.

Section 573. The amended bill includes a new provision rescinding and reappropriating funds previously allocated to the State of Mississippi.

PROVISIONS NOT ADOPTED

The amended bill does not include section 516 of the House bill pertaining to the amount of air cargo screened. The Committees on Appropriations note that the 9/11 Act, which was signed into law after the House passed its version of the bill, include air cargo screening requirements.

The amended bill does not include section 523 of the House bill and section 525 of the Senate bill pertaining to the Disaster Relief report. These provisions are addressed in the amended bill and the explanatory statement under FEMA.

The amended bill does not include section 536 of the House bill prohibiting funds in this Act for a grant or a contract that does not comply with Davis Bacon, with an exception for national emergencies.

The amended bill does not include section 545 of the House bill pertaining to critical infrastructure vulnerability. This provision is addressed in the explanatory statement under the National Protection and Programs Directorate (NPPD).

The amended bill does not include section 547 of the House bill relating to a limitation on funds to be used in contravention of section 642(a) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996.

The amended bill does not include section 548 of the House bill and section 572 of the Senate bill pertaining to firefighter assistance grants. These provisions are addressed in the explanatory statement under FEMA.

The amended bill does not include section 538 of the Senate bill pertaining to the development of a plan to control and manage Carrizo cane. This provision is addressed in the explanatory statement under CBP.

The amended bill does not include section 544 of the Senate bill prohibiting the use of funds to remove offenses from the list of criminal offenses disqualifying individuals from receiving a Transportation Worker Identification Credential. The Committees on Appropriations note that the 9/11 Act, which was signed into law after the House and Senate passed their versions of the bills, specifically provides authority for the Secretary to modify the list of offenses by rulemaking. TSA believes that the public will be more fairly served if disqualifying offenses are determined based on considered analysis using threat and intelligence information as to an offense's relationship to terrorism.

The amended bill does not include section 546 of the Senate bill requiring the President to ensure operational control of all international land and maritime borders is achieved and to report every 90 days. This provision is addressed in the explanatory statement under CBP.

The amended bill does not include section 547 of the Senate bill relating to funding to ensure State and local employers have access to the employment eligibility verification system. This provision is addressed in the explanatory statement under United States Citizenship and Immigration Services (USCIS).

The amended bill does not include section 549 of the Senate bill relating to the development of a national strategy for the use of closed circuit television systems. This provision is addressed in the explanatory statement under NPPD.

The amended bill does not include section 552 of the Senate bill relating to the 2010 Vancouver Olympic and Paralympic games. This provision is addressed in the explanatory statement under the Office of the Secretary and Executive Management.

The amended bill does not include section 554 of the Senate bill relating to grants and contracting systems accountability. This provision is addressed in the explanatory statement under FEMA.

The amended bill does not include section 557 of the Senate bill relating to a report on the performance and standards system of TSA. This provision is addressed in the explanatory statement under TSA.

The amended bill does not include section 559 of the Senate bill pertaining to the authorized level for the border law enforcement relief grant program.

The amended bill does not include section 560 of the Senate bill pertaining to a GAO study on the cost of fencing on the southern border. This provision is addressed in the explanatory statement under CBP.

The amended bill does not include section 561 of the Senate bill comprising a sense of the Senate on border security and immigration reforms. This provision is addressed in the explanatory statement under U.S. Immigration and Customs Enforcement.

The amended bill does not include section 562 of the Senate bill requiring CBP to report on the training its personnel receive to effectively assist the Food and Drug Administration in monitoring our Nation's food supply. This provision is addressed in the explanatory statement under CBP.

The amended bill does not include section 563 of the Senate bill regarding the voluntary emergency services program. This

provision is addressed in the explanatory statement under TSA.

The amended bill does not include section 564 of the Senate bill prohibiting funds appropriated or otherwise made available in this Act to be used to enter into a contract greater than \$5,000,000 or to award a grant in excess of such amount unless the prospective contractor or grantee certifies in writing that they owe no unpaid Federal tax assessments. The Committees on Appropriations are aware of a pending federal regulation to address this issue.

The amended bill does not include section 565 of the Senate bill regarding transportation facility access control programs in the State of Florida. This provision is addressed in the explanatory statement under TSA.

The amended bill does not include section 567 of the Senate bill amending the Federal Fire Prevention and Control Act of 1974 to clarify fire prevention programs include planning and preparation activities. This provision is addressed in the explanatory statement under FEMA.

The amended bill does not include section 568 of the Senate bill on the need to increase CBP officers and agents on the Northern Border. This provision is addressed in the explanatory statement under CBP.

The amended bill does not include section 569 of the Senate bill requiring the Secretary to study areas along the international borders to determine where Federal and state law enforcement officers are unable to achieve adequate radio communication and develop a plan to enhance these capabilities. This provision is addressed in the explanatory statement under the Office of the Secretary and Executive Management.

The amended bill does not include section 570 of the Senate bill requiring USCIS to provide not less than \$1,000,000 for fraud risk assessment relating to the H-1B visa program. This provision is addressed in the explanatory statement under USCIS.

The amended bill does not include section 571 of the Senate bill requiring a report on interagency operational centers for port security. This provision is addressed in the explanatory statement under Coast Guard.

The amended bill does not include section 574 of the Senate bill requiring GAO to report on UASI regions and ways to better facilitate a regional approach. This provision is addressed in the explanatory statement under FEMA.

The amended bill does not include section 575 of the Senate bill permitting funds to be used for temporary employment of professional staff relating to assistance for Greensburg, Kansas. This provision is addressed within another division of this amended bill.

The amended bill does not include section 578 of the Senate bill providing \$100,000,000 to State and local law enforcement entities for security associated with the national party conventions in Denver and St. Paul. This funding is provided within another division of this amended bill.

TITLE VI—BORDER INFRASTRUCTURE AND TECHNOLOGY MODERNIZATION

The amended bill includes and modifies the "Border Infrastructure and Technology Modernization" title of the Senate bill. The House bill contained no similar matter.

BORDER LAW ENFORCEMENT RELIEF ACT

The amended bill does not include Title VI of the Senate bill, "Border Law Enforcement Relief Act." The House bill contained no similar matter. These matters are addressed in Titles I-IV of the amended bill and the accompanying explanatory statement.

DIVISION B—BORDER SECURITY

TITLE X—BORDER SECURITY
REQUIREMENTS

The amended bill does not include Title X of the Senate bill, “Border Security Requirements.” The House bill contained no similar matter. The amended bill includes \$3,000,000,000 of emergency funding for border security requirements. These matters are addressed in Titles I–IV and other Divisions of

the amended bill and the accompanying explanatory statement.

DISCLOSURE OF EARMARKS AND
CONGRESSIONAL DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement,

along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Items which did not appear in the House or Senate versions of H.R. 2638 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

DIVISION F—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this Division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Interior, Environment and Related Agencies Appropriations Act, 2008 (H.R. 2643 and S. 1696) passed by the House of Representatives and reported by the Senate Appropriations Committee.

A detailed table has been included at the end of the Division F portion of this statement showing amounts agreed to by activity and sub-activity. The House and Senate Appropriations Committees note that this statement remains silent on many directives or instructions which were included in the House Report (H. Rpt. 110-187) or the Senate Report (S. Rpt. 110-91) accompanying this bill. The House or Senate report language that is not changed by this statement should be treated as approved when administering the appropriations included in this Division.

REPROGRAMMING GUIDELINES

The House and Senate Appropriations Committees have agreed to the updated reprogramming guidelines for agencies funded by Division F of this amended bill as recommended by the House and set out in H. Rept. 110-187 (pages 190-191). The changes agreed to principally update thresholds for reprogramming from \$500,000 to \$1,000,000 and provide for procedural simplifications. Nothing in these changes alters the requirement that any use of eminent domain or condemnation authorities must be approved in statute.

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

The amended bill provides \$867,463,000 for management of lands and resources instead of \$888,628,000 as proposed by the House and

\$902,883,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is in the back of this Division. Specific changes to the House or Senate recommendations are provided below.

The amended bill provides an increase \$5,000,000 above the request for the National Landscape Conservation System (NLCS), instead of \$10,000,000 as proposed by the House and \$8,000,000 as proposed by the Senate. The Appropriations Committees direct the Bureau to present line item program elements for National Monuments, National Conservation Areas, and National Scenic and Historic Trails in future budget justifications. To further ensure fiscal accountability, the Committees direct the BLM to present annual NLCS expenditure and outcome reports which break out expenditures by unit and subactivity no later than December 31 of the subsequent fiscal year.

The Healthy Lands Initiative (HLI) is funded with \$5,000,000 instead of \$15,000,000 as proposed by the House and \$6,000,000 as proposed by the Senate. The Committees are encouraged that the BLM intends to leverage millions of dollars in partnership funds and looks forward to an accounting of the partner contributions in next year's annual performance report.

The increases for the NLCS and the HLI are to be allocated as specified in the following table:

	NLCS.	HLI.
Soil, Water, and Air Management	\$200,000	
Range Management	300,000	2,500,000
Forestry Management	125,000	
Riparian Management	200,000	500,000
Cultural Resources Management ..	350,000	
Wildlife Management	225,000	1,500,000
Fisheries Management	100,000	500,000
Threatened & Endangered Species ..	225,000	
Wilderness Management	1,000,000	
Recreation Resources Management ..	1,350,000	
Resource Management Planning ..	225,000	
Resource Protection and Law Enforcement	150,000	
Operations	100,000	
Annual Maintenance	350,000	
Challenge Cost Share	100,000	
Total	5,000,000	5,000,000

Land Resources.—As described by the Senate, \$1,000,000 is provided for abandoned mine reclamation in California and \$1,000,000 is provided for the Idaho Department of Agriculture weed control project. The Appropriations Committees urge the Bureau to maintain its wild horse and burro management program at current levels. Specific funding recommended by the Senate for the slickspot peppergrass project in Idaho is not included, but the Committees do not oppose the Bureau providing funding for this effort if the project is needed to accomplish public land management goals.

Wildlife and Fisheries Management.—The Administration proposed reduction for the National Fish and Wildlife Foundation (NFWF) is countered with increases above the request of \$575,000 in wildlife management and \$75,000 in fisheries management. Bill language is included providing a total of \$2,900,000 for the NFWF to use for activities benefitting the Bureau.

Recreation Management.—Recreation resources management funding includes an increase of \$750,000 for National scenic and historic trails as described by the House and \$750,000 for exhibits at the California National Historic Trail Center, NV, as described by the Senate.

Energy and Minerals.—The amended bill provides a total of \$117,129,000 for oil and gas management instead of \$112,129,000 recommended by the House and \$119,318,000 as proposed by the Senate. This funding level is equal to the fiscal year 2007 level, and is \$28,167,000 above the fiscal year 2006 funding. The amended bill modifies the House recommendation for a new cost recovery program for applications for permits to drill oil and gas wells (APD's). A similar program was requested by the Administration. The recommendation requires \$4,000 for each application for a permit to drill, which is less than the actual cost to the BLM. The estimated \$25,500,000 in revenues yielded will be used to offset appropriations for the oil and gas management activity. The Appropriations Committees expect that, given this new and additional cost to permittees, permits will be processed as efficiently as possible with a high level of public service, consistent with all applicable regulations and within the timeframes directed by existing law. Note that the President's budget for fiscal year 2008 had originally estimated an APD workload of 12,000 permits but now the Administration estimates that only 8,500 will be requested in fiscal year 2008.

The recommendation does not include the Administration request to amend the Energy Policy Act of 2005 to stop the use of \$21,000,000 in mandatory funds for the pilot oil and gas permitting offices.

The amended bill does not agree that the Bureau should continue receiving the full requested \$12,400,000 for Alaska North Slope activities, but does recognize the ongoing need for abandoned well remediation. Therefore, the recommendation includes \$6,000,000 for North Slope activities in the oil and gas management activity, an increase of \$6,000,000 from the fiscal 2006 level. Increases in the request for monitoring and enforcement are approved. Funds are not provided in this account for the oil and gas leasing internet pilot program but this effort is supported with funding provided in section 117. Wilderness and wilderness study areas should be very carefully examined and only used for oil and gas leasing when less sensitive lands are not available and when existing permitted areas are fully developed.

Realty Ownership and Management.—The Alaska conveyance program receives \$36,922,000 instead of \$33,922,000 proposed by the House and \$39,972,000 proposed by the Senate. The cadastral survey program includes \$250,000 for GIS mapping in Utah and \$80,000 for Wyoming soil surveys.

Resource Protection and Maintenance.—The resource protection and law enforcement activity receives a \$4,000,000 increase above the request to assist law enforcement needs in the vicinity of the southwestern border and as a general program increase.

CONSTRUCTION

The amended bill provides \$6,476,000 for construction as proposed by the House instead of \$11,476,000 as proposed by the Senate. The President's budget should be followed in allocating these funds.

LAND ACQUISITION

The amended bill provides \$9,081,000 for land acquisition instead of \$18,634,000 as proposed by the House and \$12,206,000 as proposed by the Senate. Funds are to be distributed as follows:

State	Project description	Amount
MT	Blackfoot River SRMA	\$500,000
CA	California Desert Wilderness	500,000
OR	Cascade-Siskiyou National Monument	875,000
CA	Coachella Valley ACEC	400,000
NM	El Malpais National Conservation Area	250,000
CO	Gunnison Gorge National Conservation Area	856,000

State	Project description	Amount
CA ID	Upper Sacramento River ACEC	1,250,000
	Upper Snake/South Fork River ACEC/SRMA	1,250,000
	Subtotal, Line Item Projects	5,881,000
	Acquisition Management	1,700,000
	Inholdings, Emergencies, and Hardships	1,500,000
Total, BLM Land Acquisition		9,081,000

OREGON AND CALIFORNIA GRANT LANDS

The amended bill provides \$110,242,000 for Oregon and California grant lands as proposed by both the House and the Senate.

FOREST ECOSYSTEM HEALTH AND RECOVERY FUND

(REVOLVING FUND, SPECIAL ACCOUNT)

The amended bill provides authorities for Forest Ecosystem Health and Recovery Fund as proposed by both the House and the Senate.

RANGE IMPROVEMENTS

The amended bill provides an indefinite appropriation for range improvements of not less than \$10,000,000 as proposed by the both the House and the Senate.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

The amended bill provides an indefinite appropriation for service charges, deposits, and forfeitures, which is estimated to be \$25,905,000, as proposed by both the House and the Senate.

MISCELLANEOUS TRUST FUNDS

The amended bill provides an indefinite appropriation of \$12,405,000 for miscellaneous trust funds as proposed by both the House and the Senate.

WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$820,878,000 for wildland fire management instead of \$806,644,000 as proposed by the House and \$829,524,000 as proposed by the Senate. The amended bill includes the House and Senate recommendations unless contradicted by the discussion below.

Funds are to be distributed as follows:

Program	Amount
Preparedness	\$280,863,000
Fire suppression operations	294,398,000
Hazardous fuels	202,792,000
Burned area rehabilitation	24,591,000
Fire facilities	6,234,000
Joint fire science	6,000,000
Rural fire assistance	6,000,000
Total	820,878,000

Bill Language.—Senate proposed items are included dealing with authority for rural fire assistance, certain leases of real property with local governments, and inter-departmental transfers with the Forest Service of up to \$10,000,000 for jointly funded wildland fire management programs and projects. A minor technical correction to the emergency suppression funding language provided in P.L. 110-116 is included; this correction allows repayment of funds borrowed within this appropriation account at the Department of the Interior.

Preparedness.—The Appropriations Committees remain dissatisfied that the Department of the Interior and the Forest Service have failed to produce and deploy the Fire Program Analysis system as an urgently needed fire preparedness planning tool so the House and Senate direction should be followed.

Fire Suppression Operations.—The amended bill includes \$294,398,000 for suppression operations as proposed by both the House and the Senate. This provides the full amount of the ten-year average cost of wildfire suppression

increased for inflation, an increase of \$45,213,000 above the fiscal year 2007 funding level. Note that Title V includes \$78,000,000 in emergency funds in case next season has extreme needs beyond the increased funding provided herein.

Hazardous fuels.—The amended bill provides an increase of \$3,005,000 over the fiscal year 2007 level. The joint report with the Forest Service on hazardous fuels funding allocations is required as directed by the House and should be delivered 120 days after enactment.

Burned Area Rehabilitation.—The Department of the Interior and the Forest Service should provide a detailed accomplishment report 120 days after enactment of this Act, including a plan of future work, for the native plant materials program. The House recommendation restricting reprogramming of rehabilitation funds need not be followed.

Fire Facilities.—Funding is included to conduct all but the lowest Administration priority project. The House recommendation to request fire facilities funds in the various bureau construction accounts need not be followed.

ADMINISTRATIVE PROVISIONS

The amended bill includes the House proposed language concerning enterprise information technology procurements.

UNITED STATES FISH AND WILDLIFE SERVICE RESOURCE MANAGEMENT

The amended bill provides \$1,099,772,000 for resource management instead of \$1,104,572,000 as proposed by the House and \$1,079,772,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is included in the back of the statement for this Division.

Ecological Services.—The amended bill provides \$267,570,000 for Ecological Services instead of \$266,370,000 as proposed by the House and \$270,870,000 as proposed by the Senate.

The amended bill moves \$3,000,000 from the critical habitat program to the listing program and has limited the total amount of funding that can be spent on critical habitat to \$9,926,000.

The amount provided for candidate conservation includes \$250,000 for the Idaho Office of Species Conservation sage grouse project.

The amount provided for recovery includes increases above the request of \$1,500,000 for Pacific salmon grants with the National Fish and Wildlife Foundation; \$400,000 for work on California Condor and Aplomado falcon recovery; \$250,000 for the Lahont cutthroat trout; \$250,000 for wolf monitoring in Idaho, Montana and Wyoming; and \$200,000 for the White Sulphur Springs National Fish Hatchery for freshwater mussel recovery.

Funding provided for the Aplomado falcon and California condor recovery is in addition to the base funding included in the Service's budget.

The amount provided for habitat conservation includes \$50,829,000 for partners for fish and wildlife; \$31,961,000 for project planning; \$14,277,000 for coastal programs; and \$5,338,000 for the National wetlands inventory.

The amount provided for partners for fish and wildlife include \$1,000,000 for general program activities; \$350,000 for the Hawaii Invasive Species Council; \$350,000 for the Mississippi State University Natural Re-

sources Economic Enterprises program; \$375,000 for the Nevada Biological Research Center; and \$1,000,000 to complete the spartina grass eradication project at Willapa National Wildlife Refuge. The Healthy Lands/Green River Basin initiative is reduced by \$500,000 below the request.

The amount provided for project planning includes \$500,000 for general program activities and \$275,000 for the Middle Rio Grande Bosque program.

The amount provided for coastal programs includes \$1,000,000 for general program activities. The Service should use this increase for base programs and continue to update and transform the Coastal Barrier Resource Act maps to digital format.

The amount provided for the national wetlands inventory should be used to provide for general program activities and to respond to increased demand for wetland inventory maps due to climate change management.

In addition to other established methods, the Service is encouraged to utilize biological pattern recognition technology where appropriate for tagging threatened or endangered fish and animal species.

The Service is encouraged to continue efforts to implement the snakehead management plan and the brown bullhead catfish cancer study in the Potomac River.

National Wildlife Refuge System.—The amended bill provides \$441,004,000 for the National Wildlife Refuge System instead of \$451,004,000 as proposed by the House and \$413,804,000 as proposed by the Senate. Within the amount provided for the National Wildlife Refuge System, \$301,335,000 is for operations and \$139,669,000 is for maintenance.

The increase includes \$25,000,000 for wildlife and habitat; \$7,200,000 for visitor services; \$5,000,000 for refuge law enforcement; \$1,000,000 for the invasive species eradication with volunteers program; \$1,000,000 for continued work on comprehensive conservation plans; and \$1,000,000 for the Refuge System volunteer program. The amended bill includes \$1,000,000 for spartina grass eradication at Willapa National Wildlife Refuge but funding for this program is moved to the Partners for Fish and Wildlife program.

The increased funding for refuge operations should be used to re-establish basic operating capacity and staffing shortfalls at all refuges nationwide. In addition, these funds should be used to begin to alleviate the shortfalls identified in the refuge workforce plans and should be distributed outside the Refuge Operations Needs System (RONS) and other traditional allocation formulas.

The Refuge System is directed to report to the House and Senate Committees on Appropriations on the planned allocation and expenditure of the increased funding within 60 days of enactment of this bill.

The amount provided for refuge maintenance includes increases of \$3,000,000 for annual maintenance and \$3,000,000 for maintenance support.

Migratory Birds and Law Enforcement.—The amended bill includes \$101,667,000 for migratory birds and law enforcement as proposed by the House instead of \$102,167,000 as proposed by the Senate. Within the amount provided for migratory birds and law enforcement, \$41,082,000 is for the migratory bird management program and \$60,585,000 is for the law enforcement program.

The Service's law enforcement program is vital to protecting wildlife populations worldwide and the Service is directed to increase the number of special agents nationwide and to re-establish the special operations unit.

Fisheries and Aquatic Restoration.—The amended bill includes \$128,504,000 for fisheries and aquatic restoration instead of \$126,254,000 as proposed by the House and \$130,004,000 as proposed by the Senate. Within the amount provided for fisheries and aquatic restoration, \$46,647,000 is for national fish

hatchery operations; \$18,855,000 is for national fish hatchery maintenance and equipment; \$54,572,000 is for aquatic habitat and species conservation; \$5,407,000 is for aquatic invasive species; and \$3,023,000 is for marine mammals.

The amount provided for aquatic habitat and species conservation includes \$500,000 for Great Lakes Fish and Wildlife restoration and \$500,000 for Atlantic Salmon Penobscot River restoration activities.

General Administration.—The amount provided for general administration is

\$161,027,000 and follows the distribution in the House proposal with the following exceptions: \$1,600,000 in additional funding is provided for the international affairs program and \$150,000 is provided for the Caddo Lake Ramsar Center.

CONSTRUCTION

The amended bill provides \$33,688,000 for construction instead of \$31,653,000 as proposed by the House and \$36,700,000 as proposed by the Senate. Funds are distributed as follows:

State	Project Description	Amount

COOPERATIVE ENDANGERED SPECIES CONSERVATION FUND

The amended bill includes \$75,001,000 for the cooperative endangered species conservation fund instead of \$80,001,000 as proposed by the Senate and \$81,001,000 as proposed by the House. This includes the use of \$5,000,000 in prior year balances from a project that is no longer needed for a total program level of \$80,001,000. Funding for the Nez Perce/Snake River water settlement is included as proposed by the Senate.

NATIONAL WILDLIFE REFUGE FUND

The amended bill includes \$14,202,000 for the National Wildlife Refuge Fund as proposed by both the House and Senate.

NORTH AMERICAN WETLANDS CONSERVATION FUND

The amended bill includes \$42,646,000 as proposed by both the House and the Senate.

NEOTROPICAL MIGRATORY BIRD CONSERVATION

The amended bill includes \$4,500,000 for the Neotropical migratory bird conservation

fund instead of \$5,000,000 as proposed by the House and \$4,000,000 as proposed by the Senate.

MULTINATIONAL SPECIES CONSERVATION FUND

The amended bill includes \$8,000,000 for the multinational species conservation fund as proposed by the Senate instead of \$10,000,000 as proposed by the House. This provides \$1,500,000 for African elephant conservation; \$2,000,000 for rhinoceros and tiger conservation; \$1,500,000 for Asian elephant conservation; \$2,000,000 for great ape conservation; and \$1,000,000 for marine turtle conservation.

STATE AND TRIBAL WILDLIFE GRANTS

The amended bill includes \$75,000,000 for state and tribal wildlife grants instead of \$85,000,000 as proposed by the House and \$72,492,000 as proposed by the Senate. This amount includes \$63,718,000 for state formula grants, \$6,282,000 for tribal grants, and \$5,000,000 for state competitive grants.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

The amended bill provides \$2,001,809,000 for operation of the National Parks instead of \$2,047,809,000 as proposed by the House and instead of \$1,958,687,000 as proposed by the Senate. The amended bill includes \$88,122,000 for the U.S. Park Police within this amount, the same amount requested in the budget and approved by the House. The Senate had provided the same amount in a separate appropriations account for the Park Police.

The amended bill provides for an overall increase for Park Service operations of \$153,387,000 over the amount available in fiscal year 2007. This amount fully funds all fixed costs, as requested in the budget, as well as the \$100,000,000 requested to begin preparing the National Parks for the Centennial in 2016. The amount provided is \$55,323,000 below the amount requested; \$25,000,000 of this reduction has been used as an offset to provide interim funding of the new Centennial Challenge matching program

described below. Reductions below the budget request should be allocated among initiatives proposed in the budget as determined by the Director after consultation with the Appropriations Committees.

In addition to the allocation of funds by activity included in the detail table accompanying this statement, the amended bill provides for the following:

Maintenance.—Within the amount provided for maintenance of park facilities and properties, the amended bill provides \$50,000 for repairs at the Appomattox Courthouse NHP, \$100,000 for the Booker T. Washington NM, and \$200,000 to continue the multi-year historic landscaping project at Gettysburg NMP. No funding has been provided in fiscal year 2008 for the Hetch Hetchy study requested in the President's Budget.

Park Support.—In addition to the amounts requested in the budget, the amended bill provides \$10,000,000 for the National Trail System as provided by the House and Senate. The amended bill also includes \$1,500,000 for the National Wild and Scenic Rivers program instead of \$2,000,000 as proposed by the House and \$858,000 as proposed by the Senate. While the amended bill does not provide the \$1,000,000 increase proposed by the House to expand the Park Service social science program, the Appropriations Committees believe that, within the large increase approved by the Congress, the Director should take steps to enhance the Service's capacity to analyze and understand variations in park use among different demographic groups. This effort will be critical as the Parks prepare for a new generation of users.

Funding for the National Underground Railroad program, the Brown v. Board of Education Foundation, and the Chesapeake Bay Gateways Network programs have been included in the National Recreation and Preservation account as proposed by the Senate rather than in this account as proposed by the House.

The Appropriations Committees are fully supportive of National Park Service financial contributions towards the Summer concerts series staged on the Capitol Grounds. Within the amounts approved for park support, the funding for this effort, which has not increased since 2003, is expected to be increased by \$300,000.

Japanese American Confinement Sites Act.—Legislation passed at the end of the 109th Congress authorized a new program of grant support to preserve Japanese American World War II confinement sites through partnerships with local, regional and national groups and/or institutions for the purpose of identifying, researching, evaluating, interpreting, protecting, restoring, repairing, and acquiring historic confinement sites in order to educate and provide inspiration to present and future generations (P.L. 109-441). The Committees are pleased that the Park Service has initiated the planning process for implementing this legislation and direct that the Service submit a report on progress in implementing the law to the House and Senate Committees on Appropriations prior to the fiscal year 2009 appropriations hearings.

Staffing of National Park Service units in the Hawaiian Islands.—The House and Senate Appropriations Committees have been made

aware of the Park Service efforts that have been undertaken with respect to staffing levels in the State of Hawaii. As such, staffing restrictions imposed in the Senate report are no longer necessary.

Public Lands Corps.—The amended bill does not include a specific set-aside of funds within the Park Service for the Public Lands Corps as proposed by the House. The Committees are fully supportive of the continuation of the Park Service partnership with the Public Lands Corps but do not believe a specific statutory allocation of funds is necessary.

CENTENNIAL CHALLENGE

The amended bill includes \$25,000,000 for the Centennial Challenge program instead of \$50,000,000 as proposed by the House. The Senate deferred consideration for this program when it reported its bill from Committee. These funds have been provided to initiate the new Centennial Challenge matching grant program which has been proposed as a ten-year effort to generate \$2 billion for the renewal of the National Park system for its next century of service following its Centennial celebration in 2016. All funds must be matched on a 50/50 basis. The Appropriations Committees have agreed to these funds as interim funding to allow the program to commence in 2008. Funds will be administered under the existing challenge cost share program structure. The Appropriations Committees expect that permanent authorization will be enacted during the 110th Congress for the full ten-year program effort. In carrying out the interim program during fiscal year 2008, the Appropriations Committees expect the National Park Service to follow the guidelines for managing the Centennial Challenge program in House Report 110-187. These will ensure that projects are selected competitively and that they serve Park Service needs and priorities.

NATIONAL RECREATION AND PRESERVATION

The amended bill provides \$68,481,000 for national recreation and preservation programs instead of \$62,881,000 as proposed by the House and instead of \$63,756,000 as proposed by the Senate. In addition to the allocation of funds by activity included in the detail table accompanying this statement, the amended bill provides for the following:

Preserve America.—The amended bill includes \$7,500,000 for the Preserve America program under the National Recreation and Preservation appropriations account instead of \$5,000,000 as proposed by the Senate. The House bill provided \$10,000,000 for Preserve America under the Historic Preservation account.

Heritage Partnerships.—The amended bill provides \$15,500,000 for the heritage partnerships program. The amended bill does not earmark specific amounts for the 37 existing individual heritage areas. The Park Service is continuing to develop new competitive criteria for the distribution of this funding and expects to make a formal proposal for a new system as part of the fiscal year 2009 budget. As an interim process, the Appropriations Committees have agreed that \$13,000,000 of the funds provided for heritage partnership grants should be allocated in identical amounts to each grantee as was awarded by the Park Service competitive process in 2007.

In addition \$150,000 should be allocated to each of the 10 new heritage area partnerships authorized during the 109th Congress. The remaining \$1,000,000 is provided to the Park Service to cover national and regional administrative costs of this labor-intensive program.

Cultural programs.—The amended bill includes \$21,742,000 for cultural programs, the same level as provided by the House and the Senate. Within this total, \$750,000 is provided for the National Underground Railroad program. The House bill provided \$1,000,000 for this purpose under the Park service operations account.

Statutory and contractual aid.—The amended bill provides \$7,600,000 for the statutory and contractual aid program as follows:

National Voting Rights Interpretive Center	\$500,000
Angel Island Immigration Ctr	1,125,000
Brown V Bd of Education Fdn	300,000
SW Penn Heritage Presv. Comm	1,200,000
Chesapeake Bay Gateway Ntw	1,700,000
Crossroads of the West	300,000
Fort Mandan, Fort Lincoln	200,000
Jamestown 2007	200,000

Yosemite Schools	125,000
Hudson-Fulton-Champlain Quadricentennial (NPS support)	500,000
National Law Enforcement Act (P.L. 106-492)	750,000

Funding for the Eisenhower Memorial Commission, provided for under the statutory and contractual aid program in the House bill, has been funded at a level of \$2,000,000 as a "related agency," as requested by the President.

Language proposed by the Senate related to cooperative agreements under the rivers and trails program is not included in the amended bill.

HISTORIC PRESERVATION FUND

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides \$71,500,000 for the historic preservation fund program, instead of \$81,500,000 as proposed by the House and instead of \$75,000,000 as proposed by the Senate. Funding for the Preserve America program, funded in this account by the House, has instead been funded under the National Recreation and Preservation account as proposed by the Senate. In addition to the allocation of funds by activity included in the detail table accompanying this statement, the amended bill provides for the following:

Save America's Treasures.—The amended bill provides that \$11,200,000 of the amount provided for the Save America's Treasures historic preservation grants program be awarded under the existing competitive process. The remaining \$13,800,000 is provided for the following projects:

Bill language.—The amended bill includes programmatic requirements for the Save America's Treasures program as proposed by the House rather than similar language proposed by the Senate.

CONSTRUCTION

The amended bill provides \$221,985,000 for Construction, instead of \$201,580,000 as proposed by the House and instead of \$227,154,000 as proposed by the Senate. Within this total, \$40,852,000 has been provided for Park Service construction program management and operations activities, the same as provided by

the Senate and an increase of \$1,010,000 over the budget request and the House allocation. The amended bill includes \$132,721,000 for individual line item construction projects with \$8,240,000 of this amount financed through use of prior year unobligated balances. Bill language.—The amended bill does not include bill language proposed by the Senate related to pre-approval of National Park Service partnership agreements. The Appropriations Committees, however, are agreed that the Park Service should continue to follow pre-approval procedures for projects with a value in excess of \$5,000,000 as in previous years. The amended bill includes bill language proposed by the Senate related to the

Yellowstone National Park municipal solid waste construction project.

LAND AND WATER CONSERVATION FUND
(RESCISSION)

The amended bill includes the rescission of \$30,000,000 in annual contract authority as proposed in the budget request and approved by the House and the Senate bills.

LAND ACQUISITION AND STATE ASSISTANCE

The amended bill includes \$70,070,000 for land acquisition and State assistance instead

of \$99,402,000 as proposed by the House and \$78,700,000 as proposed by the Senate. This includes \$25,000,000 for the State Assistance Program, instead of \$50,000,000 as proposed by the House and \$30,000,000 as proposed by the Senate. State assistance funding includes \$1,500,000 for federal administrative costs.

Federal land acquisition is funded at \$45,070,000, distributed as follows:

State	Project description	Amount
ME	Acadia National Park	\$600,000
TX	Big Thicket National Preserve	1,250,000
MA	Cape Cod National Seashore	2,000,000
GA	Chattahoochee River National Recreation Area	2,000,000

Subtotal, Line Item Projects		30,570,000
Acquisition Management		9,500,000
Inholdings and Exchanges		2,500,000
Emergencies, and Hardships		2,500,000
Subtotal, Land Acquisition		\$45,070,000

The amended bill provides \$2,000,000 for a grant to the State of Mississippi for acquisition of Cat Island in the Gulf Island National Seashore. This completes the Service's commitment for acquisition of land on Cat Island.

Bill language.—The amended bill does not include language proposed by the Senate prohibiting States from establishing contingency funds under the "State Assistance" grant program. The House bill did not include this language. Nor does the amended

bill specify in statute an amount for federal

administrative costs of the State Assistance program as proposed by the Senate.

NATIONAL PARK SERVICE ADMINISTRATIVE PROVISIONS

The amended bill modifies language included by the House but not the Senate regarding rights of appeal related to contested possessory interest determinations under the Park Service concessions program. The revised language provides the right of "de novo" appeal to both the Park Service and private parties when disagreements cannot be resolved administratively. The House language provided this right only to the Park Service.

The amended bill includes language proposed by the House allowing certain relocation benefits for individuals displaced as a result of acquisitions. The amended bill also includes language proposed by the House extending the legislative authority for the National Park Service Advisory Board. The Senate did not include similar provisions.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

The amended bill provides \$1,022,430,000 for Surveys, Investigations, and Research instead of \$1,032,764,000 as proposed by the House and \$1,009,933,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is in the back of this Division. Specific changes to the House or Senate recommendations are provided below.

Geographic Research, Investigations, and Remote Sensing.—A total of \$1,000,000 is provided for the national cooperative geographic information system mapping effort. Funding for geographic analysis and monitoring follows the House recommendation to include \$3,000,000 for the multi-hazard initiative and restore ongoing geographic research which was slated for reduction in the budget request. The Senate recommendation for a priority ecosystems program increase is not included.

Geologic Hazards, Resources and Processes.—The recommendation increases funding above the request for earthquake hazards and the multi-hazard initiative within geologic hazards assessments by \$2,000,000, and \$500,000 above the request for both volcano hazards and the global seismographic network. Geologic landscape and coastal assessments funding includes the \$1,000,000 increase above the request recommended by the House for national cooperative mapping and a total of \$1,000,000 for the ocean action plan. The Appropriations Committees continue strong support for the multi-hazards initiative and encourage its continuation and enhancement. Note that the amended bill provides full support for the minerals assessment program despite the Administration's irresponsible proposal to decrease or eliminate funding for this important Federal program.

Water Resources Investigations.—Funding is provided for the following projects mentioned in the House or Senate recommendations: \$350,000 for the Memphis aquifer study (TN, MS, AR); \$200,000 for the Hood Canal dissolved oxygen study (WA); \$300,000 for the San Pedro partnership (AZ); \$500,000 for the Long-term Estuary Assessment Group (LA); and \$500,000 for the US-Mexico Aquifer Assessment Act (NM). A general increase of \$1,500,000 over the request is included for the national streamflow information program and the multi-hazard initiative. Funding for hydrologic networks and analysis includes the Senate recommended \$1,000,000 for the ocean action plan, \$500,000 for Lake Champlain toxic materials study (VT), and \$500,000 for Hawaii water monitoring. The Federal-State cooperative water program is in-

creased by \$1,464,000 over the request for a total funding level of \$63,845,000. The water resources research institutes allocation is \$6,404,000 as recommended by the House and Senate.

Biological Research.—Overall funding for biological research and monitoring is \$143,514,000, an increase of \$5,442,000 over the fiscal year 2007 level. Specific project or program funding levels include: \$1,500,000 for the new healthy lands initiative; \$2,779,000 for Pacific Northwest forest biology as provided in fiscal year 2007; \$2,000,000 for contaminant/endocrine biology research; \$150,000 for anadromous fish research equipment (MA) as recommended by the House; \$43,900,000 for the overall wildlife, terrestrial and endangered species research effort as provided in fiscal year 2007; \$500,000 for Great Lakes research vessel infrastructure (WI) as recommended by the House; \$500,000 to support the San Francisco salt ponds restoration (CA) recommended by the Senate; and \$800,000 recommended by the Senate for Leetown Science Center (WV) molecular biology research. Funds are not provided for the Senate recommendations for the Fish and Wildlife Service science excellence program or the Leetown endocrine research. The National Biological Information Infrastructure effort receives a \$500,000 increase over the request for a total of \$6,849,000. The Cooperative research units funding is \$16,430,000, a \$1,000,000 increase over the request.

Enterprise Information.—The amended bill includes the House and Senate funding recommendation of \$112,120,000.

Science Support.—The amended bill includes the Senate funding recommendation of \$68,231,000.

Facilities.—The amended bill includes the House and Senate funding recommendation of \$101,553,000.

Global Climate Change Research Increase.—The amended bill includes a general program increase of \$7,500,000 instead of \$10,000,000 as proposed by the House. The funds should be allocated for high priority research efforts, and up to \$2,500,000 should be used by the Survey to establish the National Global Warming and Wildlife Science Center. The Survey is directed to notify the Committees on Appropriations of its allocation of global climate change research funds within 60 days of enactment.

MINERALS MANAGEMENT SERVICE ROYALTY AND OFFSHORE MINERALS MANAGEMENT

The amended bill provides \$157,202,000 for royalty and offshore minerals management instead of \$153,552,000 as proposed by the House and \$159,948,000 as proposed by the Senate. Non-competitive alternative energy lease sales receive increases of \$2,000,000 over the request in the leasing and environmental program and \$250,000 in the regulatory program. The leasing and environmental program is reduced \$500,000 below the budget request. The Center for Marine Resources and Environment, MS, allocation is \$900,000 as recommended by the Senate.

The amended bill modifies language proposed by the House concerning lease sales in the North Aleutian Basin (NAB). Bristol Bay is home to one of the world's great fisheries; outer continental shelf drilling must only be conducted pursuant to all applicable environmental laws because it is vital that outer continental shelf oil or gas drilling be conducted only after detailed studies and information are available and ensure safety. MMS should continue to work with technical and scientific bodies, State and local representatives, and industry and environmental representatives to document state-of-the-art oil spill containment and responses to blowouts. The Appropriations Committees also under-

stand that oil spill response planning and compliance is a comprehensive program that involves input from the MMS, the U.S. Coast Guard, the Alaska Department of Environmental Conservation and the Aleutians East Borough to ensure that adequate oil spill resources and capabilities are available in the event of a release. Operators are required to have available, without delay, sufficient quantities of dedicated response equipment and trained response personnel necessary to meet the worst case discharge from their offshore activities. Before making a decision to proceed with the proposed NAB sale, MMS will complete an anticipated 2½ to 3 year pre-sale and NEPA process, which will include preparation of an environmental impact statement based on the most current and best scientific information. The MMS will use new information obtained through its Environmental Studies program and other available information acquired from other research programs and studies in that region. In addition, the Appropriations Committees direct the MMS to coordinate with the National Marine Fisheries Service, the Fish and Wildlife Service and the National Meteorological Center and to conduct a gap-analysis literature review of all available peer-reviewed scientific papers to determine what studies must be subjected to further analysis, including a literature review on the impacts of oil spills on commercial fisheries and marine mammals. The GAO study and other House report direction are not required at this time. The Committees agree that the MMS should develop a research agenda in association with stakeholders, scientists, and government administrators.

OIL SPILL RESEARCH

The amended bill provides \$6,403,000 for oil spill research as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS

Bill language is included, recommended by the House and by the Senate (in Senate section 424) and consistent with the Administration request, to allow State oil and gas payments to help cover administrative costs of the program. The amended bill does not include the House recommendation to prevent transfers of funds into the Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Research Fund.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

The amended bill provides \$120,337,000 for regulation and technology instead of \$117,437,000 as proposed by the House and \$121,460,000 proposed by the Senate. This total includes an indefinite appropriation estimated to be \$100,000 and a total increase above the request of \$5,000,000 for the State and Tribal regulatory programs.

ABANDONED MINE RECLAMATION FUND

The amended bill provides \$52,774,000 for the abandoned mine reclamation fund as proposed by the House instead of \$52,835,000 as proposed by the Senate.

ADMINISTRATIVE PROVISION

The amended bill includes the provision recommended by the House and Senate allowing the transfer of title for computer hardware, software and other technical equipment to State and Tribal regulatory and reclamation programs.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$2,080,261,000 for the operation of Indian programs instead of \$2,093,545,000 as proposed by the House and \$2,046,341,000 as proposed by the Senate. This

includes \$862,309,000 for tribal priority allocations instead of \$866,250,000 as proposed by the House and \$838,889,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is included in the back of the statement for this Division.

Tribal Government.—The amended bill provides \$406,198,000 for tribal government instead of \$403,009,000 as proposed by the House and \$406,398,000 as proposed by the Senate. The funding distribution follows the Senate proposal except that the funding for the Western Shoshone Claims Distribution Act is \$300,000.

Human Services.—The amended bill provides \$141,548,000 instead of \$146,548,000, as proposed by the House and \$134,128,000 as proposed by the Senate. The housing improvement program is funded at \$13,830,000.

Trust: Natural Resources Management.—The amended bill provides \$149,489,000 for natural resources management instead of \$152,684,000 as proposed by the House and \$147,489,000 as proposed by the Senate.

The amended bill includes \$12,062,000 for irrigation operations and maintenance instead of \$11,062,000 as proposed by the Senate.

The amended bill includes \$1,740,000 for the Washington Timber-Fish-Wildlife program; \$4,134,000 for the U.S.-Canada Pacific Salmon Treaty; \$350,000 for Lake Roosevelt Management; \$315,000 for Upper Columbia United Tribes; \$600,000 for Circle of Flight; \$1,000,000 for the Inter-Tribal Bison Cooperative; and \$1,247,000 for endangered species management.

The funding provided for the Inter-Tribal Bison Cooperative should be distributed by the cooperative to participating tribes and not used for administrative expenses.

Trust: Real Estate Services.—The amended bill includes \$150,722,000 as proposed by the House instead of \$151,722,000 as proposed by the Senate.

Education.—The amended bill includes \$700,540,000 instead of \$699,040,000 as proposed by the House and \$685,540,000 as proposed by the Senate.

This includes \$487,500,000 for elementary education; \$75,803,000 for other elementary and secondary programs; \$113,520,000 for post secondary programs; and \$23,717,000 for education management.

The funding for elementary education should follow the distribution as proposed by the House. The funding for other elementary and secondary programs includes \$14,000,000 for Johnson O'Malley Education Assistance Grants. The funding for post secondary programs includes \$57,721,000 for tribal colleges and universities and \$30,050,000 for scholarships and adult education. Also included is \$2,000,000 for the Navajo Technical College and \$4,000,000 for the United Tribes Technical College within the tribal technical colleges program as proposed by the Senate.

Public Safety and Justice.—The amended bill includes \$247,518,000 instead of \$250,018,000 as proposed by the House and \$237,818,000 as proposed by the Senate.

This funds law enforcement at \$231,753,000, or proposed by the House, tribal courts at \$14,565,000, and the fire protection program at \$1,200,000.

Methamphetamine use, violence against women, and other serious crimes have reached epidemic levels in certain areas of Indian country. The Bureau is directed to use all available existing authorities to increase the level of law enforcement and criminal prosecution in Indian Country, particularly on remote reservations, including locality pay, retention bonuses and temporary housing for officers. Substantial increases are included for Tribal law enforcement and the Secretary is directed to allocate these additional funds outside the normal allocation methods to reach the areas

with the greatest need, particularly remote reservations.

Community and Economic Development.—The amended bill includes \$40,061,000 for community and economic development instead of \$47,339,000 as proposed by the House and \$39,061,000 as proposed by the Senate.

This includes \$8,051,000 for job placement and training, \$4,603,000 for economic development, \$25,981,000 for road maintenance and \$1,426,000 for Community Development oversight. Within the increase for economic development funding there is \$600,000 for general development programs and \$400,000 for the National Ironworkers Training Program.

Executive Direction and Administrative Services.—The amended bill includes \$244,185,000 as proposed by both the House and the Senate.

CONSTRUCTION

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$206,983,000 for construction instead of \$207,983,000 as proposed by the House and \$179,012,000 as proposed by the Senate. This includes \$145,200,000 for education construction; \$14,621,000 for public safety and justice construction; \$38,916,000 for resources management construction; \$2,114,000 for general administration; and \$6,132,000 for construction management. Funding distribution follows the House proposal except that irrigation rehabilitation funding is reduced by \$1,000,000.

The Bureau's plan for completing existing education school construction and alleviating current construction shortfalls before beginning new school construction projects is approved.

INDIAN LAND AND WATER CLAIMS SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

The amended bill includes \$34,069,000 as proposed by the Senate instead of \$39,136,000 as proposed by the House. The Nez Perce/Snake River settlement is partially funded in the Fish and Wildlife Service, Cooperative Endangered Species Conservation Fund as proposed by the Senate rather than in this account as proposed by the House.

INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

The amended bill includes \$6,276,000 for the Indian Guaranteed Loan Program Account as proposed by both the House and the Senate.

DEPARTMENTAL OFFICES

OFFICE OF THE SECRETARY

SALARIES AND EXPENSES

The amended bill provides \$101,151,000 for salaries and expenses of the Office of the Secretary instead of \$107,413,000 proposed by the House and \$102,151,000 proposed by the Senate. Funding for the financial and business management system (FBMS) is provided in the working capital fund as proposed by the Senate and not in this account. Senate proposed language regarding the working capital fund has been included in the Working Capital Fund appropriation. A total of \$2,000,000 is provided for the Eisenhower Memorial Commission in a separate appropriation in Title III and not in this account as proposed by the Senate or within the National Park Service as proposed by the House.

INSULAR AFFAIRS

ASSISTANCE TO TERRITORIES

The amended bill provides \$78,613,000 for Assistance to Territories instead of \$78,292,000 as proposed by the House and \$77,821,000 as proposed by the Senate. Senate recommendations for technical assistance are funded, including \$300,000 for judicial and court education; \$750,000 for population and workforce surveys of the Commonwealth of the Northern Marianas; \$1,000,000 for the

Marshall Islands health care program and \$850,000 for the Prior Services Benefits Trust Fund. Funding for the coral reef initiative follows the House recommendation of \$995,000. Funds shall be made available for grants to the Pacific Basin Development Council and for the Close Up Foundation.

The amended bill agrees with the House report concerning the requirement that the Office of Insular Affairs and the Secretary of the Interior work with all territorial governmental bodies and the Congressional Delegate for American Samoa to be sure that the highest priority construction projects receive the covenant funding and that an open, transparent, and fair process be implemented in selecting capital improvement projects in American Samoa. In addition, the Department should carefully consider the need for water system improvements, such as Ofu-Olosega and Ta'u-Faleasao water systems in Manu'a.

COMPACT OF FREE ASSOCIATION

The amended bill provides \$5,362,000 for the Compact of Free Association as proposed by the House and the Senate.

OFFICE OF THE SOLICITOR

SALARIES AND EXPENSES

The amended bill provides \$59,250,000 for the Office of the Solicitor as proposed by the House instead of \$59,449,000 as proposed by the Senate.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

The amended bill provides \$44,572,000 for the Office of Inspector General instead of \$43,822,000 as proposed by the House and \$45,572,000 proposed by the Senate. Changes to the Administration request include increases of \$1,250,000 for audits, \$750,000 for investigations and \$250,000 for administrative services/information management. These increases are to support the Inspector General to develop a permanent capability for auditing and investigating outer continental shelf oil and gas royalty and royalty-in-kind programs.

OFFICE OF SPECIAL TRUSTEE FOR AMERICAN INDIANS

FEDERAL TRUST PROGRAMS

The amended bill includes \$182,331,000 for Federal trust programs instead of \$182,542,000 as proposed by the House and \$185,947,000 as proposed by the Senate. This includes \$180,141,000 for Program operations, support, and improvements and \$2,190,000 for executive direction.

Bill Language.—The amended bill includes bill language limiting the total amount of funding available for historical accounting activities at \$56,384,000.

INDIAN LAND CONSOLIDATION

The amended bill includes \$10,000,000 for Indian land consolidation programs as proposed by both the House and the Senate.

DEPARTMENT-WIDE PROGRAMS

PAYMENTS IN LIEU OF TAXES

The amended bill provides \$232,528,000 for payments in lieu of taxes as proposed by the Senate instead of \$252,676,000 as proposed by the House and \$190,000,000 requested by the Administration.

CENTRAL HAZARDOUS MATERIALS FUND

The amended bill provides \$9,954,000 for the central hazardous materials fund as proposed by the House and the Senate.

NATURAL RESOURCE DAMAGE ASSESSMENT AND RESTORATION

NATURAL RESOURCE DAMAGE ASSESSMENT FUND

The amended bill includes \$6,300,000 for the natural resource damage assessment fund as proposed by the Senate instead of \$6,224,000 as proposed by the House.

WORKING CAPITAL FUND

The amended bill provides \$40,727,000 for the financial and business management system (FBMS) in the working capital fund instead of \$37,069,000 as proposed by the Senate. This funds project deployment for the FBMS, replacing amounts requested in each of the bureaus, which this amended bill does not provide. The House proposed no specific funding for this account but did propose funding within the Office of the Secretary account, which this amended bill does not provide. New bill language is included limiting establishment of certain reserve accounts in the working capital fund; this item was proposed by the Senate under the Office of the Secretary heading.

ADMINISTRATIVE PROVISIONS

The amended bill does not include the bill language proposed by the Senate under this heading regarding the working capital fund and reimbursable support agreements. The annual justification for Department-wide programs should describe Working Capital Fund charges to bureaus and offices, including methodologies on which charges are based. Furthermore, departures from Working Capital Fund estimates in the budgets should be presented to the Appropriations Committees for approval and annual reports should be provided to the Committees on reimbursable support agreements between Office of the Secretary and National Business Center and the Bureaus and offices of the Department, including the amounts billed pursuant to such agreements.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

(INCLUDING TRANSFERS OF FUNDS)

Sec. 101: Retains a provision in section 101 of both the House and Senate bills, providing Secretarial authority to transfer program funds for expenditures in cases of emergency.

Sec. 102: Retains a provision in section 102 of both the House and Senate bills, providing for expenditure or transfer of funds by the Secretary in the event of actual or potential emergencies including forest fires, range fires, earthquakes, floods, volcanic eruptions, storms, oil spills, grasshopper and Mormon cricket outbreaks, and surface mine reclamation emergencies.

Sec. 103: Modifies a provision in section 103 of both the House and Senate bills, continuing a provision providing for use of appropriated funds for purchase and replacement of motor vehicles, contracts, rental cars and aircraft, certain library memberships, and certain telephone expenses.

Sec. 104: Retains identical provision in both the House and Senate bills, continuing provisions prohibiting the expenditure of funds for Outer Continental Shelf (OCS) leasing activities in the areas of northern, central, and southern California; the North Atlantic; Washington and Oregon; and the eastern Gulf of Mexico south of 26 degrees north latitude and east of 86 degrees west longitude.

Sec. 105: Retains identical provision in both the House and Senate bills, continuing provisions prohibiting the expenditure of funds for Outer Continental Shelf (OCS) leasing activities in the Mid-Atlantic and South Atlantic planning areas.

Sec. 106: Retains Senate language in section 106 continuing a provision permitting the transfer of funds between the Bureau of Indian Affairs and the Office of Special Trustee for American Indians.

Sec. 107: Retains Senate language in section 107 continuing a provision permitting the redistribution of tribal priority allocation and tribal base funds to alleviate funding inequities.

Sec. 108: Retains House language in section 108 continuing a provision permitting the

conveyance of the Twin Cities Research Center of the former Bureau of Mines for the benefit of the National Wildlife Refuge System.

Sec. 109: Retains a provision in section 109 of the House bill making permanent a provision authorizing the Secretary of the Interior to use helicopters or motor vehicles to capture and transport horses and burros at the Sheldon and Hart National Wildlife Refuges. The Senate bill did not make the provision permanent.

Sec. 110: Retains an identical provision in section 113 of both the House and Senate bills, continuing a provision limiting compensation for the Special Master and Court Monitor appointed by the Court in *Cobell v. Kempthorne* to 200 percent of the highest Senior Executive Service rate of pay.

Sec. 111: Retains an identical provision in section 111 of the House bill and section 111 of the Senate bill, continuing a provision allowing the Secretary to pay private attorney fees for employees and former employees incurred in connection with *Cobell v. Kempthorne*.

Sec. 112: Retains a provision contained in section 112 of the Senate bill, continuing a provision prohibiting the use of funds to study or implement a plan to drain or reduce water levels in Lake Powell.

Sec. 113: Retains a provision in section 112 of the House bill dealing with the U.S. Fish and Wildlife Service's responsibilities for mass marking of salmonid stocks. The Senate had no similar provision.

Sec. 114: Retains a provision contained in section 113 of both the House and Senate bill, continuing a provision making funds available to the tribes within the California Tribal Trust Reform Consortium and others on the same basis as funds were distributed in fiscal year 2003 and separates this demonstration project from the Department of the Interior's trust reform organization.

Sec. 115: Retains an identical provision in the House and Senate bills, continuing a provision authorizing the Secretary of the Interior to acquire lands for the operation and maintenance of facilities in support of transportation of visitors to Ellis, Governors, and Liberty Islands.

Sec. 116: Retains a provision contained in section 114 of the Senate bill, continuing a provision dealing with grazing permits in the Jarbidge field office of the Bureau of Land Management.

Sec. 117: Includes a provision contained in section 118 of the Senate bill establishing a BLM pilot program for conducting mineral lease sales through methods other than oral bidding.

Sec. 118: Includes a new provision directing the Fish and Wildlife Service to relocate certain administrative facilities in Washington State in order to accommodate a highway project.

Sec. 119: Retains a provision contained in section 121 of the Senate bill limiting funding for any proposal to store water, approve right-of-way, or similar authorizations on the Mojave National Preserve or the Needles Field Office of the Bureau of Land Management.

Sec. 120: Retains a provision contained in section 122 of the Senate bill permanently amending the authorizing language for the Red Rock Canyon National Conservation Area, Nevada, to allow appropriated or donated funds to be used to acquire lands owned by the State of Nevada or a political subdivision within the NCA.

Sec. 121: Modifies a provision contained in section 123 of the Senate bill amending the Minerals Management Service authorizing language to allow it to accept contributions to complete environmental documents prior to energy exploration and production. This

authorization is effective for fiscal year 2008 only.

Sec. 122: Retains a provision contained in section 124 of the Senate bill repealing Section 1077(c) of P.L. 109-364 that prohibited the National Park Service from implementing an approved settlement on Santa Rosa Island, CA.

Sec. 123: Retains a provision contained in section 125 of the Senate bill amending section 144 of Division E of P.L. 108-447 to correct an incorrect map date referenced in the transfer of Bureau of Land Management land to the Veterans Administration in North Las Vegas, Nevada.

Sec. 124: Retains a provision contained in section 126 of the Senate bill amending Section 105(f)(1)(B) of the Compact of Free Association Amendments Act of 2003 to correct an incorrect date in order to prevent the premature expiration of health, education, and labor aid programs for the Republic of Palau.

Sec. 125: Modifies a provision contained in section 128 of the Senate bill permitting the Secretary to enter into cooperative agreements with certain parties. This language allows cooperative agreements with governments and non-profit partners to be awarded non-competitively.

Sec. 126: Retains a provision contained in section 129 of the Senate bill transferring certain Bureau of Reclamation lands to the Upper Klamath National Wildlife Refuge with certain conditions.

Sec. 127: Modifies a provision contained in section 130 of the Senate bill expanding the boundary of Shiloh National Military Park in Tennessee and Mississippi.

Sec. 128: Retains a provision contained in section 131 of the Senate bill providing the National Park Service with the authority to acquire land at the Flight 93 crash site, PA, for the purposes of a memorial.

Sec. 129: Retains a provision contained in section 132 of the Senate bill concerning concessionaire rights at Denali National Park.

Sec. 130: Includes a new provision correcting a technical error in the Colorado Ute Indian Water Rights Settlement Act of 1988.

Sec. 131: Includes a new provision allowing certain funds provided for land acquisition at the Shenandoah Valley Battlefield NHD and Ice Age NST to be granted to a State, a local government, or any other land management entity.

Sec. 132: Includes a new provision allowing certain funds provided for land acquisition on Cat Island, which is located within the Gulf Islands National Seashore, to be granted to the State of Mississippi.

Sec. 133: Includes a new provision expanding the boundary of Mesa Verde National Park.

Sec. 134: Retains a provision contained in section 119 of the Senate bill concerning concessionaire rights at Glacier Bay National Park.

Sec. 135: Includes a new provision making technical corrections related to a fiscal year 2006 appropriation for the Hard Bargain Farm National Park Service site, MD.

The amended bill does not include a provision contained in House section 115 which limits funding for Outer Continental Shelf leasing where such existing leases are not subject to limitations on royalty relief based on market price. The Appropriations Committees remain committed to this issue and expect the authorizing committees with jurisdiction to complete legislative action on this vital matter.

The amended bill does not include language contained in Section 116 of the Senate bill concerning winter use rules at Yellowstone National Park and surrounding facilities. The Committees are aware that the National Park Service issued a Record of Decision on winter use management for the parks

on November 20, 2007, with implementing regulations to be issued shortly thereafter. The Committees are also aware of two lawsuits that have been filed which challenge the final environmental impact statement and the Record of Decision and that these matters will be litigated in the Federal courts. It should be noted that the legal challenges did not request a preliminary injunction, thereby allowing local operations to continue for the current 2007–2008 winter season. The Committees believe this to be in the best interest of all concerned parties.

The amended bill does not include language contained in Section 117 of the Senate bill concerning certain mining claims.

The amended bill does not include the provision contained in section 120 of the Senate bill limiting funding for the importation of polar bear parts taken in sport hunts.

The amended bill does not include language contained in Section 127 of the Senate bill concerning the Upper Snake River Basin Biological Opinion on salmon and steelhead species.

TITLE II—ENVIRONMENTAL PROTECTION AGENCY

The amended bill includes \$7,579,819,000 for the Environmental Protection Agency, instead of \$8,090,915,000 as proposed by the House and \$7,772,928,000 as proposed by the Senate. In addition, the General Provisions section includes a total of \$11,000,000 as transfers for two remediation projects. The allocation of the total for the Agency, by account, program area, and where applicable by program-project and/or activity, is detailed on the table at the end of this Division.

Reprogrammings: The Environmental Protection Agency is held to the bill-wide reprogramming limitation of \$1,000,000, as recommended by the House. The limitation will apply to the program areas specified in the detailed table at the end of Division F, as proposed by the House. However, where a specific level for program-project or activity within a program area is cited, either in the detailed table or the explanatory statement below, the reprogramming limitation will apply at that level.

The Agency must provide better information in its Congressional Budget Justification and is directed to include those improvements cited in House Report 110–187. In addition, the Justification should contain a comprehensive list of programs which have been eliminated in the request.

Fixed Costs: An additional \$7,878,000 has been provided in five of the Agency's accounts to cover the fixed personnel costs and to ensure staffing levels consistent with the prior year. This increase is not spread by program area, as proposed by the Senate. Rather, a total increase for each account is provided, as indicated on the detailed table at the end of this Division. The Agency is directed to spread the funds as needed and submit a report to the Committees on Appropriations by March 1, 2008 on the allocation of these funds by program area and program-project.

SCIENCE AND TECHNOLOGY

The amended bill provides \$772,129,000 for Science and Technology, instead of \$783,269,000 as proposed by the House and \$772,530,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area. The Agency is further directed to allocate the funds as follows:

Air Toxics and Quality: \$3,950,000 for the CASTNET program, an increase of \$1,000,000 over the request;

\$1,400,000 to the San Joaquin Valley Air Pollution Control District to complete the Central California Ozone Study;

An additional \$2,000,000 for ongoing work on Greenhouse Gas Regulations dealing with renewable or alternative fuels and vehicle efficiency.

Climate Protection Program: \$18,604,000 for the Clean Automotive Technology Program, as proposed by the House.

Homeland Security: \$11,884,000 for the Water Security Initiative, as proposed by the Senate and \$10,000,000 less than proposed by the House. The Agency has carried forward into fiscal year 2008 a large unobligated balance and will fund new pilots in fiscal year 2008. Therefore, the funding for additional pilots has been reduced until the Agency moves forward with the projects already funded. The Agency is directed to provide a report on the status, accomplishments, and future schedule for the Water Security Initiative. The report should be included as part of the Agency's FY 2009 Congressional Budget Justification. \$2,000,000 for the Safe Buildings program, as proposed by both the House and the Senate.

The \$1,000,000 general reduction proposed by the House is not included.

Operations and Administration: The \$3,884,000 reduction proposed by the House is not included.

Research: Clean Air: \$20,000,000 for Global Change Research, instead of \$33,308,000 proposed by the House and \$18,619,000 proposed by the Senate. The increase is intended to fund research in support of future rule-making efforts on Greenhouse Gases. The Agency is urged to award a portion of these funds through the STAR grant program.

Research: Clean Water: An additional \$1,000,000 for research on the human health effects and environmental impacts of carbon storage and sequestration to better inform regulatory decision making.

Research: Congressional Priorities: \$5,400,000, instead of \$7,000,000 as proposed by the Senate, for the following high priority projects: \$2,100,000—Water Environment Research Foundation (WERF);

\$1,725,000—American Water Works Research Foundation (AWWRF)

\$1,050,000—Southwest Consortium for Environmental Research and Policy (SCERP)

\$525,000—Consortium for Plant Biotechnology Research

Research: Extramural Research Grants: Funds are not included for a new extramural research grant program, as proposed by the Senate.

Research: Human Health and Ecosystems: \$38,856,000 for Human Health Risk Assessment;

\$12,327,000 for Research: Computational Toxicology;

\$10,481,000 for Research: Endocrine Disruptors;

\$10,000,000 for Research: Fellowships: The increase above the request is to be used for STAR fellowships.

\$155,046,000 for Research: Human Health and Ecosystems, which is an increase of \$10,000,000 above the request. From within the amount provided, the Agency is directed to allocate \$6,000,000 to restore basic human health research and \$4,000,000 to restore the proposed reduction to the EMAP program.

The increases to these programs include the Administration's request for a \$6,098,000 increase to Human Health Risk Assessment. In recognition of these increases, the Agency is directed to follow the language in House Report 110–187 on the following issues:

Trichloroethylene

Polycyclic Aromatic Hydrocarbons (PAH)

The mineral Trona

In addition, the Agency is urged to report to Congress on the PAH study referenced in the House Report and also to develop an updated health standard for ingested hexavalent chromium, which then should be

used to revise the Maximum Contaminant Level Goal as soon as possible.

In addition:

1. The Agency is directed to report on the short term results and long term assessment plans to reduce lab support costs Agency-wide.

2. The general reduction to this account, as proposed by the House, is not included.

3. It is imperative that EPA issue its decision on the December, 2005 waiver application submitted by the State of California to enact vehicle emission standards to reduce greenhouse gases by 30 percent in 2016 by no later than December 31, 2007. The Committees on Appropriations are dismayed that the EPA Administrator has unreasonably delayed his decision on the petition and forced the State of California to file suit in order to compel a decision. If no decision is made by that date, the Agency is directed to provide a report detailing why there is further delay, as proposed by the House.

Further, the Committees on Appropriations are concerned by reports that officials at other Federal agencies, including the Department of Transportation and the White House Office of Environmental Quality, may have engaged in inappropriate lobbying efforts to deny the waiver. The decision on California's waiver petition must be made on the petition's legal and technical merits and the approval process must not be politicized in any way.

CLIMATE CHANGE COMMISSION

The amended bill does not include the House proposal to fund a new Climate Change Commission.

ENVIRONMENTAL PROGRAMS AND MANAGEMENT

The amended bill provides \$2,364,854,000 for Environmental Programs and Management, instead of \$2,370,582,000 as proposed by the House and \$2,384,121,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area. The Agency is further directed to allocate the funds as follows:

Air Toxics and Quality: \$700,000 to restore the Sunwise program to prior year levels.

Brownfields: \$527,000 above the request to restore the Smart Growth program to prior year levels.

Climate Protection Program: \$49,000,000 for the Energy Star program;

\$4,436,000 for the Methane to Markets program;

\$3,500,000 within the Federal Support Air Quality Management program for the Agency to use its existing authority under the Clean Air Act to develop and publish a rule requiring mandatory reporting of greenhouse gas emissions above appropriate thresholds in all sectors of the economy. Bill language to this effect is provided in the administrative provisions section. The Agency is directed to publish a draft rule no later than nine months after the date of enactment of this Act, and a final rule no later than 18 months after the date of enactment of this Act. The Agency is further directed to include in its rule reporting of emissions resulting from upstream production and downstream sources, to the extent that the Administrator deems it appropriate. The Administrator shall determine appropriate thresholds of emissions above which reporting is required, and how frequently reports shall be submitted to EPA. The Administrator shall have discretion to use existing reporting requirements for electric generating units under Section 821 of the Clean Air Act, and;

\$250,000 for the Agency to modify existing programs to accommodate quality assurance and quality control for emissions submitted via and regulated by the established north-eastern Regional Greenhouse Gas Initiative

(RGGI), in the same manner as set forth under Title IV of the Clean Air Act.

Funding is not included for the Asia-Pacific Partnership program. The general increase for climate protection programs, as proposed by the House, is also not included.

Compliance: \$28,066,000 for Compliance Assistance Centers;

\$9,786,000 for Compliance Incentives;

\$90,128,000 for Compliance Monitoring.

Enforcement: \$6,500,000 for Environmental Justice programs;

\$7,000,000 for a combined general increase for Civil and Criminal Enforcement to be allocated between the two at the Agency's discretion.

Environmental Protection/Congressional Priorities: The amended bill includes \$13,650,000 for the following high priority projects, instead of \$19,500,000, as proposed by the Senate:

\$7,700,000—National Rural Water Association (NRWA);

\$2,800,000—Small Public Water System Technology Centers, as listed in Senate Report 110-91, with each center receiving \$350,000;

\$2,450,000—Rural Community Assistance Partnership (RCAP);

\$700,000—Water Systems Council Wellcare.

Environmental Protection/Demonstration Project Competitive Grants: Funds are not included for a new competitive grant program, as proposed by the Senate.

Geographic Programs: The amended bill includes \$99,025,000 to be allocated as follows:

Program	FY 2008 Amount
Chesapeake Bay	31,000,000
Great Lakes	22,000,000
Puget Sound	20,000,000
San Francisco Bay	5,000,000
Long Island Sound	5,000,000
Gulf of Mexico	5,700,000
Lake Champlain	2,750,000
Lake Pontchartrain	978,000
Community Action for a Renewed Env.	3,448,000
Regional Administrator's Initiatives	0
Other Geographic Activities	3,149,000

Directives for specific geographic programs are as follows:

1. Chesapeake Bay Program: \$31,000,000 for this program, instead of \$30,000,000 proposed by the House and \$32,812,000 proposed by the Senate. The Agency is directed to allocate the Chesapeake Bay funding as follows:

\$21,000,000 for base programs;

\$8,000,000 for Targeted Watershed Grants;

\$2,000,000 for Small Watershed Grants.

The Agency is further directed to implement immediately all of the recommendations contained in the October, 2005 Government Accountability Office (GAO) report. Of the funds provided to the Bay Program and the Office of the Administrator of EPA, \$5,000,000 in administrative funds shall not become available until 60 days after the EPA Administrator submits a report to the Senate and House Appropriations Committees and to the Comptroller General stating, with supporting evidence, that EPA has implemented the recommendations contained in the GAO report.

In addition, the Agency is directed to develop a Chesapeake Bay action plan for the remaining years of the Chesapeake 2000 Agreement. This plan must: (1) clearly articulate realistic targets the Chesapeake Bay Program expects to achieve in each of the remaining years; (2) describe the actual activities the Chesapeake Bay Program will implement in each year to achieve these annual targets; (3) identify the amount and source of funding that will be used to accomplish each of these activities; and, (4) describe the process the Chesapeake Bay Program will use to track and measure the progress of these actions. Finally, the GAO is directed to conduct periodic performance

assessments of progress made on this action plan.

2. Puget Sound: Funds are included for continued development and implementation of the Puget Sound 2020 Action Agenda. These funds provide for grants to the Section 320 designated state agency, as well as grants, contracts and support for other aspects of the Action Agenda.

3. San Francisco Bay Watersheds: As directed in the Senate Report 110-91, funds are provided for new partnership competitive grants for protection and restoration of San Francisco Bay watersheds located in the Bay area. Matching funds of no less than 25 percent shall be required, and priority shall be given to organizations that emphasize the ability to leverage additional public and private funds.

4. Regional Administrator's Initiatives: Funds are not included for this program. The Agency is directed to implement the directives for this program included in House Report 110-187, should future budgets propose funds for this program, and report to the Committees on Appropriations on the use of prior year funds by March 1, 2008.

Indoor Air: An additional \$500,000 above the request for the Reduced Risks from Indoor Air program.

Information Exchange/Outreach: \$9,000,000 for the Environmental Education Program; \$6,241,000 for Children and Other Sensitive Populations. For the Environmental Education funds, the Agency is directed to apply the distribution formula in the authorizing statute to the entire amount provided.

International Programs: \$5,500,000 for the US/Mexico Border Program.

IT/Data Management/Security: The amended bill includes \$1,000,000 above the request to restore the network of EPA libraries recently closed or consolidated by the Administration, instead of \$2,000,000 as proposed by the Senate. The Agency is directed to submit a report to the Committees on Appropriations regarding actions it will take to restore publicly available libraries to provide environmental information and data to each EPA region within 90 days of enactment of this Act.

Legal/Science/Regulatory/Economic Review: \$40,106,000 for Legal Advice: Environmental Program;

\$14,246,000 for Legal Advice: Support Program;

\$21,511,000 for Regulatory Innovation;

\$16,551,000 for Regulatory/Economic-Management and Analysis.

Of the funds provided for Regulatory Innovation, the Agency is directed to provide at least \$1,015,000 to the Smart Growth program to restore it to prior year levels.

Operations and Administration: \$28,992,000 for Acquisition Management;

\$301,728,000 for Facilities Infrastructure and Operations, which reflects a reduction to the Agency's rent budget. The general reduction proposed by the House is not included.

Resource Conservation and Recovery Act (RCRA): Because Congress has not authorized fees necessary to administer an electronic manifest for hazardous waste, the requested \$4,000,000 for the manifest is not provided. Consistent with language in House Report 110-187, the Agency is directed to use a portion of the increase over the prior fiscal year to expedite completion of the final rule on disposal of industrial wipes and to report to the Committees on Appropriations by March 1, 2008, on the status of its efforts.

Toxics Risk Review and Prevention: \$12,240,000, an increase of \$1,225,000 above the request, for the High Production Volume Challenge (HPVC) and Voluntary Children's Chemical Evaluation Program (VCCEP), as proposed by both the House and Senate.

\$8,800,000 for Endocrine Disruptors, as proposed by the Senate. The Agency is directed

to follow the report language on this subject in both the House and Senate Reports;

\$16,621,000 for Pollution Prevention, as proposed by the Senate.

Water: Ecosystems: \$35,000,000 for the Great Lakes Legacy Act, as proposed by the Senate and instead of \$37,000,000 proposed by the House.

\$27,203,000 for National Estuary Program/Coastal Waterways, as proposed by the House. The Agency is directed to allot \$16,832,000 of these funds to the National Estuary Section 320 grant program, consistent with the House recommendation.

Water: Human Health Protection: The amount provided includes an additional \$1,000,000 above the request for the Agency's work on the Underground Injection Control, Carbon Sequestration Rule. Funding for rural water programs is provided in the Environmental Protection/Congressional Priorities program area, as proposed by the Senate, and not as a competitive program here, as proposed by the House.

In addition:

1. The Agency is directed to fund the Smart Growth program at the fiscal year 2007 level in all program-projects which support the program. Based on information provided to the Committees, this amount should be no less than \$1,542,000 in the EPM Account.

2. The Agency is directed to submit a report on Environmental Justice, consistent with the directive in House Report 110-187.

3. Consistent with Senate Report 110-91, the Agency is urged to adopt final pesticide container recycling regulations within 180 days of enactment of this Act.

4. While the Agency is not directed to implement the WaterISAC program through a grant to the Association of Metropolitan Water Agencies, as outlined in Senate Report 110-91, given AMWA's experience, the Agency is encouraged to consider this option.

5. The general reduction to this account, as proposed by the House, is not included.

6. The Agency was mandated by Congress in 1992 to adopt a rule pursuant to 15 USC 2692(c)(3) before October 28, 1996, to protect children from lead poisoning caused by renovation or remodeling activities in target housing, public buildings constructed before 1978, and commercial buildings that create lead-based paint hazards. More than 10 years after the deadline, EPA has not promulgated regulations, putting thousands of children at risk of the irreversible damage of lead poisoning. The EPA Administrator is directed to finalize the rule by March 31, 2008, and is urged to ensure that the rule is no less protective of children than the Lead-Safe Housing Rule adopted by the U.S. Department of Housing and Urban Development at 24 CFR Part 35 in 1999.

7. The Committees on Appropriations are aware of concerns about the potential environmental and health impacts of proposed new coal-fired power plants in the Central Texas region. The Government Accountability Office is requested to review the adequacy under the Clean Air Act of the determinations about such impacts carried out by the Environmental Protection Agency directly and as delegated to the State of Texas. The report should also include information on current electric power supply and demand in the region including fuel diversity and consumer electricity costs.

8. The Committees on Appropriations are aware of concerns about the classification of Great Basin National Park as a Class II rather than as a Class I area under the provisions of the Clean Air Act (title 42, Chapter 85, Subpart 1, Part C). The Government Accountability Office is requested to review whether the current classification of the

Park is adequate to ensure long-term protection of air quality and visibility in the Park under the Environmental Protection Agency's direct and delegated authorities.

OFFICE OF INSPECTOR GENERAL

The amended bill provides \$41,750,000 for the Office of the Inspector General account, instead of \$43,500,000 as proposed by the House and \$40,000,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area.

Audits, Evaluations, and Investigations: \$41,750,000 for general IG work, instead of \$43,500,000 proposed by the House and \$40,000,000 proposed by the Senate. This \$3,742,000 increase above the request is provided to ensure a consistent staffing level within the Office of the Inspector General, while providing some flexibility between this account and the amount transferred from the Superfund account. None of the funds provided are to be used for buyouts associated with staffing reductions. The Inspector General is directed to submit quarterly staffing reports to the Committees on Appropriations.

The amended bill provides that \$11,668,000 be paid to this account from the Hazardous Substance Superfund Account. Bill language in Title III continues the mandate that the Agency's Inspector General serve that function for the Chemical Safety and Hazard Investigations Board.

BUILDINGS AND FACILITIES

The amended bill provides \$34,801,000, the same as both the House and the Senate. The table at the end of this Division allocates the total for this account by program area.

HAZARDOUS SUBSTANCE SUPERFUND

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides \$1,273,871,000 for the Hazardous Substance Superfund, instead of \$1,272,008,000 as proposed by the House and \$1,274,643,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area. The Agency is further directed to allocate the funds as follows:

Audits, Evaluations, and Investigations: The amended bill includes \$11,668,000 to be paid from this account to the Office of the Inspector General account, instead of \$10,000,000 proposed by the House and \$13,337,000 proposed by the Senate. This \$4,519,000 increase above the request is provided to ensure a consistent staffing level within the Office of the Inspector General, while providing some flexibility between this account and the Office of the Inspector General account. None of the funds provided to the Inspector General from this account are to be used for buyouts associated with staffing reductions.

Enforcement: \$167,000,000 for Superfund Enforcement, of which \$26,000,000 is directed to the Interagency Agreement with the Department of Justice;

\$9,843,000 for Federal Facility Enforcement;

\$3,802,000 for Forensics Support.

Legal/Science/Regulatory/Economic Review: \$750,000 for the Legal Advice: Environmental program.

Superfund Cleanup: \$192,880,000 for Superfund: Emergency Response and Removal;

\$9,318,000 for Superfund: EPA Emergency Preparedness;

\$31,879,000 for Superfund: Federal Facilities;

\$600,000,000 for Superfund: Remedial;

\$6,575,000 for Superfund: Support to Other Federal Agencies.

Bill Language: Language is included to provide up to \$1,273,871,000 as the maximum payment from general revenues for Superfund, instead of \$1,272,008,000 as proposed by the House and \$1,274,643,000 as proposed by the Senate. Language is also included to pay from this account, \$11,668,000 to the Office of Inspector General account and \$26,126,000 to the Science and Technology account.

The following reports should be submitted to the Committees on Appropriations no later than March 1, 2008:

1. The report on Army Corps of Engineers oversight of Superfund Cleanups, as outlined in House Report 110-187.

2. The report on Superfund Alternative Sites, as outlined in House Report 110-187.

3. The report on Human Health Risks, as outlined in Senate Report 110-91.

LEAKING UNDERGROUND STORAGE TANK TRUST FUND PROGRAM

The amended bill provides \$107,493,000 for the Leaking Underground Storage Tank Account, instead of \$117,961,000 as proposed by the House and \$72,493,000 as proposed by the Senate. The amended bill includes the House proposal to fund Underground Storage Tank grants through this account instead of through the State and Tribal Assistance Grants account, as proposed by the Senate. This is consistent with the Energy Policy Act of 2005 and the Agency is expected to request future funding through the Leaking Underground Storage Tank Program account. The table at the end of this Division allocates the total for this account by program area. The Agency is further directed to allocate the funds as follows:

Underground Storage Tanks (LUST / UST): \$10,558,000 for the LUST/UST program;

\$62,207,000 for the LUST Cooperative Agreements, instead of \$68,207,000 proposed by the House and \$58,207,000 proposed by the Senate;

\$31,000,000 for the Underground Storage Tank Grants, authorized by the Energy Policy Act of 2005, instead of \$35,500,000 proposed by the House and \$22,500,000 proposed by the Senate in the State and Tribal Assistance Grants account.

Bill Language: The amended bill includes language proposed by the House which clarifies that \$76,493,000 is for activities authorized by section 9003(h) of the Solid Waste Disposal Act, and thus subject to the 80 percent set-aside requirement for state cooperative agreements. The language also clarifies

that the remaining funds, \$31,000,000, is available for the activities authorized by the 2005 Energy Policy Act. In addition, bill language is included to authorize Tribal grants for those same functions. The amended bill does not accept the President's proposed language to amend the Energy Policy Act to change the types and frequency of state inspections.

OIL SPILL RESPONSE

The amended bill provides \$17,326,000 for oil spill response, instead of \$17,280,000 as proposed by the House and \$17,487,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area.

STATE AND TRIBAL ASSISTANCE GRANTS

The amended bill provides \$2,972,595,000 for state and tribal assistance grants, instead of \$3,406,514,000 as proposed by the House and \$3,181,853,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area. In addition, the Agency is further directed to:

Infrastructure Assistance:

1. Mexico Border: Of the funds provided for this program, \$5,000,000 is directed to the El Paso and Brownsville projects funded in prior years. The Agency is directed to report to the Committees on Appropriation on a proposed distribution of these funds between the two projects. The Agency further is directed to report to the Committees on Appropriations by May 1, 2008, on actions taken to reform the program and report quarterly on unobligated and unliquidated balances.

2. Diesel Emission Reduction Grants: The amended bill reflects the House recommendation to make Diesel Emission Reduction Act (DERA) grants available to all areas, not just those that are currently not in attainment with the national ambient air quality standards. Noted, however, is the importance of continuing to target limited Federal diesel emission reduction funds to areas that face the worst air quality and the greatest risk to public health. The Agency is urged to develop an allocation methodology for DERA funds consistent with the underlying authorizing statute which gives priority to non-attainment areas as well as other important priorities to address the overall emission reduction needs of the Nation.

3. California Diesel Emission Reduction Projects: The amended bill includes \$10,000,000 for this program, instead of \$15,000,000 proposed by the Senate. The funds should be divided equally between the San Joaquin Valley Air Pollution Control District and the South Coast Air Management District, with each district receiving \$5,000,000. Further, the Agency is directed to follow the language in Senate Report 110-91 governing this program.

STAG Infrastructure Grants / Congressional Priorities: The amended bill provides \$135,000,000 for the following projects:

State	Project	Amount
1. AK	The City of Kenai for water treatment project	\$300,000
2. AK	The City of Kodiak for water and sewer improvements project	500,000
3. AK	The City of Wrangell for water and sewer upgrade project	550,000
4. AK	The City of Ketchikan for water and sewer upgrade project	550,000
5. AL	The Town of Eva for wastewater treatment facility upgrade project	300,000

Categorical Grants: 1. Pollution Control Sec. 106 grants: The Agency may not withhold funds for an NPDES permit fees pilot program and is directed to use the same allocation method as used in prior years.

2. Targeted Remediation Project Grants: Funding is provided through General Provisions in Title IV.

3. Targeted Watershed Grants: The funds provided for this program are directed to the continuation of grants provided in the prior year for the Western Estuaries Program.

4. Underground Storage Tanks: The amended bill retains a small amount of the requested level in this account, while moving the vast majority to the Leaking Underground Storage Tank account. The funds remaining in this account will cover the state activities not authorized by either section 9003(h) of the Solid Waste Disposal Act or the Energy Policy Act of 2005.

Bill Language: Language is included, as proposed by the House, making up to \$75,000,000 in Clean Water State Revolving Funds available for decentralized wastewater and stormwater projects. The amended bill also includes language, as proposed by the House, to provide funds for Targeted Watershed Grants and concerning Tribal grants for the underground storage tank program. Language, as proposed by the Senate, is included referencing special projects grants and to provide funds for Emission Reduction Grants in California.

The amended bill includes a set aside of \$18,500,000 from the Section 106 Water State Grant for water quality monitoring activities. However, the amended bill does not include language, proposed by the Senate, limiting the funds for water quality monitoring to those activities that meet EPA standards for statistically representative monitoring programs.

Language proposed by the Senate for the Hunter's Point and Tar Creek projects has been moved to the General Provisions section in Title IV.

Senate Language related to the \$5,000,000 rescission of prior year funds for Title II of the Federal Water Pollution Control Act is carried in the Administrative Provisions section, as proposed by the House.

ADMINISTRATIVE PROVISIONS, ENVIRONMENTAL PROTECTION AGENCY

(INCLUDING RESCISSION OF FUNDS)

The amended bill includes minor technical corrections to the language on consultants

pay. A provision rescinding \$5,000,000 from prior year funds for Title II of the Federal Water Pollution Control Act is included here, as proposed by the House. The amended bill includes language, as proposed by the Senate, to mandate that \$3,500,000 from the Environmental Program and Management account be used for activities related to mandatory reporting of greenhouse gas emissions. The language requires a draft rule nine months after enactment of this bill and a final rule 18 months after enactment. The amended bill does not include language proposed by the House on a multi-sector greenhouse gas regulation.

TITLE III—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

FOREST AND RANGELAND RESEARCH

The amended bill provides \$290,457,000 for Forest and Rangeland Research instead of \$295,937,000 as proposed by the House and \$291,807,000 as proposed by the Senate. The forest inventory and analysis program is provided \$61,329,000 instead of \$62,329,000 recommended by the House and the Senate; this is an increase of \$1,949,000 above the fiscal year 2007 level. Fixed costs are provided as recommended by the Senate and the following specific project funding levels instead of the levels recommended by the Senate: Center for Bottomland Hardwoods, MS, \$400,000; Northeastern States Research Cooperative, \$2,200,000 including \$850,000 for both Vermont and New Hampshire, \$300,000 for Maine and \$200,000 for New York. The remaining increase above the request is for base programs. The Appropriations Committees have agreed with the Senate recommendation directing the Service to maintain the base budgets of individual research stations at or near prior year levels.

STATE AND PRIVATE FORESTRY

The amended bill provides \$266,974,000 for State and Private Forestry instead of \$280,602,000 as proposed by the House and \$272,542,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is in the back of this Division. The amended bill includes the House and Senate recommendations unless contradicted by the discussion below.

Forest Health Management.—The amended bill provides \$54,967,000 for Federal Lands Forest Health Management as proposed by

the Senate instead of \$53,963,000 as proposed by the House. The amended bill includes \$45,248,000 for cooperative lands forest health management instead of \$47,104,000 as proposed by the House and \$47,248,000 as proposed by the Senate. Within available funds, the Forest Service should provide funding for gypsy moth slow-the spread, suppression and eradication programs and western mountain bark beetle management at historic funding levels.

Cooperative Fire Protection.—The amended bill includes \$33,122,000 for State Fire Assistance as proposed by the House and the Senate. The amended bill includes \$6,000,000 for volunteer fire assistance instead of \$9,000,000 as proposed by the House and \$5,912,000 as proposed by the Senate. Note that the amended bill also includes additional funds for State fire and volunteer fire assistance as part of the national fire plan funding within the wildland fire management account and retains \$6,000,000 in the Bureau of Land Management wildland fire management account for rural fire assistance, which was eliminated in the House and administration recommendations. The Forest Service and the Department of the Interior wildfire officials are encouraged to collaborate and cooperate with States and other stakeholders when allocating these assistance grants. The House recommendation should be followed so that allocations of fire assistance grants to regions and States must carefully consider actual program needs and local urgency, particularly with regard to community protection in the wildland urban interface.

Forest Stewardship.—The amended bill includes \$30,000,000 for Forest Stewardship instead of \$36,947,000 as proposed by the House and \$34,288,000 as proposed by the Senate. The Chesapeake Bay program receives \$950,000 as recommended by the Senate.

Forest Legacy Program.—The amended bill provides \$53,146,000 for Forest Legacy instead of \$56,336,000 recommended by the House and \$48,095,000 reported in the Senate. The funds for other Forest Service priority projects should be used according to the results of the national competitive selection process to fund projects in priority order, but not provide additional funds for any item listed here. Funds should be distributed as follows:

	Total, Forest Legacy	\$53,146,000

The amended bill does not include bill language proposed by the Senate requiring notification of the Committees on Appropriations when the Forest Service makes funds available for specific forest legacy projects.

Urban and Community Forestry.—The amended bill includes \$28,130,000 for the Urban and Community Forestry program instead of \$31,130,000 as proposed by the House and \$30,846,000 as proposed by the Senate. Project funding includes: \$200,000 for urban forestry cooperative activities in El Segundo, CA; \$500,000 for the Seattle-Tacoma regional urban forestry effort; \$350,000 for Chicago urban tree planting; and \$200,000 for Indianapolis tree planting.

Economic Action Programs.—The amended bill includes \$4,273,000 for the Economic Action Programs instead of zero funding as proposed by the House and \$6,523,000 as proposed by the Senate. The amended bill provides \$250,000 to the Washington Family Forest Foundation to complete a State and private landowner management database; \$200,000 to the Northern Forest Center to continue sustainable forestry grants; \$500,000 to Purdue University to fund wood products technology development at the Hardwood Scanning Technology Center; \$350,000 to the State of Vermont to fund grants and technical assistance to wood products businesses through the Vermont Wood Products Collaborative; \$1,300,000 to Forest Service Region 5 for infrastructure assistance grants to help sustain the region's small forest products businesses; and an increase of \$1,673,000 above the request to restore funding for the Wood Education and Resource Center to last year's enacted level, for a total of \$2,673,000.

Forest Resource Information and Analysis.—The amended bill includes \$4,588,000 for Forest Resource Information and Analysis as proposed by the Senate instead of \$5,000,000 as proposed by the House.

International Program.—The amended bill includes \$7,500,000 for the International Program instead of \$8,000,000 as proposed by the House and \$6,953,000 as proposed by the Senate.

NATIONAL FOREST SYSTEM (INCLUDING TRANSFERS OF FUNDS)

The amended bill provides \$1,492,868,000 for the National Forest System instead of \$1,506,502,000 as proposed by the House and \$1,500,234,000 as proposed by the Senate. Funds should be distributed as follows:

Land management planning	\$49,607,000
Inventory and monitoring	169,220,000

Recreation, heritage & wilderness	266,797,000
Wildlife & fish habitat management	134,483,000
Grazing management	48,926,000
Forest products	327,614,000
Vegetation & watershed management	180,249,000
Minerals and geology management	85,476,000
Landownership management	92,746,000
Law enforcement operations	134,000,000
Valles Calderas National Preserve, NM	3,750,000
Total	1,492,868,000

The amended bill includes the House and Senate recommendations unless contradicted by the discussion below.

Inventory and Monitoring.—The amended bill includes \$700,000 for the NASA Stennis Space Center in Mississippi to acquire remote sensing data to inventory and monitor Federal and non-Federal lands pursuant to Title IV of the Healthy Forest Restoration Act.

Recreation, Heritage, and Wilderness Management.—The amended bill includes the Senate recommendation for fixed costs and \$250,000 to demarcate wilderness boundaries in Nevada. The remaining increase is for base programs and the agency is directed to use a portion of these funds to increase the base funding level for the operation of the various national scenic and historic trails over the enacted level.

Forest Products.—The amended bill provides \$327,614,000 for Forest Products instead of \$332,614,000 as proposed by the House and \$326,176,000 as proposed by the Senate. The amended bill does not include the House recommendation to set-aside \$10,000,000 for high revenue units but does include the Senate proposed earmark in bill language of \$4,000,000 for Tongass national forest timber sales preparation. The amended bill supports the policy in the budget request to fund forestry activities in support of the President's Pacific Northwest forest plan; regional allocations from this account may be adjusted but must provide at least the actual capability funding level and other sources should also be considered to further assist plan implementation. The Service should carefully consider allocating timber sales funding to those areas where existing roads are available and where there are lower engineering costs for making roads suitable for harvest activities.

Vegetation and Watershed Management.—The amended bill includes the Senate recommendation for fixed costs and \$350,000 for leafy spurge control in North Dakota. The remaining increase is for base programs.

Minerals and Geology Management.—The amended bill provides funding for fixed costs as recommended by the Senate. The direction proposed by the House is modified so that the first priority for use of the increased funds above the request should be managing geologic hazards and resources and managing environmental compliance and restoration, including mitigation of abandoned mine lands. Processing mineral applications may be considered thereafter. The Senate recommendation is retained requiring the Forest Service to provide a report on prioritization of abandoned mine land clean-up on national forest lands within 90 days of enactment of this Act.

Law Enforcement Operations.—The amended bill retains the House recommended \$500,000 increase for methamphetamine prevention on the Mark Twain NF, MO and the Senate recommended \$900,000 increase for the Daniel Boone NF, KY anti-drug effort. Use of other funds above the request should follow Senate instructions.

Valles Caldera National Preserve.—The Senate proposal concerning allocation of funds is modified. Rather than directing a specific percentage of funds be split between salaries/operations and infrastructure improvements, the Preserve management should minimize overhead and administrative expenses to the greatest extent practicable and make a strong effort to improve the infrastructure at the site so that it may be enjoyed by more members of the public. The report recommended by the Senate on economic self-sufficiency is required.

Other.—The specific allocation of extra funds for challenge cost share recommended by the House is not included but the Service should continue this program with available funds in a similar manner as in the past.

Note that section 423 of the amended bill retains \$15,000,000 of the Senate-recommended transfer of purchaser elect road funds to regions for vegetative, fuels and road treatments.

CAPITAL IMPROVEMENT AND MAINTENANCE (INCLUDING TRANSFERS OF FUNDS)

The amended bill provides \$481,895,000 for Capital Improvement and Maintenance instead of \$520,197,000 as proposed by the House and \$444,090,000 as proposed by the Senate. The amended bill includes the House and

Senate recommendations unless countered by the discussion below. The amount provided includes a transfer of \$25,000,000 from the purchaser elect road fund instead of \$40,000,000 in the House bill and no transfer in the Senate recommendation. The Senate included language in Title IV (Senate section 421) which distributed \$40,000,000 from the purchaser elect road fund to Forest Service regions for certain vegetation management and maintenance needs, which is modified as noted above. In addition, funds from the road and trail fund are transferred to the Treasury as recommended by the House, providing approximately \$15,000,000 which has been included in this account. The Senate had recommended that the road and trail fund be allocated following instructions included in Title IV. House recommended bill language providing for decommissioning of certain unauthorized roads is retained. Funds should be distributed as follows:

Activity/Project	Amount
Facilities:	
Maintenance	\$64,310,000
Capital Improvement	56,039,000
Congressional Priorities:	
Chattanooga airtanker base (TN)	750,000

Legacy Road and Trail Remediation Program:	
Legacy roads and trails program	40,000,000
Total, Capital Improvement and Maintenance	481,895,000

The Service should focus its timber road program when practicable to areas that do not need expensive construction or engineering support. The recommendation includes base funding for maintenance, construction, and operation of the network of national scenic and historic trails at least \$2,000,000 above the fiscal year 2006 levels. The amended bill includes the House recommendation for the legacy road and trail remediation program but at a reduced level of \$40,000,000; these funds are for urgently needed road decommissioning, road and trail repair and maintenance, removal of certain fish passage barriers, or for protection of community water sources and the allocation of funds to regions should carefully consider regional needs and project readiness for these urgently needed activities.

The amended bill includes the Senate recommendation to transfer previously appropriated funds to West Virginia University for a shared-use research greenhouse facility as the Federal share in the construction.

LAND ACQUISITION

The amended bill includes \$42,490,000 for land acquisition instead of \$44,485,000 as proposed by the House and \$48,245,000 as proposed by the Senate. Funds should be distributed as follows:

ACQUISITION OF LANDS FOR NATIONAL FORESTS SPECIAL ACTS

The amended bill provides \$1,053,000 for the Acquisition of Lands for National Forests Special Acts as recommended by both the House and the Senate.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

The amended bill provides an indefinite appropriation estimated to be \$231,000 for the Acquisition of Lands to Complete Land Exchanges as proposed by both the House and the Senate.

RANGE BETTERMENT FUND

The amended bill provides an indefinite appropriation estimated to be \$3,750,000 for the Range Betterment Fund as proposed by both the House and the Senate.

GIFTS, DONATIONS AND BEQUESTS FOR FOREST AND RANGELAND RESEARCH

The amended bill provides \$56,000 for Gifts, Donations and Bequests for Forest and

Rangeland Research as proposed by both the House and the Senate.

MANAGEMENT OF NATIONAL FOREST LANDS FOR SUBSISTENCE USES

The amended bill provides \$5,053,000 for Management of National Forest System Lands for Subsistence Uses in Alaska as proposed by both the House and the Senate.

WILDLAND FIRE MANAGEMENT (INCLUDING TRANSFERS OF FUNDS)

The amended bill provides \$1,974,276,000 for Wildland Fire Management instead of \$1,974,648,000 as proposed by the House and \$1,982,482,000 as proposed by the Senate. The amended bill includes the House and Senate recommendations unless contradicted by the discussion below. The amended bill does not require establishment of a high level commission recommended by the House to propose alternative methods to fund and manage fire suppression and firefighting capacity. The Committees on Appropriations and

the authorizing committees of jurisdiction are working on these issues.

Wildfire Preparedness: \$676,370,000 for preparedness as proposed by the Senate instead of \$675,382,000 proposed by the House. The amended bill reiterates the direction contained in the House and Senate reports regarding the need to maintain the level of fire readiness established in fiscal year 2006. The Appropriations Committees remain dissatisfied that the Forest Service and Department of the Interior have failed to produce and deploy the Fire Program Analysis system as an urgently needed fire preparedness planning tool so the House and Senate direction should be followed.

The Appropriations Committees are aware that the Forest Service is facing challenges to recruit and retain wildland firefighters in Region 5, particularly on Southern California forests, due to the agency's vastly different pay scales and personnel policies and the high cost of living in the region. The

Forest Service should examine Federal firefighter pay and personnel policies and provide the House and Senate Committees on Appropriations with a proposal to increase recruitment and retention for Southern California forests no later than February 1, 2008. Note that flexibility has been provided to adjust preparedness and suppression funding to implement such a plan if the agency determines it is in the interest of public safety and to reduce future suppression costs.

Wildfire Suppression Operations.—The amended bill includes \$859,021,000 for suppression operations as proposed by both the House and the Senate. This provides the full amount of the ten-year average cost of wildfire suppression increased for inflation, an increase of \$117,544,000 above the fiscal year 2007 funding level. Funds designated for wildfire suppression shall be assessed for cost pools on the same basis as such assessments are calculated against other agency programs. Note that Title V includes \$222,000,000 in emergency funds in case next season has extreme needs beyond the increased funding provided herein.

Other Wildfire Operations.—The amended bill includes \$438,885,000 for other fire operation activities instead of \$440,245,000 as proposed by the House and \$447,091,000 as proposed by the Senate. Funds should be distributed as follows:

Program	Amount
Hazardous fuels	\$315,000,000
Rehabilitation & restoration	11,000,000
Research & development ...	23,892,000
Joint fire science	8,000,000
Forest health management-Federal	14,252,000
Forest health management-cooperative	10,014,000
State and community fire assistance	48,727,000
Volunteer fire assistance ...	8,000,000
Total other wildfire operations	438,885,000

Hazardous fuels.—The amended bill provides an increase of \$13,472,000 over the fiscal year 2007 level and \$23,467,000 over the Administration request. The ferocious 2007 fire season burned more than 8.9 million acres nationwide—including more than half a million acres alone in Southern California during an October 2007 Santa Ana wind event—and further underscores the need to reduce the risk of catastrophic wildfire and to provide community protection. The amended bill also supports direction provided by the Senate to the Forest Service to allocate hazardous fuels funds according to a model that prioritizes fuels treatments in the wildland-urban interface and gives greater weight to areas with high fuel loads, high population densities, and higher relative values at risk. The amended bill also concurs with the Senate direction and directs the Forest Service to provide recommended allocations within 30 days of the signing of the bill and 14 days prior to releasing funds to the field.

The amended bill allows up to \$10,000,000 of hazardous fuels funds to be transferred to the "National Forest System" account at the sole discretion of the Chief of the Forest Service 30 days after notifying the Appropriations Committees. A total of \$7,000,000 is provided for biomass utilization grants of which \$2,000,000 is for the biomass to ethanol pilot project managed by the Forest Products Lab. The Senate recommended funding for the Southwest Ecological Restoration Institutes is provided but this is the sole Federal support for these institutions working under authorities related to P.L. 108-317; the allocation includes \$2,000,000 for Northern Arizona University, \$350,000 for New Mexico

Highlands University and \$250,000 for Colorado State University. The joint report with the Department of the Interior on hazardous fuels funding allocations is required as directed by the House and should be delivered 120 days after enactment.

Rehabilitation.—The Forest Service and the Department of the Interior should provide a detailed accomplishment report 120 days after enactment of this Act, including a plan of future work, for the native plant materials program.

Fire plan research and development.—The University of Idaho FRAMES project total allocation is \$650,000.

State fire assistance.—The amended bill modifies the Senate recommendation to include \$4,000,000 to fund fire risk reduction activities by Fire Safe Council chapters in California and retains \$1,000,000 for the South Lake Tahoe Public Utilities District for improvements to increase water system pressure in case of fire. It also provides \$2,500,000 for Alaska, of which \$1,000,000 is for the Kenai Peninsula Borough, \$200,000 is for the Cook Inlet tribal council, \$300,000 is for Fairbanks North Star Borough, \$500,000 is for the Matanuska-Susitna Borough, and \$500,000 is for the Municipality of Anchorage. Senate instructions on distribution of these funds should be followed by the Service.

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

The amended bill includes the Senate limitation of funds for abolishing or moving certain offices. The House language is retained regarding use of funds for international program activities; the Foreign Agricultural Service need not be involved in Forest Service International Program activities, grants or agreements. Bill language provided by the House limits \$24,021,000 of funds available to the Forest Service for transfer to the Department of Agriculture for Department Reimbursable Programs, commonly referred to as Greenbook charges. Funds available to the Forest Service shall be available to conduct a program of up to \$5,000,000 for priority projects within the scope of the approved budget, of which \$2,500,000 may be carried out by the Youth Conservation Corps and \$2,500,000 may be carried out under the authority of the Public Lands Corps Healthy Forests Restoration Act. The House recommended funding of \$3,000,000 for the National Forest Foundation is retained, as is the Senate language which does not provide for any of these funds to be used for administrative expenses of the Foundation. Senate language is retained regarding funding for technical assistance to rural communities and certain businesses and reimbursement for limited Office of General Counsel travel expenses.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE INDIAN HEALTH SERVICES

The amended bill includes \$3,018,624,000 for Indian Health Services instead of \$3,023,532,000 as proposed by the House and \$2,991,924,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is included in the back of the statement for this Division.

The funding distribution follows the House proposal, except that \$27,000,000 is included for the catastrophic health emergency fund; \$14,000,000 is included for the methamphetamine treatment and prevention initiative; \$14,000,000 is included for the Indian health care improvement fund; \$35,094,000 is included for the Urban health program; and \$271,636,000 is included for contract support costs.

The amended bill includes language that allows the director of the Indian Health

Service to distribute the funding for the methamphetamine treatment and prevention program to the areas with the greatest need within Indian country. The bill also allows up to \$5,000,000 of these funds to be used for the behavioral health issues associated with methamphetamine use including combating youth suicide. Tele-medicine technology should be used when possible to support remote or isolated communities that would otherwise have difficulty obtaining services.

The Indian Health Service is directed to allocate the Indian Health Care Improvement Act funding to bring those units with the highest level of need up to at least 40 percent of need before allocating any additional funds to units with needs above 40 percent.

The Service is directed to provide technical assistance to the Nevada Indian Health Board, as needed, to facilitate its establishment as an entity that can both adequately address health issues of the Nevada tribes and effectively represent these same issues to the Indian Health Service at both the Phoenix Area and the national headquarters levels.

INDIAN HEALTH FACILITIES

The amended bill includes \$380,583,000 for Indian health facilities instead of \$360,895,000 as proposed by the House and \$375,475,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is included in the back of the statement for this Division. Funds should be distributed as follows:

	Amount
Maintenance and Improvement	\$53,727,000
Sanitation Facilities	95,747,000
Health Care Facilities Construction	37,164,000
Hospital and Clinic Construction	32,664,000
Small Ambulatory	2,500,000
Dental Units	2,000,000
Facilities and Environmental Health Support ...	172,326,000
Equipment	21,619,000
Total	\$380,583,000

The amended bill does not include specific recommendations for funding of health facilities construction projects as provided by both the House and the Senate. Instead, it is expected that the Indian Health Service will use the amounts provided within this activity for the highest priority projects from the Service's list, for which construction has already been initiated and for which additional funding is required to keep the project on schedule. The Service may also use construction funds to begin design on not to exceed one project from the current priority list that has met all of the program requirements and is ready to proceed without delay.

The amended bill does not contain funding for the joint venture program as recommended by the Senate instead of \$2,000,000 as recommended by the House. It is understood that sufficient funds remain available from within amounts provided for joint ventures in previous fiscal years to fund an additional two projects from the last solicitation list. These funds are available because of savings achieved by the Service and tribes in negotiating their agreements. In determining priorities for project funding under the joint ventures program for hospitals and clinics, the Service should provide additional credit to tribes that are willing to provide full funding for facility equipment in addition to providing full funding for facility construction.

NATIONAL INSTITUTES OF HEALTH NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES

The amended bill provides \$78,775,000 for the National Institute of Environmental

Health Sciences, instead of \$79,117,000 as proposed by the House and \$78,434,000 as proposed by the Senate.

AGENCY FOR TOXIC SUBSTANCES AND DISEASE
REGISTRY

TOXIC SUBSTANCES AND ENVIRONMENTAL
PUBLIC HEALTH

The amended bill provides \$75,212,000 for Toxic Substances and Environmental Health, as proposed by the House instead of \$75,004,000 as proposed by the Senate. Senate proposed language to limit the number of toxicological profiles conducted by the Agency is not included.

From within the amount appropriated, ATSDR is expected to assess the extent of children's exposure to mercury from former industrial sites and other sources nationwide, and to issue a report of its findings 12 months after the date of enactment of this bill. ATSDR is further expected, in collaboration with the Centers for Disease Control and Prevention, to continue to provide biomonitoring, exposure assessment, clinical evaluation, and education, as appropriate.

OTHER RELATED AGENCIES

EXECUTIVE OFFICE OF THE PRESIDENT

COUNCIL ON ENVIRONMENTAL QUALITY
AND OFFICE OF ENVIRONMENTAL
QUALITY

The amended bill provides \$2,703,000 for the Council on Environmental Quality and the Office of Environmental Quality, as requested by the President and as provided by both the House and Senate.

CHEMICAL SAFETY AND HAZARD
INVESTIGATION BOARD

SALARIES AND EXPENSES

The amended bill provides \$9,410,000 for the salaries and expenses of the Chemical Safety and Hazard Investigation Board, instead of \$9,049,000 as proposed by the Senate and \$9,549,000 as proposed by the House.

Bill Language: The amended bill includes language proposed by the House, and carried in prior years, which authorizes the Inspector General of the Environmental Protection Agency to act as the Inspector General for the Board and specifies certain personnel issues related to this role.

The additional funding is intended to fund up to three new investigators, as proposed by the House. Additional funds have not been provided for video production support, as proposed by the House.

Consistent with House Report 110-187, GAO is directed to update its 2000 study and make further recommendations on the best way to provide an IG oversight function for the Board. Based on that report, the Committees on Appropriations will revisit this issue for fiscal year 2009.

OFFICE OF NAVAJO AND HOPI INDIAN
RELOCATION

SALARIES AND EXPENSES

The amended bill includes \$9,000,000 for the office of Navajo and Hopi Indian relocation as proposed by both the House and the Senate.

INSTITUTE OF AMERICAN INDIAN AND
ALASKA NATIVE CULTURE AND ARTS
DEVELOPMENT

PAYMENT TO THE INSTITUTE

The amended bill includes \$7,297,000 for the Institute of American Indian and Alaska Native Culture and Arts Development as proposed by both the House and the Senate.

SMITHSONIAN INSTITUTION

The amended bill includes a total of \$693,447,000 for the Smithsonian Institution, an increase of \$58,552,000 over the fiscal year 2007 level and an increase of \$15,000,000 over the budget request. The increase over the

budget request is to initiate a new Legacy Fund described below. Funding for the Smithsonian Institution includes:

	<i>Amended bill</i>
Salaries and Expenses	\$571,347,000
Facilities Capital	107,100,000
Legacy Fund	15,000,000

Total, Smithsonian
Inst. 693,447,000

SALARIES AND EXPENSES

The amended bill provides \$571,347,000 for salaries and expenses instead of \$536,295,000 as proposed by the House and \$571,705,000 as proposed by the Senate. The amended bill approves the budget as requested by the President with two exceptions. The Office of Inspector General is increased by \$100,000 above the request and the Chief Financial Officer is increased by \$250,000. These increases are to be absorbed within the total request for salaries and expenses.

The large increase approved for the Smithsonian reflects increased confidence in the Institution after a period of great controversy. Since the budget was submitted in February, the Smithsonian Institution has moved aggressively to address longstanding governance and integrity issues. The senior leadership of the Institution has turned over and the Regents have reorganized themselves to ensure that the reform process begun after the departure of the previous Secretary is fully implemented. The Appropriations Committees believe that this reform effort will take many years, but the change in leadership and the reform efforts undertaken over the last eight months represent significant progress. The Committees will carefully monitor this continuing reform process to ensure that the Smithsonian does not backslide on this critical task.

FACILITIES CAPITAL

The amended bill includes \$107,100,000 for the Facilities Capital account instead of \$116,100,000 as proposed by the House and \$125,000,000 as proposed by the Senate. The amended bill does not specify amounts for individual facility construction and repair projects. The Committees are aware, however, of urgent fire safety needs at the National Zoo and expect the Institution to work as expeditiously as possible to make the National Zoo and other facilities fire safe.

LEGACY FUND

The amended bill includes \$15,000,000 to establish a Legacy Fund within the Smithsonian Institution appropriation. This new fund is intended to provide a means to address more aggressively the \$2.5 billion backlog of major repair and restoration of the Institution's facilities that now exists. The Legacy Fund has been designed as a public-private partnership whereby each federal dollar provided must be matched by twice that amount in private contributions before the full \$15,000,000 is made available. Assuming that the Smithsonian's efforts to raise the required private match are successful, the Legacy Fund will provide a total of \$45,000,000 above amounts appropriated in the Facilities Capital account to be used solely for the purpose of bringing the Institution's facilities up to the world-class standard its collections and the visiting public deserve.

NATIONAL GALLERY OF ART

The amended bill includes a total of \$119,735,000 for the National Gallery of Art, as proposed by the Senate instead of \$119,867,000 as proposed by the House.

SALARIES AND EXPENSES

The amended bill includes \$101,718,000 for salaries and expenses of the National Gallery

of Art, as proposed by the Senate instead of \$101,850,000 as proposed by the House.

The amended bill allocates not to exceed \$3,350,000 for the special exhibition program, as proposed by the Senate instead of \$3,239,000 as proposed by the House. The funding provided restores the reduction to repair and maintenance of fixed equipment by providing \$4,928,000. The remaining increase over the request is provided for increased utility costs, art conservation services and supplies.

REPAIR, RESTORATION AND RENOVATION OF
BUILDINGS

The amended bill provides \$18,017,000 for repair, restoration and renovation of buildings, as proposed by the President and provided by the House and the Senate.

JOHN F. KENNEDY CENTER FOR THE PERFORMING
ARTS

The amended bill includes a total of \$43,350,000 for the John F. Kennedy Center for the Performing Arts as proposed by both the House and the Senate.

OPERATIONS AND MAINTENANCE

The amended bill provides \$20,200,000 for operations and maintenance of the Kennedy Center, as proposed by both the House and Senate. The increase above the request is intended for minor repairs at the Center.

CAPITAL REPAIR AND RESTORATION

MOMENT OF REMEMBRANCE

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$200,000 for salaries and expenses of the White House Commission on The National Moment of Remembrance as proposed by the House and the Senate. The amended bill includes language to transfer administration and all future funds of the Commission to the Veterans Administration as proposed by the House.

DWIGHT D. EISENHOWER MEMORIAL COMMISSION
SALARIES AND EXPENSES

The amended bill provides \$2,000,000 for salaries and expenses of the Dwight D. Eisen-

hower Memorial Commission. This Commission is authorized by Public Law 106-79. The House provided \$1,000,000 for the Commission within the National Park Service National Recreation and Preservation account. In the Senate bill, \$1,000,000 was provided within the Office of the Secretary.

TITLE IV—GENERAL PROVISIONS
(INCLUDING TRANSFERS OF FUNDS)

Sec. 401: Retains a provision on consulting services as recommended by the Senate; there was a minor technical difference between the House and Senate versions.

Sec. 402: Retains identical House and Senate provisions limiting certain activities related to support or opposition to legislative proposals.

Sec. 403: Retains House provision which provides that appropriations in the bill are available only for the current fiscal year, unless otherwise stated.

Sec. 404: Retains identical House and Senate (Section 403) provision prohibiting funds for certain personal services.

Sec. 405: Retains identical House and Senate (Section 404) provision which limits overhead charges, deductions, reserves or holdbacks for certain functions.

Sec. 406: Retains House provision limiting transfer of funds except as provided in this or other Acts.

Sec. 407: Modifies House and Senate (Section 405) provision prohibiting the sale of giant sequoia trees.

Sec. 408: Retains identical House and Senate (Section 406) provision limiting funds for patents for mining or mill site claims.

Sec. 409: Modifies House provision limiting payments for BIA and IHS contract support costs in past years to the funds available in law.

Sec. 410: Retains identical House and Senate (Section 408) provision regarding Forest Service land management planning.

Sec. 411: Retains Senate provision (Section 409) which specifies how the Forest Service should conduct and report accomplishments for Alaskan timber sales and provides specific direction concerning western redcedar and Alaska yellow cedar.

Sec. 412: Retains identical House (Section 411) and Senate (Section 410) provision limiting certain mineral, oil and gas leasing activities within the boundaries of certain National Monuments.

Sec. 413: Retains identical House (Section 412) and Senate (Section 411) provisions concerning wildfire suppression assistance with foreign countries.

Sec. 414: Retains identical House (Section 413) and Senate (Section 412) provisions pertaining to the awarding of federal contracts by the Secretaries of Agriculture and Interior in certain disadvantaged communities.

Sec. 415: Modifies House Section 414 and Senate provision limiting certain competitive sourcing studies and associated activities at the Department of the Interior and the Forest Service.

Sec. 416: Retains House Section 415 provision to extend the Forest Service pilot rights-of-way administrative program.

Sec. 417: Retains House Section 416 extending a previous provision regarding cooperative agreements with third parties.

Sec. 418: Retains Senate Section 413 which continues a requirement in Alaska that IHS funds be made available only to regional Alaska Native health organizations.

Sec. 419: Retains Senate Section 414 which restricts funding for acquisition of land from being used for declarations of taking or complaints in condemnation.

Sec. 420: Retains Senate Section 417 which extends authority for Utah to work cooperatively on Forest Service lands.

Sec. 421: Modifies Senate Section 419 which extends a previous provision allowing the Forest Service to use categorical exclusions for certain grazing activities, but excludes use of this authority in federally designated wilderness areas.

Sec. 422: Retains Senate Section 420 concerning certain marina fees on the Shasta-Trinity National Forest, CA.

Sec. 423: Modifies Senate Section 421 to direct \$15,000,000 from the timber roads purchaser election fund be distributed to Forest Service regions for certain vegetative, fuels and road treatments.

Sec. 424: Modifies Senate Section 422 requiring the sale of 5200 acres of national grassland parcels in North Dakota to offset the acreage previously purchased at the Elkhorn Ranch in Medora, North Dakota. Provides direction for future management of the Elkhorn Ranch acquired by the Forest Service.

Sec. 425: Retains Senate Section 423 prohibiting Forest Service eligibility requirement changes to grazing permits on the Dakota Prairie Grasslands, ND.

Sec. 426: Retains Senate Section 425 on arts and artifacts domestic indemnity.

Sec. 427: Retains Senate Section 426 transferring three Job Corps centers from the National Park Service to the Forest Service.

Sec. 428: Modifies Senate Section 427 on timber and hazardous fuel reduction projects on the Sequoia and Sierra National Forests, CA.

Sec. 429: Modifies Senate Section 428 which provides permanent authority regarding fire fighter liability insurance. The Forest Service and Department of Interior agencies that participate in fire suppression and management activities are directed to determine the positions within each agency that are eligible to be reimbursed for professional liability insurance, not to exceed one half of the cost of such insurance. Examples of positions which should be considered for eligible for reimbursement include temporary supervision or management of personnel engaged in wildland or managed fire activities, such as a type 1, 2, 3, 4, or 5 incident commander, an operations section chief, a division group supervisor, a fire use manager, a prescribed fire manager or burn boss, a single resource boss, or a squad boss; providing analysis or information that affects a decision by a supervisor or manager about a wildland or managed fire, such as a fire behavior analyst, a safety officer, or a long term analyst; or directing the deployment of equipment for a wildland or managed fire, such as a base camp manager, an equipment manager, a helicopter coordinator, or an initial attack dispatcher.

Sec. 430: Retains House Section 501, expressing the sense of Congress on global climate change.

Sec. 431: Modifies House Section 603 which directs the purchase of Energy Star light bulbs with funds provided by this Act.

Sec. 432: Retains House Section 604 on EPA's proposal to amend the Maximum Achievable Control Technology Standards.

Sec. 433: Retains the provision contained in Section 606 of the House bill concerning the promulgation of rules in conjunction with a commercial oil shale program in Colorado, Utah and Wyoming.

The Appropriations Committees are aware that oil shale has the potential to be an important energy resource, which will be integral to our nation's future energy security. But this development must proceed thoughtfully and with the full support of the states of Colorado, Utah and Wyoming. While industry is still many years away from establishing the commercial viability of new oil shale extraction technologies, there is concern that the Department of the Interior may be moving ahead before the full impacts of such a program are known, and without

full and complete cooperation of the affected States. It is essential that these States have a meaningful opportunity to review and comment on the Programmatic Environmental Impact Statement (PEIS), draft proposed commercial leasing rules and regulations, and relevant resource management planning documents. Therefore, the Secretary is directed to provide adequate time after the completion of the PEIS for the Governors of the affected States of Colorado, Utah and Wyoming to review any draft proposed or final commercial leasing regulations, with additional time for public comment as appropriate.

Sec. 434: Includes a new provision extending the Herger-Feinstein Quincy Library Group (QLG) Forest Recovery Act (P.L. 105-277) for an additional three years until 2012; directs the Forest Service to work with stakeholders on a possible alternative course for implementing the extended effort; and amends the QLG Act to clarify that certain Healthy Forest Restoration Act authorities (Sections 104-106 of Public Law 108-148) can be applied to the types of treatments prescribed under the Act.

Sec. 435: Modifies and moves a provision proposed by the Senate in the State and Tribal Assistance Grants account, which authorizes a transfer of \$8,000,000 from the Environmental Protection Agency to the Department of the Navy to fund efforts to monitor and remediate groundwater contamination and other pollution sources at Hunter's Point Naval Shipyard in San Francisco, CA.

Sec. 436: Modifies and moves a provision proposed by the Senate in the State and Tribal Assistance Grants account which authorizes the Administrator to transfer \$3,000,000 to the Oklahoma Department of Environmental Quality to fund high-priority remediation and relocation programs for the Tar Creek and Spring River watersheds in Oklahoma.

Sec. 437: The amended bill includes an across the board rescission of 1.560 percent. This reduction shall be applied to each program, project, and activity, except for Miscellaneous Payments to Indians, which has a different application of the rescission as specified in the statutory language. The bill also requires the Office of Management and Budget to submit a report within 30 days specifying the account and amount of each rescission.

The amended bill does not include the following House provisions:

Sec. 502: Limiting funds for land condemnations. This issue is addressed in section 419.

Sec. 503: Limiting funds for Tongass National Forest timber harvesting.

Sec. 504: Rescinding funds from the "Historic Preservation Fund".

Sec. 601: A provision on reforestation of urban areas.

Sec. 602: A provision on Smithsonian outreach programs.

Sec. 605: Prohibiting contravention of the Pollution Prevention Act of 1990. The Environmental Protection Agency has confirmed that beginning in fiscal year 2008 the Protective Security Detail will no longer be charged to the Criminal Enforcement Program. The Agency is directed that none of the funds provided for the criminal and civil enforcement programs in the EPM and Superfund accounts are to be allocated to the Protective Security Detail.

The amended bill does not include the following Senate provisions:

Sec. 407: Providing additional authority to the Forest Service on use of the road and trails fund.

Sec. 424: Requiring the Minerals Management Service to withhold funds for administrative costs of mineral leasing activities. Bill language on this matter is included under the Minerals Management Service, Administrative Provisions heading.

TITLE V—WILDFIRE SUPPRESSION EMERGENCY APPROPRIATIONS

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides a total of \$300,000,000 for emergency wildfire suppression activities of the Forest Service and the Department of the Interior, including \$222,000,000 for the former and \$78,000,000 for the latter. Although this Act fully funds the anticipated wildfire suppression emergency needs by funding the average emergency suppression expenditures which occurred over the past ten years (inflation adjusted), this additional allocation is required so that, if another tragic wildfire season occurs as did last year, the Federal government will once again be able to fully respond with its exceptional firefighting resources without borrowing critically needed program funds from land management agency accounts.

DISCLOSURE OF EARMARKS AND CONGRESSIONAL DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Items which did not appear in the House or Senate versions of H.R. 2634 or S. 1696 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

The amounts displayed do not reflect the 1.56 percent reduction that will be applied to all activities in the bill by sec. 437.

DIVISION G—LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008 (H.R. 3043 and S. 1710) passed by the House of Representatives and the Senate.

Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

Funding levels specified in the explanatory statement do not reflect the across-the-board reduction that applies to each program, project or activity excluding the Pell Grant Program, pursuant to section 528. The detailed table at the end of this explanatory statement displays estimates of how this across-the-board reduction will be applied to major programs, projects, and activities in this Act. The Appropriations Committees expect that this across-the-board reduction also will be applied to amounts identified in this statement.

In implementing this Act, the Departments and agencies should be guided by the language and instructions set forth in House Report 110-231 and Senate Report 110-107 accompanying the bills, H.R. 3043 and S. 1710.

In the cases where the language and instructions in either report specifically address the allocation of funds, each has been

reviewed and those that are jointly concurred in by the Appropriations Committees have been endorsed in this explanatory statement and the detailed table at the end of the explanatory statement for this Act.

In the cases in which the House or the Senate reports direct the submission of a report, such report is to be submitted to both Appropriations Committees.

Section 516 sets forth the reprogramming requirements and limitations for the Departments and agencies funded through this Act, including the requirement to make a written request to the Appropriations Committees 15 days prior to reprogramming, or to the announcement of intent to reprogram, funds in excess of 10 percent, or \$500,000, whichever is less, between programs, projects and activities.

Finally, Departments and agencies funded in this division shall submit statements on the effect of this Act to the Appropriations Committees within 45 days of enactment of this Act, pursuant to section 518. The Appropriations Committees expect that these statements will provide sufficient detail to show the allocation of funds among programs, projects and activities, particularly in accounts where the final appropriation is different than that of the budget request. Further, these statements shall also include the effect of the appropriation on any new activities or major initiatives discussed in the budget justifications accompanying the fiscal year 2008 budget.

REDUCING THE NEED FOR ABORTIONS

The amended bill includes over \$200 million over the fiscal year 2007 funding level for several programs and new initiatives in the House bill that are intended to help reduce the number of abortions in America by alleviating the economic pressures and other real life conditions that can sometimes cause women to decide not to carry their pregnancies to term. Increases are provided for Community Health Centers, Family Planning, and the Community Services Block Grant. New approaches include a young parents training initiative in the Department of Labor, first time motherhood grants under the Health Resources and Services Administration, a teen pregnancy prevention demonstration within the Centers for Disease Control and Prevention, and a home visitation initiative within the Administration for Children and Families.

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008, put in place by the amended bill, incorporates the following agreements of the Appropriations Committees:

TITLE I—DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

TRAINING AND EMPLOYMENT SERVICES

(INCLUDING RESCISSIONS)

The amended bill includes \$3,608,349,000 for Training and Employment Services, instead of \$3,530,530,000 as proposed by the House and \$3,587,138,000 as proposed by the Senate. Of the amount appropriated, \$1,772,000,000 is an

advance appropriation for fiscal year 2009 as proposed by the House and the Senate.

For dislocated worker assistance, \$1,471,903,000 is provided. This includes \$1,189,811,000 for the State formula grants and \$282,092,000 for the National Reserve Account, overriding the formula that provides that 80 percent of the funds available will be used for State formula grants and 20 percent in a National Reserve Account. Within the National Reserve Account, the amended bill provides that \$6,300,000 shall be available upon enactment for the purposes of grants, to be awarded within 30 days of enactment, for the continuation of national or multi-state training and employment programs. These grants are to be awarded to the AFL-CIO Working for America Institute and the AFL-CIO Appalachian Council, as proposed by the Senate, and the National Center on Education and the Economy, as proposed by the House. The amended bill also provides that up to \$125,000,000 within the National Reserve Account may be used for competitive grants under the Community-Based Job Training Grant initiative. No funds from the dislocated worker national reserve account or other pilot and demonstration resources shall be used for career advancement accounts or the predecessor proposal for personal reemployment accounts prior to a specific authorization of such activities.

Within the total provided for Migrant and Seasonal Farmworkers, \$75,610,000 is provided for State service area grants, \$4,975,000 is provided for housing grants and \$500,000 is included for other discretionary purposes, as described in the Senate report. The amended bill includes bill language proposed by the House providing that no less than 70 percent of formula funds be used for employment and training services and bill language proposed by the Senate which prohibits the Department from restricting the provision of "related assistance" services by grantees. These provisions ensure that the program primarily addresses the employment and training needs of the target population while also allowing grantees to provide related services that are often critical to the stabilization and availability of the farm labor workforce.

For YouthBuild, the \$60,000,000 included in the amended bill will provide sufficient funds for an additional competitive grant round in program year 2008.

For Pilots, Demonstrations and Research, the amended bill includes \$49,370,000 instead of \$28,140,000 as proposed by the House and \$30,650,000 as proposed by the Senate. Included in this amount is \$5,000,000 for a new demonstration program of competitive grants to address the employment and training needs of young parents as proposed by the House and detailed in House Report 110-231. The House provided \$10,000,000 for this purpose. The Senate had no similar provision.

The amended bill also includes funds within Pilots, Demonstrations and Research to support the following projects in the following amounts:

The amended bill consolidates the Responsible Reintegration of Youthful Offenders and Prisoner Reentry programs into a program of Reintegration of Ex-Offenders, as proposed by the House. The amended bill provides \$74,800,000, instead of \$68,746,000 as proposed by the House and a total of \$68,642,000 as proposed by the Senate in two individual programs. Within this amount, bill language provides that no less than \$55,000,000 be used for programming for youth, and that a total of \$50,000,000 be available from resources in both fiscal years 2007 and 2008 for a youth mentoring initiative. The \$50,000,000 provided is for competitive grants to local educational agencies or community-based organizations to develop and implement mentoring strategies in schools identified as persistently dangerous. The Department should use \$29,000,000 provided in this Act, along with \$21,000,000 in funds made available under the fiscal year 2007 appropriation for youthful offenders, for this purpose and issue a solicitation of grant agreements on a timeline that provides for the incorporation of both the fiscal year 2007 and fiscal year 2008 contributions to the enhanced effort to assist persistently dangerous schools in mentoring efforts to prevent youth violence in high crime areas.

The amended bill includes a rescission of \$250,000,000 in prior year Workforce Investment Act unexpended balances for the Youth, Adult and Dislocated Worker formula programs. The Appropriations Committees expect the Department to adhere to the specific instructions in House Report 110-424 regarding the implementation of this rescission. Those instructions provide additional information on the intended methodology for the allocation of the rescission and the waiver of requirements that will minimize the burden on States and local areas.

COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

The amended bill includes \$530,900,000 for Community Service Employment for Older Americans as proposed by the House, instead of \$483,611,000 as proposed by the Senate. The increase over fiscal year 2007 is provided to cover the second increment of the Federal minimum wage increase, from \$5.85 to \$6.55 an hour, for the current level of 60,438 slots, which support 103,000 program participants.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

The amended bill includes \$3,323,953,000 for State Unemployment Insurance and Employment Service Operations, instead of \$3,382,614,000 as proposed by the House and \$3,386,632,000 as proposed by the Senate.

The amended bill omits a provision proposed by the House and the Senate to provide \$40,000,000 in additional funds for in-person reemployment and eligibility assessments in one-stop centers, along with the specific requirement that \$10,000,000 in base Unemployment Insurance (UI) administration be used for this purpose, allowing for State flexibility in UI administration. The amended bill retains language included in the earlier conference report on H.R. 3043, and described in House Report 110-424, that allows the Secretary of Labor to make payments on behalf of the States for matching UI claims information against the information in the National Directory of New Hires to prevent, detect, and collect improper UI payments.

Within the amount provided for Employment Service grants to States, \$12,740,000 is provided for foreign labor certification programs, and \$17,677,000 is included for administration of the Work Opportunity Tax Credit. Within the amount provided for workforce information, national electronic tools and one-stop system building, the Appropriations

Committees direct that workforce information grants to the States be funded at no less than \$32,430,000. Within the amount provided for Work Incentive Grants, the Appropriations Committees direct that all States that wish to participate in this program shall receive funding for new or continuation grants to support their disability navigator programs.

PROGRAM ADMINISTRATION

The amended bill includes \$175,387,000 for Program Administration, instead of \$170,500,000 as proposed by the House and \$185,505,000 as proposed by the Senate.

Within the amount for employment security activities, not less than \$42,225,000 is provided to improve the timeliness and quality of processing applications under the foreign labor certification program.

EMPLOYEE BENEFITS SECURITY ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes \$141,790,000 for the Employee Benefits Security Administration (EBSA), instead of \$142,925,000 as proposed by the House and \$143,262,000 as proposed by the Senate. The Appropriations Committees request a briefing on the schedule for the completion of the EFAST2 system prior to the announcement of the availability of funds for its development and also request regular progress reports on this project. The Committees are in agreement that EBSA should devote resources to the issuance of regulations on meaningful and uniform reporting of 401(k) fees and that a national education program on 401(k) investment options, fees and conflict of interest be created as described in House Report 110-231.

PENSION BENEFIT GUARANTY CORPORATION PENSION BENEFIT GUARANTY CORPORATION FUND

The amended bill includes \$411,151,000 for the administrative expenses of the Pension Benefit Guaranty Corporation, as proposed by both the House and the Senate. Language in the Senate bill providing for obligations in excess of such amount is not included.

EMPLOYMENT STANDARDS ADMINISTRATION SALARIES AND EXPENSES

The amended bill includes \$428,409,000 for the Employment Standards Administration, salaries and expenses, instead of \$436,508,000 as proposed by the House and \$438,508,000 as proposed by the Senate.

Within the amount provided for the enforcement of wage and hour standards, \$1,000,000 is provided for accelerating start-up of a system to resolve claims of injury caused by asbestos exposure. If the authority for an asbestos claims program is not enacted by June 30, 2008, these additional funds may be used to support wage and hour enforcement in low wage industries.

The amended bill includes a rescission of \$102,000,000 in unobligated funds collected pursuant to section 286(v) of the Immigration and Nationality Act. The House and the Senate proposed a rescission of \$70,000,000; however, information received from the Department of Labor indicates that receipts in this account allow a higher amount to be rescinded while still ensuring that the \$5,500,000 the Department estimates it will use in fiscal year 2008 under current authority remains available.

ADMINISTRATIVE EXPENSES, ENERGY EMPLOYEES OCCUPATIONAL ILLNESS COMPENSATION FUND

(INCLUDING TRANSFER OF FUNDS)

Within the total provided, the amended bill includes a proviso transferring \$4,500,000 to the National Institute for Occupational Safety and Health for use by the Advisory

Board on Radiation and Worker Health. While both the House and the Senate included this provision, the House report specified that the amount be in addition to \$55,358,000 identified for transfer to the Department of Health and Human Services. This explanatory statement clarifies that the \$4,500,000 for the Advisory Board on Radiation and Worker Health is a part of the total transfer amount identified in the budget request.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes \$494,641,000 for the Occupational Safety and Health Administration (OSHA), instead of \$503,516,000 as proposed by the House and \$498,445,000 as proposed by the Senate.

The Appropriations Committees believe that it is important to rebuild the Federal enforcement capacity of OSHA and that the agency should collect data needed to evaluate the effectiveness of voluntary compliance programs before additional investments are made to support this approach. The additional funds over the level requested for Federal Enforcement are intended to fund no fewer than 20 additional enforcement positions.

The amended bill includes language proposed by the House requiring the Secretary of Labor to provide detailed reports on the development and issuance of certain occupational safety and health standards that have remained on the OSHA regulatory agenda without completion. The Senate had a similar provision in its report, but not in the bill.

The Appropriations Committees expect that the Department will adhere to the instructions in House Report 110-424 relating to guidelines and enforcement actions on ergonomic injuries, standard-setting on worker protection in the event of an influenza pandemic, and occupational exposure to the chemical diacetyl in food manufacturing.

MINE SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes \$339,862,000 for the Mine Safety and Health Administration (MSHA), instead of \$340,028,000 as proposed by the Senate or \$313,478,000 as proposed by the House.

As detailed in House Report 110-424, the Appropriations Committees are disturbed that MSHA has fallen significantly short of its obligation to complete 100 percent of regular inspections of coal mines, as required by law. In 2006, almost 5 of every 100 required inspections nationally were not completed. In some districts, the rates were close to 15 or 20 of every 100 required inspections that were not completed. A similar shortfall exists in the metal/non-metal sector. The increase over fiscal year 2007 is provided to ensure that MSHA can carry out its legal obligations to regularly inspect our nation's mines. MSHA should adhere to the directions in House Report 110-424 pertaining to the submission of a detailed operating plan describing how these funds will be utilized and the specific outcomes that will be achieved.

Within the amount provided for Program Administration, \$2,200,000 is provided for a national project award to the United Mine Workers of America for classroom and simulated rescue training for mine rescue teams, and \$1,184,000 for the Wheeling Jesuit University National Technology Transfer Center.

BUREAU OF LABOR STATISTICS

SALARIES AND EXPENSES

The amended bill includes \$553,928,000 for the Bureau of Labor Statistics (BLS), instead of \$576,118,000 as proposed by the House and \$560,000,000 as proposed by the Senate.

The increase above fiscal year 2007 for Prices and Cost of Living is provided for continuous updating of the housing and geographic area samples of the Consumer Price Index (CPI). To the extent possible, the Appropriations Committees recommend that funds above the fiscal year 2007 level for Compensation and Working Conditions be used for the reinstatement of focused research studies on work-related injuries and illnesses, and request that the Department provide a plan for this activity in the fiscal year 2009 budget justification. The Appropriations Committees are also interested in ascertaining the impact of the North American Free Trade Agreement (NAFTA) on employment in the United States and expect the Department to adhere to the instructions in House Report 110-424 pertaining to a study of the implementation of NAFTA.

OFFICE OF DISABILITY EMPLOYMENT POLICY SALARIES AND EXPENSES

The amended bill includes \$27,712,000 for the Office of Disability Employment Policy (ODEP), as proposed by the House and the Senate. At least 80 percent of these funds shall be used to design and implement research and technical assistance grants and contracts to develop policy that reduces barriers to employment for youth and adults with disabilities. The Appropriations Committees also expect the Department to adhere to the directions in House Report 110-424 concerning a report on the extent to which effective disability employment policy developed by the ODEP has been implemented within the Department of Labor and by other Federal agencies.

DEPARTMENTAL MANAGEMENT SALARIES AND EXPENSES

The amended bill includes \$297,064,000 for Departmental Management, salaries and expenses, instead of \$272,595,000 as proposed by the House and \$313,218,000 as proposed by the Senate.

The amended bill includes \$82,516,000 for the International Bureau of Labor Affairs (ILAB). Within this amount, \$5,000,000 is provided to implement model programs to address worker rights through technical assistance in countries with which the United States has trade preference programs and directs that this activity be carried out through a cooperative agreement with an international organization that has experience in working to assure adherence to a set of core labor standards through work with governments, employers and labor organizations. The Appropriations Committees believe that a component of this new program should first be implemented in the Republic of Haiti, at a funding level of not less than \$1,000,000. As a demonstration of the investment of the private sector and the government in Haiti in the project, an adequate cost-share from Haitian sources should also be committed before the initiation of the project. The program in Haiti will develop a system of monitoring and transparent public reporting on the adherence and enforcement of worker rights, based on the approach used in the successful International Labor Organization (ILO) Garment Sector Working Conditions Improvement Project in Cambodia. This multi-year program should improve working conditions in Haiti's garment industry, while increasing compliance with core international labor standards. The Department of Labor shall report to the Committees no later than June 30, 2008 on the progress of implementing the cooperative agreement covering Haiti and other countries with which the U.S. has trade agreements.

The recommendation for ILAB also includes \$41,000,000 for the U.S. contribution to

the International Program for the Elimination of Child Labor and \$24,000,000 for bilateral assistance to improve access to basic education in international areas with a high rate of abusive and exploitative child labor. The Department should also adhere to the directions in House Report 110-424 concerning cooperation with the ILO on the implementation of standards in the garment industry in India.

The funds provided for information technology systems support information technology, architecture, infrastructure, equipment and software utilized by multiple agencies within the Department. The Appropriations Committees support the use of a portion of such funds for the acquisition of a Financial Management System for the Department of Labor. The President's request to Congress included \$12,000,000 as a direct appropriation to the Working Capital Fund for this initiative.

The increased funding level over fiscal year 2007 for the Office of the Solicitor is intended to support no less than an increase of 17 FTEs for enforcement support for the Mine Safety and Health Administration.

For the Women's Bureau, \$9,832,000 is provided, instead of \$10,500,000 as proposed by the House and \$10,300,000 as proposed by the Senate. Continued funding for national networks for women's employment that advance women in the workplace through education and advocacy is encouraged.

OFFICE OF JOB CORPS

The amended bill funds this program within the Office of the Secretary as proposed by the House and the Senate. This reflects the current organizational status of the program, and the funds for the administration of this program are included in this account instead of within program administration for the Employment and Training Administration.

The \$12,920,000 provided above the request for the renovation and construction of Job Corps centers is included for the continued development of new Job Corps centers that have been awarded and are not yet completed. The Appropriations Committees request that the Department of Labor include an analysis of the future funding needs of all new centers in development and a progress report on the timeline for opening new centers in its fiscal year 2009 budget justification, as proposed by the Senate.

The Appropriations Committees believe that significant programmatic changes to Job Corps operations and student services should not be made prior to the reauthorization of the Workforce Investment Act. It may be appropriate to pilot any new initiatives at select Job Corps centers and provide the appropriations and authorizing committees evidence and data that such changes will improve Job Corps performance and students' employment and earnings outcomes prior to national implementation. In consultation with system stakeholders, the Department should develop a national recruitment and retention strategy that will ensure current student training slots are fully utilized. In order to ensure that the Job Corps program maximizes opportunities for participation, the amended bill includes language providing that none of the funds in the Act be used to reduce student training slots below the current level of 44,491 in program year 2008. The House and Senate included similar slot protection provisions.

VETERANS EMPLOYMENT AND TRAINING

The amended bill includes \$232,153,000 for Veterans Employment and Training, instead of \$228,198,000 as proposed by the House and \$231,198,000 as proposed by the Senate. The Appropriations Committees encourage the Department to direct additional funds to the

Transition Assistance Program, which will ensure that the increasing demand for services is met. The Committees also expect the Department to increase enforcement activities to ensure that veterans' rights under the Uniformed Service Employment and Re-Employment Rights Act and Veterans Employment Opportunities Act are being protected.

OFFICE OF INSPECTOR GENERAL

The amended bill includes \$75,713,000 for the Office of Inspector General, instead of \$78,658,000 as proposed by the House and \$79,658,000 as proposed by the Senate.

GENERAL PROVISIONS

JOB CORPS SALARIES

The amended bill includes language that prohibits the use of funds for the Job Corps program to pay the salary of any individual, either as direct costs or any pro-rata as an indirect cost, at a rate in excess of Executive Level I, as proposed by the Senate. The House included a similar provision in the Job Corps account.

ONE PERCENT TRANSFER AUTHORITY

(TRANSFER OF FUNDS)

The amended bill includes a provision limiting the authority to transfer funds between a program, project or activity and requiring a 15 day advance notification of any such request. Both the House and Senate bills contained similar provisions.

TRANSIT SUBSIDIES

The amended bill includes a provision requiring the Secretary of Labor to issue a monthly transit subsidy at the full amount of \$110 for eligible employees in the National Capital Region, as proposed by the House. The Senate bill contained no similar provision.

OPERATING PLAN

The amended bill includes a provision prohibiting the obligation of funds for demonstration, pilot, multiservice, research and multistate projects under section 171 of the Workforce Investment Act prior to the submission of a report on the planned use of such funds, as proposed by the House. The Senate had a similar provision requiring an operating plan for the use of such funds. Specific instructions pertaining to this provision are included in House Report 110-424.

DENALI COMMISSION

The amended bill includes a provision, as proposed by the Senate that authorizes such sums as may be necessary to the Denali Commission to conduct job training where Denali Commission projects will be constructed. The House bill contained no similar provision.

GRANTS USING H-1B VISA REVENUE

The amended bill includes a provision that prohibits the use of the funds available to the Department under section 414(c) of the American Competitiveness and Workforce Improvement Act for other than training in the occupations and industries for which employers are using the visas to hire foreign workers that generate these funds. The Department should ensure that funded activities include industry career ladder programs and understand that there are some related activities that enhance or facilitate training programs that are part of a coordinated industry approach. The amended bill provides that this limitation shall not apply to multi-year grants that have been awarded prior to June 30, 2007, to account for three rounds of Workforce Innovation in Regional Economic Development (WIRED) grants. The House bill contained a similar provision.

COMPETITIVE GRANTS

The amended bill includes a provision prohibiting Community-Based Job Training

grants and grants authorized under section 414(c) of the American Competitiveness and Workforce Improvement Act from being awarded on a non-competitive basis. Both the House and Senate bills included similar provisions.

ADMINISTRATIVE COST DEFINITION AND REDESIGNATION OF LOCAL AREAS

The amended bill includes a provision requiring that the Secretary of Labor take no action to amend the definition established in 20 CFR 667.220 for functions and activities under title I of the Workforce Investment Act of 1998 or to modify the procedure for designation of local areas as specified in that Act until such time as legislation reauthorizing the Act is enacted, as proposed by the Senate. The House bill contained a similar provision.

MINE SAFETY REGULATIONS

The amended bill includes language requiring specific dates by which the Secretary of Labor propose, and subsequently finalize, mine safety regulations regarding belt haulage entries and rescue chambers in coal mines, and makes additional requirements for review of mine ventilation plans. The Senate bill included a similar provision, while the House bill did not include such a provision.

SALARIES AND BONUSES

The amended bill includes a provision proposed by the Senate that prohibits grantees from using funds appropriated for the Employment and Training Administration to pay the salary and bonuses of an individual at a rate in excess of Executive Level II. The House bill contained no similar provision.

NATIONAL EMERGENCY GRANT ASSISTANCE TO GREENSBURG, KANSAS

The amended bill includes language to enhance the federal government's response to the May 4 tornado in Greensburg, Kansas

which is intended to deal only with the specific circumstances of this community. This devastating tornado has created a unique problem that requires relief from certain rules that would otherwise apply to the use of national emergency grant funds. This flexibility will enable funds to be used to pay for certain professional municipal services. The Appropriations Committees understand that \$2,500,000 is planned to be spent for these purposes, and request notification and justification from the Department if a greater amount is required. This provision was included in the Senate Homeland Security Appropriations bill.

HEALTH COVERAGE TAX CREDIT GAP-FILLER GRANTS

The amended bill does not include a provision included in the House bill authorizing up to \$20,000,000 in revenue available to the Department under section 414 (c) of the American Competitiveness and Workforce Improvement Act to be used for "gap-filler" grants to trade-impacted workers awaiting certification for the Health Coverage Tax Credit. The Senate bill contained no similar provision. The Department of Labor should make grants available to States from the Dislocated Worker National Reserve for this purpose and to increase outreach to trade-impacted workers to inform them of their eligibility for the Health Coverage Tax Credit.

PERSONAL PROTECTIVE EQUIPMENT

The amended bill deletes a provision included in the House bill and previous conference report to require the Secretary of Labor to promulgate a final rule on employer payment for personal protective equipment no later than November 30, 2007. This provision is no longer needed because the final rule was adopted by the Department of Labor on November 15, 2007. The Appropriations Committees will continue to

monitor the Department's implementation of the final rule to ensure that it is fully implemented and enforced and that there are no attempts to weaken the level of protection afforded workers.

MINE SAFETY FUNDING

The amended bill does not include a general provision proposed by the Senate providing additional funding for necessary expenses for the Mine Safety and Health Administration (MSHA). Funding for MSHA is included under the heading for this agency. The House bill contained no similar provision.

NIOSH FIRE FIGHTER PROGRAM

The amended bill does not include a general provision proposed by the Senate providing that \$5,000,000 be available in Title I for the National Institute for Occupational Safety and Health (NIOSH) to carry out the Fire Fighter Fatality Investigation and Prevention Program. Funding for this activity is included within the funds made available to NIOSH in Title II. The House bill contained no similar provision.

TITLE II—DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH RESOURCES AND SERVICES ADMINISTRATION

HEALTH RESOURCES AND SERVICES

The amended bill includes \$7,003,099,000 for health resources and services, of which \$6,978,099,000 is provided as budget authority and \$25,000,000 is made available from the Public Health Service policy evaluation set-aside, instead of \$7,086,709,000 as proposed by the House and \$6,888,810,000 as proposed by the Senate.

The amended bill includes funds within health care-related facilities and activities to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
A.O. Fox Memorial Hospital, Oneonta, NY for facilities and equipment	243,000
Access Community Health Network, Chicago, IL for facilities and equipment for Chicago sites	219,000

The amended bill does not include bill language proposed by the Senate earmarking \$250,000 for the Center for Asbestos Related Disease (CARD) Clinic in Libby, Montana. The House bill did not contain similar language.

The amended bill includes language identifying \$40,000,000 for base grant adjustments for existing community health centers as proposed by the Senate instead of \$35,000,000 as proposed by the House.

The amended bill includes language contained in the Senate bill permitting funding appropriated for the free clinics program to be used for relevant evaluations as well as for administrative expenses. The House bill included no similar provision.

The amended bill includes language designating \$44,055,000 for expenses associated with extending Federal Tort Claims Act protection to practitioners in community health centers as proposed by the Senate instead of \$45,000,000 as proposed by the House.

The amended bill includes language providing \$1,854,800,000 for Parts A and B of the Ryan White HIV/AIDS Treatment Modernization Act, to be available through September 30, 2010, instead of \$1,865,800,000 as proposed by the House and \$1,829,511,000 as proposed by the Senate.

The amended bill modifies bill language proposed by the House limiting 2007 program year reductions in Ryan White Part A grants for metropolitan areas and transitional areas. The Senate bill did not have a similar provision.

The amended bill includes the following set-asides within the maternal and child health (MCH) block grant:

Within this amount, first-time motherhood funding shall be for grants to States to increase public awareness of resources available to women preparing for childbirth and new parents through advertising campaigns and toll-free hotlines. Doula grants shall be for organizations to support and expand community-based doula activities, including technical assistance.

In addition to the SPRANS funding above for oral health activities, an additional \$5,000,000 is provided for Dental Health Improvement Act State grants (authorized under section 340G of the Public Health Service Act) within allied health.

The amended bill includes language proposed by the Senate that identifies not less than \$5,000,000 for general dentistry programs, not less than \$5,000,000 for pediatric dentistry programs, and not less than \$24,614,000 for family medicine programs.

The amended bill does not include language proposed by the Senate that would modify the current rules for managing facility and equipment projects. The House bill did not include a similar provision.

The Appropriations Committees support continued efforts to expand the community

health centers program into areas of the country without access to a health center, but urge HRSA not to allocate new funding according to certain geographic areas, such as counties.

The amended bill provides \$14,200,000 for Native Hawaiian health care activities within the consolidated health centers program as proposed by the Senate. The House did not identify specific funding for Native Hawaiian activities.

HRSA should use National Health Service Corps recruitment funds only to support multi-year, rather than single year, commitments, as directed by the Senate.

Of the funds provided for allied health training programs, \$5,000,000 is for grants to States authorized under section 340G of the Public Health Service Act to improve access to dental care, \$1,980,000 is allocated to the chiropractic-medical school demonstration grants, and \$1,980,000 is designated for the psychology training program.

Within the funding provided for autism and other related developmental disorders, an increase of no less than \$6,000,000 is provided to continue and expand the Leadership Education in Neurodevelopmental and Related Disabilities program. In addition, an increase of no less than \$6,000,000 is provided for research on evidence-based practices for interventions for individuals with autism and other developmental disabilities, for development of guidelines for those interventions, and for information dissemination.

The amended bill provides \$3,000,000 within traumatic brain injury funding for protection and advocacy services, instead of \$3,400,000 as identified in the Senate report. The House report did not have similar language.

The Appropriations Committees are pleased that HRSA intends to allocate the maximum authorized level for the minority AIDS initiative within the Ryan White HIV programs.

At least fifty percent of the increase within the Ryan White children, youth, women, and families programs should be used to increase average grant award size.

The Appropriations Committees are aware that HRSA has issued proposed regulations revising the requirements for the 340B drug purchasing program. While there are important elements in the regulations that target abuses of the program, there are legitimate concerns regarding the implementation of the proposed rule's definition of patient eligibility. The questions of eligibility and the means by which eligibility is determined are important and should be carefully considered. Therefore, HRSA should move quickly to implement the portions of the regulation that enjoy wide support and consider reopening the patient eligibility question for an additional public comment period. The House and Senate included similar report language.

Within funding provided for rural flexibility grants, the amended bill provides \$15,000,000 for the small rural hospital improvement grant program as proposed by the Senate.

The Appropriations Committees concur with guidance in the Senate report regarding the 2006 Delta health initiative satisfying the requirements of the authorization provided in section 219. The House report did not contain similar language.

The amended bill does not include funding within the rural and community access to emergency devices program to establish an information clearinghouse that provides information to increase public access to defibrillation in schools, as proposed by the Senate. Funding for emergency devices should be divided equally between urban and rural communities, as proposed by the Senate. The House bill had no similar language.

Many rural hospitals are working to implement systems to transmit medical information electronically to help deliver efficient and effective health care services to their patients. HRSA is encouraged to continue to examine ways to help such hospitals implement digital technologies, such as picture archiving communications systems and other digital technologies.

HRSA should use no more than one percent of the funds allocated for projects for agency administrative expenses.

VACCINE INJURY COMPENSATION PROGRAM TRUST FUND

The conference agreement provides \$5,500,000 for administration for the Trust Fund instead of \$3,528,000 as proposed by both the House and the Senate. These funds are necessary to support the adjudication of an expected high volume of claims.

CENTERS FOR DISEASE CONTROL AND PREVENTION

DISEASE CONTROL, RESEARCH, AND TRAINING

The amended bill includes \$6,156,541,000 for disease control, research, and training at the Centers for Disease Control and Prevention (CDC), instead of \$6,138,253,000 as proposed by the House and \$6,165,338,000 as proposed by the Senate. In addition, \$325,673,000 is made available under section 241 of the Public Health Service (PHS) Act, instead of \$319,579,000 as proposed by the House and \$269,664,000 as proposed by the Senate.

The amended bill includes language directing CDC to enter into a single contract or related contracts for the full scope of development and construction of the next facility designated by the CDC Building and Facilities Master Plan and that the solicitation and contract shall contain the clause "availability of funds". The Appropriations Committees intend that the contract(s) for the development and construction of the new facility be awarded in fiscal year 2008. Similar language was proposed by the Senate. The House did not propose similar language.

The amended bill includes language designating \$109,000,000 to provide screening and treatment for first response emergency services personnel, residents, students, and others related to the September 11, 2001 terrorist attacks on the World Trade Center (WTC). Bill language is included designating \$56,500,000 as an emergency. The Appropriations Committees intend that this program be administered by the National Institute of Occupational Safety and Health (NIOSH). The House proposed \$50,000,000 in CDC for first response emergency personnel only and the Senate proposed \$55,000,000 in the Public Health and Social Services Emergency Fund (PHSSEF) to be transferred to CDC for responders, residents, students and others.

The amended bill includes language designating \$113,636,000 for the National Center for Health Statistics surveys to be available through the evaluation set-aside authorized by section 241 of the PHS Act, instead of \$120,000,000 as proposed by the House and \$108,585,000 as proposed by the Senate. Also within the set-aside, the amended bill includes \$48,523,000 for Health Marketing instead of \$39,173,000 as proposed by the House and \$463,000 for health marketing evaluations as proposed by the Senate.

The amended bill includes language that not to exceed \$18,929,000 may be available for making grants for the WISEWOMAN program to not less than 15 States, tribes, or tribal organizations. The Senate proposed \$19,035,000 in this same manner and the House proposed \$12,500,000 to not more than 15 States, tribes, or tribal organizations.

The amended bill includes language that out of the funds made available for domestic HIV/AIDS testing, up to \$30,000,000 shall be

for States eligible for the Early Diagnosis Grant Program, authorized by section 2625 of the Public Health Service Act, as of December 31, 2007. Funding for these grants shall be distributed by May 31, 2008 based on standard criteria relating to a State's epidemiological profile and shall not exceed \$1,000,000 for any one State. Any amounts that have not been obligated by May 31, 2008 shall be used to make grants to States and local public health departments for other HIV prevention activities. The House proposed that no funds appropriated may be used to implement the Early Diagnosis Grant Program and the Senate proposed to allow up to \$30,000,000 for the program if States are eligible.

The amended bill includes language providing that employees of the CDC or the Public Health Service, detailed to States, municipalities, or other organizations under authority of section 214 of the PHS Act or in overseas assignments shall be treated as non-Federal employees for reporting purposes only and shall not be included within any personnel ceiling applicable to the Agency as proposed by the Senate. The House included similar language but did not include employees in overseas assignments.

The amended bill includes ongoing pandemic influenza and related activities in the CDC appropriation as proposed by the House. The Senate proposed to fund these activities in PHSEF to be transferred to CDC. The total amount available in the amended bill for CDC's ongoing pandemic influenza activities totals \$157,737,000 and are detailed later in this explanatory statement.

The Appropriations Committees note that in September 2007, CDC realigned its budget through a reprogramming and transfer of funds at the program, project, and activity level. The Secretary communicated his intent that the realignment of funds be permanent. Funding levels proposed in the House and Senate-passed bills did not reflect these changes because the request for reprogramming came after initial House and Senate Committee action on the fiscal year 2008 appropriations bills. Funding levels provided in the amended bill make the funding realignment permanent. CDC is expected to adhere to enacted funding levels in fiscal year 2008 and to not tap or assess program activities for unrelated purposes. For purposes of displaying accurate comparability, the following House and Senate funding levels identified in the CDC portion of the explanatory statement have been adjusted to account for this funding realignment.

INFECTIOUS DISEASES

Immunization and respiratory diseases

Within the total for Infectious Diseases, the amended bill includes a program level total of \$595,306,000 for immunization and respiratory diseases instead of \$628,585,000 as proposed by the House and \$520,076,000 as proposed by the Senate.

Within the total for immunization and respiratory diseases, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Section 317 Immunization Program	\$509,587,000	\$450,837,000	\$476,334,000
Program Operations	81,700,000	81,726,000	61,967,000

Stock of Diagnostic Reagents for Influenza	14,849,000	15,000,000	14,849,000

HIV/AIDS, Viral Hepatitis, STD, and TB Prevention

Within the total for Infectious Diseases, the amended bill includes \$1,019,948,000 for HIV/AIDS, Viral Hepatitis, STD, and TB prevention, instead of \$1,034,625,000 as proposed by the House and \$1,012,513,000 as proposed by the Senate.

Within the total for HIV/AIDS, Viral Hepatitis, STD, and TB prevention, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Domestic HIV/AIDS Activities	\$712,867,000	\$695,454,000	\$704,161,000
Domestic HIV/AIDS Testing	62,321,000	44,321,000	53,321,000
Viral Hepatitis	18,354,000	17,354,000	17,895,000
Tuberculosis	148,367,000	144,668,000	142,855,000

Zoonotic, Vector-borne, and Enteric Diseases

Within the total for Infectious Diseases, the amended bill includes \$69,052,000 for zoonotic, vector-borne, and enteric diseases as proposed by the Senate, instead of \$69,324,000 as proposed by the House.

Preparedness, Detection, and Control of Infectious Diseases

Within the total for Infectious Diseases, the amended bill includes \$152,591,000 for preparedness, detection, and control of infectious diseases, instead of \$161,123,000 as proposed by the House and \$153,591,000 as proposed by the Senate.

Within the total for preparedness, detection, and control of infectious diseases, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Antimicrobial Resistance	\$18,968,000	\$17,220,000	\$17,220,000
All Other Emerging Infectious Diseases	139,382,000	133,598,000	132,598,000

HEALTH PROMOTION

Chronic Disease Prevention, Health Promotion, and Genomics

Within the total for Health Promotion, the amended bill includes \$848,653,000 for chronic disease prevention, health promotion, and genomics instead of \$859,243,000 as proposed by the House and \$842,944,000 as proposed by the Senate.

Within the total for chronic disease prevention, health promotion, and genomics, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Heart Disease and Stroke	\$47,993,000	\$49,993,000	\$50,993,000
Mississippi Delta Region	0	2,000,000	1,500,000

The additional funds for the heart disease and stroke Mississippi Delta program will enable an expansion of these activities throughout the Mississippi Delta region as proposed by the Senate. The House did not propose similar language.

Funding is available to continue and expand the National Lupus Patient Registry to operate seven sites, including a coordinating site. The Appropriations Committees are concerned by the lack of reliable epidemiological data on the incidence and prevalence of all forms of lupus among various ethnic and racial groups. These sites should have an expertise in lupus epidemiology and represent the geographic regions of the U.S. that have a sufficient number of individuals of racial and ethnic groups that are disproportionately affected by lupus, principally African Americans, Hispanics/Latinos, Asian Americans, and Native Americans.

The increase for the Office of Smoking and Health should be used to support a stepped up effort by the Environmental Health Laboratory to analyze tobacco products and cigarette smoke as proposed by the Senate. The House did not propose similar language.

Sufficient funds are included for CDC to conduct a study of the impact of school nutrition and physical activity programs on academic outcomes as proposed by the Senate. The House did not propose similar language.

Funding is for the National Academy of Sciences' Institute of Medicine to examine and make recommendations regarding various means that could be employed to reduce dietary sodium intake to levels recommended by the Dietary Guidelines for Americans as proposed by the Senate. The House did not propose similar language.

Funding is included within community health promotion for activities related to sleep disorders including CDC's participation in the national sleep awareness roundtable as proposed by the House. The Senate did not propose similar language.

Funding is included to develop a policy to manage the risk of food allergies and anaphylaxis in schools and to provide parents with enhanced information on these conditions via the Internet as proposed by the House. The Senate did not propose similar language.

Birth Defects, Developmental Disabilities, Disability and Health

Within the amount available for Health Promotion, the amended bill includes \$129,631,000 for birth defects, developmental

disabilities, disability and health instead of \$130,311,000 as proposed by the House and \$126,274,000 as proposed by the Senate.

Within the total for birth defects, developmental disabilities, disability and health, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Birth Defects and Developmental Disabilities	\$37,968,000	\$37,941,000	\$38,247,000
Craniofacial Malformation	1,378,000	1,578,000	1,578,000
Alveolar Capillary Dysplasia	0	0	250,000
Folic Acid	2,431,000	2,204,000	2,260,000
Human Development and Disability	71,694,000	68,500,000	71,601,000
Tourette Syndrome	1,927,000	1,924,000	1,749,000
Early Hearing Detection and Intervention	10,305,000	6,317,000	10,047,000
Muscular Dystrophy	6,929,000	6,387,000	6,287,000
Paralysis Resource Center	5,829,000	6,329,000	5,829,000
Attention Deficit/Hyperactivity Disorder	1,858,000	1,787,000	1,777,000
Fragile X	947,000	1,860,000	1,860,000
Spina Bifida	5,437,000	5,434,000	5,298,000
Autism	16,208,000	16,208,000	16,500,000
Blood Disorders	20,649,000	19,833,000	19,783,000

Within the total for environmental health, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Environmental Health Laboratory	\$39,888,000	\$27,397,000	\$34,397,000
Newborn Screening Quality Assurance	7,000,000	0	7,000,000
Newborn Screening for Severe Combined Immunodeficiency Disease	0	1,000,000	1,000,000
Environmental Health Activities	55,720,000	56,010,000	56,292,000
Arctic Health	0	297,000	297,000
Volcanic Emissions	0	99,000	100,000
Environmental and Health Outcome Tracking Network	26,080,000	23,674,000	24,255,000
National Amyotrophic Lateral Sclerosis Registry ..	871,000	2,871,000	2,871,000
Landmine Survivors	4,075,000	4,375,000	4,075,000

Within the funds provided for the Environmental Health Laboratory, CDC is encouraged to provide funding for States with existing biomonitoring programs to expand laboratory capacity; conduct subpopulation studies; conduct representative analyses of routinely collected blood, cord blood and other biospecimens; develop protocols for conducting biomonitoring of sensitive subpopulations such as children; and support biomonitoring field operations such as participant enrollment, sample collection, data analysis, report generation and results communications. CDC also is encouraged to begin developing new methods for identifying chemical sources and routes of exposure using model exposure questionnaires and collection of relevant household and other environmental samples.

Within the funds provided for the environmental and health outcome tracking network, CDC is encouraged to make funding available to State environmental health tracking programs to develop replicable models for disease, hazard and exposure data sharing at the local, State and national levels that incorporate data confidentiality protections. CDC is further encouraged to include non-governmental organizations representing health-affected constituencies, environmental health and environmental justice in their advisory groups.

The funds included for the amyotrophic lateral sclerosis registry are intended to ex-

pand the registry to include other neurodegenerative disorders.

Injury Prevention and Control

Hemophilia	\$17,899,000	\$17,033,000	\$17,033,000
Cooley's Anemia	1,893,000	1,943,000	1,893,000

Funds are included for the development and distribution of awareness materials on alveolar capillary dysplasia (ACD) to neonatologists and intensive care pediatricians to assist in the proper diagnosis of ACD. Neither the House nor the Senate proposed funding for these activities. The Appropriations Committees are aware of a congenital malformation of the lungs affecting infants, known as ACD, in which the normal diffusion process of oxygen from the air sacs to the blood in the lungs fails to develop properly. Life expectancy for infants with ACD is extremely short, and anecdotal evidence indicates that ACD is often misdiagnosed. Proper recognition and diagnosis of the disease are essential first steps to obtaining accurate prevalence data for ACD.

HEALTH INFORMATION AND SERVICE

Within the program level total for health information and service, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Health Statistics	\$118,121,000	\$114,979,000	\$113,636,000
Public Health Informatics	95,815,000	73,764,000	95,720,000
Vaccine Registry	14,550,000	15,000,000	14,550,000
Real-time Assessment and Evaluation of Flu Interventions	9,867,000	10,000,000	9,867,000
Health Marketing	90,512,000	94,330,000	90,722,000

Included within the amount for health statistics is an additional \$200,000, as proposed by the House, to make necessary improvements to the National Survey of Family Growth. The Senate did not propose similar language.

Within the total for public health informatics is \$325,000, as proposed by the House, to continue to fund the establishment of a nationwide database of contact information for practicing physicians that can be used by Federal agencies and State and local health departments in the event of a public health emergency. The Senate did not propose similar language.

ENVIRONMENTAL HEALTH AND INJURY PREVENTION

Environmental Health

Within the total for Environmental Health and Injury Prevention, the amended bill includes \$157,233,000 for environmental health instead of \$162,152,000 as proposed by the House and \$149,951,000 as proposed by the Senate.

Within the funds provided for Environmental Health and Injury Prevention, the amended bill includes \$137,234,000 for injury prevention and control, instead of \$137,647,000 as proposed by the House and \$145,204,000 as proposed by the Senate.

Within the total for injury prevention and control the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Youth Violence Prevention	\$23,681,000	\$25,663,000	\$23,681,000
Rape Prevention	42,763,000	44,698,000	42,763,000
Traumatic Brain Injury	5,724,000	6,195,000	5,811,000

Within the funds provided, sufficient funds are included to support an additional injury control research center that will conduct research on injury and injury prevention related to children and adolescents, as proposed by the House. The Senate did not propose similar language.

OCCUPATIONAL SAFETY AND HEALTH

Within the program level total for occupational safety and health, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Personal Protective Technology	\$12,732,000	\$13,648,000	\$13,032,000
National Occupational Research Agenda	113,243,000	104,595,000	110,154,000
World Trade Center	50,000,000	55,000,000	109,000,000
Mining Research	25,200,000	49,200,000	50,000,000
Miner's Choice Health Screening	352,000	652,000	652,000
National Mesothelioma Registry and Tissue Bank	1,007,000	1,107,000	1,007,000

The total provided for the NIOSH includes sufficient funding to maintain staffing levels at the Morgantown facility and to increase research funding at that facility as proposed by the Senate. Funding also is included to continue the farm health and safety initiative as proposed by the Senate. The House did not propose either of these programs.

For the mining research program, the Appropriations Committees expect that additional funding will ensure that the mine safety research agenda in areas such as dust monitoring, roof control, and disaster prevention are not abandoned. As proposed by the Senate, NIOSH is directed to expand the required progress reports on grant-making and research findings for research goals such as dust monitoring, roof control, and disaster prevention. The House did not propose such language.

The amended bill includes sufficient funds for NIOSH to conduct, in collaboration with the University of Utah and West Virginia University, a study of the recovery of coal pillars through retreat room and pillar mining practices in underground coal mines at depths greater than 1500 feet. The study should examine the safety implications of retreat room and pillar mining practices, with emphasis on the impact of full or partial pillar extraction mining. The study should include, but not be limited to, analyses of (1) the conditions under which retreat mining is used, including conditions relating to seam thickness; depth of cover; strength of the mine roof, pillars, and floor; and the susceptibility of the mine to seismic activity; and (2) the procedures used to ensure miner safety during retreat mining. NIOSH is directed to submit a report, not later than two years after beginning the study, containing the results of the study to the Committees on Appropriations of the House of Representatives and the Senate. The report shall include recommendations to enhance the safety of miners working in underground coal mines where retreat mining in room and pillar operations is utilized. Among other things, the recommendations should identify means of adapting any practical technology to the mining environment to improve miner protections during mining at depths greater than 1500 feet, and research needed to develop improved technology to improve miner protections during mining at such depths.

GLOBAL HEALTH

Within the funds provided for global health, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Global AIDS Program	\$120,985,000	\$120,985,000	\$121,541,000
Rapid Outbreak Response for High Priority Countries	17,740,000	18,000,000	17,740,000
Human-Animal Interface Studies	3,960,000	4,000,000	3,960,000
International Surveillance, Diagnosis, and Epidemic Investigations	47,339,000	48,000,000	47,339,000

TERRORISM PREPAREDNESS AND RESPONSE

Within the funds provided for terrorism preparedness and response, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Upgrading State and Local Capacity	\$772,266,000	\$805,556,000	\$759,304,000

NATIONAL INSTITUTES OF HEALTH

The amended bill includes \$29,748,241,000 for the 26 accounts that comprise the National Institutes of Health total appropriation instead of \$29,669,712,000 as proposed by the House and \$29,899,887,000 as proposed by the Senate. Appropriation levels for individual institutes and centers are described in the table at the end of this explanatory statement. Guidance for specific institutes and centers is provided below.

NATIONAL CANCER INSTITUTE

The National Cancer Institute is urged to fund a study of the Trinity nuclear test that estimates the number of fatal and non-fatal radiogenic illnesses compared to a baseline of what would be expected to occur naturally in the surrounding community.

NATIONAL INSTITUTE OF DIABETES AND DIGESTIVE AND KIDNEY DISEASES

NIDDK is encouraged to conduct hemodialysis clinical trials on a regular basis that produce the optimum benefit for patients.

NATIONAL CENTER FOR RESEARCH RESOURCES

The amended bill does not include language proposed by the Senate regarding the prohibition of funds to pay indirect expenses for general research support grants. This provision is no longer necessary. The House bill did not contain a similar provision.

The amended bill provides funding for clinical and translational science awards divided between the Common Fund and NCRR in the same proportion as the Senate-passed bill. The Appropriations Committees remain supportive of this program as it matures, but are concerned about the abrupt changes in program funding policies implemented in 2007.

The amended bill provides \$220,500,000 for the Institutional Development Award (IDeA) program, rather than \$223,607,000 as proposed by the Senate. The House had not identified specific funding for this program.

OFFICE OF THE DIRECTOR

The amended bill provides \$25,000,000 in bill language for the flexible research authority authorized in section 215 of this Act as proposed by the Senate instead of \$14,000,000 as proposed by the House.

The amended bill provides \$112,872,000 for continuation of the National Children's Study instead of \$110,900,000 as proposed by both the House and the Senate.

The amended bill does not include language proposed by the House regarding the amount identified for the Common Fund being in addition to funds allocated by the institutes for activities that are related to Fund activities. The Senate bill did not have similar language.

The amended bill does not include language proposed by both the House and the Senate limiting the funding for the Foundation for the National Institutes of Health to \$500,000. The amended bill permits NIH the flexibility to determine the funding to be transferred to the Foundation within the limits set by the authorizing statute.

The amended bill provides funding for a low percent increase in the average cost of new as well as non-competing grants. The Senate report indicated that sufficient funds

were included to pay full committed levels on existing grants and to provide a three percent increase in the average cost of new grants. The House report provided sufficient funding for a two percent increase in the average cost of new grants, but did not include an assumption about commitment levels for existing grants.

The amended bill provides the same funding as the fiscal year 2007 level for the Director's Pioneer awards, New Innovator awards, and Bridge awards. Funding for the Pathways to Independence program, which is funded through all institutes and centers, is funded at the President's fiscal year 2008 request level. The House provided similar amounts for these programs. The Senate provided similar amounts for all the programs except Pathways to Independence, for which the Senate did not identify a funding level. The amended bill includes \$96,030,000 for research on chemical, radiological and nuclear countermeasures instead of \$95,310,000 as proposed by the House and \$96,130,000 as proposed by the Senate.

The amended bill provides up to \$10,000,000 for the Director's Discretionary Fund as proposed by the House. The Senate did not specifically identify funding for the Discretionary Fund.

As required in the House report, NIH is required to notify the House and Senate Appropriations Committees each time the Director uses the one percent transfer authority provided in the NIH reauthorization.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES

The amended bill includes \$3,414,206,000 for substance abuse and mental health services, of which \$3,291,543,000 is provided through budget authority and \$122,663,000 is provided through the evaluation set-aside. The House proposed \$3,393,841,000 for the Substance Abuse and Mental Health Services Administration (SAMHSA), of which \$120,913,000 was from the evaluation set-aside and the Senate proposed \$3,404,798,000, of which \$126,663,000 was from the evaluation set-aside.

The amended bill includes language, as proposed by the Senate, that permits a State to receive more than one grant or cooperative agreement for youth suicide early intervention and prevention strategies. The House did not propose similar language.

Within the total provided, the amended bill includes \$114,880,000 for activities throughout SAMHSA that are targeted to address the growing HIV/AIDS epidemic and its disparate impact on communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders. The House proposed \$128,514,000 for these activities. The Senate did not include similar language.

Within the total provided, the amended bill includes \$56,916,000 for activities throughout SAMHSA to address the needs of the homeless. The House proposed \$57,123,000 for these activities. The Senate did not include similar language.

Within the total provided, the amended bill includes \$3,520,000 for treatment programs for mental illness and substance abuse

for tribes and tribal organizations instead of \$4,070,000 as proposed by the House. The Senate did not propose similar language.

Center for Mental Health Services

Within the total provided for mental health programs of regional and national significance, the amended bill includes \$94,656,000 to continue and expand violence prevention programs in schools, including the Safe Schools/Healthy Students interdepartmental program, instead of \$96,156,000 as proposed by the House and \$93,156,000 as proposed by the Senate. Included within this amount, the amended bill provides \$1,500,000 for a jointly funded initiative administered by the Department of Education and SAMHSA to support competitive grants to institutions of higher education to develop and implement emergency management plans for preventing campus violence. The House proposed \$3,000,000 for this initiative. The Senate did not propose similar language.

Within the total for mental health programs of regional and national significance, the amended bill includes \$33,680,000 for the National Child Traumatic Stress Initiative instead of \$32,360,000 as proposed by the House and \$35,000,000 as proposed by the Senate. In funding new grants, SAMHSA is directed to give high priority to centers providing services in areas impacted by Hurricanes Katrina and Rita and who have previous experience in providing such services.

Within the total for mental health programs of regional and national significance, the amended bill includes \$7,500,000 for a wellness initiative, instead of \$15,000,000 as proposed by the Senate, to assist local communities in the coordination and improvement of the integration of behavioral/mental and physical health services. In carrying out this wellness initiative, SAMHSA is expected to collaborate with HRSA and CDC. The Appropriations Committees intend that funding provided will allow local communities to undertake a range of prevention and health promotion activities and expect that grantees must be able to evaluate the success of the program based on their ability to provide evidence-based services. The House did not propose funding for this initiative.

For programs addressing youth suicide prevention and early intervention programs within the mental health programs of regional and national significance, the amended bill includes the following amounts as proposed by the Senate: \$30,000,000 for grants to States and tribes; \$5,000,000 for campus-based programs; and, \$5,000,000 for the Suicide Prevention Resource Center. The House did not include similar language.

The Center for Mental Health Services is expected to support multi-year grants to five consumer and consumer-supported national technical assistance centers as proposed by the Senate. The House did not propose similar language. The amended bill also provides funding at last year's level for the consumer-run statewide networking grants.

The amended bill includes funds within mental health programs of regional and national significance to support the following projects in the following amounts:

Center for Substance Abuse Prevention

Within funds provided for substance abuse prevention programs of regional and national significance, the amended bill includes \$5,500,000 to carry out programs authorized by the Sober Truth on Preventing (STOP) Underage Drinking Act, of which:

\$1,000,000 is for the Advertising Council's underage drinking campaign as proposed by both the House and Senate;

\$4,000,000 is for community-based coalition enhancement grants instead of \$5,000,000 as proposed by the House and \$3,000,000 as proposed by the Senate; and,

\$500,000 is for the Intergovernmental Coordinating Committee on the Prevention of

Underage Drinking instead of \$1,000,000 as proposed by the House—the Senate did not propose similar language.

The amended bill includes funds within substance abuse prevention programs of regional and national significance to support the following projects in the following amounts:

**The amounts provided for projects displayed in this table
are prior to the reduction in Section 528 of this bill.**

Project	Amount (In dollars)
Cheyenne River Sioux Tribe, Eagle Butte, SD, for a methamphetamine prevention program	390,000
Clinton County Office of District Attorney, Lock Haven, PA, for substance abuse prevention programs	87,000

YMCA of the East Bay, Richmond, CA for substance abuse prevention activities	97,000

Program Management

Within the evaluation set-aside for program management, the amended bill includes \$1,500,000, as proposed by the Senate, to include mental health questions in CDC's National Health Interview Survey (NHIS) and to carry out studies necessary to ensure the validity and reliability of the NHIS data. The House did not propose similar language.

AGENCY FOR HEALTHCARE RESEARCH AND
QUALITY

HEALTHCARE RESEARCH AND QUALITY

The amended bill includes a program level of \$334,564,000 for the Agency for Healthcare Research and Quality (AHRQ) instead of \$329,564,000 as proposed by the House and Senate. The amended bill makes these funds fully available through the policy evaluation set-aside. The House proposed providing \$282,500,000 of the total for AHRQ through budget authority and \$47,064,000 through the evaluation set-aside. The Senate proposed providing \$329,564,000 entirely through budget authority.

Within the funds provided, \$5,000,000 is included for activities to reduce infections for methicillin-resistant staphylococcus aureus and related infections as proposed by the Senate. The House did not include similar language.

AHRQ is encouraged to look favorably on proposals that would proactively detect medical errors and preemptively control injury via compact medical devices that acquire, analyze and filter data from multiple, disparate, wireless and wired sources.

AHRQ is encouraged to investigate the feasibility of an open-source, no-cost license computer model capable of predicting the effects of health care policy alternatives for the purpose of improving health care quality and cost-effectiveness. The model should be developed with a consortium of university partners and be capable of predicting costs and health impacts.

CENTERS FOR MEDICARE AND MEDICAID
SERVICES

GRANTS TO STATES FOR MEDICAID

The amended bill provides \$141,628,056,000 for grants to States for Medicaid as proposed by the Senate instead of \$141,630,056,000 as proposed by the House. Within this total, \$2,761,957,000 is provided for the Vaccines for Children program as proposed by the Senate instead of \$2,763,957,000 as proposed by the House.

PAYMENTS TO HEALTH CARE TRUST FUNDS

The amended bill provides \$188,445,000,000 for payments to health care trust funds in-

stead of \$188,828,000,000 as proposed by the House and the Senate.

PROGRAM MANAGEMENT

The amended bill includes \$3,207,690,000 for program management instead of \$3,230,163,000 as proposed by the House and \$3,248,088,000 as proposed by the Senate. An additional appropriation of \$720,000,000 has been provided for the Medicare Integrity Program through the Health Insurance Portability and Accountability Act of 1996.

The amended bill includes bill language providing \$193,000,000, available through fiscal year 2009, for Medicare contractor reform activities. The House bill provided \$163,800,000 for this purpose; the Senate bill provided \$253,775,000.

The amended bill does not include language proposed by the Senate providing the Secretary of HHS the authority to charge fees associated with the cost of conducting survey and certification revisits of health care facilities that receive Medicare reimbursement. The House bill contained no similar provision.

The amended bill includes funds within research, demonstration and evaluation to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Access Health, Inc., Muskegon, MI, for a small business health coverage program	195,000
Bedford Ride, Bedford, VA for a program to assist seniors	68,000
Bi-State Primary Care Association, Concord, NH to treat uninsured patients	316,000
City and County of San Francisco Department of Public Health, San Francisco, CA for enhancements to the HIV/AIDS service delivery system in San Francisco	1,267,000
City of Detroit, MI for the Detroit Primary Care Access Project	341,000
City of Waterbury, CT for a health access program	195,000
Gadsden County, FL, Quincy, FL for a prescription assistance medical services program	97,000
Jefferson Area Board for Aging, Charlottesville, VA to address nursing assistant shortages in long-term care settings	97,000
Medicare Chronic Care Practice Research Network, Sioux Falls, SD, to evolve and continue the Medicare Coordinated Care Demonstration project	658,000
Mosaic, Des Moines, IA, for the Iowa Community Integration Project	292,000
Orange County's Primary Care Access Network, Orlando, FL for a health care access network	312,000
Piedmont Hospital, Atlanta, GA for a project regarding the transition of older patients from hospital to home.	195,000
Thurston-Mason County Medical Society, Olympia, WA for Project Access for the uninsured	195,000
University of Mississippi, University, MS, for the Medication Use and Outcomes Research Group	292,000
University of North Carolina School of Pharmacy, Chapel Hill, NC, to study the impact of a primary care practice model utilizing clinical pharmacist practitioners to improve the care of Medicare-eligible populations in NC	97,000
Valley Hospice, Inc., Steubenville, OH to develop best practices for hospices across the State	390,000

Within the total funding for research, demonstration, and evaluation, the amended bill includes \$10,000,000 for Real Choice Systems Change Grants to States, as proposed by the Senate. The House bill did not include funding for this purpose.

The amended bill provides \$40,000,000 for the State Health Insurance Program instead of \$45,000,000 as proposed by the House and \$35,000,000 as proposed by the Senate. The amended bill provides funds to support the National Center on Senior Benefits Outreach and Enrollment within the Administration on Aging rather than in the Centers for Medicare and Medicaid Services (CMS) as proposed by the Senate. The House did not provide funding for this activity within CMS.

The Government Accountability Office is requested to submit a report to Congress by November 30, 2008: (1) assessing State efforts to reexamine health care delivery and expand access; and (2) providing recommendations regarding the potential role of Congress in supporting State-based efforts. The Senate proposed a similar report in section 228 of H.R. 3043, as passed by the Senate. The House had no similar provision.

The Secretary of HHS is directed to submit a report to the Appropriations Committees of the House of Representatives and the Senate no later than 30 days after enactment of this Act on workers' compensation set-asides under the Medicare secondary payer set-aside provisions under title XVIII of the Social Security Act. The Senate proposed a similar report in section 240 of H.R. 3043, as passed by the Senate. The House had no similar provision.

The Secretary of HHS is directed to maintain "deemed status" coverage under the Medicare program for clinical trials that are Federally funded or reviewed, as provided for by the Executive Memorandum of June, 2000. The Senate expressed a similar view in section 241 of H.R. 3043, as passed by the Senate. The House had no similar provision.

CMS is directed to include in the next publication of "Medicare & You" information regarding: (1) the importance of writing and updating advance directives and living wills; and (2) access to laboratory findings and medical records and encouraging patients to be more proactive in asking for copies of these important pieces of health information.

HEALTH CARE FRAUD AND ABUSE CONTROL ACCOUNT

The amended bill does not provide funding from the Medicare trust funds for health care fraud and abuse control. The House and Senate proposed \$383,000,000 for this activity.

ADMINISTRATION FOR CHILDREN AND FAMILIES LOW-INCOME HOME ENERGY ASSISTANCE

The amended bill includes \$2,611,585,000 for low-income home energy assistance instead of \$2,662,000,000 as proposed by the House and \$2,161,170,000 as proposed by the Senate.

Of the amount provided, \$596,379,000 is provided for the contingency fund, instead of \$682,000,000 as proposed by the House and \$181,170,000 as proposed by the Senate. Bill language is included designating \$250,000,000 as an emergency.

REFUGEE AND ENTRANT ASSISTANCE

The amended bill includes \$667,288,000 for the refugee and entrant assistance programs instead of \$650,630,000 as proposed by the House and \$654,166,000 as proposed by the Senate. The amended bill does not include language that would expand the victims of trafficking program to include domestic victims of trafficking.

Within the total for social services, \$19,000,000 is for support to communities with large concentrations of Cuban and Haitian entrants as proposed by the House. The Senate did not include similar language.

As proposed by both the House and Senate, the amended bill does not include funds for expanded background checks within the unaccompanied minors program. After addressing increased shelter and medical costs, Office of Refugee Resettlement is directed to use the increase provided for the unaccompanied minors program to expand the pro bono legal services initiative, as proposed by both the House and Senate.

PAYMENTS TO STATES FOR THE CHILD CARE AND DEVELOPMENT BLOCK GRANT

The amended bill includes \$2,098,746,000 for the Child Care and Development Block Grant, instead of \$2,137,081,000 as proposed by the House bill and \$2,062,081,000 as proposed by the Senate bill. The amended bill designates \$982,080 for the Child Care Aware toll-free hotline; this provision was included in the House bill. The Senate bill included funds for this purpose but did not name the entity.

SOCIAL SERVICES BLOCK GRANT

The amended bill includes language allowing States to transfer up to 10 percent of Temporary Assistance to Needy Families (TANF) funds to the Social Services Block Grant. This provision was not included in either the House or the Senate bill.

CHILDREN AND FAMILIES SERVICES PROGRAMS

The amended bill includes \$9,140,490,000 for Children and Families Services Programs, of which \$10,500,000 is provided through the evaluation set-aside. The House bill proposed \$9,157,440,000 for these programs and the Senate proposed \$9,223,832,000. The amended bill includes language, as proposed by the Senate, identifying the amount available for the projects identified in this statement.

Child Abuse State Grants and Discretionary Activities

The amended bill includes \$64,802,000 for Child Abuse State Grants and child abuse discretionary programs, instead of \$63,840,000 as proposed by the House and \$64,745,000 as proposed by the Senate.

Within this amount, \$10,178,000 is provided for a home visitation initiative to support competitive grants to States to encourage investment of existing funding streams into evidence-based home visitation models, instead of \$10,000,000 as proposed by the House and the Senate. The Administration for Children and Families shall ensure that States use the funds to support models that have been shown, in well-designed randomized controlled trials, to produce sizeable, sustained effects on important child outcomes such as abuse and neglect. Funds shall support activities to assist a range of home visitation programs to replicate the techniques that have met these high evidentiary standards. In carrying out this new initiative, the Department is instructed to adhere closely to evidence-based models of home visitation and not to incorporate any additional initiatives that have not met these high evidentiary standards or might otherwise dilute the emphasis on home visitation.

The amended bill includes funds within child abuse discretionary activities to support the following projects in the following amounts:

**The amounts provided for projects displayed in this table
are prior to the reduction in Section 528 of this bill.**

Project	Amount (in dollars)
Boys and Girls Town of Missouri, St. James, MO, to expand services to abused and neglected children	412,000
Catholic Community Services of Juneau, Juneau, AK, to continue operations at its Family Resource Center for child abuse prevention and treatment in Juneau, Alaska	390,000
Children Uniting Nations, Los Angeles, CA for a foster child mentoring program in Los Angeles	292,000

Shelter for Abused Women, Winchester, VA to enhance community efforts to address domestic violence	97,000
Young Women's Christian Association (YWCA), Williamsport, PA, for abused and neglected children's CASA programs	87,000

Adoption Incentives

The amended bill includes \$4,400,000 for the Adoption Incentive Program, rather than \$9,500,000 as proposed by both the House and the Senate. The decrease reflects available carry-over from the previous fiscal year, due to the fact that bonus amounts earned by the States have fallen significantly, causing the Department to revise its estimate of funds

needed to pay incentives earned by the States in fiscal year 2007.

Social Services and Income Maintenance Research

The amended bill includes \$21,464,000 for social services and income maintenance research, of which \$6,000,000 is provided through the evaluation set-aside. The House

proposed \$14,635,000 for this activity, of which \$6,000,000 was funded through the evaluation set-aside, and the Senate proposed \$11,825,000, of which \$6,000,000 was from the evaluation set-aside.

The amended bill also includes funds within social services research to support the following projects in the following amounts:

Developmental Disabilities

Within developmental disabilities programs, the amended bill includes \$17,720,000 for voting access for individuals with disabilities, instead of \$36,720,000 as proposed by the House and \$16,720,000 as proposed by the Senate. Within the funds provided, \$12,370,000 is for payments to States to promote access for voters with disabilities and \$5,350,000 is for State protection and advocacy systems. The House proposed \$25,890,000 and \$10,830,000 respectively for these two activities, while the Senate proposed \$11,390,000 and \$5,330,000.

For developmental disabilities projects of national significance, the amended bill includes \$14,414,000, instead of \$11,414,000 as proposed by the House and \$15,414,000 as proposed by the Senate. Within this amount, \$2,000,000 is provided for a National Clearinghouse and Technical Assistance Center, as proposed by the Senate. The House did not include similar language.

Native Americans

The amended bill includes \$46,332,000 for Native American programs, instead of \$47,332,000 as proposed by the House and \$49,332,000 as proposed by the Senate. Within this total, \$2,000,000 is included for Native language immersion and other revitalization programs, instead of \$3,000,000 as proposed by the House and \$5,000,000 as proposed by the Senate.

Community Services

The amended bill includes \$665,425,000 for the Community Services Block Grant (CSBG), instead of \$660,425,000 as proposed by the House and \$670,425,000 as proposed by the Senate. The amended bill includes a technical correction, as proposed by the House, to reflect a total for the programs authorized under the CSBG Act. Additional programs in this account are funded under other authorities.

Abstinence Education

The amended bill includes \$115,336,000 for community-based abstinence education, instead of \$141,164,000 as proposed by the House and \$84,916,000 as proposed by the Senate. Within this amount, \$4,500,000 is provided through the evaluation set-aside.

The amended bill includes a provision, proposed by the House regarding the definition of abstinence education contained in section 510(b)(2) of the Social Security Act. Also included is language, proposed by the House, precluding grantees who receive funding under this section from discussing with adolescents any other education regarding sexual conduct in the same setting as abstinence education. The Senate contained no similar provisions.

The Appropriations Committees direct the Secretary of Health and Human Services to require that each applicant for financial assistance under the abstinence education program certify that all materials proposed in the application and funded during the project period of the grant are medically accurate, and direct that a panel of medical experts shall review such grant applications and assess whether the materials proposed are medically accurate, as proposed by the House. Bill language concerning scientific accuracy, as proposed by the Senate, is not included.

The amended bill also provides that up to \$10,000,000 may be used to carry out a national abstinence education campaign as proposed by the House. The Senate contained no similar provision.

Program Direction

The amended bill includes \$187,776,000 for program direction as proposed by the House, instead of \$197,225,000 as proposed by the Senate. This amount does not include the additional request for \$6,200,000 for improper payments activities as proposed by the Senate.

PROMOTING SAFE AND STABLE FAMILIES

The amended bill includes \$64,437,000 for the discretionary grant program of promoting safe and stable families instead of \$89,100,000 as proposed by the House and the Senate.

PAYMENTS TO STATES FOR FOSTER CARE AND ADOPTION ASSISTANCE

The amended bill includes \$5,067,000,000 for Payments to States for Foster Care and Adoption Assistance, the same level as the Senate bill instead of \$5,082,000,000 as proposed by the House bill.

ADMINISTRATION ON AGING

AGING SERVICES PROGRAMS

The amended bill includes \$1,438,567,000 for aging services programs instead of \$1,417,189,000 as proposed by the House and \$1,451,585,000 as proposed by the Senate. The amended bill includes language designating \$5,500,000 for medication management, screening, and education to prevent incorrect medication and adverse drug reactions as proposed by the Senate. The House did not propose similar language.

Within the total for the protection of vulnerable older Americans, \$15,854,000 is for the ombudsman services program instead of \$16,010,000 as proposed by the Senate and \$5,146,000 is for the prevention of elder abuse program as proposed by the Senate. The House did not propose specific funding amounts for these programs.

Within the total for program innovations, funding is provided at no less than the fiscal year 2007 levels for national programs scheduled to be refunded in fiscal year 2008. Also within the funding for program innovations, the amended bill includes \$1,000,000 to continue the Alzheimer's disease 24-hour call center as proposed by the Senate. The House did not include similar language.

The Administration on Aging is encouraged to allocate funding for a national program of statewide Senior Legal Hotlines (also called Senior Legal Helplines) at a minimum at least at their current levels and ideally to provide an increase in the number of States in which these services are available for seniors. Statewide Senior Legal Hotlines/Helplines provide free, legal advice, information, referrals and a variety of additional services to older Americans over 60, enabling more seniors to maintain healthy, independent lives, free from the threats of poverty, exploitation or abuse.

The amended bill includes funds within program innovations to support the following projects in the following amounts:

University of Florida, Gainesville, FL for a technology demonstration project to assist seniors	97,000

Within the total for aging network support activities, the amended bill includes the following amounts:

\$1,676,000, as proposed by the Senate, for the pension counseling and information program in order to expand the number of regional counseling projects from five to six—the House did not specify a funding level for this program;

\$16,500,000 for the choices for independence initiative as proposed by the House instead of \$28,000,000 as proposed by the Senate; and,

\$2,000,000 for the establishment of a National Center on Senior Benefits Outreach and Enrollment instead of \$1,000,000 as proposed by the Senate—the House did not include funding for this program.

OFFICE OF THE SECRETARY

GENERAL DEPARTMENTAL MANAGEMENT

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$361,310,000 for General Departmental Management instead of \$348,075,000 as proposed by the House and \$404,237,000 as proposed by the Senate, including \$5,792,000 from Medicare trust funds, instead of \$5,851,000 provided by both the House and Senate. In addition, \$46,756,000 in program evaluation funding is provided, which was proposed by both the House and Senate.

The amended bill does not provide \$4,000,000 proposed by the Senate to establish a new discretionary fund for the Secretary. The House did not include a similar provision. The amended bill does not include language proposed by the Senate designating \$9,500,000 for a health diplomacy initiative and permitting funds to be used to carry out health diplomacy activities such as health training, services, education, and program evaluation, provided directly, through grants, or through contracts. The House did not include a similar provision.

The Appropriations Committees concur that funds are included for a feasibility study for a National Registry of Substantiated Cases of Child Abuse or Neglect, as described in section 633(g) of the Adam Walsh Child Protection Act; however, the amended bill does not designate an amount for this purpose as proposed by the Senate. The House did not include a similar provision.

The Appropriations Committees concur that funds are available to support the National Commission on Children and Disasters, as authorized in Title VI of this Act.

The amended bill does not include language designating \$2,000,000 for dental workforce programs within this account as proposed by the Senate. The House did not include a similar provision. The Appropriations Committees have instead provided

funding for these activities within the Allied Health and Other Disciplines program within the Health Resources and Services Administration.

The amended bill provides \$1,000,000 for the Interagency Autism Coordinating Committee (IACC) as proposed by the Senate. The House recommended funds for the IACC but did not specify an amount. The agreement includes bill language not included in either House or Senate bills specifying that these funds shall be transferred to the National Institute of Mental Health. The amended bill does not specify an amount for the transformation of the Commissioned Corps instead of \$19,157,000 as proposed by the House and \$30,000,000 as proposed by the Senate.

The Appropriations Committees concur that not more than the fiscal year 2007 funding level shall be available for the Office of Legislative Affairs.

The Appropriations Committees concur that the amended bill includes sufficient funds to continue support of the national and multiple area poverty centers at no less than the fiscal year 2007 level.

The amended bill includes funds within general departmental management to support the following projects in the following amounts:

**The amounts provided for projects displayed in this table
are prior to the reduction in Section 528 of this bill.**

Project	Amount (in dollars)
Alma Family Services, Monterey Park, CA to increase access to culturally competent health information to minority populations, which may include the purchase of a fully equipped mobile computer lab/resource unit	73,000
Bronx-Lebanon Hospital, New York, NY for demonstration project to increase access to health care for low-income minority men in South and Central Bronx	390,000
Community Health Partnership, Santa Clara, CA for its Healthy Women, Healthy Choices project to provide comprehensive health education to underserved women	195,000
Community Transportation Association of America, Washington, DC, for technical assistance to human services transportation providers on ADA requirements	828,000
Hunterdon Medical Center, Flemington, NJ for its Latino Healthcare Initiative	87,000
Louisiana State University Health Sciences Center, Shreveport, LA for a health literacy program	243,000
Marymount University, Arlington, VA for a project to provide health screenings, referrals and health education at a nurse managed health center for minority populations	68,000

St. Luke's Community Free Clinic, Front Royal, VA for activities focused on adult hypertension and dental care	341,000
Thurston-Mason County Medical Society, Olympia, WA for a demonstration project to increase care for non-English-speaking patients	87,000

For the Office of Minority Health, the Appropriations Committees include additional resources over the request to expand the number of participating institutions in the New Minority Males Consortium, Inc., as well as to enhance the resources received by each of the institutions to increase their ac-

tivities and to conduct the national comparative study of the incidence of certain health conditions and diseases among minority males.

The Appropriations Committees are encouraged by the progress that the Office of Minority Health made in fiscal year 2007 on

the multi-year effort to address health disparities issues in the Gulf Coast region, and look forward to further progress in this area in fiscal year 2008.

The amended bill includes funds within the Office of Minority Health to support the following project in the following amount:

**The amounts provided for projects displayed in this table
are prior to the reduction in Section 528 of this bill.**

Project	Amount (in dollars)
Saint Francis Hospital, Wilmington, DE, to expand prenatal, maternity, pediatric, and other primary care services to indigent populations	575,000

The Appropriations Committees have provided sufficient funds for the Office of Women's Health to work with the advocacy community to develop and implement a sustained lupus awareness and education campaign aimed at reaching health care professionals and the general public with an emphasis on reaching women at greatest risk for developing lupus. The amended bill also includes \$1,000,000 for the Institute of Medicine to conduct a comprehensive review of the status of women's health research, summarize what has been learned about how diseases specifically affect women, and report to the Congress on suggestions for the direction of future research.

With regard to Minority HIV/AIDS, the Appropriations Committees expect that activities that are targeted to address the growing HIV/AIDS epidemic and its disproportionate impact upon communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders, will be supported at no less than last year's funding level.

For the Embryo Adoption Awareness Campaign, the amended bill includes language as proposed by the Senate permitting funds to be used to provide to individuals adopting embryos, through grants or other mechanisms, medical and administrative services deemed necessary for such adoptions consistent with 42 CFR 59.5(a)(4).

The amended bill includes language proposed by the Senate to direct that specific information requests from the chairmen and ranking members of the Subcommittees on Labor, Health and Human Services, and Education, and Related Agencies, on scientific research or any other matter, be transmitted to the Committees on Appropriations in a prompt, professional manner and within the time frame specified in the request. In addition, the amended bill modifies language proposed by the Senate to require that scientific information provided in congressional testimony requested by the Committees on Appropriations and prepared by government researchers and scientists be transmitted to the Committees on Appropriations, uncensored and without delay. The House did not include a similar provision.

OFFICE OF MEDICARE HEARINGS AND APPEALS

The amended bill includes \$65,000,000 for this activity as proposed by the House instead of \$70,000,000 as proposed by the Senate.

OFFICE OF THE NATIONAL COORDINATOR FOR HEALTH INFORMATION TECHNOLOGY

The amended bill includes \$61,302,000 for this activity, of which \$42,402,000 is provided in budget authority and \$18,900,000 is made available through the Public Health Service program evaluation tap. The House provided a combined total of \$61,302,000 for this activity; the Senate provided a combined total of \$71,000,000. The Appropriations Committees encourage the Department to develop an interoperability standard, tool set, and validation protocol that facilitates seamless medical device information sharing and device connectivity.

OFFICE OF INSPECTOR GENERAL

The amended bill includes \$44,000,000 for the Office of Inspector General instead of \$44,687,000 as proposed by the House and \$45,687,000 as proposed by the Senate.

PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND

The amended bill includes \$742,226,000 for the Public Health and Social Services Emergency Fund (PHSEF) instead of \$1,705,382,000 as proposed by the House and \$1,729,556,000 as proposed by the Senate.

The amended bill includes language designating \$666,087,000 to support activities related to countering potential biological, dis-

ease, nuclear, radiological and chemical threats to civilian populations and for other public health emergencies instead of \$757,291,000 as proposed by the House and \$786,556,000 as proposed by the Senate.

Funding for World Trade Center treatment and monitoring is provided within the CDC appropriation as proposed by the House and not the PHSEF account as proposed by the Senate. The Secretary of Health and Human Services is directed to provide a comprehensive Federal plan, as proposed by the House, for monitoring, screening, analysis, and medical treatment for all individuals who were exposed to the toxins at the World Trade Center site. The amended bill expands the World Trade Center monitoring and treatment program administered by NIOSH to residents, students, and others, therefore the plan also should address how HHS intends to implement this expansion.

The amended bill does not include funding for Security Coordination and Improvement or Healthcare Provider Credentialing within the programs funded through PHSEF administered by the Office of the Secretary as proposed by the House. The Senate proposed \$3,300,000 for Healthcare Provider Credentialing.

Office of the Assistant Secretary for Preparedness and Response

The amended bill includes \$647,275,000 for the Office of the Assistant Secretary for Preparedness and Response (ASPR) instead of \$738,909,000 as proposed by the House. The Senate did not propose a funding level for ASPR in total, but did propose funding for specific activities within the office. Within the total, sufficient funds are included for the Office of Security and Strategic Information. The amended bill includes language designating \$21,804,000 for BioShield management instead of \$22,363,000 as proposed by the House and \$22,338,000 as proposed by the Senate.

Within the total for ASPR, the amended bill includes \$47,000,000 for the National Disaster Medical System instead of \$53,000,000 as proposed by both the House and Senate.

Within the total for ASPR, the amended bill includes \$427,150,000 for the hospital preparedness cooperative agreement grants program instead of \$450,991,000 as proposed by the House and \$438,843,000 as proposed by the Senate. Funds are not included for a surge capacity demonstration program as proposed by the House. The Senate proposed \$25,000,000 for this demonstration program. Additionally, the amended bill does not include funding for a partnership grant program. Sufficient funds are included to maintain the fiscal year 2007 funding level provided through the formula grant program.

Within the total for ASPR, the amended bill includes \$3,960,000 for the emergency systems for advance registration of volunteer health professionals program instead of \$6,000,000 as proposed by both the House and Senate.

Within the total for ASPR, the amended bill includes \$103,921,000 for advanced research and development instead of \$139,500,000 as proposed by the House and \$189,000,000 as proposed by the Senate.

Cyber-Security

Within the PHSEF total, the amended bill includes \$9,064,000 for an information technology cyber-security program administered by the Office of the Chief Information Officer as proposed by the House instead of \$9,482,000 as proposed by the Senate.

Medical Reserve Corps

Within the PHSEF total, the amended bill includes \$9,748,000 for the medical reserve corps administered by the Office of Public Health and Science instead of

\$9,318,000 as proposed by the House and \$14,113,000 as proposed by the Senate.

Office of the Secretary—Pandemic Influenza Preparedness

The amended bill includes language designating \$76,139,000 for ongoing activities to prepare for and respond to an influenza pandemic instead of \$948,091,000 as proposed by the House and \$888,000,000 as proposed by the Senate. The amended bill does not include language providing funds to be available until expended. The House proposed \$870,000,000 to be available until expended and the Senate proposed \$652,000,000. The amended bill does not include language proposed by both the House and the Senate that products purchased from available funds may be deposited into the Strategic National Stockpile, that funds appropriated for pandemic influenza may be transferred to other appropriations accounts of the Department of Health and Human Services, and that funds may be used for the construction or renovation of privately owned vaccine and biological production facilities. The Appropriations Committees continue to support the Department's pandemic influenza preparedness activities, but note that approximately \$1,200,000,000 remains available to be obligated from funds provided in prior appropriations for pandemic influenza preparedness.

COVERED COUNTERMEASURE PROCESS FUND

The amended bill does not provide an appropriation for the Covered Countermeasure Process Fund as proposed by the Senate. The House proposed \$5,000,000 for this program.

GENERAL PROVISIONS

ONE PERCENT TRANSFER AUTHORITY

(TRANSFER OF FUNDS)

The amended bill includes a general provision similar to that proposed by the Senate providing the Secretary of HHS with the authority to transfer up to one percent of discretionary funds between a program, project, or activity, but no such program, project or activity shall be increased by more than three percent by any such transfer. This transfer is available only to meet emergency needs. The Committees are to be notified 15 days in advance of any transfer. The House bill included a similar provision, but allowed the authority to transfer between appropriations for unanticipated needs.

COUNCIL ON GRADUATE MEDICAL EDUCATION

The amended bill includes a general provision proposed by the Senate allowing for the continued operation of the Council on Graduate Medical Education. The House bill contained no similar provision.

DELTA HEALTH ALLIANCE AUTHORIZATION

The amended bill includes a general provision proposed by the Senate creating the authority for HHS to award a grant to the Delta Health Alliance for research, educational programs, services, job training, and construction of health facilities. The House bill contained no similar provision.

THIMEROSAL IN INFLUENZA VACCINES

The amended bill does not include a provision restricting the use of funds for the administration of influenza vaccine containing thimerosal for children under three years of age as proposed by the House. The Senate did not have a similar provision.

NIH RESEARCH TRAINING TRANSFER

(TRANSFER OF FUNDS)

The amended bill includes a general provision proposed by the Senate restoring the authority to transfer one percent of the amounts made available for National Research Service Awards to the Health Resources and Services Administration and the

Agency for Healthcare Research and Quality. The House bill contained no similar provision.

CDC OMBUDSMAN PROGRAM AND FITNESS EQUIPMENT

The amended bill includes a general provision proposed by the Senate prohibiting funding for the CDC Ombudsman Program and certain equipment for the CDC fitness center. The House proposed a similar provision in title V of the bill.

NONRECURRING EXPENSES FUND

The amended bill includes a general provision not in either the House or Senate bill establishing an HHS Nonrecurring Expenses Fund. The Fund is to be created from unobligated balances of expired discretionary funds appropriated for this or any succeeding fiscal year. The Fund may be used for capital acquisition purposes, including facilities and information technology infrastructure. Amounts may only be obligated 15 days after notification of the Appropriations Committees of the House of Representatives and the Senate.

HEALTH PROFESSIONS STUDENT LOAN RESCISSION

RESCISSION OF FUNDS

The amended bill includes a general provision rescinding \$15,000,000 of funds returned by institutions of higher education to the Health Professions Student Loan program. Neither the House nor Senate included a similar provision.

MEDICARE PROGRAM RESIDENCY POSITIONS

The amended bill includes a general provision concerning medical residency positions under the Medicare program, with costs offset through the Physician Assistance and Quality Initiative Fund. Neither the House nor the Senate included similar provisions.

FEDERAL OCCUPATIONAL HEALTH

The amended bill does not include a general provision proposed by the Senate allowing the Division of Federal Occupational Health to use personal services contracting. The House bill contained no similar provision. This authority has previously been provided on a permanent basis.

USE OF CDC AIRCRAFT

The amended bill does not include a general provision proposed by the Senate allowing the Secretary of HHS and HHS employees accompanying the Secretary to use the CDC aircraft. The House bill contained no similar provision.

CURRENT FEDERAL LAW ON ABORTION FUNDING

The amended bill does not include a general provision proposed by the Senate stating that nothing in the Act shall be construed to effect or otherwise modify provisions of current Federal law with respect to the funding of abortion. The House bill did not contain this restatement of current law.

EMERGENCY DEFIBRILLATORS

The amended bill does not include a general provision proposed by the Senate setting aside \$200,000 for a clearinghouse for schools regarding emergency defibrillators. The House bill contained no similar provision.

TELEHEALTH PROGRAMS

The amended bill does not include a general provision proposed by the Senate providing funding for telehealth programs, financed by an administrative reduction. The agreement provides funding for telehealth activities in the HRSA account. The House bill contained no similar provision.

GAO REPORT ON STATE HEALTH CARE ACCESS EFFORTS

The amended bill does not include a general provision proposed by the Senate requir-

ing the Comptroller General to provide a report to Congress on State health care reform efforts. Instead, this statement contains a similar directive in the CMS section. The House bill contained no similar provision.

CDC STROKE AND HEART DISEASE

The amended bill does not include a general provision proposed by the Senate that would provide funding for CDC stroke and heart disease programs, financed by an administrative reduction. Funding for these programs is addressed in the CDC portion of the bill. The House contained no similar provision.

ADMINISTRATIVE REDUCTION

The amended bill does not include a general provision proposed by the Senate that would reduce administrative funding throughout the bill. The House contained no similar provision.

PATIENT NAVIGATOR OUTREACH

The amended bill does not include a general provision proposed by the Senate that would provide funding for patient navigator outreach activities, financed by an administrative reduction. Funding is addressed in the HRSA portion of the bill. The House contained no similar provision.

TRAUMA CARE

The amended bill does not include a general provision proposed by the Senate that would provide funding for trauma care programs, financed by an administrative reduction. The House contained no similar provision.

ALLIED HEALTH TRAINING PROGRAMS

The amended bill does not include a general provision proposed by the Senate that would provide funding for allied health training programs, financed by an administrative cut. Funding for allied health is addressed in the HRSA portion of the bill. The House contained no similar provision.

HEMODIALYSIS CLINICAL TRIALS

The amended bill does not include a general provision proposed by the Senate that would express the sense of the Senate regarding hemodialysis clinical trials supported by the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK). This issue is addressed in the NIDDK section of this statement. The House contained no similar provision.

SMALL BUSINESS CHILD CARE GRANT PROGRAM

The amended bill does not include a general provision proposed by the Senate that would fund a small business child care grant program, financed by an administrative reduction. The House contained no similar provision.

RYAN WHITE FUNDING FORMULAS

The amended bill does not include a general provision proposed by the Senate that would prohibit Ryan White HIV/AIDS funds provided in the Act from being used to modify the formulas under title XXVI of the Public Health Service Act. The House contained no similar provision.

ADMINISTRATION ON AGING PROGRAMS

The amended bill does not include a general provision proposed by the Senate that would provide funding for aging programs, financed by an administrative reduction. Funding for this program is addressed in the AoA portion of the bill. The House contained no similar provision.

VIOLENT DEATH REPORTING SYSTEM

The amended bill does not include a general provision proposed by the Senate that would provide funding for the National Violent Death Reporting System, financed by an administrative reduction. Funding for this program is included in the CDC portion of

the bill. The House contained no similar provision.

WORKERS' COMPENSATION SET-ASIDES

The amended bill does not include a general provision proposed by the Senate that would require HHS to report on workers' compensation set-asides under the Medicare Secondary Payer program. This issue is addressed in the CMS section of this statement. The House contained no similar provision.

DEEMED STATUS ON CLINICAL TRIALS

The amended bill does not include a general provision proposed by the Senate that would express the sense of the Senate that HHS should maintain "deemed status" coverage under the Medicare program for Federally funded clinical trials. This issue is addressed in the CMS section of this statement. The House contained no similar provision.

NIOSH COAL PILLARS STUDY

The amended bill does not include a general provision proposed by the Senate that would increase CDC funding, financed by an administrative reduction, and require NIOSH to conduct a study of the recovery of coal pillars and pillar mining practices. This issue is addressed in the CDC section of this statement. The House contained no similar provision.

DRUG REIMPORTATION

The amended bill does not include a general provision proposed by the Senate that prohibits funds appropriated in this Act from being used to prevent an individual not in the business of importing prescription drugs from importing a prescription drug from Canada that complies with certain requirements of Federal law and is not a controlled substance or a biological product. The House contained no similar provision.

TITLE III—DEPARTMENT OF EDUCATION

EDUCATION FOR THE DISADVANTAGED

The amended bill includes \$15,755,083,000 for the Education for the Disadvantaged account instead of \$15,969,818,000 as proposed by the House and \$15,867,778,000 as proposed by the Senate. The amended bill provides \$7,820,327,000 in fiscal year 2008 and \$7,934,756,000 in fiscal year 2009 funding for this account. The Appropriations Committees expect that the Department will strengthen professional development partnerships for early childhood educators through grants awarded under Early Reading First.

IMPACT AID

The amended bill includes \$1,262,778,000 for the Impact Aid account instead of \$1,278,453,000 as proposed by the House and \$1,248,453,000 as proposed by the Senate. In addition, the bill includes language to provide two-year funding for Impact Aid construction grants on a competitive basis as proposed by the Senate. The House had proposed one-year funding for these grants on a formula basis.

SCHOOL IMPROVEMENT PROGRAMS

The amended bill includes \$5,383,119,000 for the School Improvement Programs account instead of \$5,693,668,000 as proposed by the House and \$5,198,525,000 as proposed by the Senate. The amended bill provides \$3,948,119,000 in fiscal year 2008 and \$1,435,000,000 in fiscal year 2009 funding for this account.

Within the amount for 21st Century Community Learning Centers, the Appropriations Committees intend that the Department encourage States to use 40 percent of their additional allocations over fiscal year 2007, as practicable, to provide supervised and supportive after-school activities to middle and high school students.

For the Foreign Language Assistance program, the amended bill includes a set-aside of \$2,400,000 for five-year grants to local educational agencies. The Senate did not propose this set-aside. The Appropriations Committees intend that this set-aside of funds and other funds provided for this program be used as outlined in House Report 110-424.

Within the amount provided for State Assessments, the Appropriations Committees recommend not more than \$8,732,000 for enhanced assessment instruments to improve the implementation of the No Child Left Behind Act. The Education Department is urged to continue to place a high priority on grant applications that aim to improve the quality of State assessments for students with disabilities and students with limited English proficiency, and to ensure the most accurate means of measuring their performance on those assessments.

The amended bill includes language that allows funds under the Education of Native Hawaiians program to be used for construction, renovation and modernization of any elementary school, secondary school, or structure related to an elementary school or secondary school run by the Department of Education of the State of Hawaii that serves a predominantly Native Hawaiian student body as proposed by the Senate. The amended bill also includes language, as proposed by the Senate, which designates, within the amount provided for the Education of Native Hawaiians program, not less than \$1,250,000 to the Hawaii Department of Education for school construction/renovation activities, and \$1,250,000 for the University of Hawaii's Center of Excellence in Native Hawaiian Law. The House bill did not include a similar provision.

The amended bill includes language that allows funds for the Alaska Native Educational Equity program to be used for construction, as proposed by the Senate. The House bill did not include a similar provision.

With regard to the Rural Education program, the Appropriations Committees expect that funding will be equally divided between the Small, Rural Schools Achievement Program, which provides funds to school districts that serve a small number of students, and the Rural and Low-Income Schools Program, which provides funds to school districts that serve concentrations of poor students, regardless of the number of students served.

INDIAN EDUCATION

The amended bill includes \$121,690,000 for Indian Education instead of \$124,000,000 as proposed by the House and \$118,690,000 as proposed by the Senate.

INNOVATION AND IMPROVEMENT

The amended bill includes \$1,003,040,000 for programs in the Innovation and Improvement account, instead of \$992,354,000 as proposed by the House and \$962,889,000 as proposed by the Senate.

For the Teaching of Traditional American History program, the Appropriations Committees recommend that the Department provide initial three-year grants, with two additional years if a grantee is performing effectively.

The Appropriations Committees concur that funds provided for the Advanced Credentialing program in the amended bill are for a continuing award authorized under section 2151(c)(3)(c) of the Elementary and Secondary Education Act.

The amended bill modifies language for the Charter Schools program proposed by the House and the Senate to permit the Secretary to use funds in excess of \$190,000,000 to carry out the State Facilities Incentive and Credit Enhancement for Charter Facilities programs.

Fund for the Improvement of Education (FIE)

The amended bill includes \$258,059,000 for the Fund for the Improvement of Education instead of \$205,402,000 as proposed by the House and \$218,699,000 as proposed by the Senate.

The amended bill includes funding for the following activities authorized under section 5411 of the Elementary and Secondary Education Act:

Evaluation and data quality initiative	\$1,823,000
National Institute of Building Sciences for the National Clearinghouse for Educational Facilities	700,000
Peer review	6,000
Reach Out and Read	4,000,000
Teach for America	12,000,000
Full Service Community Schools Demonstration ..	5,000,000

The Appropriations Committees direct that funds for the Full Service Community Schools Demonstration be used as specified in House Report 110-231.

Within the total amount provided for FIE, the amended bill also includes funding for separately authorized programs under title V, part D of the Elementary and Secondary Education Act in the following amounts:

Reading is Fundamental ...	\$25,043,000
Ready to Teach	10,890,000
Education through Cultural and Historical Organizations	8,910,000
Arts in Education	38,200,000
Parental Information and Resource Centers	39,600,000
Excellence in Economic Education	1,473,000
Mental Health Integration Grants	5,000,000
Women's Educational Equity	1,879,000
Presidential and Congressional American History and Civics Academies	1,980,000
Foundations for Learning Grants	982,000

For Arts in Education, the Appropriations Committees concur in the distribution of funds as follows: \$8,095,000 is for Very Special Arts, \$6,293,000 for the John F. Kennedy Center for the Performing Arts, \$13,158,000 for model arts programs, \$7,960,000 for model professional development programs for music, drama, dance and visual arts educators, and \$494,000 for evaluation activities. The Senate proposed a different allocation of funds and the House did not specify a detailed allocation of funds within this program.

In addition, the amended bill provides \$2,200,000 within this program for the Fast Response Survey System to collect data for the report of Arts Education in Public Elementary and Secondary Schools during the 2008-2009 school year, as described in Senate Report 110-107. The survey is to be administered by the National Center for Education Statistics, but with the Office of Innovation and Improvement and the Institute of Education Sciences (IES) jointly determining the scope of work of the project. The House proposed this funding level within IES. The Senate proposed \$500,000 within the Fund for the Improvement of Education for the survey and additional funding within IES.

The amended bill includes funds within FIE to support the following projects in the following amounts:

Other programs

The Appropriations Committees expect the increase over fiscal year 2007 for the Ready to Learn Program to be used for Ready to Learn outreach programs at the Corporation for Public Broadcasting.

The Appropriations Committees intend that funds provided for the Advanced Placement program be used first for the Advanced Placement Test Fee Program, estimated to require \$10,000,000 in fiscal year 2008. The remaining funds shall be used for continuing and new awards under the Advanced Placement Incentive Program Grants. The Department is encouraged to incorporate a priority for projects focused on the sciences, mathematics, and foreign languages in the fiscal year 2008 competition for new awards under the Advanced Placement Incentive Program.

SAFE SCHOOLS AND CITIZENSHIP EDUCATION

The amended bill includes \$705,733,000 for programs in the Safe Schools and Citizenship Education account instead of \$760,575,000 as proposed by the House and \$697,112,000 as proposed by the Senate.

The amended bill includes funding for the following national activities:

School Emergency Preparedness Initiative	\$32,374,000
Safe Schools/Healthy Students	79,200,000
Drug Testing Initiative	10,828,000
Postsecondary Ed Drug and Violence Prevention (including \$850,000 for the recognition program)	6,083,000
Violence prevention impact evaluation	1,146,000
National Institute of Building Sciences for the National Clearinghouse for Educational Facilities	300,000
Project SERV	1,500,000
Other activities	8,681,000

The Appropriations Committees continue to be concerned about the increasing problems of alcohol and drug abuse on college campuses. The Department is directed to use \$850,000 within the amount provided for Safe and Drug-Free Schools and Communities National Programs to identify, and provide recognition of, promising and model alcohol and drug abuse education programs in higher education.

The Appropriations Committees intend that funding recommended for school emergency preparedness activities be used for new grant awards to higher education institutions, in addition to school districts currently eligible, to develop and implement emergency management plans for preventing

campus violence (including assessing and addressing the mental health needs of students) and for responding to threats and incidents of violence or natural disaster in a manner that ensures the safety of the campus community. The Appropriations Committees intend that these funds be used to help institutions of higher education plan and prepare for the entire constellation of threats (terrorist attacks, natural disasters, shootings, and gang-related activity).

The amended bill also modifies language proposed by the House to permit Project SERV funds appropriated in fiscal year 2008 and in previous fiscal years to be used to provide services to school districts and institutions of higher education in which the learning environment has been disrupted due to a violent or traumatic crisis. The Senate bill did not include bill language allowing Project SERV funds to be awarded to institutions of higher education.

In addition, the recommended funding for the Office of Safe and Drug Free Schools will permit the Department to expand its examination of a variety of other school safety initiatives. The Appropriations Committees request that the Department update the 2002 Department of Education and U.S. Secret Service guidance titled "Threat Assessment in Schools: A Guide to Managing Threatening Situations and to Creating Safe School Climates" to reflect the recommendations contained in the report titled "Report to the President on Issues Raised by the Virginia Tech Tragedy." Within a year of the enactment of this Act, the Department shall disseminate the updated guidance to institutions of higher education and to State departments of education for distribution to all local education agencies.

For the Carol M. White Physical Education program, the Appropriations Committees affirm the original intent of the Physical Education program with respect to the use of funds for the purchase of equipment.

Within the funds provided for the Civic Education program, the amended bill includes \$20,413,000 for the We the People programs, including \$2,950,000 to continue the comprehensive program to improve public knowledge, understanding, and support of American democratic institutions, which is a cooperative project among the Center for Civic Education, the Center on Congress at Indiana University, and the Trust for Representative Democracy at the National Conference of State Legislatures. The amended bill also includes \$12,072,000 for the Cooperative Education Exchange program.

ENGLISH LANGUAGE ACQUISITION

The amended bill includes \$712,848,000 for the English Language Acquisition account

instead of \$774,614,000 as proposed by the House and \$670,819,000 as proposed by the Senate.

SPECIAL EDUCATION

The amended bill includes \$12,181,473,000 for the Special Education account instead of \$12,362,831,000 as proposed by the House and \$12,330,374,000 as proposed by the Senate. The agreement provides \$5,325,029,000 in fiscal year 2008 and \$6,856,444,000 in fiscal year 2009 funding for this account.

The bill includes \$40,000,000 for technology and media services as proposed by the Senate instead of \$36,928,000 as proposed by the House. Within this amount, \$1,500,000 is available for Public Telecommunications Information and Training Dissemination as proposed by the Senate. The House did not include funding for this activity. Also within this amount, the amended bill includes \$13,000,000 for the production and circulation of recorded textbooks and acceleration of digital technology as proposed by the Senate. The House provided \$11,880,000 for activities authorized by section 674(c)(1)(D) of the Individuals with Disabilities Education Act.

The amended bill includes language proposed by the Senate intended to improve the operation and performance of the National Instructional Materials Access Center. The House bill did not contain similar language.

Of the funding provided for the Special Olympics program, \$4,500,000 is for education activities authorized by the Special Olympics Sport and Empowerment Act and \$7,500,000 is designated for the 2009 Special Olympics World Winter Games.

REHABILITATION SERVICES AND DISABILITY RESEARCH

The amended bill includes \$3,283,929,000 for Rehabilitation Services and Disability Research instead of \$3,279,743,000 as proposed by the House and \$3,286,942,000 as proposed by the Senate.

The amended bill specifies \$8,300,000 within the National Institute on Disability and Rehabilitation Research to carry out the traumatic brain injury model systems of care program and to fund two additional centers that submitted applications for the last grant competition.

The amended bill provides \$1,000,000 to improve the quality of applied orthotic and prosthetic research and to help meet the demand for provider services as proposed by the Senate. The House bill did not include a similar provision.

The amended bill includes funds within demonstration and training programs to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Advocating Change Together, Inc., St. Paul, MN for a disability rights training initiative	97,000
Alaska Center for the Blind and Visually Impaired, Anchorage, AK, for a partnership with the Lions Club to expand low vision services to Alaskans	243,000

Southeast Alaska Independent Living, Inc, Juneau, AK, to continue a joint recreation and employment project with the Tlingit-Haida Tribe	195,000
Special Olympics of Iowa, Des Moines, IA, for technology upgrades	97,000
University of Northern Colorado National Center for Low-Incidence Disabilities, Greeley, CO, for support to local schools, educational professionals, families of infants, children, and youth with low-incidence disabilities	165,000
Vocational Guidance Services, Cleveland, OH for equipment and technology in order to increase employment for persons with disabilities	185,000

Within funds provided for assistive technology, the amended bill includes the funding levels provided by the House for State grants, protection and advocacy, and national activities rather than the levels provided by the Senate.

SPECIAL INSTITUTIONS FOR PERSONS WITH DISABILITIES

AMERICAN PRINTING HOUSE FOR THE BLIND

The amended bill includes \$22,000,000 for the American Printing House for the Blind as proposed by the Senate instead of \$17,573,000 as proposed by the House.

NATIONAL TECHNICAL INSTITUTE FOR THE DEAF

The amended bill includes \$60,757,000 for the National Technical Institute for the Deaf as proposed by the House instead of \$59,000,000 as proposed by the Senate.

GALLAUDET UNIVERSITY

The amended bill includes \$115,400,000 for Gallaudet University instead of \$109,952,000 as proposed by the House and \$111,000,000 as proposed by the Senate.

CAREER, TECHNICAL, AND ADULT EDUCATION

The amended bill includes \$1,976,166,000 for Career, Technical, and Adult Education instead of \$2,046,220,000 as proposed by the House and \$1,894,788,000 as proposed by the Senate. The amended bill provides \$1,185,166,000 in fiscal year 2008 funding, of which \$1,181,089,000 is available on July 1, 2008 and \$4,077,000 is available on October 1, 2007, and \$791,000,000 in fiscal year 2009 funding.

The amended bill specifies that \$67,896,000 is provided for integrated English literacy and civics education services to immigrants as specified by the Senate rather than \$71,622,000 as specified by the House.

The amended bill requires the Department to use Smaller Learning Communities pro-

gram funds only for activities related to establishing smaller learning communities within large high schools or small high schools that provide alternatives for students enrolled in large high schools as proposed by the House. The Department should follow the requirements contained in House Report 110-424 regarding consultation on the fiscal year 2008 Smaller Learning Communities grant competition and the submission of an operating plan.

The Department is encouraged to support initiatives that foster applied research, program improvement and evaluation, technology transfer and research-based institutional practices to improve adult and adolescent basic education and literacy instruction.

STUDENT FINANCIAL ASSISTANCE

(INCLUDING RESCISSION)

The amended bill includes \$16,114,317,000 for the Student Financial Assistance account instead of \$17,464,883,000 as proposed by the House and \$16,368,883,000 as proposed by the Senate.

The amended bill includes \$14,215,000,000 for Pell Grants to support a \$4,241 maximum award for the 2008-2009 award year. Under the College Cost Reduction Act, Public Law 110-84, an additional \$2,000,000,000 in mandatory funds is available for the Pell Grant program in fiscal year 2008. These mandatory funds, together with the discretionary funds provided in this amended bill, will support a total maximum Pell Grant of \$4,731 in the 2008-2009 award year, a \$421 increase over the 2007-2008 award year.

The amended bill also rescinds \$525,000,000 from unobligated balances under the mandatory Academic Competitiveness and SMART grants program. These balances are not needed to pay Academic Competitiveness

and SMART grant awards in the 2008-2009 award year and will offset additional costs in the Pell Grant program.

The Appropriations Committees direct the Department to provide the same funding as in fiscal year 2007 for the Work Colleges program authorized under section 448 of the Higher Education Act from the Federal Work-Study Programs appropriation.

HIGHER EDUCATION

The amended bill includes \$2,057,801,000 for the Higher Education account instead of \$2,176,533,000 as proposed by the House and \$2,040,302,000 as proposed by the Senate.

For Title VI International Education and Foreign Languages Studies programs, the Appropriations Committees concur in the direction in House Report 110-231 with regard to actions to respond to the National Research Council study on Title VI and Fulbright-Hays. The Department shall use one-third of the funding increase over fiscal year 2007 for Title VI domestic programs to expand the number of academic year and summer foreign language and area studies fellowships. A portion of the increase shall also be used to assist Title VI grantees to enhance databases and develop web portals to improve the dissemination of information produced under these programs to the public. Further, the Appropriations Committees direct that no funds shall be available for an e-learning clearinghouse and any funds diverted from Title VI programs for this purpose shall be restored.

The amended bill includes funds within the Fund for the Improvement of Postsecondary Education to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

The Appropriations Committees are concerned about the reduced level of participation of Hispanic students in the TRIO Talent Search program, and encourage the Secretary of Education to enhance program outreach efforts to Hispanics with the goal of increasing the participation rates of Hispanic students in Talent Search.

With regard to Teacher Quality Enhancement Grants, the Appropriations Committees intend that the increase provided over the amount needed for continuing awards in fiscal year 2008 be used solely for partnership grants to institutions of higher education, schools of arts and sciences, and high-need school districts that are focused on teacher pre-service preparation.

INSTITUTE OF EDUCATION SCIENCES

The amended bill includes \$555,815,000 for the Institute of Education Sciences (IES) instead of \$535,103,000 as proposed by the House and \$589,826,000 as proposed by the Senate. The agreement provides \$293,155,000 of total funding to be available through fiscal year 2009.

The amended bill includes language that permits funds available under the Statewide Data Systems program to be used for grants to States for data coordinators, who will increase State capacity to more seamlessly collect data from LEAs, utilize that data within state policy and educational improvement initiatives, and ensure that complete and proper data is reported to the Education Department and the public, in accordance with NCLB and other statutes. The bill language also allows for the Secretary to make an award or awards to improve data collection and coordination through a state education data center.

The Appropriations Committees request a report from the Department before any funds are obligated for these newly-authorized purposes that includes an assessment of the impact on funding available to States for the original purpose of the program's authorization; how the state education data center will ensure state and local reporting burden will be reduced; how the Department will maintain accountability provisions of the federal statutes under a third-party data collection regime; and the policies established or proposed to ensure that non-governmental organizations continue to have appropriate access to data collections.

The amended bill does not include funding requested by the Administration for a pilot study to develop a student unit record data system as proposed by the House. The Senate did not include similar language.

The Appropriations Committees support the expansion of the number of urban districts participating in the trial urban district assessment, as well as the administration of scheduled assessments in subjects approved by the National Assessment Governing Board (NAGB) and 12th grade State reading and math assessments. The amended bill provides funding flexibility if the NAGB is able to identify resources for these initiatives.

The National Assessment Governing Board is requested to make particular certifications regarding the National Assessment of Educational Progress 2009 science test, as described in section 310 of H.R. 3043, as passed by the Senate. The House bill did not include a similar provision.

The Government Accountability Office is requested to conduct a study on strategies used to prepare students to meet State academic standards, as described in section 313 of H.R. 3043, as passed by the Senate. The House bill did not include a similar provision.

DEPARTMENTAL MANAGEMENT

PROGRAM ADMINISTRATION

The amended bill includes \$418,587,000 for Departmental program administration in-

stead of \$219,487,000 as proposed by the House and \$420,631,000 as proposed by the Senate.

The Secretary of Education is required to assess the impact on education felt by students in States with a high proportion of Federal lands compared to students in non-public land States and to submit a report no later than one year after enactment of this Act. The Senate had a similar requirement in bill language. The House did not have similar language.

OFFICE FOR CIVIL RIGHTS

The amended bill includes \$91,205,000 for the Office for Civil Rights instead of \$93,771,000 as proposed by both the House and the Senate.

OFFICE OF THE INSPECTOR GENERAL

The amended bill provides \$51,753,000 for the Office of the Inspector General instead of \$53,239,000 as proposed by the House and \$54,239,000 as proposed by the Senate.

GENERAL PROVISIONS

ONE PERCENT TRANSFER AUTHORITY

(TRANSFER OF FUNDS)

The amended bill includes a general provision similar to that proposed by the Senate providing the Secretary of Education with the authority to transfer up to one percent of discretionary funds between appropriations, but no appropriation shall be increased by more than three percent by any such transfer. This transfer is available only to meet emergency needs. The Appropriations Committees are to be notified 15 days in advance of any transfer. The House bill included a similar provision, but allowed transfers for unanticipated needs and allowed an appropriation to be increased up to an additional two percent subject to approval of the Appropriations Committees.

INTEGRITY AND ETHICAL VALUES IN DEPARTMENT OF EDUCATION

The amended bill modifies a general provision proposed by the House requiring the Secretary of Education to establish procedures to assess whether covered individuals or entities have potential financial interest in or impaired objectivity regarding a product or service purchased with or guaranteed or insured by the Department of Education or one of its contracted entities. The Secretary is directed to disclose any such potential financial interest. The Department of Education Inspector General is directed to report on the adequacy of the procedures established by the Department and to conduct a review within one year to ensure that the procedures are effective. The Senate did not have a similar provision.

IMPACT AID

The amended bill modifies a general provision proposed by the Senate regarding Impact Aid to several school districts in Illinois by expanding eligibility for these districts for two years. The House did not have a similar provision.

VOLUNTARY FLEXIBLE AGREEMENT

The amended bill includes a general provision proposed by the Senate that requires the Secretary of Education to renegotiate the existing "voluntary flexible agreements" under the Higher Education Act, which allow student loan guaranty agencies to be compensated by the Federal government for preventing student loan defaults, rather than collecting on defaulted loans. The provision requires the Secretary to negotiate new, cost-neutral agreements by March 31, 2008 with any guaranty agency that had a voluntary flexible agreement that was determined not to be cost-neutral in October 2007, unless such guaranty agency does not wish to enter into such agreement. The House did not include a similar provision.

DEFINITION OF A HIGHER EDUCATION INSTITUTION

The amended bill includes a general provision not in either the House or Senate bill permitting continued student financial aid eligibility to an institution of higher education affiliated with an entity that filed a bankruptcy petition in 2001.

STUDENT FINANCIAL AID ADMINISTRATION (RESCISSION OF FUNDS)

The amended bill includes a general provision rescinding \$25,000,000 from excess student aid administration balances. The House and Senate bills did not contain this rescission.

IMPACT AID

The amended bill includes a general provision regarding eligibility for Impact Aid basic support payments to heavily impacted school districts in fiscal year 2008. The House and Senate bills did not include this provision.

UNDERGROUND RAILROAD

The amended bill does not include a general provision proposed by the Senate providing funding for the Underground Railroad Educational and Cultural Program, to be funded through an administrative reduction. The House did not have a similar provision. Funding for this activity is included in the Higher Education account.

UPWARD BOUND EVALUATION

The amended bill does not include a provision in Title III regarding a prohibition of funds to implement an evaluation of the Upward Bound program until after the authorizing committees have reviewed the regulation as proposed by the Senate. A similar provision was included in the House bill, and is included in Title V of the amended bill.

ANNUAL REPORT CARD

The amended bill does not include a provision included in the Senate bill requiring the Secretary of Education to submit to the appropriate committees of Congress and post on the internet an annual report card pertaining to Department personnel and programs. The House bill did not contain a similar provision.

SCIENCE ASSESSMENT

The amended bill does not include a general provision proposed by the Senate expressing the sense of the Senate regarding science teaching and the National Assessment of Educational Progress 2009 science test. The House did not have a similar provision. Language relating to this provision is included in the IES section of this statement.

STEM PROGRAMS

The amended bill does not include a general provision proposed by the Senate that provides funding for programs that assist teachers acquiring degrees in science, technology, engineering, math (STEM) or critical foreign languages. The Senate proposed an administrative reduction to support these program increases. The House did not include a similar provision. Funding for these programs is included in the Higher Education account.

THREAT ASSESSMENTS

The amended bill does not include a general provision proposed by the Senate that requires the Secretary of Education to update the 2002 guidance on threat assessment in schools to reflect the recommendations of the report to the President regarding the legal sharing of personal information under various statutes. The House did not include a similar provision. This issue is discussed in the Safe Schools and Citizenship Education section of this statement.

GAO REPORT ON ACHIEVEMENT STANDARDS

The amended bill does not include a general provision proposed by the Senate requiring the Government Accountability Office to submit a report to Congress on student preparation techniques to meet State academic achievement standards. The House did not include a similar provision. This issue is discussed in the IES section of this statement.

TITLE IV—RELATED AGENCIES

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$796,662,000 for the operating expenses of the programs administered by the Corporation for National and Community Service (CNCS) instead of \$768,905,000 as proposed by the House and \$804,489,000 as proposed by the Senate. The amended bill includes language specifying funding amounts for domestic volunteer service programs and national and community service programs as proposed by the House. The Senate did not specify funding levels in the bill. As proposed by the House, the amended bill includes language allowing one percent of grant funds also to be used for electronic management of the grants cycle. The Senate did not propose similar bill language.

DOMESTIC VOLUNTEER SERVICE PROGRAMS

The amended bill includes language that none of the funds provided for program operating expenses may be used to provide stipends or monetary incentives to program participants or volunteer leaders who exceed the income guidelines in the Domestic Volunteer Service Act. Both the House and Senate bills proposed similar language.

The amended bill does not include language proposed by the Senate that all prior year unobligated balances from the "Domestic Volunteer Service Programs, Operating Expenses" account shall be transferred to and merged with this appropriation. The House bill did not propose similar language.

NATIONAL AND COMMUNITY SERVICE PROGRAMS
National Service Trust

Within the total for National and Community Service programs, the amended bill includes language, as proposed by the House, designating that not more than \$55,000,000 of grants under the National Service Trust may be used to administer, reimburse, or support national service programs instead of \$65,000,000 as proposed by the Senate.

AMERICORPS GRANTS

The amended bill includes language, similar to Senate report language, allowing the transfer of any deobligated funds from closed out AmeriCorps grants to the National Service Trust. The House did not propose similar language.

The amended bill does not include language proposed by the Senate setting aside funding for grants under the National Service Trust program for activities under the AmeriCorps Education Awards Program. The House bill did not propose similar language.

The amended bill does not include language proposed by the Senate that up to \$4,000,000 shall be to support national service scholarships for high school students performing community service. The House did not propose similar language.

The amended bill does not include language proposed by the Senate that of the amount provided for educational awards, \$7,000,000 shall be held in reserve as defined by the Strengthen AmeriCorps Program Act. The House did not propose similar language.

Innovation, Assistance, and Other Activities

Within the amount for Innovation, Assistance, and Other Activities, the amended bill

includes the following: \$500,000 for Martin Luther King grants; \$5,000,000 for Disability grants; \$850,000 for the Service-Learning Clearinghouse and Exchange; and \$4,879,000 for National Service Outreach and Innovation activities.

Also within the total for Innovation, Assistance, and Other Activities, the amended bill includes \$8,000,000 for merit-based competitive grants for supporting and expanding volunteerism. The Appropriations Committees expect that previous partnership grantees, such as the Points of Light Foundation, America's Promise, and Communities in Schools, will be eligible to compete for these grants and recommend that consideration be given to national programs that build alignment among youth-serving organizations and other sectors to promote coordination of services for disadvantaged youth to achieve better outcomes.

The amended bill does not include language proposed by the Senate setting aside not more than \$10,466,000 for quality and innovation activities. The House did not propose similar language.

National Civilian Community Corps

The amended bill includes language designating that funding for the National Civilian Community Corps (NCCC) shall be available until September 30, 2009. Neither the House nor the Senate proposed similar language.

The amended bill includes language, as proposed by the Senate, that of the amount provided for NCCC, no less than \$5,000,000 shall be for the acquisition, renovation, equipping, and startup costs for campuses—one located in Vinton, Iowa and the other in Vicksburg, Mississippi. As proposed by the Senate, these center sites should be restored based on CNCS' 2005 geographic assessment and its more specific site evaluation in October 2006. The Appropriations Committees expect that an NCCC class will be operating out of each facility by the end of fiscal year 2008 as proposed by the Senate. The House did not propose similar language.

Learn and Serve America

The amended bill does not include language proposed by the House designating funding for service-learning programs to remain available until September 30, 2009. The Senate bill did not include similar language.

SALARIES AND EXPENSES

The amended bill includes \$68,964,000 for the Corporation for National and Community Service salaries and expenses, as proposed by the House, instead of \$69,520,000 as proposed by the Senate.

OFFICE OF INSPECTOR GENERAL

The amended bill includes \$5,932,000 for the Office of Inspector General (OIG) instead of \$5,512,000 as proposed by the House and \$6,900,000 as proposed by the Senate. The OIG is directed to continue reviewing the management of the National Service Trust and to continue reviewing the annual Trust reports and to notify the Committees on Appropriations of the House of Representatives and the Senate on the accuracy of the reports as proposed by the Senate. The House did not propose similar language.

ADMINISTRATIVE PROVISIONS

CHANGES THROUGH RULEMAKING

The amended bill includes language that CNCS shall make any changes to program requirements, service delivery, or policy only through public notice and comment rulemaking to include service delivery changes in the administration and/or governance of national service programs. Both the House and Senate proposed similar language.

PROFESSIONAL CORPS

The amended bill includes language proposed by the House allowing professional

corps programs to apply for a certain waiver to allow applicants to apply through State formula. The Senate did not propose similar language.

DONATED SERVICES

The amended bill includes language proposed by the House to allow CNCS to solicit and accept compensated and commercial services of organizations and individuals (other than participants) to assist in carrying out the duties of CNCS under the national service laws and that such an individual shall be subject to the same protections and limitations as volunteers. The Senate did not propose similar language.

COMBINED MATCHING OF GRANTS

The amended bill includes language proposed by the House specifying that AmeriCorps programs receiving grants under the National Service Trust program shall meet an overall minimum share requirement of 24 percent for the first three years that they receive funding and thereafter shall meet certain requirements as provided in the Code of Federal Regulations, without regard to the operating costs match requirement. The Senate did not propose similar language.

MANAGING STATE FORMULA GRANTS

The amended bill includes language that formula-based grants to States and territories to operate AmeriCorps programs may be made if the application describes certain criteria related to positions and qualifications and makes assurances with regard to subgrants prior to the execution of any subgrants. Neither the House nor the Senate proposed similar language.

OFFICE OF INSPECTOR GENERAL AUDITS

The amended bill does not include language proposed by both the House and Senate that the Inspector General shall conduct random audits of grantees that administer activities under the AmeriCorps programs and shall levy sanctions. The Appropriations Committees expect the Inspector General to continue conducting independent and objective audits and investigations to prevent and detect fraud, waste, and abuse as established in the Inspector General Act of 1978.

TRANSFER AUTHORITY

The amended bill does not include language proposed by the Senate to permit CNCS to transfer not to exceed one percent of any discretionary funds between activities. The House did not propose similar language.

CORPORATION FOR PUBLIC BROADCASTING

The amended bill includes language as proposed by the House that prohibits funds made available to the Corporation for Public Broadcasting by this Act to be used to apply any political test or qualification in selecting, appointing, promoting, or taking any other personnel action with respect to officers, agents, and employees of the Corporation. The Senate bill did not include a similar provision.

The amended bill also prohibits the use of fiscal years 2008, 2009, and 2010 funds available to CPB for the Television Future Fund as proposed by the House. The Senate bill included a similar provision.

FEDERAL MEDIATION AND CONCILIATION
SERVICE

SALARIES AND EXPENSES

The amended bill provides \$43,800,000 for the Federal Mediation and Conciliation Service instead of \$44,450,000 as proposed by both the House and the Senate. Within the total the amended bill does not provide any funds for the Federal Mediation and Conciliation Service's Labor-Management Grants Program as proposed in both the House and Senate bills.

INSTITUTE OF MUSEUM AND LIBRARY SERVICES
OFFICE OF MUSEUM AND LIBRARY SERVICES:
GRANTS AND ADMINISTRATION

The amended bill provides \$268,193,000 for the Institute of Museum and Library Services instead of \$264,812,000 as proposed by the House and \$265,680,000 as proposed by the Senate. The Appropriations Committees concur with language included in the House report that gives the Institute of Museum and Library Services the authority and resources to carry out the mission of the National Commission on Libraries and Information Science. The Senate report did not include

similar language. The amended bill also includes language allowing funds to be made available for grants to commemorative Federal commissions that support museum and library activities, similar to language proposed by the Senate.

Within the total for the Institute, the amended bill includes the following activities in the following amounts:

NATIONAL COMMISSION ON LIBRARIES AND
INFORMATION SCIENCE

SALARIES AND EXPENSES

The amended bill includes \$400,000 for the National Commission on Libraries and Information Science as proposed by the Senate. The House did not include funds for this activity. The Appropriations Committees instruct that these funds be used for the close out activities of the Commission.

NATIONAL LABOR RELATIONS BOARD

SALARIES AND EXPENSES

The amended bill includes \$256,238,000 for the National Labor Relations Board instead of \$256,988,000 as proposed by the Senate and \$257,488,000 as proposed by the House.

NATIONAL MEDIATION BOARD

SALARIES AND EXPENSES

The amended bill includes \$12,911,000 for the National Mediation Board instead of \$12,992,000 as proposed by both the House and Senate. Within the total for the National Mediation Board, \$669,000 is included to supplement the budget request for arbitration. These funds are provided for arbitrator salaries and should be used to address the backlog of section 3 arbitration cases. The House and Senate reports included similar language.

RAILROAD RETIREMENT BOARD

DUAL BENEFITS PAYMENT ACCOUNT

The amended bill includes language in the House bill providing that 2 percent of the amount available for payment of vested dual benefits will be available for the dual benefits contingency reserve. The Senate bill contained a similar provision that specifically designated the amount available.

LIMITATION ON THE OFFICE OF INSPECTOR
GENERAL

The amended bill includes \$7,173,000 for the Office of Inspector General instead of \$7,606,000 included in the House bill and \$8,000,000 included in the Senate bill. The amended bill includes language proposed by the Senate bill that prohibits the transfer of funds to the Office of the Inspector General. The House bill did not include similar language. The bill also includes a provision that allows the Office of Inspector General to conduct audits, investigations, and reviews of the Medicare programs. The House bill did not include similar language.

SOCIAL SECURITY ADMINISTRATION

SUPPLEMENTAL SECURITY INCOME PROGRAM

The amended bill includes \$27,000,191 for the Supplemental Security Income Program instead of \$26,948,525,000 as proposed by the House and \$27,005,500,000 as proposed by the Senate.

The amended bill provides funds to support the National Center on Senior Benefits Outreach and Enrollment within the Administration on Aging rather than in the Social Security Administration (SSA) as proposed by the Senate. The House did not provide funding for this activity within SSA.

LIMITATION ON ADMINISTRATIVE EXPENSES

The amended bill includes \$9,917,842,000 for the limitation on administrative expenses, instead of \$9,696,953,000 as proposed by the House and \$9,871,953,000 as proposed by the Senate. SSA is expected to utilize these funds to ensure that the backlog of initial disability claims grows no larger and to pursue actions that will begin the reduction in the current appeals hearings backlog and processing times. The Appropriations Committees note that funding above the President's request is required in order to prevent such negative outcomes.

While the President's request did include resources above the fiscal year 2007 level for

additional program integrity work, such as continuing disability reviews and redeterminations of eligibility, the amended bill does not include language requiring that funds be used for this purpose. Instead, the Appropriations Committees intend for SSA to allocate any funds not needed for timely processing of new disability claims and the hearings backlog reduction plan to such program integrity work.

The Appropriations Committees request that the Government Accountability Office (GAO) evaluate the Social Security Administration's plan to reduce the hearing backlog for disability claims at the Social Security Administration, as described in the report submitted by the Commissioner on September 13, 2007, pursuant to Senate Report 110-107. The Appropriations Committees further request that GAO also recommend any legislative changes based on its evaluation of the plan. The House did not propose similar language.

The Appropriations Committees also request that GAO assess existing authorities to hire, manage, and ensure accountability of administrative law judges in the proper administration of their duties and make recommendations for legislative changes that will support those findings. The Senate bill proposed similar language. The House did not propose similar language in either the bill or report.

OFFICE OF INSPECTOR GENERAL
(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$93,549,000 for the Office of Inspector General, instead of \$95,047,000 as proposed by the House and \$96,047,000 as proposed by the Senate.

TITLE V—GENERAL PROVISIONS

NORMAL AND RECOGNIZED EXECUTIVE-
CONGRESSIONAL COMMUNICATIONS

The amended bill includes a general provision as proposed by the House prohibiting the use of funds in the Act to promote the legalization of a drug or substance on the controlled substance list except for normal and recognized executive-congressional communications. The Senate bill included a similar prohibition, but deleted the exception for normal and recognized executive-congressional communications.

AGENCY OPERATING PLANS

The amended bill includes a general provision proposed by the House that requires each department and related agency funded through this Act to submit a fiscal year 2008 operating plan within 45 days of enactment of this Act. The Senate bill did not include a similar provision.

UPWARD BOUND EVALUATION

The amended bill includes a general provision proposed by the House that prohibits the use of funds to carry out the evaluation of the Upward Bound program described in the absolute priority for Upward Bound Program participant selection and evaluation published by the Department of Education in the Federal Register on September 22, 2006. The Senate bill contained a similar provision.

EMPLOYMENT OF UNAUTHORIZED WORKERS

The amended bill includes a provision proposed by the House that prohibits the use of funds in this Act to employ workers described in section 274A(h)(3) of the Immigration and Nationality Act. The Senate bill did not contain a similar provision.

NONCOMPETITIVE CONTRACTS AND GRANTS

The amended bill includes a provision proposed by the Senate that requires the Secretaries of Labor, Health and Human Services, and Education to submit a quarterly report to the Committees on Appropriations of the

House of Representatives and the Senate containing certain information on non-competitive contracts, grants and cooperative agreements exceeding \$100,000 in value. The House bill did not include a similar provision.

INSPECTOR GENERAL WEBSITES

The amended bill includes a general provision proposed by the Senate that requires departments, agencies, and commissions funded in the Act to maintain a direct link on their websites to the websites of their Inspector General. The House bill did not include a similar provision.

CONTRACTOR AND GRANTEE FEDERAL TAX
LIABILITY CERTIFICATIONS

The amended bill includes a general provision proposed by the Senate that prohibits the use of funds in this Act for a contract or grant exceeding \$5,000,000 unless the prospective contractor or grantee makes certain certifications regarding Federal tax liability.

PHYSICIAN QUALITY INCENTIVE PAYMENTS

The amended bill modifies a general provision proposed by the Senate to amend the Social Security Act by reducing the amount available for the physician quality incentive payments by \$150,000,000. The Senate provision also increased funding for the Social Security Administration by \$150,000,000. The amended bill allocates these funds under the Social Security Administration account. The House bill did not include this provision.

IRAQI AND AFGHAN SPECIAL IMMIGRANTS

The amended bill includes a general provision proposed by the Senate that authorizes resettlement assistance, entitlement programs, and other benefits for a period of up to six months to Iraqi and Afghan aliens granted special immigration status. The House bill did not include a similar provision.

FRAUDULENT SOCIAL SECURITY NUMBERS

The amended bill includes a general provision proposed by the Senate that prohibits funds in this Act to process claims for credit for quarters of coverage based on work performed under a Social Security number that was not the claimant's number if such use of the Social Security number has been found to be an offense prohibited under section 208 of the Social Security Act. The House bill did not include a similar provision.

ACROSS THE BOARD REDUCTION

The amended bill includes rescission of approximately 1.7 percent of the budget authority provided for fiscal year 2008 for any discretionary account in this Act. This reduction shall be applied proportionately to each such discretionary account and each item of budget authority, and within each such account and item, to each program, project, and activity, pursuant to section 528. Within 30 days of enactment of this Act, the Director of the Office of Management and Budget shall submit to the Committees on Appropriations a report specifying the account and amount of each rescission made pursuant to this section.

PROHIBITION OF PRIVATE ENTITY TO DISBURSE
RAILROAD RETIREMENT BENEFITS

The amended bill does not include a general provision proposed by the Senate that prohibits the Railroad Retirement Board from using funds in this Act to utilize a non-governmental financial institution to disburse railroad retirement benefits. The enactment of Public Law 109-305 makes this provision unnecessary. The House bill did not include a similar provision.

AGENCY BUDGET JUSTIFICATIONS

The amended bill does not include a general provision proposed by the House that requires the Departments of Labor and Health and Human Services to provide Congressional budget justifications in the format used by the Department of Education. The Senate bill did not include a similar provision.

EMPLOYMENT VERIFICATION PILOT PROGRAM

The amended bill does not include a general provision that prohibits the use of funds to enter into a contract with an entity that does not participate in the basic pilot program described in section 403(a) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996. The Senate bill did not contain a similar provision.

DEPUTY COMMISSIONER OF THE SOCIAL SECURITY ADMINISTRATION

The amended bill does not include a general provision proposed by the House that prohibits the use of funds in this Act to pay the basic pay of the Deputy Commissioner of the Social Security Administration if such individual has not been confirmed by a vote of the Senate. The Senate bill did not contain a similar provision.

HUMAN PAPILLOMAVIRUS VACCINE

The amended bill does not include a general provision proposed by the House that prohibits the use of funds in this Act to implement any requirement that individuals receive vaccination for human papillomavirus (HPV) as a condition of school admittance or matriculation. The Senate bill did not contain a similar provision.

SCHOOL IMPROVEMENT PROGRAMS

The amended bill does not include a general provision proposed by the House that reduces funds for the Department of Labor management expenses and increases funds for Department of Education school improvement programs. The Senate bill did not contain a similar provision.

ORGAN TRANSPLANT REGULATION

The amended bill does not include a general provision proposed by the House that prohibits the use of funds by the Centers for Medicare & Medicaid Services to implement certain portions of the final rule published on March 30, 2007 pertaining to organ transplant centers. The Senate bill did not contain a similar provision.

DEPARTMENT OF EDUCATION OFFICE OF CIVIL RIGHTS

The amended bill does not include a general provision proposed by the House that increases and decreases funds for the Department of Education Office of Civil Rights. The amended bill reflects funding for this office under the appropriate account. The Senate bill did not include a similar provision.

EDUCATION FOR THE DISADVANTAGED

The amended bill does not include a general provision proposed by the House that increases and decreases funds for the Department of Education, Education for the Disadvantaged account. The amended bill provides funding for these programs under the appropriate account. The Senate bill did not include a similar provision.

CENTERS FOR DISEASE CONTROL

The amended bill does not include a general provision proposed by the House that prohibits the use of funds in this Act for the Entertainment Education Program, the Ombudsman Program of the Centers for Disease Control (CDC), and for certain equipment for its fitness center. A similar prohibition of funds proposed by the Senate for the CDC Ombudsman Program and for certain equip-

ment for CDC's fitness center is included under the Title II General Provisions.

USE OF ENERGY STAR LIGHT BULBS

The amended bill does not include a provision proposed by the House to prohibit the use of funds in this Act to purchase light bulbs without an "ENERGY STAR" designation. The Senate bill did not contain a similar provision.

ATTENDANCE AT INTERNATIONAL CONFERENCES

The amended bill does not include a general provision proposed by the House that prohibits the use of funds in this Act for the attendance of more than 50 employees from a Federal agency at any international conference. The Senate bill did not include a similar provision.

DEPARTMENT OF LABOR TRAINING AND EMPLOYMENT SERVICES AND THE NATIONAL INSTITUTES OF HEALTH

The amended bill does not include a general provision proposed by the House that reduces amounts otherwise provided in this Act for the Department of Labor for training and employment services and increases amounts for certain institutes of the National Institutes of Health (NIH). The amended bill provides funds for the NIH under the appropriate accounts. The Senate bill did not include a similar provision.

SUNDANCE FILM FESTIVAL

The amended bill does not include a general provision proposed by the House that prohibits the use of funds by the Public Broadcasting Service to sponsor events at the Filmmaker Lodge at the Sundance Film Festival. The Senate bill did not include a similar provision.

HOSPITAL INPATIENT PROSPECTIVE PAYMENT REGULATION

The amended bill does not include a general provision proposed by the House that prohibits the use of funds in the Act to implement certain provisions in a proposed regulation published on May 3, 2007 pertaining to a hospital inpatient prospective payment system based on the use of a Medicare severity diagnosis related group, or to implement a prospective behavioral offset in response to implementation of such a payment system. The Senate bill did not include a similar provision.

CONGRESSIONAL PROJECTS

The amended bill does not include a general provision proposed by the Senate that prohibits the use of funds in the Act for Congressionally directed projects, unless the specific project has been disclosed in accordance with the rules of the Senate or House of Representatives. The Appropriations Committees concur that such projects are already subjected to the rules of each body. The House bill did not include a similar provision.

BETHEL PERFORMING ARTS CENTER

The amended bill does not include a general provision proposed by the Senate that prohibits the use of funds by the Institute for Museum and Library Services (IMLS) for the Bethel Performing Arts Center and make certain other funding adjustments within the IMLS and Health Resources and Services Administration accounts. The House bill did not include a similar provision.

GAO REPORT ON SOCIAL SECURITY ADMINISTRATION DISABILITY CLAIMS BACKLOG

The amended bill does not include a provision proposed by the Senate that requires the Government Accountability Office to submit a report to Congress evaluating the Social Security Administration's plan to reduce its hearing backlog for disability claims and to improve the disability process. This reporting requirement is included under

the Social Security Administration account. The House bill did not include a similar provision.

GAO REPORT ON ADMINISTRATIVE LAW JUDGES

The amended bill does not include a provision proposed by the Senate that requires the Government Accountability Office to submit a report to Congress making recommendations on ways to improve the hiring and managing of administrative law judges. This reporting requirement is included under the Social Security Administration account. The House bill did not include a similar provision.

SOCIAL SECURITY OFFICE CLOSURE IN BRISTOL, CT

The amended bill does not include a provision proposed by the Senate that prohibits funds in this or any other Act to close the Bristol, CT Social Security Administration field office before the date on which the Commissioner of the Social Security Administration submits a detailed report outlining and justifying the process for selecting field offices to be closed. The House bill did not include a similar provision.

ILLEGAL DRUG INJECTION FACILITIES

The amended bill deletes without prejudice a general provision proposed by the Senate that prohibits funds in the Act from being allocated, directed, or otherwise made available to cities that provide safe haven to illegal drug users through the use of illegal drug injection facilities. The House bill did not include a similar provision.

SUPPLEMENTAL H-1B VISA FEES

The amended bill does not include a general provision proposed by the Senate to amend the Immigration and Nationality Act to require a supplemental H-1B visa fee, authorize a scholarship program at the National Science Foundation (NSF), and dedicate funds collected from such fees to the new NSF scholarship program and the Jacob K. Javits Gifted and Talented Students Education Act of 2001. The House bill did not contain a similar provision.

RECAPTURE OF UNUSED IMMIGRANT VISAS

The amended bill does not include a general provision proposed by the Senate to amend the American Competitiveness in the Twenty-first Century Act of 2000 to recapture prior year unused employment-based immigrant visas for nurses and require the Secretary of Homeland Security to establish a process for reviewing and acting on petitions for these visas. The House bill did not contain a similar provision.

NURSES AND OTHER HEALTH CARE PROFESSIONALS

The amended bill does not include a general provision proposed by the Senate to amend the American Competitiveness in the Twenty-first Century Act of 2000 to establish a fee for recaptured nurse visas, amend the Public Health Service Act to authorize a program of capitation grants to schools of nursing using such fees, and amend the Immigration and Nationality Act to provide for the temporary absence of aliens providing health care in developing countries. The House bill did not contain a similar provision.

PREMIUM AIRLINE TRAVEL

The amended bill does not include a general provision proposed by the Senate that prohibits funds in this Act for the purchase of first class or premium airline travel that would not be consistent with sections 301-10.123 and 301-10.124 of title 41 of the Code of Federal Regulations. The House did not contain a similar provision.

TITLE VI—NATIONAL COMMISSION ON CHILDREN AND DISASTERS

The amended bill includes language establishing a National Commission on Children

and Disasters to conduct a study and make recommendations on the needs of children as they relate to preparation for, response to, and recovery from all hazards, including major disasters and emergencies.

**DISCLOSURE OF EARMARKS AND
CONGRESSIONALLY DIRECTED SPENDING ITEMS**

DIVISION H—LEGISLATIVE BRANCH
APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Legislative Branch Appropriations Act, 2008, H.R. 2771 passed by the House of Representatives, and S. 1686 reported by the Senate Appropriations Committee.

Many items in both versions of the Legislative Branch Appropriations bills are identical and are included in the amended bill without change. The Appropriations Committees have endorsed statements of policy contained in the House and Senate reports accompanying the respective Legislative Branch Appropriations bills unless amended or restated herein. With respect to those items in the amended bill that differ between House and Senate Legislative Branch bills, the Committees have agreed to the following with the appropriate section numbers, punctuation, and other technical corrections:

TITLE I

SENATE

The Appropriations Committees agree to appropriate \$834,031,000 for Senate operations. Inasmuch as these items relate solely to the Senate, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the House has accepted the proposal of the Senate.

HOUSE OF REPRESENTATIVES

The Appropriations Committees agree to appropriate \$1,188,211,000 for House operations. Inasmuch as these items relate solely to the House, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the Senate has accepted the proposal of the House.

JOINT ITEMS

JOINT ECONOMIC COMMITTEE

The amended bill includes \$4,398,000 as proposed by the House and the Senate.

JOINT COMMITTEE ON TAXATION

The amended bill includes \$9,220,000 instead of \$9,416,000 as proposed by the House and the Senate.

JOINT CONGRESSIONAL COMMITTEE ON
INAUGURAL CEREMONIES OF 2009

The amended bill includes \$1,240,000 instead of \$1,250,000 as proposed by the Senate.

OFFICE OF THE ATTENDING PHYSICIAN

The amended bill includes \$2,798,000 instead of \$2,820,000 as proposed by the House and the Senate.

CAPITOL GUIDE SERVICE AND SPECIAL
SERVICES OFFICE

The amended bill includes \$5,348,000 for the Capitol Guide Service and Special Services Office instead of \$4,448,000 as proposed by the House and \$7,864,000 as proposed by the Senate.

STATEMENTS OF APPROPRIATIONS

The amended bill includes \$30,000 as proposed by the House and the Senate.

CAPITOL POLICE

SALARIES

The amended bill provides \$232,800,000 for salaries and benefits of the United States Capitol Police (USCP), instead of \$224,500,000 as proposed by the House and \$225,930,000 as proposed by the Senate. This level will support current sworn staffing of 1,671 and 10 new officers associated with Library of Congress attrition. An additional 21 new officers for the Capitol Visitor Center are authorized for fiscal year 2008, providing total sworn personnel of 1,702. In addition, funding is provided to support 391 civilian personnel. The Chief of Police is to submit a prioritized listing of the current authorized 414 civilian personnel to the Appropriations Committees no later than February 1, 2008.

The amended bill includes costs associated with additional duty hours. Section 1003 transfers funds from the Architect of the Capitol to the USCP for security costs associated with the utility tunnel repairs and asbestos abatement. Understanding this is a multi-year project, the Chief of Police is to provide the Appropriations Committees with a cost-benefit analysis of continuing to provide this security with overtime versus additional new officers by March 3, 2008. The Committees have denied \$500,500 in overtime associated with the new requirement of staffing the New Visitor Experience at the Library of Congress beginning April 1, 2008. Should the Librarian of Congress open this facility prior to the public opening of the Capitol Visitor Center, associated overtime must be funded within the Library of Congress appropriation.

GENERAL EXPENSES

The amended bill provides \$48,900,000 for general expenses of the Capitol Police, instead of \$61,500,000 as proposed by the House and \$58,070,000 as proposed by the Senate. The Committees direct that \$4,600,000 for general expenses in support of the 2008 conventions be funded with available unobligated balances, subject to the approval of the Appropriations Committees.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

The Committees have included an administrative provision, section 1001, which authorizes transfers between various accounts upon the approval of the Appropriations Committees. Sec. 1002 provides advance payment authority for subscription services, subject to prior notification. In regard to any advance payment for subscription services, a discount offered to the USCP must exceed the cost of the funds per the rate published by the United States Treasury (1 TFM 6-8040.40). Section 1003 provides for security costs associated with the utility tunnel project. Section 1004 includes language that finalizes the merger of the Library of Congress Police into the Capitol Police.

OFFICE OF COMPLIANCE

SALARIES AND EXPENSES

The amended bill includes \$3,350,000 instead of \$3,806,000 as proposed by the House and the Senate.

ADMINISTRATIVE PROVISION

Section 1101 authorizes increased compensation for the board and officers of the Office of Compliance.

CONGRESSIONAL BUDGET OFFICE

SALARIES AND EXPENSES

The amended bill includes \$37,399,000 for salaries and expenses of the Congressional Budget Office instead of \$37,805,000 as proposed by the House and \$38,510,000 as proposed by the Senate.

ADMINISTRATIVE PROVISION

The amended bill includes language permitting the Director of the Congressional Budget Office to conduct an executive exchange program with the private sector.

ARCHITECT OF THE CAPITOL

GENERAL ADMINISTRATION

The amended bill includes \$79,897,000 of which \$400,000 shall remain available until September 30, 2012 for General Administration instead of \$81,733,000 of which \$400,000 would remain available until September 30, 2012 as proposed by the House, and \$81,584,000 of which \$1,119,000 would remain available until September 30, 2012 as proposed by the Senate.

6. West Grand Stair Enclosure	1,190,000
7. Minor Construction	3,000,000

Total, Capitol Building

CAPITOL GROUNDS

The amended bill includes \$10,090,000 for the care and improvements of the grounds surrounding the Capitol, House and Senate office buildings, and the Capitol Power Plant, of which \$500,000 will remain available until September 30, 2012, instead of \$9,310,000 of which \$500,000 would remain available until September 30, 2012 as proposed by the House, and \$9,915,000 of which \$325,000 would remain available until September 30, 2012 as proposed by the Senate.

With respect to operations and projects, the Appropriations Committees have agreed to the following:

Operating Budget	\$9,010,000
Project Budget:	
1. Perimeter Fence Replacement, Parking Lots	40,000
2. Stabilization and Life Safety Projects, Summer House	540,000
3. Greening of the Capitol Initiative	500,000

Total, Capitol Grounds

SENATE OFFICE BUILDINGS

The amended bill includes \$70,283,000, of which \$14,400,000 would remain available until September 30, 2012, for the maintenance, care and operation of the Senate office buildings. Inasmuch as these items relate solely to the Senate, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the House has accepted the proposal of the Senate.

Operating Budget	\$54,858,000
Project Budget:	
1. Legislative Call System Replacement 3	350,000
2. Refinish Historic Woodwork	175,000
3. Repair Marble Floors & Clean Arch Surfaces	250,000

HOUSE OFFICE BUILDINGS

The amended bill includes \$65,635,000, of which \$25,400,000 would remain available until September 30, 2012, for the maintenance, care and operation of the House office buildings. Inasmuch as these items relate solely to the House, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the Senate has accepted the proposal of the House.

The Committees note the initiation of a pilot project at the Cannon and Longworth

House Office Buildings to evaluate green roof technology. Green roofs have been shown to reduce storm water runoff, reduce cooling and heating costs, and protect the underlying roof systems to extend their useful life.

Operating Budget	\$39,835,000
Project Budget:	
1. Legislative Call System Replacement	400,000
2. Emergency Lighting Upgrade, RHOB (Phase 2)	4,390,000

CAPITOL VISITOR CENTER

The amended bill includes \$28,753,000 for the Capitol Visitor Center as proposed by the Senate instead of \$27,545,000 as proposed by the House. Of this amount, \$8,500,000 may be used for operations.

With respect to operations and projects, the Appropriations Committees have agreed to the following:

Operating Budget	\$8,500,000
Project Budget:	
1. Capitol Visitor Center Construction	20,253,000

Total, Capitol Visitor Center

ADMINISTRATIVE PROVISIONS

The amended bill includes several administrative provisions related to the operations

of the Architect of the Capitol (AOC). Section 1301 establishes the Office of the Inspector General. Section 1302 provides authorization for a pilot program for flexible work schedules. Section 1303 authorizes the payment of travel and transportation expenses of new appointees. Section 1304 provides advance payment authority for subscription services, subject to prior notification. In regard to any advance payment for subscription services, a discount offered to the AOC must exceed the cost of the funds per the rate published by the United States Treasury (I TFM 6-8040.40). Section 1305 provides for the maintenance of the Capitol Visitor Center. Section 1306 adjusts the approval process for leasing authority. Section 1307 provides authority for the Architect of the Capitol to grant easements for rights-of-way on all property designated as Capitol Grounds. Section 1308 provides authority for the Architect to award design-build construction contracts. Section 1309 provides for the appointment of the assistant to the Chief Executive Officer for Visitor Services.

LIBRARY OF CONGRESS

SALARIES AND EXPENSES

The amended bill includes \$395,784,000 for salaries and expenses, Library of Congress instead of \$401,000,000 as proposed by the House and \$407,811,000 as proposed by the Senate. Of this amount \$6,350,000 is made available from receipts collected by the Library of Congress and is to remain available until expended, and up to \$16,451,000 is to remain available until September 30, 2010 for partial acquisition of books, periodicals, newspapers, and all other library materials. The amended bill also includes specific amounts for designated purposes. The amount provided includes \$50,000 for the digitization of the Theodore Roosevelt papers.

As a result of cumulative operating plan funding realignments between pay and non-pay, the relationship between the pay base and authorized FTEs has become out of balance. To correct this imbalance, with the submission of the fiscal 2008 operating plans, appropriations adjustments must be reflected in the authorized FTE base to coincide with the base funding reflected in pay. The Committees expect the authorized FTE base for the Library to be supported by the pay base reflected in the Fiscal Year 2008 operating plans.

COPYRIGHT OFFICE

SALARIES AND EXPENSES

The amended bill includes \$5,334,000, and an additional \$44,224,000 made available from receipts, for salaries and expenses, Copyright Office instead of \$5,603,000, with an additional \$44,224,000 made available from receipts as proposed by the House and \$4,906,000 with an additional \$45,196,000 made available from receipts as proposed by the Senate. The Appropriations Committees have agreed to language proposed by the House requiring the salaries of Copyright Royalty Judges to be paid from appropriated funds.

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

The amended bill includes \$102,601,000 for salaries and expenses, Congressional Research Service, Library of Congress instead of \$104,518,000 as proposed by the House and \$102,892,000 as proposed by the Senate.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

The amended bill includes \$67,091,000 instead of \$67,741,000 as proposed by the House and \$67,690,000 as proposed by the Senate. Of this amount \$20,704,000 is to remain available until expended. The Appropriations Commit-

tees have included \$650,000 for distribution of newspaper services to the blind and \$12,500,000 for the Digital Talking Book project.

ADMINISTRATIVE PROVISIONS

The amended bill includes several administrative provisions. Section 1401 provides for expenses related to official representation for the incentive awards program. Section 1402 provides obligation authority for various Library programs. Section 1403 changes the audit requirements for the Cooperative Acquisitions Program Revolving Fund. Section 1404 provides authority to transfer funds between Library accounts, subject to the approval of the Appropriations Committees.

GOVERNMENT PRINTING OFFICE

CONGRESSIONAL PRINTING AND BINDING

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$90,000,000, instead of \$84,692,000 as proposed by the House and \$95,365,000 as proposed by the Senate.

OFFICE OF THE SUPERINTENDENT OF DOCUMENTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$35,000,000, instead of \$35,434,000 as proposed by the House and \$38,231,000 as proposed by the Senate.

GOVERNMENT PRINTING OFFICE REVOLVING FUND

The amended bill provides no additional funding, instead of \$2,450,000 proposed by the House and \$5,000,000 proposed by the Senate. The amended bill includes language insuring that GPO police officers are responsible for the security of the GPO passport production facility. GPO is directed to initiate an independent review of security at this facility and develop an implementation plan within 180 days of enactment to improve security using existing sworn officer positions, for approval by the Appropriations Committees and the Joint Committee on Printing.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

The amended bill includes \$508,510,000 of which \$7,510,000 is from offsetting collections, for salaries and expenses, Government Accountability Office instead of \$510,838,000 as proposed by the House and \$517,830,000 as proposed by the Senate.

The amended bill includes up to \$2,500,000 for technology assessment studies. As technology continues to change and expand rapidly it is critical that the consequences of technological applications be anticipated, understood, and fully considered in determinations of public policy regarding existing and emerging national issues. The Committees direct the Comptroller General to make certain that GAO is able to provide effective means for securing competent, timely and unbiased information to Congress regarding the effects of scientific and technical developments.

ADMINISTRATIVE PROVISIONS

Section 1501 authorizes a contract appeals board for legislative branch agencies in GAO. Section 1502 repeals a number of outmoded Congressional mandates for GAO audits.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

The amended bill includes \$9,000,000 for payment to the Open World Leadership Center Trust Fund. The House had proposed \$6,000,000 and the Senate had proposed \$13,500,000.

ADMINISTRATIVE PROVISIONS

The amended bill includes a provision requiring the Board of Trustees of the Open World Leadership Center to develop poten-

tial options for transfer of that agency to the executive branch, establishment of the Center as an independent establishment under the executive branch, or other appropriate options. The Committees include this provision instead of transferring the agency to the Department of State, as proposed by the House.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

The amended bill includes \$430,000 as proposed by both the House and the Senate.

TITLE II—GENERAL PROVISIONS

In Title II—General Provisions, the amended bill includes eight general provisions that were in both the House and Senate bills.

The Committees direct the Capitol Guide Service and the Architect of the Capitol to take no action to eliminate staff-led tours of the U.S. Capitol. Members view staff-led tours as an important part of their constituent service duties and feel strongly that they must be allowed to continue after the Capitol Visitor Center opens. Obviously, temporary curtailments are allowed, as they are now, in the event of an emergency or to accommodate large events in the Capitol (such as the State of the Union Address, inaugurations, state funerals, joint addresses).

The Committee directs that all staff members who conduct tours of the Capitol be required to receive training on the history of the Capitol and Congress. The Committee directs the Chief Executive Officer for Visitor Services to submit for approval by the Committee on House Administration, the Senate Committee on Rules, and the House and Senate Committees on Appropriations, within 60 days of enactment of this Act, a plan to allow for the continuation of staff-led tours. The plan must include an out-year funding plan to facilitate the tours and also identify any training or certification recommendations. Any life safety or security concerns should also be identified in this report.

Section 210 applies an across-the-board cut to all agencies of .25%.

BUDGET AUTHORITY TOTAL—WITH COMPARISONS
